

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Pursuant to Chapter 2003-145, Laws of Florida, all notices for the Department of Environmental Protection are published on the Internet at the Department of Environmental Protection’s home page at <http://www.dep.state.fl.us/> under the link or button titled “Official Notices.”

DEPARTMENT OF HEALTH

The Board of Optometry hereby gives notice that it has received a Petition for Declaratory Statement filed on February 20, 2006 on behalf of Perceptual Development Corporation of Long Beach, California. The Petitioner seeks the Board’s guidance concerning a patented technology known as the “Irlen Method.” This includes a request that the Board issue a Declaratory Statement providing guidance as to whether the Irlen Method is or is not the practice of Optometry. This request is made in light of non-optometrists in Florida requesting a license to use the technology and research demonstrating that the dysfunction being treated is not an abnormality of the eye but of the brain.

Copies of the petition may be obtained by writing: Joe Baker, Jr., Executive Director, Board of Optometry, 4052 Bald Cypress Way, Bin C07, Tallahassee, Florida 32399-3257.

DEPARTMENT OF EDUCATION

NOTICE TO CONSTRUCTION MANAGERS

Florida A&M University, announces that construction management services will be required for the project listed below:

Project No. FM-307, University Commons Renovations, Florida A & M University, Tallahassee, Florida 32307.

This project consists of renovations to the existing University Commons building, a 57,062 gsf two-story facility constructed in 1955 as a replacement of the original wood structure of 1924. Minor renovations and maintenance are no longer able to keep the building in a habitable condition. A large portion of the building, at both floor levels, is abandoned and unusable. The existing HVAC system is not functional, plumbing systems have deteriorated, restroom facilities are in poor condition throughout the building and existing services and switchgear are in need of replacement. Structural problems exist. Partitions cannot be removed without structural modifications. Large areas of the existing roof are in poor condition. Complete window replacement are necessary due to the poor condition and lack of thermal efficiency. Wood flooring is failing in approximately 20% of the building. The building has life safety problems and does not meet ADA standards. The project scope includes restoration of the building’s envelope, replacement of the buildings plumbing and air conditioning system, total replacement of the electrical wiring, complete roof replacement, asbestos abatement, replacement of structural systems and correction of life safety and ADA standards.

The estimated construction budget is \$9,364,200.

The contract for construction management services will consist of two phases. Phase one is pre-construction services, for which the construction manager will be paid a fixed fee. Phase one services include value engineering, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) at 50% Construction Document phase. If the GMP is accepted, phase two, the construction phase, will be implemented. In phase two of the contract, the construction manager becomes the single
