Each Team will be under the direction of the Florida Department of Law Enforcement ~~Special Agent in Charge Regional Director~~ for the area of the state in which the Team operates. RULE TITLES:

- Fiscally Constrained Counties
- Tri-Annual Reporting

PURPOSE AND EFFECT: The proposed rule amendments revise the methodology by which fiscally constrained counties are proportionately assessed for predisposition detention care when costs exceed the legislative appropriation. Amendments are also made to the reporting and reconciliation cycle.

SUMMARY: The timeline for notifying fiscally constrained counties of an estimated shortfall is moved to the end of July. Reporting of counties' actual usage has been reduced from four to three times per year, and corresponding changes are made to the reconciliation and dispute procedures.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULES IS:

63G-1.005 Fiscally Constrained Counties.

(1) Each fiscally constrained county will be assigned a percentage computed by dividing its previous year's number of predisposition detention days by the total number of predisposition detention days used by all fiscally constrained counties during the previous year.

(2) Each county's percentage is multiplied by the amount appropriated by the legislature to pay the costs of detention care. For informational purposes, fiscally constrained counties will be invoiced for their prorated monthly share.

(3) If the total number of predisposition service days actually used by all fiscally constrained counties combined exceeds the previous year's usage for which appropriation was made by the legislature, matching funds will be required to make up the shortfall. Fiscally constrained counties will be assessed for the amount of the shortfall under the following methodology:

(a) The total number of ~~excess~~ service days will be translated into a dollar figure based upon the percentage of increase over the original budgeted amount.

(b) Each fiscally constrained county will be responsible for a share of the shortfall computed by multiplying its assigned percentage calculated in subsection (1) by the total shortfall computed in paragraph (3)(a).

(4) The department shall determine whether an estimated shortfall is likely by July 31 at the end of the third quarter. If a shortfall is expected, the department shall provide fiscally constrained counties an estimate of their share of the expected shortfall on or before August 15 June 1.

(5) Fiscally constrained counties will be billed for their share of the shortfall in equal monthly installments beginning November 1 through May 1 by August 1, and payment is due no later than November 1.

63G-1.007 ~~Tri-Annual~~ Quarterly Reporting.

(1) ~~Every four months~~ Each quarter, the Department shall prepare a report to determine the extent of each county's actual usage. The report is to assist counties in fiscal planning and budgeting, and is not a substitute for the annual reconciliation or grounds for adjusting or withholding payment.

(2) The report shall contain the following information:

- (a) Youth's name;
- (b) Youth's address at the time of the referral;
- (c) Sex;
- (d) Date of birth;
- (e) Name of parent or guardian;
- (f) Phone contact, and;
- (g) Number of detention days.

(3) The report will be provided to counties ~~75 45~~ days after the end of October, February and June ~~each quarter~~.

(4) The limited release of juvenile identifying information contained in each county's quarterly report is confidential. The release will not include treatment or charging information, is limited to the county official(s) designated to receive the report, and is not to be used for any purpose other than that of verifying the provision of detention services.

Specific Authority 985.2155(10) FS. Law Implemented 985.2155(7) FS. History--New 7-16-06, Amended.

63G-1.008 Annual Reconciliation.

(1) On or before January 31 ~~November 30~~ of each year, the Department shall provide a reconciliation statement to each paying county. The statement shall reflect the difference between the estimated costs paid by the county during the past fiscal year and the actual cost of the county's usage during that period.

(2) If a county's actual usage is found to have exceeded the amount paid during the fiscal year, the county will be invoiced for the excess usage. The invoice will accompany the reconciliation statement, and shall be payable on or before April 1 ~~January 31~~.

(3) If a county's actual usage was less than the estimated amounts paid during the fiscal year, the county will be credited for its excess payments. Credit will be reflected in the April ~~November~~ billing mailed March 1, and will carry forward as necessary.

Specific Authority 985.2155(10) FS. Law Implemented 985.2155(5) FS. History--New 7-16-06, Amended.

63G-1.009 Dispute Resolution and Collection.

(1) The ~~tri-annual~~ quarterly reporting marks the point at which a county may take issue with the charges referenced in the report, but it cannot be the basis for withholding payment. Adjustments, including those necessitated by dispute resolution, cannot be made until the annual reconciliation.

(2) Disputes based upon a ~~tri-annual~~ ~~quarterly~~ report, such as those relating to the residence of served youth or the number of chargeable service days, must be brought within 90 days of receipt of the ~~tri-annual~~ ~~quarterly~~ report to which the dispute pertains.

(3) General objections, such as those seeking confirmation of a youth's county of residence, will be summarily denied. Disputes involving a detained youth's county of residence must include one or more of the following indicia of specificity:

- (a) An alternative address asserted to be correct;
- (b) Supporting documentation, and;
- (c) An explanation of the basis for the dispute on form 63G-1-1.

(5) Form 63G-1-1 (May 2006), "Notice of Disputed Detention Charge," is incorporated by reference and is available from the Bureau of Finance and Accounting in Tallahassee.

(6) The Department's response constitutes final agency action and may be challenged through the process available in Chapter 120, F.S.

69U-110.043 Reserves Allowance for Loan Losses.

(1) Allowance for Loan Losses. The board of directors must establish procedures to verify that the allowance for loan losses account methodology is valid and conforms to generally accepted accounting principles and supervisory guidance. At a minimum, the board shall require an annual review through the annual audit or otherwise, by an independent party, as to the validity of, conformance to, and effectiveness of the established methodology and allowances. The allowance for loan loss account (allowance account) is a contra-asset account to the loan accounts on the financial statement of a credit union. Each state chartered credit union must establish an allowance account within the records of the credit union. A credit union must thereafter maintain a reasonable balance in the account through periodic charges to the operating expense account (provision for loan loss account) of the credit union.

(2) All loan and negative balance share or deposit balances charged-off shall be reported to the board of directors in accordance with a policy adopted by the board wherein parameters are set when to report individual amounts or aggregate amounts by classification, or both. The report shall be approved by the board. The amount of the allowance account must be adequate to cover specifically identified loans, as well as estimated losses inherent in the loan portfolio, such

as loans and pools of loans for which losses are probable but not identifiable on a specific loan by loan basis. At a minimum, the following formula shall be used to determine the adequacy of the allowance account:

(a) 100% of classified loans; plus

(b) The outstanding principal balance of all loans, less those which are classified, times the five year average loan loss ratio.

(c) Classified loans include all loans that are delinquent or nonperforming and which have been determined by the board of directors to be worthless or doubtful of collection. To determine the dollar value of classified loans, the credit union management shall regularly review and report to the board of directors all delinquent or nonperforming loans. Nonperforming loans shall include all loans which have been refinanced or extended without adequate payment history.

(d) The five year average loan loss ratio, as determined by the credit union, may be changed by OFR or the National Credit Union Administration if it is determined through an examination or visitation that the required amount is not representative of the losses inherent in the loan portfolio.

(e) Credit unions which maintain sufficient detail to compute a loan loss ratio for each loan category or loans acquired through merger may establish a loan loss ratio for each category of loan.

(f) The board of directors shall review the allowance account and direct any necessary adjustments to the account balance. If, at any time, the actual allowance account balance falls below the required balance, the board of directors shall increase the balance to the required amount before paying dividends.

(3) Each credit union shall establish a monthly accrual based on estimated losses. The monthly accrual shall be credited to the allowance account and debited to the expense account.

(4) The board of directors shall approve all charge offs of loans prior to such charge off. To record the charge off of a loan, the allowance account will be debited for the net amount charged off and the loan account will be credited. Any note or other obligation, either secured or unsecured, which is past due for 12 months or longer, is deemed to be worthless, or upon which no interest has been paid for 12 months or longer shall be charged off against the allowance account, except that:

(a) Any such note or other obligation which is secured by a lien or other collateral may be carried as an asset of the credit union at the current fair market value of the collateral securing the note or obligation.

(b) Any note or other obligation upon which payments are being made in a manner which will retire the debt may be carried as an asset of the credit union to the extent of its reasonable or market value as determined by the board.

(c) Any such note or other obligation may be refinanced if a new note or obligation is executed and:

1. All past due interest is paid;

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notices for the Department of Environmental Protection between December 28, 2001 and June 30, 2006, go to <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

NOTICE IS HEREBY GIVEN that on November 29, 2006, the Department of Environmental Protection, Northeast District has issued an order.

Notice of receipt of this petition from Taylor Coastal Water and Sewer District was published in the F.A.W., on October 6, 2006. The petition requested a temporary variance from the requirement for the lead/chief operator at a Class C drinking water treatment plant to be a Class C or higher licensed water treatment plant operator under paragraph 62-699.310(4)(e), F.A.C. The water treatment plant operated by Petitioner

currently employs a Class D water treatment plant operator, and Petitioner requested that he be allowed to continue as the lead/chief operator until September 1, 2009. No public comment was received. The Order, OGC No.: 06-1926, granted the Petition based on a showing that Petitioner demonstrated that a strict application of the rule would result in substantial hardship to Petitioner, and that based on actual flow at the plant it had successfully fulfilled the requirements of the underlying statute by other means.

A copy of the Order may be obtained by contacting: John Davis, Department of Environmental Protection, Northeast District, 7825 Baymeadows Way, Suite B-200, Jacksonville, Florida 32256, (904)807-3313.

NOTICE IS HEREBY GIVEN that on August 3, 2006, the Department of Environmental Protection has issued an order. The final order denied a petition for waiver or variance from Dan Massey II in OGC Case No. 06-0791. Notice of receipt of this petition was published on the Department's official internet noticing website on March 31, 2006. No public comment was received. In the Petitioner's response to the Department's request for additional information he amended the petition to specifically seek waiver of paragraph 62-312.370(1)(a) and Rule 62-312.390, F.A.C.; and variance from subsections 40E-4.301(1) and (3), paragraphs 40E-4.302(1)(a) and (b), subsections 62-312.060(10), 62-312.300(3), 62-312.320(3), Rules 62-312.330 and 62-312.340, F.A.C. The final order dismissed the portions of the petition related to waiver and variance from sections of Chapter 62-312, F.A.C., since that rule chapter only applies to projects within the geographical boundaries of the Northwest Florida Water Management District. The rules that govern Mr. Massey's petition are the environmental resource permitting (ERP) rules of the South Florida Water Management District in rule Chapter 40E-4, F.A.C., adopted by the Department. Subsections 40E-4.301(1) and (3), and paragraphs 40E-4.302(1)(a) and (b), F.A.C., implement the ERP program under Part IV of Chapter 373, F.S. The final order found that Mr. Massey did not demonstrate that obtaining the required permit and complying with the relevant permitting criteria would create a substantial hardship or violate principles of fairness. The Department found that authorizing the proposed impact to 17,805 square feet of wetlands for construction of a single-family residence, driveway, onsite sewage disposal system, well, and yard, without adequate mitigation to offset these impacts will not conserve and protect water quality for the propagation of wildlife and fish and other aquatic life. Inadequate mitigation to offset the proposed impact will not achieve the Department's statutory mandate to account for cumulative impacts on water resources and management of water resources to ensure their sustainability. Therefore, the underlying purposes of Part IV, Chapter 373, F.S., were not met.

A copy of the Order may be obtained by contacting: Francine M. Ffolkes, Office of General Counsel, 3900 Commonwealth Blvd., Mail Station 35, Tallahassee, FL 32399-3000, (850)245-2225.

NOTICE IS HEREBY GIVEN that on August 3, 2006, the Department of Environmental Protection has issued an order. The final order denied a petition for waiver or variance from David Massey in OGC Case No. 06-0789. Notice of receipt of this petition was published on the Department's official internet noticing website on March 31, 2006. No public comment was received. In the Petitioner's response to the Department's request for additional information he amended the petition to specifically seek waiver of paragraph 62-312.370(1)(a) and Rule 62-312.390, F.A.C.; and variance from subsections 40E-4.301(1) and (3), paragraphs 40E-4.302(1)(a) and (b), subsections 62-312.060(10), 62-312.300(3), 62-312.320(3), 62-312.330, and Section 62-312.340, F.A.C. The final order dismissed the portions of the petition related to waiver and variance from sections of Chapter 62-312, F.A.C., since that rule chapter only applies to projects within the geographical boundaries of the Northwest Florida Water Management District. The rules that govern Mr. Massey's petition are the environmental resource permitting (ERP) rules of the South Florida Water Management District in rule Chapter 40E-4, F.A.C., adopted by the Department. Subsections 40E-4.301(1) and (3), and paragraphs 40E-4.302(1)(a) and (b), F.A.C., implement the ERP program under Part IV of Chapter 373, F.S. The final order found that Mr. Massey did not demonstrate that obtaining the required permit and complying with the relevant permitting criteria would create a substantial hardship or violate principles of fairness. The Department found that authorizing the proposed impact to 11,310 sq. feet of wetlands for construction of a single-family residence, driveway, onsite sewage disposal system, well, and yard, without adequate mitigation to offset these impacts will not conserve and protect water quality for the propagation of wildlife and fish and other aquatic life. Inadequate mitigation to offset the proposed impact will not achieve the Department's statutory mandate to account for cumulative impacts on water resources and management of water resources to ensure their sustainability. Therefore, the underlying purposes of Part IV, Chapter 373, F.S., were not met.

A copy of the Order may be obtained by contacting: Francine M. Ffolkes, Office of General Counsel, 3900 Commonwealth Blvd., Tallahassee, FL 32399-3000, (850)245-2225.

NOTICE IS HEREBY GIVEN that on October 20, 2006, the Department of Environmental Protection has issued an order. The final order in OGC Case No.03-0656 granted variances from or waivers of paragraphs 62-610.563(3)(d), (e) and (f), 62-610.563(6)(c), Rule 62-610.564, subsections

62-610.567(2), 62-610.568(4), paragraphs 62-610.568(5)(a) and (b), subsections 62-610.568(7), 62-610.571(1), 62-610.573(3), and 62-610.574(3), F.A.C. to Destin Water Users, Inc. The final order granted variances and waivers that are permanent and are conditioned as follows:

1. If the Sand and Gravel Aquifer were ever used as a potable water supply by DWU, any wells constructed into the Sand and Gravel Aquifer within one mile of the proposed injection system would be treated with reverse osmosis or a higher treatment level prior to discharge into the DWU potable water system. Existing or future DWU potable wells within one mile of the proposed injection system shall not be required to have additional treatment if the wells are in the deeper Floridan Aquifer.
2. DWU proposes to construct the injection wells on property owned by DWU at the water reclamation facility and the Morgan Sports Complex. The wells will be located as centrally as possible on those parcels given the existing land use constraints. Both the water reclamation facility and Morgan Sports Complex sites are already developed. The wells would be constructed within close proximity to existing reclaimed water lines and the proposed well location must not interfere with the existing land use. Separate UIC construction and operation permits and a domestic wastewater permit revision will be obtained from the Department for the proposed injection wells.
3. DWU agrees to record deed restrictions on the water reclamation facility and Morgan Sports Complex properties that would prohibit the construction of potable wells into the Sand and Gravel Aquifer on those properties.
4. Subsection 62-610.567(2), F.A.C. DWU shall provide as part of the operating protocol developed under subsection 62-610.568(7), F.A.C., a detailed operating protocol that will address how the shallow well system will be taken off line if required water quality cannot be maintained. The fail safe mechanism in the protocol will include SCADA alarms and operator actions. Operator actions will include the diversion of flow to reject storage or the management of the water through other permitted facilities.
5. Subsection 62-610.568(4), F.A.C. TOC and TOX sampling and testing shall be conducted only during periods of injection. DWU shall sample and test once per injection period or once per injection week.
6. Paragraph 62-610.568(5)(a), F.A.C. DWU shall sample and test for total coliform each day of injection. DWU's proposed wet weather injection system will be used on an infrequent basis and daily fecal coliform sampling and testing is already in place.
7. Paragraph 62-610.568(5)(b), F.A.C. DWU shall sample and analyze seven times in the first year the parameters listed as primary drinking water standards that are imposed as reclaimed water limits.

8. Subsection 62-610.568(7), F.A.C. Due to DWU's variance from subsection 62-610.567(2), F.A.C., the operating protocol does not require fail safe "lock out" capability.
9. Subsection 62-610.571(1), F.A.C. The 500-foot setback distance from potable water supply wells is not required for DWU's existing potable supply wells Nos. 2 and 3.
10. Subsection 62-610.573(3), F.A.C. DWU shall provide reject volume capacity equal to one day flow at the average daily design flow of the treatment plant or the average daily permitted flow of the reuse system, whichever is less.

Destin Water Users, Inc., construction and operation of the proposed injection well project, which was the subject of these variances and waivers, shall be authorized by future revision to wastewater permit (FLA010194) and a separate Underground Injection Control (UIC) permit.

A copy of the Order may be obtained by contacting: Francine M. Ffolkes, Office of General Counsel, 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3000, (850)245-2242.

DEPARTMENT OF HEALTH

NOTICE IS HEREBY GIVEN THAT ON November 6, 2006, the Department of Health, filed an Order disposing of a petition for waiver from the requirements of Rules 64E-15.004(5) and 64E-15.005(2), F.A.C., as filed by Community Trailer Park. The petition was filed with the Department on September 15, 2006, and noticed in the F.A.W., on October 6, 2006, in Vol. 32, No. 40.

PLACE: Commission Hearing Room 148, Betty Easley Conference Center, 4075 Esplanade Way, Tallahassee, Florida 32301

GENERAL SUBJECT MATTER TO BE CONSIDERED: The purpose of this hearing is for the Commission to take final action to determine the need, pursuant to Section 403.519, Florida Statutes, for an expansion of Progress Energy of Florida's Crystal River Unit 3 ("CR3") nuclear power plant located in Citrus County, Florida. The proposed expansion is an uprate that when completed will increase the power output at CR3 by approximately 180 megawatts ("MWs"). The proposed uprate or expansion will be completed in two phases. The first phase will be accomplished during the planned 2009 refueling outage and the second phase will be completed during the 2011 planned refueling outage. Phase one will be

completed during a scheduled steam generator replacement and will include modifications to the turbine line components to take advantage of greater steam efficiencies, with an expected additional 40 MW of power following work completed in phase one. Phase two consists of changes that will allow for use of more highly enriched uranium in the reactor core and will result in an anticipated additional 140 MW of power.

This proceeding shall: (1) allow Progress Energy of Florida to present evidence and testimony in support of its petition for determination of need for its proposed expansion of an electrical power plant including its request for exemption from bidding requirements under Rule 25-22.082, Florida Administrative Code; (2) permit any intervenors to present testimony and exhibits concerning this matter; (3) permit members of the public who are not parties to the need determination and bid exemption proceeding the opportunity to present testimony concerning this matter; and (4) allow for such other purposes as the Commission may deem appropriate. Any member of the public who wishes to offer testimony should be present at the beginning of the hearing. By providing public testimony, a person does not become a party to the proceeding. To become an official party of record, you must file a Petition for Intervention at least five days before the final hearing, pursuant to the requirements contained in Rule 25-22.039, Florida Administrative Code. All witnesses shall be subject to cross-examination at the conclusion of their testimony.

The hearing will be governed by the provisions of Chapter 120, Florida Statutes; Section 403.519, Florida Statutes; and Chapters 25-22 and 28-106, Florida Administrative Code.

Only issues relating to the need for the expansion of the electrical power plant and the request for bid exemption will be heard at the January 18, 2007 hearing. Separate public hearings will be held before the Division of Administrative Hearings to consider environmental and other impacts of the proposed power plant, as required by the "Power Plant Siting Act," Sections 403.501-.519, Florida Statutes.

INVITATION TO PROPOSE: The CHNEP hereby solicits proposals for the project Strategic Communication Plan (Plan) for the Charlotte Harbor National Estuary Program. The CHNEP seeks proposals up to \$15,000 to develop a strategic multi-year communication plan (Plan) for communicating with, educating and engaging the public that accounts for the unique characteristics, structure and goals of CHNEP.

SCOPE OF SERVICE: It is the purpose of the Plan to help ensure that communication is as effective as possible in fulfilling the Comprehensive Conservation and Management Plan (CCMP), the document that guides the work of the CHNEP. The CCMP is a 20-year plan that is updated every five years. The Strategic Communication Plan is a companion document to the CCMP but it may be updated annually.

The Plan will include assessments, inventories and process development to position the CHNEP to be able to evaluate current and future projects to reach identified target audiences using the method and message that best fits each circumstance. This Plan will incorporate social marketing concepts as research has found that information campaigns may enhance

knowledge or alter attitudes but they don't necessarily change behavior. Social marketing involves identifying barriers to sustainable behavior, designing a strategy, piloting the strategy and evaluating the impact once it has been implemented across a community. The plan may include but is not limited to image/branding and materials development, outreach, education, community involvement, media relations, marketing and behavior change endeavors.

Tasks to be accomplished will include but is not limited to:

- Communications audit report with recommendations to evaluate the practice and capacity of CHNEP, how the organization has positioned the communications function and existing products and activities.
- Needs assessment report with recommendations to determine what needs are being addressed by others and what products are available that help fulfill the CCMP. This will identify areas of need.
- Strategic communication plan to include
- Identification of communication goals
- Process to identify issues of highest priority
- Process to identify target audiences (those that would have the greatest impact on the issues of highest priority)
- Process to determine means to reach the target audiences with the messages to affect change in order to improve the conditions
- Process to attract volunteers to the Management Conference, specifically the Citizens Advisory Committee
- Plan to evaluate and update the strategic communication plan
- Incorporation of a strategic communication plan in the CCMP currently being updated
- Evaluation tool that can be used for all who conduct programs on behalf of CHNEP to help the Program compare the success of diverse programs (such as wading trips, sponsorship of events and grants) to determine the best use of limited future funds.

This project will be overseen by the CHNEP Communications Manager but will likely involve CHNEP Management Conference members, the Program Office, and additional partners that include people, organizations, agencies and others who wish to recognize and protect the estuaries in Florida from Venice to Estero Bay. The Management Conference includes the Policy, Management, Technical Advisory and Citizens Advisory committees. Each committee has a specific role in furthering the work of the CHNEP.

Many aspects of developing a strategic communication plan have been initiated by the CHNEP Program Office, the Scope of Work will clearly identify information that Program staff will be able to provide to the awardee.

The person/company selected will be hired on a contract basis and will not be given office support.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notices for the Department of Environmental Protection between December 28, 2001 and June 30, 2006, go to <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

The Department of Environmental Protection gives notice of its intent to grant a variance (File No. 0245600-002-EV) to the U.S. Army Corps of Engineers (Corps), Mobile District, from paragraph 62-4.244(5)(c), Florida Administrative Code (F.A.C.), to allow a temporary mixing zone greater than 150 meters for turbidity within an area of Class II Waters of Apalachicola Bay, Outstanding Florida Waters (OFW), within the Apalachicola Bay Aquatic Preserve. The variance is associated with the Sikes Cut and St. George Island Channel Maintenance Dredging project (File No. 0245600-001-JC). The activity is located in Franklin County, Apalachicola Bay, Class II Waters, Apalachicola Bay Aquatic Preserve, Outstanding Florida Waters (OFW), including Approved, Conditionally Approved, Conditionally Restricted, and Unclassified shellfish harvesting areas.

A person whose substantial interests are affected by the Department's proposed action may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Because the administrative hearing process is designed to redetermine final agency action on the application, the filing of a petition for an administrative hearing may result in a modification of the variance or even a denial of the application. Under subsection 62-110.106(4), F.A.C., a person whose substantial interests are affected by the Department's action

may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon.

In the event that a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Any intervention will be only at the discretion of the presiding judge upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

In accordance with subsection 28-106.111(2) and subparagraph 62-110.106(3)(a)1., F.A.C., petitions for an administrative hearing by the applicant must be filed within 14 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of the notice or within 14 days of receipt of the written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who has asked the Department for notice of agency action may file a petition within 14 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Section 120.569 and 120.57, F.S.

In accordance with Rule 28-106.301, F.A.C., a petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the

agency determination; (c) A statement of when and how the petitioner received notice of the agency decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Under Sections 120.569(2)(c) and (d), F.S., a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This intent to grant variance constitutes an order of the Department. The applicant has the right to seek judicial review of the order under Section 120.68, F.S., by the filing of a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with: the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000; and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the final order is filed with the Clerk of the Department.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the: Department of Environmental Protection, Bureau of Beaches and Coastal Systems, 5050 West Tennessee Street, Building B, Tallahassee, Florida 32304-9201.
