RULE NOS.:	RULE TITLES:
12C-1.0187	Credits for Contributions to Nonprofit Scholarship Funding Organizations
12C-1.0191	Capital Investment Tax Credit Program
12C-1.051	Forms

**PURPOSE AND EFFECT:** The purpose of the proposed amendments to Rule 12C-1.0187, F.A.C. (Credits for Contributions to Nonprofit Scholarship Funding Organizations), is to incorporate changes to Section 220.187, F.S., as amended by Section 2, Chapter 2006-75, L.O.F., which provide for rescindments of the tax credit for contributions to nonprofit scholarship organizations and remove the limitation on the amount of donation that may be contributed by an entity to such organizations.

The purpose of the proposed amendments to Rule 12C-1.0191, F.A.C. (Capital Investment Tax Credit Program), is to provide the requirements of the approval process for a new qualifying project located in an enterprise zone and brownfield area for purposes of the capital investment tax credit applied against the corporate income tax, pursuant to Section 220.191(1)(h)3., F.S., created by Section 1, Chapter 2006-55, L.O.F.

The purpose of the proposed amendments to Rule 12C-1.051, F.A.C. (Forms), is to adopt, by reference, new forms and changes to the forms used by the Department in the administration of the corporate income tax and to remove obsolete forms no longer used by the Department.

**SUMMARY:** The proposed amendments to Rule 12C-1.0187, F.A.C. (Credits for Contributions to Nonprofit Scholarship Funding Organizations), incorporate changes to Section 220.187, F.S., as amended by Section 2, Chapter 2006-75, L.O.F. The proposed amendments remove language that specifically disallowed a rescindment of an allocated credit and the limitation on the amount of donation that may be contributed by an entity to nonprofit scholarship organizations. The proposed amendments provide guidance on the rescindment process and when such rescindments of credit will be approved by the Department. The proposed amendments also provide that, in lieu of a specific threshold requiring taxpayers to file an application for credit against the corporate income tax online, taxpayers who are required to file returns and remit payments by electronic means pursuant to Section 213.755, F.S., and Rule Chapter 12-24, F.A.C., will be required to file the application online via the Department's online Internet site.

The proposed amendments to Rule 12C-1.0191, F.A.C. (Capital Investment Tax Credit Program), provide information and the requirements of the approval process for a new qualifying project that is located in an enterprise zone and brownfield area for purposes of the capital investment tax credit applied against the corporate income tax, pursuant to Section 220.191(1)(h)3., F.S., created by Section 1, Chapter 2006-55, L.O.F.

The proposed amendments to Rule 12C-1.051, F.A.C. (Forms), adopt, by reference, new forms and changes to the forms used by the Department in the administration of the corporate income tax and remove obsolete forms no longer used by the Department.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST:** No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

12C-1.0191 Capital Investment Tax Credit Program.

(1) Qualifying projects defined in Section 220.191(1)(h)1, and 2., F.S.

(a)(4) Section 220.191, F.S., requires an application process for the capital investment tax credit, which includes review and recommendation by Enterprise Florida (EFI), and a certification from the Office of Tourism, Trade, and Economic Development (OTTED). Once the applicant has been recommended by EFI and certified by OTTED, the applicant is required to reach a written agreement with the Florida Department of Revenue (Department) on how the taxable income from the qualifying project is to be determined or

calculated. The Department adopts a Technical Assistance Advisement (TAA), which the applicant requests from the Department, as the method for entering into such written agreement. When requesting the TAA, the applicant is required to ~~should~~ follow the guidelines provided in Rule 12-11.003, F.A.C., and in addition, to include how the applicant proposes ~~they propose~~ to determine the taxable income generated by or arising out of the qualifying project.

1.~~(a)~~ In situations where the applicant is using a separate corporate entity to account for the activities of the qualifying project, the taxable income generated by that entity as reported on the return filed pursuant to Section 220.22(1), F.S., will be used to determine the amount of income tax due; and the subsequent amount of the credit that will be available for use. If the applicant has other activities not related to the project reported on this return, a pro forma attachment will be required to separately account for the taxable income generated by the project, the resulting amount of tax due, and the subsequent amount of the credit that will be available for use.

2.~~(b)~~ Where the activities of the qualifying project are included within preexisting multiple corporate structures, such as several affiliates or divisions, or the activities of the project are included within a corporation or corporations that are included in filing a consolidated income tax return filed pursuant to Section 220.131, F.S., the applicant will be required to separately account for, using a “pro forma” format, the qualifying project’s taxable income, the amount of income tax due, and subsequent credit. This pro-forma attachment will indicate separately all revenues, expenses, either direct or indirect, and any other adjustments made in the determination of the project’s annual taxable income, and the subsequent annual amount of the Capital Investment Tax Credit that may be claimed on ~~in~~ the Florida corporate income tax return. This computation requires the qualifying project’s annual taxable income to be determined by generally accepted accounting principles (GAAP) and; to conform to the provisions contained in Florida Corporate Income Tax Law under Chapter 220, F.S.

3.~~(c)~~ In situations where the activities of the project are included within other types of corporate structures, the applicant will be required to separately account for, using a “pro forma” format, the qualifying project’s taxable income, the amount of income tax due, and subsequent credit. This pro-forma attachment will indicate separately all revenues, expenses, either direct or indirect, and any other adjustments made in the determination of the project’s annual taxable income, and the subsequent annual amount of the Capital Investment Tax Credit that may be claimed on ~~in~~ the Florida corporate income tax return. This computation requires the qualifying project’s annual taxable income to be determined by generally accepted accounting principles (GAAP) and; to conform to the provisions contained in Florida Corporate Income Tax Law under Chapter 220, F.S.

(b)~~(2)~~ The maximum annual amount of Capital Investment Tax Credit is limited to 5 percent of the certified eligible capital costs of the qualifying project, for a period not to exceed 20 years, beginning with the commencement of the project’s operations. The tax credit may not be carried forward or backward. The sum of all capital investment tax credits cannot exceed 100 percent of the eligible capital costs of the project.

(2) Qualifying projects defined in Section 220.191(1)(h)3., F.S.

(a) Section 220.191, F.S., requires an application process for the capital investment tax credit, which includes review and recommendation by Enterprise Florida (EFI) and a certification from the Office of Tourism, Trade, and Economic Development (OTTED). The maximum annual amount of Capital Investment Tax Credit is limited to the lesser of \$15 million or 5 percent of the certified eligible capital costs of the qualifying project, for a period not to exceed 20 years, beginning with the commencement of the project’s operations. If the tax credit is not fully used in any one year, the unused amount may be carried forward for a period not to exceed 20 years after the commencement of operations of the project. The tax credit may be used in whole or in part by the qualifying business or by any corporation that is a member of that qualifying business’ affiliated group of corporations, is a related entity taxable as a cooperative under subchapter T of the Internal Revenue Code, or, if the qualifying business is an entity taxable as a cooperative under subchapter T of the Internal Revenue Code, is related to the qualifying business. The sum of all capital investment tax credits cannot exceed 100 percent of the eligible capital costs of the project.

(b) When the capital investment tax credit is used in whole or in part by a member of the qualifying business’s affiliated group or by a related entity that is taxable as a cooperative under subchapter T of the Internal Revenue Code, the qualifying business and the entities claiming the qualifying business’s tax credit must attach a schedule reconciling the amount of capital investment tax credit claimed by each entity. The name, federal identification number, and amount of capital investment tax credit claimed by each entity must be included in the schedule.

(3) A copy of the OTTED certification, EFI documents, and, as appropriate, any “pro forma” attachment required by the written agreement to provide the calculations used in the determination of the annual taxable income generated by or arising out of the qualifying project, is required to ~~should~~ be included with the Florida Corporate Income Tax Return (Form ~~form~~ F-1120) when filing for, and claiming the Capital Investment Tax Credit.

(4) A taxpayer that claims the capital investment tax credit against the insurance premium tax may not claim credit for the same qualifying project against the corporate income

tax. For qualifying projects defined in Section 220.191(1)(h)3., F.S., the capital investment tax credit may only be applied against corporate income tax.

**RULE NO.:** 12E-1.032  
**RULE TITLE:** Electronic Remittance of Support Payments

**PURPOSE AND EFFECT:** The creation of proposed Rule 12E-1.032, F.A.C., provides instruction and guidance to employers regarding the electronic remittance of support payments and electronic submission of associated case data to the State Disbursement Unit. The effect of this proposed rule is to develop procedures to use in the administration of Section 61.1824(6), F.S. These procedures will reduce data entry errors and misapplied payments as well as reduce the amount of time to process the payments, resulting in families receiving their support quicker.

**SUMMARY:** This proposed new rule provides instruction and guidance to employers on how to electronically remit support payments deducted pursuant to an income deduction order or income deduction notice and how to electronically submit associated case data to the State Disbursement Unit. The proposed rule provides acceptable methods of transferring funds and associated case data by electronic means, explains the process to resolve electronic remittance or transmission problems, identifies associated case data fields that must be remitted with each support payment, and provides that waivers granted to employers under Section 213.755, or Section 443.163, F.S., constitutes a waiver from the electronic support filing requirements.

The proposed rule also incorporates the National Automated Clearing House Association (NACHA), User Guide For Electronic Child Support Payments, Using The Child Support Application Banking Convention, Version 5.0, revised August 21, 2006. NACHA is the national trade association for electronic payments associations, which establishes the rules, industry standards, and procedures governing the exchange of commercial automated clearing house payments by depository financial institutions.

9. Federal Information Processing Standard Code (FIPS code) – The unique code that identifies each child support jurisdiction (i.e., states, counties and central registries). As used in this rule, the FIPS code refers to the code of the State Disbursement Unit receiving the transaction.
10. Employment termination indicator – The employment termination indicator notifies the Department that an individual's employment has terminated. The employer is

required to report this information pursuant to Section 61.1301(2)(k), F.S. If the employee has terminated, place a 'Y' in this field; otherwise, the field is not used.

(i) The employer or employer's representative may combine payment amounts from more than one employee in a single payment as long as the required information in paragraph (5)(h), subparagraph 1. through 10., is submitted for each employee. In addition, the employer or employer's representative must separately identify the portion of the single payment that is attributable to each employee.

(6) Due Date.

(a) Pursuant to Section 61.1301(1)(a)3., F.S., the employer is required to remit support payments based upon the employee's pay cycle.

(b) The employer or employer's representative who is required to pay support and provide associated case data through electronic means must initiate the transfer so that the amount due is deposited as collected funds to the State Disbursement Unit's account on or before the due date. If the date on which the employer or employer's representative is required to initiate an ACH credit transfer falls on a Saturday, Sunday, or a business or banking holiday, the employer or the employer's representative must initiate the transaction on the preceding business day. For the purpose of this rule, "banking day" has the meaning prescribed in Section 674.104(1), F.S.

(7) Waiver From Electronic Filing Requirements. A waiver granted by the Department from the requirement to electronically file tax returns under Section 213.755, F.S., or Section 443.163, F.S., constitutes a waiver from the requirement to remit support payments and associated case data by electronic means.

RULE CHAPTER NO.: RULE CHAPTER TITLE:

14-73 Public Transit

RULE NO.: RULE TITLE:

14-73.001 Public Transit

PURPOSE AND EFFECT: Rule 14-73.001, F.A.C., is substantially rewritten. The rule title and the chapter title are changed from "Public Transportation" to "Public Transit." The purpose of these changes is to improve the quality of Transit Development Plans (TDPs) by extending the plans from five years to ten years, requiring updates every five years instead of every three years, making the annual report, public involvement, demand estimation requirements more explicit, requiring plan approval, and establishing a deadline for said approval in order to qualify for grant funding. The effect will be to provide better planned and, thus, improved public transit services, and to provide the State with improved estimates of transit needs over a longer period of time.

SUMMARY: Rule 14-73.001, F.A.C., is amended.

SPECIFIC AUTHORITY: 334.044(2), 341.041(12)(b) FS.

LAW IMPLEMENTED: 341.041, 341.051, 341.052, 341.071 FS.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: No Statement of Estimated Regulatory Cost has been prepared.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE FULL TEXT OF THE PROPOSED RULE IS:

(Substantial rewording of Rule 14-73.001. See Florida Administrative Code for present text.)

14-73.001 Public ~~Transportation~~ Transit.

(1) Purpose. This rule sets forth requirements for the recipients of the Department's public transit grant funds.

(2) Definitions.

(a) "Department" means the Florida Department of Transportation.

(b) "District Office" means any of the seven geographically defined districts as set forth in Section 20.23(4)(a), F.S.

(c) "Provider" means a transit agency or a community transportation coordinator as set forth in Section 341.052, F.S.

(3) Transit Development Plans (TDPs). TDPs are required for grant program recipients in Section 341.052, F.S. A TDP shall be the provider's planning, development, and operational guidance document, based on a ten-year planning horizon and covers the year for which funding is sought and the nine subsequent years. A TDP or an annual update shall be used in developing the Department's five-year Work Program, the Transportation Improvement Program, and the Department's Program and Resource Plan. A TDP shall be adopted by a provider's governing body. Technical assistance in preparing TDPs is available from the Department. TDPs shall be updated every five years and include all elements described below.

(a) Public Involvement Process. The TDP preparation process shall include opportunities for public involvement as outlined in a TDP public involvement plan, approved by the Department, or the local Metropolitan Planning Organization's (MPO) Public Involvement Plan, approved by both the Federal Transit Administration and the Federal Highway Administration. The provider is authorized to establish time limits for receipt of comments. The TDP shall include a description of the process used and the public involvement activities undertaken. As required by Section 341.052, F.S., comments must be solicited from regional workforce boards established under Chapter 445, F.S. The Department, the regional workforce board, and the MPO shall be advised of all public meetings where the TDP is to be presented or discussed, and shall be given an opportunity to review and comment on the TDP during the development of the mission, goals, objectives, alternatives, and ten-year implementation program.

(b) Situation Appraisal. The TDP is a strategic planning document and will include an appraisal of factors within and outside the provider that affect the provision of transit service. At a minimum the situation appraisal shall include:

1. The effects of land use, state and local transportation plans, other governmental actions and policies, socioeconomic trends, organizational issues, and technology on the transit system.

2. An estimation of the community's demand for transit service using the planning tools provided by the Department, or a Department approved transit demand estimation technique with supporting demographic, land use, transportation, and transit data. The result of the transit demand estimation process shall be a ten-year annual projection of transit ridership.

3. An assessment of the extent to which the land use and urban design patterns in the provider's service area support or hinder the efficient provision of transit service, including any efforts being undertaken by the provider or local land use authorities to foster a more transit-friendly operating environment.

(c) Provider's Mission and Goals. The TDP shall contain the provider's vision, mission, goals, and objectives, taking into consideration the findings of the situation appraisal.

(d) Alternative Courses of Action. The TDP shall develop and evaluate alternative strategies and actions for achieving the provider's goals and objectives, including the benefits and costs of each alternative. Financial alternatives, including options for new or dedicated revenue sources, shall be examined.

(e) Ten-Year Implementation Program. The TDP shall identify policies and strategies for achieving the provider's goals and objectives and present a ten-year program for their implementation. The ten-year program shall include: maps indicating areas to be served and the type and level of service to be provided, a monitoring program to track performance measures, a ten-year financial plan listing operating and capital expenses, a capital acquisition or construction schedule, and anticipated revenues by source. The implementation program shall include a detailed list of projects or services needed to meet the goals and objectives in the TDP, including projects for which funding may not have been identified.

(f) Relationship to Other Plans. The TDP shall be consistent with the Florida Transportation Plan, the local government comprehensive plans, the MPO long-range transportation plan, and regional transportation goals and objectives. The TDP shall discuss the relationship between the ten-year implementation program and other local plans.

(4) Annual Update. Annual updates shall be in the form of a progress report on the ten-year implementation program, and shall include:

(a) Past year's accomplishments compared to the original implementation program;

(b) Analysis of any discrepancies between the plan and its implementation for the past year and steps that will be taken to attain original goals and objectives;

(c) Any revisions to the implementation program for the coming year;

(d) Revised implementation program for the tenth year;

(e) Added recommendations for the new tenth year of the updated plan;

(f) A revised financial plan; and

(g) A revised list of projects or services needed to meet the goals and objectives, including projects for which funding may not have been identified.

(5) Plan Submission and Approval.

(a) To be approved by the Department, a TDP must meet all applicable deadlines and address all requirements of this rule, including a public involvement plan that included opportunities for review and comment by interested agencies, and citizens or passengers during the development of the provider's mission, goals, and objectives during the development of alternatives and during the development of the ten-year implementation program.

(b) The Department will accept TDPs for review at any time. Provider adopted TDPs must be submitted to the Department by September 1. Late filed TDPs will be accepted

if extenuating circumstances beyond the provider's control exist and the District Office is able to complete its review and approval process by the last business day of December. Within 60 days of receiving an adopted TDP or annual update the Department will notify the provider as to whether or not the TDP or annual update is in compliance with the requirements of this rule, and, if not in compliance, a list of deficiencies. Within 30 days of any resubmitted TDP or annual update the Department will notify the provider as to whether or not the resubmission is in compliance with the requirements of this rule.

(6) Grant Administration. Public transit funds will be considered on the basis of public transit needs as identified in TDPs. The Department is authorized to fund up to such percentages as are designated for each type of public transportation project by Chapter 341, F.S., for the respective state and federal projects described therein. The Department shall, within statutory parameters, determine the level of funding participation for each project.

(a) State funding participation in public transit projects and services shall require a duly executed agreement, unless otherwise required by law.

(b) Eligibility to receive state public transit grants from the Department is limited to those providers specifically designated by law to receive such grants, and determined by statutory budgeting and programming requirements.

(c) Written requests for appropriated public transit grant funds by a provider are to be addressed to the District Office in which district the provider operates public transit service. The request shall include at a minimum the name and address of the provider, level of funding being requested, type of funding or program participation requested, and use to be made of the requested funds. Where a deadline for applications has been established, applications received after the deadline shall be returned. Deadlines for each program application may be obtained from the District Office.

(d) Federal funds for which the Department is the primary recipient may involve special application procedures or submittal format, imposed by the federal grantor agency as a condition of receiving federal funds. The provider will be notified by the District Office of special application requirements at the time of submission of a written request for funding if the District Office has not previously distributed such information to the provider.

(e) The Department will award public transit grant funds after July 1 of each state fiscal year, but will not award funds until a provider's TDP has been found to be in compliance with this rule.

(f) Annual updates and approved TDPs shall be on file at the appropriate District Office by the last business day of December of the state fiscal year for which funding is sought. If a provider's annual report has not been submitted by the last day of December in the fiscal year for which funding is sought,

the provider will not receive any state public transit grant funds in that state fiscal year, and funds previously allocated for the provider will be allocated among the remaining providers. If a provider's TDP has not been submitted and found in compliance by the last business day of December of the state fiscal year the annual or five year update was due, the provider will not receive any public transit grant funds in that state fiscal year, and funds previously allocated for the provider will be allocated among the remaining providers.

DOCKET NO. 060508-EI

RULE NO.: 25-6.0423  
RULE TITLE: Nuclear Power Plant Cost Recovery

PURPOSE AND EFFECT: The purpose of the rule is to implement Section 366.93, F.S., to promote electric utility investment in nuclear power plants by establishing cost recovery mechanisms that allow for the recovery in rates of all costs prudently incurred in the siting, design, licensing, and construction of a nuclear power plant.

SUMMARY: The rule will establish cost recovery mechanisms that promote electric utility investment in nuclear power plants and allow for the recovery in rates of all costs prudently incurred in the siting, design, licensing, and construction of a nuclear power plant. The rule addresses the treatment of site selection costs, preconstruction costs, and carrying costs on construction cost balances. The rule provides for separate hearings to determine the amount of pre-construction costs and company costs on construction cost balances to be recovered through the annual Capacity Cost Recovery Clause. The rule also provides for annual prudence reviews of construction

costs. When the plant goes into commercial service, the rule establishes that base rates will be increased to cover the projected revenue requirement for the first 12 months the plant is in service, as well as the undepreciated cost of any plant retired as a result of bringing the nuclear unit on line. Since the time frame over which the undepreciated plant removed may be recovered is limited to a maximum of five years, the rule also requires that base rates be reduced by the amount included to recover any such undepreciated plant at the expiration of that recovery period.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST:** The SERC states there will be increased costs to utilities from preparing and presenting nuclear power plant costs for annual Commission review. There will be significant benefits to utilities from the certainty associated with the recovery of these costs, both before the plant goes into commercial service and after the plant is completed. While consumers of electricity will benefit from fuel diversity and price stability once the nuclear plant goes into commercial service, consumers will begin paying these costs through rates prior to the receipt of the benefits.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**THE FULL TEXT OF THE PROPOSED RULE IS:**

25-6.0423 Nuclear Power Plant Cost Recovery.

(1) Purpose. The purpose of this rule is to establish alternative cost recovery mechanisms for the recovery of costs incurred in the siting, design, licensing, and construction of nuclear power plants in order to promote electric utility investment in nuclear power plants and allow for the recovery in rates of all such prudently incurred costs.

(2) Definitions. As used in this rule, the following definitions shall apply:

(a) "Nuclear power plant" or "plant" is an electrical power plant that utilizes nuclear materials as fuel, as defined in Section 403.503(13), Florida Statutes and Section 366.93(1)(c) Florida Statutes.

(b) "Cost" includes, but is not limited to, all capital investments including rate of return, any applicable taxes and all expenses, including operation and maintenance expenses, related to or resulting from the siting, licensing, design, construction, or operation of the nuclear power plant as defined in Section 366.93(1)(a), Florida Statutes.

(c) "Site selection." A site will be deemed to be selected upon issuance of a final order granting a petition for a determination of need for a nuclear power plant pursuant to Section 403.519, Florida Statutes.

(d) "Site selection costs" are costs that are expended prior to the selection of a site.

(e) "Pre-construction costs" are costs that are expended after a site has been selected in preparation for the construction of a nuclear power plant, incurred up to and including the date the utility completes site clearing work.

(f) Site Selection costs and pre-construction costs include, but are not limited to: any and all costs associated with preparing, reviewing and defending a Combined Operating License (COL) application for a nuclear power plant; costs associated with site and technology selection; costs of engineering, designing, and permitting the nuclear power plant; costs of clearing, grading, and excavation; and costs of on-site construction facilities (i.e., construction offices, warehouses, etc.).

(g) "Construction costs" are costs that are expended to construct the nuclear power plant including, but not limited to, the costs of constructing nuclear power plant buildings and all associated permanent structures, equipment and systems.

(3) Deferred Accounting Treatment. Site selection and pre-construction costs shall be afforded deferred accounting treatment and shall, except for projected costs recovered on a projected basis in one annual cycle, accrue a carrying charge equal to the utility's allowance for funds used during construction (AFUDC) rate until recovered in rates.

(4) Site Selection Costs. After the Commission has issued a final order granting a determination of need for a nuclear power plant pursuant to Section 403.519, Florida Statutes, a utility may file a petition for a separate proceeding, to recover prudently incurred site selection costs. This separate proceeding will be limited to only those issues necessary for the determination of prudence and method for recovery of site selection costs of a nuclear power plant.

(5) Pre-Construction Costs and Carrying Costs on Construction Cost Balance. After the Commission has issued a final order granting a determination of need for a nuclear power plant pursuant to Section 403.519, Florida Statutes, a

utility may petition the Commission for recovery of pre-construction costs and carrying costs of construction cost balance as follows:

(a) Pre-Construction Costs. A utility is entitled to recover, through the Capacity Cost Recovery Clause, its actual and projected pre-construction costs. The utility may also recover the related carrying charge for those costs not recovered on a projected basis. Such costs will be recovered on an annual basis, or may, as proposed by the utility in its petition or any other party and approved by the Commission, be recovered over a greater period of years.

1. Actual pre-construction costs incurred by a utility prior to the issuance of a final order granting a determination of need pursuant to Section 403.519, Florida Statutes, shall be included in the initial filing made by a utility under this subsection for review, approval, and a finding with respect to prudence.

2. The Commission shall include pre-construction costs determined to be reasonable and prudent in setting the factor in the annual Capacity Cost Recovery Clause proceedings, as specified in Paragraph 5(c)2. of this rule. Such costs shall not be subject to disallowance or further prudence review in that proceeding.

(b) Carrying Costs on Construction Cost Balance. A utility is entitled to recover, through the utility's Capacity Cost Recovery Clause, the carrying costs on the utility's annual projected construction cost balance associated with the nuclear power plant. The actual carrying costs recovered through the Capacity Cost Recovery Clause shall reduce the allowance for funds used during construction (AFUDC) that would otherwise have been recorded as a cost of construction eligible for future recovery as plant in service:

1. For nuclear power plant need petitions submitted on or before December 31, 2010, the associated carrying costs shall be computed based on the pretax AFUDC rate in effect on June 19, 2006;

2. For nuclear power plant need petitions submitted after December 31, 2010, the utility's pretax AFUDC rate in effect at the time the petition for determination of need is filed is presumed to be appropriate unless the Commission determines otherwise in its need determination order;

3. The Commission shall include carrying costs on the balance of construction costs determined to be reasonable and prudent in setting the factor in the annual Capacity Cost Recovery Clause proceedings, as specified in paragraph (5)(c) of this rule. Such factor shall not be subject to disallowance or further prudence review in that proceeding.

(c) Capacity Cost Recovery Clause for Nuclear Costs.

1. Each year, a utility shall submit, for Commission review and approval, as part of its Capacity Cost Recovery Clause filings:

a. True-Up for Previous Years. By April 1, a utility shall submit its final true-up of pre-construction expenditures, based on actual preconstruction expenditures for the prior year and

previously filed expenditures for such prior year and a description of the pre-construction work actually performed during such year; or, once construction begins, its final true-up of carrying costs on its construction expenditures, based on actual carrying costs on construction expenditures for the prior year and previously filed carrying costs on construction expenditures for such prior year and a description of the construction work actually performed during such year.

b. True-Up and Projections for Current Year. By May 1, a utility shall submit for Commission review and approval its actual/estimated true-up of projected pre-construction expenditures based on a comparison of current year actual/estimated expenditures and the previously-filed estimated expenditures for such current year and a description of the pre-construction work projected to be performed during such year; or, once construction begins, its actual/estimated true-up of projected carrying costs on construction expenditures based on a comparison of current year actual/estimated carrying costs on construction expenditures and the previously filed estimated carrying costs on construction expenditures for such current year and a description of the construction work projected to be performed during such year.

c. Projected Costs for Subsequent Years. By May 1, a utility shall submit, for Commission review and approval, its projected pre-construction expenditures for the subsequent year and a description of the pre-construction work projected to be performed during such year; or, once construction begins, its projected construction expenditures for the subsequent year and a description of the construction work projected to be performed during such year.

2. The Commission shall, prior to August 15 of each year, conduct a hearing to determine the reasonableness of projected pre-construction expenditures and the prudence of actual pre-construction expenditures expended by the utility; or, once construction begins, to determine the reasonableness of carrying costs on projected construction expenditures and the prudence of actual carrying costs on construction expenditures expended by the utility. Within 30 days of the Commission's vote, the Commission shall enter its order. One year after the true-up of actual carrying charges, the Commission shall make an annual prudence determination of the annual actual construction costs. To facilitate this determination, the Commission shall conduct an on-going auditing and monitoring program of construction costs and related contracts pursuant to Section 366.08, Florida Statutes. In making its determination of reasonableness and prudence the Commission shall apply the standard provided pursuant to Section 403.519(4)(e), Florida Statutes.

3. The Commission shall include those costs it determines, pursuant to this subsection, to be reasonable and prudent in setting the factor in the annual Capacity Cost Recovery Clause proceedings. Such costs shall not be subject to disallowance or further prudence review in that proceeding.

4. The final true-up for the previous year, actual/estimated true-up for the current year, and subsequent year's projected nuclear power plant costs as approved by the Commission pursuant to subparagraph (5)(c)2. will be included for cost recovery purposes as a component of the over/under recovered balance to be included in the following year's nuclear power plant cost recovery proceeding for the Capacity Cost Recovery Clause.

5. By May 1 of each year, along with the filings required by this paragraph, a utility shall submit for Commission review and approval a detailed analysis of the long-term feasibility of completing the nuclear plant.

(6) Failure to Enter Commercial Service. Following the Commission's issuance of a final order granting a determination of need for the nuclear power plant, in the event the utility elects not to complete or is precluded from completing construction of the nuclear power plant, the utility shall be allowed to recover all prudent site selection costs, pre-construction costs, and construction costs.

(a) The utility shall recover such costs through the Capacity Cost Recovery Clause over a period equal to the period during which the costs were incurred or 5 years, whichever is greater.

(b) The amount recovered under this section will be the remaining unrecovered Construction Work in Progress (CWIP) balance at the time of abandonment and future payment of all outstanding costs and any other prudent and reasonable exit costs. The unrecovered balance during the recovery period will accrue interest at the utility's overall pretax weighted average midpoint cost of capital on a Commission adjusted basis as reported by the utility in its Earnings Surveillance Report filed in December of the prior year, utilizing the midpoint of return on equity (ROE) range or ROE approved for other regulatory purposes, as applicable.

(7) Commercial Service. As operating units or systems associated with the nuclear power plant and the nuclear power plant itself are placed in commercial service:

(a) The utility shall file a petition for Commission approval of the base rate increase pursuant to Section 366.93(4), Florida Statutes, separate from any cost recovery clause petitions, that includes any and all costs reflected in such increase, whether or not those costs have been previously reviewed by the Commission; provided, however, that any actual costs previously reviewed and determined to be prudent in the Capacity Cost Recovery Clause, to which administrative finality has attached, shall not be subject to disallowance or further prudence review.

(b) The utility shall calculate the increase in base rates resulting from the jurisdictional annual base revenue requirements for the nuclear power plant in conjunction with the Capacity Cost Recovery Clause projection filing for the year the nuclear power plant is projected to achieve commercial operation. The increase in base rates will be based on the annualized base revenue requirements for the nuclear power plant for the first 12 months of operations consistent with the cost projections filed in conjunction with the Capacity Cost Recovery Clause projection filing.

(c) At such time as the nuclear power plant is included in base rates, recovery through the Capacity Cost Recovery Clause will cease, except for the difference between actual and projected construction costs as provided in subparagraph (5)(c)4. above.

(d) The rate of return on capital investments shall be calculated using the utility's most recent actual Commission adjusted basis overall weighted average rate of return as reported by the utility in its most recent Earnings Surveillance Report prior to the filing of a petition as provided in paragraph (7)(a). The return on equity cost rate used shall be the midpoint of the last Commission approved range for return on equity or the last Commission approved return on equity cost rate established for use for all other regulatory purposes, as appropriate.

(e) The jurisdictional net book value of any existing generating plant that is retired as a result of operation of the nuclear power plant shall be recovered through an increase in base rate charges over a period not to exceed 5 years. At the end of the recovery period, base rates shall be reduced by an amount equal to the increase associated with the recovery of the retired generating plant.

(8) Annual Reports Required by Rule 25-6.135, F.A.C. On an annual basis following issuance of the final order granting a determination of need and until commercial operation of the nuclear power plant, a utility shall include the budgeted and actual costs as compared to the estimated in-service costs of the nuclear power plant as provided in the petition for need determination in its annual report filed pursuant to Rule 25-6.135, F.A.C. The estimates provided in the petition for need determination are non-binding estimates. Some costs may be higher than estimated and other costs may be lower. A utility shall provide such revised estimated in-service costs as may be necessary in its annual report.

40D-3.411	Well Completion Report
40D-3.531	Abandoned Well Plugging

PURPOSE AND EFFECT: Rules 40D-3.101, 40D-3.411, and 40D-3.531, F.A.C., address requirements for permitting and constructing water wells. The rules reference forms used to permit wells and document well construction and abandonment. Several of the referenced forms have been updated and the District proposes to amend the rules to reference the current forms. The reorganization does not substantively change the rule.

40D-40 General Environmental Resource Permits

RULE NO.: RULE TITLE:  
40D-40.301 Conditions for Issuance of General Permits for Minor Surface Water Management Systems

PURPOSE AND EFFECT: The purpose of the proposed rule amendment is to clarify what impacts the District will consider in determining whether certain activities regulated under Part IV, Chapter 373, Florida Statutes (F.S.), qualify for a General Environmental Resource Permit for Minor Surface Water Management Systems under the District's rules. The effect will be to make clear in District rule that activities in, on or over less than 100 square feet of wetlands or other surface waters meet the threshold for this type of general permit.

SUMMARY: The proposed revisions delete existing rule language that restricts the activities considered for permitting threshold purposes to dredging and filling. The amendment also adds language to clarify that activities evaluated pursuant to this rule include not only those activities occurring in, but in, on or over wetlands or other surface waters.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: A Statement of Estimated Regulatory Cost is not being prepared based on the District’s determination that the proposed revisions to Rule 40D-1.607, F.A.C., will not result in a substantial increase in the costs to affected parties and there will not be significant adverse effects on competition, employment, investment or productivity. 59A-8.0086	Denial, Suspension, Revocation of License and Imposition of Fines
59A-8.022	Clinical Records
59A-8.027	Emergency Management Plans

PURPOSE AND EFFECT: The purpose of the rule revisions is to conform the rules and Comprehensive Emergency Management Plan format to changes made by the 2006 Florida Legislature in Chapters 2006-71 and 2006-192, Laws of Florida; to clarify language regarding financial instability; to revise the Affidavit of Compliance with Screening Requirement form to add level 2 screening and annual submission as required in Section 435.04, F.S.; and to remove

the time frame for clinical records retention since it is stated in 400.491, F.S. The effect will be updated rules with uniform licensure procedures that conform to state laws; a revised Comprehensive Emergency Management Plan format that includes the means by which the same type and quantity of services received in the home will be provided to patients evacuated to special needs shelters; and an updated Affidavit of Compliance with Screening Requirement form for administrators to attest to completion of both level 1 and level 2 screening for staff as required in law.

SUMMARY: The rules are being updated due to the changes to Chapter 400, Part III, Florida Statutes made by the 2006 Florida Legislature in Chapters 2006-71 and 2006-192, Laws of Florida. The changes in the rules for Chapter 2006-71, Laws of Florida, are: revising Rule 59A-8.027, F.A.C., and the Comprehensive Emergency Management Plan format to include the means by which the same type and quantity of services will be provided to special needs patients in shelters that they received prior to the evacuation; removing the Department of Health as the reviewer of multi-county plans as requested by the Department and referring to the contact designated by the Department for plan reviews; and adding the requirement for documentation of efforts made to deliver the same type and quantity of services in the patient record if the home health agency is unable to continue services. The following revisions were made to comply with Chapter 2006-192, Laws of Florida: the change of ownership definition was deleted in Rule 59A-8.002, F.A.C., since the definition is now in Section 408.803, F.S.; the time frame for applicants to respond to letters of omission was changed to 21 days from 30 days in Rule 59A-8.0086, F.A.C.; and the legal right to occupy property was added to address change requirements in Rule 59A-8.003, F.A.C. Legal references from Chapter 408, Part II, F.S., replaced Chapter 400, Part III, F.S., references in sections of the rules pertaining to initial, renewal and change of ownership licensure applications; surveys; voluntary relinquishment of license; injunctions; level 2 background screening for administrators and financial officers; and financial instability. Legal references from Chapter 408, Part II, F.S., were inserted in sections of the rule pertaining to administrative fines, denials and moratoriums in addition to the Chapter 400, Part III, F.S., references. Other changes include clarification of requirements when financial instability is found; revision of the Affidavit of Compliance with Screening Requirement form to add level 2 and annual submission per Section 435.04, F.S.; removal of the time frame for clinical record retention since it is stated in Section 400.491, F.S.; and assign new form number to the revised Comprehensive Emergency Management Plan for Home Health Agencies as the original form number duplicated an existing Agency form. SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The effect will be updated rules with uniform licensure procedures that conform to state laws; a revised Comprehensive Emergency Management Plan format that includes the means by which the same type and quantity of services will be provided to patients evacuated to special needs shelters; an updated Affidavit of Compliance with Screening Requirement form for administrators to attest to completion of both level 1 and 2 screening for staff as required in law; a decrease in the items required to be submitted with applications for licensure due to the elimination of the requirement to submit proof of insurance and the elimination of the requirement to submit information on independent contractors with renewal applications; a corrected Rule 59A-18.013, F.A.C., that includes orders from physician assistants and advanced registered nurse practitioners as permitted in the 2005 changes to Section

**SUMMARY:** The rules are being updated due to the changes to Chapter 400, Part III, Florida Statutes, made by the 2006 Florida Legislature in Chapter 2006-71 and 2006-192, Laws of Florida. The changes in the rule for Chapter 2006-71, Laws of Florida are: revising Rule 59A-18.018, F.A.C., and the Comprehensive Emergency Management Plan to include the means by which the same type and quantity of services will be provided to special needs patients in shelters that they received prior to the evacuation; removing the Department of Health as the reviewer of multi-county plans as requested by the Department and referring to the contact designated by the Department for plan reviews; and adding the requirement for documentation of efforts made to deliver the same type and quantity of services in the patient record if the agency is unable to continue services. The following revisions are made to comply with Chapter 2006-192, Laws of Florida: the change of ownership definition is deleted in Rule 59A-18.002, F.A.C., since the definition is now in Section 408.803, F.S.; the conditional license is removed from Rule 59A-18.004, F.A.C., as Chapter 408, Part II, F.S., permits either a standard or a provisional license; and Rule 59A-18.016, F.A.C., is revised pursuant to Section 408.806, F.S., for late renewal application fines, and a separate subsection is added for the change of ownership late application fine, decreasing the maximum amount to \$500. Legal references from Chapter 408, Part II, F.S., replace Chapter 400, Part III, F.S., references in sections of the rule pertaining to initial, renewal and change of ownership licensure applications; surveys; voluntary relinquishment of license; level 2 background screening for administrators and financial officers; and financial instability. Legal references from Chapter 408, Part II, F.S., are inserted in sections of the rule pertaining to administrative fines, denials, moratoriums and injunctions in addition to the Chapter 400, Part III, F.S., references. Other changes include the elimination of the insurance requirement since there is no legal authority; the elimination of the requirement for a listing of independent contractor names and license numbers with the renewal application; the addition of Section 400.488, F.S., on administration of medications to the laws given by nurse registries to independent contractors; and the revision of Rule 59A-18.005, F.A.C., to include that physician assistants and advanced registered nurse practitioners may order medications in addition to physicians, as permitted in Section 400.506(17), F.S.

(4) When a home medical equipment provider goes through a change of ownership, the new owner must review the emergency management plan and make any substantive changes, including changes noted in subsection (3). Those home medical equipment providers will need to report any substantive changes in their plans to the reviewing entity in subsection (1).

(5) In the event of an emergency, the home medical equipment provider must implement the emergency management plan pursuant to Section 400.934(20), F.S.

(6) Home medical equipment providers must assist consumers receiving HME services who would need assistance and sheltering during evacuations because of physical, mental, cognitive impairment, or sensory disabilities in registering with the local emergency management agency, as required in

Section 252.355(1), F.S., and as determined by the established procedures of the local emergency management agency related to special needs registration.

(a) Each home medical equipment provider must, pursuant to Sections 400.934 and 252.355, F.S., inform consumers and consumer caregivers, by the best method possible as it pertains to the person's disability, of the special needs registry and procedures for registration at the special needs registry maintained by their county emergency management office.

(b) If the consumer is to be registered with the special needs registry, the home medical equipment provider must assist the consumer with registering, pursuant to Sections 400.934 and 252.355, F.S., and the established procedures of the local emergency management agency. The home medical equipment provider must document in the consumer's file if the consumer plans to evacuate or remain at home and if the consumer's caregiver or family can take responsibility during the emergency for equipment services normally provided by HME staff or independent contractors referred by the home medical equipment provider or if the home medical equipment provider needs to make referrals in order for equipment services to continue. If the consumer is also receiving services through any other licensed health care provider or federal or state funded program designated in Section 252.355, F.S., to help clients register with the special needs registry, then the home medical equipment provider will check with the other service provider or program case manager to verify if the consumer has already been registered. If so, a note will be made in the consumer's file by the home medical equipment provider that the consumer's need for registration has already been reviewed and handled by the other provider or program. Home medical equipment providers are not required to assist consumers residing in skilled nursing facilities, assisted living facilities or adult family care homes with special needs registration as those licensed facilities are responsible for evacuation and alternative sheltering of their clients.

(c) The collected registration information must be furnished to the county emergency management agency pursuant to Section 400.934, F.S., and as determined by the established procedures of the local emergency management agency related to special needs registration.

(7) The home medical equipment provider must provide the same type and quantity of equipment services to its consumers, which must include those being served in assisted living facilities and adult family care homes, who evacuate to special needs shelters which were being provided prior to evacuation, pursuant to Section 400.934(20)(a), F.S. Home medical equipment providers are not required to continue to provide services to consumers in emergency situations that are beyond their control and that make it impossible to provide services, such as when roads are impassable or when consumers do not go to the location specified in their consumer records.

(8) If the home medical equipment provider is unable to provide equipment services to consumers who are special needs registry patients, including any assisted living facility and adult family care home special needs registry patients, then the provider will make reasonable efforts to find another resource for the consumer, pursuant to Section 400.934(20)(a), F.S. This would include arranging for services for consumers who have been forced to relocate outside of the geographic service area of the home medical equipment provider.

(9) During emergency situations, when there is not a mandatory evacuation order issued by the local county emergency management office, some consumers, registered pursuant to Section 252.355, F.S., may decide not to evacuate and will stay in their homes. The home medical equipment provider must establish procedures, prior to the time of an emergency, which will delineate to what extent the provider will continue to arrange for essential equipment services during and immediately following an emergency pursuant to Section 400.934(20)(a), F.S.

When submitting Payment Code "x" 3 to the Division, the insurer is declaring that no "entity" as defined in paragraph (1)(u)(s) of this rule is involved in the medical bill claims-handling process related to "date insurer received".

d. (1) Administrative Costs.

(a) If proposed administrative cost percentages in an application are exceeded, as set forth in Section 290.047, F.S., the dollars for administrative costs shall be reduced prior to the offering of a subgrant award in order to bring the percentages into compliance based on the total eligible subgrant costs.

(b) No change.

(7) Non-performance Penalties. Subgrant application penalties and subgrant application restrictions shall be assessed based on non-performance of contractual requirements related to project accomplishments. The following penalties and restrictions will apply to subgrant agreements for which an administrative closeout was submitted prior to the upcoming application cycle deadline and will apply regardless of whether the subgrant agreement has been amended to permit the reduction in accomplishments:

(b) A penalty of five points per low and moderate income household not served OR a penalty of five points for each business facade not addressed, as geographically displayed on the original application maps (as modified, if necessary, during the completeness process) in the Neighborhood Revitalization or Commercial Revitalization categories, up to a maximum of 50 points. All direct benefit activities proposed in the application (e.g., water hookups) must be completed to avoid this penalty. No penalty shall be assessed for failure to provide a water or sewer hookup if the hookup is not possible because the home is vacant or was damaged or destroyed after application submission and there are no other homes in the service area that were identified in the application as unmet need which qualify for a hookup.

(c) A penalty of five points per job, up to a maximum of 50 points, for failure to create or retain the total number of jobs in the original contract in the Economic Development category.

(d) All performance-related penalties penalty will be applied to the Category Subscore of the next application for funding.

 NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 32, No. 44, November 3, 2006, issue of the Florida Administrative Weekly. These changes were made in response to written comments received prior to the public hearing.

The proposed rule is incorporating by reference Update March 2007 to the Florida Medicaid Physician Services Coverage and Limitations Handbook. The purpose of the update is to include the Medicaid Hospitalist Program policies. The Hospitalist Program is being implemented in Miami-Dade and Palm Beach counties. On Page 5-2, Recipients Who Are Excluded from the Hospitalist Program, we made the following revisions. For clarity, we revised the fourth bullet to read, "Recipients pending Medicaid Eligibility." We deleted the fifth bullet, "Recipients who are eligible but unassigned to a managed care plan"; because these recipients are not excluded from the Hospitalist Program.

RULE NO.: 64B8-53.001  
 RULE TITLE: Requirements for Electrolysis Training Programs Approved by the Board

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 31, No. 28, July 15, 2005 issue of the Florida Administrative Weekly.

The changes are in response to comments submitted by the staff of the Joint Administrative Procedures Committee. The Electrolysis Council made recommendations for changes to the rule to the Board of Medicine, which were considered by the Board on April 7, 2006. The Board reviewed a different version of the rule than the version approved by the Council. No action was taken by the Board. The Council, at its meeting held on May 15, 2006, approved changes to the rule which were considered by the Board on June 2, 2006. The Board had additional concerns with the Council's recommendation and sent the rule back to the Council for additional changes. On December 2, 2006, the Board considered yet another draft of changes to the rule and approved the changes. When changed, the rule will be substantially reworded to read as follows:

(Substantial rewording of Rule 64B8-53.001. See Florida Administrative Code for present text).

64B8-53.001 Requirements for Electrolysis Training Programs Approved by the Board.

An electrolysis training program shall be approved by the Board for pre-licensure training if the following requirements are met:

(1) The electrolysis training program is licensed by the Commission for Independent Education and the license is a current, unencumbered provisional, regular or biennial license issued pursuant to Sections 1005.31-.38, F.S.

(a) Electrolysis training programs intended to train individuals to practice in Florida must provide the Electrolysis Council copies of all documents submitted to the Department of Education for initial approval and renewal by the Commission for Independent Education. Failure to provide these materials to the Council shall result in a denial or revocation of program approval by the Council.

(b) No home study or correspondence school or course will be considered in assessing an applicant's qualifications for licensure.

(2) Applicants shall complete and submit to the Council the application entitled "New Facility or New Ownership Application for Electrology Facility Licensure", form DOH/MQA/EP APP/REV-9/99, which is hereby incorporated by reference, copies of which may be obtained from the

Council Office at 4052 Bald Cypress Way, BIN C 05, Tallahassee, FL 32399. Approval by the Council is necessary before students are admitted.

(3) The facility where initial training is offered shall submit to the Council at least the following:

(a) A statement of the educational goals and objectives of the program;

(b) A detailed course outline or syllabus, including method of instruction, and testing materials;

(c) A current curriculum vitae of the course instructor(s);

(d) A sample certificate or diploma which includes the following which shall be filled in by the facility at the time of graduation:

Academic Hours	<u>Traditional Classroom</u>	<u>Non-Traditional Classroom</u>
Per 64B8-53.002(1) Successfully Completed	_____	_____
Clinical Hours	<u>Traditional Classroom</u>	<u>Non-Traditional Classroom</u>
Per 64B8-53.002(2) Successfully Completed	_____	_____

(e) A copy of the electrology facility license and the most recent Department of Health inspection sheet from the location where the training courses are to be offered demonstrating compliance with Rule 64B8-51.006, F.A.C.

(f) Proof of current, unencumbered licensure by the Commission for Independent Education, pursuant to Chapter 1005, Florida Statutes. Failure to maintain that license in good standing shall result in the loss of Council approval of the Program.

(g) Provide a copy of the application form submitted by students which shall include the following Notice in bold type no smaller than 14 points:

“Notice from the Florida Electrolysis Council

Applicants for an Electrolysis License in the State of Florida are required to have completed a specifically outlined course of academic and clinical studies. Those studies must have been taken in a classroom setting in the physical presence of the instructor. Only such classroom education will be considered adequate for licensure. No credit shall be awarded applicants for home study, correspondence, or other distance education.

\_\_\_\_\_  
Student Signature                      Date”

(4) The content of the program must include the curriculum standards set forth in subsections 64B8-53.002(1) and (2), F.A.C.. All curriculum must harmonize with and not be contrary to the following statements:

(a) The procedures to be used for electrolysis involve the insertion of a sterile needle electrode into the hair follicle(s) of prepared skin. After the application of the selected current, the treated hair(s) is (are) removed with sterile forceps. After treatment is complete, the treated area of the skin is given post-treatment care.

(b) Electrolysis training programs shall be limited to training in the universally accepted procedures of electrolysis and shall not include extemporary procedures licensed by any other Florida Board. (5) Only needle-type epilators shall be used in electrolysis training programs.

(6) All students in the clinical application phase of an electrolysis training program shall have access to a full work station consisting of an epilator, treatment table, stool, and supplies. (8) Each facility where electrolysis training programs are offered must be licensed as an electrology facility pursuant to Rule 64B8-51.006, F.A.C.

(9) An electrolysis training program in another state or jurisdiction which does not license the practice of electrolysis shall be an approved electrolysis training program if meets requirements substantially equivalent to those in subsections 64B8-53.001(1) and (2), F.A.C.

#### **WATER MANAGEMENT DISTRICTS**

NOTICE IS HEREBY GIVEN that on November 8, 2006, the St. Johns River Water Management District has issued an order.

The St. Johns River Water Management District (SJRWMD) Governing Board hereby gives notice that on November 8, 2006, it issued a Final Order Granting Variance under Section 120.542, F.S. (SJRWMD FOR # 2006-85), to LabCo, LLC (Petitioner). The Petition for Variance was received by SJRWMD on September 1, 2006. Notice of receipt of the petition requesting the variance was published in the F.A.W., Vol. 32, No. 39, on September 29, 2006. No public comment was received. This order provides a temporary variance from subparagraph 40C-41.063(1)(c)1., Florida Administrative Code and Section 11.1.3 of the Applicant's Handbook: Management and Storage of Surface Waters (February 1, 2005). These rules provide in pertinent part that a surface water management system may not result in an increase in the amount of water being diverted from the Upper St. Johns River Hydrologic Basin to intercoastal receiving waters. Generally, the Order sets forth the basis of the Governing Board's decision to grant the variance as follows: 1) requiring Petitioner to comply with these rules onsite would create a technological hardship, and 2) Petitioner's financial contribution to the C-1 Rediversion Project or an Alternative Rediversion Project will accomplish the purpose of Chapter 373, Florida Statutes, to prevent harm to the water resources, by facilitating the project's implementation. The C-1 Rediversion Project is a restoration project designed to allow water that would be diverted from the St. Johns River to coastal receiving waters by the Melbourne-Tillman Water Control District canal system to drain once again to the St. Johns River. A copy of the Order may be obtained by contacting: Timothy A. Smith, Senior Assistant General Counsel, Office of General Counsel, St. Johns River Water Management District, 4049 Reid Street, Palatka, Florida 32177-2529, (386)312-2347.

The order is regarding the Petition for Waiver or Variance, filed on May 9, 2006, by Pamela Childers. The Notice of Petition for Waiver or Variance was published in the F.A.W., Vol. 32, No. 21, of the May 26, 2006. The Petitioner sought a waiver or variance of subsection 61H1-33.006(2), F.A.C., entitled "Inactive or Delinquent Florida Certified Public Accountants Who Desire to Become Active Licensees" with regard to the requirement that required continuing professional education hours have been completed in the 24 months immediately preceding the date of an application for reactivation. Board considered the instant Petition at a duly-noticed public meeting, held July 26, 2006, in Tampa, Florida. A request for administrative hearing, if any, must be made in writing and must be actually received by this department within 21 days of the first day of publication of this notice in the F.A.W., pursuant to Chapter 120, Florida Statutes, and Chapter 59C-1, Florida Administrative Code.

**DEPARTMENT OF ENVIRONMENTAL PROTECTION**

Notices for the Department of Environmental Protection between December 28, 2001 and June 30, 2006, go to <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

The Department of Environmental Protection (Department) gives notice of its intent to issue a variance (File No. 0139296-006-EV) to Mosaic Fertilizer, L.L.C., Post Office Box 2000, Mulberry, Florida 33860-1100, under Section 373.414(17) and 403.201(1)(a), Florida Statutes, (F.S.), from the provisions of Rule 62-302.530, Florida Administrative Code (F.A.C), which provides minimum standards for dissolved oxygen levels in surface waters. This variance will apply to dissolved oxygen levels in the hypolimnion (the deepest layer) in the reclaimed lakes proposed in Environmental Resource Permit application No. 0139296-005 and Wetland Resource Permit modification application No. 0139296-004.

The Department's file on this matter is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Florida Department of Environmental Protection, Bureau of Mine Reclamation, 2051 East Dirac Drive, Tallahassee, Florida 32310-3760, (850)488-8217.

On June 20, 2005, Mosaic Fertilizer, L.L.C. applied for an Environmental Resource permit/water quality certification (application No. 0139296-005), wetland resource permit modification (application No. 0139296-004), and conceptual reclamation plan modification (MOS-HW-CPC) for the Hopewell Mine. The post reclamation plan proposed for the application areas includes six (6) lakes totaling approximately 138.6 acres to be created in areas previously mined for phosphate. On August 7, 2006, Mosaic Fertilizer, L.L.C. submitted a petition for a variance, under Section 373.414(17) and 403.201(1)(a), Florida Statutes, (F.S.), from the provisions of subsection 62-302.530(31), F.A.C, which provides minimum standards for dissolved oxygen levels in surface waters.

The dissolved oxygen levels in the hypolimnion of the deep-water pockets are expected to drop below the mandatory minimum of 5.0 mg/l at times. Stratification and the associated

reduction of dissolved oxygen in the hypolimnion are natural phenomena in deep-water bodies, especially during warmer parts of the year. This condition is well documented in the limnological literature and recognized in Section 373.414(6)(a), F.S., which states, "The Legislature recognizes that some mining activities that may occur in waters of the state must leave a deep pit as part of the reclamation. Such deep pits may not meet the established water quality standard for dissolved oxygen below the surficial layers. Where such mining activities otherwise meet the permitting criteria contained in this section, such activities may be eligible for a variance from the established water quality standard for dissolved oxygen within the lower layers of the reclaimed pit."

The low dissolved oxygen levels in the hypolimnion of the lakes are not expected to result in any on-site or off-site impacts. Oxygen levels in the upper layers of the lakes are expected to meet the requirements of Section 62-302.530, F.A.C., and be adequate to support healthy fish populations. Existing lakes on lands previously mined for phosphate support healthy populations of fish. Several reclaimed lakes are currently being managed by the Florida Fish and Wildlife Conservation Commission to provide the public recreational fishing opportunities. Once reclamation is completed, several of the lakes will be connected to reclaimed and/or preserved wetlands and streams. Water exiting these lakes is expected to meet the requirements for dissolved oxygen and other water quality criteria of Rule 62-302.530, F.A.C. The water will exit from the upper surface of the lakes and will flow through shallow conveyances that will provide further aeration.

There is no practicable means known or available to achieve the required dissolved oxygen levels within the hypolimnion in the reclaimed lakes. Therefore, the Department intends to issue a variance pursuant to Section 403.201(1)(a), F.S., for dissolved oxygen within the hypolimnion in the reclaimed lakes.

The referenced lakes at the Mosaic Hopewell Mine are located in Hillsborough County, Sections 26, 27, 29, 33, 34, 35, and 36, Township 29 South, Range 22 East and Sections 1, 2, 3, and 11, Township 30 South, Range 22 East, in the watershed of an unnamed tributary of English Creek, English Creek and the North Prong of the Alafia River, all Class III waters, designated to support the recreation, propagation and maintenance of a healthy, well-balanced population of fish and wildlife.

Under this intent to issue, this variance is hereby granted subject to the applicant's compliance with any requirement in this intent to publish notice of this intent in a newspaper of

general circulation and to provide proof of such publication in accordance with Section 50.051, Florida Statutes. This action is final and effective on the date filed with the Clerk of the Department unless a sufficient petition for an administrative hearing is timely filed under Section 120.569 and 120.57, Florida Statutes, as provided below. If a sufficient petition for an administrative hearing is timely filed, this intent to issue automatically becomes only proposed agency action on the application, subject to the result of the administrative review process. Therefore, on the filing of a timely and sufficient petition, this action will not be final and effective until further order of the Department. When proof of publication is provided, if required by this intent, and if a sufficient petition is not timely filed, the variance will be issued as a ministerial action. Because an administrative hearing may result in the reversal or substantial modification of this action, the applicant is advised not to commence construction or other activities until the deadlines noted below for filing a petition for an administrative hearing or request for an extension of time have expired and until the variance has been executed and delivered. Mediation is not available.

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under Section 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the: Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Under subsection 62-110.106(4), Florida Administrative Code, a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the: Office of General Counsel Department, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

If a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have

the right to petition to intervene in the proceeding. Intervention will be permitted only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code.

In accordance with Section 373.414(17) and 403.201, F.S., petitions for an administrative hearing by the applicant must be filed within 14 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under Section 120.60(3), Florida Statutes must be filed within 14 days of publication of the notice or within 14 days of receipt of the written notice, whichever occurs first. Under Section 120.60(3), Florida Statutes, however, any person who has asked the Department for notice of agency action may file a petition within 14 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Section 120.569 and 120.57, Florida Statutes.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action;

- (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, Florida Administrative Code. Under Sections 120.569(2)(c), (d), Florida Statutes, a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This intent to issue a variance constitutes an order of the Department. Subject to the provisions of Section 120.68(7)(a), Florida Statutes, which may require a remand for an administrative hearing, the applicant has the right to seek judicial review of the order under Section 120.68, Florida Statutes, by the filing of a notice of appeal under rule 9.110 of the Florida Rules of Appellate Procedure with: Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the order is filed with the Clerk of the Department.
