THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

69J-7.006 Grants: Eligibility, Application and Award (Non-Low Income)

(1) Applicability.

This rule applies to grants to homeowners under Section 215.5586(2), Florida Statutes, except that this rule does not apply to grants to low-income persons under Section 215.5586(2)(g), Florida Statutes, or to grants by or through non-profit entities or local governments under Section 215.5586(2)(d), Florida Statutes.

(2) Definitions.

For the purposes of this rule and implementation of Section 215.5586(2), Florida Statutes, the following definitions apply:

(a) "Completed Inspection" refers to an inspection wherein an inspector has performed a visual examination of a Florida home, and has submitted an inspection report to the Department.

(b) "Department" standing alone refers to the Department of Financial Services.

(c) "Grant" refers to a grant under Section 215.5586(2), Florida Statutes.

(d) "Home" refers to the residence on which the retrofit improvement work would be performed.

(e) "Matching grant" is, for purposes of Section 215.5586(2), Florida Statutes, a grant under which the homeowner will be reimbursed for half of the actual costs to make the improvement, up to \$5,000 for any and all improvements. This is contrasted with a low-income homeowner grant recipient who is not required to match the pay 50% of the actual cost up to \$5,000, and will be reimbursed the actual cost to make the improvement(s), up to \$5,000 for improvements.

(f) Opening Protection.

1. "Standard" opening protection refers to metal panels that are manually installed when a storm approaches, and are removed and stored when the storm has past.

2. "Permanently attached" opening protection refers to accordion shutters, roll-down shutters, and other opening protection devices that are permanently attached to the building and are deployed across the opening when a storm approaches, and retracted back to their permanent attachment point when the storm has past.

3. "Permanently deployed" opening protection refers to windows and doors that are pressure and impact rated for hurricane conditions and that are installed in accordance with current Florida Building Code requirements for new construction.

(g) "Program" and "MSFH Program" and "My Safe Florida Home Program" refer to the program created under the authority of Section 215.5586, Florida Statutes.

(h) "Site-built" means a home built at its permanent and final location. This is contrasted with manufactured housing, including mobile homes and modular homes of which all or

entire major sections of the home are built off-site, and the sections are assembled on site, which are not eligible for a grant pursuant to Section 215.5586, Florida Statutes.

(i) "The year in which the home was built" means the year in which application for the building permit for initial construction was made with the applicable building department.

(j) "You" or "your" refers to a homeowner applying for or awarded a grant under Section 215.5586, Florida Statutes.

(3) Eligibility for Grants.

(a) "Acceptable hurricane mitigation inspection."

An "acceptable hurricane mitigation inspection" as required by Section 215.5586(2)(a)3., Florida Statutes, is:

1. An inspection by a Wind Certification Entity under Section 215.5586(1), Florida Statutes, concerning which the homeowner has received a report of inspection from the Department;

2. An inspection conducted by a non-profit entity or a local government entity pursuant to agreement between the Department and that non-profit entity or a local government entity, or

3. An inspection conducted by a third party who has a contract with the Department under Section 215.5586(10), Florida Statutes, to conduct inspections for the Department.

(b) "Wind-borne debris region."

1. Section 215.5586(2)(a)4., Florida Statutes (2007), limits grants to "Wind-borne debris region as that term is defined in Section 1609.2, International Building Code (2006)." The preceding phrase, as implemented by the Department under Section 215.5586(2)(a)4., Florida Statutes, is the geographic area determined by the Florida Building Commission to be the State of Florida's Wind-Borne Debris Region, depicted in figure 1609 and figure R301.2(4) of the Florida Building Code (2007 Supplement). Figure 1609 and figure R302.2(4) of the Florida Building Code (2007 supplement) are hereby adopted and incorporated by reference into this rule. The Florida Building Code, including the cited figures, is available online at http://www2.iccsafe.org/states/2004_florida_codes.

2. Consistent with paragraph (b)1. above, the entire area of the following counties is within the wind-borne debris region: Broward, Escambia, Franklin, Gulf, Martin, Miami-Dade, Monroe, Pinellas, St. Lucie, and Sarasota.

3. Consistent with subparagraph (b)1. above, no part of the following counties is within the wind-borne debris region: Alachua, Baker, Bradford, Calhoun, Clay, Columbia, Gadsden, Gilchrist, Glades, Hamilton, Hardee, Highlands, Holmes, Jackson, Lafayette, Lake, Leon, Madison, Marion, Okeechobee, Osceola, Polk, Putnam, Seminole, Sumter, Suwannee, and Union.

4. Consistent with subparagraph (b)1. above, part but not all of the following counties is within the wind-borne debris region: Bay, Brevard, Charlotte, Citrus, Collier, DeSoto, Dixie,

Duval, Flagler, Hendry, Hernando, Hillsborough, Indian River, Jefferson, Lee, Levy, Liberty, Manatee, Nassau, Okaloosa, Orange, Palm Beach, Pasco, Santa Rosa, St. Johns, Taylor, Volusia, Wakulla, Walton, and Washington. The extent of the wind-borne debris region within these counties is determined by the county building official, and the Department's determination as to whether a particular home in these counties is within the wind-borne debris region is based upon information provided to the Department by the county building official's office.

(c) "Insured value" requirement.

1. The "insured value" criteria specified at Section 215.5586(2)(a)2., Florida Statutes, refers to the insured value of the dwelling structure under a homeowner's property insurance policy, at Section 1, Coverage A – Dwelling, of the policy.

2. To be eligible for a grant under Section 215.5586(2), Florida Statutes, there must be homeowner's insurance coverage in force on the Home at the time of grant application; it is not necessary that the homeowner's insurance that is in force include hurricane wind coverage.

3. Insured value under a flood insurance policy issued under the national flood insurance program is not acceptable as proof of compliance with the insured value requirement under Section 215.5586(2)(a)2., Florida Statutes.

(d) Multi-family structures excluded.

Only residences that are detached, single family, site built dwellings are eligible for grants. Residences within a multi-family structure are not eligible for grants. Residences within a multi-family structure are those that to any degree share a wall or roof with any other residence. Examples of residences within multi-family structures that are not eligible for a grant include, but are not limited to, townhouses or patio homes, or residences within a duplex or a triplex.

(e) Homestead exemption requirement.

To be eligible for a grant, the home must have been actually granted a homestead exemption that is in effect as of the date of grant application. It is not sufficient that an application for homestead exemption has been filed or that the home qualifies for a homestead exemption and will be issued a homestead exemption for the following tax year. The homestead exemption offered to show compliance with Section 215.5586(2)(a)1., Florida Statutes, must show the grant applicant as property owner.

(f) "Owner-occupied."

The phrase "owner-occupied" as used in Section 215.5586(2), Florida Statutes, requires that the owner of the home must actually be residing in the home at time of the application for grant, in order to be eligible for a grant.

(4) Application for Grant.

(a) How to apply.

1. Homeowners shall apply for a grant by supplying the required information to the Department through the Department's My Safe Florida Home online system, located at <http://www.mysafefloridahome.com/>. Once at that webpage, select "For Homeowners," then select "Matching Grants;" or the homeowner can click on "I want to apply for a grant"

2. Homeowners who cannot apply online may call the Department at (866)513-6734, and the Department staff will take the required information by phone and enter it into the Department's computer system for the homeowner.

(b) Information required to be provided by homeowner in an application for a grant.

(c) The following information must be supplied to the Department by a grant applicant:

1. Wind inspection report number for the home, as appearing on the upper left corner of the inspection report issued to the homeowner by the Department under Section 215.5586(1)(a)1., Florida Statutes. This number is also referred to as the "application number."

2. The applicant's last name and zip code. Applications will not be accepted unless this information entered by the applicant matches the data in the Department's records relating to the inspection report issued to the homeowner by the Department under Section 215.5586(1)(a)1., Florida Statutes.

3. Information to confirm the Department's online system:

a. When the Department's online system matches the application number, last name, and zip code, the Department's online system will display the following information concerning the home, as such information exists in the Department's records as a result of the previous inspection of the home under Section 215.5586(1), Florida Statutes, and the applicant will be required to indicate whether the information displayed is correct according to the applicant's records and recollection:

(I) The address of the Home.

(II) Whether the Home is in a wind-borne debris region.

(III) The mitigation improvements recommended in the MSFH inspection report issued to the homeowner.

(IV) The year the home was built.

b. If applicant indicates that any displayed information is not correct, the online system will instruct the applicant to call the My Safe Florida Home program staff at its toll free phone number, as published on the My Safe Florida Home website, and the online application session will terminate. Upon contacting My Safe Florida Home staff, that staff will assist the applicant to determine the reason for the discrepancy. When the discrepancy is resolved, the applicant can commence a new online grant application.

4. If the building permit for initial construction was applied for in 2002, the applicant will be required to provide the Department with evidence that the building permit was applied for before March 1, 2002, as required by Section 215.5586(2) (a)5., Florida Statutes. Satisfactory evidence shall

include: a copy of records of the building department showing the permit application date; a written, signed statement from the building department stating the permit application date; or a written, signed statement of the contractor who applied for the permit, stating the date of application.

5. Whether the applicant is applying as a low income homeowner. If the applicant indicates that they are applying as a low income homeowner, additional information is required, as specified by a different rule of the Department.

6. The applicant must indicate whether their home is a site-built, detached single family dwelling. If the applicant indicates that the home is not a site-built, detached single family dwelling, the online system will advise them that they are not eligible for a grant, and that they should contact the My Safe Florida Home staff if they believe an error has been made or otherwise have questions regarding the matter; the online application session will then terminate.

7. The applicant must provide the homestead exemption number for the home, as assigned by the county property appraiser for the county where the home is located. Applicant must provide the insured value of the home.

8. The applicant must indicate assent to the following statement: "I, the applicant, under penalty of perjury, do hereby state that this application is the only application for grant I have submitted. Additionally, I understand that pursuant to Section 837.06, Florida Statutes, knowingly making a false statement in writing with the intent to mislead a public servant in the performance of their official duty is a crime punishable as provided in Section 775.082 or 775.083, Florida Statutes."

(d) Documentary materials required to be submitted by applicant for a grant.

1. As more fully specified below, every applicant for a grant subject to this rule shall submit to the Department documentary evidence of homestead exemption and insured value, in applying for a grant.

a. The required documentary evidence shall be submitted by mail or as electronic attachments to the application for grant. The electronic attachments shall be in one of the following formats: jpg, gif, tif, doc, or pdf. The Department's online system will prompt the applicant to indicate whether they will submit by mail, or by electronic attachment. Where the applicant selects electronic attachment, the Department's system will provide a field into which the electronic document may be copied by the applicant.

b. Documentary materials must be fully legible. Documentary materials showing indication of alternation or forgery will be rejected with notice to the applicant by the Department.

2. Proof of homestead exemption. The following items will be accepted by the Department as documentary proof of current homestead exemption:

a. A copy of the annual application for renewal of homestead exemption provided to the homeowner by the county property appraiser's office, issued within the 24 months preceding the date on which grant application is made, showing the address and homestead exemption number of the home which is the subject of the grant application, and naming the grant applicant as property owner;

b. A copy of a receipt showing renewal of homestead exemption, issued by the county property appraiser's office within the 24 months preceding the date on which grant application is made, showing the address and homestead exemption number of the home which is the subject of the grant application, and naming the grant applicant as property owner; or

c. Other document issued by the county property appraiser's office, or available and printed from the county property appraiser's online website, if any, establishing that the home currently has a homestead exemption.

3. Proof of insurance coverage. Applicant shall submit a copy of the declarations page of the homeowner property insurance policy covering the property at the time of the grant application, as issued by the insurer, showing the coverage period, the named insured, the address of the insured property, and the limit of liability for the coverage under Section 1, Coverage A – Dwelling.

4. Proof of permit date. If the building permit for initial construction was applied for in 2002, the applicant will be required to provide the Department with evidence that the building permit was applied for before March 1, 2002, as required by Section 215.5586(2)(a)5., Florida Statutes. Satisfactory evidence shall include: a copy of records of the building department showing the permit application date; a written, signed statement from the building department stating the permit application date; or a written, signed statement of the contractor who applied for the permit, stating the date of application.

(5) Processing of Grant Applications.

(a) Grant applications that are determined by the Department to be incomplete or irregular shall be held in abeyance by the Department. Notice will be provided to the applicant as set forth in this rule. A grant application is incomplete if it lacks any information required by the application, or if the Department has not received all documentation regarding homestead exemption and insured value, as required by this rule. A grant application is considered by the Department to be irregular if it contains information that is internally inconsistent or which is inconsistent with other information known or received by the Department, is apparently duplicative of another application on the same residence or by the same homeowner, contains nonsensical or illogical information, or if the Department has reason to believe that the application may be fraudulent.

(b) Within 45 days of receiving the application, the Department will notify the grant applicant concerning the status of the grant application. Grant applicants are responsible for ensuring that their grant application is complete and regular. No notice will be provided concerning the status of a grant application if the Department has or is referring the application to law enforcement or other investigatory authorities for investigation or other action with regard to suspected fraud or other illegal activity in connection with the application.

(6) Award of Grants.

(a) A grant is awarded when the Department prepares and sends the grant applicant a form DFS-I4-1806 (Matching Grant Award Packet). No grant is considered awarded until the Department actually places form DFS-14-1806 in the U.S. mail to the applicant.

(b) Change in eligible types of retrofit improvement work. By operation of Chapter 2007-126, Laws of Florida, amending Section 215.5586(2)(e), Florida Statutes, effective June 12, 2007, the Legislature reduced the types of retrofit improvement work eligible for grant subsidy from seven categories to three categories. Prior to June 12, 2007, the Department had issued numerous notices or letters to homeowners advising those homeowners that they were eligible to apply for grant assistance for some or all of the four types of retrofit improvement work that were deleted from Section 215.5586, Florida Statutes, by operation of Chapter 2007-126, Laws of Florida. The Department interprets the Legislative intent in this matter to be as reflected in the following two sub-subparagraphs, and will implement Section 215.5586, Florida Statutes, accordingly.

1. Grants approved by the Department in writing prior to June 12, 2007, remain in force as to any and all of the seven types of retrofit improvement work specified and approved in the grant for the particular house in question.

2. Homeowners who received a notice or letter from the Department dated prior to June 12, 2007, advising those homeowners that they were eligible to apply for grant assistance for some or all of the four types of retrofit improvement work that have subsequently been deleted from Section 215.5586, Florida Statutes, by operation of Ch. 2007-126, but which homeowners were not approved for a grant prior to June 12, 2007, are not eligible for a grant to accomplish any of the four types of retrofit improvement work deleted by the Legislature effective June 12, 2007, notwithstanding that the inspection report or other papers provided to them by the Department prior to June 12, 2007, which recommended, advised, or indicated that the homeowner was eligible to apply for a grant for one or more of the four types of deleted retrofit improvement work.

RULE TITLE:

69J-7.007

Grants-Medical Condition Exception

PURPOSE AND EFFECT: Section 215.5586, F.S. establishes the MyFloridaSafe Home Program to provide grants to encourage residential property owners meeting specified criteria to improve the structural integrity of their residential structures to make them less vulnerable to hurricane damage. In most cases, replacing one set of code compliant hurricane shutters with another set does not meet the statutory mandate that improvements funded by MySafeFlorida Home grant be

used to make structures less vulnerable to hurricane damage. However, if a medical condition makes an existing shutter system too difficult to deploy, its replacement with a more easily deployed system may reduce hurricane damage vulnerability. The proposed rule provides a procedure for homeowners with a medical condition which impairs shutter deployment to obtain a grant to replace shutters.

SUBJECT AREA TO BE ADDRESSED: MySafeFlorida Home Grant Standards.

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

69J-7.007 Grants – Medical Condition Exception.

(1) Definitions.

(a) “Grant” refers to a grant under Section 215.5586(2), Florida Statutes.

(b) “Department” refers to the Florida Department of Financial Services.

(c) “MSFH” refers to the My Safe Florida Home program.

(2) General Provision. A grant shall only be used to mitigate the risk of hurricane damage. Subject to the exception below, the Department will not in the My Safe Florida Home program under Section 215.5586, Florida Statutes, approve a grant to replace opening protection on a home, where the home already has existing opening protection that complies with Florida Building Code requirements for new construction in the location where the home is located.

(3) Exception. Replacement of a Florida Building Code compliant opening protection system that is unlikely to be deployed due to medical limitations on the Homeowner with a

system that is more likely to be deployed because these limitations do not impede deployment of the system to be installed shall be a basis for a grant subject to the requirements of this section. If a homeowner who otherwise meets all criteria for a grant regarding opening protection except that they already have opening protection that meets Florida Building Code requirements for new construction, establishes by written medical opinion as required herein that applicant is for medical reasons deemed incapable of or is advised against engaging in actions necessary to deploy and install the existing opening protection devices, or establishes by official letter from the Department of Veteran Affairs or Disabled American Veterans that the applicant is permanently or totally disabled, the Department will waive the prohibition set forth in subsection (2).

(4) Required Medical Opinion. In order to establish that an applicant is, for medical reasons, deemed incapable of or has been advised against engaging in actions necessary to deploy and install existing opening protection devices, the applicant must submit:

(a) A written medical opinion, on a physician’s letterhead which:

1. Bears the original signature of a physician as defined by Section 458, 459, 460, 461, or 463, Florida Statutes;

2. Bears the physician’s license number assigned by the Department of Health;

3. Is dated within 6 months of the date of application for grant; and

4. Contains a statement that in the physician’s opinion the applicant, due to age, physical stature, physical handicap, or medical condition, is not deemed by the physician to currently be physically capable of manually installing, removing, or deploying the existing opening protection devices, or is advised by the physician not to attempt to manually install, remove, or deploy the existing opening protection devices due to risk of serious injury or exacerbation of existing injury or medical condition or;

(b) An official letter from the Department of Veteran Affairs or Disabled American Veterans which:

1. Contains a description of the medical condition of the homeowner or that the homeowner is permanently or totally disabled; and

2. Is dated within 3-5 years of the date of application for grant.

(5) Procedures.

(a) A homeowner desiring to apply for a grant to replace opening protection under this rule shall fill out and file with the Department a Department form DFS-xx-xxx, entitled “Application For Medical Condition Exception.”

(b) The homeowner shall provide the Department with the original of the required written and signed medical opinion or statement as specified in this rule.

(c) The form DFS-xx-xxx shall be filed by the homeowner with the Department by mailing same to the Department at: MSFH, Grant Application Review, P. O. Box 7300, Tallahassee, FL 32314-7300.

(d) The Department will review the form DFS-xx-xxx and within 30-45 days of receipt advise the applicant of the status of the application.

1. If the application for medical condition exception is denied, the applicant will be advised by the Department in writing sent to the mailing address provided by the applicant.

2. If the application for medical condition exception is approved by the Department, the Department will notify the applicant in writing; no approval will be deemed to have been given unless such a writing is issued by the Department. Any grant issued under the approved medical exception will be subject to the "Grant Award Letter," "Grant Agreement, Terms and Conditions" document, and a "Reimbursement Request Packet," as those forms are adopted under Department Rule 69J-7.005, F.A.C. Grants awarded by the Department are conditioned on all the terms, conditions, and other provisions set forth by the Department in the three Department forms identified in the preceding sentence. By accepting the grant the applicant agrees to all the said terms, conditions, and provisions. No change to the terms, conditions, and provisions of a grant shall be effective against the Department unless agreed to in writing signed by My Safe Florida Home program management.

(6) Grants under this rule are subject to all the requirements, restrictions, and limitations otherwise applicable to grants under Section 215.5586, Florida Statutes, and rules implementing that section.

(1) through (12) No change.

(13) Adult ~~Inpatient~~ Diagnostic Cardiac Catheterization Program. All licensed hospitals that establish adult diagnostic cardiac catheterization laboratory services under Section 408.0361, F.S., shall operate in compliance with the guidelines of the American College of Cardiology/American Heart Association regarding the operation of diagnostic cardiac catheterization laboratories. Hospitals are considered to be in

compliance with American College of Cardiology/American Heart Association guidelines when they adhere to standards regarding staffing, physician training and experience, operating procedures, equipment, physical plant, and patient selection criteria to ensure patient quality and safety. The applicable guideline, herein incorporated by reference, is the American College of Cardiology/Society for Cardiac Angiography and Interventions Clinical Expert Consensus Document on Cardiac Catheterization Laboratory Standards: Bashore et al, ACC/SCA&I Clinical Expert Consensus Document on Catheterization Laboratory Standards, JACC Vol. 37, No. 8, June 2001: 2170-214. Aspects of the guideline related to pediatric services or outpatient cardiac catheterization in freestanding non-hospital settings are not applicable to this rule. All licensed hospitals that establish an Adult Inpatient Diagnostic Cardiac Catheterization Program after July 1, 1997 pursuant to an exemption granted under Section 408.036(3)(n), F.S., shall comply with the provisions of the ACC/AHA Guidelines for Cardiac Catheterization and Cardiac Catheterization Laboratories JACC Volume 18, Number 5 of November 1, 1991, which establish the standards for Cardiac Catheterization and Cardiac Catheterization Laboratories, and which is hereby incorporated by reference, except as modified herein.

All such ~~exempted~~ licensed hospitals shall have a department, service or other similarly titled unit which shall be organized, directed and staffed, and integrated with other units and departments of the hospitals in a manner designed to assure the provision of quality patient care.

(a) Definitions. The following definitions shall apply specifically to all adult ~~inpatient~~ diagnostic cardiac catheterization programs, as described in this subsection 59A-3.2085(13), F.A.C.:

~~1.3.~~ “Diagnostic Cardiac Catheterization” means a procedure requiring the passage of a catheter into one or more cardiac chambers of the left and right heart, with or without coronary arteriograms, for the purpose of diagnosing congenital or acquired cardiovascular diseases, or for determining measurement of blood pressure flow; and also includes the selective catheterization of the coronary ostia with injection of contrast medium into the coronary arteries.

~~1.~~ “ACC/AHA” means the American College of Cardiology/American Heart Association.

~~2.~~ “JACC” means the Journal of the American College of Cardiology.

~~2.4.~~ “Adult Inpatient” means a person fifteen years of age or older who has been admitted for bed occupancy for the purposes of receiving inpatient hospital services.

~~5.~~ “Annual Program Volume” means the total number of inpatient and outpatient admissions to the adult cardiac catheterization program, for the purpose of diagnostic cardiac catheterization, for a 12 month period. A single admission is equivalent to one patient visit to the cardiac catheterization

program. Each patient visit shall be counted in determining the actual program volume regardless of whether the patient is an inpatient or outpatient at the hospital performing the procedure, or has been admitted as an inpatient or outpatient at another facility.

~~3.(b)~~ Therapeutic Procedures. An adult diagnostic cardiac catheterization program established pursuant to ~~an exemption granted under Section 408.0361, 408.036(3)(n), F.S.,~~ shall not provide therapeutic services, such as ~~balloon angioplasty percutaneous coronary intervention or stent insertion,~~ intended to treat an identified condition or the administering of intra-coronary drugs, such as thrombolytic agents.

4.(e) Diagnostic Procedures. Procedures performed in the adult diagnostic cardiac catheterization laboratory shall include, for example, the following:

- a.1. Left heart catheterization with coronary angiography and left ventriculography
- b.2. Right heart catheterization
- c.3. Hemodynamic monitoring line insertion
- d.4. Aortogram
- e.5. Emergency temporary pacemaker insertion
- ~~6.~~ Transesophageal electric pacing
- f.7. Myocardial biopsy
- g.8. Diagnostic trans-septal procedures
- h.9. Intra-coronary ultrasound (ICUS)
- i.10. Fluoroscopy
- j.11. Hemodynamic stress testing

~~(d) Annual Program Volume. The minimum program volume for an adult diagnostic cardiac catheterization service shall be either 300 admissions during the 12-month period commencing 18 months after a program becomes operational, or 150 admissions by at least one physician who performed diagnostic cardiac catheterizations during that period, with a second physician with at least 100 admissions for adult diagnostic cardiac catheterization during the same period. The program volume standard shall be met during each subsequent 12-month period. An annual report of compliance with this requirement shall be forwarded to the Agency's Certificate of Need Office.~~

~~(b)(e)~~ Support Equipment. A crash cart containing the necessary medication and equipment for ventilatory support shall be located in each cardiac catheterization procedure room. A listing of all crash cart contents shall be readily available. At the beginning of each shift, the crash cart shall be checked for intact lock; the defibrillator and corresponding equipment shall be checked for function and operational capacity. A log shall be maintained indicating review.

(c) Radiographic Cardiac Imaging Systems. A quality improvement program for radiographic imaging systems shall include measures of image quality, dynamic range and

modulation transfer function. Documentation indicating the manner in which this requirement will be met shall be available for the Agency's review.

~~(d)(f)~~ Physical Plant Requirements. Section 419.2.1.2, Florida Building Code, subsection 59A 3.081(53), F.A.C., contains the physical plant requirements for the adult diagnostic ~~inpatient~~ cardiac catheterization program.

~~(e)(g)~~ Personnel Requirements. There shall be an adequate number of trained personnel available. At a minimum, a team involved in cardiac catheterization shall consist of a physician, one registered nurse, and one technician.

(f) Quality Improvement Program. A quality improvement program for the adult diagnostic cardiac catheterization program laboratory shall include an assessment of proficiency in diagnostic coronary procedures, as described in the American College of Cardiology/Society for Cardiac Angiography and Interventions Clinical Expert Consensus Document on Cardiac Catheterization Laboratory Standards: Bashore et al, ACC/SCA&I Clinical Expert Consensus Document on Catheterization Laboratory Standards, JACC Vol. 37, No. 8, June 2001; 2170-214 guidelines. Essential data elements for the quality improvement program include the individual physician procedural volume and major complication rate; the institutional procedural complication rate; relevant clinical and demographic information about patients; verification of data accuracy; and procedures for patient, physician and staff confidentiality. Documentation indicating the manner in which this requirement will be met shall be available for the Agency's review.

~~(g)(h)~~ Emergency Services. Cardiac catheterization programs in a hospital not performing open heart surgery shall have a written protocol for the transfer of emergency patients to a hospital providing open heart surgery, which is within thirty minutes travel time by emergency vehicle under average travel conditions.

1. All providers of adult diagnostic cardiac catheterization program services in a hospital not licensed as a Level II adult cardiovascular services provider shall have written transfer agreements developed specifically for diagnostic cardiac catheterization patients with one or more hospitals that operate a Level II adult cardiovascular services program. Written agreements must be in place to ensure safe and efficient emergency transfer of a patient within 60 minutes. Transfer time is defined as the number of minutes between the recognition of an emergency as noted in the hospital's internal log and the patient's arrival at the receiving hospital. Transfer and transport agreements must be reviewed and tested at least every 3 months, with appropriate documentation maintained, including the hospital's internal log or emergency medical services data. Each program shall be capable of providing immediate endocardial catheter pacemaking in case of cardiac arrest and pressure recording for monitoring and evaluating

valvular disease, or heart failure. Documentation indicating the manner in which this requirement will be met shall be available for the Agency's review.

2. Patients at high risk for diagnostic catheterization complications shall be referred for diagnostic catheterization services to hospitals licensed as a Level II adult cardiovascular services provider. For example, patients actively infarcting should be defined as high risk and be immediately transported to a hospital where on-site open heart surgery is available. Hospitals not licensed as a Level II adult cardiovascular services provider must have documented patient selection and exclusion criteria and provision for identification of emergency situations requiring transfer to a hospital with a Level II adult cardiovascular services program. Documentation indicating the manner in which this requirement will be met shall be available for the Agency's review.

3. Each adult diagnostic cardiac catheterization program shall have the capability to rapid mobilization of its team 23 hours a day, 7 days a week. Documentation indicating the manner in which this requirement will be met shall be available for the Agency's review.

(h) Policy and Procedure Manual for Medicaid and Charity Care.

1. Each provider of adult diagnostic cardiac catheterization services shall maintain a policy and procedure manual, available for review by the Agency, which documents a plan to provide services to Medicaid and charity care patients.

2. At a minimum, the policy and procedure manual shall document specific outreach programs directed at Medicaid and charity care patients for adult diagnostic cardiac catheterization services.

(i) Enforcement. Enforcement of these rules shall follow procedures established in Rule 59A-3.253, F.A.C. Each diagnostic catheterization program shall provide a minimum of 2 percent of its admissions to charity and Medicaid patients each year. An annual report of compliance with this requirement shall be forwarded to the Agency's Certificate of Need Office.

(j) In case of conflict between the provisions of this rule and the *American College of Cardiology/Society for Cardiac Angiography and Interventions Clinical Expert Consensus Document on Cardiac Catheterization Laboratory Standards: Bashore et al, ACC/SCA&I Clinical Expert Consensus Document on Catheterization Laboratory Standards, JACC Vol. 37, No. 8, June 2001: 2170-214* guidelines, the provisions of this part shall prevail.

60FF-1.011 The Department's Criteria for Evaluating Exemption Requests.

The Department shall use the following combination of criteria in evaluating an Exemption Request:

(1) Availability of SUNCOM alternatives: The Department shall consider the current availability and expected ability of the Department to provide a viable, timely and cost effective alternative to the Custom Network Solution.

(2) Suitability of a SUNCOM solution: The Department will compare SUNCOM's potential solution to the Custom Network Solution to determine if it can satisfy the Business Objective as well or better than the Custom Network Solution.

(3) Additional benefits from the SUNCOM solution: The Department shall consider any additional features or value provided by the SUNCOM solution that may go beyond the Business Objectives.

(4) Enterprise economies of scale: The Department will consider the additional bulk purchasing leverage and financial impact on the Department's ability to achieve better prices for all of SUNCOM services resulting from implementing a SUNCOM solution.

(5) Ongoing costs to the Customer: The Department will consider the recurring cost difference between the Custom Network Solution and the SUNCOM alternative.

(6) The consequences of transition: The Department shall consider the operational, financial and contractual consequences if the Custom Network Solution is to be replaced with the most appropriate SUNCOM alternative.

(7) Compatibility of the Custom Network Solution with the State Network: The Department shall determine if the Custom Network Solution creates incompatibility with the State Network such that State communications or economies of scale shall be impaired. The complexity and cost of maintaining conditions where compatibility is sustained for a Custom Network Solution will be a factor in this determination.

(8) Security Impact on the State Network: The Department shall determine if the Custom Network Solution will comport with the Network Protection Standards for State Network established in Rule 60FF-3.004, F.A.C. The complexity and cost of maintaining conditions where security is sustained for a Custom Network Solution will be a factor in this determination.

(9) Congruity considerations:

(a) Congruity between the Required User's Business Objectives and the associated Custom Network Solution: This criterion shall determine if the intended benefits of the Custom Network Solution satisfy the Required User's Business Objectives.

(b) Congruity between the Required User's estimated costs and the realistic resources required, market conditions and scope that drive costs: This criterion shall determine if the costs estimates are accurate.

(c) Congruity between the Required User's estimated timing and the work effort required: This criterion shall determine if the milestones in Part IIA are realistic given the description of the Custom Network Solution.

(d) Congruity between the Required User's expectations of the Custom Network Solution and the likelihood those expectations shall be or have been met: This criterion shall determine if the proposed technology described in Part IIA has been used before to satisfy equivalent Business Objectives and what is the likelihood of success based upon the scope, technological maturity and track-record of similar projects.

(10) Longevity of the Custom Network Solution: The Department will consider the life cycle of the solution and the length of time the Required User expects to use the Custom Network Solution.

Specific Authority 282.102(9) FS. Law Implemented 282.102(2), (8), (12), 282.103, 282.104, 282.105, 282.106, 282.107 FS. History—New

5. Specified changes to the Custom Network Solution to include a portion of SUNCOM services.

6. A commitment from the Required User to replace the Custom Network Solution with a SUNCOM alternative when a viable SUNCOM alternative becomes available. The Required User may submit another Exemption Request for consideration when the SUNCOM alternative becomes available.

(c) The Exemption Request is denied. The Department shall provide the following with this finding:

1. An explanation of the Department’s reasoning behind the finding.

2. A general proposal and plan describing the SUNCOM service that will replace the Network Solution. The Department shall subsequently work with the Required User to develop a more detailed consensus plan and proposal for collaboratively implementing the SUNCOM alternative.

(d) The Department requires more information to render a conclusive finding. The Department will specify the information required and render a finding within 45 days from its submittal.

DEPARTMENT OF COMMUNITY AFFAIRS

DCA Final Order No.: DCA08-OR-110A
STATE OF FLORIDA

DEPARTMENT OF COMMUNITY AFFAIRS

In Re: MONROE COUNTY LAND DEVELOPMENT REGULATIONS ADOPTED BY MONROE COUNTY ORDINANCE NO. 002-2008

AMENDED FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to §§ 380.05(6), Florida Statutes, and § 380.0552(9), Florida Statutes (2007), rejecting a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and Monroe County is a local government within the Florida Keys Area.

2. On February 13, 2008 the Department received for review Monroe County Ordinance No. 002-2008 ("Ord. 002-2008"), adopted by Monroe County on January 16, 2008.
3. The purpose of the Ordinance is to adopt amendments to the text of the Monroe County Code to provide incentives to owners of mobile home parks to maintain the property as affordable housing.

CONCLUSIONS OF LAW

4. The Department is required to approve or reject land development regulations that are enacted, amended, or rescinded by any local government in the Florida Keys Area of Critical State Concern. § 380.05(6), Florida Statutes, and § 380.0552(9), Florida Statutes (2007).
5. Monroe County is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Florida Statutes (2007) and Rule 28-29.002 (superseding Chapter 27F-8), Florida Administrative Code.
6. "Land development regulations" include local zoning, subdivision, building, and other regulations controlling the development of land. § 380.031(8), Florida Statutes (2007). The regulations adopted by Ord. 002-2008 are land development regulations.
7. All land development regulations enacted, amended, or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in § 380.0552(7), Florida Statutes See Rathkamp v. Department of Community Affairs, 21 F.A.L.R. 1902 (Dec. 4, 1998), aff'd, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
8. Ord. 002-2008 allows for the transfer of market rate Rate of Growth Ordinance (ROGO) exempt allocations off-site to receiving properties in exchange for maintaining an equal or greater number of deed restricted affordable dwelling units within Monroe County with the sender site either donated or sold to Monroe County, or appropriately deed-restricted. Monroe County would assign affordable housing ROGO allocations from the ROGO pool to the mobile home park in exchange for the underlying land or appropriate long-term deed-restriction.
9. Ord. 002-2008 fails to properly address the transfer of ROGO exempt units and does not limit the receiver sites to Tier III or IIIA properties identified in Section 9.5-120.3, Land Development Regulations, to ensure that no clearing of habitat is required. Ord. 002-2008 fails limit the receiver sites of the ROGO exempt units to areas not located within a Velocity Zone. Ord 002-2008 is inconsistent with the following Principles:

(a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.

(b) To protect shoreline and marine resources, including mangroves, coral reef formations, seagrass beds, wetlands, fish and wildlife, and their habitat.

(c) To protect upland resources, tropical biological communities, freshwater wetlands, native tropical vegetation (for example, hardwood hammocks and pinelands), dune ridges and beaches, wildlife and their habitat.

(i) To limit the adverse impacts of public investments on the environmental resources of the Florida Keys, protect the public health, safety, and welfare of the citizens of the Florida Keys and maintain the Florida Keys as a unique Florida resource.

10. Ord. 002-2008 is inconsistent with the following provisions of the 2010 Monroe County Comprehensive Plan:

Policy 101.5.8

Policy 101.5.8 states Monroe County may develop a program, called Transfer of ROGO Exemption (TRE), that would allow for the transfer off-site of dwelling units, hotel rooms, campground/recreational vehicle spaces and/or mobile homes to another site in the same ROGO sub-area, provided that they are lawfully existing and can be accounted for in the County's hurricane evacuation model. In addition, the receiver site shall be located within a Tier III area outside a designated Special Protection Area and for a receiver site on Big Pine Key and No Name Key; the sending site shall also be located on one of those two islands.

Policy 101.14.1

Monroe County shall discourage developments proposed within the Coastal High Hazard Area (CHHA).

Objective 102.8

Monroe County shall take actions to discourage private development in areas designated as units of the Coastal Barrier Resources System.

Policy 102.8.1

Monroe County shall discourage developments which are proposed in units of Coastal Barrier Resources System (CBRS)

11. Ord. 002-2008 is inconsistent with Policy 205.2.2 because it fails to restrict transfer of development to Tier III in order to discourage the clearing of habitat.

Policy 205.2.2

Monroe County shall discourage developments in Tier I and within tropical hardwood hammock or pinelands of one acre or more in area to protect areas of native upland vegetation.

12. Ord. 002-2008 is inconsistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern and Monroe County's Comprehensive Plan.

WHEREFORE, IT IS ORDERED that Ordinance No. 002-2008 is found to be inconsistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is found to be inconsistent with the Monroe County Comprehensive Plan, and is hereby REJECTED.

This Order becomes effective 21 days after publication in the Florida Administrative Weekly unless a petition is filed as described below.
