No aggravating factors will be applied to increase a fine imposed for a single violation above the statutory maximum of \$2,500 per violation, per day. The guidelines in this rule chapter are based upon a single count violation of each provision listed. Multiple counts of the violated provision or a combination of the listed violations will be added together to determine an overall total penalty and will be grounds for enhancement of penalties.

(2) The Department will enforce compliance with Chapter 616, Florida Statutes, and this rule chapter by issuing an administrative complaint, a stop operation order, out of service tag, or an immediate final order for violations of Chapter 616, Florida Statutes, and this rule chapter.

(3) Stop Operation Orders. A stop operation order is necessary to effectuate the statutory duties of the Department in the interest of public health, safety, and welfare and is necessary to promote patron safety in the design, construction, assembly, disassembly, maintenance, and operation of amusement rides in Florida. A stop operation order will be used to prohibit the operation of an amusement ride that fails to comply with the requirements of Chapter 616, F.S.s, or this rule chapter.

(4) Nothing in this chapter shall limit the ability of the Department to informally dispose of administrative actions by settlement agreement, consent order, or other lawful means.

(5) Rule Not All-Inclusive. This rule contains illustrative violations. It does not, and is not intended to encompass all possible violations of statute or Department rule that might be committed by any person. The absence of any violation from this rule chapter shall in no way be construed to indicate that the violation does not cause harm to the public or is not subject to a penalty. In any instance where the violation is not listed in this rule chapter, the penalty will be determined by consideration of:

(a) The closest analogous violation, if any, that is listed in this rule; and

(b) The mitigating or aggravating factors listed in this rule.

(6) Aggravating and Mitigating Factors. The Department will consider aggravating and mitigating factors in determining penalties for violations of Chapter 616, F.S., and this rule chapter. The factors shall be applied against each single count of the listed violation.

(a) Aggravating Factors:

1. The violation caused, or has the potential to cause, serious injury to a person.

2. The violation endangered the public safety or welfare.

3. Previous violations for the same or a similar offense that resulted in enforcement action.

4. The violation occurred for more than 24 hours.

5. The violation was repeated within three years.

6. The violator impeded, or otherwise failed to cooperate with, the Department's inspection or investigation.

7. Previous disciplinary action against the violator in this or any other jurisdiction and the deterrent effect of the penalty imposed.

8. Undue delay in initiating or completing, or failure to take, affirmative or corrective action after receipt of notice of the violation.

9. The violator's prior knowledge of Chapter 616, F.S. and Chapter 5F-8, F.A.C.

10. Whether the violation resulted from negligence or an intentional act.

11. The cost of the enforcement action.

12. The number of other violations proven in the same proceeding.

13. The benefit to the violator.

(b) Mitigating Factors:

1. Any documented efforts by the violator at rehabilitation.

2. Whether intentional actions of another party prevented the violator from complying with the applicable laws or rules.

3. Financial hardship.

4. Acts of God or nature that impairs the ability of the violator to comply with Chapter 616, F.S., or Chapter 5F-8, F.A.C.

5. The violation has a low risk of, or did not result in, harm to the public health, safety, or welfare.

6. The violator expeditiously took affirmative or corrective action after it received written notification of the violation.

7. The number and seriousness of the counts in the administrative complaint.

8. The disciplinary history of the person committing the violation.

9. If a repeat violation, whether three years has passed since the prior violation.

(7) The provisions of this rule chapter shall not be construed so as to prohibit or limit any other civil action or criminal prosecution that may be brought.

(8) In addition to the penalties established in this rule, the Department reserves the right to seek to recover any other costs, penalties, attorney's fees, court costs, service fees, collection costs, and damages allowed by law. Additionally, the Department reserves the right to seek to recover any costs, penalties, attorney's fees, court costs, service fees, collection costs, and costs resulting from a payment that is returned for insufficient funds to the Department.

(9) Penalties.

(a) Notice of Noncompliance. Any Department investigation or inspection which reveals minor violations of this rule chapter in which the Department determines that the violator was unaware of the rule or unclear as to how to comply with it will result in the issuance of a notice of noncompliance as the Department's first response to the violation. For the purposes of this rule, the following violations shall result in the issuance of a notice of noncompliance for the first violation only:

1. Failure to maintain or make immediately available to the Department upon request the required Owner's Daily Inspection Reports.

2. Failure to maintain or make immediately available to the Department upon request employee training records (employee trained, but no records).

3. Failure to provide the Department a copy of the manufacturer's operating instructions, operating fact sheet, or written manufacturer's bulletins.

4. Failure to maintain the required operations manual written in the English language for each go-kart and go-kart track that includes a detailed scaled drawing of the go-kart type course, manufacturer's maintenance instructions and specification for each go-kart, and written emergency plans.

5. Failure to maintain the required operations manual written in the English language for water parks that contain general maintenance and cleanup procedures, equipment operation instructions and written emergency plans.

(b) Minor Violations. A violation of Chapter 616, F.S., or this rule chapter is a minor violation if it does not result in economic or physical harm to a person or adversely affect the

public health, safety, or welfare or create a significant threat of such harm. Minor violations shall result in the imposition of an administrative fine against the owner of the amusement ride of \$250 per violation, per day. Aggravating factors as defined in paragraph (6)(a) of this rule shall warrant the adjustment of the fine upward and mitigating factors as defined in paragraph (6)(b) of this rule shall warrant the adjustment of the fine downward, but no fine shall exceed the statutory maximum as outlined in Section 616.242(19)(a), F.S. For the purposes of this rule, the following violations shall be considered minor violations:

1. Failure to maintain or make immediately available to the Department upon request the required Owner's Daily Inspection Reports.

2. Failure to maintain or make immediately available to the Department upon request employee training records (employee trained, but no records).

3. Failure to provide the Department a copy of the manufacturer's operating instructions, operating fact sheet, or written manufacturer's bulletins.

4. Failure to maintain the required operations manual written in the English language for each go-kart and go-kart track that includes a detailed scaled drawing of the go-kart type course, manufacturer's maintenance instructions and specification for each go-kart, and written emergency plans.

5. Failure to maintain the required operations manual written in the English language for water parks that contain general maintenance and cleanup procedures, equipment operation instructions and written emergency plans.

6. Failure to report an accident as required by Section 616.242, F.S.

(c) Major Violations. A violation of a Chapter 616, F.S., or this rule chapter is a major violation if it results in economic or physical harm to a person or adversely affects the public health, safety, or welfare or creates a significant threat of such harm. Major violations shall result in the imposition of an administrative fine against the owner of the amusement ride of \$1,000 per violation, per day or suspension of the owner's permit or inspection certificate for not more than one year or revocation the owner's permit or inspection certificate or any combination thereof. Aggravating factors as defined in paragraph (6)(a) of this rule shall warrant the adjustment of the fine upward and mitigating factors as defined in paragraph (6)(b) of this rule shall warrant the adjustment of the fine downward, but no fine shall exceed the statutory maximum as outlined in Section 616.242(19)(a), F.S. For the purposes of this rule, the following violations shall be considered major violations due to their high potential for consumer harm:

1. Operation of an amusement ride by an employee(s) who is/are not trained to operate or maintain the ride.

2. Operating an amusement ride in a manner or circumstance that presents a risk of serious injury to patrons, which does not result in a reportable accident.

10. Operating an amusement ride in violation of any order of the Department, or any court, or an Immediate Final Order.

60BB-10.009	Reapplying for Temporary Cash Assistance Due to an Unanticipated Emergency

PURPOSE AND EFFECT: The new rules set forth in this Notice of Proposed Rule implement emergency assistance under the Temporary Assistance for Needy Families (TANF) Program. The United States Congress passed the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) to provide emergency assistance to qualifying states during the country’s economic downturn. Subtitle B of the Act creates the Emergency Contingency Fund for State Temporary Assistance for Needy Families Program (“Emergency Fund”), and authorizes states that have an increase in assistance caseloads to request federal grant money in fiscal year 2009 and fiscal year 2010. The Emergency Fund provides grants equal to 80 percent of a state’s increased TANF and maintenance-of-effort expenditures on basic assistance, non-recurrent short-term benefits, and subsidized employment to help families unable to find jobs or to help families with low earnings during this difficult economic time. Florida is receiving grant money from the United States Department of Health and Human Services to, among other things, create subsidized employment projects. Participants must satisfy eligibility criteria to engage in the subsidized employment projects. Therefore, a need exists to adopt a new rule which sets forth these eligibility criteria.

SUMMARY: The new rules establish a subsidized employment program, provide definitions, describe eligibility criteria for employers and participants, establish position requirements, provide for cost sharing or matching, and incorporate various forms that must be filed with the Agency to participate in the program.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SUBSIDIZED EMPLOYMENT PROGRAM

60BB-10.001 Purpose, Intent, and General Principles.

Temporary Assistance for Needy Families (TANF) work activities are designed to assist the participant in obtaining employment to achieve economic self-sufficiency. TANF participants who apply for or currently receive cash assistance, as well as other persons who meet TANF eligibility requirements and all other requirements of this rule may be eligible for subsidized employment. Participation will be contingent upon funding, the availability of jobs, and on the employers’ ultimate selection.

The following words, phrases, or terms, as used in this rule, shall have the following meanings:

(1) “Parent/Relative Caregiver” means the mother, legal father, natural or biological father, maternal relatives, relatives of the legal father, and relatives of the natural or biological

(6) "Diversion" means immediate assistance to secure or retain employment as an alternative to welfare (cash assistance), and includes linking a person to a job opportunity as a first option.

60BB-10.004 How to Participate.

(1) Current TANF Participants. A regional workforce board may review its current TANF caseload to identify individuals who are currently receiving cash assistance who meet the job skill requirements of a job created by a subsidized employment project. Temporary cash assistance recipients participating in the Welfare Transition Program may also request to be considered for the subsidized employment program. The regional workforce board shall refer eligible, qualified participants who volunteer to participate to the participating employer for consideration for the subsidized employment position. A TANF participant or other eligible person who is currently receiving cash assistance who enters subsidized employment must sign Form AWI SEP 0011, *TANF Subsidized Employment Program Agreement* (effective 12/09), incorporated herein by reference and available at: <http://www.floridajobs.org/workforce/backtowork/forms.html>.

(2) An applicant for TANF temporary cash assistance. A TANF applicant who enters subsidized employment must sign Form AWI-SEP 0011, *TANF Subsidized Employment Program Agreement*.

(3) A person who meets the eligibility standards listed under Rule 60BB-10.003(3), who is neither a temporary cash assistance applicant nor current recipient of temporary cash assistance may contact or be contacted by a regional workforce board, Florida career center or other designated entity. Program staff will collect the information necessary to determine if the individual is TANF eligible by completing Form AWI-SEP 0005(c), *Request for TANF Funds/Eligibility Determination – 2009/2010* (effective 12/09), incorporated by reference and available at: <http://www.floridajobs.org/workforce/backtowork/forms.html>. If the individual is determined TANF eligible, the program staff will determine if the individual meets the job skill requirements of a job created by a subsidized employment project. The TANF eligible individual who enters subsidized employment must sign Form AWI SEP 0011, *TANF Subsidized Employment Program Agreement*.

Public and Private Sector employers interested in the subsidized employment program must complete Form AWI SEP 0012, *Subsidized Employment Program Employer Information Sheet* (effective 12/09), incorporated by reference and available at: <http://www.floridajobs.org/workforce/backtowork/forms.html>, that provides contact information for the participating employer, the number of subsidized employment positions needed and a description of the job skills required for each subsidized employment position, an attached budget narrative that details the costs of the project, and a written commitment by the employer to contribute any required funding to support the project and agreement to provide all necessary supervision and training for the subsidized positions.

(2) The Regional Workforce Board will evaluate a proposed subsidized employment project using the following criteria:

(a) Verification that the employer is registered with the Florida Department of State, Division of Corporations, and is authorized to conduct business in Florida;

(b) The commitment from the employer to contribute the amount of cash and/or in-kind services needed to cover any costs not reimbursed from the TANF Contingency Fund;

A subsidized employment position cannot be created if another individual is on layoff from the same or any substantially equivalent job, or if the employer has terminated the employment of any regular employee or caused an involuntary reduction in its work force in order to fill the vacancy with a subsidized worker.

(2) The Agency will subsidize a wage not to exceed \$40,579.00, which is the Florida annual average wage for 2008, as published by the Florida Agency for Workforce Innovation, Labor Market Statistics Center, Quarterly Census of Employment and Wages Program, produced in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

60BB-10.009 Reapplying for Temporary Cash Assistance Due to an Unanticipated Emergency.

If an individual placed with an employer as a part of the subsidized employment program who agreed not to apply for temporary cash assistance within six months of beginning the program, unless an unanticipated emergency situation arises, applies for temporary cash assistance within that six month period, the participant must be referred to the regional workforce board at application for temporary cash assistance to complete the work registration process. The regional workforce board's subsidized employment program staff must determine if a demonstrated emergency exists by completing Form AWI 0001(b), *Subsidized Employment Diversion Services Emergency Determination* (effective 12/09), incorporated by reference and available at: <http://www.floridajobs.org/workforce/backtowork/forms.html>. If the regional workforce board determines that an emergency exists the participant must follow the process established in Chapter 65A, F.A.C. If the regional workforce board determines that the family does not meet emergency criteria and the work registration process is completed, the Department of Children and Families will complete the eligibility determination process using information provided by the regional workforce board to calculate the repayment value of any services provided to the family. The repayment amount shall be deducted from any temporary cash assistance benefit for which the family is otherwise eligible and may be prorated over eight months.

These actions are being proposed after considering: [1] new information, analyses, and reports that have been collected, performed, or prepared since the existing zones were established; [2] existing federal manatee protection regulations in portions of the county; and [3] recommendations made by the Sarasota County Local Rule Review Committee that was formed pursuant to Section 379.2431(2)(f), F.S. The effect of the action would be to amend the zones that limit allowable motorboat speed in portions of the county and to revise other provisions of the rule, including those pertaining to the availability of permits for commercial fishing and professional fishing guide activities.

SUMMARY: New or expanded manatee protection zones would be added in the western portion of Sarasota Bay in the vicinity of New Pass and Bird Key, while the Manatee County portion of the existing zone in the Buttonwood Harbor area would be removed. Seven segments of the Intracoastal Waterway channel (totaling approximately 2.6 miles) between Siesta Key and Forked Creek (in Lemon Bay) would be changed from 25 MPH to Slow Speed, and the existing zone at Venice Inlet would be extended approximately 450 feet westward (into) the inlet. Zones would also be added in a section of Little Sarasota Bay to mirror the existing federal zones. The maps accompanying this notice show only those areas where the zones would change. Adoption of the proposed changes would increase the amount of area regulated for manatee protection in the county by 3% (313 acres) and increase the amount of time required to transit the county in the Intracoastal Waterway by 15 minutes. The section of the rule dealing with permits for commercial fishers and professional fishing guides would be amended to narrow the permits to cover only commercial fishing net-setting activities. Other changes to the rule would amend the preamble language to make it consistent with current statutory and rule language and otherwise clean up zone descriptions to improve accuracy and make the descriptions easier to understand.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The agency has determined that this rule will not have an impact on small business. A SERC has not been prepared by the agency.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

(Substantial rewording of Rule 68C-22.026 follows. See Florida Administrative Code for present text.)

68C-22.026 Sarasota and Associated County (~~Parts of Manatee and Charlotte~~) Zones.

(1) The Commission hereby designates the waters within Sarasota County (and a small portion of Charlotte County), as described below, as areas where manatee sightings are frequent and where the best available information supports the conclusion that manatees inhabit these areas on a regular or periodic basis. The primary purpose of this rule is to protect manatees from harmful collisions with motorboats and from harassment by establishing safe havens and regulating the speed and operation of motorboats within these designated areas. A secondary purpose is to protect manatee habitat.

(a) In consideration of balancing the rights of fishers, boaters, and water skiers to use the waters of the state for recreational and commercial purposes (as applicable under

Section 379.2431(2)(k), F.S.), with the need to provide manatee protection, the Commission has examined the need for limited lanes, corridors, or unregulated areas that allow higher speeds through or within regulated areas. Such lanes, corridors, or areas are provided in those locations where the Commission determined they are consistent with manatee protection needs. Access to the NO ENTRY zones designated hereunder will be provided in accordance with the procedures set forth in Rule 68C-22.003, F.A.C.

(b) All zones include all associated and navigable tributaries, lakes, creeks, coves, bends, backwaters, canals, channels and boat basins, and other waterways unless otherwise designated or excluded. Coordinates used in the descriptions of zone boundaries are referenced to the North American Datum of 1983 (NAD83).

(2) Adequate Yearly Progress.

(a) Every public school is expected to make adequate yearly progress towards state proficiency goals for each subgroup.

(b) AYP shall be calculated in accordance with Part II, 1.-5. of the 2009 Guide to Calculating Adequate Yearly Progress (AYP) Technical Assistance Paper, June 2009, which is hereby adopted by reference in this rule and accessible at <http://schoolgrades.fldoe.org/pdf/0809/2009AYPTAP.pdf>.

(c) AYP is comprised of thirty-nine (39) criteria as follows:

1. The first nine (9) criteria are met by determining whether the participation rate for each subgroup being evaluated in reading is at least ninety-five (95) percent.

2. The second nine (9) criteria are met by determining whether the participation rate for each subgroup being evaluated in mathematics is at least ninety-five (95) percent.

3. The third nine (9) criteria are met by determining whether the annual goals for reading proficiency are met by each subgroup being evaluated.

4. The fourth nine (9) criteria are met by determining whether the annual goals for mathematics proficiency are met by each subgroup being evaluated;

5. The thirty-seventh criterion is met if school-wide performance in writing improved by at least one (1) percent or is at a rate of ninety (90) percent or higher;

6. The thirty-eighth criterion is met if the school does not earn a grade of D or F; and

7. The thirty-ninth criterion is met if a high school improved its graduation rate or has a graduation rate of eighty-five (85) percent or higher.

(d) If a criterion is not applicable to a school because the subgroup is not of sufficient number to meet the state's minimum subgroup-size requirement for Adequate Yearly Progress reporting or if the school is not a high school, that criterion will be considered as having been met.

(e) The percentage of AYP criteria met is calculated by determining what percent of the thirty-nine (39) criteria was met by the school.

(3) Categories. The Department shall place each school into one of six categories annually. Beginning with the highest performing, the categories are entitled: Schools Not Required to Participate in Differentiated Accountability Strategies, Prevent I, Correct I, Prevent II, Correct II, and Intervene.

(a) Schools Not Required to Participate in Differentiated Accountability Strategies are schools in the highest-performing school category. A school shall be so categorized when the school:

1. Is graded "A", "B", "C", or is ungraded; and
2. Has not failed to make AYP for two (2) consecutive years.

(b) A school shall be categorized as a Prevent I school when the school:

1. Is graded "A", "B", "C", or is ungraded; and
2. Has an AYP count between one(1) and three (3); and

3. Has met at least eighty (80) percent of AYP criteria for at least two (2) consecutive years.

(c) A school shall be categorized as a Correct I school when the school:

1. Is graded "A", "B", "C", or is ungraded and;
2. Has an AYP Count of four (4) or greater; and
3. Has met at least eighty (80) percent of AYP criteria.

(d) A school shall be categorized as a Prevent II school when the school:

1. Is a "D" school that failed to meet AYP criteria for fewer than two (2) consecutive years; or
2. Is a "D" school that failed to meet AYP criteria for at least two (2) consecutive years, with an AYP count between one (1) and three (3); or
3. Is graded "A", "B", "C", or is ungraded; and
 - a. Has an AYP Count between one (1) and three (3); and
 - b. Has met less than eighty (80) percent of AYP criteria and has not met AYP criteria for at least two (2) consecutive years.

(e) A school shall be categorized as a Correct II school when the school:

1. Is graded "F" regardless of AYP status; or
2. Is graded "D" and has an AYP Count of four (4) or greater; or
3. Is graded "A", "B", "C", or is ungraded; and
 - a. Has an AYP Count of four (4) or greater; and
 - b. Has met less than eighty (80) percent of AYP criteria.

(f) A school shall be categorized as an Intervene school when the school:

1. Is graded "F" and has earned at least four (4) "F" grades in the last six (6) school years; or
2. Is graded "D" and meets the criteria for a Correct II school or is graded "F" and meets the criteria for a Correct II school, and the school also meets at least three (3) of the four (4) following conditions:

a. The percentage of non-proficient students in reading has increased when compared to the percentage attained five (5) years earlier.

b. The percentage of non-proficient students in mathematics has increased when compared to the percentage attained five (5) years earlier.

c. Sixty-five (65) percent or more of the school's students are not proficient in reading.

d. Sixty-five (65) percent or more of the school's students are not proficient in mathematics.

3. Alternative schools are exempt from qualifying for the Intervene category.

(4) Notice to District of School Category. The Department shall notify each school district of the category of each school located within the district.

(5) Intervention and Support Strategies. The strategies and support interventions required of schools in need of improvement fall into seven (7) areas: school improvement planning, leadership quality improvement, educator quality improvement, professional development, curriculum alignment and pacing, the Florida Continuous Improvement Model, and monitoring plans and processes. The action required for each school category is set forth in the form entitled, DA2 – Strategies and Support for Differentiated Accountability, effective as of the effective date of this rule. For charter schools and alternative schools the action required for each school category is set forth in the forms entitled DA-3, 2009-2010 Strategies and Support for Differentiated Accountability – Alternative Schools and DA-4, 2009-2010 Strategies and Support for Differentiated Accountability – Charter Schools as applied to charter schools and alternative schools. Forms DA2, DA-3 and DA-4 are hereby incorporated by reference in this rule and can be obtained through the Department of Education website www.flbsi.org/DA/index.htm or by contacting the Bureau of School Improvement in the Department. Should the implementation of any of the strategies imposed by this rule require collective bargaining, the district must promptly submit the issue for bargaining. The strategies and support set forth in this form must be incorporated into districts' collective bargaining agreement. The entity responsible for implementing the Differentiated Accountability strategies is as follows:

(a) For Prevent I schools:

1. The school implements interventions.
2. The district monitors progress and provides support to schools.

(b) For Correct I schools:

1. The school implements interventions.
2. The district directs interventions.
3. The district monitors progress and provides support to schools.

(c) For Prevent II schools:

1. The school implements interventions.
2. The district directs school interventions.
3. The district monitors progress and provides support to schools.
4. The Department monitors the district's support to schools.

(d) For Correct II schools:

1. The school implements interventions.
2. The district directs school interventions.
3. The district and Department monitor progress and support schools.

4. Intensive onsite support is provided by the district and the Department for schools graded "F," "D Former F," and Exiting Intervene schools.

(e) For Intervene schools:

1. The school implements interventions.
2. The district and Department conduct onsite monitoring of intervention implementations.
3. The district and Department provide intensive onsite support.
4. In the event the school does not make sufficient progress to exit the Intervene category within one (1) year, the district must choose one (1) of the four (4) reconstitution options described in subsection (8) of this rule.

(6) School Improvement Plan.

(a) Except for a school in the highest performing category, a school's improvement plan shall include the strategies and support activities found in the Department's Form DA2 – Strategies and Support for Differentiated Accountability. The School Improvement Plan template as incorporated by reference in Rule 6A-1.09981, F.A.C., as Form SIP-1, is available at <http://www.flbsi.org>.

(b) Non-Title I A, B, or C schools may receive a waiver from FDOE if the district/school can demonstrate that their existing template provides strategies for subgroups that did not meet AYP in the area of data analysis, RtI, and increasing student achievement. Applications for waivers are submitted to the Department of Education, K-12 Public Schools, prior to the annual submission deadline of the School Improvement Plan. The Department shall approve or deny the waiver and notify the district.

(7) Progression and exiting from categories other than Intervene. A Prevent I, Correct I, Prevent II, or Correct II school may progress to a School Not Required to Participate in Differentiated Accountability Strategies when it meets AYP criteria for two (2) consecutive years.

(8) Intervene Status; exiting the Intervene category; consequences of failing to exit.

(a) In order to exit the Intervene category a school must make significant progress after one (1) year. Significant progress is defined as:

1. The school's letter grade improves to a "C" or better, and
2. The school's AYP performance improves so that at least one (1) subgroup in reading and at least one (1) subgroup in mathematics that previously did not make AYP has made AYP.

(b) In the event a school in the Intervene category fails to make significant progress within one (1) year and exit the Intervene category, the district and Department will provide assistance with the selection and implementation of one (1) of the four (4) following reconstitution options for the school:

1. Reassign students to another school and monitor the students' progress. This option requires the district to:
 - a. Close the school and assign the students to different locations.

b. Follow established procedures for attendance boundary changes and zoning requirements in reassigning students to different locations.

c. Ensure that teachers from the closed school who are responsible for teaching reading and mathematics are not assigned to any school where the students from the closed school are assigned unless the teacher is highly qualified as set forth in Section 1012.05, Florida Statutes, and sixty-five (65) percent or more of the teacher's students achieved learning gains on FCAT for reading and mathematics for elementary teachers or the appropriate content area for middle and high school teachers.

d. Identify students from the closing school who were reassigned and monitor their academic progress. Progress will be reported annually to the Department for three (3) years.

e. In addition to open house events, the school must offer a flexible number of meetings to inform parents of their child's performance at school. These meetings shall be held at convenient times such as morning, evening, or weekends.

2. Convert the school to a district-managed turnaround school. This option requires:

a. The district to assign a district employee who is responsible for managing the turnaround process.

b. The district to replace the principal, all assistant principals, and instructional coaches unless assigned to the school for less than one (1) year and the school's failure to improve cannot be attributed, in whole or in part, to the individual. The Department shall provide recommendations to the district with respect to replacing the principal, assistant principals, and instructional coaches.

c. The district to reassign or replace instructional faculty and staff whose students' failure to improve can be attributed to a lack in performance on the part of faculty and staff providing instruction. Reading and mathematics teachers may not be rehired at the school unless they are highly qualified and effective instructors as set forth in Section 1012.05, Florida Statutes, and as evidenced by sixty-five (65) percent or more of their students achieving learning gains on FCAT for reading and mathematics for elementary teachers or the appropriate content area for middle and high school teachers.

d. The district to undertake a comprehensive search to recruit a new principal with a record of turning around a similar school. The principal's contract must include differentiated pay in the form of a signing bonus and performance pay for raising student achievement. The selection of the principal shall be informed by guidance from the Department.

e. The principal and new leadership team to select new faculty and staff with the Department's assistance. Differentiated pay may be offered to faculty through signing bonuses and compensation for mandatory professional development and involvement in additional parent and student functions after school. Performance pay may also be offered to

teachers for raising student achievement. The hiring process shall be completed in time to ensure all teachers participate in summer professional development activities.

f. The district to provide the school with a fully released reading coach and a fully released mathematics or science coach, and will provide additional coaches based on enrollment, unless the district provides direct instructional support services.

g. The district to assemble an advisory board comprised of district personnel, community members, and a representative of the Department. The advisory board shall report monthly to the superintendent regarding its activities, concerns, and recommendations. Only one advisory board is required for a district with more than one school in the Intervene category.

h. The district to make available to the school's administrators and teachers prior to the opening of school a summer professional development academy that is developed in conjunction with the Department.

i. The school to establish common planning time within the master schedule to allow meetings to occur a minimum of two (2) times a week, by grade level in elementary school and by subject area at the secondary level. If the master schedule cannot allow all grade level or subject area teachers to participate at the same time, the district must establish weekly common planning time after school for a minimum of one (1) hour a week.

j. The district to enhance its school allocation formula to provide additional funds, resources, and personnel to the school.

k. The district to submit to the bargaining process the terms of any provision of a collective bargaining agreement that impede the district's efforts to make gains sufficient for its schools in the Intervene category to exit from that category.

l. In addition to open house events, the school must offer a flexible number of meetings to inform parents of their child's performance at school. These meetings shall be held at convenient times such as morning, evening, or weekends.

3. Close the school and reopen the school as a charter school or multiple charter schools. This option requires the district to:

a. Close the school and follow procedures of Section 1002.33, Florida Statutes, to reopen the school as a charter or multiple charters.

b. Reassign students who do not choose to attend the charter to other schools.

c. Ensure that the charter includes the following provisions:

(I) The principal selected must have experience turning around a low-performing school;

(II) The principal, assistant principals, or coaches from the closed school may not be hired at the charter school unless assigned to the school for less than one (1) year and the school's failure to improve cannot be attributed, in whole or in part, to the individual;

(III) Reading and mathematics teachers from the closed school may only be hired if they are highly qualified and effective instructors as set forth in Section 1012.05, Florida Statutes, and as evidenced by sixty-five (65) percent or more of their students achieving learning gains on FCAT for reading and mathematics for elementary teachers or the appropriate content area for middle and high school teachers.

(IV) The district provides the school with a fully released reading coach and a fully released mathematics or science coach and provides additional coaches based on enrollment, unless the charter provides direct instructional support services.

d. In addition to open house events, the school must offer a flexible number of meetings to inform parents of their child's performance at school. These meetings shall be held at convenient times such as morning, evening, or weekends.

4. Contract with an outside entity to operate the school. This option requires the district to enter into a contract with a management company having a proven success record of improving low-performing schools. The contract must include the following:

a. The principal must have experience turning around a low-performing school.

b. The principal, assistant principals, or coaches from the closed school may not be hired at the new school unless assigned to the school for less than one (1) year and the school's failure to improve cannot be attributed, in whole or in part, to the individual.

c. Reading and mathematics teachers from the closed school may only be hired if they are highly qualified and effective instructors as set forth in Section 1012.05, Florida Statutes, and as evidenced by sixty-five (65) percent or more of their students achieving learning gains on FCAT for reading and mathematics for elementary teachers or the appropriate content area for middle and high school teachers.

d. The district provides the school with a fully released reading coach and a fully released mathematics or science coach and provides additional coaches based on enrollment unless the charter provides direct instructional support services.

e. In addition to open house events, the school must offer a flexible number of meetings to inform parents of their child's performance at school. These meetings shall be held at convenient times such as morning, evening, or weekends.

(c) If a school does not exit the Intervene category after one (1) year of implementing one (1) of the options for reconstitution, a different option will be selected by the district each year until all options are exhausted, in which case the school will be closed and students reassigned.

(d) If a school does not exit the lowest-performing category during the initial year of implementing one of the reconstitution options, the school district must submit a plan, for State Board of Education approval, that includes details for implementing a different reconstitution option at the beginning of the next school year, unless the provisions of paragraph (8)(e) of this rule apply.

(e) When a school district demonstrates that a school is likely to move from the lowest-performing category if additional time is provided to implement intervention and support strategies, the State Board of Education shall permit continuation of an implementation option beyond one year.

(f) Each year the Department shall publish notice of the deadline for the selection of a reconstitution option, as provided in paragraphs (8)(b) and (8)(d) of this rule and the submission of a plan for implementation of that option. The notice shall provide a district a minimum of thirty (30) days for selection of the implementation option and a minimum forty-five (45) days after that date for the submission of an implementation plan.

(9) Annual update of DA forms. DA forms will be annually updated and submitted for State Board approval.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 35, No. 52, December 31, 2009 issue of the Florida Administrative Weekly.

Section 4.3 was printed incorrectly in the above issue and the corrected text is set out below:

The following provisions are changed in the Water Use Permit Information Manual, Part B, Basis of Review, which is incorporated by reference in Rule 40D-2.091, F.A.C.:

Water Use Permit Information Manual

Part B, Basis of Review

CHAPTER 4 CONDITIONS FOR ISSUANCE – TECHNICAL CRITERIA

4.2 ENVIRONMENTAL IMPACTS

The following sentence is added to section 4.2 as a new last paragraph just before the subsection titled "A. Wetlands":

Compliance with the performance standards for permittees encompassed within the Comprehensive Plan set forth in Rule 40D-80.073, F.A.C., shall be addressed as specified in Rule 40D-80.073, F.A.C.

Revised

4.3 MINIMUM FLOWS AND LEVELS

The following changes are made to the subsection titled "A. Withdrawals That Affect Water bodies for Which Minimum Flows and Levels Have Been Adopted within Those Portions of Hillsborough County north of State Road 60, and Pasco and Pinellas Counties (hereinafter the "Area"):

A. Withdrawals That Affect Water Bodies for Which Minimum Flows and Levels Have Been Adopted Within the Northern Tampa Bay Water Use Caution Area ~~Within Those Portions of Hillsborough County north of State Road 60, and Pasco and Pinellas Counties (hereinafter the "Area").~~ In establishing Minimum Flows and Levels, the District has determined that the actual water levels in many of the water bodies for which Minimum Flows and Levels have been established are below the Minimum Flow and Level. The District is implementing a recovery strategy to address water bodies that are below their Minimum Flows and Levels. The recovery strategy, and associated mitigation plan, referred to as the Comprehensive Plan, is described in Rule 40D-80.073, F.A.C. The District is expeditiously implementing a recovery strategy for the Area in keeping with the District's legislative mandate pursuant to Sections 373.036, 373.0361, 373.0421, 373.0831, 373.1962 and 373.1963, F.S., to resolve the water supply and water resource impact concerns of the Northern Tampa Bay Area in a cooperative manner with the water suppliers and interested parties. This Section 4.3 A. and Chapter 40D-80, F.A.C., set forth the regulatory portion of the first phase (through December 31, 2010) of the recovery strategy for the Area. The following requirements of this Section 4.3 A. effectuate part of the that recovery Comprehensive Plan strategy and shall be effective only through December 31, 2020 2010. The District will evaluate the state of knowledge of these matters in 2010. Based on that evaluation, the District may revise this Section 4.3 A. as

~~appropriate~~. Compliance with Section 4.3 A. does not, by itself, satisfy the other conditions for issuance requirements of Chapter 40D-2, F.A.C., including Rule 40D-2.301, F.A.C. for new withdrawals proposed after August 3, 2000.

1. For New Withdrawals Proposed After August 3, 2000, Except For Withdrawals Subject to 4.3 A.2. Below.

a. Where above Minimum Flow or Level – For water bodies that are predicted to be impacted by the proposed withdrawal and where the actual flow or level is at or above a Minimum Flow or Level, withdrawals shall be limited to that quantity, as may be further limited by other provisions of 40D-2.301, F.A.C., and this Basis of Review, that does not cause the actual flow to fall below the Minimum Flow, nor cause the actual level to fall below the Minimum Level on a long-term average basis (the “Baseline Quantity”). For purposes of this Section 4.3 A., “long-term” means a period which spans the range of hydrologic conditions which can be expected to occur based upon historical records, ranging from high water levels to low water levels. In the context of a predictive model simulation, a long-term simulation will be insensitive to temporal fluctuations in withdrawal rates and hydrologic conditions, so as to simulate steady-state average conditions. In the context of an average water level, the average will reflect the expected range and frequency of levels based upon historic conditions. This period will vary because reasonable scientific judgment is necessary to establish the factors to be used in the assessment of each application depending on the geology and climate of the area of withdrawal, the depth of and number of wells and the quantity to be withdrawn.

i. If the withdrawal of the requested quantity of water does not meet the condition in 4.3 A.1.a. above, the applicant shall identify the Baseline Quantity, and the District shall consider, as may be further limited by other provisions of Rule 40D-2.301, F.A.C., and this Basis of Review, the authorization of the additional quantity of water to be withdrawn where the applicant:

(1) Demonstrates that there are no reasonable means to modify the proposed withdrawal to meet the conditions in 4.3 A.1.a., including the use of alternative supplies, to reduce or replace the amount of the requested quantity exceeding the Baseline Quantity. Cost shall not be the sole basis for determining whether the means are reasonable; and

(2) Provides reasonable assurance that significant harm will be prevented to the wetlands and surface water bodies that could be affected by the proposed withdrawal if the requested quantity is withdrawn; and

(3) Demonstrates that any measures used to provide the reasonable assurance specified in 4.3 A.1.a.i(2) above will not cause a violation of any of the criteria listed in 40D-2.301(1)(a)-(n), 40D-4.301, or 40D-4.302, F.A.C., as applicable.

ii. To support whether the applicant has provided reasonable assurance pursuant to 4.3 A.1.a.i(2) above, the applicant must submit an environmental management plan (“EMP”) for approval by the District describing the measures to be used to prevent significant harm from withdrawal of the requested quantity. The EMP must include a monitoring program for early detection of impacts to wetlands and surface water bodies that could be affected by the proposed withdrawal and an implementation scheme for corrective actions to prevent unacceptable adverse impacts. The EMP shall include provisions to evaluate changes in water quality, water levels, vegetation, and fish and wildlife. The EMP shall also include clear thresholds as to when the implementation scheme will be initiated. The implementation scheme shall include details as to how the proposed measures will be effected, the methods to be followed in order to functionally replicate the natural hydrologic regime of affected water bodies, and efforts to be undertaken to minimize the effects of changes in water chemistry. The implementation scheme shall also require reduction of pumping to the Baseline Quantity as a corrective action if no other measures, including supplemental hydration, are successful in preventing unacceptable adverse impacts to wetlands and surface water bodies due to withdrawals. An approved EMP shall be incorporated as a special condition to any permit issued.

(1) The measures proposed may include hydration of affected water bodies or modification of existing drainage structures to prevent significant harm to affected water bodies, provided that the measures within the EMP minimize the need for supplemental hydration to the greatest extent practical.

(2) If supplemental hydration is proposed, the applicant will be required to identify in the application and monitor a representative number of wetlands in the vicinity of the withdrawal. The monitored wetlands shall include a representative number of MFL or MFL surrogate wetlands not receiving supplemental hydration. An MFL surrogate wetland is the nearest wetland site of the same type and condition to the proposed withdrawal that is not anticipated to require supplemental hydration. The monitored wetlands shall also include, where available, non-MFL wetlands not receiving hydration as well as MFL and non-MFL wetlands proposed for supplemental hydration.

NOTICE OF INTENT TO ISSUE PROPOSED

MODIFICATION OF POWER PLANT CERTIFICATION

The Florida Department of Environmental Protection (Department) hereby provides notice of an intent to modify the Power Plant Conditions of Certification issued pursuant to the Florida Electrical Power Plant Siting Act, Section 403.501 et seq., Florida Statutes, concerning: Cane Island Power Park, Power Plant Siting Application No. PA98-38E, OGC Case No.: 10-0733. On March 18, 2009 the Department received a request from the South Florida Water Management District to modify the Conditions of Certification for the Cane Island Power Park by deleting Condition XXIII.C.3.c. as the SFWMD felt adequate monitoring was being conducted under the Environmental Protection Agency's National Pollutant Discharge Elimination System (NPDES) program for this plant. The Department is initiating a modification to the Conditions of Certification pursuant to Section 403.516(1)(c), F.S.

A copy of the proposed modification may be obtained by contacting: Michael P. Halpin, P.E., Administrator, Siting Coordination Office, Department of Environmental Protection, 3900 Commonwealth Boulevard, MS #48, Tallahassee, Florida 32399-3000, (850)245-2002. Pursuant to Section 403.516(1)(c)2., Florida Statutes, parties to the certification proceeding have 45 days from issuance of notice to such party's last address of record in which to object to the requested modification. Failure of any of the parties to file a response will constitute a waiver of objection to the requested modification. Any person who is not already a party to the certification proceeding and whose substantial interest is affected by the requested modification has 30 days from the date of publication of this public notice to object in writing. The written objection must be filed (received): Office of General Counsel of the Department, 3900 Commonwealth Boulevard, MS #35, Tallahassee, Florida 32399-3000. If no objections are received, then a Final Order approving the modification shall be issued by the Department. If objections are raised and agreement can not be reached, then pursuant to Rule 62-17.211, Florida Administrative Code, the applicant may file a petition for modification seeking approval of those portions of the request for modification to which written objections were timely filed. Mediation is not available in this proceeding.
