Proposed Rules**

**DEPARTMENT OF EDUCATION**

**State Board of Education**

RULE NO.:                      RULE TITLE:

6A-1.09981                      Implementation of Florida’s System of School Improvement and Accountability

PURPOSE AND EFFECT: The purpose and effect of the proposed rule change is to incorporate statutory changes into the calculation of the school grades formula for elementary, middle, high and combination schools. These changes include incorporating the FCAT 2.0 and End-of-Course Assessments as it relates to performance and learning gains calculations. In addition, changes are made to improve the school grades calculation methodology and conform rule language more closely to legislative intent. The changes also reorganize information to move current aspects of the school grade model out of the planned enhancement section into the sections that outline how the school grades system works.

SUMMARY: This rule describes the school grading process, lays out the data that is used in the process, how points for school grades are calculated, and requirements to receive an A, B, C, D, or F grade. This rule amendment is proposed to incorporate recent changes made to the statewide assessment program and recent legislative changes to Section 1008.34, F.S. These changes include, adding provisions outlining how new statewide assessments outlined in statute are used in the school grades model, incorporating the new components outlined in statute in the middle school model, and updating the high school model to include the new federal uniform

graduation rate. In addition, edits were made to conform rule language more closely to the legislative intent. These changes include, adding additional emphasis to reading, including students with disabilities and more English language learners (ELLs) in the performance components for reading and mathematics, and removing students performing satisfactorily from the component measuring learning gains of the lowest 25%. In addition, the changes reorganized the rule to present like information in the same sections of the rule and moved current practices out of the section on planned system enhancements.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: 1) no requirement for SERC was triggered under Section 120.541(1), F.S., and; 2) based on past experiences with the school grade rule and rules of this nature, the adverse impact or regulatory cost, if any, do not exceed nor would be expected to exceed any one of the economic analysis criteria set forth in Section 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-1.09981 Implementation of Florida’s System of School Improvement and Accountability.

(1) Policy Guidance. Accountability for student learning is the key focus of Florida’s system of school improvement. Requirements of Results from the statewide assessment

~~program required by~~ Section 1008.34, F.S., shall form the basis of Florida’s system of school improvement and accountability. Student achievement data from the Florida Comprehensive Assessment Test (FCAT), FCAT 2.0 and end-of-course (EOC) assessments in grades 3-10 shall be used to establish both performance proficiency levels and annual progress for individual students, schools, districts, and the state. Results shall further be used as the primary criteria in calculating school ~~performance~~ grades ~~as specified in subsection (5) of this rule~~, school rewards and recognition, and performance-based funding and shall be annually reported. Statewide assessments as required by Section 1008.22, F.S. ~~The statewide assessment program~~ shall be used to measure the annual learning gains of each student toward achievement of the Next Generation Sunshine State Standards appropriate for the student’s grade level and to inform parents of the educational progress of their public school children as specified by Section 1008.34(1), F.S. Each school is accountable for the performance of its entire student population. Student achievement data from the FCAT, FCAT 2.0, EOC assessments, and the Florida Alternate Assessment (FAA) shall be used to measure a school’s student performance for the subject areas of reading, mathematics, science, and writing. The FCAT, FCAT 2.0, and EOC assessment levels in the performance criteria in subsection (4) of this rule are those specified in Rule 6A-1.09422, F.A.C., for the year in which achievement data are used for accountability. The FAA performance levels for reading, mathematics, science, and writing are those specified in Rule 6A-1.09430, F.A.C.

~~(a) School Full Implementation of Accountability System in School Year 2001-2002 and thereafter. Beginning in school year 2001-2002, the school accountability system will include be considered to be fully implemented with the following accountability components elements.~~

1. ~~Designation of Sschool performance~~ grades shall be based on a combination of:

a. Student achievement scores, based on FCAT 2.0 Reading in grades 3 through 10, and FCAT 2.0 Mathematics assessments in grades 3- through 8 10; FCAT 2.0 Science in grades 5 and 8; and FCAT Writing assessment in grades 4, 8, and 10; statewide high school end-of-course (EOC) assessments in Algebra 1, Biology (beginning 2012-13), and Geometry (beginning 2012-13); and middle school statewide EOC assessment in Civics (beginning 2014-15). Statewide EOC assessment scores for students who pass statewide high school EOC assessments in middle school will be banked for inclusion in the high school performance measures addressed in this paragraph when these students enroll in grade 9. For school year 2011-12 only, the science component for high school will be based on FCAT science performance in 2010-11. Schools will receive the same number of points for the 2011-12

science component as they did in 2010-11 because achievement level standards will not have been set for the 2011-12 Biology EOC assessment.

b. Annual student learning gains as measured by FCAT 2.0 Reading and Mathematics (including Algebra 1 and Geometry EOC) assessments in applicable grades in grades three (3) through ten (10); and

c. Improvement of the FCAT 2.0 Reading and Mathematics (including Algebra 1 and Geometry EOC assessments) scores of students in the lowest twenty-five (25) percent of each grade, aggregated for each school, unless they are performing at or above satisfactory, defined as FCAT 2.0 and EOC assessment Achievement Levels 3, 4 and 5. Retained elementary and middle school students whose prior year assessment scores are at Achievement Level 1 or 2 will be included in this group.

d. For high schools, when data is available to meet the cell size requirements for the elements described in paragraph (4)(c) of this rule, the accountability system will also include graduation rates as measured by the federal uniform graduation rate, a five-year federal uniform rate, modified to include special diploma graduates, an at-risk graduation rate, participation and performance in accelerated mechanisms, and college readiness as measured by the SAT, ACT, CPT, and Postsecondary Education Readiness Test (P.E.R.T.)

~~2. School improvement ratings shall be based on the school's performance grade in the current year compared to the previous year. School improvement ratings shall not be used in the designation of school grades.~~

~~2.3 Schools receiving a school designated as Performance gGrade of "C" or above shall be required to demonstrate that adequate progress in reading and in mathematics, defined as annual learning gains in subparagraph (4)(a)2. paragraph (5)(b) of this rule, have has been made by the lowest twenty-five (25) percent of students in the school who scored at or below FCAT 2.0 Achievement Level 2, based on their previous year's FCAT 2.0 score. Beginning in 2012-13, learning gains of students who scored at or below level 2 on the statewide Algebra 1 EOC based on their previous years assessment will also be included in the calculation of adequate progress of the lowest twenty-five (25) percent in mathematics as defined in subparagraph (4)(a)2. of this rule. The minimum requirement for adequate progress is deemed to be met when at least fifty (50) percent of such students make learning gains as defined in subparagraph (4)(a)2. paragraph (5)(b) of this rule. If the percent of such students making learning gains is below fifty (50) percent in the current year, adequate progress can be met if:~~

a. Schools demonstrate a one (1) percentage point improvement in the percent of such students making learning gains over the prior year, if the percent of such students making learning gains is at least forty (40) percent in the current year; or

b. Schools demonstrate a five (5) percentage point improvement in the percent of such students making learning gains over the prior year, if the percent of such students making learning gains is below forty (40) percent in the current year.

~~If a school that would otherwise be assigned a school designated as Performance gGrade of "B" or "C" does not meet the fifty (50) percent learning gains target for make adequate progress of the lowest performing students, as defined above, in at least one (1) of two (2) consecutive years, or demonstrate adequate improvement in learning gains for the lowest performing students from the prior year to the current year as described above, the final school Performance gGrade designation shall be reduced by one (1) letter grade. No school shall receive a school be designated as Performance gGrade of "A" unless the adequate progress criteria criterion in reading and mathematics are is met in the current year each. Adequate progress for the lowest performing students is calculated separately for reading and mathematics. Schools must meet criteria in both subject areas to meet the overall requirement for adequate progress of the lowest performing students.~~

~~3. Reading Performance Threshold. Schools that would otherwise qualify for a school grade of "D" or higher must have at least twenty-five (25) percent of their students' scoring at or above Achievement Level 3 on FCAT 2.0 Reading. Schools that do not meet this requirement will receive a final school grade of "F".~~

~~4. To ensure that student data accurately represent school performance, schools shall be required to assess at least ninety (90) percent of their eligible students to qualify for a sSchool Performance gGrade of D, C, or B and at least ninety-five (95) percent to qualify for an A.~~

~~5. Adequate Progress Requirement for At-Risk Students for a High School Grade. A high school that would otherwise earn a grade of "A" must meet an additional requirement for adequate progress of at-risk students in order to be assigned a grade of "A" rather than one letter grade lower ("B"). For such schools, the federal uniform graduation rate for academically at-risk students, as described in sub-subparagraph (4)(c)1. a. of this rule, must meet one or more of the following criteria to satisfy this requirement:~~

~~a. Be no lower than sixty-five (65) percent; or~~

~~b. Show improvement of at least one (1) percentage point over the prior year's rate, if the current year rate is at least fifty-five (55) percent; or~~

~~c. Show improvement of at least five (5) percentage points over the prior year's rate, if the current year rate is below fifty-five (55) percent.~~

~~5. Statewide assessment results shall be publicly reported and shall include a comparison of the achievement of Florida students to the national average through the use of norm-referenced subtests in reading and mathematics.~~

6. Schools ~~receiving a designated s~~School Performancee gGrade of A and schools improving at least one (1) ~~letter performancee~~ grade designation, ~~or maintaining a school grade in the year after improving two (2) or more letter grades,~~ shall be eligible for school recognition and awards

7. Schools ~~receiving a designated s~~School Performancee gGrade of A and schools improving at least two (2) ~~letter performancee~~ grades shall be eligible for deregulated status and increased budget authority

(b) In an effort to promote the continuous improvement of each student and each school within the state every school year, accountability reports shall be reflective of the data available for each year.

~~(2) School Accountability for Student Performance. All schools shall be accountable for performance relative to the Student Performance Goal stated in Section 1008.345, F.S. Each school is accountable for the performance of its entire student population. Student achievement data from the FCAT shall be used to measure a school's student performance for the subject areas of reading, mathematics, and writing. The FCAT levels in the performance criteria in subsection (5) of this rule are those specified in Rule 6A-1.09422, F.A.C., for the year in which achievement data are used for accountability.~~

~~(2)(3) Reporting Student Achievement Data for School Accountability. Student achievement data shall be reported for all students in a school as specified by Section 1008.22, F.S. Each year reports of achievement data for all students shall be prepared for each school, the district, and the state. For the purpose of assigning school performancee grades, each school's aggregate achievement data shall be based on:~~

~~(a) The reading and mathematics assessment (FCAT, FCAT 2.0, statewide EOC assessment, and FAA) scores of all students, except English language learners (ELLs) who have been in an English for Speakers of Other Languages (ESOL) program for up to one (1) year. Scores on the reading and mathematics FCAT, FCAT 2.0, and statewide EOC assessments, for students with disabilities and ELL students who have been in the ESOL program more than one (1) year, but not more than two (2) years, will be included as satisfactory if the student scored at level 3 or higher or made a learning gain as described in sub-subparagraphs (4)(a)2.a. through d. of this rule not counting in the calculation students from these groups who scored below level 3 and have no prior-year test scores. Achievement data for Science and Writing (and, when available, Civics and U.S. History) will be based on scores on the FCAT, FCAT 2.0 and statewide EOC assessments for The scores of all students enrolled in standard curriculum courses, including the scores of students who are speech impaired, gifted, hospital homebound, and ELLs Limited English Proficient (LEP) who have been in an English for Speakers of Other Languages (ESOL) program for more than two (2) years.~~

(b) All students, regardless of disability or ELL limited English proficiency classification, with valid FCAT 2.0 and EOC assessment scores in reading and mathematics math in both the current year and the previous year are included in sub-subparagraphs (4)(a)2.a. through d. and f. paragraphs (6)(d), (e), and (f) of this rule, regarding the determination of student learning gains. In addition, the inclusion of these students shall be applied to subparagraph (1)(a)4. of this rule, regarding the percent tested. ~~Beginning in 2009-10, Current and prior-year reading and mathematics math scores for students with disabilities assessed on the FAA Florida Alternate Assessment shall be included in the determination of learning gains components addressed in sub-subparagraphs (4)(a)2a., b. and (e), paragraphs (6)(d) and (e) of this rule.~~

(c) In addition, only the scores of those students who are enrolled in the second period and the third period full-time equivalent student membership survey as specified in Rule 6A-1.0451, F.A.C., shall be included.

~~(d) The Commissioner is authorized to designate a single school performancee grade for schools that serve multiple levels: elementary and/or middle and/or high school grade levels.~~

~~(e) The accountability contact person, as specified in subsection (9) of this rule, is responsible for verifying that each school is appropriately classified by type before the issuance of school grades. School type is defined as the school level designation of a school, based on the grade levels served: elementary, middle, high, or a combination across levels.~~

~~(3)(4) School Performancee Grades. The measure of school accountability shall be the school performancee grade.~~

~~(a) The Commissioner is authorized to designate a school performancee grade for each school that:~~

~~1.(a) Has at least thirty (30) eligible students with valid FCAT 2.0 assessment scores in reading in both the current and the previous years, and~~

~~2.(b) Has at least thirty (30) eligible students with valid FCAT 2.0 or EOC assessment scores in mathematics math in the current and previous years, if the school is an accountability school type other than a high school. High schools must have at least ten (ten) eligibles students with valid Algebra 1 EOC assessment scores and beginning in 2012-13, at least ten (10) eligible students with valid Geometry 1 EOC assessment scores in mathematics in the current and previous years in order to receive a school grade. Performance designations shall be made using sSchool Performancee gGrades A, B, C, D, and F, as specified in Section 1008.34(2), F.S. School performancee grades shall be based on the assessments and criteria as specified in subsection (4)(5) of this rule. The Commissioner is authorized to establish appropriate achievement level criteria in newly assessed grade levels for submission to the State Board for final approval.~~

~~(b) The Commissioner shall designate a single school performancee grade for schools that serve multiple types.~~

(c) School type is defined as the school level designation of a school, based on the grade levels served: elementary, middle, high, or a combination across levels.

(4)(5) Criteria for Designating School Performance Grades. School performance grades shall be based on a combination of the following three components, as specified in Section 1008.34(3), F.S.:

(a) Components that apply to all school types:

1.(a) Student achievement scores, aggregated for each school, which indicate the percent of eligible students who score at or above FCAT Achievement Level 3 on FCAT 2.0 and statewide EOC assessments in reading, mathematics, and science, and math and the percent of students who score “4.0” or higher on the FCAT Writing assessment.; These percentages will also include, for students with disabilities whose sole assessment results are FAA scores, students who score at FAA Performance Level 4 or higher.

Statewide EOC assessment scores used for the performance and learning gains measures in high schools grades will be scores for the assessments administered to students for the first-time. All other scores for students on the same assessment will be counted as retakes.

2.(b) Annual learning gains in reading and mathematics, aggregated for each school, which indicate the percent of eligible students who have:

	<u>Grade 3-4</u>	<u>Grade 4-5</u>	<u>Grade 5-6</u>	<u>Grade 6-7</u>	<u>Grade 7-8</u>	<u>Grade 8-9</u>	<u>Grade 9-10</u>
<u>Reading</u>	230	166	133	110	92	77	77
<u>Math</u>	162	119	95	78	64	54	48

<u>Reading</u>	<u>Grade 3-4</u>	<u>Grade 4-5</u>	<u>Grade 5-6</u>	<u>Grade 6-7</u>	<u>Grade 7-8</u>	<u>Grade 8-9</u>	<u>Grade 9-10</u>
<u>Level 1</u>	12	10	9	8	7	6	8
<u>Level 2</u>	11	9	8	7	6	5	7

<u>Mathematics</u>	<u>Grade 3-4</u>	<u>Grade 4-5</u>	<u>Grade 5-6</u>	<u>Grade 6-7</u>	<u>Grade 7-8</u>
<u>Level 1</u>	16	10	10	9	11
<u>Level 2</u>	15	9	9	8	10

This method of determining gains is not applicable to students who are tested at a grade level more than one grade higher than in the previous year. However, these students may still demonstrate gains as indicated in sub-subparagraphs (4)(b)2.a. and b. of this rule. Students whose FCAT 2.0 Achievement Level declines from one (1) year to the next shall not be deemed to have made annual learning gains.

a.1- Improved their FCAT 2.0 Achievement Level, statewide EOC Assessment Achievement Level, or FAA Florida Alternate Assessment Performance Level, as applicable, from one (1) year to the next, or

b.2- Maintained their proficient Achievement Level that was at level 3 or above on the FCAT 2.0 or at level 4 or above on the FAA Florida Alternate Assessment, as applicable, from one (1) year to the next, or

c.3- Remained within FCAT 2.0 Achievement Levels 1 or 2, but who demonstrated more than one (1) year’s growth on the FCAT 2.0 vertical developmental scale. This method of determining gains is not applicable to students who are tested in FCAT at the same grade level as in the previous year, at a lower grade level than in the previous year, or at a grade level more than one grade higher than in the previous year. However, these students may still demonstrate gains as indicated in subparagraphs (5)(b)1. and 2. of this rule. The Department of Education has identified the scores in the following table as representing one (1) year’s growth. For students who remained at FCAT 2.0 Achievement Level 1 or 2, the following tables provide the minimum increase in vertical scale scores required to make learning gains:

d. Learning gains for eligible students who have a statewide Algebra 1 EOC assessment score in the current year and a prior-year FCAT 2.0 Mathematics score are established if the student increases an Achievement Level, maintains an Achievement Level of 3, 4, or 5; or, for students remaining at Achievement Level 1 or 2, there is an increase in the student’s common scale score. The common scale score refers to a score that is assigned on both the EOC assessment and the prior-year FCAT 2.0, which allows for a comparison of scores. The same

process will be applied beginning in 2012-13 to the statewide Geometry EOC assessment scores for students with a prior-year statewide Algebra 1 EOC score, with a common scale established for the Algebra 1 and Geometry EOC assessments. Algebra 1 learning gains for high schools will be calculated for 9th grade students who took the Algebra 1 EOC and have a prior year FCAT 2.0 Mathematics score. Beginning in 2012-13, learning gains for Geometry will be calculated for students who took the Geometry EOC and have a prior year Algebra 1 EOC assessment score.

e. Learning gains for students with disabilities who have maintained the same FAA Performance Level below Performance Level 4 are established for students if their current-year score increases relative to their prior-year score by more than the statewide standard error of the difference of the two scores.

f. Additional weighting for students who move up one or more Achievement Levels to level 4 or level 5 on the FCAT 2.0 or statewide EOC assessment in the learning gains calculation.

i. Students who move up one or more Achievement Levels to level 4 will be counted at a weight of 1.1 in the numerator of the learning gains calculation.

ii. Students who move up one or more Achievement Levels to level 5 will be counted at a weight of 1.2 in the numerator of the learning gains calculation.

3.(e) Improvement of the lowest twenty-five (25) percent of students in reading and in mathematics in each grade, calculated separately for each subject, as defined in subparagraph (4)(a)2. paragraph (5)(b) of this rule, shall be aggregated for each school, unless the students so designated are performing satisfactory or above proficiency, defined as FCAT 2.0 and EOC assessment Achievement Levels 3, 4 and 5.

(b) Additional components that apply to middle schools:

1. As described in Section 1008.34, F.S., school grades for middle schools shall include a component measuring student participation in and performance on high school level EOC assessments, as described in subparagraphs (4)(b)2. and (4)(b)3. below.

2. Middle School Participation in High School EOC Assessments. Beginning in 2011-12, middle schools will receive credit for the percentage of eligible students who take one or more statewide high school EOC assessments. Eligible students comprise the following:

a. The count of 8th graders in the school year who scored at Achievement Level 3 or higher on their grade 7 FCAT 2.0 assessment in mathematics; and

b. The count of 6th and 7th grade students in the school year who took the EOC assessment(s) and were enrolled in the appropriate course or its equivalent; and

c. The count of other 8th graders in the school year who took the EOC assessment(s) and were enrolled in the appropriate course or its equivalent; and

3. Middle School Performance on High School EOC Assessments. Middle schools will receive credit for the percentage of eligible students described in subparagraph (4)(b)2. of this rule who take one (1) or more statewide high school EOC assessments and who score at level 3 or higher on these EOC assessments.

4. Beginning in 2012-13, middle school students for whom an Industry Certification outcome is reported will be included in both the numerator and denominator of the measure addressed in subparagraph (4)(b)2. of this rule and the performance of these students will be included in the measure addressed in subparagraph (4)(b)3. of this rule. Students for whom a passing outcome is reported will be included in the numerator of the performance measure.

5. Beginning in the 2014-15 school year, middle school grades shall include a component measuring student performance on the Civics EOC Assessment. This component will be based on student achievement scores, aggregated for each school, which indicate the percent of eligible 7th grade students who score at or above Achievement Level 3 on the Civics EOC Assessment.

6. The school grading measures and requirements described in subparagraph (4)(b)2,3, and 5 of this rule shall be applied to middle schools for which there are at least ten (10) students included in the denominator of each component. For middle schools in which there are fewer than ten (10) students in the denominator of any one of these components, the school grade shall be determined using the components described in paragraph (4)(a) of this rule and shall not include any of the components described in subparagraphs (4)(b)2., 3., and 5. of this rule.

(c) Additional components that apply to high schools:

1. Fifty (50) percent of school grades for high schools (schools that include grades 9 through 12 among grades taught) shall be based on the following components in addition to the components previously described in paragraph (4)(a) of this rule:

a. High school graduation rate. School grade points for the high school graduation rate will be based on a combination of two graduation rate calculations. The first graduation rate component shall be a four-year adjusted cohort rate using criteria for the federal uniform graduation rate defined in the Code of Federal Regulations at 34 C.F.R. § 200.19(b). The second graduation rate component shall be a five-year adjusted federal uniform cohort graduation rate. The five-year graduation rate will apply the same criteria as for the four-year graduation rate, with one exception: Students with disabilities who earn a special diploma will be counted as graduates in the five-year graduation rate component for Florida's high school grades.

b. High school graduation rate for academically at-risk students. For purposes of this component, students shall be identified as academically at-risk if they have scored at FCAT

2.0 Achievement Level 2 or lower on both the mathematics and reading subtests of the FCAT 2.0 in grade 8. The method of rate calculation and the criteria for inclusion in the numerator and denominator are the same as for the graduation rate components described in sub-subparagraph (4)(c)1.a. of this rule.

c. Participation in accelerated coursework, defined as Advanced Placement (AP), International Baccalaureate (IB), dual enrollment, Advanced International Certificate of Education (AICE), and industry certification courses. Participation shall be calculated for the school year by dividing a weighted count of accelerated coursework participants in grades 9 through 12 (numerator) by the count of all full-year enrolled students enrolled in grades 11 and 12, not counting students with disabilities whose sole assessment scores are Florida Alternate Assessment (FAA) scores (denominator). For AP, IB, and AICE participation, a student shall be counted in the numerator if he or she has taken the applicable subject area examination (i.e., the AP, IB, or AICE subject area examination). For dual enrollment courses, a student must earn a grade in the course in order to be counted as a participant. For industry certification, a student must have taken an industry certification examination on the Industry Certification Funding List adopted in Rule 6A-6.0573, F.A.C., in order to be counted as a participant. Schools shall receive credit for accelerated coursework participants in grades 9 and 10 in the numerator of the calculation, and any students in grades 9 and 10 in the numerator will also be included in the denominator of the calculation. Weighting of counts for individual participants. For each student counted as a participant in accelerated coursework, the weighted count that is credited to the student is established at 1.0 for a student who has taken one course or examination in accelerated coursework and is increased incrementally by 0.1 for each additional course or examination taken. The weighted counts for all participants are summed to produce the numerator, described in sub-subparagraph (4)(c)1.c. of this rule.

d. Performance in accelerated coursework, defined as Advanced Placement (AP), International Baccalaureate (IB), dual enrollment, Advanced International Certificate of Education (AICE), and industry certification courses. Performance shall be calculated for the school by dividing the weighted number of grade 9-12 students with successful completions in accelerated coursework (numerator) by the count of all students in grades 9 through 12 who took an accelerated course or subject area examination during the academic year. For AP, IB, and AICE successful completion is defined as earning a passing score and qualifying for credit for specific postsecondary course(s) as determined by the Articulation Coordinating Committee's Credit by Exam Equivalencies list, initially adopted November 14, 2011, with subsection revisions in 2010-2011, which is hereby incorporated by reference and may be obtained at <http://www.fldoe.org/articulation/pdf/ACC-CBE.pdf>. For dual

enrollment successful completion is defined as a passing grade of "C" or higher in a dual enrollment course for college credit. For industry certification successful completion is defined as passing an industry certification examination on the Industry Certification Funding List adopted in Rule 6A-6.0573, F.A.C. Schools can earn additional successful completions for students who achieve industry certifications that result in credit for more than one (1) college course through statewide articulation agreements. Those agreements can be accessed at [http://www.fldoe.org/workforce/dwdframe/artic\\_frame.asp](http://www.fldoe.org/workforce/dwdframe/artic_frame.asp). Weighting of counts for students with successful completions. For each student identified as having successfully completed accelerated coursework, the weighted count that is assigned to the student is established at 1.0 for a student with one successful completion in accelerated coursework and is increased incrementally by 0.1 for each additional successful completion credited to the student. The weighted counts for all successful completers are summed to produce the numerator described in sub-subparagraph (4)(c)1.d. of this rule.

e. Postsecondary readiness. This measure consists of two separate components, one for reading and one for mathematics. For each subject area component, postsecondary readiness shall be calculated by dividing the count of on-time (within 4 years) high school graduates scoring "college ready" on the SAT, ACT, the Common Placement Test (CPT), or the Postsecondary Education Readiness Test (P.E.R.T), at any time during their high school careers by the count of all on-time high school graduates in the federal uniform graduation rate. Readiness cutoff scores by subject area on the ACT, SAT, CPT, and P.E.R.T. are established in Rule 6A-10.0315, F.A.C. For students who have taken multiple tests among the ACT, SAT, CPT, and P.E.R.T., the student's highest score by subtest shall be used to determine postsecondary readiness for the applicable subject area component.

f. Student performance on the statewide U.S. History EOC. Beginning in school year 2013-14, student performance on the statewide U.S. History EOC assessment will be included in each high school's grade. Student achievement scores will be aggregated for each school, to indicate the percent of eligible students who score at or above Achievement Level 3 on the EOC assessment in history.

2. The school grading measures and requirements described in subparagraph (4)(c)1. of this rule, shall be applied to high schools for which there are at least ten (10) students included in the denominator of each component described in paragraph (4)(c) of this rule. For high schools in which there are fewer than ten (10) students in the denominator of any one of these components, the school grade shall be determined using the components described in paragraph (4)(a) of this rule and shall not include any of the components described in subparagraphs (4)(c)1. of this rule. However, for high schools in which there are fewer than ten (10) students in the denominator of the four-year high school graduation rate or the

five-year modified graduation rate for academically at-risk students component (sub-subparagraph (4)(c)1.b. of this rule), the grade point component defined in sub-subparagraph (5)(c)1.a. of this rule shall be substituted for the grade point component defined in sub-subparagraph (4)(c)1.b. of this rule.

(5)(6) Procedures for Calculating School Performance Grades. The overall school Performance Grade of A, B, C, D or F for school years 2001-2002 and thereafter, as designated in Section 1008.34(2), F.S., shall be based on the sum of the following six (6) school grade component points described below elements:

(a) Points for all school types based on student performance and learning gains (800 points available).

1.(a) One (1) point for each percent of students who score at or above FCAT 2.0 Achievement Level 3 in reading and FAA Performance Level 4 or above in reading.

2.(b) One (1) point for each percent of students who score at or above FCAT Achievement Level 3 on FCAT 2.0 and statewide EOC assessments in mathematics and at or above Performance Level 4 on the FAA in mathematics. These results will include Algebra 1 EOC Assessment scores. Beginning in 2012-13, these results will include Geometry EOC Assessment scores.

3.(e) One (1) point for each percent of students who score "4.0" or higher on the FCAT Writing Assessment.

4. One (1) point for each percent of students who score at or above Achievement Level 3 on FCAT 2.0 and statewide EOC assessments in science. Beginning in 2012-13, these results will include scores on the Biology 1 EOC assessment.

5.(d) One (1) point for each percent of students who make annual learning gains in reading as defined in subparagraph (4)(a)2. paragraph (5)(b) of this rule;

6.(e) One (1) point for each percent of students who make annual learning gains in mathematics as defined in subparagraph (4)(a)2. paragraph (5)(b) of this rule; and

7.(f) One (1) point for each percent of students in the lowest twenty-five (25) percent in reading in the school as defined in subparagraph (4)(a)3. paragraph (5)(e) of this rule who make learning gains as defined in subparagraph (4)(a)2. paragraph (5)(b) of this rule.

8. One (1) point for each percent of students in the lowest twenty-five (25) percent in mathematics in the school as defined in subparagraph (4)(a)3. of this rule who make learning gains as defined in subparagraph (4)(a)2. of this rule.

The percent of students reflected in each of the six (6) school grade point elements defined in paragraphs (6)(a) through (f) of this rule shall be expressed to the nearest whole number. The corresponding points assigned for each grade point element shall also be expressed to the nearest whole number. In the event that a school does not have at least ten (10) eligible students tested in writing, the district average in writing as defined in subparagraph (5)(a)3. paragraph (6)(e) of this rule shall be substituted. In the event that a school does not have at

least ten (10) eligible students tested in science, the district average in science as defined in subparagraph (5)(a)4. of this rule shall be substituted. In the event that a school does not have at least thirty (30) students in the lowest twenty-five (25) percent in reading or in mathematics as defined in subparagraph (4)(a)3. paragraph (5)(e) of this rule, the lowest performing thirty (30) students below satisfactory proficiency, defined as FCAT 2.0 Achievement Levels 1, and 2., and 3., shall be used. In the event there are still not thirty (30) qualified students in the lowest achieving group for reading, the grade point component element defined in subparagraph (5)(a)5. paragraph (6)(d) of this rule shall be substituted for the grade point component element defined in subparagraph (5)(a)7. paragraph (6)(f) of this rule. In the event there are still not thirty (30) qualified students in the lowest achieving group for mathematics, the grade point component defined in subparagraph (5)(a)6. of this rule shall be substituted for the grade point component defined in subparagraph (5)(a)8. of this rule.

(b) Points for middle schools in addition to the points described in paragraph (5)(a) of this rule (900 points available, 1000 points available, beginning in school year 2014-15).

1. Middle School Participation in High School EOC Assessments (50 points available): One point for each percent of students who participate in statewide high school EOC assessments, and beginning in 2012-13 industry certifications. Students taking more than one high school EOC assessment receive an extra weighting of 0.1 points in the numerator for each additional EOC assessment taken. Total points, including the extra weighting for additional assessments taken, will be summed before multiplying by a factor of 0.5.

2. Middle School Performance on High School EOC Assessments (50 points available): One point for each percent of students who score at level 3 or higher on statewide EOC assessments and industry certifications. Students scoring at level 3 or higher on more than one EOC assessment receive an extra weighting of 0.1 points in the numerator for each additional EOC assessment scored at level 3 or higher. Total points, including the extra weighting for additional EOC assessments with scores at level 3 or higher, will be summed before multiplying by a factor of 0.5.

3. Civics EOC performance (100 points beginning in 2014-15). Beginning in 2014-15, the total possible points for civics EOC performance is 100 points. Middle schools will receive one (1) point for each percent of students who score at or above Achievement Level 3 on the Civics EOC assessment.

(c) Points for high schools in addition to the points described in paragraph (5)(a) of this rule (800 points available).

1. Graduation Rate (200 points). The total possible points awarded for the combined graduation rate component is 200 points: 100 possible points awarded for the four-year federal uniform graduation rate and 100 points for the five-year modified federal uniform graduation rate. School grade points

for annual growth or decline as described in subparagraph (5)(c)7. of this rule will be applied to the points earned for the combined graduation rate component.

2. At-Risk Graduation Rate (100 points) The total possible points awarded for the at-risk graduation rate component is 100 points. For this component, 0.5 grade points shall be awarded for each percent of students counted as on-time graduates in the four-year graduation rate, and 0.5 grade points shall be awarded for each percent of students counted as graduates in the 5-year cohort in the modified five-year graduation rate. School grade points for annual growth or decline as described in subparagraph (5)(c)7. of this rule will be applied to the points earned for the combined graduation rate component for at-risk students.

3. Acceleration Participation (150 points, 100 points beginning in 2013-14) The total possible points awarded for this component is 150 points. One and one half (1.5) grade points shall be awarded for each percentage point produced by the weighted calculation of participation in accelerated coursework described in sub-subparagraph (4)(c)1.c. of this rule. Beginning in 2013-14, one (1) grade point shall be awarded for each percentage point produced by the weighted calculation of participation in accelerated coursework described in sub-subparagraph (4)(c)1.c. and of this rule, and the total possible points awarded for this component shall be 100 points.

4. Acceleration Performance (150 points, 100 points beginning in 2013-14) The total possible points awarded for this component is 150 points. One and one half (1.5) grade points shall be awarded for each percentage point produced by the weighted calculation of performance in accelerated coursework described in sub-subparagraph (4)(c)1.d. of this rule. Beginning in 2013-14, one (1) grade point shall be awarded for each percentage point produced by the weighted calculation of performance in accelerated coursework described in subparagraph (4)(c)1.d. of this rule, and the total possible points awarded for this component shall be 100 points.

5. College Readiness (200 points) The total possible points that may be awarded to a school for this component is 200 points, 100 points for reading and 100 points for mathematics. For each subject area component, reading, and mathematics, one (1) grade point is awarded for each percentage point outcome on the postsecondary readiness calculation.

6. U.S. History (100 points beginning in 2013-14). Beginning in 2013-14, the total points that may be awarded to a school for this component is 100 points. Schools will receive one (1) point for each percent of students scoring at or above achievement level 3 on the statewide U.S. History EOC assessment.

7. Annual growth or decline in the components described in sub-subparagraphs (4)(c)1.a. through f. of this rule. For each component described in sub-subparagraph (4)(c)1.a. through f.,

additional points are awarded based on the percentage point improvement over the prior year. Schools shall earn additional points for improved outcomes over the prior year according to the following measures, before weighting factors are applied:

i. Increase of zero (0) to 4 points = no additional points for annual growth.

ii. Increase of 5 to 9 points = 5 additional points for annual growth.

iii. Increase of 10 or more points = 10 additional points for growth.

Schools shall earn no more than ten (10) additional points on each component described in sub-subparagraphs (4)(c)1.a. through f. of this rule before weighting factors are applied. For each component described in sub-subparagraphs (4)(c)1.a. through f. of this rule, schools shall lose five (5) points before weighting factors are applied if performance declines by at least ten (10) percentage points over the prior year.

8. High schools will be eligible for ten (10) bonus points added to their total school grade points accumulated through the eight (8) components described in paragraph (4)(a) of this rule if at least half of the 11th and 12th grade students in the school retaking the grade 10 FCAT or FCAT 2.0 in reading and at least half of 11th and 12th grade students in the school retaking other statewide assessments required for graduation, meet the graduation requirement. At least fifty (50) percent of students retaking the grade 10 reading assessment and fifty (50) percent of the students retaking the grade 10 mathematics assessment and EOC assessments required for graduation, must meet the graduation requirement for a school to receive the ten (10) bonus points.

(d) The percent of students reflected in each of the school grade point components defined in paragraphs (4)(a) through (c) of this rule shall be expressed to the nearest whole number. The corresponding points assigned for each grade point component shall also be expressed to the nearest whole number.

(6)(7) School Performance Grading Scale. The school grading scale shall be determined separately for elementary schools, middle schools, high schools, and combination schools with graduating seniors.

(a) For elementary schools and combination schools serving grades up to grade 7, the School Performance Grade shall be based on the sum of the eight (8) six (6) grade point components elements as defined in paragraphs (5)(6)(a) through (f) of this rule and shall be scaled to reflect school performance, learning gains, and improvement of the lowest twenty-five (25) percent beginning with the 2001-2002 school year, as required by Section 1008.34(1), F.S. In addition to the requirements in subparagraph (1)(a)4, subsection (5) of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3., and the

requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing 25 percent of students, the following scale shall be applied:

1. (a) At least 525 410 school grade points shall be required for a School Performance Grade of A.

2. (b) At least 495 380 school grade points shall be required for a School Performance Grade of B.

3. (c) At least 435 320 school grade points shall be required for a School Performance Grade of C.

4. (d) At least 395 280 school grade points shall be required for a School Performance Grade of D.

5. (e) If an elementary school accumulates fewer than 395 280 school grade points, it shall be assigned a School Performance Grade of F.

(b) For middle schools and combination schools serving grades up to grade 8:

1. The school grade shall be based on the sum of the eight (8) grade point components as defined in paragraph (5)(a) of this rule and the middle-school grade point components in subparagraphs (5)(b)1. and 2. of this rule. In addition to the requirements in subparagraph (1)(a)4. of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3. and the requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing twenty-five (25) percent of students, the following scale shall be applied:

a. At least 590 school grade points shall be required for a school grade of A.

b. At least 560 school grade points shall be required for a school grade of B.

c. At least 490 school grade points shall be required for a school grade of C.

d. At least 445 school grade points shall be required for a school grade of D.

e. If a middle school accumulates fewer than 445 school grade points, it shall be assigned a school grade of F.

2. Beginning in the 2014-15 school year, for middle schools the school grade shall be based on the sum of the eight (8) grade point components as defined in paragraph (5)(a) of this rule and the middle-school grade point components in subparagraphs (5)(b)1. through 3. of this rule. In addition to the requirements in subparagraph (1)(a)4. of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3., and the requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing twenty-five (25) percent of students, the following scale shall be applied:

a. At least 655 school grade points shall be required for a school grade of A.

b. At least 620 school grade points shall be required for a school grade of B.

c. At least 545 school grade points shall be required for a school grade of C.

d. At least 495 school grade points shall be required for a school grade of D.

e. If a middle school accumulates fewer than 495 school grade points, it shall be assigned a school grade of F.

(c) For high schools, the school grade shall be based on the sum of the eight (8) grade point components as defined in paragraph (5)(a) and the components in paragraph (5)(c) of this rule. In addition to the requirements in subparagraph (1)(a)4. of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3., and the requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing twenty-five (25) percent of students, the following scale shall be applied:

1. At least 1,050 school grade points shall be required for a school grade of A.

2. At least 990 school grade points shall be required for a school grade of B.

3. At least 870 school grade points shall be required for a school grade of C.

4. At least 790 school grade points shall be required for a school grade of D.

5. If a high school accumulates fewer than 790 school grade points, it shall be assigned a school grade of F.

6. For school year 2011-12 only, an interim points-weighting adjustment will be applied to the grade point components defined in paragraph (5)(a) of this rule for high schools because of the absence of a science assessment at the high school level with set Achievement Levels in 2011-12. In 2011-12, high schools will be able to earn a maximum of 700 points for the grade point components defined in paragraph (5)(a) of this rule. The summed points earned by high schools for these grade point components will be multiplied by a factor of 1.143 to equate the points total for these grade point components to an 800-point scale in order to maintain a 50/50 balance between points earned on grade point components described in paragraph (5)(a) of this rule and the additional high school grade point components described in paragraph (5)(c) of this rule, as mandated by Section 1008.34, F.S.

7. Adjusted Weighting of Components for Combination High Schools' Grades. For schools in which grades 9 through 12 are taught in addition to other grades below grade 9, the school grade shall be based on a weighting of components defined in paragraph (5)(a) and other components, as described in paragraph (5)(c) of this rule, that are proportional to the number and level of non-high-school grades taught at the school at tested grade levels. Whereas the point totals for regular high schools (serving only grades 9 through 12) weight the components defined in paragraph (5)(a) at fifty (50) percent of the grade and the components described in paragraph (5)(c)

of this rule at fifty (50) percent of the grade, the following weightings for these components shall be applied to combination high schools:

a. A combination high school serving more than three (3) tested grade levels below grade 9 shall have a school grade point total that weights the components defined in paragraph (5)(a), as eighty (80) percent of the grade and the components described in paragraph (5)(c) of this rule as twenty (20) percent of the grade.

b. A combination high school serving three (3) or fewer tested grade levels below grade 9 shall have a school grade point total that weights the components defined in paragraph (5)(a), as seventy (70) percent of the grade and the components described in paragraph (5)(c) of this rule as thirty (30) percent of the grade.

(d) For combination schools in which middle grades and grades 9 through 12 are taught:

1. The school grade shall be based on the sum of the eight (8) grade point components as defined in paragraph (5)(a) of this rule, the additional middle school grade point components in subparagraphs (5)(b)1. and 2., and the high-school grade point components described in paragraph (5)(c) of this rule, resulting in a 1700-point grade scale. The school grade element for participation and performance in high school EOC assessments in middle schools, as addressed in subparagraphs (5)(b)1. and 2. of this rule, will be included with the elements addressed in paragraph (5)(c) of this rule when applying the weighting of points for combination schools described in subparagraph (6)(c)7. of this rule. In 2011-12, the interim grade point weighting factor for high schools, as described in subparagraph (6)(c)6. of this rule, will also be applied to combination schools serving high school grades. In addition to the requirements in subparagraph (1)(a)4. of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3., and the requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing twenty-five (25) percent of students, the following scale shall be applied:

a. At least 1,115 school grade points shall be required for a school grade of A.

b. At least 1,050 school grade points shall be required for a school grade of B.

c. At least 925 school grade points shall be required for a school grade of C.

d. At least 840 school grade points shall be required for a school grade of D.

e. If a combination high school accumulates fewer than 840 school grade points, it shall be assigned a school grade of E.

2. Beginning in the 2014-15 school year, for combination schools in which middle school grades and grades 9 through 12 are taught, the school grade shall be based on the sum of the eight (8) grade point components as defined in paragraph (5)(a)

of this rule, the additional middle school grade point components in subparagraphs (5)(b)1. through 3., and the additional high-school grade point components described in paragraph (5)(c) of this rule, resulting in an 1800-point grade scale. The school grade components for participation and performance in high school EOC assessments in middle schools, addressed in subparagraphs (5)(b)1. and 2. of this rule, will be included with the elements addressed in paragraph (5)(c) of this rule when applying the weighting of points for combination schools described in subparagraph (6)(c)7. of this rule. The school grade component for the Civics EOC Assessment, addressed in paragraph (5)(b) of this rule, will be included with the components addressed in paragraph (5)(a) of this rule when applying the weighting of points for combination schools described in subparagraph (6)(c)7. of this rule. In addition to the requirements in subparagraph (1)(a)4. of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3., and the requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing twenty-five (25) percent of students, the following scale shall be applied:

a. At least 1,180 school grade points shall be required for a school grade of A.

b. At least 1,115 school grade points shall be required for a school grade of B.

c. At least 980 school grade points shall be required for a school grade of C.

d. At least 890 school grade points shall be required for a school grade of D.

e. If a combination high school accumulates fewer than 890 school grade points, it shall be assigned a school grade of E.

(7)(8) Planned System Enhancements. As indicated in this subsection, planned enhancements will occur in Florida's System of School Improvement and Accountability. The Commissioner of Education will periodically recommend additional changes to the system to the State Board of Education as necessary to ensure that continuous improvements are made in the educational programs of the state. Beginning with the 2011-12 school year and annually thereafter, the percentage of "A" and "B" school grades for the year shall be reviewed to determine whether to adjust the school grading scale upward for the following year's school grades. The first adjustment would occur no earlier than the 2012-13 school year. An adjustment will be made if the percentage of schools earning an "A" or "B" in the current year represents seventy-five (75) percent or more of all graded schools within a particular school type. There are four school types used for accountability: elementary, middle, high, and combination. The adjustment would reset the minimum required percentage of points for each passing grade (A, B, C, D) at the next highest percentage ending in the numeral 5 or 0 (zero), whichever is closest to the current percentage. Annual

reviews of the percentage of schools earning an "A" or "B" and adjustments to required points will be suspended when the following grade scale is achieved: 90 percent or more of the points for an "A"; 80 to 89 percent of the points for a "B"; 70 to 79 percent of the points for a "C"; and 60 to 69 percent of the points for a "D."

~~(a) Science. For this category of achievement, schools will earn one (1) point for each percent of students who score at or above Achievement Level 3, proficient, as established by the State Board of Education. In the event that a school does not have at least ten (10) eligible students tested in science, the district average for percent proficient in science shall be substituted.~~

~~(b) Math lowest twenty five (25) percent will be added as an additional category of performance beginning in 2006-07. For this category of achievement, schools will earn one (1) point for each percent of students in the lowest twenty five (25) percent in mathematics in the school who make learning gains as defined in paragraph (5)(b) of this rule. Improvement of the lowest twenty five (25) percent of students in mathematics in each grade, as defined in paragraph (5)(b) of this rule, shall be aggregated for each school, unless the students so designated are performing above proficiency, defined as FCAT Achievement Levels 4 and 5.~~

~~1. Schools designated as Performance Grade "C" or above shall be required to demonstrate that adequate progress in mathematics, defined as annual learning gains in paragraph (5)(b) of this rule, has been made by the lowest twenty five (25) percent of students in the school who scored at or below FCAT Achievement Level 3, based on their previous year's FCAT score. The minimum requirement for adequate progress is deemed to be met when at least fifty (50) percent of such students make learning gains as defined in paragraph (5)(b) of this rule. If the percent of such students making learning gains is below fifty (50) percent in the current year, adequate progress can be met if:~~

~~a. Schools demonstrate a one (1) percentage point improvement in the percent of such students making learning gains over the prior year, if the percent of such students making learning gains is at least forty (40) percent in the current year;~~  
~~or~~

~~b. Schools demonstrate a five (5) percentage point improvement in the percent of such students making learning gains over the prior year, if the percent of such students making learning gains is below forty (40) percent in the current year. If a school otherwise designated as Performance Grade "B" or "C" does not meet the minimum requirement for adequate progress by having at least fifty (50) percent of its lowest performing students making learning gains in reading and in math in at least one (1) of two (2) consecutive years, or demonstrate improvement as defined in sub-subparagraphs (8)(b)1.a. and b. of this rule, the final Performance Grade~~

~~designation shall be reduced by one (1) letter grade. No school shall be designated as Performance Grade "A" unless the adequate progress criterion in mathematics is met each year.~~

~~2. In the event that a school does not have at least thirty (30) students in the lowest twenty five (25) percent in mathematics as defined in paragraph (8)(b) of this rule, the lowest performing thirty (30) students at or below proficiency, defined as FCAT Achievement Levels 1, 2, and 3, will be used. In the event there are still not thirty (30) qualified students in the lowest achieving group, the grade point element defined in paragraph (6)(e) of this rule shall be substituted for the grade point element defined in paragraph (8)(b) of this rule.~~

~~(e) School Performance Grading Scale. The School Performance Grade shall be based on the sum of the eight (8) grade point elements as defined in paragraphs (6)(a) through (f) and (8)(a) and (b) of this rule as required by Section 1008.34(1), F.S., and shall be scaled to reflect school performance, learning gains and improvement of the lowest twenty five (25) percent beginning with the 2006-2007 school year. In addition to the requirements in subsection (5) of this rule for minimum percent of students tested, the following scale shall be applied:~~

~~1. At least 525 school grade points shall be required for a School Performance Grade of A.~~

~~2. At least 495 school grade points shall be required for a School Performance Grade of B.~~

~~3. At least 435 school grade points shall be required for a School Performance Grade of C.~~

~~4. At least 395 school grade points shall be required for a School Performance Grade of D.~~

~~5. If a school accumulates fewer than 395 school grade points, it shall be assigned a School Performance Grade of F.~~

~~(d) High schools will be eligible for ten (10) bonus points added to their total school grade points accumulated through the eight (8) components if at least half of the 11th and 12th grade students in the school retaking the grade 10 FCAT meet the graduation requirement. At least fifty (50) percent of students retaking the grade 10 reading and fifty (50) percent of the students retaking grade 10 math must meet the graduation requirement for a school to receive the ten (10) bonus points.~~

~~(e) School performance grades for high schools (schools that include grades 9 through 12 among grades taught) shall be evaluated on a revised scale beginning with school grading for the 2009-10 school year. Beginning in 2009-10, fifty (50) percent of the performance grade for high schools shall be based on the following components in addition to the components previously described in paragraphs (6)(a) through (f) and (8)(a) through (b) of this rule:~~

~~1. Four-year high school graduation rate. For the 2009-10 and 2010-11 School Years, the graduation rate will be calculated using criteria for the modified No Child Left Behind (NCLB) graduation rate. The procedures used to calculate this rate can be found in the 2009-10 Guide to Calculations for~~

~~Florida's Public High School Graduation Rate, November 2010, (http://www.flrules.org/Gateway/reference.asp?No=Ref-00249) which is hereby incorporated by reference in this rule and may be obtained at http://www.fldoe.org/eias/eiaspubs/word/gradgde0910.doc. The total possible points awarded for this component is 200 points.~~

~~2. Four-year high school graduation rate for academically at risk students. For purposes of this component, students shall be identified as academically at risk if they have scored at FCAT Achievement Level 2 or lower on both the mathematics and reading subtests of the FCAT in grade 8. The cohort of academically at-risk students is a sub-population of the adjusted cohort for the graduation rate described in subparagraph (8)(c)1. of this rule. The method of rate calculation and the criteria for inclusion in the numerator and denominator are the same as for the graduation rate described in subparagraph (8)(c)1. of this rule. For this component, one (1) grade points shall be awarded for each percent of students counted as on-time graduates in the graduation rate. The total possible points awarded for this component is 100 points.~~

~~3. Participation in accelerated coursework, defined as Advanced Placement (AP), International Baccalaureate (IB), dual enrollment, Advanced International Certificate of Education (AICE), and industry certification courses. Participation shall be calculated for the school year by dividing a weighted count of accelerated coursework participants in grades 9 through 12 (numerator) by the count of all students enrolled in grades 11 and 12 (denominator). For AP, IB, and AICE participation, a student shall be counted in the numerator if he or she has taken the applicable subject area examination (i.e., the AP, IB, or AICE subject area examination). For dual enrollment courses, a student must earn a grade in the course in order to be counted as a participant. For industry certification, a student must have taken an industry certification examination on the Industry Certification Funding List approved by the State Board of Education in Rule 6A 6.0573, F.A.C., in order to be counted as a participant. In 2009-10 and 2010-11, schools shall receive credit for accelerated coursework participants in grades 9 and 10 in the numerator of the calculation only if the participants successfully complete the acceleration as outlined in subparagraph (8)(c)4. of this rule. Beginning in 2011-12, schools shall receive credit for accelerated coursework participants in grades 9 and 10 in the numerator of the calculation.~~

~~a. Weighting of counts for individual participants. For each student counted as a participant in accelerated coursework, the weighted count that is credited to the student is established at 1.0 for a student who has taken one course/examination in accelerated coursework and is increased incrementally by 0.1 for each additional course/examination taken. The weighted counts for all participants are summed to produce the numerator described in subparagraph (8)(c)3. of this rule.~~

~~b. Grade points assigned. For this component, in 2009-10, two (2) grade points shall be awarded for each percentage point produced by the weighted calculation of participation in accelerated coursework described in subparagraph (8)(c)3. and sub-subparagraph (8)(c)3.a. of this rule. The total possible points awarded for this component is 200 points. In 2010-11, one and three quarters (1.75) grade points shall be awarded for each percentage point produced by the weighted calculation of participation in accelerated coursework described in subparagraph (8)(c)3. and sub-subparagraph (8)(c)3.a. of this rule. The total possible points awarded for this component shall be 175 points in 2010-11. Beginning in 2011-12, one and one half (1.5) grade points shall be awarded for each percentage point produced by the weighted calculation of participation in accelerated coursework described in subparagraph (8)(c)3. and sub-subparagraph (8)(c)3.a. of this rule. The total possible points awarded for this component shall be 150 points beginning in 2011-2012.~~

~~4. Performance in accelerated coursework, defined as Advanced Placement (AP), International Baccalaureate (IB), dual enrollment, Advanced International Certificate of Education (AICE), and industry certification courses. In 2009-10 and 2010-11, performance shall be calculated for the school by dividing the weighted number of grade 9-12 students with successful completions in accelerated coursework (numerator) by the count of all students in grades 11 through 12 who took an accelerated course or subject area examination during the academic year and the count of all students in grades 9 and 10 who successfully completed accelerated coursework as outlined in subparagraph (8)(c)4. of this rule (denominator). Beginning in 2011-12, the denominator of the performance calculation shall include all students in grades 9 through 12 who took an accelerated course or subject area examination during the academic year. For AP, IB, and AICE successful completion is defined as earning a passing score and being awarded credit for specific postsecondary course(s) as determined by the 2009 Articulation Coordinating Committee's Credit by Exam Equivalencies list which is hereby incorporated by reference and may be obtained at <http://www.fldoe.org/articulation/pdf/ACC-CBE.pdf>. For dual enrollment successful completion is defined as a passing grade of "C" or higher in a dual enrollment course for college credit. For industry certification successful completion is defined as passing an industry certification examination on the State Board of Education approved industry certification funding list. Schools can earn additional successful completions for students who achieve industry certifications that result in credit for more than one (1) college course through statewide articulation agreements. Those agreements can be accessed at [http://www.fldoe.org/workforce/dwdframe/artic\\_frame.asp](http://www.fldoe.org/workforce/dwdframe/artic_frame.asp).~~

~~a. Weighting of counts for students with successful completions. For each student identified as having successfully completed accelerated coursework, the weighted count that is assigned to the student is established at 1.0 for a student with~~

~~one successful completion in accelerated coursework and is increased incrementally by 0.1 for each additional successful completion credited to the student. The weighted counts for all successful completers are summed to produce the numerator described in subparagraph (8)(c)4. of this rule.~~

~~b. Grade points assigned. For this component, in 2009-10, one (1) grade point shall be awarded for each percentage point produced by the weighted calculation of performance in accelerated coursework described in subparagraph (8)(c)4. and sub-subparagraph (8)(c)4.a. of this rule. The total possible points awarded for this component is 100 points. In 2010-11, one and one quarter (1.25) grade points shall be awarded for each percentage point produced by the weighted calculation of performance in accelerated coursework described in subparagraph (8)(c)4. and sub-subparagraph (8)(c)4.a. of this rule. The total possible points awarded for this component shall be 125 points in 2010-11. Beginning in 2011-12, one and one half (1.5) grade points shall be awarded for each percentage point produced by the weighted calculation of performance in accelerated coursework described in subparagraph (8)(c)4. and sub-subparagraph (8)(c)4.a. of this rule. The total possible points awarded for this component shall be 150 points beginning in 2011-12.~~

~~5. Postsecondary readiness. This measure consists of two separate components, one for reading and one for mathematics. For each subject area component, postsecondary readiness shall be calculated by dividing the count of on-time high school graduates scoring "ready" on the SAT, ACT, and/or the Common Placement Test (CPT), at any time during their high school careers by the count of all on-time high school graduates who scored at Level 3 or higher on the grade 10 FCAT in the applicable subject. This measure shall be based on all on-time standard high school graduates beginning no later than 2011-12. Readiness cutoff scores by subject area on the ACT, SAT, and CPT, are established in Rule 6A-10.0315, F.A.C. For students who have taken multiple tests among the ACT, SAT, and CPT, the student's highest score by subtest shall be used to determine postsecondary readiness for the applicable subject area component. For each of the subject area components, one (1) grade point is awarded for each percentage point outcome of the postsecondary readiness calculation. The total possible points that may be awarded to a school for each component is 100 points.~~

~~6. Annual growth or decline in the components described in subparagraphs (8)(c)1. through 5. of this rule. For each component described in subparagraphs (8)(c)1. through 5., additional points are awarded based on the percentage point improvement over the prior year. Schools shall earn one additional point for each percentage point improved over the prior year.~~

~~Schools shall earn no more than twenty (20) additional points on each component described in subparagraphs (8)(c)1. through 5. of this rule. For each component described in~~

~~subparagraphs (8)(c)1. through 5. of this rule, schools shall lose five (5) points if performance declines by at least ten (10) percentage points over the prior year. Schools that show no improvement in results shall receive no additional points.~~

~~7. Adequate progress requirement for at-risk students as criterion for a school grade of "A." A high school that would otherwise earn a grade of "A" based on earned grading points must meet an additional requirement for adequate progress of at-risk students in order to be assigned a grade of "A" rather than one letter grade lower ("B"). For such schools, the graduation rate for academically at-risk students, as described in subparagraph (8)(c)2. of this rule, must meet one or more of the following criteria to satisfy this requirement:~~

- ~~a. Be no lower than seventy five (75) percent; or~~
- ~~b. Show improvement of at least one (1) percentage point over the prior year's rate, if the current year rate is at least sixty five (65) percent; or~~
- ~~c. Show improvement of at least five (5) percentage points over the prior year's rate, if the current year rate is below sixty five (65) percent.~~

~~8. The school grading measures and requirements described in subparagraphs (8)(c)1. through 7. of this rule, shall be applied to high schools for which there are at least ten (10) students included in the denominator of each component described in subparagraphs (8)(c)1. and 3. through 5. of this rule. For high schools in which there are fewer than ten (10) students in the denominator of any one of these components, the school grade shall be determined using the same FCAT-based components that are applied in determining the grades of schools serving grades 8 and lower, and shall not include any of the components described in subparagraphs (8)(c)1. through 7. of this rule. For high schools in which their are fewer than ten (10) students in the denominator of the four-year high school graduation rate for academically at-risk students component (subparagraph (8)(c)2.), the grade point component defined in subparagraph (8)(c)1. of this rule shall be substituted for the grade point component defined in subparagraph (8)(c)2. of this rule.~~

~~9. Grading scale for high schools. Beginning in 2009-10, the following school grading scale shall be applied to high schools:~~

- ~~a. At least 1,050 school grade points shall be required for a School Performance Grade of A.~~
- ~~b. At least 990 school grade points shall be required for a School Performance Grade of B.~~
- ~~c. At least 870 school grade points shall be required for a School Performance Grade of C.~~
- ~~d. At least 790 school grade points shall be required for a School Performance Grade of D.~~
- ~~e. If a high school accumulates fewer than 790 school grade points, it shall be assigned a School Performance Grade of F.~~

~~10. Adjusted weighting of FCAT-based components and non-FCAT-based components for combination high schools' grades. For schools in which grades 9 through 12 are taught in addition to other grades below grade 9, the school grade shall be based on a weighting of FCAT-based components and non-FCAT-based components, as described in subparagraphs (8)(c)1. through 8. of this rule, that is proportional to the number and level of non-high school grades taught at the school at tested grade levels. Whereas the point totals for regular high schools (serving only grades 9 through 12) weight the FCAT-based components at fifty (50) percent of the grade and the non-FCAT-based components at fifty (50) percent of the grade, the following weightings for FCAT-based and non-FCAT-based components shall be applied to combination high schools:~~

~~a. A combination high school serving more than three (3) tested grade levels below grade 9 shall have a school grade point total that weights the FCAT-based components as eighty (80) percent of the grade and the non-FCAT-based components as twenty (20) percent of the grade.~~

~~b. A combination high school serving three (3) or fewer tested grade levels below grade 9 shall have a school grade point total that weights the FCAT-based components as seventy (70) percent of the grade and the non-FCAT-based components as thirty (30) percent of the grade.~~

~~(8)(9) Accuracy and Representativeness of Performance Data. The Commissioner shall review all information submitted by school districts to represent the performance of schools receiving a school performance grade.~~

(a) Each school district superintendent shall designate a school accountability contact person to be responsible for verifying that each school is appropriately classified by type, verifying student data indicators and eligibility for inclusion and exclusion in school grade calculations, and reconciling student test answer documents that do not match survey three membership records prior to the issuance of school grades. Student eligibility changes may include, but are not limited to, officially recorded test invalidations, Exceptional Student or ELL Limited English Proficient Student status changes made prior to testing, and school withdrawals made prior to testing. All changes in student eligibility for school grade calculations shall be made prior to the issuance of school grades and must be accompanied by written documentation deemed appropriate by the Department. Each school district shall be responsible for providing all related information to the Department within the time limits specified by the Commissioner.

(b) The Commissioner shall withhold the designation of a school's performance grade if he or she determines that the performance data does not accurately represent the progress of the school. Circumstances under which a school's performance data may be considered to not accurately represent the progress of the school include:

1. Less than ninety (90) percent of the school's student population eligible for inclusion in the designation of the school's performance grade was assessed;

2. Circumstances identified before, during, or following the administration of any state assessment where the validity or integrity of the test results are called into question and are subject to an investigation or review as determined by the Department. The school's performance grade shall be designated incomplete (I) until the state, district, and/or local investigation(s) are complete. If, following the completion of investigations, data are determined to accurately represent the performance of the school, a school's performance grade reflecting the data shall be reported.

(c) After the initial issuance of school performance grades, the school district shall have at least thirty (30) days to review the data on which the school performance grade was based. If the school district determines that a different school performance grade should be assigned because of the omission of student data, a data miscalculation, or special circumstances that might have affected the grade assigned, a request for a state review of the data can be submitted. Changes to the criteria or process described in paragraph ~~(8)(9)(a)~~ shall not be considered as part of this review and must be addressed as described therein. Appropriate documentation of all elements and data to be reviewed by the Department must be submitted within the time limits specified by the Commissioner. The Commissioner's determination of a school's performance grade shall be final.

~~(9)(10) Rewards and Recognition. Schools must have a designated school performance grade or school improvement rating for alternative schools to participate in the Florida School Recognition Program as authorized by Section 1008.36, F.S. Schools that receive designated a School Performance Grade of A, and schools that have improved at least one (1) letter performance grade from the previous school year, and schools that improved more than one school grade the previous year and maintained that grade in the current year are eligible for school recognition and financial awards. Schools with a school improvement rating of "Improving" or that increased their rating from the previous year are also eligible for awards.~~

~~(a) Schools designated School Performance Grade A and schools that have improved at least two (2) performance grades may be given deregulated status as specified in Sections 1003.63(5), (7), (8), (9), and (10), F.S. Districts shall develop guidelines for the implementation of this provision and shall provide deregulated status to eligible schools that request it. The school advisory council and principal of an eligible school seeking waivers from state statutes shall submit requests as specified in Sections 1003.63(7)(a) and (b), F.S. The school's deregulated status shall remain in effect as long as the school~~

~~abides by the provisions of Sections 1003.63(5), (7), (8), (9), and (10), F.S., or unless the school's performance grade declines:~~

~~(b) Schools designated School Performance Grade A and schools that have improved at least two (2) performance grades shall have greater authority over the allocation of the school's total budget. Local school boards shall adopt policies in accordance with Section 1001.42(17)(d), F.S., which grant schools greater authority over the allocation of the school's total budget, including, but not limited to, allocation of instructional staff and the acquisition of instructional materials, equipment, and technology. The school's total budget includes funds generated from the FEPP, state categoricals, lottery funds, grants, and local funds. The policies shall provide for approval of a school's written proposal as long as the proposal remains within the school's total budget, specifies the areas in which the school will have administrative and fiscal autonomy, specifies the areas in which the school will follow school district fiscal and administrative policies, and is consistent with the school's deregulated status.~~

11G-2.0031 SIDS Autopsy Protocol.

~~(1) Sudden infant death syndrome (SIDS) is the sudden death of an infant under one year of age which remains unexplained after a thorough case investigation, including performance of a complete autopsy, examination of the death scene, and review of the clinical history.~~

~~(2) A medical examiner is obligated to perform a complete autopsy and conduct a thorough scene and clinical history review of any sudden, unexpected or apparently non-violent death of an infant under one year of age which might be a case of SIDS.~~

~~(3) The medical examiner investigating a potential SIDS case must be familiar with the place of discovery of the infant in terms of sleep site, bed clothes, position at time of discovery, sharing the bed with others, and environmental hazards such as fumes or extreme temperature hazards. Familiarity with the scene may be determined by personal inspection on the part of the medical examiner or a medical examiner investigator or police investigator. The results of scene investigation shall be included in the medical examiner case file. The diagnosis of SIDS should not be made if it is apparent that a hazard such as overlay by an adult, fall from bed, suffocation from dangerous coverings or other environmental hazards played a role in the death.~~

~~(4) The clinical history review shall attempt to include determination of prenatal, delivery and postnatal medical information relevant to a proper diagnosis of SIDS and should include history of familial disease, mental illness and social setting pertinent to exclusion of illnesses or child abuse, the absence of which is essential to the diagnosis of SIDS. During the investigation contact shall be made with the Department of Children and Family Services for information in its records of abuse or neglect of children within the family or family setting.~~

~~(5) An autopsy is mandated whenever an infant death is under investigation as a potential SIDS. The autopsy is needed to exclude congenital, infectious, environmental or other unnatural causes of death. The gross narrative description shall consider external features including integrity of all orifices, status of internal organs and tissues and hollow viscera contents. Serosal and membrane petechiae and presence or absence of blood clot in the heart and great vessels should be mentioned as well as a skeletal x ray survey and appropriate photographs. Histological slides should include major viscera sufficient to exclude readily diagnosed disease processes. Bacterial cultures and viral cultures should be performed when needed to document or exclude suspect infectious agents. Appropriate tissues and fluids should be preserved for toxicological study when indicated.~~

~~(6) As soon as the diagnosis of SIDS is made, a letter of condolence and explanation with reference to a counseling visit by the county public health unit representatives should be sent from the medical examiner to the parents or guardians. The county public health unit must be notified and furnished the names and addresses of the parents or guardians. The medical examiner shall furnish case investigative findings to the Consumer Product Safety Commission or other concerned governmental agencies upon request. In such event the counseling letter should make reference to the prospective visit by such agency.~~

This portion of the licensure examination shall be completed through the American Board of Opticianry, and proof of successful completion shall be required prior to a candidate's taking of the state board approved ~~practical~~ examination.

(3) The national written contact lens examination portion of the examination shall be the Contact Lens Registry Examination developed by the National Contact Lens Examiners. SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE TITLE: Training Requirements for Physicians Practicing in Pain Management Clinics

PURPOSE AND EFFECT: The proposed rule amendments are intended to re-title the rule to “Training Requirements for Physicians Practicing in Pain Management Clinics” and to delete all the provisions in the rule except for the training requirements.

SUMMARY: The rule is being amended to delete all language except for the training requirements.

#### SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

~~64B15-14.0051 Training Requirements Standards of Practice for Physicians Practicing in Pain Management Clinics. THIS RULE IS APPLICABLE TO PHYSICIANS PRACTICING IN PRIVATELY OWNED PAIN MANAGEMENT CLINICS THAT ARE REQUIRED TO BE REGISTERED PURSUANT TO SECTION 459.0137, F.S., WHO PRIMARILY ENGAGE IN THE TREATMENT OF PAIN BY PRESCRIBING OR DISPENSING CONTROLLED SUBSTANCE MEDICATIONS.~~

~~(1) Definitions. The following definitions apply to this rule only:~~

~~(a) Controlled Substance. A “controlled substance” is any substance named or described in Schedules I-V of Section 893.03, F.S.~~

~~(b) Adverse Incidents. An “adverse incident” is any incident set forth in Sections 459.026(4)(a)-(c), F.S.~~

~~(c) “Board-certified pain management physician” means a physician who possesses Board certification by a specialty board recognized by the American Board of Medical Specialties (ABMS) and holds a sub-specialty certification in pain medicine; or Board certification in pain medicine by the American Board of Pain Medicine (ABPM); or a Certificate of Added Qualification in Pain Management by the American Osteopathic Association (AOA).~~

~~(d) “Addiction medicine specialist” means a board certified psychiatrist with a subspecialty certification in addiction medicine or who is eligible for such subspecialty certification in addiction medicine or an addiction medicine physician certified or eligible for certification by the American Society of Addiction Medicine (ASAM), or who holds a Certificate of Added Qualification in Addiction Medicine from the AOA.~~

~~(e) “Mental health addiction facility” means a facility licensed pursuant to Chapter 394 or 397, F.S.~~

~~(2) Standards of Practice in Pain Management Clinics.~~

~~(a) Evaluation of Patient and Medical Diagnosis. A complete medical history and a physical examination must be conducted prior to commencement of any treatment and documented in the medical record. The exact components of the physical examination shall be left to the judgment of the clinician who is expected to perform a physical examination proportionate to the diagnosis that justifies a treatment. The medical record must, at a minimum, document the nature and~~

intensity of the pain, current and past treatments for pain, underlying or coexisting diseases or conditions, the effect of the pain on physical and psychological function, a review of prior medical records, previous diagnostic studies, and history of alcohol and substance abuse. The medical record shall also document the presence of one or more recognized medical indications for the use of a controlled substance.

(b) ~~Treatment Plan.~~ The written individualized treatment plan shall state objectives that will be used to determine treatment success, such as pain relief and improved physical and psychosocial function, and shall indicate if any further diagnostic evaluations or other treatments are planned. After treatment begins, the physician shall adjust drug therapy to the individual medical needs of each patient. Other treatment modalities, including a rehabilitation program, shall be considered depending on the etiology of the pain and the extent to which the pain is associated with physical and psychosocial impairment. The interdisciplinary nature of the treatment plan shall be documented.

(c) ~~Informed Consent and Agreement for Treatment.~~ The physician shall discuss the risks and benefits of the use of controlled substances including the risks of abuse/addiction, as well as physical dependence and its consequences, with the patient, persons designated by the patient, or with the patient's surrogate or guardian if the patient is incompetent. The physician shall employ the use of a written controlled substance agreement between physician and patient outlining patient responsibilities, including, but not limited to:

1. ~~To assure the medical necessity and safety of any controlled substances that the physician may consider prescribing as part of the patient's treatment plan, drug testing shall be conducted and the results reviewed prior to the initial issuance or dispensing of a controlled substance prescription, and thereafter, on a random basis at least twice a year and when requested by the treating physician;~~

2. ~~Number and frequency of all prescription refills;~~

3. ~~Patient compliance and reasons for which drug therapy may be discontinued (e.g., violation of agreement); and~~

4. ~~Agreement that controlled substances for the treatment of chronic nonmalignant pain shall be prescribed by a single treating physician unless otherwise authorized by the treating physician and documented in the medical record.~~

(d) ~~Periodic Review.~~ The patient shall be seen by the physician at regular intervals, not to exceed three months, to assess the efficacy of treatment, assure that controlled substance therapy remains indicated, evaluate the patient's progress toward treatment objectives, consider adverse drug effects and review the etiology of the pain. Continuation or modification of therapy shall depend on the physician's evaluation of the patient's progress. If treatment goals are not being achieved, despite medication adjustments, the physician shall reevaluate the appropriateness of continued treatment. The physician shall monitor patient compliance in medication

usage, related treatment plans, controlled substance agreements, and indications of substance abuse or diversion at a minimum of three-month intervals.

(e) ~~Consultation.~~ The physician shall refer the patient as necessary for additional evaluation and treatment in order to achieve treatment objectives. Special attention shall be given to those pain patients who are at risk for misusing their medications and those whose living arrangements pose a risk for medication misuse or diversion. The management of pain in patients with a history of substance abuse or with a comorbid psychiatric disorder requires extra care, monitoring, and documentation, and requires consultation with or referral to an addictionologist or psychiatrist.

(f) ~~Patient Drug Testing.~~ To assure the medical necessity and safety of any controlled substances that the physician may consider prescribing as part of the patient's treatment plan, patient drug testing shall be performed in accordance with one of the collection methods set forth below and shall be conducted and the results reviewed prior to the initial issuance or dispensing of a controlled substance prescription, and thereafter, on a random basis at least twice a year and when requested by the treating physician. Nothing in this rule shall preclude a pain management clinic from employing additional measures to assure the integrity of the urine specimens provided by patients:

1. ~~Referral to an outside laboratory.~~ A physician shall send the patient to a Clinical Laboratory Improvement Amendments (CLIA)-certified laboratory or a collection site owned or operated by a CLIA-certified laboratory;

2. ~~Specimen collected in the pain management clinic and sent to an outside laboratory for testing.~~ A physician shall collect in the office the patient specimen to be used for drug testing in a device that measures pH, specific gravity, and temperature and then the specimen shall be sent to a CLIA-certified laboratory. The physician shall follow the collection procedures required by the agreement the pain management clinic has entered into with the CLIA-certified laboratory it uses.

3. ~~Specimen collected and tested in office.~~ A physician shall collect and test in the office the specimen to be used for drug testing using CLIA-waived point-of-care test or CLIA-approved test that uses a device that measures the pH, specific gravity, and temperature. Results of the drug test shall be read according to the manufacturer's instructions.

(g) ~~Patient Medical Records.~~ The physician is required to keep accurate and complete records to include, but not be limited to:

1. ~~The complete medical history and a physical examination, including history of drug abuse or dependence;~~

2. ~~Diagnostic, therapeutic, and laboratory results;~~

3. ~~Evaluations and consultations;~~

4. ~~Treatment objectives;~~

5. ~~Discussion of risks and benefits;~~

- 6. Treatments;
- 7. Medications (including date, type, dosage, and quantity prescribed);
- 8. Instructions and agreements;
- 9. Periodic reviews;
- 10. Drug testing results;
- 11. A photocopy of the patient's government issued photo identification; and
- 12. If a written prescription for a controlled substance is given to the patient, a duplicate of said prescription must be maintained in the patient's medical record.

13. Each pain management clinic physician's medical record shall contain the physician's full name presented in a legible manner. In addition, each clinic must maintain a log on the premises which shall contain the full name, presented in a legible manner, along with a corresponding sample signature and initials of every physician, anesthesiologist assistant, and physician assistant working in the clinic.

14. Medical records must remain current, they must be maintained in an accessible manner and readily available for review and must be in full compliance with Rule 64B15-15.004, F.A.C., and Section 459.015(1)(o), F.S.

(h) Denial or Termination of Controlled Substance Therapy:

1. If a patient's initial drug testing reflects the adulteration of the specimen or the presence of illegal or controlled substances (other than medications with approved prescriptions), or when the testing result is questioned by either the patient or the physician, the specimen will be sent to a CLIA certified laboratory for gas or liquid chromatography/mass spectrometry (GC/MS or LC/MS or LC/MS/MS or GC/MS/MS) confirmation. If the result of the GC/MS or LC/MS or LC/MS/MS or GC/MS/MS testing is positive, the physician shall refer the patient for further consultation with a board certified pain management physician, an addiction medicine specialist, or to a mental health addiction facility as it pertains to drug abuse or addiction. After consultation is obtained, the physician shall document in the medical record the results of the consultation. The treating physician shall not prescribe or dispense any controlled substances until there is written concurrence of medical necessity of continued controlled substance therapy provided by a board certified pain management physician, an addiction medicine specialist, or from a mental health addiction facility. If the treating physician is a board certified pain management physician, or an addiction specialist, the physician does not need to refer the patient for further consultation. If the physician suspects diversion, then the patient shall be discharged and all results of testing and actions taken by the physician shall be documented in the patient's medical record.

2. For patients currently in treatment by the physician or any other physician in the same pain management clinic, patients with signs or symptoms of substance abuse, shall be immediately referred to a board-certified pain management physician, an addiction medicine specialist, or a mental health addiction facility as it pertains to drug abuse or addiction unless the physician is board certified or board eligible in pain management. Throughout the period of time prior to receiving the consultant's report, a prescribing physician shall clearly and completely document medical justification for continued treatment with controlled substances and those steps taken to assure medically appropriate use of controlled substances by the patient. Upon receipt of the consultant's written report, the prescribing physician will incorporate the consultant's recommendations for continuing, modifying, or discontinuing controlled substance therapy. The resulting changes in treatment shall be specifically documented in the patient's medical record.

3. For patients currently in treatment by the physician or any other physician in the same pain management clinic, evidence or behavioral indications of diversion shall be followed by discontinuation of controlled substance therapy and the patient shall be discharged and all results of testing and actions taken by the physician shall be documented in the patient's medical record.

(i) Facility and Physical Operations:

1. A pain management clinic shall be located and operated at a publicly accessible fixed location and shall contain the following:

- a. A sign that can be viewed by the public that contains the clinic name, hours of operations, and a street address;

(a) through (e) No change.

(3) The Veterans Administration (VA) provides a housebound allowance to eligible individuals who do not qualify for regular aid and attendance payments. This allowance can be paid to a veteran or widow or a widower who receives dependency or indemnity compensation. It is excluded income.

(4) The Veterans Administration provides an allowance for unreimbursed medical expenses incurred by the veteran that exceeds five percent of an individual's annual income. Unreimbursed medical expenses is excluded income. The Department can use form CF-ES 2262, Request for Veteran's Information, 11/2011 (incorporated by reference) to verify through the Department of Veterans Affairs the type and amount of VA payments.

~~(5)(3)~~ When Income Is Considered Available for Budgeting. The ~~D~~department counts income when it is received, when it is credited to the individual's account, or when it is set aside for their use, whichever is earlier.

(a) If a regular periodic payment is occasionally received in a month other than the normal month of receipt and there is no intent to interrupt the regular payment schedule the ~~D~~department considers the funds to be available income in the normal month of receipt. Examples include checks advance

dated because the regular payment date falls on a weekend or holiday, or electronic fund transfers or direct deposits which are posted to a bank account before or after the month they are payable.

(b) No change.

~~(6)(4)~~ Income Budgeting Methodologies. To determine eligibility SSI budgeting methodologies are applied except where expressly prohibited by 42 U.S.C. § 1396 (2000 Ed., Sup. IV) ~~(incorporated by reference)~~, or another less restrictive option is elected by the state under 42 U.S.C. § 1396a(r)(2) (2000 Ed., Sup. IV) ~~(incorporated by reference)~~. When averaging income, all income from the most recent consecutive four weeks shall be used if it is representative of future earnings. A longer period of past time may be used if necessary to provide a more accurate indication of anticipated fluctuations in future income.

(a) For MEDS-AD Demonstration Waiver, Protected Medicaid, Medically Needy, Qualified Working Disabled Individual, QMB, SLMB, QI1, and to compute the community spouse income allocation for spouses of ICP individuals, the following less restrictive methodology for determining gross monthly income is followed:

1. When income is received monthly or more often than once per month the monthly income from that source shall be computed by first determining the weekly income amount and then multiplying that amount by four 4. A five-week month shall not be treated any differently than a four-week month.

2. No change.

3. When earned income is received less often than monthly, the ~~D~~department counts the total amount in the month received and does not prorate.

(b) For institutional care, hospice, and HCBS waiver programs the ~~D~~department applies the following methodology in determining eligibility:

1. No change.

2. If the individual's monthly income does not exceed the institutional care income standard in any month the ~~D~~department will prorate the income over the period it is intended to cover to compute patient responsibility, provided that it does not result in undue hardship to the client. If it causes undue hardship it will be counted for the anticipated month of receipt.

(c) Medically Needy. The amount by which the individual's countable income exceeds the Medically Needy income level, called the "share of cost", shall be considered available for payment of medical care and services. The ~~D~~department computes available income for each month eligibility is requested to determine the amount of excess countable income available to meet medical costs. If countable income exceeds the Medically Needy income level the ~~D~~department shall deduct allowable medical expenses in chronological order, by day of service. Countable income is determined in accordance with subsection (2) above

65A-1.713(2), F.A.C. To be deducted the expenses must be unpaid, or if paid, must have been paid in the month for which eligibility is being determined or incurred and paid during the three previous calendar months to the month for which eligibility is being determined but no earlier than the three retroactive application months. The paid expense may not have been previously deducted from countable income during a period of eligibility. Medical expenses reimbursed by a state or local government not funded in full by federal funds, excluding Medicaid Program payments, are allowable deductions. Any other expenses reimbursable by a third party are not allowable deductions. Examples of recognized medical expenses include:

1. through 2. No change.

RULE NOS: 68C-22.012  68C-22.028	RULE TITLES: Volusia County and Associated County (Parts of Putnam, Lake, and Seminole) Zones Flagler County Zones
---	--

PURPOSE AND EFFECT: The purpose of the proposed rule making action is to improve protection of manatees and manatee habitat in Flagler County by limiting allowable motorboat speed in portions of the county. (This action would also amend the rule for Volusia County to remove from this rule existing boat speed zones in Flagler County.) These actions are being proposed after considering recommendations made by the Flagler County Local Rule Review Committee that was formed pursuant to Section 379.2431(2)(f), F.S. The effect of the action would be to limit allowable motorboat speed in portions of the county during the warm season, including 2.7 linear miles of Slow Speed on the Intracoastal Waterway (ICW). The warm season would be defined as May

through September 7 (to include Labor Day). Adoption of the proposed rule would add about 15 minutes to the time it currently requires to transit the county in the ICW during the warm season, with no change during the rest of the year. Additional information is available at: <http://myfwc.com/wildlifehabitats/managed/manatee/rulemaking/>.

SUMMARY: The proposed action would: [1] remove the existing zones in the extreme southern end of Flagler County that are a part of the rule for Volusia County; and [2] establish new zones in this area and other portions of Flagler County that would be in effect only from May 1 through September 7. The proposed zones would include 2.7 linear miles of Slow Speed zones on the ICW. Zones would be established in the vicinity of the Hammock Dunes Parkway Bridge, in the general area between Silver Lake and the State Road 100 (Moody Blvd) Bridge (including Lehigh Canal), and in the southernmost roughly 2.1 miles of Flagler County.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: A Statement of Estimated Regulatory Costs (SERC) has not yet been prepared by the agency. Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice. The agency has determined that the proposed rule is not expected to require legislative ratification based on the nature of the rule and the preliminary information and analysis conducted to date.

THE FULL TEXT OF THE PROPOSED RULE IS:

68C-22.012 Volusia ~~County~~ and Associated County (Parts of Putnam, Lake, ~~and~~ Seminole ~~and~~ Flagler) Zones.

(1) The Commission designates those portions of the St. Johns River basin and the Halifax/Indian River and Tomoka River basin within Volusia and adjacent counties, as described below, as areas where manatees are frequently sighted. The Commission has further determined that they are assumed to inhabit these waters periodically or continuously. This rule is for the purpose of regulating the speed and operation of motorboats in ~~portions of these designated areas in Volusia County as well as in counties adjacent to Volusia County in portions of the St. Johns River basin and in portions of the Halifax/Indian River and Tomoka River basin.~~ In addition to Volusia County, waters within the following counties are regulated within the provisions of this rule: Putnam, Lake, and Seminole (~~St. Johns River basin~~); and Flagler (~~Halifax River~~). In balancing the rights of fishermen, boaters, and waterskiers to use these waterways for recreational and commercial purposes (as applicable under Section ~~379.2431(2)(k)~~ Section 370.12(2)(j), F.S.) with the need to provide manatee protection, the Commission has examined the need for higher speed travel corridors through regulated areas. Such corridors are provided in those areas where the Commission determined, on the basis of all available information, (1) there is a need for the corridor and (2) the corridor will not result in serious threats to manatees or their habitat (as defined in Rule 68C-22.001, F.A.C.). Higher speed corridors are not provided in areas where both of the above findings were not made.

(2) No change.

(3) For the purpose of regulating the speed and operation of motorboats within portions of the Halifax River, Indian River basin and Tomoka River zones are established as follows:

(a) SLOW SPEED ZONE (Year-round) – The following described zones shall include all navigable waters and all associated and navigable tributaries, lakes, creeks, coves, bends, backwaters, canals, mosquito ditches, and boat basins, unless otherwise designated or excluded:

1. Halifax River, Halifax Creek and Smith Creek Area: All waters of Smith Creek, Halifax Creek, and the Halifax River, excluding the main marked channel of the Atlantic Intracoastal Waterway (designated for regulation under paragraph (3)(d)1., below), southerly of the Flagler County/Volusia County line a line which bears North 67° 00' 00" East (True) located 2000

~~feet South 29° 00' 00" East (True) of Red Intracoastal Waterway Channel Marker "22" (latitude 29° 26' 28" North, longitude 81° 06' 58" West), northerly of a line which bears North 72° 00' 00" East (True) running through Green Intracoastal Waterway Channel Marker "9" (latitude 29° 19' 54" North, longitude 81° 04' 06" West) and easterly of the general contour of the easterly shoreline of the islands lying westerly of the Intracoastal Waterway Channel between the general contour of the shoreline of the southernmost tip of a peninsula (approximate latitude 29° 22' 28" North, approximate longitude 81° 05' 12" West) and a point which lies 600 feet South 72° 00' 00" West (True) from the aforementioned Green Intracoastal Waterway Channel Marker "9";~~

2. Area westerly of Smith Creek: All waters within the backwater area lying ~~southwesterly of a line which bears approximately North 30° 00' 00" West (True) from the general contour of the shoreline at the northernmost tip of an island (approximate latitude 29° 25' 56" North, approximate longitude 81° 06' 40" West) to the general contour of the shoreline of the westerly bank of Smith Creek and southwesterly of a line which bears approximately South 15° 00' 00" East (True) from the general contour of the shoreline at the southeastern tip of an~~ the aforementioned island (approximate latitude 29° 25' 32" North, approximate longitude 81° 06' 29" West) to the general contour of the shoreline of the westerly bank of Smith Creek, near Green Intracoastal Waterway Channel Marker "23" and southerly of the Flagler County/Volusia County line;

3. through 25. No change.

(b) through (c) No change.

(d) MAXIMUM 30 MPH/25 MPH NIGHTTIME ZONE (Year-round) – Waters of the Halifax River, Indian River, and Tomoka River basin as follows:

1. Halifax Creek/Halifax River Area: All waters within the main marked channel of the Atlantic Intracoastal Waterway southerly of the Flagler County/Volusia County line a line which bears North 67° 00' 00" East (True) located 2000 feet South 29° 00' 00" East (True) of Red Intracoastal Waterway Channel Marker "22" (latitude 29° 26' 28" North, longitude 81° 06' 58" West) and northerly of a line which bears North 72° 00' 00" East (True) running through Green Intracoastal Waterway Channel Marker "9" (latitude 29° 19' 54" North, longitude 81° 04' 06" West);

2. through 7. No change.

(e) and (f) No change.

(4) through (6) No change.

(7) Maps depicting the zones described in this rule are available on the agency's website at <http://myfwc.com>. The maps are intended only as visual aids and do not have regulatory effect; therefore, in the event of conflict between the maps and the descriptions of the zones provided by this rule, the rule text shall prevail. The zones described in Rule 68C-22.012(1), (2), and (3), are depicted on the following

maps, labelled "Manatee Protection Zones—St. Johns River Basin, Volusia and Associated Counties," dated May 1994, and "Manatee Protection Zones—Halifax and Indian River Areas, Volusia and Associated Counties," dated May 1994, which shall replace the previously published maps. (Maps provided are intended as depictions of the abovedescribed zones. In the event of conflict between the two, the above descriptions shall prevail.)

#### 68C-22.028 Flagler County Zones.

(1)(a) The Commission hereby designates the waters within Flagler County, as described below, as areas where manatee sightings are frequent and where the best available information supports the conclusion that manatees inhabit these areas on a regular or periodic basis. The primary purpose of this rule is to protect manatees from harmful collisions with motorboats and from harassment by regulating the speed and operation of motorboats within these designated areas. A secondary purpose is to protect manatee habitat.

(b) In consideration of balancing the rights of fishers, boaters, and water skiers to use the waters of the state for recreational and commercial purposes (as applicable under Section 379.2431(k), F.S.), with the need to provide manatee protection, the Commission has examined the need for limited lanes, corridors, or unregulated areas that allow higher speeds through or within regulated areas. Such lanes, corridors, or areas are provided in those locations where the Commission determined they are consistent with manatee protection needs.

(2) The following zones are established, which include all associated and navigable tributaries, lakes, creeks, coves, bends, backwaters, canals, channels and boat basins, and other waterways unless specifically excluded or otherwise designated for more restrictive regulation. As used in this rule, ICW means the Intracoastal Waterway Coordinates used in the descriptions of zone boundaries are referenced to the North American Datum of 1983 (NAD83).

#### (a) SLOW SPEED (May 1 – September 7)

1. Hammock Dunes Parkway Area – All waters, including in the ICW channel, south of a line that bears 70° from a point (approximate latitude 29° 34' 49" North, approximate longitude 81° 11' 34" West) on the western shoreline of the ICW approximately 2,700 feet north of the Hammock Dunes

Parkway Bridge, north of a line that bears 70° from a point (approximate latitude 29° 34' 21" North, approximate longitude 81° 11' 21" West) on the western shoreline of the ICW approximately 300 feet south of the Hammock Dunes Parkway Bridge, and east of the Palm Harbor Parkway Bridge;

2. Lehigh Canal Area – All waters of Lehigh Canal; and those waters east of the ICW channel south of Red ICW Channel Marker "6" (approximate latitude 29° 30' 50" North, approximate longitude 81° 09' 00" West) and north of a line that bears 70° from a point (approximate latitude 29° 29' 36" North, approximate longitude 81° 08' 32" West) on the western shoreline of the ICW approximately 1,800 feet south of Lehigh Canal, including all waters of the waterbody east of the ICW in the vicinity of Green ICW Channel Marker "13";

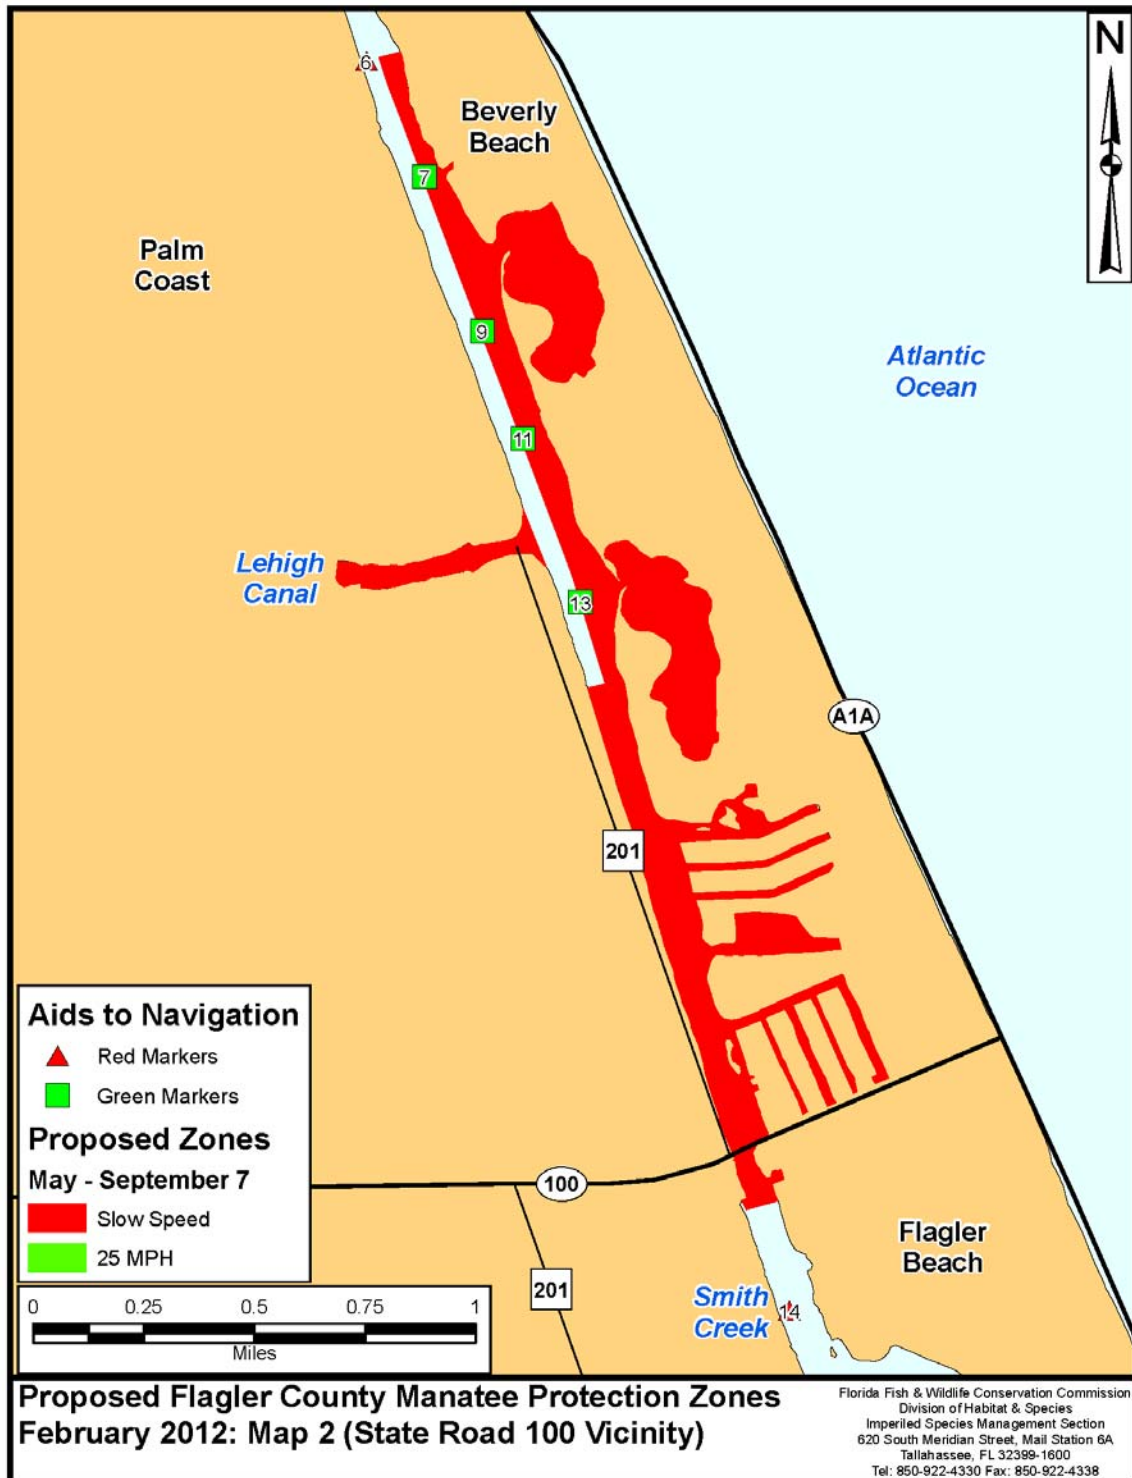

3. State Road 100 Area – All waters, including in the ICW channel, south of a line that bears 70° from a point (approximate latitude 29° 29' 36" North, approximate longitude 81° 08' 32" West) on the western shoreline of the ICW approximately 1,800 feet south of Lehigh Canal and north of a line that bears 70° from a point (approximate latitude 29° 28' 34" North, approximate longitude 81° 08' 12" West) on the western shoreline of the ICW approximately 500 feet south of the SR 100 (Moody Blvd) Bridge; and,

**THE FULL TEXT OF THE PROPOSED RULE IS:**

690-162.203 Adoption of 2001 Commissioners Standard Ordinary (CSO) Preferred Mortality Tables for Determining Reserve Liabilities for Ordinary Life Insurance.

(1) Scope. This rule shall govern mortality tables for use in reserves as set forth in Section 625.121, F.S.

(2) Purpose. The purpose of this rule is to recognize, permit and prescribe the use of mortality tables that reflect differences in mortality between Preferred and Standard lives in determining minimum reserve liabilities in accordance with Section 625.121(5)(a)3., F.S., and subsection 690-164.020(5), F.A.C.

(3) Definitions.

(a) “2001 CSO Mortality Table” means that mortality table, consisting of separate rates of mortality for male and female lives, developed by the American Academy of Actuaries CSO Task Force from the Valuation Basic Mortality Table developed by the Society of Actuaries Individual Life Insurance Valuation Mortality Task Force, and adopted by the NAIC in December 2002. The 2001 CSO Mortality Table is included in the Proceedings of the NAIC (2nd Quarter 2002) and supplemented by the 2001 CSO Preferred Class Structure Mortality Table defined below in Subsection (b). Unless the context indicates otherwise, the “2001 CSO Mortality Table”

includes both the ultimate form of that table and the select and ultimate form of that table and includes both the smoker and nonsmoker mortality tables and the composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality tables. Mortality tables in the 2001 CSO Mortality Table include the following:

1. "2001 CSO Mortality Table (F)" means that mortality table consisting of the rates of mortality for female lives from the 2001 CSO Mortality Table.

2. "2001 CSO Mortality Table (M)" means that mortality table consisting of the rates of mortality for male lives from the 2001 CSO Mortality Table.

3. "Composite mortality tables" means mortality tables with rates of mortality that do not distinguish between smokers and nonsmokers.

4. "Smoker and nonsmoker mortality tables" means mortality tables with separate rates of mortality for smokers and nonsmokers.

(b) "2001 CSO Preferred Class Structure Mortality Table" means mortality tables with separate rates of mortality for Super Preferred Nonsmokers, Preferred Nonsmokers, Residual Standard Nonsmokers, Preferred Smokers, and Residual Standard Smoker splits of the 2001 CSO Nonsmoker and Smoker tables as adopted by the NAIC September 10, 2006, which is available in the NAIC Proceedings (3rd Quarter 2006) which is adopted herein and incorporated by reference. Unless the context indicates otherwise, the "2001 CSO Preferred Class Structure Mortality Table" includes both the ultimate form of that table and the select and ultimate form of that table. It includes both the smoker and nonsmoker mortality tables. It includes both the male and female mortality tables and the gender composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality table.

(c) "Statistical agent" means an entity with proven systems for protecting the confidentiality of individual insured and insurer information; demonstrated resources for and history of ongoing electronic communications and data transfer ensuring data integrity with insurers, which are its members or subscribers; and a history of and means for aggregation of data and accurate promulgation of the experience modifications in a timely manner.

(4) 2001 CSO Preferred Class Structure Table.

(a) At the election of the company, for each calendar year of issue, for any one or more specified plans of insurance and subject to satisfying the conditions stated in this rule, the 2001 CSO Preferred Class Structure Mortality Table may be substituted in place of the 2001 CSO Smoker or Nonsmoker Mortality Table as the minimum valuation standard for policies issued on or after January 1, 2007.

1. On valuation dates beginning with December 31, 2010, for policies issued on or after January 1, 2005 for policies not issued in this state, and on or after June 8, 2005, for policies

issued in this state, and prior to January 1, 2007 wherever issued, these tables may be substituted at the option of the insurer and subject to the conditions of subsection (5), if the Regulatory Asset Adequacy Issues Summary required by rule Chapter 69O-138, F.A.C. includes, if applicable, the impact of the insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods.

2. On valuation dates beginning with December 31, 2010, these tables may be substituted by an insurer not domiciled in this state at its option to value the policies identified in (a)(1), if the insurer provides the office with a statement from the commissioner of its state of domicile that the conditions for substituting these tables required by that state have been met.

(b) No such election shall be made until the company demonstrates at least 20% of the business to be valued on this table is in one or more of the preferred classes.

(c) A table from the 2001 CSO Preferred Class Structure Mortality Table used in place of a 2001 CSO Mortality Table, pursuant to the requirements of this rule, will be treated as part of the 2001 CSO Mortality Table only for purposes of reserve valuation pursuant to the requirements of Rule 69O-162.201, F.A.C., Adoption of 2001 Commissioners Standard Ordinary (CSO) Mortality Tables.

(5) Conditions.

(a) For each plan of insurance with separate rates for Preferred and Standard Nonsmoker lives, an insurer may use the Super Preferred Nonsmoker, Preferred Nonsmoker, and Residual Standard Nonsmoker tables to substitute for the Nonsmoker mortality table found in the 2001 CSO Mortality Table to determine minimum reserves. At the time of election and annually thereafter, except for business valued under the Residual Standard Nonsmoker Table, the appointed actuary shall certify that:

1. The present value of death benefits over the next ten years after the valuation date, using the anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the valuation basic table corresponding to the valuation table being used for that class.

2. The present value of death benefits over the future life of the contracts, using anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the valuation basic table corresponding to the valuation table being used for that class.

(b) For each plan of insurance with separate rates for Preferred and Standard Smoker lives, an insurer may use the Preferred Smoker and Residual Standard Smoker tables to substitute for the Smoker mortality table found in the 2001 CSO Mortality Table to determine minimum reserves. At the

time of election and annually thereafter, for business valued under the Preferred Smoker Table, the appointed actuary shall certify that:

1. The present value of death benefits over the next ten years after the valuation date, using the anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the Preferred Smoker valuation basic table corresponding to the valuation table being used for that class.

2. The present value of death benefits over the future life of the contracts, using anticipated mortality experience without recognition of mortality improvement beyond the valuation date for each class, is less than the present value of death benefits using the Preferred Smoker valuation basic table.

(c) The use of the 2001 CSO Preferred Class Structure Table for the valuation of policies issued prior to January 1, 2007 shall not be permitted in any statutory financial statement in which a company reports, with respect to any policy or portion of a policy coinsured, either of the following:

1. In cases where the mode of payment of the reinsurance premium is less frequent than the mode of payment of the policy premium, a reserve credit that exceeds, by more than the amount specified in this paragraph as Y, the gross reserve calculated before reinsurance. Y is the amount of the gross reinsurance premium that (a) provides coverage for the period from the next policy premium due date to the earlier of the end of the policy year and the next reinsurance premium due date, and (b) would be refunded to the ceding entity upon the termination of the policy.

2.a. PURPOSE AND EFFECT: There is no longer statutory authority for Rules 690-170.101, .103, .105, .107, .109, .111, .113, .115, .117, .119, .121, .123, .126, .127, .129, .131, .133, .135, .137, F.A.C., and therefore this action will completely repeal the rules.

SUMMARY: Section 627.062(6), Florida Statutes, granted insurers the right to arbitrate rate filing disputes with the Office. The section gave the FSC authority to adopt the above referenced rules regarding arbitration of rate filings. Section 627.062(6), Florida Statutes, has been amended to remove the

provision for arbitration. Therefore these rules are no longer relevant, nor does the Office any longer have authority for such rules. Consequently, these rules need to be repealed.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Agency personnel familiar with the subject matter of the rule repeal have performed an economic analysis of the rule repeal that shows that the rule repeal is unlikely to have an adverse impact on the State economy in excess of the criteria established in Section 120.541(2)(a), Florida Statutes.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 37, No. 49, December 9, 2011 issue of the Florida Administrative Weekly.

In response to comments by JAPC staff, the following corrections are made.

1) In the Notice of Proposed Rule (NPR) published on 12-9-11, in the section regarding the SERC and Legislative ratification, the phrase “Knowledge and experience of Department staff” is deleted. A SERC was prepared. The following summary of the SERC is provided: The proposed rule will have a favorable economic impact. No new or increased fees are imposed. The proposed rule will result in pay increases to some funeral director interns, because it will facilitate some interns to work under general rather than direct supervision, thus making them more valuable to their employer. The changes make it easier to obtain a funeral director license in Florida, and will increase the number of persons who are able to pursue and earn a living in a funeral director career. The proposed rule will reduce costs to some applicants for funeral director licensure, and will not increase costs for any applicants. Approximately 75 persons per year, who apply for a funeral director internship, will be affected by the proposed rule.

The rule will allow the photo required to be attached to the person’s license displayed at their place of work, to be up to 6 years old (versus 2 years under the current rule) If a licensee works at more than one location, they can post a photocopy of their license at the 2nd and subsequent locations (they do not need to obtain additional official duplicate licenses from the Division as under the present rules, which additional licenses require payment of a fee). Licensees thus save money and trouble due to less frequently having to replace photos, and not having to obtain extra originals of licenses issued to them.

2) The reference at subsection 69K-21.005(1), F.A.C., to Section 497.604(1), F.S., is changed to refer to Section 497.604(10), F.S.

A SERC was prepared. The following summary of the SERC is provided: This rule will affect schools that offer courses to satisfy educational requirements for funeral director or embalmer licensure. There are 3 Florida schools that will be affected by the rule: Florida State College in Jacksonville; St. Petersburg College; and Miami-Dade College. The cost to the schools to obtain and fill out the form DFS-N1-2041 is estimated at approximately 30

minutes of school staff time. If school staff time is valued at \$50 per hour, the estimated cost is approximately \$25 per school, times 3 schools, equals \$75 aggregate statewide cost to the schools per year. There is no application fee for the schools to apply for course approval. The 3 schools have reviewed the draft rule and offered no objections to same.

2) In paragraph 69K-100.035(5)(a), F.A.C., the reference to form "DFS-N1-" is replaced by "DFS-N1-2041."

## Section IV Emergency Rules

### DEPARTMENT OF REVENUE

#### Corporate, Estate and Intangible Tax

RULE NO.:	RULE TITLE:
12CER12-1	Adjustments for Excess Section 179 Expense and Special Bonus Depreciation

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: Chapter 2011-229, Laws of Florida, authorizes the Department of Revenue to promulgate an emergency rule, and to renew such rule, to implement the provisions of the law. The law provides that conditions necessary for an emergency rule and its renewal have been met. Chapter 2011-229, Laws of Florida, retroactively makes changes related to bonus depreciation and section 179 expense of the Internal Revenue Code (I.R.C.). As a result of these changes, contained in Section 220.13(1)(e), F.S., taxpayers may need to file amended returns. This emergency rule establishes procedures for reporting the additions and claiming the subtractions required by Section 220.13(1)(e), F.S., and provides procedures for filing amended Florida corporate income tax return(s).

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: The Legislature expressly authorized the promulgation of an emergency rule, and the renewal of such rule, to implement Chapter 2011-229, Laws of Florida, and determined that all conditions necessary for this emergency rule have been met. The law is retroactive, and as a result, some taxpayers need to amend their Florida corporate income tax return(s) if a return(s) affected by these changes was previously filed. This emergency rule establishes procedures for reporting additions and claiming the subtractions required by Section 220.13(1)(e), F.S., so that taxpayers may timely file the required amended returns.

SUMMARY: Emergency Rule 12CER12-01, (Adjustments for Excess Section 179 Expense and Special Bonus Depreciation), provides procedures for taxpayers subject to the adjustments contained in Section 220.13(1)(e), F.S., for I.R.C. section 179 expense in excess of: \$250,000 (for tax years beginning in 2010) and \$128,000 (for tax years beginning in 2011) and bonus depreciation under I.R.C. sections 167 and 168(k). This

emergency rule: (1) provides the additions that taxpayers are required to add back to the amount of the federal deduction claimed under I.R.C. sections 167 and 168(k) for bonus depreciation and under I.R.C. section 179 that exceeds: \$250,000 (for tax years beginning in 2010) and \$128,000 (for tax years beginning in 2011); (2) provides the subtractions that are available in each of seven tax years beginning with the year an addition is made under Section 220.13(1)(e), F.S.; (3) requires taxpayers to maintain a schedule reflecting all adjustments made under Section 220.13(1)(e), F.S.; (4) provides that these adjustments do not affect the basis of the property; and (5) provides when the subtractions under Section 220.13(1)(e), F.S., and when the deductions allowed under I.R.C. section 179 are not required to be included in a taxpayer's Florida corporate income tax return.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Robert DuCasse, Revenue Program Administrator I, Technical Assistance and Dispute Resolution, Department of Revenue, P. O. Box 7443, Tallahassee, Florida 32314-7443, telephone (850)717-6476

(b) Taxpayers are required to add back the amount of the federal deduction claimed as bonus depreciation under IRC sections 167 and 168(k) for assets placed in service after December 31, 2009, and before January 1, 2013.

(3) Subtractions Allowed:

(a) In each of the seven tax years commencing with the year the addition is made under Section 220.13(1)(e), F.S., taxpayers may subtract one-seventh of the amount of excess IRC section 179 expense and one-seventh of the amount of bonus depreciation that is added back under Section 220.13(1)(e), F.S.

(b) The total amount that may be subtracted over the seven-year period should equal, but may not exceed, the amounts of IRC section 179 expense and bonus depreciation that have been added back to Florida taxable income under Section 220.13(1)(e), F.S.

(c) Subtractions may be transferred to the surviving company in a merger or acquisition. Otherwise, if a taxpayer ceases to do business during the seven-year period, it may not accelerate, transfer or otherwise utilize a subtraction.

(4) A schedule reflecting all of the adjustments made under Section 220.13(1)(e), F.S., must be created and maintained. Taxpayers must also report any additions on Schedule I, Additions and/or Adjustments to Federal Taxable Income, of the Florida Corporate Income/Franchise and Emergency Tax Return (Form F-1120, incorporated by reference in Rule 12C-1.051, F.A.C.) and any subtractions on Schedule II, Subtractions from Federal Taxable Income, of the return for the applicable tax year. Partnerships filing a Florida Partnership Information Return (Form F-1065, incorporated by reference in Rule 12C-1.051, F.A.C.) are required to make the adjustments required by Section 220.13(1)(e), F.S., on Part I of Form F-1065.

(5) Basis of Property: The adjustments required by Section 220.13(1)(e)1. and 2., F.S., (relating to excess IRC section 179 expense and bonus depreciation), do not affect the basis of the underlying property. The basis of the property for Florida corporate income tax purposes is the same as the basis of the property for federal income tax purposes. If the property is sold or otherwise disposed of, the gain or loss for Florida corporate income tax purposes is the same as the gain or loss for federal income tax purposes and is included in federal taxable income apportioned to Florida. Differences in the apportionment fraction from one year to the next are disregarded. The applicable depreciation conventions, methods, and recovery periods are computed in the same manner as they are computed in determining federal taxable income.

(6) Amended Returns and Section 220.13(1)(e), F.S. Taxpayers that filed their Florida corporate income tax returns in a manner inconsistent with these changes in law are required to amend their Florida corporate income tax return(s) to conform to the new law. To the extent that any tax is due and paid on an amended return(s) as a result of these changes in law for the differences between the additions and subtractions required by Section 220.13(1)(e), F.S., and the adjustments required by Section 220.13(1)(e), F.S., reasonable cause exists under rule 12-13.007, F.A.C., for a waiver of the resulting

penalty. The provisions of this rule do not relieve a taxpayer of its obligation to file a Florida corporate income tax return and report the adjustments required by Section 220.13(1)(e), F.S.

(7) The subtractions allowed by Section 220.13(1)(e), F.S., are the means by which the additions required by Section 220.13(1)(e), F.S., are reconciled and recovered. If a taxpayer does not claim a deduction for bonus depreciation or a deduction for IRC section 179 expense in excess of \$250,000 (for tax years beginning in 2010) and \$128,000 (for tax years beginning in 2011), no add-back is required or subtraction allowed for Florida corporate income tax purposes. Similarly, if a taxpayer did not add back bonus depreciation or excess section 179 expense because, for example, it was not subject to the Florida corporate income tax in that year, no subtraction is allowed for Florida corporate income tax purposes.

(8) Bonus depreciation claimed for assets placed in service after December 31, 2012, is not required to be added back under Section 220.13(1)(e), F.S. IRC section 179 expense claimed in tax years beginning after December 31, 2012, is not required to be added back. No subtraction is allowed for bonus depreciation or IRC section 179 expense unless it has been added back in computing Florida taxable income under Section 220.13(1)(e), F.S.

## Section V Petitions and Dispositions Regarding Rule Variance or Waiver

### DEPARTMENT OF LAW ENFORCEMENT

NOTICE IS HEREBY GIVEN that on January 17, 2012, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from Center Hill Police Department on behalf of one officer for the 2008 (7/1/2006 – 6/30/2008) and 2010 (7/1/2008 – 6/30/2010) mandatory firearms requalification reporting cycles. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule and supervised by a CJSTC-certified firearms instructor. The petition supports the requested waiver by stating that the officer at issue completed the course of fire for the 2008 and 2010 reporting cycles, however, he was a CJSTC-certified firearms instructor and he signed his own CJSTC 86A form. Petitioner states that the officer will suffer a substantial hardship if his certification is rendered inactive as a result of this situation. Petitioner further states that it would

violate the principles of fairness to fail to recognize that the officer did successfully complete the requirement, his only deficiency being that as a CJSTC-certified firearms instructor, he signed his own CJSTC 86A form for the 2008 and 2010 mandatory firearms requalification reporting cycle.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

NOTICE IS HEREBY GIVEN that on January 20, 2012, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from the Office of the State Attorney, Fifteenth Judicial Circuit, on behalf of one officer for the 2010 (7/1/2008 – 6/30/2010) mandatory firearms requalification reporting periods. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule and supervised by a CJSTC-certified firearms instructor. The petition supports the requested waiver by stating that the officer at issue was hired straight from the academy on January 22, 2009. Petitioner erroneously believed that the officer’s firearms training course at the academy was the same as mandatory firearms requalification. Petitioner affirms that the officer was successfully requalified for the 2012 mandatory firearms requalification reporting cycle by a CJSTC-certified firearms instructor. Petitioner states that the officer will suffer a substantial hardship if his certification is rendered inactive as a result of this situation. Petitioner further states that it would violate the principles of fairness to fail to recognize that the officer was a new hire in 2009 and that he did, in fact, shoot the mandatory firearms requalification course of fire for the 2012 reporting cycle.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

NOTICE IS HEREBY GIVEN that on January 18, 2012, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from Sea Ranch Lakes Police Department on behalf of 19 officers for the 2008 (7/1/2006 – 6/30/2008) and 2010 (7/1/2008 – 6/30/2010) mandatory firearms requalification reporting periods. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule and supervised by a CJSTC-certified firearms instructor. The petition supports the requested waiver by stating that the officers at issue did complete the physical aspects of the rule, however, the CJSTC 86A forms for the officers are not in the officers’ files. Petitioner states that the

officers will suffer a substantial hardship if their certifications are rendered inactive as a result of this situation. Petitioner further states that it would violate the principles of fairness to fail to recognize that the officers did in fact comply with the physical aspects of the rule.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

NOTICE IS HEREBY GIVEN that on January 18, 2012, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from Village of North Palm Beach Police Department on behalf of 38 officers for the 2008 (7/1/2006 – 6/30/2008) and 2010 (7/1/2008 – 6/30/2010) mandatory firearms requalification reporting cycles. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule and supervised by a CJSTC-certified firearms instructor. The petition supports the requested waiver by stating that the officers at issue did successfully complete the course of fire, however, the instructors who signed their CJSTC 86A forms were not CJSTC-certified firearms instructors. Petitioner states that the officers will suffer a substantial hardship if their certifications are rendered inactive as a result of this situation. Petitioner further states that it would violate the principles of fairness to fail to recognize that the officers did successfully complete the requirement simply because their CJSTC 86A forms were signed by non-CJSTC-certified firearms instructors for the 2008 and 2010 mandatory firearms requalification cycles.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

NOTICE IS HEREBY GIVEN that on January 20, 2012, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from Webster Police Department on behalf of one officer, Danny L. Young, for the 2008 (7/1/2006 – 6/30/2008) mandatory firearms requalification reporting cycle. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule and supervised by a CJSTC-certified firearms instructor. The petition supports the requested waiver by stating that Officer Young did indeed fire the required rounds, however he was supervised and his CJSTC 86A form was signed by an inactive CJSTC firearms instructor. Petitioner further states that it would violate the principles of fairness to fail to recognize that Officer Young did actually complete the physical requirements of the rule.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

The Order for this Petition was signed on January 19, 2012, and after a complete review of the variance request, the Division finds that the application of this rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring that each pan within the steam table is properly covered with an individual lid; the steam table is enclosed within a cabinet with tight-fitting doors, and is protected by an air curtain installed and operated according to the manufacturer's specifications that protects against flying vermin or other environmental contaminants; all steam table foods must be properly reheated for hot holding at approved commissaries and held hot at the proper minimum temperature per the parameters of the currently adopted FDA Food Code; steam table food is to be dispensed by the operator with no customer self-service. The Petitioner shall also strictly adhere to the operating procedures and copies of the variance and operating procedures are to be present on the MFDV during all periods of operation.

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

The **Department of Environmental Protection** announces a public meeting to which all persons are invited.

DATE AND TIME: February 16, 2012, 9:00 a.m.

PLACE: 3900 Commonwealth Blvd., Douglas Building, Conference Room A, Tallahassee, FL

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Department will brief the Environmental Regulation Commission (ERC) on the status of the proposed revisions to Chapter 62-302 (Surface Water Quality Standards) F.A.C. and Chapter 62-303 (Identification of Impaired Surface Waters), F.A.C., which were approved for adoption by the ERC on December 8, 2011. These rule revisions propose numeric nutrient criteria for lakes, flowing waters (streams), springs, and estuary specific criteria for several Florida estuaries.

The Department will also seek approval from the Commission for proposed amendments to Chapter 62-701, F.A.C., which contains regulations for a wide variety of solid waste facilities including landfills, construction and demolition debris disposal facilities and waste processing facilities. A number of simplifying changes are being proposed to the chapter with the goals of continuing environmental protection but also: (1) reducing unnecessary regulations; (2) reducing costs to the regulated community; (3) clarifying existing regulations; and (4) conforming the chapter to recent statutory changes. These measures will result in a significant savings to the regulated community while continuing to provide environmental protection.

The Department will also seek approval from the Commission for adoption of its proposed revisions to Rules 62-210.200, 62-212.300, 62-212.400, F.A.C., to establish PM2.5 as an air pollutant with a significant emissions rate, thereby making industrial facilities that would potentially increase their emissions of PM2.5 or its precursors by a significant amount subject to major source preconstruction review. The proposed amendments are consistent with federal regulation, policy, and guidance, and they do not impose any requirements beyond or in addition to the minimum federal program. The Department will also bring before the ERC its proposal to repeal Rule 62-296.341, F.A.C., to eliminate an unnecessary permitting requirement that was initially promulgated to satisfy federal regional haze regulations, but was later rejected by the U.S. Environmental Protection Agency as a means to satisfy such regulations. The rule section is no longer necessary to serve its original purpose.

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

The Department of Environmental Protection gives notice of its intent to grant a variance under Section 403.201, F.S., from the provisions of paragraph 62-4.242(2)(a)2.b., F.A.C., to the U.S. Army Corps of Engineers, variance number 0205043-014-BV, to allow a maximum turbidity level of 29 nephelometric turbidity units (NTUs) above background level at the edge of the approved 150 meter mixing zone in disposal sites 1, 2 and 2.1, allow a maximum turbidity level of 22 NTUs above background level at the edge of the dredge channel in the Apalachicola Bay Aquatic Preserve, an Outstanding Florida Water. The proposed variance is in association with the U.S. Army Corps of Engineers' permit to dredge the navigation channel in the Gulf Intercoastal Waterway, permit number 3, 17, 19, 23, 46, 57 and 66-184985-9. The Department's file on this matter is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the

Department of Environmental Protection, Bureau of Beaches and Coastal Systems, 4708 Capital Circle N.W., Tallahassee, Florida 32303, (850)413-7785.

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000.

Mediation under Section 120.573, F.S. is not available.

Because the administrative hearing process is designed to redetermine final agency action on the application, the filing of a petition for an administrative hearing may result in a modification of the agency action or even a denial of the application. If a sufficient petition for an administrative hearing or request for an extension of time to file a petition is timely filed, this agency action automatically becomes only proposed agency action on the application, subject to the result of the administrative review process. Accordingly, the applicant is advised not to commence construction or other activities in accordance with this variance until the deadlines noted below for filing a petition for an administrative hearing, or request for an extension of time has expired.

Under subsections 28-106.111(3) and 62-110.106(4), F.A.C., a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

In the event that a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Any intervention will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

In accordance with subsections 28-106.111(2) and 62-110.106(3)(a), (4), F.A.C., petitions for an administrative hearing by the applicant must be filed within 14 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of the notice or within 14 days of receipt of the written notice, whichever occurs first.

Under Section 120.60(3), F.S., however, any person who has asked the Department for notice of agency action may file a petition within 14 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination; (c) A statement of when and how the petitioner received notice of the agency decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action; and (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action; (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Under Sections 120.569(2)(c) and (d), F.S., a petition for

administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This action is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above. Upon the timely filing of a petition this order will not be effective until further order of the Department.

This variance constitutes an order of the Department. The applicant has the right to seek judicial review of the order under Section 120.68, Florida Statutes, by the filing of a notice of appeal under Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000 and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the final order is filed with the Clerk of the Department.
