 NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 44 No. 74, April 16, 2018 issue of the Florida Administrative Register.

PURPOSE AND EFFECT: The Board proposes the rule amendment to clarify disciplinary guidelines.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly

regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency. The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, and the substance of the rule amendment, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary because the rule does not impose additional rights, obligations, or duties on any persons or any businesses, and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

STATE BOARD OF ADMINISTRATION

Estimated Capacity

NOTICE IS HEREBY GIVEN by the State Board of Administration of Florida (the “Board”) of the estimated borrowing capacity, estimated claims-paying capacity, and projected balance of the Florida Hurricane Catastrophe Fund (the “Fund”) as of December 31, 2018, in compliance with the requirements of subparagraph 215.555(4)(c)2., Florida Statutes. These estimates relate to the 2018-2019 Reimbursement Contract Year. For May 2018, based on an estimated borrowing capacity of \$8.2 billion, \$14.1 billion projected year-end cash balance, and projected \$1.0 billion of reinsurance, the Fund’s total estimated claims-paying capacity over the next 12 months is \$23.3 billion, which amount exceeds the \$17 billion limit on the Fund’s single-season obligations as specified by subparagraph 215.555(4)(c)1., Florida Statutes, for the contract year. The borrowing capacity estimate is dependent on many factors, such as the credit rating of the debt, the amount of emergency assessments available for funding the debt, the limitations or constraints of the financial markets to absorb potential debt issuances, the time necessary to access such markets, and the existing level of interest rates at the time of issuance. The projected year-end balance available for reimbursement of participating insurers on December 31, 2018, is estimated to be \$14.1 billion, which represents the amount of assets available to pay claims resulting from Covered Events which may occur during the June 1, 2018 through May 31, 2019 Contract Year, not including any bond proceeds. The estimated claims-paying capacity consists of the estimated borrowing capacity, the projected year-end cash balance, and reinsurance. Additional liquidity is provided by \$2.2 billion of proceeds from the outstanding Series 2013A and Series 2016A pre-event bonds. Greater detail may be obtained in the May 17, 2018 Claims-Paying Capacity Estimates Report, which can be found on the Fund’s website at www.sbafla.com/fhcf/ under “Bonding Program.” The Board recognizes that its good faith estimates are being made while volatile global financial market

conditions exist, and therefore, changing market conditions can dramatically impact the Fund’s actual claims-paying capacity either positively or negatively. Current conditions may or may not be the same if and when the Board determines that it is necessary to issue revenue bonds. Participating insurers who rely on these estimates should recognize the potential impact the financial market can have on the Board’s claims-paying ability and plan accordingly.
