Section II Proposed Rules

**COMMISSION FOR THE TRANSPORTATION
DISADVANTAGED**

RULE NO.: **RULE TITLE:**
41-2.014 Grants Program

PURPOSE AND EFFECT: The purpose of the amendment is to update the rule language and clarify definitions.

SUMMARY: Update rule language.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is

required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 427.013(9), 427.013(10) FS.
LAW IMPLEMENTED: 427.013, 427.0159, 427.016 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE FULL TEXT OF THE PROPOSED RULE IS:

41-2.014 Grants Program.

(1) through (3) No change.

(4) Distribution of Grant Funds. ~~On or about December 15 of Each year, the Commission shall allocate a portion identified as the Grants Program of the Transportation Disadvantaged Trust Fund in the following manner:~~

(a) through (c) No change.

(5) Distribution of Trip and Equipment Related Grant Funds. Each eligible applicant's allocation will be determined for the county or counties within the designated service area for which the applicant provides coordinated transportation disadvantaged services.

~~(a) In order to maintain system and service stability, the Commission's Fiscal Year 99/00 Allocation of Trip and Equipment Grant Funds, dated 02/99, incorporated herein by reference, shall be the base allocation for each subsequent year's distribution for trip and equipment related grant funds. No county shall receive less than the base allocation unless the Commission's five year cash flow forecast falls below the Fiscal Year 99/00 levels allocated to the trip and equipment grant related program.~~

~~(b) If the level of funding available for distribution to the trip and equipment grant program falls below the base as stated in paragraph 41-2.014(5)(a), F.A.C., a proportionate adjustment to the base allocation will be made. Such adjustment will be based on the five year cash flow forecast of the Commission,~~

~~and each county's share of the Fiscal Year 99/00 trip and equipment-related grant allocation.~~

~~(a)(e) Allocation of additional trip and equipment grant funds above the amount used in the base allocation will be allocated to eligible applicants shall be based on a comparative ranking of all eligible applicants in each of the following four categories:~~

~~1. The county's total transportation disadvantaged eligible population as a percentage of the state's total transportation disadvantaged eligible population, based on the U.S. Census Bureau American Community Survey 5-Year Population Estimates, applicant's total county area in square miles as a percentage of the total square miles of all eligible applicants.~~

~~2. The county's total centerline miles of public roads as a percentage of the state's total centerline miles of public roads, based on public mileage data reported by the Federal Highway Administration. Total system passenger trips provided as a percentage of all eligible applicant trips reported.~~

~~3. The county's total transportation disadvantaged services provided by trip and equipment grant funds as a percentage of the state's total transportation disadvantaged services provided by trip and equipment grant funds, as reported on the invoices submitted by applicants for reimbursement under the trip and equipment grant program. Total system vehicle miles traveled as a percentage of all eligible applicants vehicle miles traveled and reported.~~

~~4. The county's total allocated amount of trip and equipment grant funds as a percentage of the state's total allocated amount of trip and equipment grant funds, based on allocated amounts from the previous fiscal year. Total county population as a percentage of the total population of all eligible applicants.~~

~~(b)(d) For the 2021-2022 fiscal year, each category shall represent the following percentages of the state's total allocated amount for the trip and equipment grant program: Each category will represent one fourth of the trip-related grant funds.~~

~~1. 2.5% based on the state's total transportation disadvantaged eligible population.~~

~~2. 2.5% based on the state's total centerline miles of public roads.~~

~~3. 1.5% based on the state's total transportation disadvantaged services provided by trip and equipment grant funds.~~

~~4. 80% based on the state's total allocated amount from the 2020-2021 fiscal year.~~

~~(c) For the 2022-2023 fiscal year and each fiscal year thereafter, each category shall represent the following percentages of the state's total allocated amount for the trip and equipment grant program:~~

1. 5% based on the state's total transportation disadvantaged eligible population.

2. 5% based on the state's total centerline miles of public roads.

3. 5% based on the state's total transportation disadvantaged services provided by trip and equipment grant funds.

4. 60% based on the state's total allocated amount from the previous fiscal year.

(d) The Commission, in calculating allocated amounts, shall weigh each dataset described in subsection (5)(a) as follows:

1. Every person identified within the state's transportation disadvantaged population shall be weighted equally.

2. Every centerline mile of the state's public roads shall be weighted equally.

3. Each trip and mile provided by trip and equipment grant funds shall be weighted relative to the unit cost at which they are reimbursed. Each bus pass purchased with trip and equipment grant funds shall be weighted higher than the unit cost at which they are reimbursed in order to incentivize their use in service areas where a fixed-route system is available.

(e) Fund allocations pursuant to subparagraph (5)(a) of this rule shall be administered each fiscal year based on available data from the previous year or applicable period as determined by the Commission. The latest required operational statistics report which is submitted by September 15 of each year will be used for obtaining the applicant's coordinated vehicle miles and coordinated passenger trips data. For purpose of this section, coordinated vehicle miles or passenger trips shall not include those services provided through an approved transportation alternative.

(6) through (7) No change.

(8) All grant applicants will provide their request for funds to the Commission no later than October 1 each year, unless otherwise approved by the Commission.

(9) No change.

PURPOSE AND EFFECT: The Board proposes a rule amendment to correct a grammatical error to define the word “minority person” as defined in section 288.703(4), F.S.

SUMMARY: The proposed rule amendment will update the rule language.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

DEPARTMENT OF EDUCATION
 University of Florida
 Advertisement for Design/Build Services
NOTICE TO DESIGN/BUILD FIRMS:
 The University of Florida Board of Trustees announces that Design/Build services will be required for the project listed below:
 Project: UF-668, Racquet Club Dining Renovations (UF Main Campus)
 UF Business Services is proposing to renovate and repurpose the existing Racquet Club retail dining location into a residential dining location, to meet current and future student demand. The new concept will feature all you care to eat areas with fully customizable and made to order restaurant style food platforms that both differentiates itself from and also compliments our two existing residential dining locations.
 The project consists of a complete interior renovation of the existing dining area, including but not limited to – flooring, walls, ceilings, finishes, revised Plumbing - including review of existing grease trap location, assessment of all Mechanical and Electrical equipment supporting new area fixtures, furnishings & equipment; specific mention is made to the following kitchen equipment – replacement of both main exhaust hoods, walk-in

cooler/freezers x 3 and existing dishwasher. In addition, a review of ADA compliance in existing restrooms will be required. A new secure communications room is to be designed to accommodate the required functions of the building systems. All existing furnishing will be removed by the user and replaced with new, as part of this program. This project will be a joint venture with the Aramark group. It should be noted that Tipton & Associates has been hired as the Kitchen Consultant under Aramark.

The total project budget is \$5,800,000, including fees, surveys & tests, total building commissioning, furnishings & equipment, and contingencies. Design & Construction shall be "fast-tracked" to begin by January 2021. Gold LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is mandatory.

The contract for design/build services will consist of two parts. Part one services include design, construction administration, value engineering, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) proposal based on 100% Construction Documents, for which the design/building will be paid a fixed fee.

If the GMP is accepted, part two, the construction phase, will be implemented. In part two of the contract, the design/building becomes the single point of responsibility for completion of the construction documents, performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for part one of the contract, or to arrive at an acceptable GMP within the time provided in the agreement may result in the termination of the design/building's contract.

Blanket design professional liability insurance will be required from the architect, mechanical, electrical, plumbing, and fire protection, consultants for this project and will be provided as a part of Basic Services. The selected applicant will also be required to provide insurance coverage for General Liability, Automotive Liability, Workers' Compensation, and Builder's Risk.

Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design and construction ability, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida and the

applicant or its architectural, landscape architectural, and engineering consultants must possess current design licenses from the appropriate governing board and be properly registered to practice its profession in the State of Florida. If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida.

Applicants desiring to provide design/build services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be prepared as specified in the DBQS Instructions and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.
3. A completed, project-specific "Design/Builder Qualifications Supplement" (DBQS) proposal. Applications on any other form will not be considered.
4. Resumes, LEED accreditation, and other pertinent credentials for all proposed staff (applicant and consultants).
5. Proof of the applicant's corporate status in Florida (if applicable) and copies of current licenses for all construction, architectural, landscape architectural, and engineering entities (applicant firm and consulting firms) from the appropriate governing board.
6. Proof of bonding capacity and proof of design consultants' (architecture and engineering) ability to be insured for the level of professional liability coverage demanded for this project.

As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected design/building must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Incomplete proposals will be disqualified. Submittal materials will not be returned.

Additional information to assist the applicant in preparing a complete proposal – including the project-specific DBQS forms, instructions, Project Fact Sheet, facilities program, UF Design and Commissioning Services Guide, UF Design and Construction Standards, standard University of Florida Owner-Design/Builder agreement, and other project and process information – can be found on the Planning Design & Construction website.

Finalists may be provided with supplemental interview requirements and criteria as needed.

Provide the number of copies prescribed in the Project Fact Sheet. Submittals must be received in the Planning, Design & Construction office by 3:00 p.m. local time on Friday, December 4, 2020. Facsimile (FAX) submittals are not acceptable and will not be considered.

SECTION 01010

SUMMARY OF WORK

STATE PROJECT NO.: DCF – 21030300

PART 1 – GENERAL

1.1 SUMMARY

The project overall scope of work is to replace the facility overhead multi-mode fiber with underground single-mode fiber at Northeast Florida State Hospital (NEFSH).

Scope of work required: Install new 6-strand single-mode fiber to 50 buildings in existing underground conduit, where available.

A. The Florida Department of Children and Families (DCF) (Owners), Office of General Services, in conjunction with Northeast Florida State Hospital Maintenance will provide construction administration for this project.

B. All work will be completed at the Northeast Florida State Hospital located at, 7487 South State Road 121, Macclenny, Florida, 32211

Instructions to bidders.

1. Prospective bidders can request a copy of the bid documents by emailing Jimmie.Padgett@myflfamilies.com.

2. The bid must be submitted in triplicate in a sealed envelope, clearly marked on its face "SEALED BID PROJECT NO. DCF-21030300, NEFSH Fire Alarm Fiber Replacement."

3. The Exhibits that must be completed are # 1, 2, 4, 6, 7 & 8. If a bidder does not complete these exhibits, then the bid will be considered non-responsive and not accepted. Exhibits # 9 and # 10 are not required. Exhibit # 3 is the contract. Exhibit # 11 - # 13 will be used after the contract is awarded.

4. All communication must be in writing to the contact person listed in the Invitation to Bid.

Project scope of work:

1. Install a 6-strand of G.625.D single-mode fiber to 50 buildings to be used for fire alarm control panels.

2. All installed fiber will need to be tested and the results from each strand should be provided to the customer in both a printed binder and a PDF file.

3. A fiber termination can (fiber termination box) will need to be provided and installed near the fire panel. To protect the fiber, metal conduit will need to be provided both between the in-ceiling innerduct and the can *and* between the can and the fire panel.

4. All fiber terminations will be clearly labeled to include the building that it terminates in and a numerical fiber designation (e.g. 07-01 through 07-06, 32-01 through 32-06, etc.)

5. All pigtailed and fusion splicing will be included in the bid.

6. After the mandatory pre-bid meeting, each contractor must look at each building location before bidding the project.

7. Fiber will enter the building in the existing conduit and terminate into the existing IDF for that building. Once terminated, innerduct conduit should be used between the IDF and the fire alarm termination location in each building.

8. There should be a service loop at the MDF, the IDF, and inside the fiber can at the fire alarm panel. The can loop should be at least 24 inches long.

9. Site coordination must be planned in advance with local Maintenance or Information Technology staff.

10. Any installed handholds, pull boxes, or service loops must meet BICSI standards.

11. Any splicing performed outside of the IDF or MDF must be fusion-spliced and protected from the elements per industry standards.

12. Where new conduit is needed, it must be at least 2 inches in inside diameter, be installed underground at 36 inches with a copper trace line, have a spare pull line installed, and not exceed 60% fill. Contractor verifies.

13. There are two buildings without existing underground conduit to build # 27 and # 119. These buildings will require new underground conduit.

14. At any point where installing new fiber would fill the conduit beyond 75% fill, new conduit must be installed.

15. All single-mode fiber should be terminated using MT-RJ connections at both the MDF and the IDF.

16. All MDF, IDF, and fire panel terminations will need to be placed in a vendor-supplied termination canister utilizing the highest density possible to consume the least amount of rack or wall space and still allow for the required service loops.

17. All fiber will terminate in building 3. Building site plans and current underground fiber conduit locations will be given out at the mandatory pre-bid meeting.

18. Three 1-meter MT-RJ to MT-RJ single-mode fiber optic patch cables should be provided for every IDF termination location and three 1-meter MT-RJ to ST single-mode fiber optic patch cables should be provided for every fire panel termination location.

19. All work must be completed within 100 days of the notice to proceed.

20. An as-built drawing of both internal and external fiber locations will need to be provided at the end of the project.

21. The successful vendors will be responsible for performing, scheduling, and requesting all required permits and licenses at no expense to the Department.

22. Contractor is responsible for their own locate services. Free locate will not perform services on State property.

23. Each bidder must have five years of experience installing fiber-optic cabling.

24. If, during the installation of new cabling, there are any damages to the existing fiber-optic infrastructure, the vendor must be prepared to immediately perform repairs.

25. Each day, all contractors will need to provide negative COVID-19 tests within a rolling 14 days during the period that they work at the facility. Daily screenings, including temperature testing, will be performed each time a contractor comes onto the facility.

26. Additional maps and documents will be provided at the Mandatory bid conference.

27. Put in a \$ 20,000.00 dollar budget number to repair / replace or address and unforeseen issues that were not accounted for or know at this time. After the unforeseen issue is discovered, DCF will request a detailed cost quote to repair or replace the additional work (including OH&P). DCF will review the detailed proposal with the cost break down to determine if the quote is acceptable. If the additional work is needed and DCF and the contractor cannot agree on the cost, then DCF will direct the contractor to do the work on time and material. This time and material will be signed off by a NEFSH facility maintenance staff member for verification. If the money is not allocated for any work, then the \$ 20,000 dollars or portion of the \$ 20,000 that is not spent will not be billed in the contract. Show the \$ 20,000 dollars in schedule of values.

28. January 7, 2021, 12:00 Noon Eastern Time will be the cut off for question and answers.

29. Provide an alternate price to remove the old overhead fiber after the job has been completed. This could be up to a year after the project is completed that the facility would be ready for the fiber to be removed.

FLORIDA LIFE & HEALTH INSURANCE GUARANTY ASSOCIATION

FLAHIGA - Finance, Accounting and Other Operational Services

1. In your RFP dated November 2, 2020, the General Information Section item #2 states, in order to be considered for this RFP, respondents must have at least five years of experience in calculating assessments for an entity which issue assessments substantially similar to the assessment process outlined in Section 631.718, Fla. Stat. Could you clarify if this experience is permissible to include calculation of assessments for entities being assessed, or through experience in auditing insurance companies who issue assessments?

ANSWER: The selection committee and the Board have not made a determination on this, and will review submissions after the required submission date, and will make a determination thereafter.

2. The FLAHIGA website at “flahiga.org/Receiverships” list insurance companies insolvencies for which FLAHIGA has been activated to provide protection to Florida policyholders. Would providing or previously providing audit, tax, or

accounting advisory services to any insurance company listed therein create a conflict of interest which would preclude us from participating in your RFP?

ANSWER: The selection committee and the Board have not reviewed this issue. Before entering into a contract with the winning respondent, the selection committee and the Board will review any such conflict and make a determination on the merits at that time. We request all respondents to point out any conflicts and the nature of the work performed in their RFP response.

3. Would you be able to include the anticipated start date should we be awarded the contract?

ANSWER: January 15, 2021.
