RULE NO.: **RULE TITLE:**
 64B20-7.001 Disciplinary Guidelines
PURPOSE AND EFFECT: In accordance with 2020-76 Laws of Florida, a new violation with penalty ranges is added to the disciplinary guidelines concerning improper assignment of emotional support animals.
SUMMARY: To update rule language regarding disciplinary guidelines.
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:
 The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.
 The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.
 Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: RULE TITLE:

61C-1.004 General Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice: On August 3, 2021 the Division of Hotels and Restaurants received a Petition for a Routine Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code and Paragraph 5-202.11(A), 2017 FDA Food Code from BROSS PLANET LLC located in Mount Dora. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and wastewater. They are requesting to utilize holding tanks to provide potable water and to collect wastewater at the handwash sink.

The Petition for this variance was published in Vol. 47/150 on August 4, 2021. The Order for this Petition was signed and approved on August 24, 2021. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tank for the handwash sink is emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the handwash sinks are provided with hot and cold running water under pressure, soap, an approved hand drying device and a handwashing sign.

FIU-BT-931 REMODELING/RENOVATION OF CASE Building-A/E

NOTICE TO ARCHITECT/ENGINEERS – BT-931 REMODELING/RENOVATION OF CASE BUILDING

The Florida International University Board of Trustees announces that services in the discipline of Architecture/Engineering are required for the project identified below:

Project Name and Number: REMODELING/RENOVATION OF CASE Building, BT-931

Project Location: Modesto A. Maidique Campus (MMC), Miami, Florida

Project Description: The new building will include the following: The 30-year-old 61,783 square foot Computing, Arts, Science and Education (CASE) building consists of 7 classrooms, 7 teaching labs, 61 research labs and 144 offices.

Recent assessment reports indicate that repair and replacement of deteriorated building enclosure components, windows, doors, and louvers are critically needed. Replacement of the deteriorating central air conditioning system is crucial in order maintain a healthy indoor environment and control energy costs. Replacement of the building’s emergency generator system is required so that telecommunications equipment housed in the CASE building and feeding the nearby University Police and Emergency Operation Center can be maintained during and after a hurricane.

On May 1, 2018, building envelope specialists conducted an on-site interior and exterior assessment of the building envelope. The assessment included a thorough visual inspection, as well as infrared thermography by a Level 1 certified Thermographer, to evaluate and determine pathways of both water and air across/through the various envelopes’ barriers. Additional evaluations were done to assess energy loss and moisture issues inside the building.

In addition to the on-site inspection, the specialists reviewed building construction and building performance issues with facility management to understand current conditions and priority needs. An analysis of historical energy costs was also completed to determine how the condition of the building envelope affected energy consumption. Potential financial saving projections associated with air sealing to assess the project’s potential economic benefit were also undertaken.

The visual inspection of the exterior surfaces found many opportunities to improve the exterior building envelope’s

ability to reduce water infiltration. Panel joint caulking, window glazing and perimeter caulking, sealing of butt joints, exterior painting, sealing soffit vents caulking fluted panel perimeters, application of penetrating sealer to pre-cast and brick surfaces, as well as exterior metal painting are all required to keep moisture out.

On-site testing and analysis of the historical energy consumption also indicated additional opportunities to improve the interior air quality, occupant comfort and energy use through decrease permeability of the building air barrier systems. The inspection of the building revealed gaps, cracks and holes in the building envelope totaling 19.5 SF.

Complete project information including construction and total project budget, project schedule, project site, and project delivery method can be found in the approved building program posted on the project website <http://facilities.fiu.edu/projects/BT-931.htm>.

On June 23, 2021, the Florida Land and Water Adjudicatory Commission (“FLWAC” or “Commission”) received a petition to amend the boundaries of the Tomoka Community Development District (“the District”). The Commission will follow the requirements of Chapter 42-1, F.A.C., and Chapter 190, F.S., as amended, in considering the petition.

SUMMARY OF CONTENTS OF PETITION: The petition requests amendment to correct a scrivener’s error in the existing legal description and to add two expansion parcels to the District’s boundaries. The expansion parcels consist of a total of approximately 80 acres of land. The District currently consists of approximately 1,968 acres of land located within the Flagler County, Florida. After expansion, the District will encompass a total of approximately 2,048 acres.

SUMMARY OF ESTIMATED REGULATORY COSTS: A statement of estimated regulatory costs (SERC) was prepared at the request of the District. The complete text of the SERC is contained as Exhibit 10 to the petition. Generally, the SERC indicates:

- The proposed amendment to the District’s boundaries will not have an adverse impact on economic growth, job creation, employment, private sector investment, business competitiveness, or regulatory costs;

- The proposed amendment of the District will involve the State and its residents, and Flagler County and its residents,

property owners within the existing District and those to be added through District expansion, and future property owners;

- If approved, the owners and future residents within the expansion parcels will be subject to the District’s jurisdiction and potential assessments;

- The proposed amendment will result in limited review costs to the reviewing agency and other state and local government entities;

- The expanded District will continue to incur costs for operations and maintenance of its facilities and for its administration. These costs will be completely paid for from annual assessments against all properties within the expanded District benefiting from its facilities and its services;

- The proposed amendment of the District is not expected to have a negative impact on state or local revenues;

- Estimated infrastructure costs for the expansion parcels have been or will be funded by any available proceeds of Series 2017 Bonds, future bond issuance(s) and/or the landowner; and,

- The proposed amendment of the District will have no adverse impact on small businesses, counties or cities.

The Department of Economic Opportunity (“Department”) hereby issues its Final Order, pursuant to subsection 380.05(6), Florida Statutes, approving land development regulations adopted by the Islamorada, Village of Islands, Florida (“Village”), by Ordinance No. 21-05 (the “Ordinance”).

FINDINGS OF FACT

3. The Ordinance amends Section 30-815, *Bufferyard standards*, of the Village’s Land Development Regulations to establish criteria for driveways permitted to exist within a required bufferyard area.

CONCLUSIONS OF LAW

4. The Department is required to approve or reject land development regulations that are adopted by any local government in an area of critical state concern. *See* Section 380.05(6), Florida Statutes.
5. “Land development regulations” include local zoning, subdivision, building, and other regulations controlling the development of land. Section 380.031(8), Florida Statutes. The regulations adopted by the Ordinance are land development regulations.
6. The Ordinance is consistent with the Village’s Comprehensive Plan generally, as required by subsection 163.3177(1), Florida Statutes, and is specifically consistent with Objective 1-4.2, Policy 1-4.2.1, and Policy 2-1.3.10.

7. All land development regulations enacted, amended, or rescinded within an area of critical state concern must be consistent with the principles for guiding development for that area. See subsection 380.05(6), Florida Statutes. The Principles for Guiding Development for the Village are set forth in subsection 380.0552(7), Florida Statutes.

8. The Ordinance is consistent with the Principles for Guiding Development for the Village as a whole, and specifically furthers the following Principles:

(e) Limiting the adverse impacts of development on the quality of water throughout the Florida Keys.

(n) Protecting the public health, safety, and welfare of the citizens of the Florida Keys and maintaining the Florida Keys as a unique Florida resource.

WHEREFORE, IT IS ORDERED that the Department finds that Ordinance No. 21-05 is consistent with the Village’s Comprehensive Plan and the Principles for Guiding Development for the Village and is hereby APPROVED.
