RULE NO.:       RULE TITLE:

6A-4.0163       Reading Endorsement Competencies

PURPOSE AND EFFECT: To revise the 2011 Reading Endorsement Competencies for alignment with evidence-based instructional and intervention strategies rooted in the science of reading. Revisions will address identification of the characteristics of conditions such as dyslexia; implementation of evidence-based classroom instruction and interventions, including evidence-based reading instruction and interventions specifically for students with characteristics of dyslexia; and effective progress monitoring.

SUMMARY: The rule revises the Reading Endorsement Competencies to align with evidence-based instructional and intervention strategies rooted in the science of reading. The rule requires school districts and teacher preparation programs to submit their reading endorsement/certificate programs to the Department by July 1, 2023, for review and approval based upon the revised competencies.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Based upon experience with revisions to the reading endorsement competencies in the past as well as similar changes in the past to other competencies, the proposed rule is not expected to have any adverse impact on economic growth, increase regulatory costs or exceed any criteria set forth in s. 120.541(2)(a), F.S. and will not require legislative ratification. Further, teachers will not be required to re-do competencies already completed, thereby reducing costs to a teacher.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DEPARTMENT OF ENVIRONMENTAL PROTECTION  
 Florida Coastal Management Program Notice of Program Change Request

The Department of Environmental Protection’s Office of Resilience and Coastal Protection has requested the concurrence of the federal Office for Coastal Management (OCM) of the National Oceanic and Atmospheric Administration (NOAA), in updating the statutory authorities included within the Florida Coastal Management Program (FCMP) as a program change. The Department of Environmental Protection has submitted these changes as a “program change” based on the decision criteria in 15 CFR 923.84.

This program change submission will incorporate relevant new Florida Statutes enacted by the Florida Legislature during the 2021 legislative session into the Florida Coastal Management Program. This includes incorporation of Section 403.0643, Florida Statutes, as an enforceable policy for federal consistency purposes. It is also seeking to include Section 161.551, Florida Statutes, as a non-enforceable policy. This section was created during the 2020 legislative session. The program change submittal is available at <https://floridadep.gov/rcp/fcmp/content/fcmp-program-changes> and describes the nature of the changes as well as identifies the enforceable policies to be added to the management program of the State if approved. A list of all statutes that make up the FCMP is available at

<https://floridadep.gov/rcp/fcmp/content/24-florida-statutes-florida-coastal-management-program>.

Staff has evaluated these changes pursuant to 15 CFR 923, Subpart H and concluded that these changes will not result in any substantial change to the enforceable policies or authorities of the FCMP related to uses subject to management, special management areas, boundaries, authorities and organization, or coordination, public involvement and the national interest.

Notice is being provided to the general public and affected parties, including local governments, state agencies, and regional offices of relevant federal agencies as required by 15 CFR 923.81(e)(1). A list of persons and organizations notified is available for inspection or can be provided upon request from the department contact below.

Pursuant to 15 CFR 923.81(e)(3), comments on the submitted program change to the FCMP may be submitted to Joelle Gore, NOAA/OCM, 1305 East-West Highway, Silver Spring, MD 20910 within 21 days of the date of issuance of this notice or posted online on the FCMP program change listing at <https://coast.noaa.gov/czmprogramchange/#/public/home>.
