The public hearing is being held to present information about the preferred alternative and engineering and environmental analysis completed to date. The hearing provides the opportunity for the public to offer feedback on the preferred alternative for the official hearing record.

The purpose of this PD&E study is to identify and evaluate potential impacts that may result from a new east-west four-lane roadway and overpass crossing I-75 between the Fruitville Road interchange and University Parkway interchange. The

proposed improvements would enhance access to destinations east and west of I-75 to provide traffic relief and would connect existing shared use trails and enhance bicycle and pedestrian safety. Sarasota County is seeking comments concerning the effects of the project on park activities, features, and attributes.
