BEST MANAGEMENT PRACTICES (BMPS) FOR AGRICULTURE IN THE LAKE OKEECHOBEE WATERSHED CITRUS, COW/CALF, DAIRIES AND OTHER PRIORITY BASINS (S-191, S-154, S65 D AND E)

5M-3.001 Purpose.

The purpose of this rule chapter is to effect pollutant reduction through the implementation of non-regulatory and incentive based programs, which may be determined to have minimal individual or cumulative adverse impacts to the water resources of the state. The rule chapter defines the phosphorus management requirements of agricultural producers necessary to receive a presumption of compliance with state water quality standards, including those established by the Total Maximum Daily Load (TMDL) program, pursuant to Section 403.067, F.S., and the South Florida Water Management District’s (SFWMD) Works of the District Program contained in Chapter 40E-61, F.A.C. Implementation of this rule chapter is part of a comprehensive program to achieve water quality standards. Reasonable assurance for achieving water quality standards is enhanced through verification monitoring at representative sites and subsequent identification of additional or modified control measures where needed. Where it is determined that despite proper assessment, BMP design, or BMP implementation, additional or modified BMP control measures are necessary to achieve compliance with water quality standards, established phosphorus reduction targets or total maximum daily loads, the implementation of these measures will be achieved through a modification of this rule.

40B-8.031 Minimum Surfacewater Levels and Flows for Madison Blue Spring.

The Governing Board hereby establishes the following minimum surfacewater flows and levels for Madison Blue Spring. The Governing Board finds that the following minimum surfacewater flows and levels are the limit at which further withdrawals would be significantly harmful to the water resources or ecology.

(1) The minimum surfacewater flow for Madison Blue Spring is 70 cubic feet per second (cfs) for a flow duration frequency of 90 percent when the stage of the Withlacoochee River measured at the Pinetta gauge is 55.0 feet (NGVD) or less.

(2) If the surfacewater flows from Madison Blue Spring are reduced below the levels established in subsection (1) above, withdrawals will be significantly harmful to the water resources or ecology.

(3) In determining the estimated impact of existing and proposed future withdrawals on the surfacewater flow of Madison Blue Spring, as expressed in subsections (1) and (2) above, the following factors shall be considered:

(a) A stage of 55.0 feet (NGVD) at the Pinetta gauge will serve as a modeling boundary condition.

(b) The surfacewater flow for Madison Blue Spring shall not be caused to be reduced to a predicted flow of 70 cfs or less for a flow duration frequency of less than 90 percent as determined by the Flow Duration Curve for the Madison Blue Spring discharge over the historic period.

The Governing Board hereby establishes the following minimum surfacewater flows and levels. The Governing Board finds that the following minimum surfacewater flows and levels are the limit at which further withdrawals would be significantly harmful to the water resources or ecology.

(1) The minimum surfacewater flow for Manatee Spring is the flow that will maintain 90 percent of the historic flow regime for the Manatee Spring discharge as defined in “Technical Report – MFL Establishment for the Lower Suwannee River and Estuary, Little Fanning, Fanning, and Manatee Springs, October 2005.”

(2) In addition to subsection (1) above, the minimum surface water flow for Manatee Spring for the period of November 1 through April 30 is 130 cubic feet per second for a flow duration frequency of 50 percent.

(3) The minimum surfacewater flow for Fanning and Little Fanning Spring is the flow that will maintain 90 percent of the historic flow regime for the Fanning Spring discharge as defined in “Technical Report – MFL Establishment for the Lower Suwannee River and Estuary, Little Fanning, Fanning, and Manatee Springs, October 2005.”

(4) The minimum surface water level for Fanning Spring for the period of November 1 through April 30 is 2.71 feet (NGVD) for a stage duration frequency of 85 percent.

(5) The minimum surfacewater flow for the Lower Suwannee River below the Wilcox gauge is 6,600 cubic feet per second for a flow duration frequency of 50 percent for the period May 1 through October 31. 40D-2.801 Water Use-Caution Areas

PURPOSE AND EFFECT: To adopt rules to implement the regulatory portion of the recovery strategy for minimum flows and levels for certain water bodies within the Southern Water Use Caution Area that are being proposed as amendments to Chapter 40D-8, F.A.C. simultaneously with these rules.

SUMMARY: The proposed rules provide that if the actual flow or level of a water body is below the minimum flow or level, a new quantity of water will not be permitted unless the proposed withdrawal will provide a net benefit to the impacted water body. The proposed rules describe the three types of net benefit that can be proposed.

In order to maximize the efficient utilization of water resources in the SWUCA to allow for recovery, the District proposes rules that will emphasize that new and renewal water use permits applicants must demonstrate a reasonable-beneficial use, that conservation measures will be implemented and alternative sources of water will be utilized to the extent economically, technically and environmentally feasible.

The proposed rules include a method for calculating public water supply service area population so that calculation of population is standardized for utilities within the Southern Water Use Caution Area. This standardization is integral to the determination of compliance with per capita daily water use rule requirements and to developing future per capita daily water use standards.

The proposed rules repeal the Highlands Water Use Caution Area and the Eastern Tampa Bay Water Use Caution Area.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: A Statement of Estimated Regulatory Cost, final draft dated March 14, 2006, has been prepared addressing the impact of the proposed minimum flows and levels, and the rules proposed simultaneously in 40D-2 and 40D-80 to implement the minimum flows and levels within the Southern Water Use Caution Area (the "SWUCA SERC"). The items to be addressed in a Statement of Estimated Regulatory Cost as set forth in section 120.541(1)(c), F.S. are included in the SWUCA SERC. The SWUCA SERC is available upon request to the District. Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Additional rules relating to water use are found in Chapter 40D-3, F.A.C., entitled Regulation of Wells, Chapter 40D-8, F.A.C., entitled Water Levels and Rates of Flow, Chapter 40D-80, F.A.C., entitled Prevention and Recovery Strategies For Minimum Flows and Levels, Chapter 40D-21, F.A.C., entitled Water Shortage Plan, and Chapter 40D-22, F.A.C., entitled Year-Round Water Conservation Measures.

Specific Authority 373.044, 373.113, 373.149, 373.171, 373.216, 373.249 FS. Law Implemented 373.219 FS. History--Readopted 10-5-74, Formerly 16J-2.01, Amended 10-1-89, _____.

40D-2.021 Definitions.

The following definitions shall apply within the Southern Water Use Caution Area:

(1) "Alternative Water Supplies" and "Alternative Water Supply" means saltwater; brackish surface water and brackish groundwater; surface water captured predominately during wet-weather flows; sources made available through the addition of new storage capacity for surface or ground-water;

water that has been reclaimed after one or more public supply, municipal, industrial, commercial, or agricultural uses; the downstream augmentation of water bodies with reclaimed water; stormwater; and any other water supply source that is designated as non-traditional for a water supply planning region in the applicable regional water supply plan. Inclusion of reclaimed water and seawater in this definition of Alternative Water Supplies does not alter the exemption from water use permitting for these sources (see Section 1.2, Basis of Review for Water Use Permitting).

(2) "Annual Average" means the annual average daily quantity that is the total quantity authorized by the District to be withdrawn from water sources in one year, divided by 365 days and expressed in gallons per day (gpd).

(3) "Change in Ownership or Control" means a person other than the permittee that has been granted a real property interest or lease interest in the property subject to the permit; but does not include a person with a familial relationship to the permittee.

(4) "Drought Annual Average" means the annual average daily quantity in the SWUCA that is the total quantity authorized by the District to be withdrawn in one calendar year for irrigation based on a two-in-ten year drought, divided by 365 days and expressed in gallons per day (gpd).

(5) "MIA" means the Most Impacted Area within the Southern Water Use Caution Area located in Hillsborough, Manatee and Sarasota Counties as described in subparagraph 40D-2.801(3)(b)2., F.A.C.

(6) "Net Benefit" means activities or measures that will result in an improvement to a Minimum Flow or Level water body that more than offsets the impact of a proposed withdrawal.

(7) "New Quantities" means water that is not currently authorized to be withdrawn by the applicant or not currently authorized to be used for the intended use by the applicant. This includes applications to modify existing permits to increase quantities, and/or change the Permit Use Type (affecting only the modified portion) and applications for an initial permit. A modification to change crops or plants grown under an Agricultural Permit Use Type Classification or to change withdrawal location or Use Type that is authorized by the terms of the permit or site certification at the time of issuance, is not a change in Permit Use Type provided that the quantities do not increase. In addition, when land is mined and the land will be returned to the Use Type operation authorized under the Water Use Permit that existed prior to mining, such activity does not constitute a change in Use Type or New Quantity.

(8) "Reclaimed Water," except as specifically provided in Chapter 62-610, F.A.C., means wastewater that has received at least secondary treatment and basic disinfection and is reused after flowing out of a domestic wastewater treatment facility.

(9) “Ridge Lakes” means those lakes located within the area formerly known as the Highlands Ridge Water Use Caution Area as described in subparagraph 40D-2.801(3)(b)3., F.A.C.

(10) “Self-Relocation” means a permit modification that authorizes a permittee to move all or a portion of its withdrawal located within the Southern Water Use Caution Area to a new location or locations owned or controlled by the permittee within the Southern Water Use Caution Area, with no change in ownership, control, or Use Type as set forth in Rule 40D-2.501, F.A.C., and no increase in quantities. Self-Relocation does not include changes in withdrawal location or Use Type that are authorized by the terms of the existing permit.

(11) “Upper Peace River” means that portion of the Peace River beginning at the confluence of Saddle Creek and the Peace Creek Canal, and extending southerly to the United States Geological Survey Zolfo Springs River Gage No. 02295637 and including the watershed contributing to that portion of the Peace River.

Specific Authority 373.044, 373.113, 373.171 FS. Law Implemented 373.171, 373.216, 373.219, 373.223 FS. History–New _____.

40D-2.041 Permits Required.

(1)(a) through (d) No change

(e) In addition to the thresholds set forth in paragraphs (1)(a) through (1)(d) above, a permit is required within the Most Impacted Area (MIA) as set forth in subparagraph 40D-2.801(3)(b)2., F.A.C., Section 7.2.8, A. and B., and Figure 7.2-2, Basis of Review for Water Use Permit Applications, when withdrawal is from wells having a cumulative outside diameter greater than six inches at the surface any of which wells is constructed after April 11, 1994. This paragraph (e) shall not apply to any proposed well less than six inches in diameter at the surface when it is of the same diameter or smaller than a well it replaces and an application to plug the replaced well in accordance with Rule 40D-3.531, F.A.C., is filed with the application to construct the replacement well in accordance with Rule 40D-3.041, F.A.C.

(2) The duration of a water use permit shall not exceed six years when:

(a) The permit is for a new use greater than or equal to 500,000 gpd;

(b) ~~The~~ District determines there is a potential for significant adverse impacts and further evaluation is needed to develop an effective mitigation plan; or

(c) ~~The~~ permit is for a renewal to significantly increase quantities.

(3) The duration of a water use permit shall not exceed 10 years when:

(a) ~~The~~ permit is for a new use less than 500,000 gpd;

(b) ~~The~~ permit is for a renewal with an effective mitigation plan to address potential adverse impacts; or

(c) ~~The~~ permit is for a renewal with no significant modification.

~~(4)(5)~~ If the District determines that a permit term longer than 10 years is appropriate based on facts presented by an applicant, the District shall issue a permit for a period up to 50 years in accordance with Section 373.236, F.S.

5.3- Any permit with a withdrawal point located within the boundaries of the SWUCA is deemed to be within the SWUCA. Permits with permitted withdrawals in more than one Water Use Caution Area (WUCA) shall be subject to the conservation and reporting requirements of the WUCA within which the majority of permitted quantities are withdrawn, or projected to be withdrawn, in addition to all other rule criteria, including Minimum Flows and Levels requirements, as set forth in Chapter 40D-2, F.A.C. and this Basis of Review for Water Use Permit Applications.

6.4- All Water Use Permits with withdrawal points within the SWUCA Water Use Caution Area are hereby modified to conform with this paragraph 40D-2.801(3)(b)(d), F.A.C., except as provided in subparagraph 5., above, and the applicable SWUCA criteria specified in Chapters 3, 4, 5, and 6 of the Basis of Review described in Rule 40D-2.091, F.A.C., are incorporated into all such Water Use Permits.

~~5. In order to ensure that actual ground water use does not worsen the water resource problems in the SWUCA, the District will monitor usage by water use category. Whenever the water used by any category of user, except public supply, during the preceding three years exceeds water used by that category from January 1, 1989 through December 31, 1991, a study will be initiated. The study will determine why current usage by that category of user exceeded usage in the years 1989 through 1991. The study will be based primarily on water use data for the category of user studied rather than on seasonal or localized changes in the potentiometric surface. The study will be provided to the Board for it to determine if rulemaking or other actions should be taken.~~

7. The SWUCA is a water resource caution area for purposes of Chapter 403, F.S., and Chapter 62-40, F.A.C.

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE CHAPTER NO.:	RULE CHAPTER TITLE:
40D-8	Water Levels and Rates of Flow
RULE NOS.:	RULE TITLES:
40D-8.041	Minimum Flows
40D-8.624	Guidance and Minimum Levels for Lakes
40D-8.626	Minimum Aquifer Levels

PURPOSE AND EFFECT: To establish minimum flows and levels for the Southern Water Use Caution Area for the Most Impacted Area, the upper Peace River and Lakes Jackson, Letta, Lotela and Little Lake Jackson on the Highlands County Ridge and Lakes Clinch, Eagle, McLeod and Wales in Polk County.

SUMMARY: Minimum flows proposed for the upper Peace River to ensure that the minimum hydrologic requirements of fish and natural systems associated with the upper segment of the river are met and not jeopardized by withdrawals. The upper segment of the river includes that area between Bartow and Zolfo Springs. The minimum flows are based on the hydrologic requirements of biological communities associated with the upper Peace River system, as well as considering non-consumptive uses including fishing, wildlife observation, general recreation, aesthetic enjoyment, canoeing and boating. The minimum flows will be supported by District water development projects.

The District also proposes minimum low and minimum high lake levels, as well as the ten-year flood, and high and low guidance levels for Lakes Jackson, Letta, Lotela and Little Lake Jackson on the Highlands County Ridge and Lakes Clinch, Eagle, McLeod and Wales in Polk County. The High Minimum Lake Level is the elevation that a lake's water levels

are required to equal or exceed 10 percent of the time on a Long-term basis. The Minimum Lake Level is the elevation that the lake's water levels are required to equal or exceed 50 percent of the time on a Long-term basis. The High and Low Guidance Levels and the Ten-year Flood Guidance Level are advisory guidelines for lakeshore development of, including water dependent structures and operation of water management structures.

A minimum aquifer level is proposed for the coastal portion of the Southern Water Use Caution Area in southern Hillsborough, Manatee and northern Sarasota counties. The minimum aquifer level is to stabilize regional ground water level declines so that long-term management efforts can slow the rate of regional saltwater intrusion in the area.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: A Statement of Estimated Regulatory Cost, final draft dated March 14, 2006, has been prepared addressing the impact of the proposed minimum flows and levels, and the rules proposed simultaneously in 40D-2 and 40D-80 to implement the minimum flows and levels within the Southern Water Use Caution Area (the "SWUCA SERC"). The items to be addressed in a Statement of Estimated Regulatory Cost as set forth in section 120.541(1)(c), F.S., are included in the SWUCA SERC. The SWUCA SERC is available upon request to the District.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

LAW IMPLEMENTED: 373.036, 373.0361, 373.0395, 373.042, 373.0421, 373.086 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULES IS: Karen A. Lloyd, Assistant General Counsel, Office of General Counsel, 2379 Broad Street, Brooksville, FL 34604-6899, (352)796-7211, extension 4651

(d) Compliance – The Minimum Low Flow is achieved when the measured flow rate is at or above the Minimum Low Flow for three consecutive years. Once the Minimum Low Flow has been achieved for three consecutive years, the Minimum Low Flow is not met when the measured flow rate is below the Minimum Low Flow for two out of ten years

40D-8.041 Minimum Flows.

(1) through (3) No change.

(4) Minimum Flows for upper Peace River.

(a) Over the last several decades there has been a significant decline in flow in the upper Peace River, especially during the dry season. One of the major contributing factors is the elimination of baseflow as a result of ground water withdrawals that have lowered the potentiometric surface of the upper Floridan aquifer. In addition, surface-water drainage alterations, reduction in surface storage, long-term cyclical declines in rainfall and karst openings in the riverbed have played significant roles in reducing flow in the upper Peace River.

(b) The minimum flows are to ensure that the minimum hydrologic requirements of fish and natural systems associated with the river are met and not jeopardized by withdrawals. At this time only Minimum Low Flows are being established. It is anticipated that mid- and high-minimum flows will be established once the controlling factors that affect those flows are better understood.

(c) The Minimum Low Flows for the upper Peace River are set forth in Table 8-8 below. The Minimum Low Flows are established based on the lowest acceptable flow under the lowest anticipated flow conditions. This is determined by providing for the hydrologic requirements of biological communities associated with the upper Peace River system, as well as considering non-consumptive uses including fishing, wildlife observation, general recreation, aesthetic enjoyment, canoeing and boating. This determination uses professional experience and judgment to identify key habitats and hydrologic requirements for specific biotic assemblages. This approach results in establishing Minimum Low Flows for the upper Peace River based on maintaining the higher of the water elevations needed for fish passage (0.6 feet or 7.2 inches) or the lowest wetted perimeter inflection point (as much stream bed coverage as possible for the least amount of flow) as set forth below. A ninety-five percent annual exceedance occurs when the flow is greater than the Minimum Low Flow at least ninety-five percent of the days, or 350 days, of a calendar year.

commencing the year after achievement. If the two years below the minimum flow occur anytime before the ten year period is complete, the upper Peace River is deemed below its Minimum Low Flow and the three consecutive years above the

Minimum Low Flow is again required for compliance. Once the ten-year period is complete, the period will roll forward one year each year.

40D-8.626 Minimum Aquifer Levels in Hillsborough County North of State Road 60, and Pasco and Pinellas Counties.

(1) Hillsborough County North of State Road 60, and Pasco and Pinellas Counties Salt Water Intrusion Minimum Aquifer Levels. Salt Water Intrusion within this area has not been regional in nature, but is of localized concern in some coastal areas. The District has chosen the North Pinellas, Southwest Pasco and Northwest Hillsborough Counties region as the priority area for the establishment of Salt Water Intrusion Minimum Aquifer Levels (“SWIMAL”) to prevent regional seawater intrusion because of the availability of data and the potential for future intrusion. The SWIMALs for the Upper Floridan aquifer shall be established as follows:

- (1) through (3) renumbered (a) through (c) No change.
- (2) SWUCA Salt Water Intrusion Minimum Aquifer Level.

(a) The District has determined that ground water withdrawals in the SWUCA have contributed to water level declines that advance saltwater intrusion. The coastal portion of the SWUCA in southern Hillsborough, Manatee and northern Sarasota counties (the Most Impacted Area or MIA) is a priority area for the establishment of minimum aquifer levels

because of its proximity to the saltwater interface and the large effect on interface movement caused by lowering of the potentiometric surface in this area. The Salt Water Intrusion Minimum Aquifer Level (SWIMAL) is established to stabilize regional water level declines so that long-term management efforts can slow the rate of regional saltwater intrusion in the MIA. This is based on an average value to address the regional nature of the problem and avoids the potential for localized lowering of a minimum level.

(b) The SWIMAL over the surface of the MIA is 13.1 feet (National Geodetic Vertical Datum of 1929 or NGVD 1929). The SWIMAL is derived using the method set forth in paragraph (2)(c) below.

(c) The reference period for which the SWIMAL is calculated is the period 1990 through 1999. Ten wells from within or adjacent to the MIA (Table 8-5), are used to determine the minimum level. The annual average elevation for each of the years 1990 through 1999 is established utilizing monthly water level data for each of the wells. The annual averages over the period are then used to calculate the decadal average for the period. The 1990-99 average Upper Floridan aquifer potentiometric surface of the MIA is constructed by calculating the average of these annual average values weighted spatially using the Thiessen polygon methodology. The resulting Minimum Level over the surface of the MIA is 13.1 feet (National Geodetic Vertical Datum of 1929). Table 8-5: Wells utilized to determine the Salt Water Intrusion Minimum Aquifer Level.

(d) Implementation of The SWUCA Salt Water Intrusion Minimum Aquifer Level – The SWIMAL shall be used to gauge the status of the ground water resource with respect to saltwater intrusion in the region. Determining the status of the rate of movement of the saltwater interface shall be based on comparison of the average Floridan aquifer water level over the MIA with the Floridan aquifer minimum level over ten-year moving windows of time. The ten-year average water level for a particular year shall be calculated as the average water level for that year and the previous nine years. The process of calculating the ten-year average is the same as described in section (c) above for calculating the minimum level.

(e) Compliance – The objective of the District's management efforts is for the ten-year moving annual average water level to fluctuate in a range at or above the minimum level. The minimum level is achieved if the ten-year moving annual – average water level has fluctuated at or above the minimum level for a minimum of five consecutive years. Once the minimum level is achieved, the minimum level is no longer met when the ten-year moving annual average water level falls below the minimum level for more than two consecutive years. Then, the five consecutive years above the minimum level is again required for compliance.

RULE CHAPTER NO.: RULE CHAPTER TITLE:

40D-80 Recovery and Prevention Strategies for Minimum Flows and Levels

RULE NO.: RULE TITLE:

40D-80.074 Regulatory Portion of Recovery Strategy for the Southern Water Use Caution Area

PURPOSE AND EFFECT: To adopt rules describing the recovery strategy for minimum flows and levels within the Southern Water Use Caution Area which minimum flows and levels are being developed simultaneously with these rules.

SUMMARY: The proposed rule describes the overall regulatory, and non-regulatory mechanisms the District will use to achieve the recovery required by Section 373.0421, F.S., for minimum flows and levels being established for the Southern Water Use Caution Area pursuant to Section 373.042, F.S., simultaneously with this rule. This proposed rule also describes how recovery will be monitored and the recovery mechanisms adjusted if needed to achieve recovery to the minimum flows and levels by the year 2025.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: A Statement of Estimated Regulatory Cost, final draft dated March 14, 2006, has been prepared addressing the impact of the proposed minimum

flows and levels, and the rules proposed simultaneously in 40D-2 and 40D-80 to implement the minimum flows and levels within the Southern Water Use Caution Area (the "SWUCA SERC"). The items to be addressed in a Statement of Estimated Regulatory Cost as set forth in section 120.541(1)(c), F.S., are included in the SWUCA SERC. The SWUCA SERC is available upon request to the District.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 373.044, 373.113, 373.171 FS.

LAW IMPLEMENTED: 373.036, 373.0361, 373.042, 373.0421, 373.171 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Karen A. Lloyd, Assistant General Counsel, Office of General Counsel, 2379 Broad Street, Brooksville, FL 34604-6899, (352)796-7211, extension 4651

THE FULL TEXT OF THE PROPOSED RULE IS:

40D-80.074 Regulatory Portion of Recovery Strategy for the Southern Water Use Caution Area.

(1) Background.

Section 373.042, F.S., requires the District to establish Minimum Flows and Levels for priority waters within its boundaries. The District has established Minimum Flows and Levels (MFLs) within the Southern Water Use Caution Area (SWUCA), described in paragraph 40D-2.801(3), F.A.C., which includes all or portions of Hillsborough, Polk, Highlands, Hardee, DeSoto, Manatee, Sarasota, and Charlotte counties. In establishing the MFLs, the District determined that the existing flow rates and water levels of some of the priority waters are below the MFLs established for them. In such circumstances Section 373.0421, F.S., requires the District to implement a recovery strategy. The District has developed a recovery strategy that includes both regulatory and non-regulatory mechanisms as described in the SWUCA Recovery Strategy, dated _____, 2006. The regulatory approach does not make impacts on an MFL water body from permitted quantities existing as of [the effective date of rule] a basis for permit denial because the Recovery Strategy taken as a whole is intended to achieve recovery to the established minimum flows and levels as soon as practicable. The Recovery Strategy involves water supply planning, an emphasis on conservation, the development of alternative water supplies to meet growing demands and allows for reductions in existing ground water withdrawals that are impacting water bodies with established MFLs, restoration of

water bodies and flow patterns, and the regulation of existing and new water withdrawals. This Rule 40D-80.074, F.A.C., describes the regulatory approach of the Recovery Strategy.

(2) Objectives of Recovery Strategy.

Long-term (as defined in section 4.3 A of the Basis of Review for Water Use Permits, incorporated by reference in Rule 40D-2.091, F.A.C.) flow rates and water levels for most MFL water bodies are below the MFLs predominantly because ground water withdrawals have lowered Floridan aquifer levels in the SWUCA. As a result of the lowered aquifer levels, salt water intrusion is occurring, and river flows and lake levels are impacted by reduced water levels, including some of those rivers and lakes for which MFLs have been established. The goals of the District's Recovery Strategy are the recovery of flows and levels to the MFLs and the provision of sufficient water supplies for all existing and projected reasonable-beneficial uses. The MFLs for rivers, lakes and aquifers are described in and established in paragraph 40D-8.041(2), F.A.C., and Table 8-5 in Rule 40D-8.624, F.A.C., and Table 8-2 and Rule 40D-8.626, F.A.C., Table 8-6. The District intends to maintain on its website at www.swfwmd.state.fl.us a current listing of those water bodies for which a recovery or prevention strategy is in effect.

(3) Recovery Strategy Mechanisms.

(a) The non-regulatory mechanisms include conservation and water resource development efforts intended to increase the availability of alternative water supplies and to enhance the water resources of the SWUCA. Conservation, transitions in land use from agricultural to other use or changes in supply source, and the availability of alternative water supplies will help meet growing water demands in the SWUCA, and will also allow for reductions in ground water withdrawals.

(b) The guiding principles for the regulatory portion of the Recovery Strategy are that it should:

1. Contribute significantly to resource management and recovery;

2. Protect the investments of existing water use permit holders; and,

3. Allow for economic expansion and new economic activities in the SWUCA.

In addition, the District recognizes that the water resources in the SWUCA are subject to varying degrees of stress. The regulatory component of the Recovery Strategy has been designed in recognition of these variations. How water use permit applications will be affected by the regulatory mechanisms will vary depending on the resource conditions in the area affected by a proposed withdrawal and the extent to which the withdrawals will contribute to these resource conditions. For example, the regulatory mechanisms continue the existing "Most Impacted Area" (MIA) designation in coastal portions of southern Hillsborough, Manatee and northern Sarasota counties. The Salt Water Intrusion Minimum Aquifer Level is established within the MIA. New ground

water withdrawals within the MIA and the area surrounding the MIA that impact salt water intrusion will be affected more by the MIA designation and the Salt Water Intrusion Minimum Aquifer Level, than will permit applications for new ground water withdrawals in the eastern portions of the SWUCA. Conversely, permit applications for new ground water withdrawals in the coastal areas will be much less affected by the MFLs established for the upper Peace River and the priority lakes in Polk and Highlands counties than permit applications for new ground water withdrawals on the Lake Wales Ridge.

(c) The water use permitting rules in Chapter 40D-2, F.A.C., address water conservation, alternative water supplies and recovery to MFLs. These water conservation and alternative water supplies rules include the amendments to Chapter 40D-2, F.A.C., _____, 1990, January 1, 2003, as well as subsequent rules adopted as of _____, 2006, developed in conjunction with the implementation of the Minimum Flows and Levels Recovery Strategy. In combination, these rules result in more efficient use of water and a lessening of impacts from withdrawals on water bodies with established MFLs.

(4) Restoration of river flows and lake levels.

In addition to the reduction of pumpage and permitted quantities, and the development of new water supplies, the supplemental augmentation of rivers and lakes that are below their established Minimum Flow or Level will contribute to the attainment of the objectives of the Recovery Strategy set forth in paragraph 40D-80.074(2), F.A.C. The District will reserve quantities of water from water sources necessary for such augmentation.

(5) Periodic Review of Recovery Strategy.

(a) The Governing Board will measure progress based on an annual assessment of the water resource criteria and cumulative impact analysis described below.

1. The water resource criteria referred to above are:

- a. Improving upper Peace River flows and Ridge Lake water levels;
- b. Maintaining or increasing ground water levels below the upper Peace River and in the Ridge Lakes area; and
- c. Increasing ground water levels in the Upper Floridan aquifer within the Most Impacted Area and the reduction in the rate of salt water intrusion.

2. The cumulative impact analysis referred to above consists of the following:

- a. The development of alternative water supplies;
- b. The effects of water conservation;
- c. The hydrologic conditions and patterns;
- d. The effects of climatic conditions;
- e. The effects of water resource development activities;

f. The changes in amounts, distributions and use types of existing and new water use withdrawals (actual and permitted) within the SWUCA; and

g. The effect of land use changes on the water resources.

(b) Results of the annual assessment referred to above will be reported to the Governing Board on an annual basis.

(c) In addition to the annual assessments referred to the District will review the Recovery Strategy at least every five years to assess its progress as part of updating its Regional Water Supply Plan. If the annual assessments or five-year reviews do not indicate progress, the Governing Board will revise the Recovery Strategy, as appropriate, to achieve progress.

(6) The provisions of paragraphs 40D-80.074(1)-(4), F.A.C., are informational, intended to provide an overview of resource conditions related to the water bodies for which minimum flows and levels have been established and the components of the Recovery Strategy. The provisions of the SWUCA minimum flows and levels and permitting rules in Chapters 40D-2, 40D-4 and 40D-80, F.A.C., shall control in the event of any conflict or inconsistency with the provisions of paragraphs 40D-80.074(1)-(4), F.A.C.

(7) The District recognizes that although the rate of salt water intrusion (SWI) will be reduced through implementation of the Recovery Strategy, some existing legal uses of water may be affected by the continued movement of the salt water interface. The District's water supply planning indicates that much of the area potentially susceptible to SWI is experiencing land use transition from traditionally agricultural lands to forms of urban development. The water needs of these new land uses are planned to be met with alternative water supplies funded all or in part by the District to the greatest extent practical. In those cases where the existing permittee, impacted by SWI, desires to continue the existing legal water use, the District has a number of programs that address that situation. The District will make available its various preventative and remedial programs to permittees potentially at risk of salt water intrusion such as the Quality of Water Improvement Program (QWIP), the Facilitating Agricultural Resource Management Systems (FARMS) program, the New Water Source Initiative, the Water Supply and Resource Development Program, and the Cooperative Funding Program (as it relates to replacement of potentially affected water sources with alternative water supplies).

RULE NOS.: 64F-12.001, 64F-12.015
 RULE TITLES: General Regulations; Definitions
 Licensing, Application, Permitting

PURPOSE AND EFFECT: The proposed amendment to Rule 64F-12.001, F.A.C., adds the definition of “propagation” as this term appears in the definition of “manufacture” at Section 499.003(27), F.S. The definition clarifies that the manufacturing process includes the various establishments that may be part of that process, including a private relabeler and an affiliated or contract distribution center. The proposed amendment to Rule 64F-12.015, F.A.C., expands the scope of the on-site inspection requirement to additional permit applicants within the scope of Chapter 499, F.S. The amendment to this rule also provides the department with an option to on-site inspection of a permit applicant’s establishment. This option is designed to protect public health when the department’s workload requires an alternative to an inspection. Finally, the proposed amendment to this rule also adopts a new attachment to the Application for Permit under Chapter 499, F.S., which attachment is directed to manufacturer and prescription drug repackager permit applicants located in Florida.

64F-12.001 General Regulations; Definitions.

(1) No change.

(2) In addition to definitions contained in Sections 499.003, 499.012(1), 499.0121(6), 499.0122(1), 499.028(1), and 499.61, F.S., the following definitions apply to Rule Chapter 64F-12, F.A.C.:

(a) through (l) No change.

(m) "Propagation" as used under the definition of "manufacture" at Section 499.003(27), F.S., means for purposes of permitting under Section 499.013, F.S., the holder of an approved New Drug Application (NDA), Abbreviated New Drug Application (ANDA), or New Animal Drug Application (NADA); a private label distributor and the private label distributor's prescription drugs are originally manufactured and labeled for the distributor and have not been repackaged; or the distribution point for the manufacturer, contract manufacturer or private label distributor whether the establishment is a member of the manufacturer's affiliated group or is a contract distribution site.

(n)(m) "Ongoing relationship" means: For a prescription drug other than a specified drug:

1. An association that exists when a manufacturer and a distributor enter into a written agreement under which the distributor is authorized to distribute the manufacturer's product(s) for a period of time or for a number of shipments and at least one sale is made under that agreement; or

2. The name of the authorized distributor of record is entered on the manufacturer's list of authorized distributors of record or equivalent list; or

3. At least three purchases of a manufacturer's product(s) are made directly from that manufacturer within a six month period from the date for which the authorized distributor of record relationship is claimed.

(o)(m) "Practitioner" means a person who is duly licensed and authorized by laws of the state to administer, prescribe, or dispense, as appropriate, a drug or device for medical purposes.

(p)(e) "Provides prescription services to the public" – means, for the purposes of the retail pharmacy wholesaler permit, holding the pharmacy out to the public through prominently displayed pharmacy signs on the exterior of the building and adequate inventory on hand to fill a variety of prescriptions for a variety of medical conditions that would be required by the public generally.

(r)(e) "Readily available" and "readily retrievable" mean that records, either hard copy or computerized, are organized in such a manner that they can be quickly and easily retrieved during an inspection; individual records can be produced within minutes of the request (unless the permitted address is not within the state in which case a 48 hour timeframe is available for producing records). Required records that are kept by automatic data processing systems or other electronic or mechanized recordkeeping systems are kept in such a manner so that they can be separated out from all other records in a reasonable time.

(s)(e) "Repackaging or otherwise changing the container, wrapper, or labeling to further the distribution" means:

1. Altering a packaging component that is or may be in direct contact with the drug, device, or cosmetic. For example, repackaging from bottles of 1000 to bottles of 100.

2. Altering a manufacturer's package for sale under a label different from the manufacturer. For example, a kit that contains an injectable vaccine from manufacturer A; a syringe from manufacturer B; alcohol from manufacturer C; and sterile gauze from manufacturer D packaged together and marketed as an immunization kit under a label of manufacturer Z.

3. Altering a package of multiple-units, which the manufacturer intended to be distributed as one unit, for sale or transfer to a person engaged in the further distribution of the product. This does not include:

Such a relationship can exist only when the veterinarian has recently seen and is personally acquainted with the keeping and care of the animal(s) by virtue of examination of the animal(s), and/or by medically appropriate and timely visits to the premises where the animal(s) are kept.

RULE NOS.:	RULE TITLES:
64F-12.012	Records of Drugs, Cosmetics and Devices
64F-12.025	Certification Authority and Digital Signatures for Self-Authenticating Pedigree

PURPOSE AND EFFECT: A proposed amendment to Rule 64F-12.012, F.A.C., requires an inventory of drugs at each wholesaler establishment, of drugs it has on hand as of June 30, 2006, so as to give the Department information useful to determining compliance as the drug pedigree law transitions effective July 1, 2006 from the requirements of Section 499.0121(6)(d) and (e), F.S., to Section 499.0121(6)(f), F.S. An additional proposed amendment to this rule would allow adjustments to the pedigree requirements for an emergency distribution, where a pharmacy or health care practitioner certifies to the wholesaler a need to treat a life threatening

medical condition, or medical condition that will result in serious bodily harm, even if a drug pedigree compliant with Section 499.0121(6)(f), F.S. is not available.

Rule 64F-12.025, F.A.C., is proposed to establish standards for a certification authority to issue a digital certificate to an employee of a wholesale establishment, where the establishment employs this person to certify the accuracy and completeness of a pedigree paper. Through this rule the Department seeks to facilitate a self authenticating drug pedigree.

SUMMARY: A proposed amendment to Rule 64F-12.012, F.A.C., would require an inventory of drugs on hand as of June 30, 2006. An additional amendment to this rule also allows adjustments to the pedigree requirement in certain emergency situations.

Proposed Rule 64F-12.025, F.A.C., would facilitate the use of a self-authenticating electronic drug pedigree. Self authentication is facilitated when the digital signature of the person authenticating the information that person provides on the pedigree is certified by an independent Certification Authority.

(2) Any person engaged in the manufacture of prescription drugs, the wholesale distribution of prescription drugs, or otherwise receiving or distributing prescription drugs must maintain records as follows:

(a) through (d) No change.

(e) Inventory. A complete and accurate record of all stock of prescription drugs on hand must be made annually available by establishments permitted under Chapter 499, F.S. A physical inventory must be conducted at least annually unless perpetual inventory records are maintained, in which case the physical inventory may be conducted on a biennial basis. Significant inventory discrepancies must be investigated and handled in accordance with the written policies and procedures of the establishment. In addition, no later than July 17, 2006, each wholesale distributor shall submit to the department an inventory of drugs it has on hand as of June 30, 2006.

(3) Pedigree papers.

(k) Emergency Distributions. A wholesale distributor may distribute and a purchasing pharmacy or health care practitioner authorized by law to purchase prescription drugs may accept a prescription drug for which a pedigree that complies with Section 499.0121(6)(f), F.S., is not available, when the prescription drug is required immediately to treat a specific patient with a life-threatening medical condition or a medical condition that will result in serious bodily harm. A pharmacist for the purchasing pharmacy or the health care practitioner shall supply the wholesale distributor with a coded reference to the specific patient and a statement that the emergency meets this section's requirements. 64F-12.025 Certification Authority and Digital Signatures for Self-Authenticating Electronic Pedigree.

(1) As used in this rule chapter the terms “certificate” and “Certification Authority” are as defined by Section 668.003, F.S. (2005). The department will list on its website one or more companies authorized to serve as a Certification Authority to issue digital certificates to persons for purposes of certifying via a digital signature the accuracy and completeness of a pedigree paper for authentication purposes under sub-subparagraph 64F-12.013(5)(d)1.f., F.A.C. The department recognizes that a Certification Authority listed on the department’s website may revoke any digital certificate it has issued. In addition, the department recognizes that the certificate holder and the employer of the certificate holder may also seek revocation of a certificate, for example because of termination of the holder’s employment or change of the holder’s authority to sign a pedigree for the employing establishment.

(2) The department will list on its website a Certification Authority that requests in writing to the bureau that it be so listed, if the request demonstrates:

(a) The Certification Authority meets the requirements set forth in the Federal Government Bridge Certification Authority Certificate Policy (FBCA CP), of the federal General Services Administration for “medium assurance” certificates, or comparable requirements.

(b) The Certification Authority requires at a minimum the following written documentation prior to granting a digital certificate to the person requesting a digital signature to sign an electronic pedigree:

1. Authorization from the establishment for whom the person is requesting a digital certificate that person may sign pedigree papers on the establishment’s behalf.

2. A valid, unexpired identification document which bears a photograph of the person requesting a digital certificate such as:

a. A passport issued by the United States, an immigration document issued by the Federal Government, or any document issued by an agency of the Federal Government or the Armed Services of the United States,

b. A passport issued by a foreign government if the passport includes or is accompanied by a document proving that the alien is lawfully in the United States, or

c. A document issued by a state or political subdivision if the issuing state or political subdivision prohibits the issuance of the identification document to an alien who is unlawfully in the United States, and the state or political subdivision requires independent verification of the records offered by the person to prove identity when applying for the identification document;

3. The valid permit of the establishment for whom the person requesting a digital certificate is employed, which authorizes that establishment to possess and to wholesale prescription drugs consistent with the transactions it documents on a drug pedigree paper.

(c) The Certification Authority shall submit to the department a statement from an independent auditor confirming that the Certification Authority complies with the requirements of this rule and the applicable provisions of sub-subparagraph 64F-12.013(5)(d)1.f., F.A.C., so that a recipient of a pedigree signed with a digital signature issued by the Certification Authority can rely on the integrity of the digital signature.

(3) To remain listed as a Certification Authority on the department’s website, the Certification Authority must submit a signed statement certifying to the department on an annual basis that it operates in accordance with the requirements of this section and has been audited by a qualified independent (from the operator of the Certification Authority) auditor on at least an annual basis. The Certification Authority must also submit a signed statement from an independent auditor that the Certification Authority complies with the requirements of this rule and the applicable provisions of sub-subparagraph 64F-12.013(5)(d)1.f., F.A.C. This documentation must be submitted to the department by June 1 of each year in order to remain listed on the department’s website as a Certification Authority for the next July 1 – June 30 period.

(4) If a Certification Authority proposes comparable requirements to the FBCA CP “medium assurance” certificates, the Certification Authority must provide a detailed crosswalk between the standards set forth for the FBCA CP “medium assurance” certificates and the proposed comparable requirements with a detailed explanation describing how the comparable requirements provide at least the same level of assurance as the FBCA CP standards.

(5) If any of the requirements in the FBCA CP differ from those set forth in this rule, the ones set forth in this rule shall prevail.

(6) If authorized by the affected establishments that lawfully purchase or receive prescription drugs to digitally sign their electronic pedigrees, an employee may be issued digital certificates for each such establishment or for multiple permits of a single establishment.

(7) The loss, theft, or compromise of a private key or password must be communicated to the Certification Authority within 24 hours of discovery of the key’s loss, theft, or compromise. Notification should promptly result in a request for revocation of the Certificate holder’s digital certificate and must include sufficient information to uniquely identify the certificate holder. Revocation shall be effective upon issuance of the next Certificate Revocation List.

(8) Either the certificate holder or the establishment shall request revocation of a certificate holder’s digital certificate upon termination of the certificate holder’s authorization to make digital signatures on behalf of the establishment. Notification should promptly request revocation of the certificate holder’s digital certificate and must include sufficient information to uniquely identify the certificate holder. Revocation shall be effective upon issuance of the next Certificate Revocation List.

(9) The establishment is ultimately responsible for electronic pedigrees that have been digitally signed on its behalf.

NOTICE OF CORRECTION

The previously proposed notice of rulemaking was withdrawn and a revised notice was published in Florida Administrative Weekly, Vol. 32, No. 12, March 24, 2006. Although the revised notice was in response to the Joint Administrative Procedures Committee a review of the previous notice and to correct items missed in the revised notice had some errors, which needed to be corrected. The following are corrections to the Notice of Correction published in Florida Administrative Weekly, Vol. 32, No. 13.

SUMMARY OF CORRECTION:

1. 14-75.003(5)(h)1.d.(II): Change “Type of Work 9.2.2” to “Type of Work 9.4.2” in the heading. NOTE: The word “Work” should have appeared instead of “Word” as corrected herein.
2. 14-75.003(5)(i)1.d.: Change “Type of Work 10.4: Major Bridge CEL.” to “Type of Work 10.4: Minor Bridge and Miscellaneous Structures CEL.” in the heading.

3. 14-75.003(5)(i)2.d.: Change “. . . two engineers/project administrators. . .” to “. . . two engineers/technicians. . .” NOTE: The correction is to the paragraph number, which should have been “2.d.” instead of “1.d.”

4. 14-75.003(5)(i)2.e.: Change “. . . performance of CEI for Type of Work 10.5.2.” to “. . . performance of CEI for Type of Work 10.5.1.” in 14-75.003(5)(i)1.e. NOTE: The correction is to the paragraph number, which should have been “2.e.” instead of “1.e.”

Note also, that the #4. correction referred to the first subparagraph e., and there was a correction to numbering. That correction of numbering was not needed as the correction had already been made by the editors before publishing the revised notice of rulemaking.

AGENCY FOR HEALTH CARE ADMINISTRATION

Medicaid

RULE NO.:	RULE TITLE:
59G-4.199	Mental Health Targeted Case Management

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 31, No. 50, December 16, 2005, issue of the Florida Administrative Weekly. This is the second Notice of Change. The first Notice of Change was published in Vol. 32, No. 10, March 10, 2006, issue of the Florida Administrative Weekly. These additional changes were made in response to comments received at the public hearing and from the Department of Children and Families after the public hearing.

In the rule text in paragraphs (2) and (3), all references to “October 2005” were changed to “July 2006.” In paragraph (2), the last sentence was revised to read, “Both handbooks are available from the Medicaid fiscal agent’s website at <http://floridamedicaid.acs-inc.com>. Click on Provider Support, and then on Handbooks. Paper copies of the handbooks may be obtained by calling Provider Inquiry at (800)377-8216.”

The proposed rule is incorporating by reference the Florida Medicaid Mental Health Targeted Case Management Coverage and Limitations Handbook. The effective date of the handbook was changed to July 2006, and the footer dates on all the handbook pages were changed to July 2006. The following revisions were made to the handbook:

Introduction, page i, Background, last paragraph, we deleted the reference to Transportation Services, because it is no longer a combined coverage and limitations and reimbursement handbook.

Chapter 1, page 1-3, Enrollment Process, second bullet, we changed "Certification forms signed by the district or regional SAMH office" to "signed by the area Medicaid office."

Chapter 1, page 1-4, District of Regional SAMH Office Responsibilities, we moved the first and forth bullet to a new section entitled, "Area Medicaid Office Responsibilities." The second bullet was revised to read, "May participate in the process the training targeted case managers." We deleted, "every three months." We added a third bullet to the new section that the area Medicaid office is also responsible for "participating in the process of training targeted case managers."

Chapter 1, page 1-5, Provider Agency Qualifications, we changed the first bullet to read, "Must be certified by its area Medicaid office for the specific target group(s) that the agency will serve." Under Provider Agency Certification, first paragraph, first sentence, we deleted, "in conjunction with DCF." In the second paragraph, we revised the references to the district or regional SAMH program office certifying the mental health targeted case management agency to the area Medicaid office.

Chapter 1, page 1-6, Administrative Provider Agency Certification Criteria for Mental Health Targeted Case Management, bullet 6, we deleted, "and DCF Mental Health Central Office, the district or regional SAMH office." In bullet 10., we changed "in-service training," to "targeted case management training," and deleted approved by "DCF."

Chapter 1, page 1-8, Supervisor Certification Criteria, second paragraph, first sentence, was revised to state that the training must be approved by AHCA.

Chapter 1, page 1-9, Individual Children's Mental Health Targeted Case Manager Certification, bullet 1, the third paragraph was deleted because it is no longer applicable. Bullet 2, first sentence, was revised to state that the individual, "has completed or agrees to complete AHCA-approved mental health targeted case management training. . ."

Chapter 1, page 1-10, Individual Adult Mental Health Targeted Case Manager Certification, bullet 1, third paragraph, "can" was changed to "may." Bullet 2 was revised to state that the individual, "has completed or agrees to complete AHCA-approved mental health targeted case management training. . ."

Chapter 2, page 2-3, Certification Criteria for Children's Mental Health Targeted Case Management, the last paragraph was numbered bullet 9 and corrected to read, "Has relocated from a DCF district or region where he was receiving mental health targeted case management services. This must be documented in the recipient's case record."

Chapter 2, page 2-5, Certification Criteria for Adult Mental Health Targeted Case Management, bullet 9 was corrected to read, "Has relocated from a DCF district or region where he was receiving mental health targeted case management services. This must be documented in the recipient's case record."

Chapter 2, page 2-9, Institutions for Mental Diseases, we revised the first sentence to read, "Medicaid does not reimburse for mental health targeted case management services rendered to a resident of an institution for mental diseases (IMD), unless the resident is participating in the Statewide Inpatient Psychiatric Program Waiver."

Chapter 2, page 2-10, third bullet, we replaced the acronyms with full titles. In the sixth bullet, we made the last sentence a separate bulleted item.

Chapter 2, page 2-12, Transportation, second paragraph, we corrected the last sentence to read, "Medicaid contracts with a vendor, who arranges for non-emergency transportation services for Medicaid recipients."

Chapter 2, page 2-12, Travel, the policy was rewritten to read, "Reimbursement for travel time is incorporated into the unit rate and may not be billed separately."

Chapter 2, page 2-21, Documentation Reviews, the reference to the district or regional SAMH program office was deleted.

Chapter 3, page 3-2, Exceptions to Service Limits, the second paragraph was deleted, because exceptions to the service limits are not available for adults age 21 and older.

Appendix A, the Maximum Fee was changed to \$12.00 per unit.

Appendices B, C, D, and L, the signature block was changed from the District or Regional SAMH Designated Representative to the Area Medicaid Office Designated Representative.

Appendices B and C, bullet 10, was revised to read, "Has the ability to maintain and produce documentation that verifies that mental health targeted case managers have participated in case management training as required and approved by AHCA."

Appendices E and F, third bullet, first sentence, and Appendices G and H, second bullet, "SAMH approved" mental health targeted case management training was replaced with "AHCA-approved" mental health targeted case management training.

A copy of the revised Florida Medicaid Mental Health Targeted Case Management Coverage and Limitations Handbook, July 2006, is available from Michelle Comeaux, Bureau of Medicaid Services, at 921-8288.

DEPARTMENT OF COMMUNITY AFFAIRS

DCA Order No.: DCA06-OR-099

In re: A LAND DEVELOPMENT REGULATION ADOPTED, BY ISLAMORADA, VILLAGE OF ISLANDS
ORDINANCE NO. 06-02

FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2005), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and Islamorada, Village of Islands is a local government within the Florida Keys Area.

2. On March 1, 2006, the Department received for review Islamorada, Village of Islands Ordinance No. 06-02 which was adopted by the Village Council on February 23, 2006 ("Ord. 06-02"). The purpose of Ord. 06-02 is to amend Section 30-1542, "Shoreline Setback," of Division 2 "Docks and Shoreline Uses" of Article VII "Environmental Regulations" of Chapter 30 "Land Development Regulations" of the Village Code.

3. The final date for approval for this Ordinance is April 28, 2006.

4. The Ordinance incorporates additional text differentiating legally altered shorelines from legally altered open water shorelines, increases setback for principle development along legally altered open water shorelines, and describes new categories in the legally altered open water shoreline criteria.

5. Ord. 06-02 is consistent with the Village Comprehensive Plan.

CONCLUSIONS OF LAW

6. The Department is required to approve or reject land development regulations or portions thereof that are enacted, amended or rescinded by any local government in the Florida Keys Area of Critical State Concern. §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2005).

7. Islamorada, Village of Islands is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2005), and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.

8. "Land development regulations" include local zoning, subdivision, building, and other regulations controlling the development of land. § 380.031(8), Fla. Stat. (2005). The regulations adopted by Ord. 06-02 are land development regulations.

9. All land development regulations enacted, amended or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in § 380.0552(7), Fla. Stat. (2005). See Rathkamp v. Department of Community Affairs, 21 F.A.L.R. 1902 (Dec. 4, 1998), aff'd, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.

10. Ord. 06-02 promotes and furthers the following Principles:

- (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
- (b) To protect shoreline and marine resources, including mangroves, coral reef formations, seagrass beds, wetlands, fish and wildlife, and their habitat.
- (c) To protect upland resources, tropical biological communities, freshwater wetlands, native tropical vegetation (for example hardwood hammocks and pinelands), dune ridges and beaches, wildlife, and their habitat.
- (e) To limit the adverse impacts of development on the quality of water throughout the Florida Keys.

11. Ord. 06-02 is not inconsistent with the remaining Principles. Ord. 06-02 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 06-02 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.

DCA Final Order No.: DCA06-OR-101

In re: MONROE COUNTY LAND
DEVELOPMENT REGULATIONS
ADOPTED BY MONROE COUNTY
ORDINANCE NO. 034-2005

FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2005), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and Monroe County is a local government within the Florida Keys Area.
2. On February 7, 2006, the Department received for review Monroe County Ordinance No. 034-2005 ("Ord. 034-2005").
3. The final order for this Ordinance must be signed by April 7, 2006.
4. The Ordinance amends the Land Development Regulations (LDRs) to implement Policies 101.4, 101.4.2, 101.4.3, and 101.4.4 of the Monroe County 2010 Comprehensive Plan to recognize nonresidential uses lawfully established under the pre-1996 LDRs and pre-2010 Comprehensive Plan that were rendered nonconforming by the 2010 Comprehensive Plan and allow them to redevelop, reestablish, and make substantial improvements.
5. Ordinance 034-2005 is consistent with the 2010 Monroe County Comprehensive Plan.

CONCLUSIONS OF LAW

6. The Department is required to approve or reject land development regulations that are enacted, amended, or rescinded by any local government in the Florida Keys Area of Critical State Concern. § 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2005).

7. Monroe County is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2005) and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.

8. "Land development regulations" include local zoning, subdivision, building, and other regulations controlling the development of land. § 380.031(8), Fla. Stat. (2005). The regulations adopted by Ord. 034-2005 are land development regulations.

9. All land development regulations enacted, amended, or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in § 380.0552(7), Fla. Stat. See Rathkamp v. Department of Community Affairs, 21 F.A.L.R. 1902 (Dec. 4, 1998), aff'd, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.

10. Ord. 034-2005 promotes and furthers the following Principles:

(a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.

(d) To ensure the maximum well-being of the Florida Keys and its citizens through sound economic development.

(l) To protect the public health, safety, and welfare of the citizens of the Florida Keys and maintain the Florida Keys as a unique Florida resource.

11. Ord. 034-2005 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 034-2005 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.
