

(v) Offering for sale or selling a life insurance product which includes a side fund to a service member who is currently enrolled in SGLI, is presumed unsuitable unless, after the completion of a needs assessment, the insurer demonstrates that the applicant’s SGLI death benefit, together with any other military survivor benefits, savings and investments, survivor income, and other life insurance are insufficient to meet the applicant’s insurable needs for life insurance.

1. “Insurable needs” are the risks associated with premature death taking into consideration the financial obligations and immediate and future cash needs of the applicant’s estate and/or survivors or dependents.

2. “Other military survivor benefits” include, but are not limited to: the Death Gratuity, Funeral Reimbursement, Transition Assistance, Survivor and Dependents’ Educational Assistance, Dependency and Indemnity Compensation, TRICARE Healthcare benefits, Survivor Housing Benefits and Allowances, Federal Income Tax Forgiveness, and Social Security Survivor Benefits.

(w) Excluding individually issued annuities, offering for sale or selling any life insurance contract which includes a side fund:

1. Unless interest credited accrues from the date of deposit to the date of withdrawal and permits withdrawals without limit or penalty;

2. Unless the applicant has been provided with a schedule of effective rates of return based upon cash flows of the combined product. For this disclosure, the effective rate of return will consider all premiums and cash contributions made by the policyholder and all cash accumulations and cash surrender values available to the policyholder in addition to life insurance coverage. This schedule will be provided for at least each policy year from one (1) to ten (10) and for every fifth policy year thereafter ending at age 100, policy maturity or final expiration; and

3. Which by default diverts or transfers funds accumulated in the side fund to pay, reduce or offset any premiums due.

(x) Excluding individually issued annuities, offering for sale or selling any life insurance contract which after considering all policy benefits, including but not limited to endowment, return of premium or persistency, does not comply with standard nonforfeiture law for life insurance.

(y) Selling any life insurance product to an individual known to be a service member that excludes coverage if the insured’s death is related to war, declared or undeclared, or any act related to military service except for an accidental death coverage, e.g., double indemnity, which may be excluded.

#### NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with paragraph 120.54(3)(d)1., F.S., published in Vol. 33, No. 18, May 4, 2007 issue of Florida Administrative Weekly.

Rule 5E-1.003(2) Labeling Requirements for Urban Turf Fertilizers.

The original intent of this rule was to establish phosphorous application rate labeling criteria for urban lawn and turf fertilizer products. Following publication of the proposed rule on March 2, 2007 (FAW Vol. 33, No. 9), a rule hearing was held on March 29, 2007 at the Plant Science Research and Education Building, Citra, Florida. After input from members of the industry and the water management districts rule modifications were made to address the application rates of nitrogen as well as phosphorus. A Notice of Change was published on May 4, 2007 (FAW Vol. 33, No. 18), and a second hearing was scheduled for May 25, 2007 in Tallahassee.

At this hearing, stakeholders from governmental interests and the industry provided testimonials and additional information regarding the proposed application rate of 0.5 lbs of readily available nitrogen per 1,000ft<sup>2</sup>. In sum, there was continued opposition to the proposed application rate of nitrogen resulting from the lack of current scientific data supporting 0.5 lbs of readily available nitrogen per 1,000ft<sup>2</sup>. Therefore the rule language has been modified so that when adopted the rule will reflect current scientific data and implement an acceptable application rate of 0.70 lbs. of readily available nitrogen per 1,000 ft<sup>2</sup>, not to exceed 1lb of total nitrogen per application and not to exceed the annual nitrogen amounts set forth in the rule table entitled “Fertilization Guidelines for Established Turfgrass Lawns in Three Regions of Florida.”

When adopted the rule will read as follows:

(d) Net volume, in lieu of net weight, may be used for labeling mulch products or materials sold for primary use as above ground dressing.

(4) SLOW OR CONTROLLED RELEASE, STABILIZED NITROGEN AND ENHANCED EFFICIENCY FERTILIZERS.

(a) Definitions,

1. Slow or controlled release fertilizer means a fertilizer containing a plant nutrient in a form which delays its availability for plant uptake and use after application, or which extends its availability to the plant significantly longer than a referenced "rapidly available nutrient fertilizer" such as ammonium nitrate or urea, ammonium phosphate or potassium chloride.

2. Stabilized Nitrogen Fertilizer means a fertilizer to which a nitrogen stabilizer has been added.

3. Nitrogen stabilizer means a substance added to a fertilizer which extends the time the nitrogen component of the fertilizer remains in the soil in the urea or ammoniacal form. Urease inhibitors and nitrification inhibitors are nitrogen stabilizers.

4. Urease Inhibitor means a substance which inhibits hydrolytic action on urea by the urease enzyme. When applied to soils the effect of the urease inhibitor is less urea nitrogen lost by ammonia volatilization.

5. N-(n-butyl) thiophosphoric triamide (NBPT) means a compound that is the normal butyl derivative of thiophosphoric triamide and is a urease inhibitor (CAS No. 94317-64-3).

6. Nitrification Inhibitor means a substance that inhibits the biological oxidation of ammoniacal nitrogen to nitrate nitrogen.

7. Cyanamide means a commercial product consisting principally of calcium cyanamide (CaNCN). It is a nitrification inhibitor.

8. Dicyandiamide means a water soluble organic compound of formula C<sub>2</sub>H<sub>4</sub>N<sub>4</sub> which contains at least sixty-five percent 65% nitrogen. It is a source of slowly available nitrogen. It is a nitrification inhibitor.

9. Ammonium Thiosulfate means a commercial product composed principally of (NH<sub>4</sub>)<sub>2</sub>S<sub>2</sub>O<sub>3</sub>. It is a nitrification inhibitor.

10. Enhanced Efficiency Fertilizer means a fertilizer product with characteristics that minimize the potential of nutrient losses to the environment, as compared to a "reference soluble" product.

(b) When one or more slow or controlled release, stabilized nitrogen or enhanced efficiency fertilizers are claimed or advertised, the guarantees for such nutrients shall be shown as a footnote following the listing of source materials and shall be expressed as percent of actual nutrient.

(c) Listing of source materials providing slow or controlled release characteristics by controlling the water solubility of a naturally soluble material (as by coating or occlusion) shall constitute a claim of controlled release nutrient, and a guarantee for such nutrient shall be required.

(d) Listing of source materials in which availability of nitrogen is controlled through slow hydrolysis of water soluble organic nitrogen compounds shall constitute a claim of slow release or controlled release nutrient and a guarantee for such nutrient shall be required. The reference for such availability shall be the enzymatic hydrolysis of urea.

(e) No guarantee, claim or advertisement shall be made or required when a slow or controlled release, stabilized nitrogen or enhanced efficiency nutrient is less than 15 percent of the total guarantee for that nutrient.

**(5) CHLORINE GUARANTEE.**

(a) Chlorine shall be guaranteed as to maximum percentage content, when applicable, in agricultural fertilizer. "Specialty Fertilizer" defined in Section 576.011(36), F.S., shall be exempt from chlorine guarantees.

(b) Maximum chlorine shall be guaranteed in all brands which contain one percent (1%) or more, or in which potassium chloride or other materials bearing substantial amounts of chlorine are present.

(c) The maximum chlorine shall be guaranteed in all brands intended for use on tobacco.

(d) Maximum chlorine guarantees shall be reasonably accurate and not misleading, and consistent with source materials present. Two percent (2%) shall be the maximum permissible guarantee in fertilizers, except where potassium chloride, fish emulsion, or other high chlorine materials are present.

**(6) DECLARATION OF FLORIDA LICENSEE NUMBER.**

(a) The Florida Licensee Number, shall appear and be clearly identified on all fertilizer labels with a capital "F" preceding the license number.

(b) The number must be clear, legible and appear prominently and conspicuously on the label in proximity to the brand name or guaranteed analysis. The number must be placed in such a manner as to avoid any misinterpretation or confusion with percentages, pounds, or figures, statements, and in no way be misleading.

(7) **REGISTRATION OF SPECIALTY FERTILIZER PRODUCTS.** All specialty fertilizers to be sold within the state must be registered with the Bureau of Compliance Monitoring prior to any sale. Each product will be registered by filing the properly completed appropriate form with the Bureau. Only one form will be submitted for each product. Specialty fertilizer packaged, marketed, and distributed for home and garden use and packaged in quantities of forty-nine pounds or less (Specialty Fertilizer) will be registered upon the filing of properly completed Application for Specialty Fertilizer Registration (Fertilizer Form DACS-13220, Rev. 06/07) and (Fertilizer Form DACS-13203, Rev. 6/01) which is hereby incorporated by reference. Copies may be obtained from the Division of Agricultural Environmental Services, Bureau of Compliance Monitoring, 3125 Conner Boulevard, Building 8, Tallahassee, Florida 32399-1650.

**(8) LICENSEE.**

(a) Any person whose name is on a fertilizer label and who guarantees the fertilizer must obtain a license prior to distribution of that fertilizer to a non-licensee.

(b) A license will be granted upon receipt of a properly executed Application for Fertilizer License (Fertilizer Form DACS-13222, Rev. 5/03), which is hereby incorporated by reference. Copies may be obtained from the Division of Agricultural Environmental Services, Bureau of Compliance Monitoring, 3125 Conner Boulevard, Building 8, Tallahassee, Florida 32399-1650.

Prescription Drug Manufacturer	\$1500
Prescription Drug Repackager	\$1500
Device Manufacturer	\$1200
Cosmetic Manufacturer	\$ 800
Over-the Counter Drug Manufacturer	\$ 800
Compressed Medical Gas Manufacturer	\$1000
Non-resident Prescription Drug Manufacturer	\$1000

No manufacturer shall be required to pay more than one fee per establishment to obtain an additional manufacturing permit; but the manufacturer must pay the highest fee applicable to the operations in each establishment.

(2)(a) No change.

(b) Annual fees for a wholesaler's permit that is issued on an annual basis are as follows:

**Section IV  
 Emergency Rules**

**DEPARTMENT OF REVENUE**

**Property Tax Administration Program**

RULE NO.: 12DER07-05  
 RULE TITLE: Forms for Use in Administering House Bill 1B

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: Enrolled HB 1B, as signed by the Governor on

June 21, 2007, authorizes the Department of Revenue to adopt emergency rules that remain in effect for 18 months and that may be renewed. This act further provides that all conditions imposed by Chapter 120, Florida Statutes, are deemed to be met.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: The Legislature expressly authorized the Department of Revenue to adopt emergency rules that implement the provisions of Enrolled HB 1B, as signed by the Governor on June 21, 2007. The law provides that these emergency rules remain in effect for a period of 18 months and that they may be renewed. The forms included here relate to actions required by law to be taken on or before July 1, 2007 and July 2, 2007. The Department of Revenue has taken several actions to inform interested parties about the forms, procedures, and emergency rules that are being developed to implement this new law, and to give such parties an opportunity, to review and comment. These interested parties include Property Appraisers and the professional associations that represent them, counties, municipalities, and independent districts, and their associations, and practitioners who have told the Department that they want to receive all information associated with property tax rulemaking. The actions that the Department has taken include: testing the email addresses and fax numbers of interested parties to ensure the Department’s communications are successfully received; requesting the assistance of other state agencies and professional associations in obtaining correct email and mail addresses; establishing several new Department email addresses to make it easier for interested parties to submit comments and questions to the agency; establishing a new website on which to post information, forms, and procedures associated with implementation of this act; emailing and/or mailing copies of the draft forms to interested parties; and, the public circulation of the Form DR-420 and comments received in response, were used in the development of Form DR-420S that is substantially similar to Form DR-420.

SUMMARY: Emergency Rule 12DER07-05 (Forms for Use in Administering House Bill 1B) adopts by reference six forms: A) Three Truth in Millage forms-1) Revised form DR-420 (Certification of Taxable Value; R. 06/07); this form is used by each Property Appraiser to certify taxable value and used by each local taxing authority to certify property tax millages and rates. 2) New form DR-420TIF (Tax Increment Adjustment Worksheet; N. 06/07); this form is used by each Property Appraiser to determine and certify tax increment values for the applicable local taxing authorities in the county; 3) Revised form DR-420S (Certification of School Taxable Value; R. 06/07); this form is used by each Property Appraiser to certify taxable value and to be used by each district school board to certify property tax millages and rates. B) Two forms to be used by Property Appraisers and Chairs of local governing bodies for reporting purposes (on or before July 2, 2007)-1)
