THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

40D-1.603 Permit Application Procedures.

(1) No change.

(2) No later than 30 days after receipt of an initial application or modification of an application for renewal or modification of an individual surface water management permit, an individual Environmental Resource Permit or an individual water use permit application for withdrawals of 500,000 gpd annual average daily or greater pursuant to Chapter 40D-2, F.A.C., the District shall publish notice thereof in a newspaper having general circulation as defined in Chapter 50, F.S. Upon receipt of an application for an initial or renewal or modification of a general Environmental Resource Permit pursuant to Chapter 40D-40, F.A.C., a general surface water management permit pursuant to Chapter 40D-40, F.A.C., (January 11, 1993) or a noticed general surface water management permit pursuant to Chapter 40D-400, F.A.C., or for a general water use permit for less than 500,000 gpd annual average daily pursuant to Chapter 40D-2, F.A.C., the District shall post notice thereof in the District's headquarters and in each of the District's service offices. In the event that after posting of notice an application for a general permit is modified such that it is an application for an individual permit,

notice of the application shall be published in a newspaper as provided above. In addition, the District shall provide a letter giving notice of receipt of the application to any person who has filed a written request within the immediately preceding six months for notification of any pending applications affecting the particular designated area. Each notice and letter shall state that interested persons shall have the opportunity to inspect a copy of the application and submit written comments concerning the application. The District may request persons submitting objections or comments to furnish additional information. In addition, each notice and letter will advise that if notice of agency action or opportunity to request an administrative hearing pursuant to Chapter 120, F.S., regarding a permit application is desired, a written request referencing the permit application number must be filed with and received by the Processing and Records Section by the date specified in the letter, newspaper notice or the posted notice as applicable pursuant to this subsection. The date specified in such notice or letter to obtain notice of agency action or to request a hearing shall be no less ~~than~~ that 14 days from the date of mailing, publication or posting as applicable. Upon request, the District will provide the applicant with a copy of all objections and comments received.

(3) through (7) No change.

(8) Holders of renewable licenses or permits shall make timely and sufficient application for renewal so as to avoid expiration during the renewal process. Application for a license or permit renewal is timely only if actually received at the District prior to expiration of the existing license or permit. Mailing the application does not constitute receipt by the District. When timely and sufficient application for renewal is made, the existing license or permit shall not expire until the application for renewal has been finally acted upon by the District, or if the license or permit is denied or the terms of the license or permit are limited, until the last day for seeking review of the District action or a later date fixed by order of the reviewing court.

**Water Use Permit Information Manual  
Part B, Basis of Review**

**1.14 PERMIT COMPLIANCE**

Pumpage in excess of the amount permitted is a violation of the permit. The District generally addresses

this violation according to the following procedures.

If over-pumpage is reported, District staff will issue a Notice of Noncompliance and request that the Permittee provide a written response, which includes an explanation of the over-pumpage, within 30 days of issuance of the Notice of Noncompliance, which will be placed in the permit file. If the Permittee timely responds to the Notice of Noncompliance and demonstrates that the ~~recurrence~~ of over-pumpage is due to a calculation or reporting error or a one-time occurrence (such as

a pipeline break) and is unlikely to reoccur and no adverse impacts have occurred, the overpumpage will be excused and no enforcement action will be taken. If overpumpage is not due to a calculation or reporting error or other one-time occurrence and is ongoing, the Permittee must include in its written response a description of actions being taken to bring water withdrawals into compliance. Compliance could involve, among other things, reducing pumpage, mitigating any adverse impacts caused by overpumping or obtaining, if permissible, a modification of the permit for an increased withdrawal quantity. If the Permittee does not adequately address the overpumpage and bring pumpage into compliance in a timely manner, further enforcement action will be taken by the District. Enforcement action includes but is not limited to the assessment of monetary penalties and recovery of District enforcement-related costs. Once corrected, if unexcused overpumpage occurs again during the permit duration, the District will proceed directly to enforcement action. If the District determines that the Permittee is likely to need an increase in the quantity permitted, the Permittee must submit an application for modification of the permit. If the Permittee continues to exceed the quantities permitted without obtaining a modification, the District may then take appropriate enforcement action. If the permit is due for renewal within 1 year of the violation, and no adverse impacts are expected as a result of the over pumpage, the modification may be addressed at renewal.

Agricultural water use quantities are determined using the District's irrigation ~~agricultural~~ water use permitting model. The permitted quantities derived from this model are based on various climatic scenarios ~~a 2 in 10 year drought occurrence~~. It is therefore anticipated that, because of varying climatic conditions and other factors, an agricultural permittee's water use may vary both below, and occasionally above, the permitted quantity. These factors will be taken into consideration when comparing actual use with permitted quantities.

The District will also issue Notices of Noncompliance and undertake comparable compliance or enforcement action for other permit condition violations, such as nonsubmittal of pumpage meter readings, monitoring and other required reports; and failure to mitigate adverse impacts resulting from water use.

PURPOSE AND EFFECT: The purpose of these rule amendments is to correct the legal description of the Northern Tampa Bay Water Use Caution Area (NTBWUCA) appearing in Rule 40D-2.801(3), F.A.C., and incorporate by reference a revised Water Use Permit Information Manual Part B, Basis of

Review (BOR). Section 7.3 of the BOR is revised to delete an unnecessary sentence in the lead paragraph describing the NTB WUCA. The effect will be to correctly include that portion of Section 24, Township 29, Range 19 north of State Road 60 within the legal description of the NTB WUCA, and eliminate a potentially unclear sentence.

SUBJECT AREA TO BE ADDRESSED: Water Use Permitting.

WATER USE PERMIT INFORMATION MANUAL, PART B  
BASIS OF REVIEW

7.0 WATER USE CAUTION AREAS

7.3 NORTHERN TAMPA BAY WATER USE CAUTION AREA

The Governing Board originally declared portions of Hillsborough and Pasco Counties, and all of Pinellas County a Water Use Caution Area (WUCA) on June 28, 1989. The Governing Board approved expansion of the boundaries of the Water Use Caution Area in June 2007. The area designated is shown in Figure 7.3-1; the legal description is provided in paragraph 40D-2.801(3)(a), F.A.C. As of the effective date of this rule, all existing water use permits within the Water Use Caution Area are modified to incorporate the applicable measures and conditions described below. Valid permits, legally in effect as of the effective date of this rule, are hereafter referred to as existing permits. Existing permits within those portions of the Water use Caution Area added in 2007 shall have until July 1, 2008 to comply with the provisions of this rule. Applicable permit conditions, as specified below, are incorporated into all existing water use permits in the Water Use Caution Area and shall be placed on new permits issued for withdrawals located within the Area. ~~However, both the language and the application of any permit conditions listed may be modified when appropriate.~~

These portions of the Basis of Review for the Northern Tampa Bay Water Use Caution Area are intended to supplement the other provisions of the Basis of Review and are not intended to supersede or replace them. If there is a conflict between requirements, the more stringent provision shall prevail.

1. through 8. No change.

61G15-30.001 Purpose.

The Board has adopted these responsibility rules pursuant to Section 471.033(2), F.S., to safeguard the life, health, property and welfare of the public by promoting proper conduct in the practice of engineering and due care and regard for acceptable engineering principles and standards. The Board considers that professional engineers may avoid disciplinary actions by observing the procedures set forth herein. Failure to comply with these rules may be considered as noncompliance with subsection 61G15-19.001(4), F.A.C., unless the deviation or departure therefrom is justified by the specific circumstances of the project in question and the sound professional judgment of the engineer. Furthermore, these rules are intended to apply as general guidelines where no contractual relationship exists between the parties addressed herein. These rules are not intended to take precedence over contractual relationships developed between the parties addressed herein, so long as those contractual relationships do not violate Chapter 471, F.S., ~~or the stated purpose of these responsibility rules or any other rule promulgated pursuant thereto.~~ These responsibility rules shall apply to every person holding a certificate of registration as a professional engineer, every certified engineer intern, and every holder of a certificate of authorization, as appropriate. A professional engineer’s practices, education, training, experience, qualifications, technical competence, conduct, and

responsibilities in connection with his authorized engineering practice, services, and creative work are subject to regulation solely by the Board of professional engineers, ~~and~~ the courts, and local jurisdictions.

61G15-30.002 Definitions Common to All Engineer’s Responsibility Rules.

(1) through (6) No change.

(7) “Engineering Documents Prepared for Public Record” are those documents filed for public record with the Authority Having Jurisdiction (AHJ) to determine compliance with Codes and Standards and to be used for execution of the project. These documents are required to be signed and sealed.

(8) Shop Drawings: Drawings depicting installation means and methods, catalog information on standard products, prepared by a contractor, manufacturers, or professional engineers for incorporation into the project which are prepared based on engineering direction contained in Engineering Documents. Shop drawings do not require the signature, date and seal of a professional engineer.

(9) Record Documents: Documents that are a compiled representation of the constructed project. If the engineer is relying on information provided by others not under the direct supervision and control of the engineer, then the engineer shall not be required to sign, date and seal these Documents. If relying on information by others, as a minimum, the following shall be included on the Documents:

(a) Statement that the documents are a compiled representation of the constructed project.

(b) Listing of the sources and basis of information used in the preparation of the Documents.

(c) Statement that the Documents are believed to be correct to the best of the engineer’s knowledge, and that the accuracy of the information cannot be guaranteed.

61G15-30.003 Minimum Requirements for Engineering Documents Engineering Document Classification.

(1) Engineering Documents are prepared in the course of performing engineering services. When prepared for inclusion with an application for a general building permit, the Documents shall meet all Engineer’s Responsibility Rules and be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that it will conform to the provisions of the Florida Building Code and relevant laws, ordinances, rules and regulations, as determined by the AHJ. The Documents shall include:

(a) Information that provides material specifications required for the safe operation of the system that is a result of engineering calculations, knowledge and experience.

(b) List Federal, State, Municipal, and County standards, codes, ordinances, laws, and rules, with their effective dates, that the Engineering Documents are intended to conform to.

(c) Information, as determined by the Engineer of Record, needed for the safe and efficient operation of the system.

(d) List engineering design criteria; reference project specific studies, reports, and delegated Engineering Documents.

(e) Identify clearly elements of the design that vary from the governing standards and depict/identify the alternate method used to ensure compliance with the stated purpose of these Responsibility Rules.

(2) Engineers shall legibly indicate their name and business address, on engineering documents. Engineering documents which are issued for preliminary or conceptual use, shall clearly note the intended purpose of such documents.

(3) When elements of the project are shown on an engineering document only for information or clarification and the Engineer does not intend to accept responsibility for the elements, the engineer shall clearly note on the documents the extent of his responsibility.

(4) Engineering drawings shall be legible and conform to good drafting practices. They must also comply with Chapter 61G15-23, F.A.C., Seals.

(5) Engineers shall clearly note on any preliminary engineering documents that such documents are not in final form, but are being transmitted to the public agency to receive agency reviews, comments and interpretations. The documents may subsequently be revised by the engineer to reflect resolution of issues with the public agency prior to final action by the agency. Changes, revisions and modifications to a project may prompt additional document submittal for agency approval action on the same project.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE NOTICED IN THE NEXT AVAILABLE FLORIDA ADMINISTRATIVE WEEKLY.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT IS: Carrie Flynn, Executive Director, Board of Professional Engineers, 2507 Callaway Road, Suite 200, Tallahassee, Florida 32301

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

61G15-33.001 General Responsibility.

Electrical Engineering documents shall be prepared ~~utilizing in accordance with~~ applicable technologies and shall comply with the requirements of the authority having jurisdiction. The documents shall identify the Engineer of record for the electrical systems project. Electrical Engineering documents shall ~~demonstrate compliance~~ ~~be prepared in accordance~~ with the requirements of the applicable codes and standards as defined herein. The ~~Engineer of~~ ~~Record~~ is responsible for determining the applicability of appropriate codes and standards to a given project. In the event the codes and

standards fail to cover or address a specific requirement or situation, alternative research, test results, engineering data, and engineering calculations shall be utilized. New technology may be utilized when said technology has been demonstrated to provide equivalent or improved performance. Construction documents shall indicate the nature and character of the electrical work and shall describe, label and define the required electrical systems components, processes, equipment and material and its structural utility support systems. Both the Engineer of Record for the electrical system and the delegated engineer if utilized, shall comply with the requirements of the general responsibility Rules, Chapter 61G15-30, F.A.C., and with the requirements of the more specific rules contained herein. The Engineer of Record for the Electrical System(s) shall provide design requirements in writing to the delegated engineer if one is used and shall review the design documents of the delegated engineer for conformance to his written instructions in accordance with Rule 61G15-30.005, F.A.C. Any Electrical Delegated Engineering Documents must be included in the final set of documents filed for permit.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History–New 5-19-93, Formerly 21H-33.001, Amended \_\_\_\_\_.

61G15-33.002 Definitions.

(1) Engineer of Record for the Electrical Systems. The Florida Registered Professional Engineer who develops the electrical system design criteria or performs the analysis and is responsible for the preparation of the Electrical documents for the project.

(2) through (4) No change.

(5) Electrical Engineering Documents. All The electrical drawings, specifications, reports, calculations, data and other documents utilized to establish setting forth the overall design and requirements for the construction, alteration, modernization, repair, demolition, arrangement, and/or use of the electrical system, or analysis or recommendations, as prepared by the Engineer of Record for the Electrical System. Electrical Engineering Documents shall additionally meet the requirements of Rule 61G15-30.003, F.A.C., Engineering Documents.

(6) Electrical Submittals. Submittals, catalog information on standard products, or drawings prepared solely to serve as a guide for fabrication and installation and requiring no engineering input. These submittals do not require the seal of a Florida registered professional engineer.

(7) Codes and Standards. Those nationally recognized Codes and Standards adopted directly or by reference in Florida Building Code (including Florida Energy Efficiency Code, Chapter 13) and Florida Fire Code, Part II, Chapter 553, Florida Statutes. Applicable codes and standards also include those published by the National Fire Protection Association

~~(NFPA), the Institute of Electrical and Electronic Engineers (IEEE), the Illuminating Engineering Society of North America (IESNA), as well as those promulgated by the state fire marshal and other state and local authorities having jurisdiction.~~

(8) Electrical Delegated Engineering Documents. Electrical Engineering Documents prepared by a delegated engineer to whom the Engineer of Record for the Electrical System has delegated responsibility for the design of an electrical component or system and which are signed, sealed and dated by the delegated engineer.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History–New 5-19-93, Formerly 21H-33.002, Amended \_\_\_\_\_.

61G15-33.003 Design of Power Systems.

(1) Power systems convey or distribute electrical energy. Items to be included in the design and analysis of these systems are: steady state and transient loads, short circuit analysis and protection (design and analysis), load flow, voltage drop, harmonics, and protective device coordination.

(2) Electrical Engineering Documents applicable to power systems shall at a minimum indicate the following:

(a) Power Distribution System Riser Diagram with short circuit values.

(b) No change.

(c) Circuit interrupting Protection devices and fault current interrupting capability.

(d) Location and characteristics of surge protective devices

~~(e)(d)~~ Main and distribution switch gear, panels, control devises and equipment panelboard locations and sizes.

(f) Voltage drop calculations for the feeders and customer-owned service conductors are required. Additionally, the documents shall state the reasons why the two percent limit for feeders and customer-owned service conductors are not being met, if applicable.

~~(g)(e)~~ Circuitry of all outlets, equipment and devices.

~~(h)(f)~~ Short circuit analysis Load computations.

~~(g)~~ Load computations.

~~(i)(h)~~ Electrical legends.

~~(j)(i)~~ Grounding and bonding.

~~(k)(j)~~ Instrumentation and control where required.

(l) Record documents applicable to power systems shall, at a minimum, contain information as required by FBC.

(m) Emergency back-up systems

Specific Authority 471.008, 471.033(2), 553.73 (13-413.1 FBC) FS. Law Implemented 471.033 FS. History–New 5-19-93, Formerly 21H-33.003, Amended \_\_\_\_\_.

61G15-33.004 Design of Lighting Systems.

(1) Lighting systems convert electrical energy into light. Items to be included in the lighting design and analysis are: Average illuminance, Equivalent spherical illuminance, Uniformity ratios, Visual comfort probability, special purpose lighting, impact of light intrusion, trespass and safety and the requirements of the Florida Energy Efficiency Code, Part IX, Chapter 553, Florida Statutes.

(2) Electrical Engineering documents for lighting systems shall, at a minimum, indicate the following:

- (a) No change
- (b) Emergency Lighting, egress and exit lighting.
- (c) Exit Lighting as required.
- (d) Lighting control and circuiting.

(e) Calculated values needed for lighting systems in compliance with the Florida Energy Code for Building Construction.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History—New 5-19-93, Formerly 21H-33.004, Amended.

61G15-33.005 Design of Communications Systems.

(1) Communications systems are utilized to convey voice and messages or data. Items to be included in the design documents or analysis of these systems are: Human factors engineering, cabling requirements, installation requirements, performance requirements, backup power requirements, the interrelationship of the various systems, and applicable standards and regulatory requirements.

(2) Electrical Engineering documents for communications systems shall, at a minimum, indicate the following:

- (a) System riser diagram for each cabling system.
- (b) No change.
- (c) Cabling Conductor type and performance data of the transmission installation requirements.
- (d) through (e) No change.
- (f) Installation, identification and testing requirements.
- (g) Characteristics and locations of surge protective devices.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History—New 5-19-93, Formerly 21H-33.005, Amended.

(Substantial rewriting of Rule 61G15-33.006 follows. See Florida Administrative Code for present text.)

61G15-33.006 Design of Alarm and Signaling Systems.

(1) Alarm and signaling systems include but are not limited to: motor control systems, emergency alarm circuits, activation of life safety system controls and remote signaling of emergency conditions (See Rule 61G15-32.008, F.A.C., for Fire Alarm Systems), surveillance and access control systems,

temperature control, and systems related to energy conservation and facility management systems. The design documents shall be based on applicable NFPA standards as modified by applicable codes, or alternate engineering sources including published underwriter’s engineering documents and sound engineering practices.

(2) The Electrical Engineering Documents for alarm and signaling systems construction documents shall at a minimum indicate the following:

- (a) Description of the control system functions, or a functional diagram.
- (b) Equipment legend.
- (d) System riser diagram.
- (c) Cabling and conductor types and requirements.
- (e) Installation, identification and testing requirements.
- (f) Back-up power.
- (g) Location and characteristics of surge protective devices.
- (h) Details and requirements indicated by Rule 61G15-32.008, F.A.C.

(i) Complete requirements for operations and maintenance procedures, manuals, system documentation, and instruction of Owner’s operating personnel, as needed to operate the systems as intended over time

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History—New 5-19-93, Formerly 21H-33.006, Amended.

61G15-33.007 Design of Lightning Protection Systems.

(1) Lightning Protection Systems are passive systems used to protect building and structures from damage caused by lightning and static discharges. Items to be considered in the design or analysis of this system include the requirements of NFPA-780.

(2) Electrical Engineering documents for lightning protection systems shall indicate:

- (a) Lightning Risk Assessment.
- (b)(a) Air terminals height and spacing.
- (c) Corrosion protection measures.
- (b) through (c) renumbered (d) through (e) No change.
- (f) Conductor type and size.
- (d) through (e) renumbered (g) through (h) No change.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History—New 5-19-93, Formerly 21H-33.007, Amended.

61G15-33.008 Design of Grounding Systems.

(1) No change.

(2) Electrical Engineering Design Documents for grounding systems shall indicate at a minimum the following:

- (a) Type and location of grounding electrodes.
- (b) Bonding requirements.

(c) Testing requirements.

(d) Conductor material type, size and protection requirements.

(e) Connections of separate grounding systems, ~~properly~~ bonded, ~~per code~~ and use requirements.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 FS. History–New 5-19-93, Formerly 21H-33.008, Amended \_\_\_\_\_.

61G15-33.010 Certification of Electrical Systems of Public Interest.

The Engineer of Record shall be required, as required by the Authority Having Jurisdiction, to demonstrate compliance.

(1) Verifications from Electrical Engineering Documents warranted by codes and ordinances shall include when applicable:

(a) Energy efficiency and conservation tabulations, statements or calculations.

(b) Lighting levels included in the design that show intrusion, trespass, dark sky, safety or that show/preserve natural habitat tendencies.

(d) Light/noise/product specifications that indicate conformance with a community, county, or state standards, codes or ordinances.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.03 FS. History–New \_\_\_\_\_.

RULE NOS.:	RULE TITLES:
64E-2.006	Neonatal Interfacility Transfers
64E-2.030	Emergency Medical Services Grants Procedures

PURPOSE AND EFFECT: To reflect in rule the requirement to have a member trained and authorized in neonatal advanced life support procedures, referenced by the American Academy of Pediatrics and the Association of Air Medical Transport Services, during the transportation of a neonatal patient.

To delete language to accommodate the distribution of grant information on the EMS website, U.S. Mail, and on the Bureau of EMS listserv. A majority of the affected EMS services have requested that grant notifications be provided either on the EMS website, U.S. mail, or the EMS listserv because they do not routinely review notices in the Florida Administrative

Weekly. Notification of grant availability using the above mechanisms will reach more potential applicants than the means currently listed.

SUBJECT AREA TO BE ADDRESSED: Neonatal Interfacility Transfers and Emergency Medical Services Grants Procedures.

SPECIFIC AUTHORITY: 381.0011, 383.19, 395.405, 401.121, 401.251(6), 401.35 FS.

LAW IMPLEMENTED: 381.001, 383.15, 395.405, 401.111, 401.113, 401.121, 401.24, 401.25, 401.251, 401.252, 401.26, 401.265, 401.27, 401.30, 401.31, 401.35, 401.41, 401.411, 401.414, 401.421 FS.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: January 22, 2008, 1:30 p.m. – 4:30 p.m. (if needed)

Note: This is the day prior to the quarterly EMS Advisory Council meetings

PLACE: Prime Osborne Convention Center – Room 107, 1000 Water St, Jacksonville, FL 32204-1529

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Alexander Macy, Bureau of Emergency Medical Services, (850)245-4440, ext. 2735, Alexander\_Macy@doh.state.fl.us, or fax: (850)488-9408. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT IS: Lisa Walker, Government Analyst II, Bureau of Emergency Medical Services, 4052 Bald Cypress Way Bin C-18, Tallahassee, FL 32399, Lisa\_Walker2@doh.state.fl.us, phone: (850)245-4440 ext. 2733, or fax: (850)488-9408

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

64E-2.006 Neonatal Interfacility Transfers.

(1) No change.

(2) Each permitted ambulance or neonate ambulance when transporting a neonate to a Level II or Level III Neonatal Intensive Care Unit shall be staffed with a minimum of two persons. One person shall be a registered neonatal nurse, the second person shall be either a neonatal registered respiratory therapist (RT), or a paramedic or a registered neonatal nurse. The staffing for each neonate transport shall be determined by the licensee's medical director in conjunction with the attending physician and the neonatologist. A physician can be

substituted for any team member. There shall be a member of the team trained and authorized in Neonatal advanced life support procedures. For Example: Intubation, Chest tube placement, and Umbilical Line insertion and placement. These procedures can be referenced by the American Academy of Pediatrics, Guidelines for air and Ground Transport of Neonatal and Pediatric Patients; and the Association of Air Medical Transport Services, Guidelines for Air Medical Crew Education.

64E-2.030 Emergency Medical Services Grants Procedures.

(1) In order to apply for a matching emergency medical services grant, applicants shall submit DH Form 1767, June 02, EMS Matching Grant Application contained in the EMS Matching Grant Program Application Packet, June 02. This application packet is incorporated by reference and available from the department. The application packet contains the following forms which are also incorporated by reference and available from the department: DH Form 1767, EMS Matching Grant Application, June 02, DH Form 1767P, Request for Grant Fund Distribution, June 02, DH Form 1684A, EMS Grant Program Expenditure Report, June 02, DH Form 1684C, EMS Grant Program Change Request, June 02, DH Form 1767G, Matching Grants Evaluation Worksheet, June 02.

(2) The department shall advertise grant availability, at a minimum, on the Bureau of Emergency Medical Services website at <http://www.fl-ems.com/grants/grants.html> the Florida Administrative Weekly (FAW). ~~The FAW notice shall establish the deadline for submission of applications. Following the review by the grant review team and approval by the State Surgeon General, the department shall publish in the FAW the date, time, and location of the posting of the grant awards.~~

(3) All grant award decisions shall be posted on a date and time certain at a specific location in Tallahassee, Florida. All grant award notices shall be published on the Bureau of Emergency Medical Services website at <http://www.fl-ems.com/grants/grants.html> ~~www.doh.state.fl.us/ems~~, at the date and time established in the FAW notice as outlined in subsection (2) above.

 RULE TITLE: On-Site Investigations of Enclosed Indoor Workplaces

PURPOSE AND EFFECT: The Program intends through this rule promulgation will amend the procedures for investigations for Chapter 386, Part II, Florida Statutes, the Florida Clean Indoor Air Act.

SUBJECT AREA TO BE ADDRESSED: Chapter 386, Part II, Florida Statutes, Florida Clean Indoor Air Act.

SPECIFIC AUTHORITY: 386.2125 FS.

LAW IMPLEMENTED: 381.0012, 386.206, 386.207 FS.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE NOTICED IN THE NEXT AVAILABLE FLORIDA ADMINISTRATIVE WEEKLY.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT IS: Sonja Bradwell, Program Specialist, Department of Health, 4052 Bald Cypress Way, Bin C-23, Tallahassee, Florida 32399-1743, (850)245-4281 or 1(800)337-3742, sonja\_bradwell@doh.state.fl.us.

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

64I-4.002 On-Site Investigations of Enclosed Indoor Workplaces.

During inspections or investigations of any Florida Clean Indoor Air Act (FCIAA) complaint, DOH ~~environmental health~~ personnel shall document all observed violation(s) of Section 386.206, F.S.

(1) The proprietor or other person in charge of an enclosed indoor workplace must develop a policy regarding the prohibition of smoking in an enclosed indoor workplace. Such policy must include a prohibition of smoking in the enclosed

indoor workplace. Should there be no written policy, a violation of Section 386.206(1), F.S., exists and will be documented as: “Failure to develop a policy regarding smoking prohibition.”

(2) The proprietor or other person in charge of an enclosed indoor workplace shall implement a policy regarding smoking prohibition. If persons are observed violating the policy, and the proprietor or other person in charge witnesses or is made aware of a violation of Section 386.204, F.S., in the enclosed indoor workplace but nonetheless fails to implement the policy, a violation of Section 386.206(1), F.S., exists and shall be documented as: “Failure to implement a policy regarding smoking prohibition.”

(3) The proprietor or other person in charge of an enclosed indoor workplace where a smoking cessation program, medical research, or scientific research is conducted shall conspicuously post, or cause to be posted, signs designating areas where smoking is permitted for such purposes within the enclosed indoor workplace. If such signs are not posted then a violation of Section 386.206(3), F.S., exists and will be documented as: “Failure to post signs designating smoking permitted areas.”

~~(4) The proprietor or other person in charge of an enclosed indoor workplace where, prior to the adoption of s. 20, Art. X of the State Constitution was required to post signs under Section 386.206, F.S., shall continue to post signs stating that smoking is prohibited within the enclosed indoor workplace. If such signs are not posted then a violation of Section 386.206(2), F.S. exists and will be documented as: “Failure to post smoking prohibited signs.”~~

RULE NO.: 65G-4.002  
 RULE TITLE: Service Delivery

PURPOSE AND EFFECT: The purpose of the rule is to implement a comprehensive assessment process that will be used to identify support needs for recipients of Home and Community-Based services, Developmental Disability Waiver Services, and general revenue funded services from the Agency for Persons with Disabilities once eligibility is established. The rule shall identify appropriate assessment strategies to identify the types and levels of support a person with developmental disabilities may require now and in the near-term future.

The assessment instrument will be applied to measure the skills and abilities of the person eligible for services and the types and levels of support a person with developmental disabilities

may need to assist them with life changes while living, working, fulfilling valued roles, and participating in his/her community. The assessment will evaluate a full range of adaptive, behavioral, and physical needs, including sight, hearing, communication, and ambulation. The rule will also establish an administration schedule for targeted groups on the Developmental Disabilities waiver, the Family and Supported Living Waiver and the Consumer Directed Care Plus program, and all other persons receiving services from the Agency under other funding sources, or on the wait list for service.

**SUBJECT AREA TO BE ADDRESSED:** Assessment instrument for Home and Community-Based services delivery system valid assessment instrument to assess clients for the developmental disabilities waiver, qualifications and training for those administering the instrument, and use of the instrument.

**RULE NO.:** 65G-4.002 **RULE TITLE:** Service Delivery

**PURPOSE AND EFFECT:** The purpose of the rule is to implement a four-tiered waiver system to serve clients with developmental disabilities in the developmental disabilities and family and supported living waivers. The Waiver Tiers are defined as follows:

(1) Tier One shall be limited to clients who have service needs that cannot be met in Tiers Two, Three, or Four for intensive medical or adaptive needs and that are essential for avoiding institutionalization or who possess behavioral problems that are exceptional in intensity, duration, or frequency and present a substantial risk of harm to themselves or others.

(2) Tier Two shall be limited to clients whose service needs include a licensed residential facility and greater than 5 hours per day in residential habilitation services or clients in supported living who receive greater than 6 hours per day of in-home support services. Total annual expenditures under Tier Two may not exceed \$55,000 per client each year.

(3) Tier Three shall include, but is not limited to, clients requiring residential placements, clients in independent or supported living situations, and clients who live in their family home. Total annual expenditures under Tier Three may not exceed \$35,000 per client each year.

(4) Tier Four is the family and supported living waiver. Tier Four shall include but not be limited to clients in independent or supported living situations and clients who live in their family home. An increase to the number of services available to clients in this tier shall not take effect prior to July 1, 2008. Total annual expenditures under Tier Four may not exceed \$14,792 per client each year.

The rule will also establish the Waiver Tier Models that provide a basic description of the individuals receiving Waiver Tier services, the level and type of services for each Waiver Tier client, and a monetary cap for each Waiver Tier level of service.

**SUBJECT AREA TO BE ADDRESSED:** Four Tier Waiver System for Servicing Clients with Developmental Disabilities.

RULE NO.:	RULE TITLE:
69K-1.003	Miscellaneous Fees; Name Changes and Duplicate Licenses

PURPOSE AND EFFECT: Section 497.140(6)(a), F.S., requires the Department to impose a special unlicensed activity fee of \$5 upon each initial license and each renewal of a license under Chapter 497, F.S. Section 497.140(4), F.S., authorizes the Department to charge a fee as determined by Department rule but not to exceed \$25 for the issuance of a duplicate license. Section 497.140(5), F.S., requires the Department to charge a fee as determined by Department rule but not to exceed \$25 for the certification of a public record. Section 497.161(1)(d), F.S., authorizes the Department to adopt a rule establishing a fee of up to \$100 for the issuance of a duplicate license or for a name change on a license. The proposed rule implements these statutory provisions.

SUBJECT AREA TO BE ADDRESSED: Special fee for unlicensed activity; fees for issuance of duplicate license, for change of name, and for certification of public records.

SPECIFIC AUTHORITY: 497.103(5)(b), 497.140(4), (5), 497.161(1)(d) FS.

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

69K-1.003 Miscellaneous Fees; Name Changes and Duplicate Licenses.

(1) A special unlicensed activity fee of \$5.00 per licensee shall be imposed on each initial license and each renewal of a license under Chapter 497, F.S. These funds shall be used by the Department to identify and combat unlicensed activity which violates the provisions of Chapter 497, F.S.

(2) The fee for a name change on a license is \$25. The original of the current license must be returned to the Department before a license in the changed name will be issued. A request for a name change for business entities shall be submitted to the Department on Form DFS-N1-1764, "Change of Name & Request for Revised License Certificate – Entities," effective 10/06. A request for a name change for individuals shall be submitted to the Department on Form DFS-N1-1765, "Change of Name & Request for Revised License Certificate – Individuals," effective 10/06. Both forms are incorporated by reference in Rule 69K-1.001, F.A.C.

(3) The fee for a duplicate license is \$25. A request for a duplicate license shall be submitted to the Department on Form DFS-N1-1766, "Request for Duplicate License," effective 10/06, which is incorporated by reference in Rule 69K-1.001, F.A.C.

Section II Proposed Rules

DEPARTMENT OF REVENUE

Sales and Use Tax

RULE NOS.:	RULE TITLES:
12A-1.096	Industrial Machinery and Equipment for Use in a New or Expanding Business
12A-1.097	Public Use Forms

PURPOSE AND EFFECT: The purpose of the proposed amendments to Rule 12A-1.096, F.A.C. (Industrial Machinery and Equipment for Use in a New or Expanding Business), is to: (1) incorporate the provisions of Chapter 2006-56, L.O.F., which amends Section 212.08(5)(b), F.S. (Machinery and equipment used to increase productive output); and (2) revise the requirements for the administration of the exemption provided for industrial machinery and equipment used in a new or expanding business consistent with Section 212.08(5)(b), F.S., as amended.

Chapter 2006-56, L.O.F., deletes the \$50,000 tax threshold per calendar year on the purchase of industrial machinery and equipment used to increase productive output by certain industries. All industries will no longer be required to meet the

\$50,000 tax threshold per calendar year. This law also revises the exemption for machinery and equipment used in mining operations by removing the requirement that the exemption is only available by taking a credit against severance taxes and removing the requirement that mining operations must show an increase in the creation of new jobs. The proposed amendments remove these obsolete requirements.

The proposed amendments to Rule 12A-1.097, F.A.C. (Public Use Forms), adopt, by reference, changes to Form DR-1214, Application for Temporary Tax Exemption Permit.

SUMMARY: This is the second notice of intended action that has been filed for these proposed rule amendments. A notice of intended action for these amendments was originally published on August 10, 2007, and a hearing was held on September 5, 2007. However, due to a clerical error, Rule 12A-1.096, Florida Administrative Code (Sales and Use Tax; Industrial Machinery and Equipment for Use in a New or Expanding Business) was not included in the notice of cabinet meeting that was published on November 2, 2007, and therefore, both the substantive rule and the accompanying forms rule (12A-1.097, Florida Administrative Code) were withdrawn from consideration by the Governor and Cabinet at their meeting on November 14, 2007. The Department is restarting the adoption process for these proposed rule amendments in accordance with Section 120.54(3)(a), Florida Statutes. These proposed amendments are identical to those originally noticed on August 10, 2007. The proposed amendments to Rule 12A-1.096, F.A.C. (Industrial Machinery and Equipment for Use in a New or Expanding Business), clarify that a “fixed location” is a location or plant site that is used, or intended to be used, for an extended or indefinite period of time for spaceport activities or for manufacturing, processing, compounding, or producing items of tangible personal property for sale. The definition of “mining activities,” rendered obsolete by Chapter 2006-56, L.O.F., is removed. Examples are added to the definition of the term “physically comparable,” for clarity. The term “production process” is clarified to mean that the production process may include quality control activities after the items have been packaged, such as good manufacturing practices as mandated by the Federal Food and Drug Administration to detect adulterated food or food that has been prepared, packaged, or held under insanitary conditions. Additional provisions are added to clarify that the production process does not include product design activities. The proposed amendments define the terms “purchase” and “purchase agreement” for purposes of the exemption.

The proposed amendments revise the provisions describing the terms “new business” and “expanding business.” Pursuant to these proposed amendments, businesses that purchase additional machinery and equipment to begin manufacturing component parts for existing lines of products that were previously purchased from vendors will be classified as an

“expanding business” and will be required to meet the statutory requirement to increase productive output. For these expanding businesses, that statutory requirement will be met when the first component part is manufactured for existing lines of products, as the production of that first component part represents a 100 percent increase in productive output of that component part. In addition, the proposed amendments clarify that the physical productive output measurement must be based on physical production data that is directly relevant to the business and/or product(s) being produced. Examples are added to the provisions for a “new business” and for an “expanding business” to clarify this classification.

The proposed amendments revise the provisions describing the term “expanding business,” removing provisions regarding the \$50,000 tax threshold per calendar year on the purchase of industrial machinery and equipment used to increase the productive output of tangible personal property. This tax threshold requirement was repealed by Chapter 2006-56, L.O.F. The proposed amendments also remove provisions regarding mining activities rendered obsolete by Chapter 2006-56, L.O.F.

The proposed amendments provide that existing products that merely incorporate newer technology are not considered to be a distinct and separate economic activity.

The proposed amendments clarify that an application for refund must meet the requirements of Section 213.255(2) and (3), F.S., and Rule 12-26.003, F.A.C., to be considered complete.

The proposed amendments provide additional examples of types of industrial machinery and equipment to clarify whether post-production machinery and equipment used for refrigerated, frozen, or heated storage of finished goods inventory qualifies for the exemption. Provisions are added to clarify that conveyors used to transport work-in-process within the production line at the fixed location will qualify for exemption. Additional examples are provided, and obsolete provisions are removed, to clarify whether computers and related equipment will be considered a part of the production process and qualify for exemption. Obsolete provisions regarding agricultural equipment, which became fully exempt under the provisions of Section 212.08(3), F.S., as amended in 2005, are removed. Additional provisions are included to clarify whether monitoring equipment, office equipment, security systems, motor vehicles, and locomotives or railroad cars will qualify for the exemption.

The proposed amendments consolidate and clarify provisions for the application of the exemption to leases of machinery and equipment for new and expanding businesses.

The proposed amendments to Rule 12A-1.097, F.A.C. (Public Use Forms), adopt, by reference, changes to Form DR-1214, Application for Temporary Tax Exemption Permit.

THE FULL TEXT OF THE PROPOSED RULES IS:

12A-1.096 Industrial Machinery and Equipment for Use in a New or Expanding Business.

(1) Definitions – The following terms and phrases when used in this rule shall have the meaning ascribed to them except where the context clearly indicates a different meaning:

(a) “Fixed location” means ~~a being permanently affixed to one (1) location or plant site that is used, or intended to be used, for an extended or indefinite period of time for spaceport activities or for manufacturing, processing, compounding, or producing items of tangible personal property for sale.~~ The term also includes a location where a any portable plant which is set up for a period of not less than six months in a stationary manner so as to perform the same industrial manufacturing, processing, compounding, or production process that could be performed at a permanent location or plant site. The geographical limits of the fixed location for purposes of this rule are limited to the immediate permanent location or plant site. Facilities or plant units that are within the same building, or that are on the same parcel of land if not contained in a building, are considered to be one fixed location.

(b) “Industrial machinery and equipment” means tangible personal property or other property with a depreciable life of 3 years or more that is used as an integral part in the manufacturing, processing, compounding, or production of tangible personal property for sale or is exclusively used in spaceport activities. Buildings and their structural components are not industrial machinery and equipment unless the building or structural component is so closely related to the industrial machinery and equipment that it houses or supports that the building or structural component can be expected to be replaced when the machinery and equipment itself is replaced. Heating and air conditioning systems are not considered industrial machinery and equipment, unless the sole justification for their installation is to meet the requirements of the production process, even though the system may provide incidental comfort to employees, or serves, to an insubstantial degree, nonproduction non-production activities. For example, a dehumidifier installed for the sole purpose of conditioning air in a factory, where the manufacturing of electronic components requires a controlled-humidity environment, will be considered industrial machinery and equipment. (See subsection ~~(8)(9)~~ of this rule.)

(c) “Integral to” means that the machinery and equipment provides a significant function within the production process, such that the production process could not be complete without that machinery and equipment.

(d) “Manufacture, process, compound, or produce for sale” means the various industrial operations of a business where raw materials will be put through a series of steps to make an item of tangible personal property that will be sold. The industrial operations must bring about a change in the composition or physical nature of the raw materials. Where materials are merely repackaged or redistributed, those operations are not manufacturing, processing, compounding, or producing for sale. The item of tangible personal property may be sold to another manufacturer for further processing or for inclusion as a part in another item of tangible personal property that will be sold, or the item may be sold as a finished product

to a wholesaler or an end consumer. The business performing the manufacturing, processing, compounding, or production process may or may not own the raw materials. However, the phrase “manufacture, process, compound, or produce for sale” does not include fabrication, alteration, modification, cleaning, or repair services performed on items of tangible personal property belonging to others where such items of tangible personal property are not for sale.

~~(e) “Mining activities” means phosphate and other solid minerals severance, mining, or processing operations. Mining activities end at the point where the mineral is readily identifiable as the final product of mining or where it is ready to be compounded or mixed with other materials to form a new material. (See subsection (4) of this rule.)~~

~~(e)(f)~~ “Physically comparable” means the similarity or equivalency of the characteristics of the items of tangible personal property being manufactured, processed, compounded or produced. Physical comparability applies to the units used to measure the increase in productive output of an expanding business.

1. Example: All models of microwave ovens made by a manufacturer, regardless of specific features, would be physically comparable. However, if the manufacturer also made coffee makers, the coffee makers would not be physically comparable to microwave ovens, even though both items are generally considered small kitchen appliances.

2. Example: A beverage manufacturer produces a variety of soft drinks in various sized cans and bottles. The production of the various sized cans and bottles of soft drinks is not physically comparable. However, production is physically comparable when converted to a common physical unit, such as gallons of product

~~(f)(g)~~ “Production process” or “production line” means those industrial activities beginning when raw materials are delivered to the new or expanding business’ fixed location and generally ending when the items of tangible personal property have been packaged for sale, or are in saleable form if packaging is not done. However, the production process may include quality control activities after the items have been packaged (or are in salable saleable form if packaging is normally not done), such as if such quality control activities are required by good manufacturing practices as mandated by the Federal Food and Drug Administration to detect adulterated food or food that has been prepared, packaged, or held under insanitary conditions or mandated by state or federal government agencies.

1. The production process may encompass more than one fixed location if the business transfers work-in-process from one fixed location to a second fixed location for further manufacturing, processing, compounding, or production. For example, a company purchases machinery and equipment to produce raw orange juice at one fixed location, and this raw

orange juice is transferred as work-in-process to a second fixed location where the company will use the raw orange juice to make five different products.

2. A production process does not include natural processes occurring before raw material is delivered to the receiving operation or after the packaging operation. For example, the natural transformation of grass or feed into raw milk by dairy cows is not part of the production process. In this case, the production process begins with when the cows (i.e., raw materials) are brought into the milking parlor. ~~The~~ Neither is the planting, growing, or harvesting of crops, and nor the raising of livestock or poultry are not part of the production process. ~~The~~ Also, the natural aging or fermentation of alcoholic beverages or other food products, after they have been packaged, is also not part of the production process. ~~There, the~~ production process ends when the alcoholic beverage or other food product has been packaged for sale.

3. The production process does not include product design activities. For example, the computer aided design of a product where the final design program or computer file for that product will be sent to or downloaded to industrial machinery and equipment for the physical creation of the product is not a part of the production process. Similarly, the production process for printed materials does not include the initial conception or creation of the written matter. For example, the writing of a story by a reporter for subsequent printing in a newspaper is not a part of the production process. (See subsection (8) paragraph (9)(b) of this rule regarding machinery and equipment and the production process.)

~~(g)(h)~~ “Productive output” ordinarily means the number of units actually produced by a single plant or operation in a single continuous 12-month period. The increase in productive output ~~is shall be~~ measured by the output for 12 continuous months immediately following the completion of the installation of machinery and equipment for the expansion project as compared to the productive output of 12 continuous months immediately preceding the beginning of the installation of machinery and equipment for the expansion project. However, if a different 12-month continuous period would more accurately reflect the increase in productive output as a result of a business expansion, the increase in productive output will be measured during that alternate 12-month continuous period, provided that prior to the start of production by the expanded business the Executive Director or the Executive Director’s designee agrees to such alternate measuring period. Such alternate continuous 12-month measuring period approved by the Executive Director or the Executive Director’s designee must begin within 24 months following the completion of installation of qualifying machinery and equipment. If an alternate 12-month measuring period is requested by the business entity and is agreed to by the Executive Director or the Executive Director’s designee, only the selected alternate 12-month period will be used to

measure the increased productive output for the business expansion, even though some 12-month period other than the selected and approved 12-month period may show a production increase of 10 percent or more as a result of the expansion project. Productive output may not be measured by sales dollars or by production labor hours for the purposes of this exemption.

(h) “Purchase.” “purchases.” or “purchasing” means the transfer of title or possession, or both, of industrial machinery and equipment for a consideration. The terms also include the acquisition of industrial machinery and equipment under a lease or rental agreement.

(i) “Purchase agreement” means a document, in the form of a purchase order issued by the purchaser, a contract for purchase with a seller or vendor, a memorandum of understanding, or a lease or rental agreement with a lessor.

~~(j)(4)~~ “Spaceport activities” means those activities as defined in Section 212.02, F.S. Florida Statutes.

(2) New Business.

(a) The purchase of industrial machinery and equipment, parts and accessories, and the installation labor thereof, is exempt from tax when purchased by a new business which uses such machinery and equipment at a fixed location in this state for exclusive use in spaceport activities, or to manufacture, process, compound, or produce items of tangible personal property for sale.

(b) Machinery and equipment must be purchased, or a purchase agreement made, before the new business begins spaceport activities or starts production, and delivery of the purchased items must be made within 12 months from the beginning of spaceport activities or the start of production.

(c) The date of purchase of the machinery and equipment is established by the date of the purchase agreement. If no purchase agreement was made, or in the absence of proof that a purchase agreement was made prior to the determined beginning of spaceport activities or the start of production, the machinery and equipment vendor’s sales invoice will be the controlling document for determining whether the machinery and equipment qualifies for the exemption. No exemption will be allowed even though delivery of machinery and equipment is made within 12 months from the beginning of spaceport activities or the start of production if the machinery and equipment was ordered after the beginning of spaceport activities or the start of production. If a purchase agreement that was made prior to the start of production is amended or changed after the start of production, any amendments or changes that increase the quantity of an item of machinery or equipment will not qualify for the exemption. Any amendments or change orders to that purchase agreement that provide for the substitution of a like kind item of machinery or equipment will qualify for the exemption.

(d)1. The start of production ~~is shall~~ be the date that a product is manufactured, processed, compounded, or produced where such product will be inventoried for sale or will be immediately sold. However, if this date does not reflect the actual start of production, the date of the start of production ~~will shall~~ be determined by the Executive Director or the Executive Director's designee on a case by case basis. In such cases, the business ~~is required to shall~~ maintain sufficient records to enable the Executive Director or the Executive Director's designee to make a proper determination as to the initial production activities of the new facility. (See subsection ~~(6)(7)~~ of this rule for record keeping requirements.)

a. Initial test or trial runs necessary to calibrate or evaluate the operation of machinery and equipment, where the products made are scrapped or sold for salvage value, are not considered to be the start of production. The operation of machinery and equipment at less than full capacity, where the products made are inventoried or immediately sold, is considered to be the start of production.

b. Production is considered to have started even though the production line may not be complete, if any part(s) of the production process is subcontracted to others and a finished product can be inventoried or immediately sold.

2. The beginning of spaceport activities ~~is shall~~ be the date that industrial machinery and equipment is first exclusively used for that purpose. However, if this does not reflect the actual beginning of spaceport activities, the date ~~will shall~~ be determined by the Executive Director or the Executive Director's designee on a case-by-case basis. In such cases, the business ~~is required to shall~~ maintain sufficient records to enable the Executive Director or the Executive Director's designee to make a proper determination as to the beginning of spaceport activities of the new facility. (See subsection ~~(6)(7)~~ of this rule for record keeping requirements.)

(e) The Executive Director or the Executive Director's designee ~~will shall~~ determine if a business qualifies for ~~the~~ exemption as a new business, based on the facts in each particular case.

1. A new business means a newly-formed company that opens a facility or plant, at a fixed location in this state, to manufacture, process, compound, or produce items of tangible personal property for sale, or to exclusively use industrial machinery and equipment in spaceport activities.

2. A new business means an addition to, or the enlargement of, an existing facility or plant, or the installation of additional machinery and equipment, for the purpose of manufacturing, processing, compounding, or producing items of tangible personal property for sale that represent a distinct and separate economic activity from other items that have been or are being produced at that same fixed location, or to exclusively use industrial machinery and equipment in distinct and separate spaceport activities. For example, a company that currently manufactures washing machines would be

considered a new business for the purpose of installing a dedicated assembly line for the manufacturing of refrigerators. A new business does not mean an addition to, or the enlargement of, an existing facility or plant, or the installation of additional machinery and equipment at an existing facility or plant, for the purpose of manufacturing, processing, compounding, or producing component parts that were previously purchased from, or fabricated by, outside sources for inclusion in that business' finished items of tangible personal property for sale. (See subsection (4)(5) of this rule regarding manufacturing business classification factors.)

3. A new business means opening a new facility or plant, at a fixed location in this state, to manufacture, process, compound, or produce an item of tangible personal property for sale, or to exclusively use industrial machinery and equipment in spaceport activities, provided no other facility or plant in this state that manufactured, processed, compounded, or produced the same or a similar item of tangible personal property, or performed the same or a similar spaceport activity, at a fixed location in this state, was closed to open the new facility or plant, or will be closed within 12 months. However, this limitation concerning the closure of a facility or plant is not applicable to a mining activity when a mine is closed due to the exhaustion or depletion of the mined resource such that mining is no longer economically feasible at that location.

4. A new business does not mean the change of ownership of an existing facility or plant, at a fixed location in this state, that manufactures, processes, compounds, or produces items of tangible personal property for sale, or exclusively uses industrial machinery and equipment in spaceport activities, by a purchase arrangement, merger, or some other similar means, unless such facility or plant ceased doing productive operations for a period of not less than 12 months.

(3) Expanding Business.

(a) The purchase of industrial machinery and equipment, parts and accessories, and the installation thereof, is exempt from tax when purchased by an expanding business that uses such machinery and equipment at a fixed location in this state to increase the productive output of tangible personal property that is manufactured, processed, compounded, or produced for sale by not less than 10 percent, or for exclusive use in spaceport activities. Industrial machinery and equipment, parts and accessories, and the installation labor thereof, purchased by a business for the purpose of expanding spaceport activities, or the operation of a plant at an existing fixed location in this state to manufacture, process, compound, or produce items of tangible personal property for sale is exempt from any amount of taxes imposed in excess of \$50,000 per calendar year. The taxpayer may elect to pay the entire \$50,000 in tax directly to the Department at the beginning of the expansion project or at the beginning of the calendar year, or accrue or pay the tax on each qualifying purchase until the \$50,000 tax limitation is reached. The business entity may then extend a Temporary Tax

Exemption Permit in lieu of paying any additional sales tax in excess of the \$50,000 in tax for the remainder of the calendar year. For each subsequent year the project is ongoing, the taxpayer may again elect to pay the entire \$50,000 in tax directly to the Department at the beginning of the calendar year, or accrue or pay the tax on each qualifying purchase until the \$50,000 tax limitation is reached.

(b)1. Only the actual sales or use tax imposed on qualifying purchases for the calendar year shall apply to the \$50,000 tax threshold even though the tax may be paid in a subsequent calendar year.

2. EXAMPLE 1. Sales or use tax paid to the state in January 1999 for the period ending December 31, 1998, would be allowed as part of the \$50,000 tax threshold for 1998, since the tax paid with the December 1998 sales tax return would have been imposed in 1998.

3. EXAMPLE 2. Sales or use tax paid to the state in January 1999 for the period ending December 31, 1998, would not be allowed as part of the \$50,000 tax threshold for 1999, since the tax paid with the December 1998 sales tax return would have been imposed in 1998.

4. Expanding printing facilities or printing plant units are not subject to the \$50,000 tax threshold.

(b)(e) The Executive Director or the Executive Director's designee will shall determine whether a business qualifies for the exemption as an expanding business, based upon the facts of each case using the following guidelines, ~~provided the requirements of paragraphs (3)(a) and (d) are complied with:~~

1.a. An expanding business means an addition to, or the modernization or enlargement of, an existing facility or the installation of additional machinery and equipment to manufacture, process, compound, or produce an item of tangible personal property that which is already being produced at that fixed location in this state or which is similar to an item of tangible personal property that which is already being produced at that fixed location.

b. An expanding business means an addition to, or the modernization or enlargement of, an existing facility or the installation of additional machinery and equipment to begin manufacturing, processing, compounding, or producing a component item of tangible personal property that will be incorporated into a finished item of tangible personal property for sale that is already being produced at that fixed location. When the component item of tangible personal property is manufactured, processed, compounded, or produced, the completion of the first component item meets the required productive output increase. When the business manufactures, processes, compounds, or produces that component for sale to others and incorporates that component in other items of tangible personal property for sale, the business would be classified as a new business.

c. For example, a washing machine manufacturer that previously purchased water pumps from an outside supplier as component parts for the washing machines would be considered an expanding business, rather than a new business, when it purchases machinery and equipment to begin manufacturing its own component water pumps and does not offer the water pumps for sale to others. When the first component water pump is produced, the manufacturer, as an expanding business, meets the required productive output increase.

d.b. An expanding business means an addition to, or the modernization or enlargement of, an existing facility or the installation of additional machinery and equipment to perform a spaceport activity that is already being performed, or is similar to an activity that is already being performed, at that fixed location.

2. An expanding business means closing an existing plant or an operation in a plant in this state and moving it to a new location in this state within 12 months of the closing.

3. An expanding business means the purchase of an existing facility to manufacture, process, compound, or produce an item of tangible personal property that which is already being produced at that facility, or which is similar to an item of tangible personal property that which is already being produced at that facility.

(c)1.(d) To in order to qualify for an exemption as an expanding business, the taxpayer is required to shall provide information to the satisfaction of the Executive Director or the Executive Director's designee that the items purchased will shall be or have been used to increase the productive output of the existing facility or specific product line(s) by not less than 10 percent. An expanding business is allowed to specify whether the 10 percent increase in productive output is for the entire plant or for specific product line(s). However, where the increase in productive output applies to a product or component that becomes part of different product lines, the increase in productive output will be determined by measuring the increase in the combined output of the different product lines. Similarly, if the additional machinery and equipment affects the productive output of more than one product line, the increase in productive output must be measured by all of the product lines that have been affected.

a. Example: If For example, if a company purchases machinery and equipment that increases its production of raw orange juice by 25 percent, and this raw orange juice is used by the company to make five different products, the increase in productive output would be determined by measuring the volume increase in the combined output of all five different products.

b. Example: A beverage manufacturer that currently produces a variety of soft drinks in 12-ounce cans purchases machinery and equipment to begin making plastic bottles and also purchases additional mixing machinery and equipment to

make more syrup for overall beverage production. Effectively, there are two separate expansion projects for this manufacturer. The plastic bottle expansion project will meet the required productive output increase requirement upon production of the first bottle. However, the productive output increase requirement for the additional mixing machinery and equipment must be measured by the amount of beverages produced at the plant.

c. Example: A manufacturer of coffeemakers, toasters, and microwave ovens purchases replacement machinery and equipment that is only used to make components for the coffeemakers. The productive output increase may be measured just on the production of coffeemakers.

2. The physical productive output measurement must be based on physical production data, which is directly relevant to the business and/or the product(s) being produced. A physical productive output measurement based on indirect or minor, variable components is not a relevant measurement. For example, a relevant measurement for a furniture manufacturer would be the number of pieces of furniture manufactured, not the amount of glue, paint, stain, or varnish used in the manufacturing of furniture.

3. Expanding spaceport activities are not subject to the increase in productive output requirement.

(4) Mining Activities:

(a) The exemption for new and expanding mining activities is available only by way of a prospective credit against severance taxes due under Chapter 211, F.S. In order to qualify for the exemption, businesses engaged in mining activities must demonstrate the following:

1. A new business must demonstrate the creation of at least 100 new Florida jobs;

2. An expanding business that has 2,500 or fewer Florida employees must demonstrate the creation of new Florida jobs in an amount equal to at least 5 percent of its Florida employees; or

3. For an expanding business that has more than 2,500 Florida employees, that business must demonstrate the creation of new Florida jobs in an amount equal to at least 3 percent of its Florida employees;

4. In addition to the requirements of subparagraph 2. or 3. above, expanding mining businesses must also meet the requirements of paragraphs (3)(a) and (d) above.

(b) "New Florida job" means a new position created and filled within 24 months after the completion of construction of the new or expanded facility. The term includes a transfer of a position from an existing Florida operation so long as the transfer is the result of the closure or reduction of the other Florida operation. For an expanding business, the number of existing Florida employees shall be determined as of the date on which the business commences construction of the expansion.

~~(e) The Office of Tourism, Trade, and Economic Development shall certify the creation of new Florida jobs to the Department of Revenue. The exemption to new and expanding businesses engaged in mining activities will not be approved until the Department of Revenue has received such certification.~~

~~(4)(5) Manufacturing Business Classification Factors.~~

(a) When an additional product is made at an existing fixed location, the determination whether that business is classified for the exemption as a new business or as an expanding business will depend upon whether the additional product represents an economic activity that is distinct and separate from a product, or a group of products, that is already being manufactured, processed, compounded, or produced at that fixed location.

(b) The Executive Director or the Executive Director's designee will make a determination regarding the classification of a business' application for exemption on a case-by-case basis. The Department will be guided by the following factors when making a determination:

1. The general nature of the applicant's predominant existing business;

2. The Standard Industrial Classification (SIC) or North American Industry Classification System (NAICS) industry number of the existing product(s) versus the additional product;

3. The raw materials or components used to make the existing product(s) versus the additional product;

4. Whether the additional product is an alternative to, or represents a replacement for, the existing product(s);

5. The differences in machinery and equipment needed to make the existing product(s) versus the additional product; and

6. The units used to measure production of the existing product(s) versus the additional product.

(c) No single factor within paragraph (b) will decide whether the additional product represents a distinct and separate economic activity.

(d) Additional products Products that merely differ in size, color, flavor, style, packaging, or model line, or existing products that merely incorporate newer technology, are not considered to be a distinct and separate economic activity. For example, the manufacturing of electronic products based on digital technology is not a distinct and separate economic activity from the manufacturing of electronic products based on analog technology.

(e) The business claiming an exemption as a new business ~~has~~ shall have the burden of demonstrating that the additional product represents a distinct and separate economic activity from a product, or group of products, that is already being manufactured, processed, compounded, or produced at the fixed location.

~~(5)(6) Temporary Tax Exemption Permit – Refund or Credit.~~

(a)4. To receive the exemption provided under subsection (2) or (3), a qualifying business entity must apply to the Florida Department of Revenue, Technical Assistance and Dispute Resolution, Post Office Box 7443, Tallahassee, Florida 32314-7443, for a temporary tax exemption permit. The business entity seeking a temporary tax exemption must file an Application for Temporary Tax Exemption Permit (~~Form Form~~ DR-1214) with the Department prior to receiving a permit or refund for the new or expanded business. Upon a tentative affirmative determination of the business's qualification for exemption by the Executive Director or the Executive Director's designee, a temporary tax exemption permit will shall be issued to, or a refund authorized for, the business entity.

~~2. To receive the exemption provided by subsection (4) for mining activities, a qualifying business entity must also file an Application for Temporary Tax Exemption Permit (Form DR 1214). However, those businesses will not be issued a temporary tax exemption permit, since the exemption is only available to that industry by way of a prospective tax credit.~~

(b)1. A temporary tax exemption permit may be issued only to the qualified business entity which will use the qualifying machinery and equipment at a fixed location in this state in manufacturing, processing, compounding, or producing tangible personal property for sale, or for exclusive use in spaceport activities. Such permit may be extended by the business entity to its vendor(s) or to its authorized contractor(s) operating under lump sum, cost plus, fixed fee, guaranteed price, or any other type of contract executed for the purpose of constructing a new or expanded business. The authorized contractor(s) may, likewise, extend the temporary tax exemption permit to its vendor(s) for use in purchasing qualifying machinery and equipment tax exempt. The business entity that extends the temporary tax exemption permit to a contractor or subcontractor for the purpose of authorizing that contractor or subcontractor to purchase qualifying machinery and equipment tax exempt will be responsible for paying the sales and use tax on any nonqualified items purchased tax exempt by the contractor or subcontractor.

2. Upon completion of purchases of qualifying machinery and equipment, the temporary tax exemption permit is required to shall be ~~hand~~ delivered to the Department or returned by certified or registered mail. If the permit is returned by mail, the permit should shall be mailed to the Florida Department of Revenue, Technical Assistance and Dispute Resolution, P. O. Box 7443, Tallahassee, Florida 32314-7443.

(c)1. If a qualifying business entity fails to apply for a temporary tax exemption permit before purchasing qualifying machinery and equipment for a new or expanded business, or if the initial determination by the Executive Director or the Executive Director's designee is negative, the exemptions provided by subsections (2) and (3) above may be obtained only by a refund to the business entity of previously paid

taxes. Refunds will shall not be allowed until information has been provided to the satisfaction of the Executive Director or the Executive Director's designee that such machinery and equipment meets the requirements of this rule and is used as designated herein. Only the qualified business entity that which will use the qualifying machinery and equipment at a fixed location in this state in manufacturing, processing, compounding, or producing tangible personal property for sale, or for exclusive use in spaceport activities is entitled to request a refund of sales or use taxes paid on qualifying industrial machinery and equipment, or installation thereof. ~~A qualifying mining activity business under subsection (4) of this rule will receive the exemption by way of a credit against severance taxes instead of a refund of sales and use tax.~~

2. Before the owners of a qualifying new or expanded business under subsection (2) or (3) may request a refund of, ~~or a qualifying mining business under subsection (4) may request a credit for,~~ sales or use taxes paid by their contractors on qualifying industrial machinery and equipment, or installation thereof, the following certified statement(s) must be executed:

a. If a subcontractor was involved, the subcontractor must obtain a certified statement from its supplier(s) or other subcontractor(s) certifying that the supplier or other subcontractor has remitted the tax to the State, or certifying that the subcontractor has remitted use tax directly to the State. The subcontractor must then extend the statement(s) it has executed or obtained from suppliers or other subcontractors to the prime contractor; and,

b. The prime contractor must obtain a certified statement from its supplier(s) and subcontractor(s) certifying that the supplier or subcontractor has remitted the tax to the State, or certifying that the prime contractor has remitted use tax directly to the State. The prime contractor must then extend the statement(s) it has executed or obtained from its supplier(s) or subcontractor(s) to the qualifying new or expanded business entity to support the refund claim.

(d)1. The following is a suggested format for a certified statement that tax has been remitted to the State of Florida:

COMPANY, incorporated in the state of STATE, its undersigned officer who is duly authorized, hereby certifies to QUALIFYING NEW OR EXPANDING BUSINESS, OR CONTRACTOR, OR SUBCONTRACTOR it has paid sales tax to the Department of Revenue, State of Florida, totaling the sum of \$ \_\_\_\_\_. Said taxes were collected by COMPANY upon the sales of tangible personal property as evidenced by the attached invoice(s).

The company further certifies the sales tax for the attached invoice(s) was paid to the State of Florida in the month following the date of sale under sales tax number \_\_\_\_\_.

Dated at \_\_\_\_\_ County \_\_\_\_\_, Florida, this \_\_\_ day of \_\_\_ 20\_\_.

AUTHORIZED OFFICER OF COMPANY

BY: \_\_\_\_\_

TITLE: \_\_\_\_\_

2. The above certified statement will not be necessary where the business entity claiming the refund has self-accrued and remitted the tax directly to the State of Florida. However, documentation that the tax has been remitted to the State of Florida in a timely manner is required.

(e) The right to a refund of, or credit for, sales or use taxes.

~~1. New Businesses.~~

~~1.a-~~ An application for refund by a new business must be filed within 3 years after the date the tax was paid in accordance with the timing provisions of Section s. 215.26(2), F.S. However, an application for refund will shall not be considered complete pursuant to Section s. 213.255(2) and (3), F.S., and Rule 12-26.003, F.A.C., and a refund will shall not be approved, before the date the new ~~manufacturing or printing~~ business first places a product in inventory or immediately sells a product, or before the date a new business engaged in spaceport activities begins those activities.

~~b. The right to a credit for sales or use taxes paid by a new business engaged in mining activities shall not be allowed before the date the Department of Revenue has received the certification of new Florida jobs. (See subsection (4) of this rule.)~~

~~2. Expanding Businesses.~~

~~2.a-~~ An application for refund by an expanding business must be filed within 3 years after the date the tax was paid in accordance with the timing provisions of Section s. 215.26(2), F.S. However, an application for refund will shall not be considered complete pursuant to Section s. 213.255(2) and (3), F.S., and Rule 12-26.003, F.A.C., and a refund will shall not be approved, before the date an expanding ~~manufacturing or printing~~ business can substantiate that the business expansion has increased the productive output at the existing facility by not less than 10 percent, or for an expanding business engaged in spaceport activities, before the date of completion of the installation of the machinery and equipment.

~~b. The right to a credit for sales or use taxes paid by an expanding business engaged in mining activities shall not be allowed before the date that business can substantiate that the business expansion has increased the productive output at the existing facility by not less than 10 percent, and the Department of Revenue has received the certification of new Florida jobs. (See subsection (4) of this rule.)~~

~~(6)(7)~~ Record Keeping Requirements. The applicant is required to shall maintain all necessary books and records to support the exemption. All such books, invoices, certified statements, and other records must shall be open for inspection

by the Department at all reasonable hours at the qualifying business entity's location in this state. Any qualifying business entity ~~that which~~ maintains such books and records at a point outside this state is required to shall make such books and records available for inspection by the Department where the general records are kept.

~~(7)(8)~~ Exclusions.

(a) The exemptions provided by subsections (2) and (3) do, (3), and (4) above shall not apply to machinery and equipment purchased or used by electric utility companies; communication companies; oil or gas exploration or production operations; publishing firms that do not export at least 50 percent of their finished product out of the state; any firm subject to regulation by the Division of Hotels and Restaurants of the Department of Business and Professional Regulation; or any firm which does not manufacture, process, compound, or produce items of tangible personal property for sale, or exclusively use machinery and equipment in spaceport activities.

(b) If a publishing firm is also the printer of the finished product, the Department will consider the business to be a printer for the purpose of the exemption. Therefore, the above indicated 50 percent requirement would not apply to such a business.

~~(8)(9)~~ Types of industrial machinery and equipment that will or will not qualify for the exemption.

(a) For the purpose of this exemption, industrial machinery and equipment includes:

1. Special foundations required for the support of such qualifying machinery and equipment;
2. Electrical wiring from the nearest power panel or disconnect box to the qualifying machinery and equipment; and
3. Plumbing connections necessary to connect the machinery and equipment to the nearest water supply or drain line.

(b) The exemption for industrial machinery and equipment ends at that stage of the production process where the product produced is placed in a package (or is in ~~salable saleable~~ form if packaging is normally not done) to be sold to the wholesaler, retailer, or other purchaser. Machinery and equipment for the refrigerated, frozen, heated, or otherwise temperature-controlled storage or warehousing of packaged finished goods inventory, solely for preservation purposes, prior to shipment or delivery to customers, is not a part of the production process. However, the production process may include quality control activities for perishable goods after the item of tangible personal property has been packaged (or is in saleable form if packaging is normally not done), if such quality control activities are required by good manufacturing practices mandated by state or federal government agencies.

1. Example: A manufacturer's cold storage facility that is used solely for the warehousing of processed and packaged foods is not a part of the production process regardless of the fact that custom palletized orders may be assembled within the cold storage facility for customers.

2. Example: A manufacturer produces a product that must be frozen to be in a salable condition. The facility that performs the freezing function also stores the product prior to shipment. The freezing facility will qualify as a part of the production process.

3. Example: Customer accessible refrigerated cases containing prepackaged meats in a butcher shop are not a part of the production process, regardless of the fact that a customer may request that a package of meat be recut, trimmed, or ground.

4. Example: Refrigerated cases containing meats or seafood that are only accessible by employees, where such meats or seafood may be further processed by packaging, cutting, grinding, or steaming or otherwise cooked, are a part of the production process.

5. Example: Bakery display cases where the baked goods are only accessible by bakery shop personnel for slicing or packaging are a part of the production process.

6. Example: Refrigerated or heated display cases or preparation units for deli items that are only accessible by deli personnel are a part of the production process.

7. Example: A citrus juice manufacturer is prohibited by federal regulations from selling its inventory of processed juice before required post-production microbial tests are performed. Accordingly, the refrigerated or frozen storage of processed juice is a part of the manufacturing process.

(c) Quality control equipment installed within the production line and required to perform quality checks on each item, article, or batch produced before the item, article, or batch can be sold qualifies for the exemption.

(d) Preproduction, random, or postproduction quality control equipment ~~qualifies shall qualify~~ as industrial machinery and equipment, if it is an integral part of the production process.

(e) Industrial machinery and equipment ~~that which~~ is an integral part of the production process, as well as in postproduction, such as a ~~forklift fork lift~~, will qualify for the exemption.

(f) Pollution control equipment, or sanitizing and sterilizing equipment, that is an integral part of the production process qualifies for exemption.

(g) Monitoring machinery and equipment, such as computers, video, or other sensing systems or devices that are essential to that is an integral part of the production process, qualifies for exemption.

(h) Machinery and equipment used to remove waste materials away from industrial machinery and equipment, where the removal is required to maintain the operation of the

production process, will qualify for exemption. For example, equipment used to remove wood chips and sawdust from around a qualified industrial wood lathe will qualify for exemption.

(i) Parts and accessories for industrial machinery and equipment purchased for replacement, maintenance, or repair purposes do not qualify for this exemption unless purchased by:

1. A new business before production or spaceport activities begin, and delivery is made within 12 months from the start of production or spaceport activities; or

2. An expanding business before the completion of the expansion project.

3. Parts and accessories purchased for replacement, maintenance, or repair that have already received an exemption pursuant to Section 212.08(7)(~~xx~~)(~~zz~~), F.S., ~~are not entitled to shall not be allowed an exemption as provided in this rule for the same amount of tax pursuant to this paragraph.~~

(j) Conveyers or related equipment used to transport raw materials from the storage area located at the fixed location to the production line, or to transport work-in-process within the production line at the fixed location, will qualify for exemption.

(k) Computers and computer equipment.

1. Computers and computer equipment, such as computer aided manufacturing (CAM) systems used to direct and control the functions of exempt industrial machinery and equipment will qualify for exemption, even though such computers may also have non-production related applications or uses.

2. Computers and computer equipment, such as computer aided design (CAD) systems used in the conception or design of a product and computers and computer equipment used to input original images or data into a publishing system are not a part of the production process and will not qualify for exemption.

3. Computers and computer equipment used in an ancillary function, such as data storage or backup, are not a part of the production process and will not qualify for exemption.

4. Portable computers, such as laptops and similar portable devices, including digital cameras, will not qualify for exemption unless such items are exclusively used at the fixed location.

5. The initial purchase of software for qualifying computers and computer equipment will qualify for exemption. However, software license renewals will not qualify for exemption.

~~(l) Machines used to control exempt industrial machinery and equipment through the reading or sensing of a tape or some other similar means will qualify for exemption.~~

~~(l)(m)~~ Masks, molds, jigs, or templates, where such property is integral to the production process, will qualify for exemption. The machinery and equipment that is integral to the

creation or maintenance of those masks, molds, jigs, or templates will also qualify for exemption, even though such machinery and equipment is not a direct part of the production process.

~~(m)(n)~~ Machinery and equipment used in the general repair or maintenance of the plant or production machinery and equipment, such as welders, gear-pullers, or bench grinders, does not qualify for the exemption. However, specialized machinery and equipment that is continuously required to keep production machinery and equipment calibrated or in optimum condition, such as a sharpening machine in a sawmill, will qualify for the exemption.

~~(o)~~ Machinery and equipment qualifying for a partial exemption from tax under Section 212.08(3), F.S., is not eligible for the exemption under Section 212.08(5)(b), F.S.

~~(n)(p)~~ Scales at the start of, or within, the production process that are necessary to weigh raw materials or ingredients, or finished goods at the time of packaging, will qualify for the exemption.

~~(o)(q)~~ Office equipment, such as telephones, copy machines, typewriters, fax machines, desktop printers, or calculators, will not qualify for the exemption.

(p) Equipment used for communications purposes, such as telephones, radios, intercom systems, video or television equipment, or public address systems, will not qualify for exemption.

(q) Security systems for surveillance or to prevent or restrict access to the fixed location or areas within the fixed location will not qualify for exemption.

(r) Furniture items for office or production personnel will not qualify for the exemption.

(s) General or task lighting fixtures will not qualify for the exemption.

(t) Installation labor charges qualify for exemption. However, other installation costs, such as equipment rental or expendable supplies, which do not become a physical part of qualifying machinery and equipment, will ~~do~~ not qualify for exemption.

(u) Motor vehicles, as defined in Section 320.01, F.S., do not qualify for exemption.

(v) Locomotives or railroad cars that do not remain at the fixed location will not qualify for exemption.

~~(9)(10)~~ Operating Leases of Machinery and Equipment.

~~(a) The lease, letting, or rental of machinery and equipment, under the terms of an operating lease, shall be treated in the same way as a sale for the purpose of this exemption.~~

~~(a)(b)~~ When a qualifying new or expanding business entity leases industrial machinery, equipment, or parts thereof, ~~in lieu of purchasing those items,~~ the exemption from tax ~~shall~~ only applies ~~apply~~ to the original term of the lease agreement. Any subsequent renewal or extensions of the original term of the lease agreement are subject to tax ~~shall be fully taxable~~.

~~(e) When a qualifying expanding business entity leases industrial machinery, equipment, or parts thereof, in lieu of purchasing those items, the tax exemption limitation for the sales or use taxes paid on such industrial machinery, equipment, or parts thereof, shall apply to each calendar year of the original term of the lease agreement. For example, an expanding business (non printing) that enters into a 60 month operating lease will be subject to the \$50,000 tax threshold for each calendar year that the lease is in effect. Any subsequent renewals or extensions of the original term of the lease agreement shall be fully taxable.~~

~~(b)(d)~~ The exercise of a purchase option in an operating lease is considered to be a purchase made after the start of production for a new business, or a purchase made outside the expansion project period for an expanding business, and is subject to tax.

~~(11) Capital Leases of Machinery and Equipment-~~

~~(a) The lease, letting, or rental of machinery and equipment, under the terms of a capital lease, sales-type lease, or direct financing lease, shall be treated in the same way as a sale for the purpose of this exemption.~~

~~(c)(b)~~ In the case of a capital lease, sales-type lease, or direct financing lease, such leases will be considered to be sales and purchases at their inception.

Specific Authority 212.08(5)(b)4., 212.17(6), 212.18(2), 213.06(1) FS. DATE PROPOSED RULE APPROVED BY AGENCY HEAD: November 27, 2007

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: The proposed amendments to Rule Chapter 12A-1, F.A.C. (Sales and Use Tax), were noticed in the Florida Administrative Weekly on January 5, 2007 (Vol. 33, No. 1, pp. 1-11). A rule development workshop was held on January 24, 2007. In response to public comment, changes have been made to the proposed rule amendments.

<b>RULE NOS.:</b>	<b>RULE TITLES:</b>
25-4.042	Extended Area Service
25-4.057	Application and Scope
25-4.058	Conditions for Approval
25-4.059	Filing Requirements
25-4.060	Community of Interest Considerations
25-4.061	Hearings
25-4.063	Subscriber Survey
25-4.064	Alternatives to Non-Optional Extended Area Service

PURPOSE AND EFFECT: The Commission proposes to repeal these rules because they are no longer necessary. Section 364.385(2), F.S., prohibits new Extended Area Service (EAS) proceedings for price-regulated local exchange companies (LECs). Repealing the EAS rules will align the F.A.C. with this statute and would have no effect on the ten LECs in Florida. Docket No. 070588-TP.

SUMMARY: The listed rules address a LECs obligation to anticipate, or respond to the Commission's directive to study and/or provide toll relief under specific circumstances. The toll

relief at issue is EAS, and collectively, these rules can be described as "EAS rules". EAS is defined in subsection 25-4.057(2), F.A.C., as "a switching and trunking arrangement which provides for a nonoptional, unlimited, two-way, flat-rate calling service between two or more exchanges, at an increment to exchange rates, rather than at toll message charges".

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The SERC shows that the proposed repeal of these rules will likely have a negligible transactional cost to the telecommunications industry in Florida, and no transactional costs to ratepayers. There will likely be no impact on transaction costs for small businesses and no negative impact on local governments or on the Florida Public Service Commission.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

<b>RULE NOS.:</b>	<b>RULE TITLES:</b>
25-4.053	Application and Scope
25-4.054	Maintenance of Records
25-4.055	Classification of Exchanges
25-4.056	Reclassification of Exchanges

**PURPOSE AND EFFECT:** The Commission proposes to repeal these rules because they are no longer necessary. Statutory changes have profoundly impacted the regulatory landscape for local exchange companies (LECs), and as a result, rate groups no longer serve as a vehicle for regulating local exchange rates. Docket No. 070587-TP.

**SUMMARY:** Rules 25-4.053-25-4.056, F.A.C., generally address rate-grouping plans for LECs. Under the rate-base, rate-of-return form of regulation, LECs often had plans and pricing structures (rates) that were “grouped” based on the number of access lines a subscriber could call. The number of access lines in the local calling area of an exchange was referred to as the “calling scope”, and these rules provided guidance for establishing the rate groups using calling scopes. These rules are related to the rules that provide guidelines and requirements for processing requests (Extended Area Service).  
**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS:** The SERC shows that the proposed repeal of these rules will likely have a negligible transactional cost to the telecommunications industry in Florida, and no transactional costs to ratepayers. There will likely be no impact on transaction costs for small businesses and no negative impact on local governments or on the Commission.

RULE NO.:	RULE TITLE:
25-6.0423	Nuclear or Integrated Gasification Combined Cycle Power Plant Cost Recovery

PURPOSE AND EFFECT: The purpose of the rule amendment is to implement Section 366.93, F.S., to promote electric utility investment in Integrated Gasification Combined Cycle (IGCC) power plants by establishing cost recovery mechanisms that allow for the recovery in rates of all costs prudently incurred in the siting, design, licensing, and construction of an IGCC power plant. Docket No. 070672-EI.

SUMMARY: The rule is amended to extend the alternative cost recovery mechanisms developed for nuclear power plants to integrated gasification combined cycle (IGCC) power plants to allow the recovery of costs incurred in siting, design, licensing, and construction and allow for recovery in rates of all such prudently incurred costs.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: Investor owned electric utilities planning to build an IGCC plant should experience no significant additional costs as a result of the rule amendment and would benefit from the cost recovery mechanisms in the rule. Implementation of alternative cost recovery mechanisms will impact the timing of cost recovery from ratepayers, subject to Commission review.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 350.127(2), 366.05(1) FS.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: David E. Smith, Office of General Counsel, 2540 Shumard Oak Blvd., Tallahassee, FL 32399-0850, (850)413-6199

THE FULL TEXT OF THE PROPOSED RULE IS:

25-6.0423 Nuclear or Integrated Gasification Combined Cycle Power Plant Cost Recovery.

(1) Purpose. The purpose of this rule is to establish alternative cost recovery mechanisms for the recovery of costs incurred in the siting, design, licensing, and construction of nuclear or integrated gasification combined cycle power plants in order to promote electric utility investment in nuclear or integrated gasification combined cycle power plants and allow for the recovery in rates of all such prudently incurred costs.

(2) Definitions. As used in this rule, the following definitions shall apply:

(a) “Nuclear power plant” ~~or “plant”~~ is an electrical power plant that utilizes nuclear materials as fuel, as defined in Sections 403.503(13) and 366.93(1)(c), F.S.

(b) “Integrated gasification combined cycle power plant” is an electrical power plant that uses synthesis gas produced by integrated gasification technology, as defined in Sections 403.503(13) and 366.93(1)(c), F.S.

(c) “Power plant” or “plant” means a nuclear power plant or an integrated gasification combined cycle power plant.

~~(d)(b)~~ “Cost” includes, but is not limited to, all capital investments including rate of return, any applicable taxes and all expenses, including operation and maintenance expenses, related to or resulting from the siting, licensing, design, construction, or operation of the nuclear or integrated gasification combined cycle power plant as defined in Section 366.93(1)(a), F.S.

~~(e)(e)~~ “Site selection.” A site will be deemed to be selected upon the filing of a petition for a determination of need for a nuclear or integrated gasification combined cycle power plant pursuant to Section 403.519, F.S.

~~(f)(d)~~ “Site selection costs” are costs that are expended prior to the selection of a site.

(g)(e) “Pre-construction costs” are costs that are expended after a site has been selected in preparation for the construction of a nuclear or integrated gasification combined cycle power plant, incurred up to and including the date the utility completes site clearing work.

(h)(f) Site selection costs and pre-construction costs include, but are not limited to: any and all costs associated with preparing, reviewing and defending a Combined Operating License (COL) application for a nuclear power plant; costs associated with site and technology selection; costs of engineering, designing, and permitting the nuclear or integrated gasification combined cycle power plant; costs of clearing, grading, and excavation; and costs of on-site construction facilities (i.e., construction offices, warehouses, etc.).

(i)(g) “Construction costs” are costs that are expended to construct the nuclear or integrated gasification combined cycle power plant including, but not limited to, the costs of constructing ~~nuclear~~ power plant buildings and all associated permanent structures, equipment and systems.

(3) No change.

(4) Site Selection Costs. After the Commission has issued a final order granting a determination of need for a ~~nuclear~~ power plant pursuant to Section 403.519, F.S., a utility may file a petition for a separate proceeding, to recover prudently incurred site selection costs. This separate proceeding will be limited to only those issues necessary for the determination of prudence and alternative method for recovery of site selection costs of a ~~nuclear~~ power plant.

(5) Pre-Construction Costs and Carrying Costs on Construction Cost Balance. After the Commission has issued a final order granting a determination of need for a ~~nuclear~~ power plant pursuant to Section 403.519, F.S., a utility may petition the Commission for recovery of pre-construction costs and carrying costs of construction cost balance as follows:

(a) 1. through 2. No change.

(b) Carrying Costs on Construction Cost Balance. A utility is entitled to recover, through the utility’s Capacity Cost Recovery Clause, the carrying costs on the utility’s annual projected construction cost balance associated with the ~~nuclear~~ power plant. The actual carrying costs recovered through the Capacity Cost Recovery Clause shall reduce the allowance for funds used during construction (AFUDC) that would otherwise have been recorded as a cost of construction eligible for future recovery as plant in service.

1. For ~~nuclear~~ power plant need petitions submitted on or before December 31, 2010, the associated carrying costs shall be computed based on the pretax AFUDC rate in effect on June 12, 2007~~19, 2006~~;

2. For ~~nuclear~~ power plant need petitions submitted after December 31, 2010, the utility’s pretax AFUDC rate in effect at the time the petition for determination of need is filed is presumed to be appropriate unless the Commission determines otherwise in its need determination order;

3. No change.

(c) Capacity Cost Recovery Clause for Nuclear or Integrated Gasification Combined Cycle Power Plant Costs.

1. Each year, a utility shall submit, for Commission review and approval, as part of its Capacity Cost Recovery Clause filings:

a. through 2. No change.

3. The Commission shall include those costs it determines, pursuant to this subsection, to be reasonable or prudent in setting the Capacity Cost Recovery Clause factor in the annual Fuel and Purchased Power Cost Recovery proceedings. Such prior year actual costs associated with ~~nuclear~~ power plant construction subject to the annual proceeding shall not be subject to disallowance or further prudence review.

4. The final true-up for the previous year, actual/estimated true-up for the current year, and subsequent year’s projected ~~nuclear~~ power plant costs as approved by the Commission pursuant to subparagraph (5)(c)2. will be included for cost recovery purposes as a component of the following year’s capacity cost recovery factor in the Fuel and Purchased Power Cost Recovery. The utility must file all necessary revisions to the fuel and purchased power cost recovery filings no later than October 15 of the current year.

5. By May 1 of each year, along with the filings required by this paragraph, a utility shall submit for Commission review and approval a detailed analysis of the long-term feasibility of completing the power ~~nuclear~~ plant.

(6) Failure to Enter Commercial Service. Following the Commission’s issuance of a final order granting a determination of need for the ~~nuclear~~ power plant, in the event the utility elects not to complete or is precluded from completing construction of the ~~nuclear~~ power plant, the utility shall be allowed to recover all prudent site selection costs, pre-construction costs, and construction costs.

(a) through (b) No change.

(7) Commercial Service. As operating units or systems associated with the ~~nuclear~~ power plant and the ~~nuclear~~ power plant itself are placed in commercial service:

(a) No change.

(b) The utility shall calculate the increase in base rates resulting from the jurisdictional annual base revenue requirements for the ~~nuclear~~ power plant in conjunction with the Capacity Cost Recovery Clause projection filing for the year the ~~nuclear~~ power plant is projected to achieve commercial operation. The increase in base rates will be based on the annualized base revenue requirements for the ~~nuclear~~

power plant for the first 12 months of operations consistent with the cost projections filed in conjunction with the Capacity Cost Recovery Clause projection filing.

(c) At such time as the ~~nuclear~~ power plant is included in base rates, recovery through the Capacity Cost Recovery Clause will cease, except for the difference between actual and projected construction costs as provided in subparagraph (5)(c)4. above.

(d) No change.

(e) The jurisdictional net book value of any existing generating plant that is retired as a result of operation of the ~~nuclear~~ power plant shall be recovered through an increase in base rate charges over a period not to exceed 5 years. At the end of the recovery period, base rates shall be reduced by an amount equal to the increase associated with the recovery of the retired generating plant.

(8)(a) through (e) No change.

(f) Annual Reports Required by Rule 25-6.135, F.A.C. On an annual basis following issuance of the final order granting a determination of need and until commercial operation of the ~~nuclear~~ power plant, a utility shall include the budgeted and actual costs as compared to the estimated in-service costs of the ~~nuclear~~ power plant as provided in the petition for need determination in its annual report filed pursuant to Rule 25-6.135, F.A.C. The estimates provided in the petition for need determination are non-binding estimates. Some costs may be higher than estimated and other costs may be lower. A utility shall provide such revised estimated in-service costs as may be necessary in its annual report.

RULE TITLE: Contents of Petition

PURPOSE AND EFFECT: The purpose of the rule is to implement 2007 amendments to Section 403.519, F.S., dealing with the contents of an electric utility's petition for determination of need and extending the statute's applicability to integrated gasification combined cycle (IGCC) power plants. Docket No. 070672-EI.

SUMMARY: The rule is amended to include IGCC power plants, and to specify that a petition for determination of need must include information to allow the Commission to consider the electric utility's use of conservation measures and renewable energy sources and technologies in the determining need for new generation capacity.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The additional costs to electric utilities to comply with the rule should be minimal.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

25-22.081 Contents of Petition.

(1) Petition for Fossil, Integrated Gasification Combined Cycle, or Nuclear Fuel Electric Plants. Petitions submitted to commence a proceeding to determine the need for a proposed fossil, integrated gasification combined cycle, or nuclear fuel electrical power plant or responses to the Commission's order commencing such a proceeding shall comply with the other requirements of Chapter 25-22, F.A.C., as to form and style except that a utility may, at its option, submit its petition in the same format and style as its application for site certification pursuant to Sections 403.501 through 403.517, F.S., so long as the informational requirements of this rule and Chapter 25-22, F.A.C., are satisfied. ~~The petition, I~~to allow the Commission to take into account the need for electric system reliability and integrity, the need for adequate reasonable cost electricity, the

need for fuel diversity and supply reliability, ~~and~~ the need to determine whether the proposed plant is the most cost effective alternative available, and the need to determine whether renewable energy sources and technologies, as well as conservation measures, are utilized to the extent reasonably available, the petition shall contain the following information:

(a) through (b) No change.

(c) A statement of the specific conditions, contingencies or other factors which indicate a need for the proposed electrical power plant including the general time within which the generating units will be needed. Documentation shall include historical and forecasted summer and winter peaks, number of customers, net energy for load, and load factors with a discussion of the more critical operating conditions. Load forecasts shall identify the model or models on which they were based and shall include sufficient detail to permit analysis of the model or models. If a determination is sought on some basis in addition to or in lieu of capacity needs, such as fuel diversity, then detailed analysis and supporting documentation of the projected costs and benefits is required. Where a determination is sought for a nuclear or integrated gasification combined cycle power plant, the nonbinding estimate provided for in paragraph (2)(b) below shall be considered to be sufficient for purposes of this paragraph.

(d) A summary discussion of the major available generating alternatives which were examined and evaluated in arriving at the decision to pursue the proposed generating unit. The discussion shall include a general description of the generating unit alternatives, including purchases where appropriate; and an evaluation of each alternative in terms of economics, reliability, long-term flexibility and usefulness and any other relevant factors such as fuel diversity and fuel supply reliability. These major generating technologies generally available and potentially appropriate for the timing of the proposed plant and other conditions specific to it shall be discussed. In addition, each investor-owned utility shall include a detailed description of the selection process used and a detailed description of the generating unit alternatives proposed by each finalist, if any, selected to participate in subsequent contract negotiations pursuant to Rule 25-22.082, F.A.C. No provision of Rule 25-22.082, F.A.C., shall be applicable to a nuclear or integrated gasification combined cycle power plant sited after June 19, 2006.

(e) through (g) No change.

(2) In addition to complying with paragraphs (1)(a) through (g) above, a nuclear or integrated gasification combined cycle power plant petition shall contain the following information:

(a) The description required by Section 403.519(4)(a)2., F.S., including a discussion about how the proposed nuclear or integrated gasification combined cycle power plant will enhance the electric supply reliability by reducing the exposure to fossil fuel supply disruptions;

(b) A description of and a nonbinding estimate of the cost of the proposed nuclear or integrated gasification combined cycle power plant, including associated transmission facilities;

(c) The annualized base revenue requirement for the first 12 months of operation of the proposed nuclear or integrated gasification combined cycle power plant, based on the nonbinding estimate of the cost provided pursuant to paragraph (2)(b) above; and

(d) No change.

RULE NO.: 33-602.205  
 RULE TITLE: Inmate Telephone Use

PURPOSE AND EFFECT: The purpose and effect of the proposed rule is to clarify the requirements, process, and exemptions for inmates wishing to receive or make phone calls to foreign consulates.

SUMMARY: The rule is amended to allow inmate phone calls to foreign consulates to be private and unmonitored; exempted from the fifteen minute maximum restriction and limited to the amount of time reasonably necessary to accomplish the purpose of the call; and provide the requirements for verifying that a person is a foreign consulate for the purposes of inmate telephone use.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

33-602.205 Inmate Telephone Use.

(1) This rule sets forth the minimum telephone privileges that shall be granted to inmates housed in institutions or facilities other than community correctional centers, or inmates housed on death row. All inmate calls, with the exception of those calls placed to attorneys pursuant to paragraph (3)(a), and to foreign consulates pursuant to paragraph (4)(a) shall be subject to monitoring and recording. Due to the high level of security needs on death row, the only telephone privileges available to death row inmates are those set forth in paragraph (3)(a), private calls to attorneys; paragraph 4)(a), private calls to foreign consulates; and subsection (5)(4), calls made in the event of family crisis.

(2) Inmate telephone procedures will be conducted as follows:

(a) through (d) No change.

(e) Except for calls to attorneys as provided in paragraph (3)(a), calls to foreign consulates as provided in paragraph (4)(a), or calls during family crisis as provided in subsection (5)(4), calls shall be limited to 15 minutes. Calls to attorneys as

provided in paragraph (3)(a), calls to foreign consulates provided in paragraph (4)(a), and calls in time of family crisis as provided in subsection (5)(4) shall be limited to the amount of time reasonably necessary to accomplish the purpose of the call.

(f) through (l) No change.

(3) No change.

(4) Calls to Foreign Consulates.

(a) A foreign national inmate shall be allowed to make private telephone calls to his or her respective consulate upon presentation to the warden or his designee of evidence that the call is necessary and that the inmate is a native of the country represented by the consulate as verified by Immigration and Custody Enforcement. Such evidence shall be a letter from the consulate (transmission by FAX is acceptable) requesting the return call. A consulate shall also be permitted to make prior arrangements by letter or FAX with the warden or warden's designee to have the inmate receive a private telephone call from the consulate on an unmonitored telephone.

(b) Except as authorized by warrant or court order, telephone calls to counsulates made pursuant to this section shall not be monitored or electronically recorded. These calls will be placed on telephones designated for this purpose and shall be collect calls; there shall be at least one telephone at each institution that is not connected to the monitoring system for these calls.

(5)(4) An inmate may be authorized to make telephone calls in case of family crisis, including death or serious illness in the immediate family or serious marital or other family problems. All such calls must be approved by the chaplain or other official designated by the warden who shall, if possible, verify the existence of the family crisis.

(5) through (15) renumbered (6) through (16) No change.

RULE NO.: 42AA-1.002  
RULE TITLE: Boundary

PURPOSE AND EFFECT: The Petition, as supplemented, proposes to modify the land area presently serviced by the District by amending its boundary to add approximately 212.65 acres. The District currently covers approximately 3,028 acres of land located entirely within Polk County, Florida. There are no lands within the expansion parcel that are to be excluded from the District. Petitioner has written consent to amend the boundary of the District from the owners of one hundred percent of the real property comprising the expansion parcel. Pursuant to Section 190.046(1)(e), F.S., the filing of the Petition, as supplemented, for expansion by the District Board of Supervisors constitutes consent of the landowners. The proposed 212.65 acre expansion area will include single family residential units that will be added to the overall development schedule.

SUMMARY: The Petition, as supplemented, proposes to modify the land area presently serviced by the District by amending its boundary to add approximately 212.65 acres. The District currently covers approximately 3,028 acres of land located entirely within Polk County, Florida. There are no lands within the expansion parcel that are to be excluded from the District. Petitioner has written consent to amend the boundary of the District from the owners of one hundred percent of the real property comprising the expansion parcel. Pursuant to Section 190.046(1)(e), F.S., the filing of the Petition, as supplemented, for expansion by the District Board of Supervisors constitutes consent of the landowners. The proposed 212.65 acre expansion area will include single family residential units that will be added to the overall development schedule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: In association with the Petition, as supplemented, the Petitioner has caused a Statement of Estimated Regulatory Costs (“SERC”) to be prepared in compliance with section 120.541, F.S. By way of summary, the SERC estimates the principal individuals and entities likely to be required to comply with the amended rule are the single family residential households that locate within the proposed expansion area. The SERC estimates that rule amendment implementation and enforcement costs to the Commission and state agencies will be modest. The costs to Polk and Osceola Counties are modest and will be offset by the payment of requisite filing and annual fees. The SERC estimates there will be no effect on state and local revenues from the proposed amendment of the rule. The SERC indicates the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. Prospective future landowners would be required to pay off such

indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operations and maintenance of the District. The SERC further provides the decision to locate within the District is completely voluntary. The SERC concludes that the expansion of the District's boundary will have no impact on small businesses. As to impact on small counties, neither Polk nor Osceola Counties are "small" counties as defined by Section 120.52, F.S. The SERC analysis is based on a straightforward application of economic theory. Input was received from the developer's engineer and other professionals associated with the developer.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(Substantial rewriting of Rule 61G15-32.008 follows. See Florida Administrative Code for present text.)

61G15-32.008 Design of Fire Alarms, Signaling Systems and Control System.

(1) Fire alarms, signaling and control system include but are not limited to fire protection supervision, emergency alarm circuits, activation of life safety system controls and remote signaling of emergency conditions.

(2) The design specifications shall be based on applicable codes, when applicable, or alternate engineering sources including published underwriter's engineering documents, and sound engineering practices.

(3) For fire alarm plans on small systems below the threshold requirements for mandatory use of professional engineering services, the Engineer of Record shall specify the minimum system requirements.

(4) To ensure minimum design quality of Fire Alarm Signaling and Control Systems Engineering Documents, said documents shall include as a minimum the following information when applicable:

(a) The plans shall be clear, with a symbols legend, system riser diagram showing all initiation and notification components, and cabling requirements. Indicate locations where fire ratings are required as determined by the system's survivability requirements. Identify the general occupancy of the protected property, and for each rooms and area unless it is clear from features shown.

(b) Locate initiation and notification devices and connections to related systems on the floor plans and sections when needed for clarity). Related systems include, but are not limited to sprinkler systems, elevator controls, smoke control systems, dampers, and doors.

(c) Strobe intensity and speaker output ratings for all notification devices.

(d) Identify the Class and Style of circuits as listed in the NFPA 72.

(e) Identify the functions required by the alarm and control systems including the transmission of emergency signals being monitored or annunciated.

(f) Indicate whether the fire alarm is conventional or addressable, and indicate all zoning.

(g) Locate surge protective devices and required protective features.

(h) Locate system devices that are subject to environmental factors, and indicate requirements for the protection of equipment from temperature, humidity or corrosive atmospheres, including coastal salt air.

(i) The plans shall include a site plan of the immediate area around the protected building, structure or equipment when alarm devices are required outside the structure.

(j) In buildings where smoke detection will be obstructed by walls, beams or ceiling features, the Engineer of Record shall provide applicable design and details to direct the installer to mitigate the obstructions. In buildings with smoke detection under a pitched roof, the plans shall indicate the roof pitch and a building section shall be provided as part of the Engineering Design Documents.

(k) Fire detection systems utilizing smoke detection in situations where smoke stratification is anticipated, the design shall provide the necessary criteria to mitigate the problem.

(l) Systems designed using Performance Based criteria shall be identified and referenced to design guides or standards acceptable to the Florida State Fire Marshal or the Florida Building Code.

(m) The system design must indicate if the system is to provide a general evacuation signal or a zoned evacuation for all high-rise buildings or multi-tenanted properties.

(n) Wiring requirements for underground, wet locations, campus style wiring, protection against damage and burial depth shall be specified or indicated on the engineering design documents.

(o) Complete requirements for operations and maintenance procedures, manuals, system documentation, and instruction of Owner's operating personnel, as needed to operate the systems as intended over time.

(5) In the event that the Engineer of Record elects to specify specific equipment and to show the required wiring, battery and voltage drop (circuit analysis) calculations shall be completed. The calculations shall be completed using the equipment manufacture's data and applicable NFPA 72 procedures.

(6) System test requirements shall be noted on the Engineering Design Documents.

(7) When the engineer determines that special requirements are required by the owner, insurance underwriter or local fire code amendments these requirements shall be documented or referenced on the Engineering Design Documents.

61G15-34.001 General Responsibility.

Mechanical Engineering Documents shall be prepared utilizing ~~in accordance with the~~ applicable technologies and shall comply with the requirements of the authority having jurisdiction. The documents shall identify the Engineer of Record for the mechanical systems project. Mechanical Engineering documents shall demonstrate compliance be

~~prepared in accordance~~ with the requirements of the applicable codes and standards as defined herein. The Engineer of Record is responsible for determining the applicability of appropriate codes and standards for a given project. In the event the codes and standards fail to cover or address a specific requirement or situation, alternative research, test results, engineering data, and engineering calculations shall be utilized. New technology may be utilized when said technology has been demonstrated to provide equivalent or improved performance. Construction documents shall indicate the nature and character of mechanical work and shall describe, label and define the required mechanical systems components, processes, equipment and material and its structural utility support systems. Both the Engineer of Record for the Mechanical System and the Delegated Engineer if utilized, shall comply with the requirements of the general responsibility Rules, 61G15-30, F.A.C., and with the requirements of the specific rules contained herein. The Engineer of Record for the Mechanical System(s) shall provide design requirements in writing to the delegated engineer if one is used and shall review the design documents of the delegated engineer for conformance to his written instructions in accordance with Rule 61G15-30.005, F.A.C. Any Mechanical Delegated Engineering Documents must be included in the final set of documents filed for permit.

61G15-34.002 Definitions.

(1) Engineer of Record for the Mechanical Systems. The Florida ~~Registered~~ Professional Engineer who is in responsible charge for the preparation, signing, dating, sealing and issuing of any engineering document(s) for ~~develops~~ the mechanical systems design criteria or performs the analysis and is responsible for the preparation of the mechanical documents for the project.

(2) through (4) No change.

(5) Mechanical Engineering Documents. All The mechanical drawings, specifications, reports, calculations, data and other documents utilized to establish setting forth the overall design and requirements for the construction, alteration, modernization, repair, demolition, arrangement, and/or use of the mechanical system(s), or analysis or recommendations, as prepared by the Engineer of Record for the mechanical system. Mechanical Engineering Documents shall additionally meet the requirements of Rule 61G15-30.003, F.A.C., Engineering Documents.

(6) Mechanical Shop Drawings Submittals. Submittals, catalog information on standard products, or drawings prepared solely to serve as a guide for fabrication and installation and requiring no engineering input. These submittals do not require the seal of a Florida ~~Registered~~ Professional Engineer.

(7) Codes and Standards. Those nationally recognized Codes and Standards adopted directly or by reference in Part II, Chapter 553, Florida Statutes: Florida Building Code (including Florida Energy Efficiency Code, Chapter 13) and Florida Fire Code. Applicable codes and standards are those promulgated by the State Fire Marshal and those required by the state and local authorities having jurisdiction. These codes and standards include those published by the National Fire Protection Association (NFPA), The American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), The American Society for Testing Materials (ASTM), American Society for Mechanical Engineers (ASME), National Electrical Manufacturers Association (NEMA), American National Standards Institute (ANSI), Underwriters' Laboratories (UL), American Society of Plumbing Engineers (ASPE), Sheet Metal and Air Conditioning Contractor's Association (SMACNA), American Movement and Control Association (AMCA), Air Conditioning and Refrigeration Institute (ARI), SBCCA Mechanical and Plumbing Codes, Florida Energy Code, State Building Codes.

(8) Mechanical Delegated Engineering Documents. Mechanical Engineering Documents prepared by a delegated engineer to whom the Engineer of Record for the Mechanical System has delegated responsibility for the design of a mechanical component or system and which are signed sealed and dated by the delegated engineer.

Specific Authority 471.008, 471.033(2) FS. Law Implemented 471.033 471.030 FS. History--New 11-16-94, Amended 2-5-96,

61G15-34.003 Design of Heating Ventilation and Air Conditioning Systems.

(1) Heating, Ventilating, and Air Conditioning (HVAC) Systems include, but are not limited to are those systems that control the temperature ~~and/or~~ humidity, and/or mechanical ventilation of a particular space or building. ~~Items to be considered in the design and analysis of these systems are ambient dry and wet bulb temperatures, inside dry and wet bulb temperatures, inside design humidity, fresh air makeup, internal heat gains from any sources. Ventilation systems shall be designed to remove foul odors from a space or building, or to remove space heat from equipment rooms.~~

(2) All HVAC systems shall be designed in accordance with the Florida Codes, and reference standards ASHRAE Standards and Building Code as adopted by the authority having jurisdiction. ~~The HVAC systems shall be designed and operated such that the entire building is under positive or neutral pressure when all primary HVAC systems are operating.~~

(2) ~~Mechanical Engineering documents applicable to HVAC systems shall, where applicable, include but are not limited to the following:~~

~~(a) Equipment selection schedule for each piece of mechanical equipment. All equipment shall have capacities listed including efficiencies, electrical or fuel requirements, static pressure and fan air quantities as applicable to the system, fluid flow and pressure head quantities as applicable to the system, and heat transfer capacities.~~

~~(b) Floor plans; site plans; and building and mechanical system elevations as appropriate.~~

~~(c) Outside (fresh) air make up conditions.~~

~~(d) Cooling coil requirements based on sensible heat, latent heat and total heat gains.~~

~~(e) Heating equipment requirements.~~

~~(f) Outside and inside design dry and wet bulb conditions.~~

~~(g) Exhaust riser diagrams.~~

~~(h) Outside air riser diagrams.~~

~~(i) Process flow diagrams with pipe sizes and fluid flow quantities.~~

~~(j) Condensate discharge piping with pipe sizes.~~

~~(k) Instrumentation and Control System diagrams and sequence of operation.~~

~~(l) Ductwork layout and sizing; insulation, supply, return, and exhaust inlet and outlet sizes; and outside air intake sizes. Air quantities shall be specified for inlets and outlets.~~

~~(m) Florida Energy Code calculations as applicable.~~

~~(n) NFPA Standards and all required fire protection devices and systems.~~

(3) The Engineer of Record shall determine the level of detail shown on plans for a HVAC system for mechanical engineering plans pertaining to HVAC systems exempted by the threshold requirements for mandatory use of professional engineering services. All such plans shall provide a clear understanding of the minimum system requirements expected to be installed by the contractor.

(4) For Mechanical Engineering Documents pertaining to HVAC systems that exceed the threshold requirements for mandatory use of professional engineering services, the plans shall have the following minimum indicate the following:

(a) Demonstrate and provide adequate information for the AHJ to determine compliance with codes and ordinances. These may include test methods and results; data and tabulations for Energy Conservation that are results of the design.

(b) Equipment selection schedule for each piece of mechanical equipment. All equipment shall have capacities listed including efficiencies, electrical or fuel requirements, static pressure and fan air quantities as applicable to the system, fluid flow and pressure head quantities as applicable to the system, and heat transfer capacities.

(c) Floor plans; site plans; and building and mechanical system elevations as appropriate.

(d) Outside (fresh) air make-up conditions.

- (e) Cooling coil requirements based on sensible heat, latent heat and total heat gains.
- (f) Heating equipment requirements.
- (g) Outside and inside design dry and wet bulb conditions.
- (h) Exhaust riser diagrams on buildings more than three stories when ductwork travels vertically.
- (i) Outside air riser diagrams on buildings more than three stories when ductwork travels vertically.
- (j) Process flow diagrams with pipe sizes and fluid flow quantities.
- (k) Condensate discharge piping layout with pipe sizes.
- (l) Instrumentation and Control System diagrams and sequence of operation.
- (m) Ductwork layout and sizing; insulation requirements, supply, return, and exhaust inlet and outlet sizes; and outside air intake sizes. Air quantities shall be specified for inlets and outlets.
- (n) All data needed to complete the Florida Energy Code calculations as applicable.
- (o) A list of referenced NFPA Standards and layouts of all required fire protection devices and systems.
- (p) Building pressurization criteria.

- (1) No change.
- (2) Mechanical Engineering Documents applicable to Plumbing Systems shall when applicable, include but are not limited to the following:
  - (a) through (b) No change.
  - (c) Potable Water isometric diagrams with pipe sizes and total water fixture units.
  - (d) through (m) No change.

<b>RULE NOS.:</b>	<b>RULE TITLES:</b>
62-814.100	Intent, Findings, Basis of Standards, and Research Needs
62-814.300	General Technical Requirements
62-814.450	Electric and Magnetic Field Standards

**PURPOSE AND EFFECT:** Implementation of subsections. 403.061(30) and 403.523(10), F.S.

**SUMMARY:** The Department of Environmental Protection is authorized to regulate electric and magnetic fields (EMF) from transmission lines as indicated in Florida Statute 403.061(30). The rule implementing the statute is outdated and requires updates in the following three areas, addressed in this proposed rule: (1) The elimination of a rule exemption for a specific transmission line which was never actually constructed; (2) The inclusion of standards for transmission lines with voltages above 500,000 volts; and (3) The elimination of an annual review and report on the state of science with respect to electromagnetic fields.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS:** No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**SPECIFIC AUTHORITY:** 403.061(7), 403.523(1) FS.  
**LAW IMPLEMENTED:** 403.061(30), 403.523(14) FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULES IS: Mr. Mike Halpin, P.E. at (850)245-8002 or [mike.halpin@dep.state.fl.us](mailto:mike.halpin@dep.state.fl.us)

THE FULL TEXT OF THE PROPOSED RULES IS:

62-814.100 Intent, Findings, Basis of Standards, and Research Needs.

(1) No change.

(2) Findings. Based on the information available to the Department, the Department makes the following general findings:

(a) The Department has reviewed the present scientific data on the potential for health effects of electric and magnetic fields. The Department has also reviewed data on the existing or potential electric and magnetic field levels near electrical transmission and distribution lines and substations in Florida. Although there is no conclusive evidence that there is any danger or hazard to public health at the levels of existing 60 hertz electric and magnetic fields found in Florida, there is evidence of biological effects and a potential for adverse health

effects on the public. Further research is needed to determine if there are health effects and the exposure levels at which such effects may occur.

(b) With respect to 60 hertz EMF, reasonable measures include ~~urging more applied research on the potential adverse human health effects of EMF and EMF mitigation techniques; performing a comprehensive review of the state of the science and submitting annual reports to the Environmental Regulation Commission commencing in 1993; reviewing the provisions of this rule not later than July of 1994; and requiring all new and modified transmission lines and substations to meet standards which are achievable through the use of available EMF reduction technology and measures, but in no case to allow any new or modified transmission line or substation, under normal conditions, to cause electric or magnetic field strengths greater than the highest operating voltage and the maximum current rating (MCR) values for existing transmission lines and substations.~~

(3) No change.

~~(4) Additional Research Needed. Continued research is needed on the potential adverse human health and welfare effects of 60 hertz EMF and EMF mitigation techniques because existing knowledge is inadequate to confidently conclude that no further action is needed.~~

~~(4)(5) Categories of Electrical Facilities. This chapter sets forth three categories of electrical facilities for regulation in regards to the electric and magnetic fields associated with these facilities.~~

(a) The first category is for existing electrical facilities on which construction was commenced prior to March 21, 1989, and new distribution lines. These facilities will be allowed to operate in accordance with subsection 62-814.400(2), F.A.C.

(b) The second category of electrical facilities is for those which were certified pursuant to Chapter 403, Part Two, Florida Statutes, after April 15, 1988, but before March 21, 1989. These facilities will be subject to specific standards moderated by the individual circumstances of the facility.

(c) The third category is for new transmission lines and substations the construction of which commenced after March 21, 1989.

~~(5)(6) Effect of Rule. The effect of this chapter is to establish requirements to reasonably protect the public health and welfare from electric and magnetic fields associated with electrical transmission lines, distribution lines and substations.~~

Specific Authority 403.061(7), 403.523(1) FS. Law Implemented 403.061(30), 403.523(14) FS. History—New 3-21-89, Amended 1-7-93; Formerly 17-274.100, Formerly 17-814.100, Amended \_\_\_\_\_.

62-814.300 General Technical Requirements.

(1) through (2) No change.

~~(3) Copies of the publications listed in subsection (2) are available for inspection at the Department's Information Center, 2600 Blair Stone Road, Tallahassee, Florida, 32399-2400.~~

62-814.450 Electric and Magnetic Field Standards.

(1) No change.

~~(2) Transmission lines certified pursuant to Chapter 403, Part Two, Florida Statutes, after April 15, 1988, and prior to March 21, 1989.~~

~~(a) For the Lake Tarpon Kathleen transmission line where the ROW width is 100 feet:~~

~~1. The maximum electric field at the edge of the ROW shall not exceed 1.56 kV/m and on the ROW shall not exceed 8.94 kV/m.~~

~~2. The peak daily magnetic field at the edge of the ROW shall be limited to 35 milliGauss under normal load conditions. Under load conditions in excess of 500 MW, the peak daily magnetic field shall be limited to 229 milliGauss. Load conditions in excess of 500 MW shall occur for no more than 15 hours in any given year, except for non permanent load conditions caused by malfunction or maintenance outages in the transmission grid or generation facilities within or outside of Florida. Florida Power Corporation shall report annually to the Department the amount of time during which the 500 MW normal load condition was exceeded.~~

~~(b) For the Lake Tarpon Kathleen transmission line where the ROW width is 190 feet:~~

~~1. The maximum electric field at the edge of the ROW shall not exceed 1.90 kV/m and on the ROW shall not exceed 8.80 kV/m.~~

~~2. The peak daily magnetic field at the edge of the ROW shall be limited to 24 milliGauss under normal load conditions. Under load conditions in excess of 500 MW, the peak daily magnetic field shall be limited to 154 milliGauss. Load conditions in excess of 500 MW shall occur for no more than 15 hours in any given year, except for non permanent load conditions caused by malfunction or maintenance outages in the transmission grid or generation facilities within or outside of Florida. Florida Power Corporation shall report annually to the Department the amount of time during which the 500 MW normal load condition was exceeded.~~

~~(2)(3) New transmission lines and substations.~~

(a) The maximum electric field at the edge of the transmission line ROW containing a 500 kV nominal voltage or less transmission line or at the property boundary of a new substation containing facilities operating at these voltages shall not exceed 2.00 kV/m.

(b) The maximum electric field at the edge of the transmission line ROW for a line with a nominal voltage greater than 500 kV or at the property boundary of a new substation containing facilities operating at these voltages shall not exceed 5.50 kV/m.

(c)(b) The maximum electric field on the ROW of a 230 kV or smaller transmission line shall not exceed 8 kV/m.

(d)(e) The maximum electric field on the ROW of a 500 kV transmission line with a nominal voltage greater than 230 kV and up to 500 kV shall not exceed 10 kV/m.

(e) The maximum electric field on the ROW of a transmission line greater than 500 kV shall not exceed 15 kV/m.

(f)(d) The maximum magnetic field at the edge of a 230 kV or smaller transmission line ROW or at the property boundary of a new substation serving such lines shall not exceed 150 milliGauss.

(g)(e) The maximum magnetic field at the edge of the transmission line ROW for a transmission line with a nominal voltage greater than 230 kV and up to 500 kV, 500 kV line or at the property boundary of a new substation containing facilities

operating at these voltages serving a 500 kV line shall not exceed 200 milliGauss, except for double circuit 500 kV lines to be constructed on ROWs existing on March 21, 1989, as identified below where the limit will be 250 milliGauss.

(h) The maximum magnetic field at the edge of the transmission line ROW for a transmission line with a nominal voltage greater than 500 kV or at the property boundary of a new substation containing facilities operating at these voltages shall not exceed 250 milliGauss.

(i)(f) For existing ROWs extending from the Andytown substation to the Orange River substation, Andytown substation to the Martin Generating Plant, and the Martin Generating Plant to the Midway substation, where the facility owner has acquired, prior to March 21, 1989, a ROW sufficiently wide for two or more 500 kV transmission lines and has constructed one or more 500 kV transmission lines on this ROW prior to March 21, 1989, the maximum magnetic field at the edge of the ROW or property boundary of a new or modified substation shall not exceed 250 milliGauss.

Table of New Transmission Line and Substation Standards

RULE NOS.: 63E-7.013  
 63E-7.016  
 RULE TITLES: Safety and Security  
 Program Administration

PURPOSE AND EFFECT: The rule establishes the requirements for the administration and operation of state operated and contracted residential commitment programs for juvenile offenders.

SUMMARY: The rule sections address safety and security in the physical plant, in daily operations, and in crisis situations. In addition to physical security features, key control, escape

prevention and control of contraband, the rule addresses facility staffing and supervision, offender classification, controlled observation, transportation, mail and visitation, and other aspects of a safe and secure facility environment. The rule also addresses program administration, including required reporting, the keeping of logbooks, records management, audit and review, and staff evaluation.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 985.64, 985.601(3)(a), 985.441(1)(b), 985.03(44) FS.

LAW IMPLEMENTED: 985.601(3)(a), 985.441(1)(b) FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: Friday, January 4, 2008, 10:00 a.m.

PLACE: DJJ Headquarters, 2737 Centerview Drive, General Counsel's Conference Room 3223, Tallahassee, Florida

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULES IS: Lydia Monroe, 2737 Centerview Dr., Ste. 3200, Tallahassee, FL 32399-3100, e-mail: lydia.monroe@djj.state.fl.us

THE FULL TEXT OF THE PROPOSED RULES IS:

63E-7.013 Safety and Security.

(1) Physical Security Features. A residential commitment program shall provide physical security features as required pursuant to Chapter 985, F.S., the provider's contract with the department, if applicable, and the following provisions based on the restrictiveness level of the program:

(a) Although a low-risk program is not required to be physically secure, authorized features include delay-open door alarms, window alarms, electronic search devices, video surveillance equipment, radio or cellular phone communication devices for staff, and exterior lighting.

(b) A moderate-risk program shall be environmentally secure, staff secure, or hardware-secure with walls, fencing, or locking doors. Additionally, the following security features are authorized, but not required, for a moderate-risk program:

1. Security fencing with an inside overhang or razor wire;
2. Door locks on entry, exit, and passage doors, with a manual override capability if locks are electronic;
3. Secure windows of break-resistant or screened glass;
4. Delay open door and window alarms;
5. Camera surveillance system;
6. Secure sally port;
7. Secure pedestrian gate;
8. Exterior security lighting;
9. Electronic search equipment; and
10. Radio or cellular phone communication devices for staff.

(c) A high-risk program shall provide security features that include a minimum of 12-foot high perimeter fencing, with an inside overhang or razor wire; door locks on entry, exit and passage doors, with a manual override capability if locks are electric; secure windows of break-resistant or screened glass; and exterior security lighting. A high-risk program shall also provide radio or cellular phone communication devices for staff. Additionally, the following security features are authorized, but not required, for a high-risk program:

1. Camera surveillance system;
2. Secure sally port;
3. Secure pedestrian gate; and
4. Electronic search equipment.

(d) A maximum-risk program shall provide the following security features:

1. Perimeter security fencing of at least 12 feet in height, with an inside overhang or razor wire;

2. Door locks on entry, exit, and passage doors, with a manual override capability if locks are electronic;

3. Camera surveillance system, with inside and outside cameras and taping capability;

4. Sally port with intercom capability;

5. Secure pedestrian gate with intercom capability;

6. Secure windows that are break-resistant or screened glass;

7. Sleeping room doors that open out;

8. Exterior security lighting;

9. Electronic search equipment; and

10. Radio or cellular phone communication devices for staff.

(2) Staffing Ratios. Any low-risk residential commitment program of more than five beds, and any moderate-risk, high-risk, and maximum-risk restrictiveness level program shall provide awake staff supervision 24 hours per day.

(a) Establishment of staff-to-youth ratios for each contracted or state-operated program shall be based on the following factors:

1. Restrictiveness level of the program;
2. Special needs of the targeted population; and
3. Facility layout or physical plant design.

(b) Staff-to-youth ratios in a privately operated residential commitment program shall be provided as specified in the provider's contract with the department and shall be monitored for compliance by the residential monitor designated by the department.

(c) Staff-to-youth ratios in a state-operated program shall be specified in the department's monitoring plan for the program and shall be monitored for compliance by the residential monitor designated by the department.

(3) Supervision of Youth. All residential commitment program staff shall promote safety and security by maintaining active supervision of youth to include interacting positively with youth, engaging youth in a full schedule of constructive activities, closely observing behavior of youth and changes in behavior, and consistently applying the program's behavior management system.

(a) Program staff shall account for the whereabouts of youth under their supervision at all times.

1. Each program shall ensure that staff conduct and document resident counts minimally at the beginning of each shift, after each outdoor activity, and during any emergency situation, escape incident or riot.

2. Each program shall track daily census information to include, at a minimum, the total daily census count, new admissions, releases or direct discharges, transfers, and youth temporarily away from the program.

3. If, at any time, program staff cannot account for any youth's whereabouts or they find discrepancies between resident counts and the tracking of daily census information, the program shall reconcile immediately and take follow-up action as needed.

(b) A residential commitment program shall ensure that staff observe youth at least every ten minutes while they are in their sleeping quarters, either during sleep time or at other times, such as during an illness or room restriction. Staff shall conduct the observations in a manner to ensure the safety and security of each youth and shall document real time observations manually or electronically.

(4) Procedures. A residential commitment program shall develop and implement written facility operating procedures or protocols addressing safety and security.

(5) Safe and Secure Facility. A residential commitment program shall maintain a safe and secure physical plant, grounds and perimeter and shall:

(a) Conduct weekly security audits and safety inspections;

(b) Develop and implement corrective actions warranted as a result of safety and security deficiencies found during any internal or external review, audit, or inspection; and

(c) Verify that deficiencies are corrected as follows and existing systems are improved or new systems are instituted as needed to maintain compliance.

1. Immediate initiation of corrective actions necessary to eliminate any imminent threat to life and safety or any impending security breach; and

2. Initiation of other corrective actions needed within at least 30 days;

(6) Audio or Video Recordings. A residential commitment program that has any on-site video or audio system with recording capability shall maintain at least a 90-day history of recordings unless the equipment does not have the capacity to maintain a 90-day history, in which case the program shall maintain the recordings at least 30 days or longer if within the equipment's capacity.

(7) Classification of Youth. A residential commitment program shall establish a classification system that promotes safety and security, as well as effective delivery of treatment services, based on determination of each youth's individual needs and risk factors, that addresses, at a minimum, the following:

(a) Classification factors to minimally include the following:

1. Physical characteristics, including sex, height, weight, and general physical stature;

2. Age and maturity level;

3. Identified special needs, including mental, developmental or intellectual, and physical disabilities;

4. Seriousness of the current offense, including whether or not the offense was against person or property;

5. Prior delinquent history and background, including gang affiliation, if applicable;

6. Current or past involvement in assaultive or aggressive behavior, sexual misconduct, or demonstration of emotional disturbance; and

7. Identified or suspected risk factors, such as medical, suicide, and escape risks;

(b) Initial classification of each newly admitted youth for the purpose of assigning him or her to a living unit, sleeping room, and youth group or staff advisor;

(c) Reassessment of a youth's needs and risk factors and reclassification, if warranted, prior to considering:

1. An increase in the youth's privileges or freedom of movement;

2. The youth's participation in work projects or other activities that involve tools or instruments that may be used as potential weapons or means of escape; and

3. The youth's participation in any off-campus activity; and

(d) A continually updated, internal alert system that is easily accessible to program staff and keeps them alerted about youth who are security or safety risks, including escape risks, suicide or other mental health risks, medical risks, sexual predator risks, and other assaultive or violent behavior risks. The program shall design and implement this system to reduce risks by alerting program staff when there is a need for specific follow-up or precautionary measures or more vigilant or increased levels of observation or supervision, and by assisting staff when making treatment, safety and security decisions. Although a direct care, supervisory, or clinical staff may place a youth on alert status if he or she meets the criteria for inclusion in the program's alert system, only the following may recommend downgrading or discontinuing a youth's alert status:

1. A licensed mental health professional or mental health clinical staff person for suicide risks or other mental health alerts;

2. A medical staff person for medical alerts upon verification that the health condition or situation no longer exists; or

3. The program director, assistant program director, or on-site supervisor for security alerts.

(8) Gang Prevention and Intervention. A residential commitment program shall implement gang prevention and intervention strategies and shall assess each newly admitted youth to determine if he or she is a criminal street gang member or is affiliated with any criminal street gang. For the purpose of this rule chapter, the definitions of criminal street gang and criminal street gang member are consistent with definitions in Chapter 874, F.S. The program shall share pertinent gang-related information, as appropriate, with the Florida Department of Law Enforcement, local law enforcement, Department of Corrections, school districts, the

judiciary, and social service agencies, as well as with a youth's JPO and, if identified, his or her post-residential services counselor.

(9) Key Control. A residential commitment program shall establish a key control system that, at a minimum, addresses the following:

(a) Key assignment and usage, including restrictions on usage;

(b) Inventory and tracking of keys;

(c) Secure storage of keys not in use;

(d) Procedures addressing missing or lost keys; and

(e) Reporting and replacement of damaged keys.

(10) Contraband. A residential commitment program shall delineate items and materials considered contraband when found in the possession of youth. The program shall provide youth with the list of contraband items and materials and inform the youth of the consequences if found with contraband. The program shall establish a system to prevent the introduction of contraband and identify contraband items and materials through searches of the physical plant, facility grounds, and its youth.

(a) Before program staff conduct any strip search of a youth and, at a minimum, before staff conduct a youth's initial frisk search, staff shall prepare the youth by explaining the purpose of the search and what it entails, while assuring the youth of his or her safety. Throughout the search, staff shall avoid using unnecessary force and shall treat the youth with dignity and respect to minimize the youth's stress and embarrassment.

(b) Staff conducting a frisk search, which is conducted through the youth's clothing, shall be of the same sex as the youth being searched. A frisk search shall be conducted when a youth returns from a supervised activity away from the program, after a youth participates in vocational or work program involving the use of tools or other implements that could be used as weapons or as a means of escape, and when otherwise authorized by the program director or his or her designee for the purposes of controlling contraband or ensuring safety and security.

(c) A strip search, a visual check of a youth without clothing, shall be conducted in a private area with two staff members present, both of the same sex as the youth being searched. As an alternative when two staff of the same sex are not available, one staff of the same sex as the youth may conduct the search while a staff of the opposite sex is positioned to observe the staff person conducting the search, but cannot view the youth.

1. Low-risk. A program at this restrictiveness level may conduct a strip search of a youth only when authorized by the program director.

2. Moderate-risk, High-risk, and Maximum-risk Programs. A program at any of these restrictiveness levels shall conduct a strip search of every youth upon admission, except when a

youth is admitted from secure detention, in which case a strip search is authorized rather than required. The program shall also conduct a strip search of any youth returning from a home visit. When authorized by the program director, the program may conduct a strip search when a youth is returning from an off-campus activity, following a youth's involvement in visitation activities, or in response to a serious security breach.

(d) A cavity search that involves the examination of the youth's body cavities, with the exception of visual inspection of ears, nose and mouth, may only be conducted by trained medical personnel in an emergency room setting when authorized by the program director because it is strongly suspected that a youth has concealed contraband in a body cavity.

(e) With the exception of privileged mail to or from a youth's attorney of record, JPO, clergy, or a state or federally authorized advocate or advocacy group representative, the program shall search youths' incoming and outgoing mail, including correspondence and packages, for contraband and for any information that may threaten the security or safety of the program, including escape plans or gang-related information. During the search of incoming or outgoing mail, the youth receiving or sending the mail shall be present or, if the program conducts mail searches at a central location, a youth representative shall be present to witness the process.

(f) The program shall confiscate any contraband item or material from a youth, documenting the reason for the confiscation and the manner of disposition. The program shall include a copy of the documentation in the youth's individual management record. If a confiscated item is not illegal, the program director or his or her designee has the discretion to discard the item, return it to its original owner, mail it to the youth's home, or return it to the youth upon his or her release from the program. In all instances involving the confiscation of contraband that is illegal, the program shall submit the item to local law enforcement and file a criminal report.

(11) Visitation. A residential commitment program shall provide for visitation of youth and, at a minimum, shall address the following:

(a) Program security and the safety of youth, staff and visitors;

(b) Designated visitation schedule that is provided to each youth's parents or legal guardian and is readily available to other authorized visitors, as well as reasonable accommodations in response to a parent's or legal guardian's request for alternate visitation arrangements;

(c) Designated visitation areas and staff supervision during visitation;

(d) Identification of authorized visitors, including the youth's parents or legal guardian, the youth's spouse, the youth's attorney of record, the youth's JPO, clergy, and others at the discretion of the program director or his or her designee, excepting any co-defendant in the youth's current offense.

anyone prohibited by court order to have contact with the youth, anyone the youth is unwilling to receive as a visitor, or anyone whose presence or behavior during a prior visitation posed a safety or security threat:

(e) Verification of the identity of visitors by requiring a form of picture identification except in the case of children or siblings of the youth who are accompanied by a parent or legal guardian and authorized by the program director or his or her designee:

(f) Documentation of all visitation to include:

1. The visitor's signature, the date, and the times of entry and exit;

2. The name of any visitor denied entry and the date, time, and reason for denial;

(g) Measures to prevent the introduction of contraband into the program to include:

1. Written notification to visitors before their entry into the facility that their person and any packages may be subject to search and that possession of illegal contraband could be subject to legal action;

2. Mandatory electronic search of visitors entering high-risk and maximum-risk programs and optional electronic search of visitors entering low-risk and moderate-risk programs;

3. Frisk search of a visitor by a staff person of the same sex when probable cause exists to warrant the search;

4. Search of packages or other items for youth conducted in the presence of the visitor;

5. Prohibition of visitors bringing their personal possessions into the facility unless the program director or his or her designee makes an exception for a visitor needing a documented prescription medication or an adaptive device due to a disability;

6. Frisk search or, if authorized by the program director or his or her designee, strip search of a youth by staff prior to the youth's exit from the visitation area; and

7. Search of the visitation area by staff after all visits are concluded; and

(h) Termination of the visit if the youth or visitor violates the program rules, is loud or disorderly or visibly angry or upset, engages or attempts to engage in sexual contact or activity, is physically aggressive, or otherwise poses an unsafe situation.

(12) Tool Management. A residential commitment program shall provide a minimum ratio of one staff for every five youth (1:5) during activities involving the use of tools, except in the case of a disciplinary work project involving tools that requires a 1:3 ratio. However, when a program is designed to focus on vocational training, a provider's contract with the department or, in the case of a state-operated program, the department's monitoring plan may specify other staff-to-youth ratios when youth are using tools for vocational training purposes. Each residential commitment program shall institute

a tool management system to prevent youth from using equipment and tools as weapons or means of escape. At a minimum, tool management shall address:

(a) Procedures for issuing tools to youth and staff, including an assessment to determine a youth's risk to the public, staff, other youth and self if allowed to participate in a project or activity involving the use of tools;

(b) A frisk search and, at the program's discretion, an electronic search of any youth at the completion of each work project or activity that involves the use of tools;

(c) Tool markings or identifiers that facilitate issuance of tools and timely identification of missing tools;

(d) Tool inventories as follows:

1. Tools shall be inventoried prior to being issued for work and at the conclusion of the work activity. Staff shall report any discrepancy to the program director or his or her designee for immediate follow-up action.

2. Any tool that, in its manufactured form or due to subsequent modifications, has sharp edges or points and has a high potential to be used as a weapon to inflict serious bodily harm, shall be inventoried daily, except on days when they are not used.

3. Any tool that, in its manufactured form or due to subsequent modifications, does not have sharp edges or points shall be inventoried at least monthly.

4. If the program consistently implements a system whereby tools are securely stored in a sealed container or closet, and if the seal has not been broken at the time an inventory is being conducted, the sealed tools may be exempt from inventory.

(e) Prohibited tools to include machetes, bowie knives, or other long blade knives;

(f) Procedures that address missing tools;

(g) Internal reporting of incidents involving tools and reporting to the department's Central Communications Center as required;

(h) Secure storage of tools when not in use;

(i) Training for staff and youth on the intended and safe use of tools;

(j) Disposal and replacement of dysfunctional tools that are in an unsafe condition or disrepair; and

(k) Tool control and restrictions when a repairman or worker external to the program enters the facility or facility grounds to perform a work project that requires the use of tools. These restrictions shall limit tools to only those that are necessary, checking tools upon the worker's arrival to and exit from the program, restricting youths' access to the work area, immediate reporting of any tool the worker finds missing while on-site at the program, and follow-up action if any tool is found missing.

(13) Kitchen Utensils. A residential commitment program shall institute a system to control and inventory kitchen utensils used to prepare and serve food and eating utensils used by youth.

(14) Flammable, Poisonous and Toxic Items. A residential commitment program shall maintain strict control of flammable, poisonous, and toxic items and materials. At a minimum, the program shall:

(a) Maintain a complete inventory of all such items the program uses;

(b) Maintain a current list of facility positions, titles or functions that are authorized to handle these items;

(c) Prohibit youths' handling of these items and restrict their access to areas where the items are being used;

(d) Dispose of hazardous items and toxic substances or chemicals in accordance with Occupational Safety and Health Administration (OSHA) standards; and

(e) Maintain Material Safety Data Sheets (MSDS) on site as required by OSHA.

(15) Mechanical Restraints. When necessary and only as a last resort to maintain safety and security, the department authorizes the use of physical intervention techniques and mechanical restraints in residential commitment programs pursuant to Chapter 63H-1, F.A.C.

(16) Controlled Observation. A moderate-risk, high-risk, or maximum-risk residential commitment program may use controlled observation only when necessary and as a last resort. It is intended as an immediate, short-term, crisis management strategy for use during volatile situations in which one or more youths' sudden or unforeseen onset of behavior imminently and substantially threatens the physical safety of others and compromises security. Controlled observation is not authorized for use as punishment or discipline.

(a) The program is authorized to temporarily place an out-of-control youth in a controlled observation room only when the following three criteria are met:

1. The youth is exhibiting active aggression;

2. Continuation of the youth's acutely aggressive or violent behavior is likely to result in immediate injury or imminent harm to others or substantial damage to property; and

3. The youth is physically out-of-control, and less restrictive methods of dealing with the youth are ineffective or are unlikely to have the desired effects quickly enough to divert serious injuries, security breaches, or substantial property destruction.

(b) A supervisor or staff person at a higher level shall give prior authorization for each use of controlled observation unless the delay caused by seeking prior approval would further jeopardize the safety of others and the program's security. In this case, as soon as the youth is placed in the controlled observation room and order is re-established within

the program, staff shall obtain authorization for continued placement from a supervisor or staff person at a higher level or the youth shall be removed from the controlled observation room.

(c) Staff shall not leave a youth alone in a controlled observation room until an inspection of the room is conducted and it is deemed safe, secure, and in compliance with the following room specifications:

1. Minimum of 35 unencumbered square feet;

2. Solid core hardwood or metal door with a shatter-resistant observation window that allows for sight and sound observation;

3. Vents that are out of the reach of youth and covered with small mesh or a metal plate, with holes no more than 3/16 inch and no exposed edges;

4. Recessed light fixtures that are covered with shatter-resistant material;

5. Windows that are shatter-resistant or, if not, covered with security-rated screens or another material that prevents access to the glass;

6. No electrical outlets;

7. No electrical switches unless covered and secured; and

8. A security-rated, fire retardant plastic mattress suitable for use on the floor or on a suicide-resistant bed.

(d) Prior to placing a youth into a controlled observation room, a staff person of the same sex as the youth or a health care professional shall use the Health Status Checklist to conduct and document a visual check of the youth to determine if there are any observable injuries that would contraindicate placement. The Health Status Checklist (MHSA 008, August 2006) is incorporated into this rule and is available electronically at [http://www.djj.state.fl.us/forms/mental\\_health\\_substance\\_abuse\\_services\\_forms\\_index.html](http://www.djj.state.fl.us/forms/mental_health_substance_abuse_services_forms_index.html). If a physical injury is observed, the youth complains of injury or illness, or the youth experienced a fall, impact, or blow such that injury could reasonably be expected, a health care professional shall be immediately notified for timely assessment and treatment.

(e) Staff shall not place a youth exhibiting behaviors indicative of a mental health crisis or suicide risk in controlled observation. Additionally, if a youth in a controlled observation room begins manifesting behavior that would indicate that he or she is experiencing a mental health crisis or is a suicide risk, the youth shall immediately be removed from the room and follow-up mental health services shall be provided.

(f) Any physical restraints shall be removed after a youth is placed in a controlled observation room unless they are necessary to protect the youth from self-injury, in which case staff shall continuously monitor the youth and remove the restraints after 15 minutes of calm behavior.

(g) A staff person of the same sex shall frisk search the youth and remove any potentially dangerous or injurious items before the youth is left alone in a controlled observation room.

Staff shall remove all jewelry, pocket items, hair ties, hairpins, belts, or other clothing or items that the youth could use for self-injury or injury to others; however, the youth shall not be stripped.

(h) Staff shall discuss with the youth the reasons for his or her placement in controlled observation, the expected behavior for removal from placement and, if applicable, the expected behavior for removal of restraints. Later, when the youth's behavior has de-escalated and is conducive to constructive interaction, staff shall attempt to process with the youth what happened and explore alternative behaviors.

(i) To ensure the youth's safety while in the controlled observation room, staff shall conduct safety checks at least every fifteen minutes and shall observe the youth's behavior. However, continuous sight and sound supervision, defined as staff's provision of continuous, uninterrupted visual and sound monitoring of the youth, shall be provided when the youth is in restraints or is physically out-of-control to the extent that he or she is at high risk of self-injury. Staff shall document all safety checks and observations on the Controlled Observation Safety Checks form.

(j) The program director or a supervisor with delegated authority shall approve a youth's release from controlled observation. This approval shall be based on a determination that the youth is no longer threatening harm to others, exhibits calm behavior, and expresses a willingness to positively rejoin the program.

1. The time limit for placement of a youth in the controlled observation room is two hours unless the program director or his designee grants an extension because release of the youth would imminently threaten his or her safety or the safety of others. No extension shall exceed six hours, and the total placement time, including all extensions, shall not exceed 24 hours.

2. When a youth is released from controlled observation, staff shall determine whether an in-house alert is warranted and, if so, take action as required pursuant to paragraph 63E-7.013(7)(d), F.A.C.

(k) The program director or assistant program director shall review the Controlled Observation Report within 14 days of the youth's release from controlled observation to determine if the placement was warranted and handled according to the provisions of this rule section. Any corrective actions deemed necessary to prevent potential misuse of controlled observation shall be immediately implemented.

(l) The program shall ensure completion of the Controlled Observation Report for each use of controlled observation, with the exception of the Extension of Controlled Observation section when a youth's placement is limited to the two-hour time period. Additionally, for each use of controlled observation, the program shall ensure completion of the Health Status Checklist and the Controlled Observation Safety Checks

form. The program shall maintain these forms in an administrative file, as well as in the youth's individual management record.

(17) Escapes. For purposes of this rule, the definition of escape is consistent with Section 985.721, F.S.

(a) When a youth escapes from the facility or escapes from supervised activities away from the facility or while in transit to and from such activities, the program shall report the incident by telephone to law enforcement and the department's Central Communications Center immediately or within a timeframe not to exceed two hours of becoming aware of the escape. Additionally, the program shall telefax the completed Notification of Escape form to the following persons or entities as soon as practicable or within a timeframe not to exceed four hours:

1. Law enforcement;
2. The state attorney in the jurisdiction where the delinquency petition was filed;
3. The sentencing judge;
4. The department's residential regional director or designee;
5. The youth's JPO or his or her supervisor;
6. The youth's parents or legal guardian; and
7. Detention screening.

(b) The program shall maintain a separate log that documents each notification, including each person contacted, the date and time of contact, and the program staff making the contact. In addition, all pertinent information relating to the escape shall be documented in the program's daily logbook and the youth's individual management record.

(c) If law enforcement declines to accept a report alleging that a youth has committed the felony offense of escape, the program shall notify the youth's JPO or his or her supervisor who will request the court of jurisdiction to issue an order to take the youth into custody.

(d) If the youth is not apprehended within 48 hours of the escape, the program shall release the youth from the program in the department's JJIS Bed Management System or, if the program does not have direct access to JJIS, shall notify the department's regional commitment manager via telephone.

(e) As soon as possible after the program becomes aware of the youth's apprehension, the program shall advise all parties whom they previously notified of the escape.

(f) The program shall review circumstances pertinent to an escape within 48 hours, cooperate with the department in any review or investigatory activities following an escape, and implement corrective actions as needed to prevent future escapes.

(g) If a youth absconds while on temporary release status and does not return to the program as expected, the program shall contact:

1. The youth's family within four hours of becoming aware of the event to request their assistance in facilitating the youth's return to the program; and

2. The youth's JPO or his or her supervisor to request their assistance in facilitating the youth's return or to expedite issuance of a pick-up order. The program shall make this contact as soon as is practicable, but no later than the end of the same workday in which the program becomes aware of the event if it falls within the traditional workweek or, if not, before the end of the next traditional workday.

(18) Transportation. When transporting a youth, a residential commitment program shall maintain custody and control while ensuring the safety of youth, staff and the community.

(a) The program shall comply with the following provisions whether or not secure transportation is required:

1. Program staff shall not transport youth in any personal vehicle unless the program director approves such action based on extenuating circumstances wherein the life or safety of a youth is in imminent jeopardy without taking such action.

2. The program shall provide the minimum ratio of one staff for every five youth required for off-campus activities.

3. Youth and staff shall wear seat belts during transportation, and youth shall not be attached to any part of the vehicle by any means other than the proper use of a seat belt.

4. The program shall issue transporters a cellular phone or radio for use in the event of vehicle problems or other emergencies.

5. Staff shall not leave youth unsupervised in a vehicle.

6. Youth shall not be permitted to drive program or staff vehicles.

7. Staff shall lock personal and program vehicles when not in use.

(b) When transporting youth, a high-risk or maximum-risk program shall provide secure transportation. A low-risk or moderate-risk program shall provide secure transportation for any youth who has been assessed and determined to be a security risk or risk to self and others and has demonstrated that he or she cannot be transported by less restrictive methods. The program shall comply with the following when securely transporting youth:

1. The use of mechanical restraints is required and shall be provided pursuant to Chapter 63H-1, F.A.C.

2. In addition to the requirements specified in paragraph 63E-7.013(18)(a), F.A.C., of this rule chapter, the program shall comply with the following provisions when providing secure transportation:

a. The vehicle shall have rear doors that cannot be opened from the inside.

b. The vehicle shall be equipped with a safety screen separating the front seat or driver's compartment from the back seat or rear passengers' compartment, or a staff person shall occupy the back seat or rear passengers' compartment with the youth.

c. The program shall provide the minimum ratio of one staff for every five youth required for off-campus activities. However, if five or less youth are being transported, the program shall provide a minimum of two staff, with one being the same sex as the youth being transported.

(c) The program shall ensure that any vehicle used by the program to transport youth is properly maintained for safe operation.

1. Each vehicle being used for transport of youth shall pass an annual safety inspection.

2. The program shall maintain documentation on use of each vehicle and its maintenance.

3. Each vehicle used to transport youth shall be equipped with the appropriate number of seat belts, a seat belt cutter, a window punch, a fire extinguisher, and an approved first aid kit.

(19) A residential commitment program shall comply with the following provisions on youth's eligibility and participation in off-campus activities, defined as activities conducted away from the facility grounds:

(a) A residential commitment program shall provide supervision for youth who leave the facility grounds for necessary activities such as health and court-related events. The program shall determine a youth's eligibility for participation in other off-campus activities based on the program's restrictiveness level, the youth's performance and behavior in the program, and the assessed risk for the youth to re-offend during the off-site activity.

1. A low-risk or moderate-risk program shall allow a youth to participate in necessary, supervised off-campus activities such as health and court related activities. The program may also allow a youth to participate in other constructive supervised off-campus activities and, with court approval, may permit the youth to participate in specific temporary release activities, such as community employment and, during the final 90 days of his or her residential placement, home visits. If an extraordinary family emergency arises prior to the final 90 days of a youth's stay, the program director or designee may, with court approval, grant an emergency temporary release. In such a case, the program shall, with input from the youth's family, develop a specific itinerary and coordinate with the youth's JPO.

2. For most of a youth's placement in a high-risk program, the program shall restrict a youth's participation in off-campus activities to necessary, supervised activities such as health and court-related activities. However, during the final 60 days of a youth's residential stay and with court approval, the program may grant permission for the youth to leave facility grounds to

engage in transitional activities such as enrollment in school or a vocational program, completion of a job interview, performance of community service, and home visits of no more than 72 hours. Additionally, if an extraordinary family emergency arises, such as the death or impending death of a youth's immediate family member, prior to the final 60 days of a youth's stay, the program director or designee may, with court approval and concurrence of the department's residential regional director, grant an emergency temporary release. In such a case, the program shall, with input from the youth's family, develop a specific itinerary and coordinate with the youth's JPO.

3. A maximum-risk program shall not allow a youth to participate in off-campus activities except for necessary, supervised activities such as health and court-related events and, under exceptional circumstances, a staff-supervised day trip to attend a family emergency event when approved by the court and the department's residential regional director.

(b) Prior to allowing a youth to participate in any off-campus activity that is not a supervised, necessary event, the program shall assess the youth's risk and determine that he or she is unlikely to re-offend while in the community. Additionally, the program shall require the youth to demonstrate progress and positive behavior in the program.

(c) Except for supervised, necessary off-campus activities, the program shall plan and structure each off-campus activity, including any home visit, for youth to accomplish specific goals and objectives. The program shall involve the youth in the planning process.

(d) The program shall ensure a minimum ratio of one staff to every five youth during any supervised off-campus activity. The program shall provide a more intensive staffing if the activity or circumstances surrounding the activity dictate that closer supervision is necessary to ensure the safety of the community, staff and youth.

(e) Pursuant to subparagraph 64E-7.012(2)(a)2., F.A.C., of this rule chapter, the program shall notify the victim or his or her designee, unless these notification rights have been waived, when allowing a youth committed for specified offenses to participate in a temporary release.

(f) The program shall prohibit any youth from participating in trips or functions requiring travel out of the state of Florida unless approved in writing by the department's residential regional director and Assistant Secretary for Residential and Correctional Facilities.

(20) Disaster and Continuity of Operations Planning. A residential commitment program shall develop a disaster plan and a continuity of operations plan (COOP) that are coordinated or one comprehensive plan that incorporates both. The plans shall provide for the continuation of basic care and custody of youth in the event of an emergency or disaster, while ensuring safety of staff, youth and the public. The

program shall conduct practice events or drills and shall be prepared for immediate implementation or mobilization of the plans whenever an emergency or disaster situation necessitates.

(a) The program's disaster plan shall:

1. Address, at a minimum, fire and fire prevention and evacuation, severe weather, disturbances or riots, bomb threats, hostage situations, chemical spills, flooding or terrorist threats or acts;

2. Identify and define essential or key staffs' roles and specific responsibilities during emergency or disaster situations;

3. Specify and plan for the provision of any equipment and supplies required to maintain the continuous operation of services during an emergency or disaster. Equipment and supplies may include, but are not limited to, food, medications, pharmaceutical and first aid supplies, clothing and linens, vehicles, generators, cell phones, flashlights, batteries, fire safety equipment, and laptop computers;

4. Identify critical information about youth that may be needed during an emergency situation and plan for its access;

5. Address alternative housing plans;

6. Be compatible with the disaster plan and COOP for the department's residential region;

7. Be conspicuously posted in the facility, readily available to staff members, youth, and visitors, and disseminated to appropriate local authorities. If the plan is too voluminous to post, the program shall post a notice that identifies the various locations within the facility where staff can easily access the plan.

(b) The program's COOP shall:

1. Provide for the continuity of care and custody of its youth and the protection of the public in the event of an emergency that prevents occupancy of the program's primary facility or structure;

2. Compatible with the COOP for the department's residential region;

3. Readily available to staff;

4. Reviewed and updated annually;

5. Submitted to the department's residential regional director, if requested; and

6. Approved by the Division of Emergency Management, Department of Community Affairs.

(21) Internet Access. A residential commitment program shall ensure that youth only have access to the Internet for the purposes of obtaining educational material. While youth are on-line, program staff shall continually monitor the computer screens to ensure that youth are accessing only the approved material.

(a) Youth shall be prohibited from accessing material considered harmful to minors which includes any picture, image, graphic image file, or other visual depiction that, taken as a whole and with respect to minors:

1. Appeals to a prurient interest in nudity, sex, or excretion;

2. Depicts, describes, or represents in an offensive way an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or lewd exhibition of the genitals; and

3. Lacks serious literary, artistic, political, or scientific value.

(b) The program shall implement effective technology protection measures to limit youths' Internet access to only the approved educational material. The program shall conduct and document monthly checks on the protection system and, if problems are identified with the system, shall prohibit youths' access until repairs are completed and tested. The program shall not allow youth access to prohibited sites that may elude the technology protection measures.

(22) Water Safety.

(a) A residential commitment program that allows youth to participate in water-related activities shall establish a water safety plan that addresses, at a minimum, safety issues, emergency procedures, and the rules to be followed during a water-related activity, as follows:

1. Determination of the risk level for each youth to participate in water-related activities by identifying whether or not the youth can swim, assessing his or her swimming ability, and considering other factors to include, at a minimum, age and maturity, special needs such as physical and mental health issues, and physical stature and conditioning;

2. Type of water in which the activity is taking place, such as pool or open water;

3. Water conditions, such as clarity and turbulence, and bottom conditions;

4. Type of water activities such as swimming, boating, canoeing, rafting, snorkeling, scuba diving, and shoreline and offshore activities to include fishing from a bank or pier, fishing while wading, or picnicking close to a body of water;

5. Lifeguard-to-youth ratio and positioning of lifeguards;

6. Other staff supervision; and

7. Safety equipment needed for the activity, such as personal flotation devices when youth are in a boat, canoe or raft and availability of a lifeline during shoreline and offshore activities.

(b) The program shall provide sufficient supervision to continuously account for youth and ensure their safety.

1. The program shall ensure a sufficient number of lifeguards for maximum safety, and lifeguards shall be certified consistent with American Red Cross or other nationally accepted standards for the type of water in which the activity is taking place.

a. If the water-related activity takes place in a pool, at least one staff person certified as a lifeguard shall be present.

b. If the water-related activity takes place in open water, at least one staff person certified in waterfront lifeguarding shall be present.

c. Shoreline and offshore activities do not require lifeguards present; however, the program shall provide supervision by staff trained in emergency procedures. Staffing shall be sufficient to continually account for youths' whereabouts and maintain safety.

2. The program shall provide additional staff supervision to ensure youths' safety. If the activity is conducted away from the program or its grounds, a minimum ratio of one staff for every five youth is required.

3. The program shall conduct methods necessary to maintain an accounting of youth, including conducting head-counts at regular intervals.

(c) Scuba diving or snorkeling activities shall be conducted consistent with standards and procedures established or approved by nationally recognized organizations such as the Recreational Scuba Training Council, the National Association of Underwater Instructors, or the Professional Association of Diving Instructors.

63E-7.016 Program Administration.

(1) A residential commitment program director shall be accountable for the daily operation of the program, as well as ongoing program planning and evaluation to ensure safety, security, and effectiveness of services provided to youth.

(2) A residential commitment program's mission statement shall be consistent with the department's mission and principles of the restorative justice philosophy.

(3) A residential commitment program's written description shall, at a minimum, address the following:

(a) The program's treatment approach;

(b) Services the program provides; and

(c) The program's service delivery system.

(4) A residential commitment program director shall ensure provisions for staffing that, at a minimum, address the following:

(a) Level 2 pre-employment screening requirements pursuant to Chapter 435 and Section 985.644(5), F.S.;

(b) Maintenance of an organizational chart that reflects spans of control and lines of authority and specifies the job title, and the primary function if not inherent in the job title, of each program staff and overlay service provider;

(c) Staffing schedules that ensure coverage across shifts and a system for accessing additional staff coverage as needed;

(d) Position descriptions that specify required qualifications, job functions or duties, and performance standards;

(e) A system for evaluating staff at least annually based on established performance standards;

(f) Systems of communication to keep staff informed and give them opportunities for providing input and feedback pertaining to operation of the program;

(g) A dress code for staff that promotes professionalism, safety, and positive role modeling for youth; and

(h) A code of conduct for staff that clearly communicates expectations for ethical and professional behavior, including the expectation for staff to interact with youth in a manner that promotes their emotional and physical safety;

(5) A residential commitment program shall establish a system for fiscal management and control and, in the case of any contracted program, shall obtain at least one independent financial audit annually;

(6) A residential commitment program shall report as follows:

(a) Incident reporting to the department's Central Communications Center;

(b) Reporting of Protective Action Response (PAR) incidents or use of mechanical restraints pursuant to Chapter 63H-1, F.A.C.;

(c) Reporting required for state-operated programs and programs operated by nonprofit contracted providers to participate in the USDA National School Lunch and Breakfast Program; and

(d) Posting of abuse reporting phone numbers throughout the facility and unhindered access for staff and youth to report abuse to the Department of Children and Families' central abuse hotline addressed in Chapter 39, F.S., or if the allegedly abused youth is 18 years or older, the department's Central Communication Center. For purposes of this rule, unhindered access means the program shall allow youth and staff to make the decision to report allegations of abuse without obtaining permission. The program shall provide youth with timely telephone access to report allegations of abuse. However, if the youth requests telephone access during a scheduled structured activity, the program shall provide access as soon as that activity concludes.

(7) A residential program director shall establish a system to monitor the program's bed capacity and the length of stay of youth in placement to ensure all youth are progressing through the program and to target potential problems with any youth's planned release.

(8) A residential commitment program shall update information in the department's Juvenile Justice Information System (JJIS) as follows:

(a) Updates to the Bed Management System to include:

1. Any youth admission, transfer, release or discharge within 24 hours of the event; and

2. Placement of any youth on inactive status within 48 hours of an escape or admission to a juvenile detention center or jail; and

(b) Updates in the Residential Services Monitoring System (RSMS), a web-based component of JJIS and software application designed to store information pertaining to each residential commitment program's performance that, in the case of a contracted program, reflects the program's compliance with their contract terms and conditions.

(9) A residential program shall notify the department's designated regional commitment manager if a youth is placed in a medical or mental health facility for longer than five days.

(10) A residential program shall be reviewed, audited, or investigated as follows:

(a) Prior to a contracted provider opening a new program or assuming operation of an existing program, the department may conduct a pre-operational review to assess the program's readiness to commence operations. The program shall develop and implement an outcome-based corrective action plan to address deficiencies identified during a pre-operational review. After the program commences operations and as follow-up to the pre-operational review, the department may conduct a post-operational review that may result in additional corrective actions.

(b) Based on the program's identified risk factors, the department's designated regional residential monitor shall conduct monthly, quarterly, or semi-annual reviews to determine if the program is providing services as specified in this rule chapter, other applicable rules and statutes, and the provider's contract with the department. The program shall develop and implement an outcome-based corrective action plan to address major deficiencies identified by the residential monitor during any such review. For purposes of this rule chapter, a major deficiency is defined as a deficiency that indicates the interruption of service delivery or the receipt of public funds for program services not delivered.

(c) Pursuant to Section 985.632, F.S., the department shall conduct quality assurance reviews of residential commitment programs. Standards and indicators used for this purpose shall be based on provisions of this rule chapter. The program shall implement an outcome-based corrective action plan that addresses major deficiencies identified during any quality assurance review.

(d) The program shall cooperate with any review or investigation coordinated or conducted by the department's Office of the Inspector General pursuant to Section 20.055, F.S.

(e) In cases where federal funds are involved, audits may be conducted according to federal requirements.

(11) A residential commitment program director shall build partnerships and collaborate with juvenile justice stakeholders in the community.

(a) The program shall establish a community support group or advisory board that meets at least quarterly. The program director shall solicit active involvement of interested community partners including, but not limited to

representatives from law enforcement, the judiciary, the school board or district, the business community, and the faith community. In addition, the program director shall recruit a victim, victim advocate, or other victim services community representative and a parent whose child was previously, rather than currently, involved in the juvenile justice system.

(b) The program shall collaborate with the school district to ensure the delivery of quality educational services consistent with the cooperative agreement between the school district and the department pursuant to Section 1003.52, F.S.

(c) A residential commitment program may involve community volunteers, including mentors for youth, consistent with background screening requirements pursuant to Section 985.644, F.S. The program shall provide supervision as deemed necessary to ensure the volunteer is providing services in a manner that meets the expectations of the program and ensures the emotional and physical safety of its youth.

(12) A residential commitment program shall maintain a chronological record of events as they occur or, if an event disrupts the safety and security of the program, as soon as is practicable after order has been restored.

(a) The program shall document the following events, incidents and activities in a central logbook maintained at master control, living unit logbooks, or both.

1. Emergency situations;

2. Incidents, including the use of mechanical restraints;

3. Special instructions for supervision and monitoring of youth;

4. Population counts at the beginning and end of each shift and any other population counts conducted during a shift;

5. Perimeter security checks and other security checks conducted by direct care staff;

6. Transports away from the facility, including the names of staff and youth involved and the destination;

7. Requests by law enforcement to access any youth;

8. Removal of any youth from the mainstream population, such as when a youth is placed on room restriction or controlled observation.

9. Admissions and releases, including the name, date and time of anticipated arrival or departure, and mode of transportation; and

10. Information relating to escape or attempted escape incidents.

(b) Each logbook shall be a bound book with numbered pages. Every entry in a logbook shall be considered a permanent record; therefore, under no circumstances shall any logbook entry be obliterated or removed. An error in an entry shall be struck through with a single line and initialed by the person correcting the error.

(c) At a minimum, each logbook entry shall include the date and time of the event, the names of staff and youth involved, a brief description of the event, the name and signature of the person making the entry, and the date and time of the entry.

(d) The program shall use one of the following methods to ensure that each direct care staff person, including each supervisor, is briefed when coming on duty:

1. Living Unit Logbook Review. If the program maintains a logbook at each living unit, each incoming staff shall review entries made during the previous two shifts in the logbook maintained in the living unit to which he or she is assigned. The staff shall document his or her review in the logbook, including the date, time and signature.

2. Shift Report Review. If the program does not maintain a logbook at each living unit, the program shall summarize in a shift report the events, incidents, and activities documented in the program's central logbook as required pursuant to subparagraphs 63E-7.016(12)(a)1.-10., F.A.C. A program supervisor shall verbally brief incoming staff about the contents of the shift report or incoming staff shall review the shift report. Each incoming staff shall sign and date the shift report for the previous shift to document that he or she has reviewed or been verbally briefed about its contents. A copy of the shift report shall be maintained at each living unit for at least 48 hours.

(13) A residential commitment program shall establish a records management system that addresses all records maintained by the program including, but not limited to, administrative files, personnel records, fiscal and accounting records, property inventories, and records pertaining to youth.

(a) The program shall maintain an official youth case record for each youth that is comprised of two separate files as follows:

1. An individual healthcare record that contains the youth's medical, mental health, and substance abuse related information; and

2. An individual management record that contains other pertinent information about the youth. The record's file tab shall provide the youth's legal name, DJJ identification number, date of birth, county of residence, and committing offense. The youth's JJIS face sheet and any JJIS special alerts shall be attached or filed in close proximity to the file tab. An individual management record shall be organized in the following separate sections:

a. Legal Information;

b. Demographic and Chronological Information;

c. Correspondence;

d. Case Management and Treatment Team Activities; and

e. Miscellaneous.

(b) The program shall clearly label each official youth case record, individual management record, and individual management record as confidential. All official youth case

records shall be secured in a locked file cabinet or a locked room. The program shall clearly identify any file cabinet used to store official youth case records as confidential.

(c) Each residential commitment program shall comply with the records and confidential information provisions pursuant to Section 985.04, F.S.

(d) The program shall transfer youth records when a youth is released, discharged, transferred to another residential commitment program, or placed in a juvenile detention center. Transfer of youth records shall be handled as follows:

1. Within five working days of a youth's release or discharge, the program shall transfer the complete official youth case record to the departmental staff or contracted provider assigned to provide the youth's post-residential services. The program shall transfer the original record unless, due to federal auditing requirements, the program is required to retain any original documents. In this case, the program shall replace the originals required on site with complete copies.

2. The program shall ensure that the complete official youth case record accompanies a youth transferred to another residential commitment program. The transferring program shall send the original record unless, due to federal auditing requirements, the program is required to retain any original documents. In this case, the program shall replace the originals required on site with complete copies.

3. If a youth residing in a residential commitment program is placed in a juvenile detention center, the program shall ensure that the youth's complete individual healthcare record, either the original record or a copy, accompanies the youth when transported. If the youth is subsequently returned to the residential program, the detention center shall return the complete record at the time the youth is transported back to the program.

(14) A residential commitment program shall maintain confidentiality and not release any information to the general public about any youth. The program shall not allow the media to visit, interview youth or have access to youth records unless the Secretary or his or her designee grants approval. When seeking approval for a media request, the program director or designee shall immediately contact the department's regional residential director or designee who shall process the request within the department and provide feedback to the program director or designee as soon thereafter as is practicable.

(15) A residential commitment program director shall immediately contact the department's regional residential director or designee to report the death of any youth residing in the program. The program director shall provide information as needed to enable the department to notify the youth's parents or legal guardian.

RULE NO.: 64B13-3.003  
 RULE TITLE: Patient Records; Transfer or Death of Licensed Practitioner

PURPOSE AND EFFECT: The purpose of the amendment is to clarify that electronic signatures meet the requirements for medical records and set forth the type of electronic signatures that meet the requirements of the rule.

SUMMARY: This rule amendment clarifies that electronic signatures meet the requirements for medical records and set forth the type of electronic signatures that meet the requirements of the rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 456.058, 463.005(1)(a), (d) FS.  
 LAW IMPLEMENTED: 456.057, 456.058, 463.005(1)(a), (d) FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Joe Baker, Jr., Executive Director, Board of Optometry, 4052 Bald Cypress Way, Bin C07, Tallahassee, Florida 32399-3259

THE FULL TEXT OF THE PROPOSED RULE IS:

64B13-3.003 Patient Records; Transfer or Death of Licensed Practitioner.

(1) The licensed practitioner must legibly sign the entry in his or her records for each patient encounter. If the practitioner maintains electronic patient records, the practitioner may affix an electronic signature which can be generated by using either public key infrastructure or signature dynamics technology, and meets the following criteria:

(a) The electronic signature is unique to the person using it;

(b) The electronic signature is capable of verification;

(c) The electronic signature is under the sole control of the person using it;

(d) The electronic signature is linked to the record in such a manner that the electronic signature is invalidated if any data in the record are changed.

~~(2)(4)~~ A licensed practitioner shall maintain full and independent responsibility and control over all records relating to his or her patients and his or her optometric practice. ~~The licensed practitioner must legibly sign the entry for each patient encounter.~~ All such records shall remain confidential except as otherwise provided by law and shall be maintained by the licensed practitioner in compliance with Rule 64B13-3.001, F.A.C. For the purposes of this rule, "maintain full and independent responsibility and control" means that the records shall be maintained in the licensed practitioner's office or solely in the possession of the licensed practitioner, and that the licensed practitioner shall not share, delegate, or relinquish either possession of the records or his or her responsibility or control over those records with or to any entity which is not itself a licensed practitioner.

(2) through (7) renumbered (3) through (8) No change.

THE FULL TEXT OF THE PROPOSED RULES IS:

64E-8.001 Definitions.

(1) "Abandoned ~~w~~Water ~~w~~Well" – a well the use of which has been permanently discontinued or which is in such a state of disrepair that it cannot be used for its intended purpose.

~~(2) "Alteration" – a change, addition or deletion of the water system capacity, water system storage, distribution, or water treatment equipment.~~

~~(2)(3)~~ "Construction plan" – a schematic drawing of the water system components' arrangement and connections, which specifies each component's model, brand, size, and capacity, and the length and size of water pipes.

~~(3)(4)~~ "Contaminant ~~s~~Source" – any minor source such as abandoned water wells, flooded areas, reclaimed water distribution systems, sewage collection systems excluding plumbing, onsite sewage treatment and disposal systems, underground pollutant or petroleum storage and piping facilities or other minor sources recognized by well permitting agencies; and major sources such as animal feedlots, sewage treatment systems, sewage, septage or wastewater treatment plant residuals disposal areas, and solid waste disposal facilities.

~~(4)(5)~~ "Cross-~~c~~Connection" – any physical arrangement whereby a potable water system is connected, directly or indirectly with any other water supply system, sewer, drain, conduit, pool, storage reservoir, plumbing fixture or other device which contains or may contain contaminated water, sewage or other waste or liquid of unknown or unsafe quality which may contaminate the potable supply as a result of backflow or back siphonage. Bypass arrangements, jumper connections, removable sections, swivel or changeable devices and other temporary or permanent devices through which or because of which backflow can occur are considered to be cross-connections.

~~(6) "Culinary" – of or relating to the preparation and service of food, beverages, and dishwashing.~~

~~(7) "Dermal contact" – contact with the skin.~~

~~(5)(8)~~ “Disinfectant” – any oxidant, for example: chlorine, chlorine dioxide, chloramine or a process applied to water, in any part of the treatment or distribution system, that is intended to kill or inactivate pathogenic organisms.

~~(6)(9)~~ “Establishment” – a non-residential building or premise. This term excludes residential-based businesses where there is no public consumption, ~~or~~ where patrons do not visit, and where provided that they are not staffed by non-resident employees work no more than as often as once per week. This term also excludes non-residential locations where there is no public consumption, where patrons do not visit, and where employees work no more than once per week.

~~(7)(10)~~ “Existing sSystem” – a water system that was constructed and initially placed in service prior to January 1, 1993.

(8) “Health Advisory Level” (HAL) – the maximum recommended level of a contaminant in potable water based on human health concerns, as determined by the Florida Department of Health. A list of the chemicals and their established HALs are listed in the Florida Department of Health Environmental Chemistry Analyte List, 10/30/07, available from the Department of Health, Division of Environmental Health/Water Programs at: 4052 Bald Cypress Way, Bin C22, Tallahassee, FL 32399-1742, or [www.doh.state.fl.us/environment/community/health-advisory/HAL\\_list.pdf](http://www.doh.state.fl.us/environment/community/health-advisory/HAL_list.pdf).

(9) “Limited Use Public Water System” – a public water system not covered or included in the Florida Safe Drinking Water Act. This includes but is not limited to water systems that serve the following:

(a) Two (2) or more rental residences or five (5) or more non-rental residences, but no more than fourteen (14) service connections and no more than twenty-four (24) persons;

(b) An establishment that serves any number of persons for less than sixty (60) days per year, or no more than twenty-four (24) persons for any number of days per year, or;

(c) An establishment that serves any number of persons for any number of days per year provided that the system serves no more than twenty-four (24) of the same persons for six (6) or more months per year and there is no oral consumption of the water by the transient population. Oral consumption includes but is not limited to consumption of the water through water fountains, cups, water-based beverages, dishwashing and water used in food preparation. Oral consumption does not include industrial food or beverage processing. Transient populations include but are not limited to customers, clients, flow-through traffic and church attendees.

(10) “Maximum Contaminant Level” (MCL) – the maximum permissible level of a contaminant in potable water delivered to consumers.

(11) “Modification” – a change, addition, or deletion of the water system capacity, source, pumping, storage, distribution, or treatment equipment.

(12) “Multifamily Water System” – a water system that provides piped water to three (3) or four (4) residences, one of which may be a rental residence. Examples include but are not limited to water systems that serve the following:

(a) Three (3) or four (4) owner-occupied residences.

(b) Two (2) or three (3) owner-occupied residences plus one (1) rental residence.

(c) Three (3) or four (4) residences on a property, where one (1) residence is occupied by the property owner and the remaining residences on the property are occupied by non-renting family members of the property owner.

(d) Three (3) or four (4) residences on a property, where one (1) residence is occupied by the property owner, one (1) residence is a rental residence, and the remaining residences on the property are occupied by non-renting family members of the property owner.

~~(13)(14)~~ “Rental rResidence” – a structure or part of a structure that is rented for use as a home, residence, or sleeping place by one or more persons, ~~or a mobile home rented by a tenant. This term does not apply to facilities offering transient residency such as a public lodging establishment. This term applies to a residence occupied by one or more persons other than the property owner as documented on the warranty deed, regardless of the occupant’s relationship to the owner, except as described in the examples of Multifamily Water Systems in paragraphs (12)(c) and (d) above with regards to non-renting family members. This term also includes other facilities where residency or detention is incidental to the provision of employment or medical, geriatric, educational, counseling, religious, or similar services, where each bed in such facilities shall be considered a rental residence. This term does not apply to facilities offering transient residency such as a public lodging establishment.~~

~~(14)(12)~~ “Repair” – replacement of the components in a potable water system with components of equivalent capacity and intended function.

~~(15)(13)~~ “Sanitary sSurvey” – a combination inspection and review of the water source, potential contaminant sources, system construction and operation including monitoring compliance and consumption characteristics; and maintenance to evaluate the system's capacity to provide potable water.

~~(16)(14)~~ “Site pPlan” – a plan-view drawing, drawn to scale or with actual dimensions noted, of the subject property and the surrounding area, which locates the water source and system, existing and proposed major contaminant sources within one-thousand (1000) feet, existing and proposed minor contaminant sources within two-hundred (200) feet, the slope of land between the water and contaminant sources, and the location of existing and proposed structures on the property.

~~(17)(15)~~ “Source wWater” – raw water as it enters the water system.

(18) “Supplier” – the person(s), company, corporation or entity that owns or operates a Limited Use Public Water System or Multifamily Water System.

(19)(16) “Water System” – the mechanical and electrical assembly of one or more pumps, pipes, storage structures, treatment equipment, and distribution network meant to provide water to the plumbing of a building or premise. For the purposes of this chapter rule, except as described in subsection 64E-8.007(8), F.A.C., a water system does not include the well or any connections after a the master water meter where the water is obtained from a public water system that is covered or included in the Florida Safe Drinking Water Act, the water is not treated, collected or resold after the master water meter, and the end user is not a carrier which conveys passengers in interstate commerce.

(Substantial rewording of Rule 64E-8.002 follows. See Florida Administrative Code for present text.)

64E-8.002 Limited Use Public Water System Construction.

No person shall construct a new water well to supply a Limited Use Public Water System unless a well construction permit has been issued by the appropriate water management district or their delegated well permitting agents, in accordance with Rule 62-532.400, F.A.C. and Chapter 40A-3, B-3, C-3, D-3, or E-3, F.A.C. All wells serving Limited Use Public Water Systems must be constructed in accordance with Rule 62-532.500, F.A.C. and Chapter 40A-3, B-3, C-3, D-3, or E-3, F.A.C.

(1) To apply for new construction or modification of a Limited Use Public Water System, an applicant must complete Form DH 4092B, Application for Limited Use and Multifamily Water System Construction Permit, Form DH 4092B, effective 9/07, is hereby adopted and incorporated by reference, and can be obtained from the Department of Health, Division of Environmental Health/Water Programs at: 4052 Bald Cypress Way, Bin C22, Tallahassee, Florida 32399-1742, at [www.doh.state.fl.us/environment/water/manual/encl1.htm](http://www.doh.state.fl.us/environment/water/manual/encl1.htm), or from the County Health Department (CHD). The applicant must submit a completed Form DH 4092B to the Department along with:

(2) Distances between contaminant sources and potable water supply wells shall be maintained as specified in subsection 62-532.400(7), F.A.C., Water Well Permitting and Construction Requirements.

(a) Two (2) copies of a site plan and two (2) copies of a construction plan. Each such plan shall be a minimum size of 8.5 x 11 inches and of sufficient clarity for reproduction.

(b) A \$90 processing fee. For newly constructed systems, this fee shall also serve as the annual operating permit fee for the first year, or portion thereof, as described in Rule 64E-8.004, F.A.C.

(a) Wells shall be located upgradient of contaminant sources, unless sanitary or safety concerns prevent this placement.

(b) Abandonment of wells is required per Rule 62-532.440, F.A.C.

(3) Water systems shall be equipped with:

(a) A conveniently accessible, non-threaded downward opening tap, located at least twelve (12) inches above grade between the source and any storage or treatment equipment.

(b) A working pressure gauge.

(c) A six (6) foot by six (6) foot by four (4) inch thick concrete apron centered around the well.

(d) An aboveground check valve between the raw water source tap and the disinfectant injection point (for systems with chemical disinfection).

(e) A well vent as described in paragraph 62-555.320(8)(c), F.A.C., for well pumps installed under a water system construction permit issued by the Department on or after the effective date of this chapter, unless the criteria for exemption listed in that section are met.

(4) Systems shall be sized and designed as follows, unless designed by a professional engineer:

(a) Calculate Peak Demand (PD) as follows:

$PD = (GPD/T) \times 0.1 + IF$ , where:

PD is Peak Demand in Gallons per minute (GPM);

GPD is projected Gallons per day from section 64E-6.008, F.A.C., Table I;

T is daily time of system operation in hours (Use sixteen (16) for limited use community systems or facilities open ten (10) or more hours per day; use eight (8) for all other facilities);

IF is the Irrigation flow factor (Use five (5) if site has lawn or landscaping; use zero (0) if site has none).

(b) Minimum storage tank size:

1. A hydropneumatic tank shall be at least ten (10) times the PD. For a flexible diaphragm or bladder tank, the amount of water delivered between pump shutdown and start shall equal or exceed the PD. Therefore:

Gross Storage Tank Volume, no disinfection =  $PD \times 10$

Drawdown Volume, bladder tank = PD

2. Beginning on the effective date of this chapter, where continuous disinfection is required for groundwater supplied systems to remove confirmed microbiological contamination, Table 1 shall be used to determine the minimum water contact time and free chlorine residual concentration needed at various water temperatures:

Table 1: Minimum Free Chlorine Residual (mg/L)

Contact Time	Water Temperature <sup>1</sup>					
	36°F	41.0°F	50.0°F	59.0°F	68.0°F	77.0°F
15 minutes	NA	NA	NA	2.7	2.0	1.4
30 minutes	3.5	2.7	2.0	1.4	1.0	0.7
45 minutes	2.4	1.8	1.4	0.9	0.7	0.5

Table 1 Notes:

Above values are based on a water pH of no greater than 9.0 and a baffling factor of 0.1 (no baffling). Water temperature, pH and free chlorine residuals are based on the water exiting the contact tank.

<sup>1</sup> For initial design of disinfection systems, use the coldest anticipated water temperature exiting the contact tank.

a. Therefore, the effective water contact volume for groundwater supplied systems shall be a minimum of either fifteen (15) or thirty (30) times the PD (to achieve a minimum water contact time of either 15 or 30 minutes with the disinfectant at peak demand flow, based on Table 1 values).

b. The effective water contact volume in hydropneumatic tanks shall be no more than 50% of the gross hydropneumatic tank volume, therefore:

$$\text{Gross Hydropneumatic Tank Volume} = \text{PD} \times \text{Contact Time} / 0.5$$

c. A flexible diaphragm or bladder storage tank may not be used as a contact tank.

d. 100% of the volume of a second, airless retention tank may be considered effective volume.

e. Influent and effluent contact tank piping shall enter and exit at opposite ends of the longest tank dimension.

(c) Pump capacity shall be as large as the PD.

(d) Filtration to remove oxidation precipitates shall be required if they invalidate microbiological tests.

(e) Beginning on the effective date of this chapter, systems supplied by surface water or cisterns, and systems supplied by groundwater where continuous disinfection is required but is not designed according to Table 1 above, must be designed by a professional engineer and must include treatment designed according to Chapters 3 and 4 of the *Guidance Manual for Compliance with the Filtration and Disinfection Requirements for Public Water Systems Using Surface Water Sources*, March 1991 Edition, available from the U.S. Environmental Protection Agency (EPA) at: Office of Groundwater and Drinking Water (4601), Ariel Rios Building, 1200 Pennsylvania Avenue NW, Washington, DC, 20460-0003, or [www.epa.gov/safewater/mdbp/implement.html](http://www.epa.gov/safewater/mdbp/implement.html). All such plans must be reviewed and approved by the Department's Bureau of Water Programs.

(5) Piping:

(a) Inside pipe diameter size requirements are as listed in Table 2, unless designed by a professional engineer:

Table 2: Minimum Water System Pipe Size

For GPM <sup>1</sup> up to:	Or length <sup>2</sup> up to:	Use pipe diameter:
6	50'	1/2"
10	100'	3/4"
15	200'	1"
25	300'	1 1/4"
35	400'	1 1/2"
60	600'	2"
90	800'	2 1/2"
125	1000'	3"

Table 2 Notes:

These figures prevent water velocity from exceeding six (6) feet per second, and pressure loss from exceeding twenty (20) pounds per square inch per one-hundred (100) feet of pipe at peak demand based upon Hazen & Williams friction loss tables using constant = 150.

<sup>1</sup> Use Gallons per minute flow from Peak Demand calculation in section (4) above.

<sup>2</sup> -Distribution pipe lengths shall be summed to find the length factor in column two.

(b) Potable water pipes shall be no closer than five (5) feet horizontally to building sewer pipes and effluent transmission lines of an onsite sewage treatment and disposal system (OSTDS) as defined in Rule 64E-6.002, F.A.C. This separation shall not apply where all portions of the bottom of the water pipe within five (5) feet of the sewer pipe are a minimum of twelve (12) inches above the top of the sewer pipe, or the water pipe is sealed with a waterproof sealant within a sleeve of similar or stronger material pipe to a distance of at least five (5) feet from the nearest portion of the sewer pipe.

(c) Potable water pipes shall meet all separation requirements to sanitary or storm sewers, wastewater or stormwater force mains, and reclaimed water pipelines as described in Rule 62-555.314, F.A.C.

(d) Potable water pipes shall be no closer than ten (10) feet horizontally to an OSTDS unless such water pipes are sealed with a waterproof sealant within a sleeve of similar or stronger material pipe to a distance of at least ten (10) feet from the nearest portion of the OSTDS. In no case shall the sleeved water pipe be located within twenty-four (24) inches laterally of the OSTDS. Water pipes within five (5) feet of a drainfield shall not be located at an elevation lower than the drainfield absorption surface.

(e) Both new and replacement pipes shall be no more than 8.0% lead, and new and replacement flux or solders shall be no more than 0.2% lead.

(6) All equipment shall be installed and operated in accordance with manufacturer's instructions and specifications. Only food or water-grade chemicals, equipment and materials shall be used. These items shall meet the standards of the U.S. Food and Drug Administration under Title 21 of the Code of Federal Regulations (CFR) Parts 170-199, and pertinent Federal Registers; or meet the National Sanitation Foundation/American National Standards Institute, NSF/ANSI Standard 60-2005, entitled *Drinking Water Treatment Chemicals – Health Effects*, and NSF/ANSI Standard 61-2007, entitled *Drinking Water System Components – Health Effects*, available from NSF International at P. O. Box 130140, Ann Arbor, Michigan, 48113-0140; or meet the standards of another ANSI accredited testing and certification organization.

(7) The Department shall issue a permit to construct or modify a Limited Use Public Water System provided that:

(a) All items in subsection (1) above have been submitted.

(b) All submitted plans and application materials meet the criteria listed in subsections (2) through (6) above.

(c) The Department has performed a sanitary survey and has verified that the actual site conditions are as indicated on the submitted plans and application materials and meet the criteria listed in subsection (2) above.

(8) Water system construction or modification permits are valid for eighteen (18) months. An extension of time to complete construction or modification shall be granted for a period of ninety (90) days if the Department receives a written request from the applicant prior to expiration of the construction permit and the conditions under which the original construction permit was granted have not changed.

(9) Upon completion of water system construction or modification, the applicant shall perform a water quality clearance as follows:

(a) Microbiological analysis of five (5) source water samples:

1. One (1) source water sample shall be collected per day for five (5) days within a period of twenty-three (23) consecutive days. Collection of two (2) samples per day is permitted if collected six (6) hours apart and the pump is run at rated capacity for at least fifteen (15) minutes before each collection.

2. No more than one (1) of these five (5) samples and neither of the last two of these samples shall reveal the presence of coliform bacteria.

(b) One (1) microbiological analysis of a remote distribution water sample per day for two (2) consecutive days.

(c) One (1) Lead analysis of a first draw water sample collected from an indoor tap after the water has been undisturbed in the plumbing for at least six (6) hours.

(d) One (1) Nitrate (Nitrate as N) analysis of a source water sample.

(e) Any analyses required per subsection 64E-8.006(4) or Rule 64E-8.007, F.A.C.

The results of such analyses shall not exceed the Maximum Contaminant Levels (MCL) or Health Advisory Levels (HAL) listed in subsection 64E-8.006(2), F.A.C.

(10) To obtain approval to place a new or modified Limited Use Public Water System into service, the applicant must submit a completed Form DH 4092A, Application for Limited Use Public Water System Operation, and obtain either an annual operating permit, or a Registration exemption as described in subsection 64E-8.004(5), F.A.C. Form DH 4092A, effective 9/07, is hereby adopted and incorporated by reference, and can be obtained from the Department of Health, Division of Environmental Health/Water Programs at: 4052 Bald Cypress Way, Bin C22, Tallahassee, Florida 32399-1742, at [www.doh.state.fl.us/environment/water/manual/encl1.htm](http://www.doh.state.fl.us/environment/water/manual/encl1.htm), or from the CHD.

(a) The Department shall then issue an annual operating permit or a Registration provided that:

1. The Department has inspected the system and has verified that it was constructed according to the approved plans, in compliance with this section, and meets the operating and maintenance standards of Rule 64E-8.005, F.A.C.

2. Satisfactory results of the analyses listed in subsection (9) above have been submitted.

3. A copy of the well completion report prepared per Rule 62-532.410, F.A.C., has been submitted.

(b) If deficiencies are found, written notice shall be provided to the applicant by the Department. Deficiencies shall be corrected within ninety (90) days of the expiration date of the construction or modification permit, unless a time extension is granted in writing by the Department.

(c) Re-inspection requests must be accompanied by a \$40 fee.

64E-8.003 Private and Multi-family Water System Construction.

Any new or modified Multifamily Water System, any Multifamily Water System that was constructed and initially placed into service on or after January 1, 1993 that did not obtain construction approval from the Department at the time of construction, or any water system that was constructed and initially placed into service on or after January 1, 1993 that is now being converted into a Multifamily Water System, must obtain construction approval from the Department and is subject to the following requirements:

(1) All new potable wells serving Private or Multifamily Water Systems must be constructed in accordance with Rule 62-532.500, F.A.C. and Chapter 40A-3, B-3, C-3, D-3 or E-3, and shall be separated from major contaminant sources per subsection 64E-8.002(2), F.A.C.

(a) Multifamily Water Systems must also meet the criteria in subsections 64E-8.002(4), (5) and (6), F.A.C.

(b) Private Water Systems must also meet the criteria in paragraph 64E-8.002(5)(e) and subsection (6), F.A.C.

(2) To apply for Multifamily Water System construction or modification approval, an applicant must complete and submit Form DH 4092B, effective 9/07, to the Department along with:

(a) Two (2) copies of a site plan and two (2) copies of a construction plan. Each such plan shall be a minimum size of 8.5 x 11 inches and of sufficient clarity for reproduction.

(b) A \$75 processing fee.

(3) The Department shall issue a permit to construct or modify a Multifamily Water System provided that:

(a) All items in subsection (2) above have been submitted.

(b) All submitted plans and application materials meet the criteria listed in subsection (1) above for Multifamily Water Systems.

(c) The Department has performed a sanitary survey and has verified that the actual site conditions are as indicated on the submitted plans and application materials and meet the criteria listed in subsection (1) above for Multifamily Water Systems.

(4) Multifamily Water system construction or modification approval is valid for eighteen (18) months. An extension of time to complete construction or modification shall be granted for a period of ninety (90) days if the Department receives a written request from the applicant prior to expiration of the construction permit and the conditions under which the original construction permit was granted have not changed.

(5) Upon completion of Multifamily Water System construction, the applicant shall perform a water quality clearance as follows:

(a) One (1) microbiological analysis of a source water sample per day for two (2) consecutive days.

(b) One (1) microbiological analysis of a remote distribution water sample.

(c) One (1) Lead analysis of a first draw water sample collected from an indoor tap after the water has been undisturbed in the plumbing for at least six (6) hours.

(d) One (1) Nitrate (Nitrate as N) analysis of a source water sample.

Such analyses shall be performed in accordance with subsection 64E-8.006(1), F.A.C., and the results of such analyses shall not exceed the MCLs listed in subsection 64E-8.006(2), F.A.C.

(6) Upon request by the applicant, the Department shall inspect to determine if the Multifamily System has been constructed in compliance with the approved plans and with this section. Upon a satisfactory inspection by the Department, receipt of satisfactory results of the analyses listed in section (5) above, and receipt of a copy of the well completion report prepared per Rule 62-532.410, F.A.C., the Department shall issue written approval to operate the Multifamily Water System.

(a) If deficiencies are found, written notice shall be provided to the applicant by the Department. Deficiencies shall be corrected within ninety (90) days of the expiration date of the construction permit, unless a time extension is granted in writing by the Department.

(b) Re-inspection requests must be accompanied by a \$40 fee.

(7) An Existing water system supplied by a domestic well that was constructed and initially placed into service prior to January 1, 1993 and that is now being converted into a Multifamily Water System, must obtain approval to operate the converted Multifamily System.

(a) Such converted Multifamily Water Systems shall meet the minimum setback distances listed in subsection (1) above except that a system supplied by a well constructed prior to January 1, 1972 that is greater than or equal to fifty (50) feet from an OSTDS shall be accepted without a variance.

(b) To obtain approval to operate such a converted Multifamily Water System, an applicant must complete and submit Form DH 4092B, effective 9/07, to the Department along with:

1. A site plan of minimum size of 8.5 x 11 inches and of sufficient clarity for reproduction.

2. A \$75 processing fee.

3. Satisfactory water quality results for the analyses listed in section (5) above.

(c) Upon a satisfactory inspection by the Department that verifies compliance with the minimum setback distances listed in paragraph (7)(a) above and receipt of the items listed in paragraph (7)(b) above, the Department shall issue written approval to the supplier to operate the converted Multifamily Water System.

(d) If deficiencies are found, written notice shall be provided to the applicant by the Department. Re-inspection requests must be accompanied by a \$40 fee.

64E-8.004 Annual Operating Permits, Existing Systems, Systems Constructed On or After 1/1/93, Annual Inspections and Registrations.

(1) Annual operating permits are required for all Limited Use Public Water Systems, except those systems Registered per section (5) below. Issuance of initial annual operating permits for modified or newly constructed and approved Limited Use Public Water Systems is described in subsection 64E-8.002(10), F.A.C. Annual operating permits are not transferable to new persons, expire on September 30 of each year, and must be renewed on an annual basis. Renewal and change of owner fees for annual operating permits are as follows:

(a) Limited use commercial water systems which serve family day care establishments as described in Chapter 65C-20, F.A.C.: Annual renewal; \$30. Change of owner between October 1 and March 31; \$30. Change of owner between April 1 and September 30; \$15.

(b) All other Limited Use Public Water Systems: Annual renewal; \$90. Change of owner between October 1 and March 31; \$90. Change of owner between April 1 and September 30; \$45.

(2) Existing Limited Use Public Water Systems that were constructed and initially placed into service prior to January 1, 1993, except those systems that obtain a Registration per subsection (5) below, must obtain an annual operating permit from the Department.

(a) To obtain an initial annual operating permit for an Existing system, the following must be submitted to the Department:

1. A completed Form DH 4092A, effective 9/07.

2. A \$90 operating permit fee if between October 1 and March 31, or \$45 operating permit fee if between April 1 and September 30. Limited use commercial water systems which serve family day care establishments as described in Chapter 65C-20, F.A.C., shall pay an operating permit fee of \$30 if between October 1 and March 31, or \$15 operating permit fee if between April 1 and September 30.

3. A site plan and a construction plan. Each such plan shall be a minimum size of 8.5 x 11 inches and of sufficient clarity for reproduction.

4. A well completion report, if available.

5. Satisfactory water quality analysis results for the following:

a. One (1) microbiological analysis of a source water sample per day for two (2) consecutive days.

b. One (1) microbiological analysis of a water sample from the distribution system.

c. One (1) Lead analysis of a first draw water sample collected from an indoor tap after the water been undisturbed in the plumbing for at least six (6) hours.

d. One (1) Nitrate (Nitrate as N) analysis of a source water sample.

e. Any satisfactory analyses required per subsection 64E-8.006(4), F.A.C.

(b) The following requirements shall apply to Existing systems:

1. Minimum setback distances listed in subsection 64E-8.002(2), F.A.C., shall be met except that a system supplied by a well constructed prior to January 1, 1972 that is greater than or equal to fifty (50) feet from an OSTDS, or a well constructed prior to January 1, 1993 that is greater than or equal to seventy-five (75) feet from an OSTDS, shall be accepted without a variance if the OSTDS is in compliance with Chapter 64E-6, F.A.C.

2. The well must meet the construction standards that were required at the time of original installation for potable wells.

3. The system must maintain a minimum water pressure of twenty (20) pounds per square inch throughout the water system at all times.

4. The system shall contain no cross-connections.

5. The system must be equipped with a raw water source tap as described in paragraph 64E-8.002(3)(a), F.A.C., or, at a minimum, an outside untreated water tap or hose bib.

6. The system must meet all other operating and maintenance standards of Rule 64E-8.005, F.A.C.

7. Existing systems supplied by surface water or cisterns must meet the design and treatment standards of section paragraph 64E-8.002(4)(e), F.A.C.

(c) Upon receipt of satisfactory items listed in paragraph (2)(a) above, and a satisfactory inspection by the Department that verifies compliance with paragraph (2)(b) above, the Department shall issue an annual operating permit to the supplier.

(d) If deficiencies are found, written notice shall be provided to the applicant by the Department. Re-inspection requests must be accompanied by a \$40 fee.

(e) An Existing water system supplied by a domestic well that was constructed and initially placed into service prior to January 1, 1993 and that is now being converted into a Limited Use Public Water System, must obtain an annual operating permit according to the same requirements for Existing systems as listed in paragraphs (2)(a) through (d) above, or a Registration exemption as described in subsection (5) below.

(3) A Limited Use Public Water System that was constructed and initially placed into service on or after January 1, 1993 that did not obtain construction approval from the Department at the time of construction, or any water system that was constructed and initially placed into service on or after January 1, 1993 that is now being converted into a Limited Use Public Water System, must obtain an annual operating permit or a Registration exemption from the Department and is subject to all construction, water quality clearance and permitting requirements for new Limited Use Public Water Systems as described in Rule 64E-8.002, F.A.C.

(4) Each year, prior to expiration and renewal of a Limited Use Public Water System's annual operating permit, the Department shall conduct an inspection of the water system and shall collect and perform one (1) microbiological analysis of a water sample from the distribution system for no additional fee. When treatment includes disinfection, one (1) microbiological source water sample shall also be collected and analyzed on the same day as the distribution water sample. The following standards shall be checked during the inspection and shall be in compliance prior to renewal of an annual operating permit:

(a) The water pressure must be a minimum of twenty (20) pounds per square inch throughout the water system at all times;

(b) The water system shall contain no cross-connections;

(c) The system must be equipped with:

1. For systems constructed after January 1, 1993: A raw water source tap as described in paragraph 64E-8.002(3)(a), F.A.C., and a structurally sound concrete apron as described in paragraph 64E-8.002(3)(c), F.A.C., or;

2. For Existing systems: A raw water source tap as described in paragraph 64E-8.002(3)(a), F.A.C., or, at a minimum, an outside untreated water tap or hose bib.

(d) All chemically disinfected systems shall have an aboveground check valve between the raw water source tap and the disinfectant injection point;

(e) Chemically disinfected systems must be in compliance with the disinfectant residual limits of paragraph 64E-8.005(1)(d), F.A.C.;

(f) The system must be in compliance with all operating and maintenance standards listed in Rule 64E-8.005, F.A.C.

(g) The system or system use has not been modified without prior approval by the Department.

(h) The supplier has submitted all required routine water quality analysis results listed in subsection 64E-8.006(3), F.A.C.

If deficiencies are found, written notice shall be provided to the supplier by the Department. All reinspections conducted by the Department to verify correction of deficiencies are subject to a reinspection fee of \$40.

(5) Suppliers of Limited Use Commercial Public Water Systems that do not make tap water available for public consumption are eligible for a Registration exemption if the system meets the water quality standards of subsection 64E-8.006(2), F.A.C., and does not require continuous disinfection to remove microbiological contamination. Registered systems are exempt from obtaining annual operating permits. If corrective treatment equipment is required to correct a chemical MCL or HAL violation, the supplier shall not be eligible for a Registration exemption and shall be required to obtain an annual operating permit, unless

the treatment equipment is actively managed and maintained by the Department of Environmental Protection's Water Supply Restoration Program.

(a) The supplier of a newly constructed and approved Limited Use Commercial Public Water System as described in subsection 64E-8.002(10), F.A.C., may apply for a Registration exemption by submitting a completed Form DH 4095, Application for Limited Use Commercial Water System Registration, along with a \$15 application fee to the Department. Form DH 4095, effective 9/07, is hereby adopted and incorporated by reference, and can be obtained from the Department of Health, Division of Environmental Health/Water Programs at: 4052 Bald Cypress Way, Bin C22, Tallahassee, Florida 32399-1742, at [www.doh.state.fl.us/environment/water/manual/encl1.htm](http://www.doh.state.fl.us/environment/water/manual/encl1.htm), or from the CHD. Upon receipt of these items and an inspection by the Department that verifies compliance with the above criteria for Registration, the Department shall issue written authorization to operate the Registered system.

(b) Eligible system owners of Existing systems may apply for a Registration exemption by submitting the following to the Department:

1. A completed Form DH 4092A, Application for Limited Use Public Water System Operation, along with a \$90 application fee. The Department shall waive this requirement upon conversion from a current annually permitted system to a Registered system.

2. A completed Form DH 4095, Application for Limited Use Commercial Water System Registration, along with a \$15 application fee.

3. A site plan and a construction plan. Each drawing shall be a minimum size of 8.5 x 11 inches and of sufficient clarity for reproduction.

4. A well completion report, if available.

5. Satisfactory water quality analysis results for the following:

a. One (1) microbiological analysis of a source water sample per day for two (2) consecutive days and one (1) microbiological analysis of a water sample from the distribution system. The Department shall waive these microbiological sampling requirements if the system classification is being changed from a current annually permitted system to a Registered system, or if the supplier is applying for re-registration due to changes in business activity or ownership per paragraph (5)(f) below, provided that all previously required microbiological sample analyses have been satisfactory for the previous calendar year and the system has not been modified without prior approval from the Department.

b. One (1) Lead analysis of a first draw water sample collected from an indoor tap after the water been undisturbed in the plumbing for at least six (6) hours, performed within the last five (5) years;

c. One (1) Nitrate (Nitrate as N) analysis of a distribution water sample, performed within the last five (5) years.

d. Any satisfactory analysis required per subsection 64E-8.006(4), F.A.C.

(c) Upon receipt of satisfactory items listed in paragraph (5)(b) above and a satisfactory inspection by the Department that verifies compliance with subparagraphs (2)(b)1. through 6. above, the Department shall issue written authorization to operate the Registered system.

(d) If deficiencies are found, written notice shall be provided to the applicant by the Department. Re-inspection requests must be accompanied by a \$40 fee.

(e) In order to retain their potable water status as is required by the Federal Occupational Health and Safety Administration under 29 CFR 1910.141 and the Florida Plumbing Code, suppliers of Registered systems as described within this section must perform annual testing for bacteria in the form of one (1) satisfactory microbiological sample per year. Such analyses shall be performed no more than twelve (12) months apart and the results shall be provided to the Department no later than fifteen (15) days after the time period in which the sample was required. If this annual testing is not performed, the Department may revoke the Registration exemption and require the supplier to either obtain an annual operating permit per subsection (1) above, or reapply for Registration by submitting the items listed in subparagraphs (5)(b)2. through 5., above.

(f) Re-registration of eligible water systems is required prior to any change in business activity or upon change of system ownership. To re-register, the supplier shall submit the items listed in subparagraphs (5)(b)1. through 5., above.

64E-8.005 Operation and Maintenance.

(1) The following operating standards shall apply to ~~all permitted~~ Limited Use Public Water Systems:

(a) All components shall function properly at all times.

(b) Should the system shut down, the supplier shall take steps to restore it immediately. The supplier shall alert all users in advance of maintenance that will cause pressure loss or water quality change. The supplier shall follow the standards outlined in the *Guidelines for the Issuance of Precautionary Boil Water Notices*, 12/11/06 revision, available from the Department of Health, Division of Environmental Health/Water Programs at: 4052 Bald Cypress Way, Bin C22, Tallahassee, FL 32399-1742, or [www.doh.state.fl.us/environment/water/manual/boilnew.htm](http://www.doh.state.fl.us/environment/water/manual/boilnew.htm).

(c) The supplier shall alert the ~~CHD county health department~~ twenty-four (24) hours in advance where possible, but no later than the next business day after any shutdown or treatment failure, or within twenty-four (24) hours after discovering sabotage or vandalism to the water system.

(d) Where continuous disinfection is required to remove confirmed microbiological contamination, ~~d~~Disinfection equipment shall maintain ~~the a~~ free available chlorine residual and total chlorine residual between 0.2 milligrams per liter (mg/L) and 4.0 mg/L ~~free available chlorine residual or 5.0 mg/L total chlorine residual~~ throughout the entire system, or the equivalent of these limits as determined by the ~~D~~Department. ~~A functional disinfectant concentration test kit shall be kept on site at all times.~~

1. Where continuous disinfection is required, the supplier shall test the chlorine residual daily by using a N, N-Diethyl-p-Phenylenediamine (DPD) color comparison test kit, or a portable spectrophotometer test kit and post the results in a log kept on premises. The test kit shall be functional and kept on site at all times. The ~~D~~Department shall specify tests for alternative disinfectants upon construction approval.

2. Where continuous disinfection is required for a Limited Use Community System and a chemical disinfectant is used, the supplier shall assure a state certified water treatment plant operator services the system weekly.

3. Where continuous disinfection was initially required prior to the effective date of this chapter, the effective water contact volume for groundwater supplied systems shall be 15 times the PD, and the effective water contact volume for surface water supplied systems shall be 120 times the PD (in order to achieve a minimum water contact time of 15 or 120 minutes, respectively, with the disinfectant at peak demand flow).

4. Where continuous disinfection was initially required for a groundwater supplied system on or after the effective date of this chapter, the system must maintain the minimum required water contact time and free chlorine residual based on the water temperature exiting the contact tank according to Table 1, or designed in accordance with Chapters 3 and 4 of the U.S. EPA *Guidance Manual for Compliance with the Filtration and Disinfection Requirements for Public Water Systems Using Surface Water Sources*, March 1991 Edition.

5. Where disinfection equipment is installed on a Limited Use Public Water System but is not required, the free available chlorine residual and total chlorine residual shall not exceed 4.0 mg/L throughout the entire system.

(e) The system shall maintain a minimum water pressure of twenty (20) pounds per square inch throughout the water system at all times.

(f) The water system shall contain no cross-connections.

(2) The following maintenance standards shall apply to all Limited Use Public Water ~~permitted~~ Systems:

(a) All components shall be in good repair and used as intended.

(b) Replacement of components shall be with new or like-new products, approved per subsection rule 64E-8.002(6), F.A.C. and equal to those originally approved.

(c) The vicinity within five (5) feet of the water system and well shall be free of vegetation, debris and hazards which could prevent or hinder inspection.

(d) If an emergency modification is performed, ~~alteration occurs~~, the supplier must apply submit a completed Form DH 4092B to the Department for system modification per Rule 64E-8.002, F.A.C., on the next business day.

(e) The supplier shall record the date and type of all post maintenance and repairs performed on the system ~~repair dates and type~~ in a log kept on the premises.

(f) Systems vulnerable to vandalism shall be secured, but any enclosure shall not restrict visibility or authorized-access for inspection.

(g) The upper end of the well casing shall be watertight except for vents which shall be directed downward and protected with 20-mesh screen.

(h) Any chemical which could contaminate the water supply shall not be stored within twenty-five (25) feet of the well head unless the chemical container is in an additional, above-ground containment structure capable of containing the full volume of the chemical.

64E-8.006 Water Quality Standards and Monitoring for Limited Use Public Water Systems.

(1) Water quality samples collected for compliance with this chapter, except chlorine residuals, shall be analyzed by a laboratory certified for the contaminant by the Department in accordance with Chapter 64E-1, F.A.C., and shall be analyzed using a Department-certified method for analyzing drinking water samples. Approved methods for analyzing drinking water compliance samples are available at the U.S. EPA Office of Groundwater and Drinking Water website at [www.epa.gov/safewater/methods/methods.html](http://www.epa.gov/safewater/methods/methods.html). Microbiological analyses shall be in accordance with those methods specified in 40 CFR 141.21(f). Chemical analyses shall be in accordance with those methods specified in 40 CFR 141.23(k).

(2) Analysis results of water quality samples collected for compliance with this chapter shall not exceed the following standards:

(a) Chemical Maximum Contaminant Levels (MCL) and Health Advisory Levels (HAL):

1. Lead – 0.015 milligrams per liter (mg/L).

2. Nitrate as N – 10.0 mg/L.

3. Other primary drinking water contaminant MCLs listed in Rule 62-550.310, F.A.C.

4. Drinking water HALs as defined in subsection 64E-8.001(8), F.A.C.

(b) Microbiological Maximum Contaminant Levels (MCL):

1. A total coliform MCL violation occurs when a total coliform test reveals the presence of total coliform bacteria in any compliance and repeat sample.

2. A fecal coliform MCL violation occurs when a fecal coliform or *E. coli* test reveals the presence of fecal coliform or *E. coli* in any compliance or repeat sample, provided the repeat test is positive for total coliform bacteria.

3. The supplier shall collect a repeat sample on the first business day following notification that coliform bacteria were present in the previous sample. Failure to provide a repeat sample to the laboratory by the deadline specified by the Department will result in use of the previous sample's results as if they were the repeat sample's results.

4. Unless coliform bacteria are present, a result of too numerous to count (TNTC), confluent or turbid with the absence of gas or acid, is invalid and the supplier shall collect a replacement sample on the next business day after notification of the invalid results.

(3) The following monitoring schedule applies to annually permitted Limited Use Public Water Systems:

(a) Analysis of water samples for Lead and Nitrate per paragraphs 64E-8.002(9)(c) and (d), F.A.C., is required once every thirty-six (36) months for Limited Use Community Systems, or once every sixty (60) months for Limited Use Commercial Systems. Such analyses shall be performed no more than 36 months or 60 months apart, respectively. The Department shall require more frequent chemical monitoring if analysis results indicate the presence of contaminants which may pose a threat to public health.

(b) One (1) microbiological analysis of a water sample from the distribution system is required once every calendar quarter (one sample during each of the following periods: January through March; April through June; July through September; October through December). Whenever possible, each quarterly sample shall be collected during the middle month of each period (February, May, August and November) in order to allow time for laboratory analysis and reporting of results.

1. When treatment includes disinfection, one (1) microbiological source water sample must also be collected on the same day as the distribution water sample.

2. The Department may increase microbiological analysis frequency to a monthly basis for a period of one (1) year or more if the water source or water system has a history of intermittent unsatisfactory microbiological analysis results.

(4) Additional analyses for contaminants shall be required for a system if:

(a) The well is located within a Department of Environmental Protection (DEP) delineated area under Chapter 62-524, F.A.C.

(b) The well is within one-thousand (1000) feet of a contaminated well or a known contaminant source.

(c) The analyses are required per Rule 64E-8.007, F.A.C.

(5) All Limited Use Public Water System suppliers shall report water sample analysis results to the Department within five days of receipt of the results. Analysis results for chemical samples required by paragraph (3)(a) above must be submitted no later than thirty (30) days after the time period in which the sample was required. Analysis results for microbiological samples required by paragraph (3)(b) above must be submitted no later than fifteen (15) days after the time period in which the sample was required. These reporting deadlines in no way change the compliance sampling time periods in which sample analysis is required to be performed by the supplier.

(a) Any chemicals or pathogens detected in concentrations that exceed a published MCL or HAL shall be reported by the supplier to the Department and removed by corrective actions taken by the supplier per Rule 64E-8.007, F.A.C.

(b) Laboratories must report to the supplier and to the Department all positive microbiological water sample analysis results and any water sample analysis results that exceed a published MCL or HAL no later than the end of the next business day after the result was determined, by telephone, facsimile, or e-mail. Positive fecal coliform or *E. coli* results must be reported to the supplier and to the Department as soon as possible, but no later than the end of the day in which the result was determined in accordance with subsection 64E-1.005(2), F.A.C.

(6) Fees charged to the supplier when samples are submitted by or through the Department for routine monitoring, for a well or water system clearance or for a private request shall include laboratory analysis costs for each sample analyzed, any locally mandated fees and shipping fees.

(7) Department staff may collect compliance samples upon a supplier's request for a fee of \$50 per microbiological sampling site visit, \$60 per chemical sampling site visit, or \$70 per combined chemical and microbiological sampling site visit, plus any locally mandated fees, laboratory analysis fees and shipping fees.

(Substantial rewording of Rule 64E-8.007 follows. See Florida Administrative Code for present text.)

64E-8.007 Corrective Actions.

Subsections (1) through (7) below apply to all Limited Use Public Water Systems. Chemical and microbiological MCLs and HALs are listed in subsection 64E-8.006(2), F.A.C. Disinfection of a water system as required by subsection (3) or (4) below to remove bacteriological contamination shall be accomplished by interrupting service and maintaining a minimum 50 mg/L solution of free available chlorine or its equivalent throughout the system for a minimum of three hours, then reducing the concentration to less than or equal to 4.0 mg/L prior to service being restored.

(1) When a microbiological sample analysis reveals the presence of coliform bacteria, the supplier must perform repeat testing within one (1) business day following notification as described in subparagraph 64E-8.006(2)(b)3., F.A.C.

(2) An acute risk to health exists when a chemical MCL or HAL violation occurs, or when a fecal coliform MCL violation occurs. Upon occurrence of such an acute risk, immediate action shall be taken by the supplier to prevent consumer exposure, and shall include:

(a) Written public notice to consumers per Rule 64E-8.008, F.A.C.

(b) For chemical MCL or HAL violations, provision of temporary access to an approved alternative source of water, or provision of one gallon per day per person of a state permitted brand of bottled water to consumers until a permanent solution is completed per subsection (5) below.

(c) For fecal coliform MCL violations, issuance of a boil water notice according to the *Guidelines for the Issuance of Precautionary Boil Water Notices* as referenced in paragraph 64E-8.005(1)(b), F.A.C. In addition, the supplier shall take those actions required in subsection (3) or (4) below.

(3) For total and fecal coliform MCL violations in the well, the supplier shall:

(a) Disinfect the system within twenty-four (24) hours of notification of the MCL violation, then within twenty-four (24) hours of disinfection, perform a five (5) sample microbiological well survey as described in paragraph 64E-8.002(9)(a), F.A.C. If the results are still unsatisfactory per subparagraph 64E-8.002(9)(a)2., F.A.C., then:

(b) Within ten (10) days of receipt of the test results, apply to the Department for a system modification permit per Rule 64E-8.002, F.A.C., for installation of continuous disinfection treatment equipment or construction of a new well. Then:

1. Install treatment equipment within fourteen (14) days of issuance of the modification permit, then within seven (7) days of equipment installation, perform a satisfactory two (2) consecutive day distribution system microbiological clearance,

or:

2. Construct a new well within fourteen (14) days of issuance of the modification permit, then within seven (7) days of well installation, begin a satisfactory five (5) sample

microbiological well survey as described in paragraph 64E-8.002(9)(a), F.A.C., and a two (2) consecutive day distribution system microbiological clearance.

(4) For total and fecal coliform MCL violations in the system, the supplier, within twenty-four (24) hours of notification of the MCL violation, shall verify the water quality of the system by collecting one (1) source water sample and one (1) repeat sample within the system at the same location that revealed the bacteria, then, if only the system still contains water violating the coliform MCL;

(a) Disinfect the system within twenty-four (24) hours of receipt of the confirmation test results, then within twenty-four (24) hours of disinfection, perform a two (2) consecutive day distribution system microbiological clearance. If the results are still unsatisfactory, then;

(b) Within ten (10) days of receipt of the test results, apply to the Department for a system modification permit per Rule 64E-8.002, F.A.C., for installation of continuous disinfection treatment equipment. Then;

1. Install treatment equipment within fourteen (14) days of issuance of the modification permit, then;

2. Within seven (7) days of equipment installation, perform a satisfactory two (2) consecutive day distribution system microbiological clearance.

(5) When a water sample analysis result for any chemical or contaminant listed in paragraph 64E-8.006(2)(a), F.A.C., exceeds a published MCL or HAL, the supplier shall:

(a) Perform a confirmation water sample analysis within fourteen (14) days of notification of the initial results, then if the MCL or HAL is exceeded again;

(b) Within thirty (30) days of receipt of the confirmation test results, apply to the Department for a system modification permit per Rule 64E-8.002, F.A.C., for installation of corrective treatment equipment or construction of a new well. Then;

1. Install treatment equipment within thirty (30) days of issuance of the modification permit. Then, if the treatment equipment is not actively managed and maintained by the Department of Environmental Protection's Water Supply Restoration Program, perform an analysis of the raw and treated water within seven (7) days after equipment installation and once every twelve (12) months thereafter. or;

2. Construct a new well within thirty (30) days of issuance of the modification permit, then perform an analysis of the raw water within seven (7) days after well installation and once every twelve (12) months thereafter.

(6) All modifications performed under this section must be inspected by the Department to verify compliance with the approved plans and with this chapter. Re-inspection requests must be accompanied by a \$40 fee.

(7) When corrective water treatment equipment is installed by the supplier of a Limited Use Public Water System as a result of chemical or coliform MCL violations, the owner may

remove such equipment, provided that the Department is notified prior to its removal and has confirmed that all required quarterly analyses of the raw water for the past twenty-four (24) months or monthly analyses of the raw water for the past twelve (12) months have been satisfactory.

(8) When water main breaks or other planned or unplanned disruptions of water service occur after the master meter within a Consecutive Public Water System that is excluded from coverage under the Florida Safe Drinking Water Act, the Department shall be notified by the supplier within twenty-four (24) hours of the disruption and corrective actions including disinfection, microbiological monitoring, public notification, and precautionary boil water notices shall be performed as described in Rule 62-555.340, F.A.C.

64E-8.008 Public Notification.

When an acute health risk exists, ~~the~~ the supplier shall provide public notification as required in ~~subsection rules 64E-84.007(2)(b) and (5)(a) to consumers~~ as follows:

(1) Notices shall caution consumers not to consume the water, explain the alternative as described in paragraph 64E-8.007(2)(b) or (c), F.A.C., based on the type of water quality violation, and describe, in non-technical terms, the nature of the violation and the supplier's corrective actions. Notices shall include a contact name and phone number, and be neatly printed in large type.

(2) The supplier shall provide a copy of the printed notice to the Department within twenty-four (24) hours of notification of the water quality violation. ~~Notices shall be neatly printed in large type and the supplier shall provide a copy to the county health department.~~

(3) The supplier shall deliver notices to consumers served by a Limited Use Community Public Water ~~or Private~~ System within ~~four (4) 24~~ hours of ~~notification being notified~~ of the water quality violation.

(4) The supplier shall post notices at water outlets in Limited Use Commercial Systems within ~~four (4) 12~~ hours of ~~notification being notified~~ of the water quality violation.

(5) The supplier shall take special actions where consumers are not capable of reading printed material, such as verbal notification and disabling of water outlets. Where non-English speaking persons consume the water, the notice shall be translated into the prevalent languages of the consumers.

(6) After all violations have been corrected per Rule 64E-8.007, F.A.C. Upon departmental release of the system, the supplier shall provide a notice to consumers that rescinds the original notice, in the same manner as required in ~~subsections rules 64E-8.008(1) through (5) above.~~

64E-8.009 Variances.

(1) ~~The supplier of any Limited Use Public, Multifamily or Private Water System may request a variance from the requirements of this chapter by submitting the following to the CHD: completing Form DH 4094 and submitting a statement regarding hardship, any other information necessary for rendering a decision and all information required by subsection 64E-8.009(3). The burden of presenting pertinent and supportive facts shall be the responsibility of the applicant.~~

~~(a) A completed Form DH 4094 (Section I only), Application for Variance from Chapter 64E-8, F.A.C. Form DH 4094, effective 9/07, is hereby adopted and incorporated by reference, and can be obtained from the Department of Health, Division of Environmental Health/Water Programs at: 4052 Bald Cypress Way, Bin C22, Tallahassee, Florida 32399-1742, at [www.doh.state.fl.us/environment/water/manual/encl1.htm](http://www.doh.state.fl.us/environment/water/manual/encl1.htm), or from the CHD.~~

~~(b) A statement of hardship.~~

~~(c) A site plan. The plan shall be a minimum size of 8.5 x 11 inches and of sufficient clarity for reproduction.~~

~~(d) Any applicable well completion reports.~~

~~(e) Any applicable water quality analysis results.~~

~~(f) Any other information necessary for rendering a decision including information pertaining to the items listed in subsection (4) below. The burden of presenting pertinent and supportive facts shall be the responsibility of the applicant.~~

~~Upon receipt of all application materials, the CHD shall review such variance applications, make a recommendation to the Department by completing Section II of Form DH 4094, 9/07, and forward all application materials to the Division of Environmental Health/Bureau of Water Programs.~~

~~(2) Upon consideration of each application; and the recommendations of the Water Management District and the CHD county health department, the Department's Division of Environmental Health/Bureau of Water Programs Deputy State Health Officer or his designee has the authority to grant a variance, grant a provisional variance or deny the variance request. The Department Deputy State Health Officer or his designee will consider granting a variance to prevent excessive hardship in cases involving minor deviation from established standards, when the hardship was not caused intentionally by the applicant, where no reasonable alternative exists; and where proper use of the system will not adversely affect public health. In making its decision, the department shall consider the factors in subsection 64E-8.003(4), F.A.C. Variances on new wells are not transferable to other persons and expire one year after approval unless a system or well construction permit~~

~~has been reissued.~~ Special consideration shall be given to lots platted prior to 1972 or granted a variance under Chapter rule 64E-6, F.A.C.

(a) When approving a variance request, the Department may require provisos including, but not limited to:

1. Minimum well casing depth to achieve a satisfactory vertical separation from sanitary hazards, based on the depth and location of confining layers or other geological features.

2. Rotary well construction with full grouting of the well casing with neat cement or driven well construction with grouting of the top twenty (20) feet and bottom five (5) feet with neat cement, per subparagraph 62-532.500(2)(f)3. or 4., F.A.C.

3. Satisfactory water quality analysis for total coliform, Nitrate, or other likely contaminants of concern.

4. Increased water quality monitoring frequency for Limited Use Public Water Systems.

5. Installation of water treatment equipment.

6. Connection to a municipal public water system if one eventually becomes available.

(b) Variances for proposed water system construction expire eighteen (18) months after approval. The expiration date may be extended if necessary to coincide with the expiration date of the associated water system construction permit or well construction permit issued by the Water Management District or delegate agency.

(c) Emergency approval of variance requests may be granted by the Department's Division of Environmental Health/Bureau of Water Programs in cases of extreme hardship.

(3) For variances requests for involving private water system replacement wells only, for separations between fifty (50) and seventy-five (75) feet from a septic system or sanitary hazard as defined in subsection 62-532.400(7) Table 1, except those which are less than 50 feet from an OSTDS or less than 25 feet from a building foundation which has been chemically treated for pests and contains no impervious strata below the ground surface, the applicable CHD county health department administrator has the authority to grant a variance, grant a provisional variance or deny the variance request. The county health department administrator will grant a variance to prevent excessive hardship based on the same criteria specified in subsections 64E-8.009(2) above and (4), below.

(4) In granting or denying a variance, the Department shall consider:

(a) Historical water quality.

(b) Age and condition of system components and the likelihood it will continue to provide potable water.

(c) Size of cone of influence and protection of source from contamination.

(d) Amount of deviation from these standards.

(e) Type and degree of consumer exposure.

- (f) Economic hardship.
- (g) Alternative potable water availability.
- (h) Geological characteristics of the well.

- Threshold for Recording Property
- Recording of Property
- Marking of Property
- Disposition of Property
- Inventory of Property

PURPOSE AND EFFECT: The purpose of the proposed rules is to implement Section 274.02, F.S., which authorizes the Chief Financial Officer to establish by rule the requirements for recording of local government owned property and for the periodic review of such property for inventory purposes.

SUMMARY: The proposed rules establish minimum recordkeeping and inventory requirements for county and district owned tangible personal property.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 274.02 FS.

LAW IMPLEMENTED: 274.01, 274.02 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

DATE AND TIME: Monday, December 24, 2007, 10:00 a.m.

THE FULL TEXT OF THE PROPOSED RULES IS:

TANGIBLE PERSONAL PROPERTY OWNED BY LOCAL GOVERNMENTS

69I-73.001 Definitions.

(1) “Control Accounts” means summary accounts designed to control accountability for individual property records. Unlike individual property records which establish accountability for particular items of property, control accounts accumulate the total cost or value of the custodian’s property and, through entries to the control accounts documenting acquisitions, transfers and dispositions, provide evidence of the change in that total cost or value over periods of time as well as the total cost or value at any time.

(2) “Cost” means acquisition or procurement cost (i.e., invoice price plus freight and installation charges less discounts). In determining cost, the value of property exchanged by custodian in satisfaction of a portion of the purchase price of new property shall not be deducted from the full purchase price regardless of any property “traded in” on the new property.

(3) “Custodian” means, without limitation, any elected or appointed officer, board, commission or authority, or any other person or agency entitled to lawful custody of property owned by the local government.

(4) “Custodian’s Delegate” means a person acting under the supervision of the custodian to whom the custody of property has been delegated by the custodian and, from whom the custodian receives custody receipts.

(5) “Data Processing Software” has the meaning set forth in Section 119.011(6), F.S. Data processing software is not considered to be property within the meaning of these rules.

(6) “Depreciated Cost” means cost less accumulated depreciation.

(7) “Financial System” means the fund accounting process used by the local government for recording cash and other financial resources, expenditures and other financial uses, together with all related liabilities and residual equities or balances.

(8) “Fiscal Year” means the governmental unit’s fiscal year established pursuant to law.

(9) “Governmental Unit” has the meaning set forth in Section 274.01(1), F.S.

(10) “Identification Number” means a unique number assigned and affixed to each item of property to identify it as property held by the custodian and for the purpose of differentiating one item of property from another.

(11) “Property” has the meaning set forth in Section 274.02(1), F.S.

(12) “Unaccounted for Property” means property held by a custodian, subject to the accountability provisions of Section 274.03, F.S., which cannot be physically located by the custodian or custodian’s delegate, which property has not been otherwise lawfully disposed of.

(13) “Value” means the worth or fair market value at the date of acquisitions for donated property.

Specific Authority 274.02 FS. Law Implemented 274.01, 274.02 FS. History—New \_\_\_\_\_.

69I-73.002 Threshold for Recording Property.

All property with a value or cost of \$1,000 or more and a projected useful life of 1 year or more shall be recorded in the local government’s financial system as property for inventory purposes.

Specific Authority 274.02 FS. Law Implemented 274.02 FS. History—New \_\_\_\_\_.

69I-73.003 Recording of Property.

(1) Maintenance of Property Records – Governmental units shall maintain adequate records of property in their custody. The records shall contain at a minimum, the information required by these rules.

(2) Individual Records Required for Each Property Item – Each item of property shall be accounted for in a separate property record. Related individual items which constitute a single functional system may be designated as a property group. A property group may be accounted for in one record if the component items are separately identified within the

record. Examples of property items subject to group accountability include, but are not limited to, modular furniture, computer components, book sets, and similar association of items. All property group items, the total value or cost which is equal to or greater than \$1,000 shall be inventoried under this rule.

(3) Content of Individual Property Records – Each property record shall include the following information:

(a) Identification number.

(b) Description of item or items.

(c) Physical location (the city, county, address or building name, and room number therein).

(d) Name of custodian with assigned responsibility for the item.

(e) In the case of a property group, the number and description of the component items comprising the group.

(f) Name, make or manufacturer if applicable.

(g) Year and/or model(s) if applicable.

(h) Manufacturer's serial number(s) if any, and if an automobile, vehicle identification number (VIN) and title certificate number if applicable.

(i) Date acquired.

(j) Cost or value at the date of acquisition for the item or the identified component parts thereof. When the historical cost of the purchased property is not practicably determinable, the estimated historical cost of the item shall be determined by appropriate methods and recorded. Estimated historical costs shall be identified in the record and the basis of determination established in the governmental unit's public records. The basis of valuation for property items constructed by personnel of the governmental unit shall be the costs of material, direct labor and overhead costs identifiable to the project. Donated items, including federal surplus tangible personal property, shall be valued at fair market value at the date of acquisition. Regardless of acquisition method, the cost or value of a property item shall include ancillary charges necessary to place the asset into its intended location and condition for use. Ancillary charges include expenditures that are directly attributable to asset acquisition, such as freight and transportation charges, installation costs and professional fees.

(k) Method of acquisition and, for purchased items, the voucher and check or warrant number.

(l) Date the item was last physically inventoried and the condition of the item at that date.

(m) If disposed of, the information prescribed in Rule 69I-73.005, F.A.C.

(n) The local government may include any other information on the individual property record that the governmental unit may care to include.

(4) Control Accounts – A governmental unit-wide control account showing the total cost or value of the custodian's property shall be maintained. A governmental unit may keep

additional control accounts for property to the extent deemed necessary for different funds or sub-funds. Control accounts shall not be established by periodically summarizing the costs or values recorded on the individual property records. Rather, entries to control accounts shall be derived from documents evidencing transactions affecting the acquisition, transfer or disposition of property items and shall be posted contemporaneously with entries to the individual property records.

(5) Depreciation shall be recorded to meet local governments' financial reporting requirements relating to depreciation accounting. However, depreciation shall not be recorded on the individual property records or in control accounts in such a manner as to reduce the recorded acquisition cost or value (i.e., depreciation shall be recorded as an item separate from the acquisition cost).

Specific Authority 274.02 FS. Law Implemented 274.02 FS. History–New \_\_\_\_\_.

#### 69I-73.004 Marking of Property Records.

(1) Marking of Property – Each property item shall be permanently marked with the identification number assigned to that item to establish its identity and ownership by the governmental unit holding title to the item. The marking shall visually display the property identification number of the item and may include an electronic scanning code (“barcode”) to facilitate electronic inventory procedures.

(2) Exemptions for Marking Property – Any item of property whose value or utility would be significantly impaired by the attachment or inscription of the property identification number, is exempt from the requirement for physical marking. However, the custodian's property records shall contain sufficient descriptive data to permit positive identification of such items.

(3) Location of Marking – Items of a similar nature shall be marked in a similar manner to facilitate identification. In determining a marking location, careful consideration shall be given to the intended use of the items; the probability that the marking could be obliterated by wear, vandalism or routine maintenance functions; and, the appropriateness of the marking method chosen. Additionally, the location of the marking and the marking method chosen shall not mar the appearance of the item. When utilizing an electronic scanning format system, electronic codes shall be placed on property in the same manner as other markings specified in this section.

#### 69I-73.005 Disposition of Property.

(1) Methods of Disposition – Property within the meaning of these rules may be lawfully disposed of, as provided in Sections 274.05, 274.06 and 274.07, F.S. Property of the

governmental unit which is not accounted for during regular or special inventories shall be subject to the rules regarding unaccounted for property (See Rule 69I-73.006, F.A.C.).

(2) Required Information – The following information shall be recorded on the individual property record for each item lawfully disposed of, pursuant to Section 274.05, 274.06 or 274.07, F.S.:

(a) Date of disposition.

(b) Authority for disposition (resolution of the governing body properly recorded in the minutes as required by Section 274.07, F.S.).

(c) Manner of disposition (sold, donated, transferred, cannibalized, scrapped, destroyed, traded).

(d) Identity of the employee(s) witnessing the disposition, if cannibalized, scrapped or destroyed.

(e) For items disposed of, a notation identifying any related transactions (such as receipt for sale of the item, insurance recovery, trade-in).

(f) For property certified as surplus, reference to documentation evidencing that such property was disposed of in the manner prescribed by Section 274.05 or 274.06, F.S.

(3) Transfer of Property Records – The individual property record for each item lawfully disposed of as described in this rule shall be, upon disposition of the item, transferred to a disposed property file. Destruction of such records shall be governed by the provisions of Chapter 119, F.S.

(4) Control Account – The cost or value of items lawfully disposed of shall be removed from the control account at the time of disposition.

Specific Authority 274.02 FS. Law Implemented 274.02 FS. History–New \_\_\_\_\_.

69I-73.006 Inventory of Property.

(1) Physical Inventory Required – Each governmental unit shall ensure a complete physical inventory of all property is taken annually and whenever there is a change of custodian or change of custodian’s delegate.

(2) Inventory Forms – The form used to record the physical inventory pursuant to Section 274.02(1), F.S., shall be at the discretion of the governmental unit. However, the form shall display at a minimum for each property item, the following information:

(a) Date of inventory.

(b) Identification number.

(c) Existence of property item (or not).

(d) Physical location (the city, county, address or building name and room number therein).

(e) Present physical condition.

(f) Name and signature of the employee or other individual attesting to the existence of the item.

(g) In the case of a property group, the number and description of the component items comprising the group.

(3) Electronic scanning format used for the identification number is acceptable only if the recorded data is downloadable to a computer and can then be used to generate reports that will include all information required on the hardcopy inventory form.

(4) Unrecorded Property – Any property item found during the conduct of an inventory which meets the requirements for accounting and control as defined in Rule 69I-71.003, F.A.C., and which item is not included on the inventory forms described above, shall have an inventory form created for the item when located. After appropriate investigation to establish the ownership of the item, it shall be added to the governmental unit's property records or, if ownership cannot be reasonably established, the item may be disposed of in the manner provided by law as applicable to surplus property, pursuant to Sections 274.05 and 274.06, F.S.

(5) Custodian Delegate Shall Not Inventory Certain Items – The custodian delegate shall not personally inventory items for which they are responsible.

(6) Reconciliation of Inventory to Property Records – Upon completion of a physical inventory:

(a) The data listed on the inventory forms shall be compared with the individual property records. Noted differences such as location, condition and custodian shall be investigated and corrected as appropriate or alternatively, the item shall be relocated to its assigned location and custodian in the individual property record.

(b) Items not located during the inventory process shall be promptly reported to the governmental unit which shall cause a thorough investigation to be made. If the investigation determines that the item was stolen, the individual property record shall be so noted, and a report filed with the appropriate law enforcement agency describing the missing item and the circumstances surrounding its disappearance.

(7) Unaccounted for Property – For items identified as unaccounted for and reported to the State’s Chief Financial Officer, recording of the items as dispositions, or otherwise removing of the items from the property records, shall be subjected to approval of the State’s Chief Financial Officer, as provided in Section 17.041, F.S., and Rule 69I-71.003, F.A.C.

                                  NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 33, No. 41, October 12, 2007 issue of the Florida Administrative Weekly. Subsection (1) of Rule 12C-1.0221, Florida Administrative Code, has been changed, so that, when adopted, the subsection will read as follows:

(1) A return, election, or notice required of a taxpayer shall be signed by an officer duly authorized to sign. A return or notice required of a taxpayer made by a fiduciary under subsection 220.22(3), F.S., shall be signed by the fiduciary. An officer's or fiduciary's signature on a return or notice made by or for a taxpayer shall be prima facie evidence that such individual was authorized to sign the return or notice on behalf of the taxpayer. The filing of a return that is not signed or that is improperly signed and verified ~~is may be~~ treated as a failure to file the return for purposes of starting the limitation period or for the imposition of penalty for failure to file.

Paragraph (c) of subsection (1) of Rule 12C-1.0221, Florida Administrative Code, has been changed, so that, when adopted, the paragraph will read as follows:

(c) Form F-7004 shall be signed by a person authorized by the taxpayer to request such extension. Such person must be an individual authorized under paragraph (a) or (b) to sign the taxpayer's return; a person currently enrolled as an agent under Treasury Department Circular Number 230 (herein incorporated by reference), to practice before the Internal Revenue Service; an attorney who is a member in good standing of the bar of the highest court of any state, possession, territory, commonwealth, or the District of Columbia; or any certified public accountant who is duly qualified to practice in any state, possession, territory, commonwealth, or the District of Columbia.

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 33, No. 42, October 19, 2007 issue of the Florida Administrative Weekly.

SUMMARY OF CHANGE: The following changes are being made in response to a review by the Joint Administrative Procedures Committee:

1. 14-22.002 (1)(a) is changed to add form title, number, and date references for the online web application form as follows:

(a) Persons or firms who desire to qualify with the Department in order to bid for the performance of road, bridge, or public transportation construction projects in excess of \$250,000, shall file annually with the Department an Application for Qualification (Online Web Application), Form 375-020-38, 11/7/2007. An application for qualification shall be filed electronically on the website <http://www.dot.state.fl.us/cc-admin/default.htm>. Information regarding the electronic application, including a copy of the form, can be obtained by writing to the Department at the address listed below. Persons or firms may obtain information on how to obtain a user name and password to use the electronic application filing process by contacting the Contracts Administration Office at the address below. Persons or firms shall also file two hard copies of audited financial statements as required by this section via hand delivery or mail to Department of Transportation, Contracts Administration Office, 605 Suwannee Street, MS 55, Room 60, Haydon Burns Building, Tallahassee, Florida 32399-0455. For purposes of this rule, "filing" is defined as receipt of the application and audited financial statements by the Contracts Administration Office.

2. 14-22.006(3) is changed to add form title, number, and date references for the online certification of work underway form as follows:

(3) In order for the Department to have the information required to determine a bidder's Current Capacity, it is necessary that the bidder certify the total dollar amount of all work the bidder has underway. This certification shall be accomplished electronically by submitting Certification of Work Underway (Online Web Application), Form 375-020-39, 11/7/2007, to the Department concurrently with the bid submittal for the first letting in the calendar month that the bidder submits a bid.

3. 14-22.015 Forms is changed to include adding form title, number, and date references for the online web application and the certification of work underway forms:

Form Number	Date	Title
375-020-38	11/7/2007	Application for Qualification (Online Web Application)
375-020-39	11/7/2007	Certification of Work Underway (Online Web Application)

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 33, No. 29, July 20, 2007 issue of the Florida Administrative Weekly.

18-1.002 Definitions.

When used in this chapter, the following shall have the indicated meaning unless the context clearly indicates otherwise:

(1) through (9) No change.

(10) "Certified survey" means a boundary survey, as further defined in Rule 18-1.005, F.A.C., which is certified, signed and sealed by a professional surveyor and mapper authorized to practice surveying in the State of Florida, and approved by the Division's Bureau of Survey and Mapping as being in compliance with the minimum technical standards for land surveying in Florida. The survey shall accurately portray the parcel's boundaries, improvements and encumbrances. The survey must have been certified within 90 days of the closing on the property unless this requirement is waived by the Division and by the title insurer for the purpose of deleting the standard exceptions for survey matters, easements, or claims of easements not shown by the public records from the owner's title policy.

(11) "Council" means the Acquisition and Restoration Council formed by Section 259.035, F.S.

(11) through (15) renumbered (12) through (16) No change.

~~(17)(16)~~ "Evidence of marketable title" means assurance of the marketability of the land being acquired, in the form of a marketability title commitment and policy (~~American Land Title Association [ALTA] Form B with Florida revisions~~). The coverage, form and exceptions of the title insurance must be approved by the Division in order to assure that title is marketable and compatible with the purposes of the acquisition. The terms "Title Policy" and "Title Commitment" are included within this definition.

(17) through (28) renumbered (18) through (29) No change.

Specific Authority 253.03, 253.025, 259.041 FS. Law Implemented 253.025, 259.041 FS. History—New 6-16-86, Amended 4-6-89, 1-29-90, 10-30-91, \_\_\_\_\_.

18-1.006 Appraisal Procedures, Report Requirements and Determining Maximum Amounts.

(1) through (3) No change.

(4) In accordance with Section 253.025(6)(f), F.S., the appraisal report shall be accompanied by a sales history of the parcel for the prior five years. ~~This requirement shall be waived under the following conditions: If the sales history would not be useful, or the cost would be prohibitive compared to the value of the parcel, such as cases wherein 15 or more parcels are appraised in one appraisal report. This waiver provision does not impact or reduce the sales history requirements for appraisal services under the USPAP.~~

~~(a) The history shall be deemed not useful for projects consisting of a large number of relatively similar size properties under separate ownership for which a multiple ownership appraisal technique can be used.~~

~~(b) The cost will be considered to be prohibitive relative to the value of the parcel if the most recent assessed value for ad valorem tax purposes is \$50,000 or less, excluding greenbelt agricultural, aquifer recharge, or other special exemptions.~~

(5) through (9) No change.

18-1.007 ~~Designated Appraisal Organizations and~~ Appraiser Eligibility and Selection.

(1) Approved Appraiser List – Eligibility and Selection.

(a) The Chief Appraiser shall annually send an announcement to each approved appraisal organization and to the Florida Real Estate Appraisal Board (FREAB) for publication in their respective newsletters, inviting interested appraisers to apply for placement on the approved appraiser list.

1. An appraiser shall be considered eligible and will be placed on the list when he has complied with all the following criteria:

a. through b. No change.

c. The appraiser is a ~~state-certified~~ appraiser licensed to do business in Florida and certified by the FREAB.

- d. through e. No change.
- 2. through 3. No change.

RULE NO.:	RULE TITLE:
18-24.005	Full Review of Project Proposals

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 33, No. 22, June 1, 2007 issue of the Florida Administrative Weekly.

- 18-24.005 Full Review of Project Proposals.
- (1) through (4) No change.
- (5) Boundary Modifications. ~~By majority vote, the council will direct staff to prepare, revise, or update a project boundary for a project already on the approved list. Landowners who wish to have their property removed from an approved project boundary shall submit by certified mail a letter identifying such property to be removed to the following address: Florida Forever Program; Office of Environmental Services; Mail Station 140, State of Florida Department of Environmental Protection; 3900 Commonwealth Boulevard; Tallahassee, FL 32399-3000. All other proposals to amend the~~

boundary for a project already on the approved list will be considered by the council, at its next regularly scheduled meeting, if the following conditions are met:

(a) Removal of property from Florida Forever Project. Landowners who wish to have their property removed from an approved Florida Forever Project boundary shall submit by certified mail a letter stating they wish their property to be removed and sufficiently identifying such property to the address stated in subsection 18-24.003(1), F.A.C. The Council shall approve such removals at its next regularly scheduled meeting if they meet the foregoing requirements.

(a) Each proposed modifications to the project boundary must include an assessment of the proposed modification. The assessment for proposals to add property to an existing project boundary shall include the following:

1. A complete application that includes all items of information as required in subsection 18-24.003(3), and this section; and

2. If fee simple acquisition is proposed, a letter from the proposed managing agency indicating the agency's willingness to manage the property and describing the proposed addition's relative importance to management of the existing project or to the protection of its significant resources; or

3. If less-than-fee acquisition is proposed, a brief description of any known activities or property rights proposed to be acquired by the state and those proposed to be retained by the landowner.

(b) Addition of property to Florida Forever Project. All boundary additions shall comply with all the requirements of Rules 18-24.002, 18-24.003 and 18-24.004, F.A.C., except as stated herein.

1. Boundary addition proposals exceeding 1,000 acres or 10% of the original project acreage or \$2,000,000 in the most recent county property appraiser's assessed value shown on the owner's ad valorem tax bill shall be considered new Florida Forever Projects and shall not be entitled to the expedited procedures herein.

2. Each application to add property to an existing Project boundary that meets the criteria of subparagraph 18-24.005(5)(b)1., F.A.C., shall, within 30 days of receipt, be reviewed by staff to verify sufficiency of information in accordance with this paragraph. Staff shall expedite the application process to add property by updating the original project evaluation report with a project addition summary attached, unless staff determines that the original project evaluation report, or any part thereof, does not fairly apply to or represent the property in the addition, is in need of updating, or other circumstances necessitate preparation of a more thorough amended project evaluation report (such as a change in flora or fauna, a traumatic event, or a change in land use). Staff shall state in its project addition summary whether the foregoing requirements are met. Staff shall submit its project

addition summary or amended project report to the Council at its next regularly scheduled meeting after preparation of its report.

(b) The council shall consider a proposed boundary addition only if the applicant provides a complete application as required in paragraph (a), and only if one or more of the following criteria is met:

1. The county property appraiser's tax valuation for all parcels of the proposed addition total less than \$5 million;

2. The proposed addition meets the criteria for emergency acquisitions pursuant to Section 253.027 or subsection 259.041(15), F.S.;

3. The acreage of proposed addition is less than 10% of the size of the existing project boundary, including areas previously acquired, and is less than 1,000 acres;

4. The property was previously on an acquisition list developed under Chapter 259, F.S.;

5. The property was previously managed by a state agency; or

6. The council chair receives written requests to consider a proposed boundary modification from two or more council members.

(c) An affirmative vote of at least five council members shall be required to add property to or remove property from an existing project.

(e) Each application to add property to an existing Project boundary shall, within 30 days of receipt, be reviewed by staff to verify sufficiency of information in accordance with this subsection. Applicants who submit incomplete applications shall be notified of each deficiency, and shall have 30 days from the date of the deficiency letter within which to submit the missing information. If the missing information is not received by the deadline, the boundary amendment application will be denied and returned to the applicant.

(d) Proposals not meeting at least one of the criteria in paragraph (b) shall not be considered by the council as a boundary modification, but may be submitted by the applicant as a Florida Forever project proposal pursuant to Rule 18-24.003, F.A.C.

(e) For a proposed boundary modification that exceeds 5,000 acres in size, staff shall prepare an amended project evaluation report in accordance with the provisions of subsection 18-24.005(2), F.A.C., unless the council chair receives from four or more council members written requests to consider a proposed boundary modification without a site visit by staff.

(f) An affirmative vote of at least five council members shall be required to property to an existing project, while a majority vote of members present shall be required to remove property from an existing project.

(g) Parcels of land qualifying as de minimis lands, as defined in paragraph 18-24.001(2)(f), F.A.C., shall be exempt from the provisions of this section.

                                  NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 33, No. 16, April 20, 2007 issue of the Florida Administrative Weekly.

The change is in response to written comments submitted by the staff of the Joint Administrative Procedures Committee. This Notice of Change supersedes the previous Notice of Change which published on November 2, 2007, in Vol. 33, No. 44, of the Florida Administrative Weekly. The changes are as follows:

Subsection (3)(b) shall now read as follows:

(b) If the business organization has a financially responsible officer, the financially responsible officer, rather than the qualifying contractor, shall complete the following forms which are incorporated by reference:

1. DBPR CILB 4366, Financially Responsible Officer Application, 2007 November 1,
2. If applicable, DBPR 0050, Explanatory Information for Background Questions, 2007 November 1,
3. If applicable, DBPR 0060, General Explanatory Description, 2007 November 1,
4. DBPR CILB 4356, Bond Application, 2007 November 1,

The forms may be obtained via internet at [http://www.myfloridalicense.com/dbpr/pro/cilb/documents/fro\\_application\\_package.pdf](http://www.myfloridalicense.com/dbpr/pro/cilb/documents/fro_application_package.pdf), or by contacting the Customer Contact Center of the Department of Business and Professional Regulation at 1940 N. Monroe Street, Tallahassee, FL 32399-1039.

In addition, the financially responsible officer shall comply with the requirements of Rule 61G4-15.006, F.A.C., except that the financially responsible officer shall also demonstrate a personal or business organization net worth of at least \$10,000 regardless of the category of contractor's license held by any other qualifier for the business organization, \$10,000 cash and a bond in a form acceptable to the Board's Executive Director made payable to the Florida Homeowners' Construction Recovery Fund in the amount of \$100,000. For purposes of Section 489.105(14), F.S., a "person" means a human being who is at least eighteen (18) years of age.

### **WATER MANAGEMENT DISTRICTS**

NOTICE IS HEREBY GIVEN THAT on November 27, 2007, the Suwannee River Water Management District, received a petition for variance from Jerry & Janet Barnes, 24271 Highway 247, O'Brien, FL 32071, pursuant to Section 120.542, F.S. Petitioner is seeking a variance from paragraph 40B-4.3030(12)(b), F.A.C., to the 75-foot setback requirement. The previous property owner constructed a residential addition in Lafayette County, in Township 6 South, Range 14 East, Section 17, which encroaches in the 75-foot setback of the Suwannee River. These rules are intended to set forth criteria for development activities with a Work of the District. Comments on this petition should be filed with: Jon Dinges, District Clerk, SRWMD, 9225 CR 49, Live Oak, FL 32060, within 14 days of publication of this notice. The petition has been assigned ERP Number 07-0542.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Robin Lamm, Administrative Assistant, Suwannee River Water Management District, 9225 CR 49, Live Oak, FL 32060, (386)362-1001 or (800)226-1066 in Florida only.

NOTICE IS HEREBY GIVEN THAT on November 15, 2007, the South Florida Water Management District ("District") has issued an order.

The District Governing Board issued an Order Granting Waiver under Section 120.542, F.S. (SFWMD 2007-806-DAO-ROW), on November 15, 2007, to the Florida Department of Transportation. The petition for waiver was received by the SFWMD on August 28, 2007. Notice of receipt of the petition requesting the waiver was published in the F.A.W., Vol. 33, No. 39, on September 28, 2007. No public comment was received. This Order provides a waiver for the widening of US-1/SR5 over the C-103 Canal under Modification to Right of Way Occupancy Permit Number 2848; Section 33, Township 56 South, Range 39 East, Miami-Dade County. Specifically, the Order grants a waiver of subsections 40E-6.011(4) and (6), and paragraph 40E-6.221(2)(j), F.A.C., which governs the placement of permanent and semi-permanent encroachments within Works

or Lands of the District and governs the minimum low member elevation of pile-supported facilities within Works or Lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver, as follows: 1) the granting of this waiver will not significantly interfere with the District's current ability to perform necessary construction, alteration, operation and routine maintenance activities property interests and ability to construct, operate and maintain Works and Lands of the District activities; and 2) the Order granting a waiver from the subject rule would prevent the Petitioner from suffering a substantial hardship.

A copy of the Order may be obtained by contacting: Juli Triola, South Florida Water Management District, 3301 Gun Club Road, MSC 1410, West Palm Beach, FL 33406-4680, (561)682-6268 or by e-mail [jtriola@sfwmd.gov](mailto:jtriola@sfwmd.gov).

NOTICE IS HEREBY GIVEN THAT on November 15, 2007, the South Florida Water Management District ("District") has issued an order.

The District Governing Board issued an Order Granting Waiver under Section 120.542, F.S. (SFWMD 2007-807-DAO-ROW), on November 15, 2007, to the Florida Department of Transportation. The petition for waiver was received by the SFWMD on August 28, 2007. Notice of receipt of the petition requesting the waiver was published in the F.A.W., Vol. 33, No. 39, on September 28, 2007. No public comment was received. This Order provides a waiver for the widening of US-1/SR5 over the C-103N Canal under Modification to Right of Way Occupancy Permit Number 3103; Section 33, Township 56 South, Range 39 East, Miami-Dade County. Specifically, the Order grants a waiver of subsections 40E-6.011(4) and (6), and paragraph 40E-6.221(2)(j), F.A.C., which governs the placement of permanent and semi-permanent encroachments within Works or Lands of the District and governs the minimum low member elevation of pile-supported facilities within Works or Lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver, as follows: 1) the granting of this waiver will not significantly interfere with the District's current ability to perform necessary construction, alteration, operation and routine maintenance activities property interests and ability to construct, operate and maintain Works and Lands of the District activities; and 2) the Order granting a waiver from the subject rule would prevent the Petitioner from suffering a substantial hardship.

NOTICE IS HEREBY GIVEN THAT on November 15, 2007, the South Florida Water Management District ("District") has issued an order.

The District Governing Board issued an Order Granting Waiver under Section 120.542, F.S. (SFWMD 2007-808-DAO-ROW), on November 15, 2007, to the Collier County Parks and Recreation Department. The petition for waiver was received by the SFWMD on August 15, 2007. Notice of receipt of the petition requesting the waiver was published in the F.A.W., Vol. 33, No. 35, on August 31, 2007. No public comment was received. This Order provides a waiver for the proposed installation of a concrete sidewalk with aluminum pedestrian railing along the south side of the Spanish Oaks Lane bridge crossing the I-75 Canal and within the southwest bridge quadrant at its intersection with Tarpon Bay Boulevard in Collier County under Right of Way Occupancy Permit Number 13189; Section 29, Township 48 South, Range 26 East, Collier County. Specifically, the Order grants a waiver of subsections 40E-6.011(4) and (6), and Rule 40E-6.221, F.A.C., which governs the placement of above-ground permanent and semi-permanent encroachments within Works or Lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver, as follows: 1) the granting of this waiver will not significantly interfere with the District's current ability to perform necessary construction, alteration, operation and routine maintenance activities property interests and ability to construct, operate and maintain Works and Lands of the District activities; and 2) the Order granting a waiver from the subject rule would prevent the Petitioner from suffering a substantial hardship.

NOTICE IS HEREBY GIVEN THAT on November 8, 2007, the Board of Dentistry, received a petition for a waiver or variance of subsection 64B5-2.0146(2), F.A.C., with respect to the following licensure requirement: that each applicant for a Florida dental license successfully completes supplemental remedial education to the level of a graduating senior, filed by Edwin A. Bayo on behalf of Oscar Arevalo.

A copy of the Petition for Variance or Waiver may be obtained by contacting Sue Foster, Executive Director at (850)245-4474.

NOTICE IS HEREBY GIVEN THAT on November 8, 2007, the Board of Dentistry, received a petition for seeking a waiver or variance of subsection 64B5-2.0146(2), F.A.C., with respect to the following licensure requirement: that each applicant for a Florida dental license successfully completes supplemental remedial education to the level of a graduating senior, by Edwin A. Bayo on behalf of Jennifer Sorroza.

A copy of the Petition for Variance or Waiver may be obtained by contacting Sue Foster, Executive Director at (850)245-4474.

NOTICE IS HEREBY GIVEN THAT on November 6, 2007, the Department of Health, received a petition for variance or waiver from sub-sub-subparagraph 64F-12.015(6)(d), (1), (b) (iii), F.A.C. The petitioner is Organon API, Inc., 2136 South Wolf Road, Des Plaines, IL 60018, Contact Person: Fred Figa, Senior Legal Counsel, Organon USA, Inc., (973)325-4503, Fax: (973)325-4705.

Organon API Inc. requests a variance from sub-sub-subparagraph 64F-12.015(6)(d), (1), (b)(iii), F.A.C. That section provides that a company may be licensed by the state as a non-resident manufacturer of prescription drugs if it is "a private label distributor and the private label distributor's prescription drugs are originally manufactured and labeled for the distributor and have not been repackaged." It is Organon API Inc.'s understanding that the Board of Pharmacy has interpreted this provision as requiring that the private label distributor's name appear on the product labels. Organon API Inc.'s name does not appear on the labels of the products manufactured for it and, therefore, Organon API Inc. requests a variance from this code requirement.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Rebecca R. Poston, R.Ph., Executive Director, Board of Pharmacy and Drugs, Devices, and Cosmetics Program, 4052 Bald Cypress Way, Bin C-04, Tallahassee, FL 32399-3254, telephone: (850)245-4292.

### DEPARTMENT OF EDUCATION

NOTICE IS HEREBY GIVEN THAT the Department of Education has issued an order disposing of the petition for declaratory statement filed by Mark Cavinee on August 22, 2007. The following is a summary of the agency's disposition of the petition:

The petitioner had requested a declaratory statement on whether Section 1013.33(15)(a), F.S. conflicts with the Florida Fire Prevention Code, paragraph 69A-58.0082(1)(a), F.A.C., with respect to local government approval for the placement of portable classroom facilities and whether Section 1013.371(1)(a), F.S., requires a school board to follow local land development code. The Petition for Declaratory Statement is denied because the Florida Department of Education does not have jurisdiction to implement or to interpret the statutes and rules in question and because the declaratory process does not allow for the consideration of agency action after the fact.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Lynn Abbott, Agency Clerk, Department of Education, 325 West Gaines Street, Room 1514, Tallahassee, Florida 32399-0400, (850)245-9661.

**DEPARTMENT OF FINANCIAL SERVICES**

NOTICE IS HEREBY GIVEN THAT the Department of Financial Services, Division of State Fire Marshal has issued an order disposing of the petition for declaratory statement filed by Mark Cavinee, Petitioner, Case #91292-07-FM, and Schenkelshultz, Joseph S. Toth, AIA, Case #91373-07-FM on November 14, 2007. The following is a summary of the agency's disposition of the petition:

Both Petitions address the same location and the same question and are consolidated for the purpose of entering a single Declaratory Statement.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Lesley Mendelson, Assistant General Counsel, 200 East Gaines Street, Tallahassee, FL 32399-0340, or by e-mailing your request to [Lesley.Mendelson@fldfs.com](mailto:Lesley.Mendelson@fldfs.com).

NOTICE IS HEREBY GIVEN THAT the Department of Financial Services, Division of State Fire Marshal, has issued an order disposing of the petition for declaratory statement filed by ColorAll Technologies International, Inc., Case #91600-07-FM on November 20, 2007. The following is a summary of the agency's disposition of the petition:

The Declaratory Statement concludes that NFPA 1.43.1.2.1. does not apply to outdoor spray painting operations.

A copy of the Final Order may be obtained by contacting: Lesley Mendelson, Assistant General Counsel, 200 East Gaines Street, Tallahassee, FL 32399-0340, or by e-mailing your request to [Lesley.Mendelson@fldfs.com](mailto:Lesley.Mendelson@fldfs.com).

NOTICE IS HEREBY GIVEN THAT the Department of Financial Services, Division of State Fire Marshal, has issued an order disposing of the petition for declaratory statement filed by Department of Financial Services, Division of State Fire Marshal, on November 20, 2007. The following is a summary of the agency's disposition of the petition:

The Petition requested a Declaratory Statement regarding the Florida Fire Prevention Code, Florida Administrative Codes, Florida Statutes, and the School Board involving Horizon Middle School in Kissimmee, Florida, over which the Petitioner is the Authority Having Jurisdiction. The Declaratory Statement concludes that local amendments to Rule Chapter 69A-58, Florida Administrative Code, are not allowed pursuant to Sections 633.022 and 1013.12, Florida Statutes. If the effect of the Land Development Code ordinance is to amend the rule, then it is invalid. The Department's rule

does require consideration of placement of fire hydrant assemblies and does not conflict with Section 1013.33, Florida Statutes.

**NOTICE TO CONSTRUCTION MANAGERS**

Florida Atlantic University, on behalf of its Board of Trustees, announces that Construction Management services will be required for the project listed below:

Project No.: BT#651 Innovation Village Apartments Phase I located at Florida Atlantic University's Boca Raton Campus. The project consists of site development and construction of apartment style units for 600 students with each unit providing a private single bedroom for each student, arranged in a four bedroom suite with a living room, dining area and kitchen, and at least two separate bathrooms. In addition, several RA suites shall be incorporated into the complex. The entire project shall be entirely handicap accessible.

The estimated construction cost is \$42,300,000.00.

The contract for Construction Management services will consist of two phases. Phase one is pre-construction services, for which the Construction Manager will be paid a fixed fee. Phase one services include value engineering, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) at 100% Construction Document phase. If the GMP is accepted, Phase two, the construction phase, will be implemented. In phase two of the contract, the Construction Manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for phase one of the contract, or to arrive at an acceptable GMP within the time provided in the agreement, may result in the termination of the Construction Manager's contract.

Selection of finalists for interviews will be made on the basis of Construction Manager qualifications, including experience and ability; past experience; bonding capacity; record-keeping, administrative ability, critical path scheduling expertise; cost estimating; cost control ability; quality control capability;

qualification of the firm's personnel, and staff and consultants. Finalists may request a copy of the building program and the latest documentation prepared by the project Architect/Engineer, and a copy of the standard Florida Atlantic University Construction Management Agreement. The Selection Committee may reject all proposals and stop the selection process at any time. The Construction Manager shall have no ownership, entrepreneurial or financial affiliation with the selected architect/engineer involved with this project.

Firms desiring to provide Construction Management services for the project shall submit a letter of application and a completed "Florida Atlantic University Construction Manager Qualification Supplement" (FAUCMPQS Revised January 2004). Proposals must not exceed 40 pages, including the Construction Manager Qualifications Supplement and letter of application. Pages must be numbered consecutively. Submittals that do not comply with these requirements or do not include the requested data will not be considered. No submittal material will be returned.

All applicants must be licensed to practice as general contractors in the State of Florida at the time of application. Corporations must be registered to operate in the State of Florida by the Department of State, Division of Corporations, at the time of application. As required by Section 287.133, Florida Statutes, a Construction Management firm may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected Construction Management firm must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

The FAUCMQS form and the Project Fact Sheet may be obtained on our website at:<http://uavp.fau.edu>, or by contacting: Carla Capeletti, Office of the University Architect & Vice President for Facilities, Florida Atlantic University, 777 Glades Road, Campus Operations Bldg. #69, Room 101, Boca Raton, Florida 33431, Telephone (561)297-2663, Fax (561)297-0224.

Five (5) bound sets of the required proposal data shall be submitted and addressed to: Mr. Tom Donaudy, University Architect & Vice President for Facilities, at the above address by 5:00 p.m. on January 25, 2008. Facsimile (FAX) submittals are not acceptable and will not be considered.

Notice of Bid/Request for Proposal

The University of Central Florida on behalf of its Board of Trustees announces that Professional Services in the discipline of design/build will be required for the project listed below:

Project and Location: University of Central Florida, Main Campus, Orlando, Florida 32816-3020.

The project consists of the design and construction of minor projects for the university.

Minor projects are defined as projects with a value of up to \$1,000,000.00.

FORM OF PROPOSALS

It is the University’s intention to have professionals in the disciplines of design/build for this project.

The selected design/build firm will provide design, construction documents, and administration for the referenced project. Blanket professional liability insurance for the design/build firm will be required for this project in the amount of \$250,000 and will be provided as a part of Basic Services.

Five (5) bound copies of the required proposal data shall be submitted to: Ms. Gina Seabrook, Facilities Planning, 4000 Central Florida Blvd., Post Office Box 163020, Orlando, FL 32816-3020. Submittals must be received by 5:00 p.m. (Local Time), on Thursday, January 8, 2008. Facsimile (FAX) submittals are not acceptable and will not be considered. Late submissions will not be accepted.

The committee members have elected not to meet with proposed firms.

INSTRUCTIONS FOR DESIGN/BUILDERS

Design/Build firms desiring to apply for consideration must include a letter of application and should have attached:

1. The most recent version of the Florida Board of Education “Professional Qualifications Supplement” (PQS) dated 7/03, completed by the applicant. Do not alter the PQS form.
2. A copy of the firms current Professional Registration Certificates from the appropriate governing board. An applicant must be properly registered at the time of application to practice its profession in the State of Florida. If the applicant is a corporation, it must be chartered by the Florida Department of State to operate in Florida.
3. The most recent version of the Florida Board of Education “Revised Construction Manager Qualifications Supplement” (CMQS) dated 02/02. Do not alter the CMQS form.

Applications that do not comply with all instructions may be disqualified. Application materials will not be returned.

Selection of finalists for interviews will be made on the basis of design/build firm’s qualifications separately, including experience and ability; past experience; bonding capacity; cost estimating; qualification of the firm’s personnel, staff and consultants; and ability to include minority business enterprise participation. Finalists will be provided with a description of the final interview topics. The Selection Committee may reject all proposals and stop the selection process at any time.

The plans and specifications for Florida Board of Education projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes. As required by Section 287.133, Florida Statutes, a consultant may not submit a

proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected consultant must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of placement on the convicted vendor list.

Carefully review the Design/Build Contract and General Condition's documents. Submitting a proposal for this project constitutes complete agreement with and acceptance of the terms and conditions contained within these documents. These documents can be found on our website at [www.fp.ucf.edu](http://www.fp.ucf.edu) with the advertisement.

NOTICE TO PROFESSIONAL CONSULTANTS FOR  
PROFESSIONAL ARCHITECTURAL/ENGINEERING  
SERVICES

The State of Florida, Department of Corrections, Bureau of Procurement and Supply, announces that Professional Services are required from Architectural/Engineering firms for the project listed below. Applications from qualified firms are to be sent to the attention of Julyn Hussey, Bureau of Procurement and Supply, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500, (850)410-4049. The selected firm may be required to perform its services on an accelerated schedule.

INSTRUCTIONS

Any firm desiring to provide professional services for this project shall apply for consideration with a letter of application, indicating within the body of the letter, your firm's specific abilities respective to the particular project's requirements, office location(s) from which the firm will be doing the work and attach current copies of the following:

1. A copy of the Department of Corrections' current "Professional Qualifications Supplement" (PQS) (dated September 2004) with current data. The PQS is posted as a related document for printing on the Vendor Bid System under this solicitation at the following website address: [http://vbs.dms.state.fl.us/vbs/search.criteria\\_form](http://vbs.dms.state.fl.us/vbs/search.criteria_form).

2. A reproduction of the firm’s current Florida State Board License with the appropriate board governing the discipline offered. If the firm is a corporation, it must be properly chartered with the Department of State to operate in Florida. Include a copy of the charter and current certification that all fees and filings are current.
3. Attach a current copy of the SF330 for the office(s) that will be performing the work. This form may be found at the following website address: <http://www.gsa.gov>.
4. Evidence of professional liability insurance in the amount of at least \$1,000,000.
5. Describe scope of work to be assigned to any sub-consultant and include a SF330 for each sub-consultant.
6. Names, specific qualifications and professional memberships of person(s) to be assigned to this project and their respective roles (do not include resumes).
7. Names, addresses and phone numbers of at least five (5) other agencies for whom similar services have been performed within the last five (5) years and the date, project name, brief project description, firm’s project manager and specific services provided in each case.
8. If desired by the firm, additional examples of similar projects completed by persons to be assigned to this project, references (none from current or former Department of Corrections personnel) and any other supporting information.

Submit one original letter of interest and five (5) copies of the required data. The required data shall be submitted in the order listed above. Faxed copies will not be accepted. Applications that do not comply with the instructions set forth above may be considered improper and be disqualified. The plans and specifications developed by the firm awarded this project are subject to reuse in accordance with the requirements of Section 287.055, Florida Statutes, (“Consultants’ Competitive Negotiation Act”).

The awarded firm shall not knowingly engage in this project, on a full time, part time or other basis during the period of this Contract, any current or former employee of the Department where such employment conflicts with Section 112.3185, Florida Statutes.

Respondents will be ranked by a Competitive Selection Committee based on the information received in response to this Request For Qualifications (RFQ). Interviews of all ranked respondents may or may not be required, at the direction of the Committee. If interviews are required they will be held during the week beginning February 11, 2008, ending February 15, 2008. Under the authority delegated to the Secretary of the Department of Corrections by Section 287.055, F.S., sitting as the head of the Department of Corrections, Professional Services Contracts will be awarded to one firm following the recommendations of the Competitive Selection Committee and in accord with the statutory negotiation procedures. ### EMERGENCY MANAGEMENT PREPAREDNESS AND ASSISTANCE – COMPETITIVE GRANT PROGRAM

The Division of Emergency Management gives notice of its intent to open the Fiscal Year 2008-2009 application cycle for competitive awards from the Emergency Management, Preparedness, and Assistance (EMPA) Trust Fund. The application cycle officially opens December 7, 2007 with an application submission deadline of February 7, 2008. Contingent on a Legislative appropriation, funds provided under the Fiscal Year 2008-2009 cycle will be available to award recipients no earlier than July 1, 2008.

Due to the uncertainty of the Fiscal Year 2008-2009 Legislative Appropriations, the amount of funds available for this program cannot be determined at this time. As soon as the appropriation is approved, notification of these funds will be posted on our website at [www.floridadisaster.org/cps/grants.htm](http://www.floridadisaster.org/cps/grants.htm).

The Division encourages all interested and eligible parties with projects that will enhance emergency management capabilities within the State of Florida to apply for funds during this open period.

As provided for in Rule Chapter 9G-19, F.A.C., two programs offering competitive awards encompassing four separate categories are available as follows:

#### PROGRAMS:

- 1) EMERGENCY MANAGEMENT COMPETITIVE GRANT PROGRAM – (General) Provides competitive grants to state or regional agencies, local governments,

and private non-profit organizations to implement projects that will further state and local emergency management objectives. Eligible applicants may submit multiple applications; however, no single application shall seek or receive an award in excess of \$200,000. All eligible applicants, with the exception of counties shall be limited to no more than three (3) application submissions in an application cycle.

- 2) MUNICIPAL COMPETITIVE GRANT PROGRAM – Provides competitive grants to municipalities that are legally constituted, have an authorized, established, and maintained emergency management program; have a signed current Statewide Mutual Aid Agreement (SMAA) and have supplied all required information and documentation such that the SMAA is ready to be signed by the Division of Emergency Management by the date of the application deadline. Each Municipal Emergency Management Program may apply for one competitive grant under this program, not to exceed \$50,000 in requested grant funds.

APPLICATION CATEGORIES:

Applications are accepted in the following four categories under both programs:

- 1) Projects that will promote public education on disaster preparedness and recovery issues.
- 2) Projects that will enhance coordination of relief efforts of statewide private sector organizations, including public-private business partnership efforts.
- 3) Projects that will improve the training and operations capabilities of agencies assigned lead or support responsibilities in the Florida Comprehensive Emergency Management Plan.
- 4) Other projects that will further state and local emergency management objectives designated as priorities in the applicable Notice of Funding Availability. NOTE: PRIORITY POINTS ARE AVAILABLE FOR APPLICATIONS SUBMITTED UNDER THIS CATEGORY ONLY.

Priority Area:

Projects that will promote solutions for removing barriers to emergency preparedness. These may include, but are not limited to, projects which address community preparedness, such as Community Emergency Response Teams (CERTs) and county/local Emergency Operations Centers/Emergency Management Incident Management Teams (IMTs); public information and education building on the theme of “Get a Plan”; special needs populations to

include the low income, the frail, elderly and the disabled and language barriers, the care and sheltering of people with their pets, and/or transportation issues.

Applications addressing the above priority must be submitted under Project Category #4, – “Other projects that will further state and local emergency management objectives which have been designated by the State of Florida as priorities in the applicable Notice of Funding Availability.”

All critical facility projects, at a minimum, whether mitigation, retrofit, renovations or new construction, must conform to the hurricane vulnerability guidelines established in the American Red Cross’ publication “Standards for Hurricane Evacuation Shelter Selection” (ARC 4496, January 2002). To assist in the determination of a facility’s compliance with these guidelines, an ARC 4496 Evaluation Questionnaire will be made available. If these standards cannot be met until the project is complete, the evaluation will need to reflect what measures will be used to reach a compliance status. THE EVALUATION QUESTIONNAIRE MUST BE COMPLETED AND SUBMITTED WITH THE APPLICATION. Critical facilities include, but are not limited to, hurricane shelters, Emergency Operations Centers, structures for fire stations, rescue operations or law enforcement facilities, hospitals and public works facilities, etc. Other more stringent codes and standards may apply to new construction or substantial renovation/retrofit projects.

Applicants who are eligible under Rural Economic Development Initiatives (REDI)-Rural Area of Critical Economic Concern may be entitled for a waiver or reduction of financial match requirements. Applicants will need to provide the most current memorandum from the Executive Office of The Governor, Office of Tourism Trade and Economic Development that confirms their eligibility when submitting their application. This waiver will be considered by the Review Committee when determining match score.

In conjunction with this offering, in lieu of workshops, a tutorial PowerPoint presentation will be on our website, [www.floridadisaster.org/cps/grants.htm](http://www.floridadisaster.org/cps/grants.htm). This tutorial will provide more detailed information about the State’s priority issues, a review of the application format, a review of the Rule Chapter 9G-19, F.A.C., and other important information relevant to the programs.

TO DOWNLOAD THE RULE, APPLICATION PACKET AND ARC 4496 EVALUATION QUESTIONNAIRE, PLEASE VISIT OUR WEBSITE AT [www.floridadisaster.org/cps/grants.htm](http://www.floridadisaster.org/cps/grants.htm).

EMERGENCY MANAGEMENT PREFORMANCE GRANT SUPPLEMENTAL AWARD – COMPETITIVE GRANT

The Division of Emergency Management gives notice of its intent to open an application cycle for competitive awards with funds from the Emergency Management Performance Grant (EMPG) Supplemental award. The application cycle officially opens December 7, 2007 with an application submission deadline of February 7, 2008. Funds provided will be available to award recipients no earlier than July 1, 2008.

These competitive funds will be provided to municipalities with a population of 100,000 or less, are legally constituted, have an authorized, established, and maintained emergency management program, as well as a signed current Statewide Mutual Aid Agreement (SMAA). Each Municipal Emergency Management Program may apply for one competitive grant under this program, not to exceed \$50,000. The Division encourages all interested and eligible parties with projects that will enhance emergency management capabilities within the State of Florida to apply for funds during this open period.

Projects that will promote solutions for removing barriers to emergency preparedness will receive additional points. These priorities include, but are not limited to, projects which address community preparedness, such as Community Emergency Response Teams (CERTs) and local Emergency Operations Centers/Emergency Management Incident Management Teams (IMTs); public information and education building on the theme of "Get a Plan"; special needs populations to include low income, the frail, the elderly, the disabled and language barriers; the care and sheltering of people with their pets; and/or transportation issues.

All critical facility projects, at a minimum, whether mitigation, retrofit, renovations or new construction, must conform to the hurricane vulnerability guidelines established in the American Red Cross' publication "Standards for Hurricane Evacuation Shelter Selection" (ARC 4496, January 2002). To assist in the determination of a facility's compliance with these guidelines, an ARC 4496 Evaluation Questionnaire will be made available. If these standards cannot be met until the project is complete, the evaluation will need to reflect what measures will be used to reach a compliance status. THE EVALUATION QUESTIONNAIRE MUST BE COMPLETED AND SUBMITTED WITH THE APPLICATION. Critical facilities include, but are not limited to, hurricane shelters, Emergency Operations Centers, structures for fire stations, rescue operations of law enforcement facilities, hospitals and public works facilities, etc. Other more stringent codes and standards may apply to new construction or substantial renovation/retrofit projects.

DCA Order No. DCA07-OR-273

STATE OF FLORIDA

DEPARTMENT OF COMMUNITY AFFAIRS

In re: A LAND DEVELOPMENT REGULATION ADOPTED

BY ISLAMORADA, VILLAGE OF ISLANDS ORDINANCE NO. 07-23

FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

- 1. The Florida Keys Area is a statutorily designated area of critical state concern, and Islamorada, Village of Islands is a local government within the Florida Keys Area.
2. On October 1, 2007, the Department received for review Islamorada, Village of Islands Ordinance No. 07-23 ("Ord. No. 07-23") adopted by the Village on September 27, 2007.
3. The purpose of the Ordinance is to amend Chapter 30 Land Development Regulations, Article 4 Administrative Procedures, by creating Division 16 Affordable Housing to implement the findings of the Village's Workforce Housing Study by providing affordable housing standards. The purpose of the proposed standards is to provide an affordable supply of housing for 30% of the generated local workforce and their families.

CONCLUSIONS OF LAW

- 4. The Department is required to approve or reject land development regulations or portions thereof that are enacted, amended, or rescinded by any local government in the Florida Keys Area of Critical State Concern. §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006).
5. Islamorada, Village of Islands is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2006), and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.

6. "Land development regulations" include local zoning, subdivision, building, and other regulations controlling the development of land. § 380.031(8), Fla. Stat. (2006). The regulations adopted by Ord. 07-23 are land development regulations.
7. All land development regulations enacted, amended or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in § 380.0552(7), Fla. Stat. (2006). See *Rathkamp v. Department of Community Affairs*, 21 F.A.L.R. 1902 (Dec. 4, 1998), *aff'd*, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
8. Ord. 07-23 promotes and furthers the following Principles:
  - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
  - (j) To make available affordable housing for all sectors of the population of the Florida Keys.
9. Ord. 07-23 is not inconsistent with the remaining Principles. Ord. 07-23 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 07-23 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.

This Order becomes effective 21 days after publication in the Florida Administrative Weekly unless a petition is filed as described below.

DONE AND ORDERED in Tallahassee, Florida.

NOTICE OF ADMINISTRATIVE RIGHTS

ANY PERSON WHOSE SUBSTANTIAL INTERESTS ARE AFFECTED BY THIS ORDER HAS THE OPPORTUNITY FOR AN ADMINISTRATIVE PROCEEDING PURSUANT TO SECTION 120.569, FLORIDA STATUTES, REGARDING THE AGENCY'S ACTION.
