

(2)(a) The training required pursuant to subparagraph 1., above shall include, at a minimum, a one-time training course by June 30, 2009. This initial one-time training course shall be no less than eight hours. The training shall include, but not be limited to the following topics:

1. State and federal regulations and requirements and the relationship between qualified state long-term care insurance Partnership programs and other public and private coverage of long-term care services, including Medicaid;

2. Available long-term services and providers;

3. Changes or improvements in long-term care services or providers;

4. Alternatives to the purchase of private long-term care insurance;

5. The effect of inflation on benefits and the importance of inflation protection; and

6. Consumer suitability standards and guidelines.

(b) Insurers providing Long Term Care insurance shall ensure that all producers also complete two hours of Florida-specific Long Term Care Partnership Program training. The two hours of Florida-specific training can be part of the eight-hour course in paragraph (2)(a) above. Producers who have previously satisfied the eight-hour training can meet Florida requirements by taking an additional two-hour course of Florida-specific content by June 30, 2009.

(3) Upon completion of the training required by subsection (2) above, the insurers providing Long-Term Care insurance shall ensure that producers complete ongoing long-term care insurance training of no less than four hours every 24 months.

(4) Satisfaction of the training requirements in any state shall be deemed to satisfy the training requirements under paragraph (2)(a) in this state subject to verification and compliance with the training requirements, except for the initial 2 hours of Florida specific Long Term Care Partnership training.

Specific Authority 624.308(1), 626.9611, 627.9407, 627.94075, 627.9408 FS. Law Implemented 624.307(1), 626.025, 626.2815, 626.9544, 626.9641 FS. History—New 8-1-07, Amended.

Section II Proposed Rules

DEPARTMENT OF EDUCATION

State Board of Education

RULE NO.:

RULE TITLE:

6A-1.04511

Full-time Equivalent Student

Membership in Basic Programs

Beyond the One Hundred Eighty

(180) Day School Year

PURPOSE AND EFFECT: This rule is to be repealed as criteria for FEPF funding of Basic Program Courses beyond the 180 day school year is now determined by Florida Statutes. The effect is the elimination of a rule from the Florida Administrative Code which is no longer current.

SUMMARY: This rule is to be repealed.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1011.62(1)(f)3. FS.

LAW IMPLEMENTED: 1011.62 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 21, 2008, 8:30 a.m.

PLACE: Tampa Airport Marriott, Tampa, Florida

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Linda Champion, Deputy Commissioner for Finance and Operations, Department of Education, 325 West Gaines Street, Room 1214, Tallahassee, Florida 32399-0400; (850)245-0506

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-1.04511 Full-time Equivalent Student Membership in Basic Programs Beyond the One Hundred Eighty (180) Day School Year.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-1.09981 Implementation of Florida’s System of School Improvement and Accountability.

(1) through (10) No change.

(11) Assistance and Intervention for Schools Designated School Performance Grade F or School Performance Grade D. Assistance and intervention plans shall be provided for each school designated School Performance Grade F and School Performance Grade D.

(a) Assistance for Schools Designated School Performance Grade F or School Performance Grade D. Each school designated School Performance Grade F or School Performance Grade D shall develop its school improvement plan in collaboration with the school advisory council, school board and the Department. The school improvement plan shall take into account the unique demographic characteristics of the school. The school board shall have final approval of the plan. Each school designated School Performance Grade F or School Performance Grade D shall receive specific assistance and interventions, including additional resources if needed, from the district school board as provided in Section 1001.42(16)(c), Florida Statutes. The district’s two-year plan of increasing individualized assistance and intervention for each school designated School Performance Grade F or School Performance Grade D shall be approved by the school board. The forms, requirements and deadlines for submission of the school improvement plans and two-year district assistance and intervention plans are located on the Department’s Bureau of School Improvement website at <http://www.flbsi.org/>, which is hereby incorporated by reference in this rule to become effective with the date of this rule. Assistance shall be provided

to each designated school in the district at increasingly intensive levels as long as the school continues to be so designated. For the purpose of documenting compliance with Section 1001.42(16)(c), Florida Statutes, school boards shall provide to the Department annually a copy of the approved assistance and intervention plan for each school designated School Performance Grade F in the district.

(b) through (15) No change.

RULE NO.: 6A-3.0171
RULE TITLE: Responsibilities of School Districts for Student Transportation

PURPOSE AND EFFECT: The purpose of this rule amendment is to implement required and requested changes to the Florida School Bus Safety Inspection manual to ensure the safest, most efficient buses for the transportation of Florida's public school students. The intended effect is to ensure that a high level of safety and efficiency is provided by Florida's public school bus fleets. The rule meets current public expectations and benchmarks set by student transportation providers for the safety of students.

SUMMARY: The revisions update the content of the Florida School Bus Safety Inspection Manual that is adopted by reference in the rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1006.22 FS.

LAW IMPLEMENTED: 1006.22 FS.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-3.0171 Responsibilities of School Districts for Student Transportation.

Each school district shall exercise specific powers and responsibilities, as follows:

(1) through (8)(a) No change.

(b) The inspection shall be conducted in accordance with procedures and include all items listed in the State of Florida School Bus Safety Inspection Manual, 2008~~3~~ Edition which is hereby incorporated by reference and made a part of this rule. This document may be obtained from the Bureau of Career Development, Department of Education, 325 West Gaines Street, Tallahassee, Florida 32399, at a cost not to exceed actual production and distribution cost.

(c) No change.

(d) School bus inspections shall be conducted by technicians certified as school bus inspectors in accordance with the State of Florida School Bus Safety Inspection Manual, 2008~~3~~ Edition. The requirement that inspections be performed by a certified school bus inspector may be waived for a period not to exceed six (6) months when an emergency condition exists, upon written notification to the Commissioner by the district superintendent.

(e) through (10) No change.

RULE NO.: 6A-4.004
RULE TITLE: Florida Educator’s Certificates with Academic, Administrative, Degreed Vocational, and Specialty Class Coverages

PURPOSE AND EFFECT: The purpose of this amendment is to correct citation references to statutes necessitated by the passing of Senate Bill 1908. Additional citations are added to clarify the requirements for the Professional Certificate and to correctly cite reference to Rule 6A-4.0282, F.A.C., the Athletic Coaching Certificate. The effect will be a rule that is consistent with Florida Statutes and Florida Administrative Code.

SUMMARY: The proposed amendment will correct citation references and clarify requirements for the Professional Certificate.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1001.02, 1012.55, 1012.56 FS.

LAW IMPLEMENTED: 1001.02, 1012.54, 1012.55, 1012.56 FS.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-4.004 Florida Educator’s Certificates with Academic, Administrative, Degreed Vocational, and Specialty Class Coverages.

A Florida educator’s certificate is issued to an applicant with academic, administrative, degreed vocational, and specialty class coverages as specified below.

(1) Temporary certificate.

(a) The three-year nonrenewable temporary certificate may be issued to an applicant who does not qualify for the professional certificate but meets the following requirements:

1. Holds a valid Official Statement of Status of Eligibility as specified in Section 1012.56(1), ~~231.17(1)(b)~~, Florida Statutes, which reflects that the applicant has satisfied specialization requirements for the subject requested,

2. through (b) No change.

(2) Professional certificate. The professional certificate is the highest type of full-time certificate issued. The professional certificate is issued to an applicant who meets the requirements as specified in Sections 1012.56(1), ~~and (2), (3), (5), and (6)~~, Florida Statutes. However, if a subject area test has not been developed and the absence of such test prohibits an individual from obtaining a professional certificate or adding a subject to a professional certificate, the employing Florida district superintendent or chief administrative officer of a state supported or nonpublic school may verify the attainment of the essential subject matter competencies.

(3)(a) No change.

1. through 2. No change.

3. Demonstrates mastery of professional preparation and education competence by one of the options specified in Section 1012.56(~~6~~)(~~5~~), Florida Statutes, and

4. through (b)1. No change.

2. Satisfies specialization requirements as specified in subsections (2) and (3) of Rule 6A-4.0282, F.A.C., and

3. Submits fingerprint reports as specified in subparagraph (1)(a)3., of this rule.

(5) Addition of subjects to a professional certificate. A subject may be added to a valid professional certificate when an applicant meets the following requirements:

(a) Completes application requirements as specified in Rule 6A-4.0012, F.A.C., and

(b) Demonstrates mastery of the subject matter as specified in Section 1012.56(~~5~~)(~~4~~), Florida Statutes, for each subject to be added to a professional certificate.

(6) through (7) No change.

State Board of Education

RULE NO.: 6A-4.0083 RULE TITLE: School Principal – Administrative Class

PURPOSE AND EFFECT: The purpose of the proposed amendment is to allow educators at Florida charter schools to participate in the district school principal development program. Currently, only educators who are employees of the district school board may participate.

SUMMARY: The current language in the rule inadvertently eliminates educators in Florida’s public charter schools from participating in the district school principal development program. The amendment will allow charter school employees to participate in the district development program.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1001.02, 1012.55, 1012.56 FS.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-4.0083 School Principal – Administrative Class.

To be eligible to receive certification as a school principal, an individual shall satisfy each of the following requirements:

(1) Hold a valid professional certificate covering educational leadership, administration, or administration and supervision.

(2) Document successful performance of the duties of the school principalship. These duties shall be performed in a Department of Education approved district school principal certification program pursuant to Rule 6A-5.081, F.A.C., designed and implemented consistent with the principal leadership standards approved by the State Board of Education. In addition, these duties shall:

(a) Be performed as a full-time employee in a Florida public school ~~of a district school board~~ in a leadership position through which the candidate can fully demonstrate the competencies associated with the Florida Principal Leadership Standards.

(b) Be a formally planned professional development program designed and implemented to prepare the individual to effectively perform as a school principal.

(c) Be comprehensive of all the duties of the school principalship.

(d) Be performed under the direct supervision of a currently practicing school principal or district manager who has been approved by the district school board to serve as the supervising principal or manager for this program.

(3) Demonstrate successful performance of the competencies of the school principalship standards which shall be documented by the Florida district school superintendent based on a performance appraisal system approved by the district school board and the Department pursuant to Rule 6A-5.081, F.A.C.

(4) An individual who holds a valid Florida Educator’s Certificate covering administration or administration and supervision issued prior to July 1, 1986 and served as a school principal prior to July 1, 1986 for not less than one (1) school year may apply for certification as a school principal under the provisions of Rule 6A-4.0085, F.A.C.

PLACE: Tampa Airport Marriott, Tampa, Florida

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Bambi Lockman, Chief, Bureau of Exceptional Education and Student Services, 325 West Gaines Street, Room 614, Tallahassee, Florida 32399-0400, (850)245-0475

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-6.024 School Entry Health Examination.

This rule implements the school entry health examination required by Section 1003.22, Florida Statutes.

(1) Any health professional who is licensed in Florida or in the state where the student resided at the time of the health examination and who is authorized to perform a general health examination under such licensure shall be acceptable to certify that health examinations have been completed.

(2) Certification that a health examination has been completed may be documented on the State of Florida, Department of Health ~~and Rehabilitative Services, HRS-DH Form 3040, "School Entry Health Student Physical Examination,"~~ which is incorporated by reference in this rule, or a signed statement by authorized professionals that indicates the results of the components included in the health examination. ~~HRS-DH Form 3040 may be obtained from the local county health departments, ASCAGJ Warehouse, 5107 University Boulevard, West, Jacksonville, Florida 32216.~~

(3) Transfer of all student health records shall be in accordance with paragraphs 6A-1.0955(7)(a), (b), F.A.C.

Specific Authority 1001.02(1), 1003.22(1) FS. Law Implemented 1003.22 FS. History—New 7-1-81, Amended 12-6-84, Formerly 6A-6.24, Amended.

NAME OF PERSON ORIGINATING PROPOSED RULE: Dr. Frances Haithcock, Chancellor, K-12 Public Schools

NAME OF AGENCY HEAD WHO APPROVED THE PROPOSED RULE: Dr. Eric J. Smith, Commissioner, Department of Education

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: September 9, 2008

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: June 27, 2008

DEPARTMENT OF EDUCATION**State Board of Education**

RULE NO.: 6A-6.03011
 RULE TITLE: Exceptional Student Education
 Eligibility for Students with
 Intellectual Disabilities

PURPOSE AND EFFECT: The purpose of the proposed revisions is to update rule language to reflect current knowledge and practice in the field and to conform the rule language to recent revisions made to Section 1003.01, Florida Statutes. The implementation of the eligibility criteria in the rule will ensure consistency with the requirements of the federal law, the Individuals with Disabilities Education Act (IDEA) 20 U.S.C. Chapter 33, and its implementing regulations. The effect of this revision will be to ensure implementation consistent with the federal requirements and current knowledge and practice in the field. The result will be more appropriate eligibility determinations.

SUMMARY: The proposed rule title is changed from "Special Programs for Students Who Are Mentally Handicapped" to "Exceptional Student Education Eligibility for Students with Intellectual Disabilities." Additionally, the proposed rule revision combines the currently established distinct eligibility categories of educable mentally handicapped, trainable mentally handicapped, and profoundly mentally handicapped into the single category of "intellectual disabilities." This change will encourage schools to focus on the individual strengths and needs of the student while diminishing the effect the student's "label" may have on educational decisions. Clarification of the definition of "developmental period" (prior to age 18) and "significantly below average" performance in the areas of intellectual and adaptive functioning and academic achievement is provided. This change is consistent with the currently accepted terminology and practice and conforms the rule language to statutory changes made to Section 1003.01, F.S., "Definitions," during the 2008 legislative session.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1001.02(1), (2)(n), 1001.42(4)(l), 1003.01(3)(a), (b), 1003.57 FS.

LAW IMPLEMENTED: 1001.02(2)(n), 1003.01,(3)(a), (b), 1003.57, 1011.62(1)(c) FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 6, 2008, 9:30 a.m. – 11:30 a.m.

PLACE: Florida Department of Education, Turlington Building, 325 West Gaines Street, Room 1703/07, Tallahassee, FL 32399

IN ADDITION, the State Board of Education will consider this rule at its meeting on October 21, 2008, in Tampa, Florida. For additional information concerning the State Board of Education Meeting please email lynn.abbott@fldoe.org.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Bambi Lockman, Chief, Bureau of Exceptional Education and Student Services, Florida Department of Education, 325 West Gaines Street, Room 601, Tallahassee, Florida 32399-0400, (850)245-0475

THE FULL TEXT OF THE PROPOSED RULE IS:

(Substantial Rewording of Rule 6A-6.03011 follows. See Florida Administrative Code for present text).

6A-6.03011 Exceptional Student Education Eligibility for Students with Intellectual Disabilities Special Programs for Students Who Are Mentally Handicapped.

(1) Definition. Students with intellectual disabilities. An intellectual disability is defined as significantly below average general intellectual and adaptive functioning manifested during the developmental period, with significant delays in academic skills. Developmental period refers to birth to eighteen (18) years of age.

(2) General education interventions and activities. Prior to referral for evaluation the requirements in subsection 6A-6.0331(2), F.A.C., must be met.

(3) Evaluation. In addition to the procedures identified in subsection 6A-6.0331(4), F.A.C., the minimum evaluation for determining eligibility shall include all of the following:

(a) A standardized individual test of intellectual functioning individually administered by a professional person qualified in accordance with Rule 6A-4.0311, F.A.C., or licensed under Chapter 490, Florida Statutes;

(b) A standardized assessment of adaptive behavior to include parental or guardian input;

(c) An individually administered standardized test of academic or pre-academic achievement. A standardized developmental scale shall be used when a student's level of functioning cannot be measured by an academic or pre-academic test; and

(d) A social-developmental history which has been compiled directly from the parent, guardian, or primary caregiver.

(4) Criteria for eligibility. A student with an intellectual disability is eligible for exceptional student education if all of the following criteria are met:

(a) The measured level of intellectual functioning is more than two (2) standard deviations below the mean on an individually measured, standardized test of intellectual functioning;

(b) The level of adaptive functioning is more than two (2) standard deviations below the mean on the adaptive behavior composite or on two (2) out of three (3) domains on a standardized test of adaptive behavior. The adaptive behavior measure shall include parental or guardian input;

(c) The level of academic or pre-academic performance on a standardized test is consistent with the performance expected of a student of comparable intellectual functioning;

(d) The social/developmental history identifies the developmental, familial, medical/health, and environmental factors impacting student functioning and documents the student's functional skills outside of the school environment; and

(e) The student needs special education as defined in Rules 6A-6.0331 and 6A-6.03411, F.A.C.

(5) Documentation of determination of eligibility. Eligibility is determined by a group of qualified professionals and the parent or guardian in accordance with paragraph 6A-6.0331(5)(a), F.A.C. The documentation of the determination of eligibility must include a written summary of the group's analysis of the data that incorporates the following information:

(a) The basis for making the determination, including an assurance that the determination has been made in accordance with subsection 6A-6.0331(5), F.A.C.;

(b) Noted behavior during the observation of the student and the relationship of that behavior to the student's academic and intellectual functioning;

(c) The educationally relevant medical findings, if any;

(d) The determination of the group concerning the effects on the student's achievement level of a visual, hearing, motor, or emotional/behavioral disability; cultural factors; environmental or economic factors, an irregular pattern of attendance or high mobility rate; classroom behavior; or limited English proficiency; and

(e) The signature of each group member certifying that the documentation of determination of eligibility reflects the member's conclusion. If it does not reflect the member's conclusion, the group member must submit a separate statement presenting the member's conclusion.

Specific Authority ~~4001.01~~, 1001.02(1), (2)(n), 1001.42(4)(l), 1003.01(3)(a), (b), 1003.57 FS. DEPARTMENT OF EDUCATION

State Board of Education

RULE NO.:	RULE TITLE:
6A-6.03018	Exceptional Education Eligibility for Students with Specific Learning Disabilities

PURPOSE AND EFFECT: The purpose of this proposed rule is to ensure consistency with the federal law, the Individuals with Disabilities Education Act (IDEA) 20 U.S.C., Chapter 33 and its implementing Federal Regulations, 34 CFR, §300.307, §300.308, §300.309, §300.310, and §300.311 and to update rule language to be consistent with current knowledge and practice in the field. The effect of this revision will be consistency with the federal requirements and current knowledge and practice in the field and procedures that more appropriately identify students with specific learning disabilities.

Additionally, during the 2008 legislative session, Section 1003.01(3), Florida Statutes, Definitions, was revised. The reference to specific learning disabilities is revised to be consistent with the statutory change.

SUMMARY: Rule 6A-6.03018, F.A.C., is revised to change the procedures related to the identification and determination of eligibility for students with specific learning disabilities. Eligibility will no longer be based on a formula-based discrepancy between the student's IQ score and achievement test scores. Instead, districts will be required to provide interventions via a problem-solving method and measure the student's response to those interventions in order to make instructionally-relevant decisions and match resources, services, and interventions to student needs. Eligibility decisions will be based on the response to intervention process. An implementation transition period is included, with all schools meeting full implementation requirements by July 1, 2010.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1001.02(1), (2)(n), 1001.42(4)(l), 1003.01(3)(a),(b), 1003.57 FS.

LAW IMPLEMENTED: 1001.02(2)(n), 1003.01(3)(a), (b), 1003.57, 1011.62(1)(c) FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 6, 2008, 9:30 a.m. – 11:30 a.m.
 PLACE: Florida Department of Education, Turlington Building, 325 West Gaines Street, Room 1703/07, Tallahassee, FL 32399

IN ADDITION, the State Board of Education will consider this rule at its meeting on October 21, 2008, in Tampa, Florida. For additional information concerning the State Board of Education Meeting please email lynn.abbott@fldoe.org.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Bambi Lockman, Chief, Bureau of Exceptional Education and Student Services, Florida Department of Education, 325 West Gaines Street, Room 601, Tallahassee, Florida 32399-0400, (850)245-0475

THE FULL TEXT OF THE PROPOSED RULE IS:

(Substantial Rewording of Rule 6A-6.03018 follows. See Florida Administrative Code for present text).

6A-6.03018 Exceptional Education Eligibility Special Programs for Students with Specific Learning Disabilities.

(1) Definition. A specific learning disability is defined as a disorder in one or more of the basic learning processes involved in understanding or in using language, spoken or written, that may manifest in significant difficulties affecting the ability to listen, speak, read, write, spell, or do mathematics. Associated conditions may include, but are not limited to, dyslexia, dyscalculia, dysgraphia, or developmental aphasia. A specific learning disability does not include learning problems that are primarily the result of a visual, hearing, motor, intellectual, or emotional/behavioral disability, limited English proficiency, or environmental, cultural, or economic factors.

(2) General education intervention procedures and activities. In order to ensure that lack of academic progress is not due to lack of appropriate instruction, a group of qualified personnel must consider:

(a) Data that demonstrate that the student was provided appropriate instruction delivered by qualified personnel in general education settings; and

(b) Data-based documentation, which was provided to the student's parent(s) or guardian(s), of repeated measures of achievement at reasonable intervals, graphically reflecting the student's response to intervention during instruction.

(c) General education activities and interventions conducted prior to referral in accordance with subsection 6A-6.0331(2), F.A.C., may be used to satisfy the requirements of paragraphs (2)(a) and (2)(b) of this rule.

(3) Evaluation. The evaluation procedures shall include the following:

(a) The school district must promptly request parental or guardian consent to conduct an evaluation to determine if the student needs specially designed instruction in the following circumstances:

1. The student does not make adequate progress when:

a. Prior to a referral, the student has not made adequate progress after an appropriate period of time when provided appropriate instruction and intense, individualized interventions; or

b. Prior to referral, intensive interventions are demonstrated to be effective but require sustained and substantial effort that may include the provision of specially designed instruction and related services; and

2. Whenever a referral is made to conduct an evaluation to determine the student's need for specially designed instruction and the existence of a disability.

(b) In addition to the procedures identified in subsection 6A-6.0331(4), F.A.C., the evaluation must also include the procedures identified in the district's Policies and Procedures for the Provision of Specially Designed Instruction and Related Services for Exceptional Students as required by Rule 6A-6.03411, F.A.C. The evaluation must adhere to the timeframe required by paragraph 6A-6.0331(4)(b), F.A.C., unless extended by mutual written agreement of the student's parent(s) or guardian(s) and a group of qualified professionals.

(4) Criteria for eligibility. A student meets the eligibility criteria as a student with a specific learning disability if all of the following criteria are met.

(a) Evidence of specific learning disability. The student's parent(s) or guardian(s) and group of qualified personnel may determine that a student has a specific learning disability if there is evidence of each of the following:

1. When provided with learning experiences and instruction appropriate for the student's chronological age or grade level standards pursuant to Rule 6A-1.09401, F.A.C., the student does not achieve adequately for the student's chronological age or does not meet grade-level standards as adopted in Rule 6A-1.09401, F.A.C., in one or more of the following areas based on the review of multiple sources which may include criterion or norm-referenced measures:

a. Oral expression;

b. Listening comprehension;

c. Written expression;

d. Basic reading skills;

e. Reading fluency skills;

f. Reading comprehension;

g. Mathematics calculation; or

h. Mathematics problem solving.

2. The student does not make adequate progress to meet chronological age or grade-level standards adopted in Rule 6A-1.09401, F.A.C., in one or more of the areas identified in subparagraph (4)(a)1. of this rule when using one of the following processes:

a. A process based on the student's response to scientific, research-based intervention; or

b. A process based on the student's response to scientific, research-based intervention, and the student exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, grade level standards pursuant to Rule 6A-1.09401, F.A.C., or intellectual development, that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments, consistent with the evaluation procedures in subsection 6A-6.0331(4), F.A.C.

3. The group determines that its findings under paragraph (a) of this subsection are not primarily the result of the following:

- a. A visual, hearing, or motor disability;
- b. Intellectual disability;
- c. Emotional/behavioral disability;
- d. Cultural factors;
- e. Irregular pattern of attendance and/or high mobility rate;
- f. Classroom behavior;
- g. Environmental or economic factors; or
- h. Limited English proficiency.

(b) Members of the group determining eligibility. The determination of whether a student suspected of having a specific learning disability is a student who demonstrates a need for specially designed instruction and related services and meets the eligibility criteria must be made by the student's parents or guardians and a group of qualified professionals, which must include, but are not limited to, all of the following:

1. The student's general education teacher; if the student does not have a general education teacher, a general education teacher qualified to teach a student of his or her chronological age;

2. At least one person qualified to conduct and interpret individual diagnostic examinations of students, including, but not limited to, a school psychologist, speech-language pathologist, or reading specialist; and,

3. The district administrator of exceptional student education or designee.

(c) Observation requirement. In determining whether a student needs specially designed instruction and has a specific learning disability, and in order to document the relationship between the student's classroom behavior and academic performance, the group must:

1. Use information from an observation in routine classroom instruction and monitoring of the student's performance that was completed before referral for an evaluation; or

2. Have at least one member of the group conduct an observation of the student's performance in the student's typical learning environment, or in an environment appropriate for a student of that chronological age, after referral for an evaluation and parental or guardian consent has been obtained.

(5) Documentation of determination of eligibility. For a student suspected of having a specific learning disability, the documentation of the determination of eligibility must include a written summary of the group's analysis of the data that incorporates the following information:

(a) The basis for making the determination, including an assurance that the determination has been made in accordance with subsection 6A-6.0331(5), F.A.C.;

(b) Noted behavior during the observation of the student and the relationship of that behavior to the student's academic functioning;

(c) The educationally relevant medical findings, if any;

(d) Whether the student has a specific learning disability as evidenced by response to intervention data confirming the following:

1. Performance discrepancy. The student's academic performance is significantly discrepant for the chronological age or grade level in which the student is enrolled, based on multiple sources of data when compared to multiple groups, which include the peer subgroup, classroom, school, district, and state level comparison groups; and

2. Rate of progress. When provided with appropriate research-based general education instruction and interventions of reasonable intensity and duration with evidence of implementation fidelity, the student's rate of progress is insufficient or requires sustained and substantial effort to close the achievement gap with typical peers or academic expectations for the chronological age or grade level in which the student is currently enrolled; and

3. Educational need. The student continues to need interventions that significantly differ in intensity and duration from what can be provided solely through general education resources to make or maintain sufficient progress.

(e) The determination of the group concerning the effects on the student's achievement level of a visual, hearing, motor, intellectual, or emotional/behavioral disability; cultural factors; environmental or economic factors; an irregular pattern of attendance or high mobility rate; classroom behavior; or limited English proficiency; and

(f) Documentation based on data derived from a process that assesses the student's response to scientific, research-based intervention including:

1. Documentation of the specific instructional interventions used, the support provided to the individual(s) implementing interventions, adherence to the critical elements of the intervention design and delivery methods, the duration and frequency of intervention implementation (e.g. number of weeks, minutes per week, sessions per week), and the student-centered data collected; and

2. Documentation that the student's parent(s) or guardian(s) were notified about the state's policies regarding the amount and nature of student performance data that would be collected and the general education services that would be

provided; interventions for increasing the student's rate of progress; and the parental or guardian right to request an evaluation.

(g) The signature of each group member certifying that the documentation of determination of eligibility reflects the member's conclusion. If it does not reflect the member's conclusion, the group member must submit a separate statement presenting the member's conclusions.

(6) Implementation.

(a) The district's Policies and Procedures for the Provision of Specially Designed Instruction and Related Services for Exceptional Students, as required by Rule 6A-6.03411, F.A.C., must identify the applicable criteria described in subparagraphs (4)(a)2.a. and (4)(a)2.b. of this rule on a school-by-school basis.

(b) Effective July 1, 2010, the criterion specified in sub-subparagraph (4)(a)2.a. becomes the sole criterion and sub-subparagraph (4)(a)2.b. becomes obsolete.

(c) For schools using eligibility criteria described in sub-subparagraph (4)(a)2.b. until July 1, 2010, a description of the pattern of strengths and weaknesses that is determined by the group to be relevant to the identification of a specific learning disability must be documented in the written summary required by subsection (5) of this rule.

RULE NO.: 6A-6.0651
 RULE TITLE: Alternative Credit Pilot Program
 PURPOSE AND EFFECT: The purpose of this rule is to provide requirements for pilot districts in the implementation of this pilot program.
 SUMMARY: This rule addresses the time period for the pilot, which core courses are eligible for students to receive alternative credit for in the pilot, how frequently end-of-course assessments may be administered, how passing scores for the

assessments will be determined, district responsibility for remediation if assessments are not passed, and how alternative credit will be reflected on student transcripts.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1002.375(7) FS.

LAW IMPLEMENTED: 1002.375 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 21, 2008, 8:30 a.m.

PLACE: Tampa Airport Marriott, Tampa, Florida

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Holly Edenfield, Executive Director, K-12 Legislative and Public Affairs, (850)245-0659

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-6.0651 Alternative Credit Pilot Program.

The purpose of this rule is to provide requirements for pilot districts in the implementation of this pilot program.

(1) At a minimum, the term of this pilot program will be through December 2009.

(2) Eligible core courses for which students may receive alternative credit are Algebra 1a, Algebra 1b, Algebra 1, Geometry, and Biology.

(3) In order for a student enrolled in a pilot course to receive alternative credit, the student must pass the respective end-of-course assessment approved by the Department of Education. Assessments may be developed by the Florida Virtual School or adopted or developed by the Department.

(4) The minimum passing scores for each end-of-course assessment will be determined by the Department based on the recommendations of a committee of Florida educators through a standard-setting procedure. Minimum passing scores must be no lower than those expected of students enrolled in the credit bearing course for which the alternative credit is sought.

(5) The end-of-course assessments for alternative core credit may be administered at any point during a student's enrollment in the career course. The Department will approve the method of administration of the end-of-course assessment for each pilot district.

(6) If a student does not meet the minimum passing scores established by the Department, and has participated in the remediation provided by the district, the student may retake the assessment multiple times during the duration of the career course, provided that there are at least thirty-one (31) calendar days between administrations and a different form of the assessment is administered each time.

(7) Although the career course descriptions must include a minimum of fifty (50) percent of the alternative credit core course benchmarks, the district is responsible for providing students access to resources aligned to all of the core course benchmarks to assist students in preparing for the respective end-of-course assessment.

(8) Remediation in the core course for which alternative credit is sought must be provided after each unsuccessful attempt to pass the end-of-course assessment. The district is responsible for providing this remediation.

(9) A student enrolled in the career course is not required to take the end-of-course assessment for alternative core credit unless the student is seeking such alternative credit.

(10)(a) If a student is not successful in passing the end-of-course assessment, the student will not receive alternative credit for the core course. However, the student's credit for the career course is not affected by the score on the alternative credit end-of-course assessment.

(b) If a student passes the end-of-course assessment in the core course, but does not earn a passing grade in the career course, the student's alternative core credit is not affected.

(11) If a student is successful in passing the alternative credit end-of-course assessment, the student will receive credit for the core course and a 'P' will appear on the student's transcript as the grade. There is no penalty on the transcript if a student is not successful after the allotted attempts to retake the assessment.

(12) The district must report alternative credit awarded for core courses on the student transcript according to Department requirements in the DOE Information Data Base Requirements: Volume I – Automated Student Information System, 2008 as incorporated by reference in Rule 6A-1.0014, F.A.C.

(13) The Florida Virtual School will provide the Department and pilot districts with electronic student test results. They will also report diagnostic information to districts detailing how students performed on each benchmark tested using secure measures to protect the identity of students, and summary level information to the state.

DEPARTMENT OF EDUCATION

State Board of Education

RULE NO.: 6A-6.0960
 RULE TITLE: Corporate Tax Credit Scholarship Program

PURPOSE AND EFFECT: The purpose of this rule amendment is to include the new provisions of HB 653 which extends scholarship eligibility to a student who is currently placed or during the previous state fiscal year was placed, in foster care. Additionally the rule is amended to remove the list of assessments to be administered to students receiving the Corporate Income Tax Credit Scholarship and provide that the assessments be listed on the Department's website. The effect is a rule which reflects current governing law and practices.

SUMMARY: The rule is amended to include the new provisions of HB 653 which extends scholarship eligibility to a student who is currently placed or during the previous state fiscal year was placed, in foster care and to update access to the list of approved assessments to be administered by the private schools to students receiving Corporate Income Tax Credit Scholarships.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 220.187 FS.

LAW IMPLEMENTED: 220.187 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 21, 2008, 8:30 a.m.

PLACE: Tampa Airport Marriott, Tampa, Florida

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Jean Miller, Acting Executive Director, Office of Independent Education and Parental Choice, Department of Education, 325 West Gaines Street, Room 522, Tallahassee, Florida 32399-0400, (850)245-0502

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-6.0960 Corporate Tax Credit Scholarship Program.
 The Corporate Tax Credit Scholarship Program will be implemented as required by Section 220.187, F.S., to allow nonprofit scholarship-funding organizations to provide scholarships from eligible contributions to qualified students attending eligible private schools or public schools outside the school district in which the student resides or in a laboratory school.

(1) No change.

(2) Nonprofit scholarship-funding organization requirements. Eligible nonprofit scholarship-funding organizations shall:

(a) Beginning with the 2007-2008 school year, upon each first-time scholarship student's entry to the scholarship program, obtain a written statement that the parent has informed the student's school district that the child will be attending an eligible private school. The written statement shall be maintained on file by each nonprofit scholarship-funding organization for no less than three (3) years or until such time as the student graduates or otherwise exits the program. This requirement shall not apply to a kindergarten or first grade student, or a student placed in foster care, who was not enrolled in a Florida public school prior to entering the scholarship program.

(b) Four (4) times a year, no later than August 15, October 15, January 15, and March 15 of each year, submit in a format to be specified by the Department an electronic list of all participating scholarship students. The list shall include the following information:

1. Demographic information for each student, including name, date of birth, social security number, grade level, gender, race, parent's name, and address;
2. Information on the student's school of attendance, including tuition, fees, and transportation amounts; and
3. The amount of each student's scholarship.

(c) No later than thirty (30) days after the last payment date of the school year, provide a summary to the Department detailing the amount paid for each scholarship student during the school year and the school attended. If a student attended more than one school during the year, the summary shall detail the amount of the scholarship payments that the student generated by each school.

(3) through (5) No change.

(6) Measurement of student achievement. Private schools participating in the program are responsible for ensuring that all students who if in the public school system would otherwise be assessed under Section 1008.22(3)(c), F.S., and who are receiving scholarships are assessed annually and the results reported as required by Section 220.187(8)(c)2., F.S. Achievement data for scholarship students shall not be used to rate publicly the performance of private schools that participate in the program.

(a) Pursuant to Section 220.187(9)(i), F.S., relating to the identification and selection of nationally norm-referenced tests for the measurement of student achievement, participating private schools must annually administer a nationally norm-referenced test that has been one of the following approved by the Department and listed on the Department's website assessments in grades K-12 to students receiving Corporate Income Tax Credit Scholarships. The listed may be accessed at: http://www.floridaschoolchoice.org/information/CTC/norm_referenced_assessment.asp.

~~1. Basic Achievement Skills Inventory (BASITM) Comprehensive Version.~~

~~2. Florida Comprehensive Assessment Test (FCAT) NRT Reading and Mathematics.~~

~~3. Iowa Tests of Basic Skills® (ITBS®) Forms A and B Core Battery.~~

~~4. Metropolitan Achievement Tests®, Eighth Edition (METROPOLITAN8) Short Form.~~

~~5. Stanford Achievement Test, Tenth Edition (Stanford 10) Basic Battery.~~

~~6. TerraNova (CTBS/5) Basic Battery.~~

~~7. TerraNova, Second Edition (CAT/6) Basic Battery.~~

(b) The Department of Education may approve the use of another assessment if it meets the following criteria:

1. Internal consistency reliability coefficients of at least 0.8;
 2. High validity evidenced by the alignment of the test with nationally recognized content standards, as well as specific evidence of content, concurrent, or criterion validity;
 3. Norming studies within the last five (5) to ten (10) years, with norming within five (5) years being preferable; and
 4. Serves as a measure of K-12 student achievement in core academic areas.
- (7) through (9) No change.

Specific Authority 220.187(9)(i), 220.187(12)(c) FS. Law Implemented 220.187 FS. History--New 2-5-07, Amended.

RULE NO.: 6A-6.0981
 RULE TITLE: School District Virtual Instruction Program

PURPOSE AND EFFECT: The purpose of this rule is to adopt requirements for administering the School District Virtual Instruction Program and to adopt the application form to be used by providers applying for approved status from the Department. The effect will be a rule which clearly prescribes the purpose of the program and the process to apply as a provider consistent with governing statutes.

SUMMARY: The proposed rule establishes requirements for the School District Virtual Instruction Program.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 1002.45(12) FS.

LAW IMPLEMENTED: 1002.45 FS.

A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW:

DATE AND TIME: October 21, 2008, 8:30 a.m.

PLACE: Tampa Airport Marriott, Tampa, Florida

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Jean Miller, Acting Executive Director, Office of Independent Education and Parental Choice, Department of Education, 325 West Gaines Street, Room 522, Tallahassee, Florida 32399-0400, (850)245-0502

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-6.0981 School District Virtual Instruction Program.

(1) Purpose. Section 1002.45, Florida Statutes, requires school districts, beginning with the 2009-2010 school year, to provide eligible students within its boundaries the option to participate in a virtual instruction program. The program must be full-time for K-8 students and may be full-time or part-time for students in grades 9-12 in Department of Juvenile Justice Education Programs, dropout prevention programs, vocational programs, or career education programs. Each school district's virtual instruction program may be operated by the district or by virtual instruction program contracted providers. Virtual instruction program providers must be approved by the Department of Education.

(2) Application Form. Form VSP – 02, District Virtual Instruction Program Application, will be used for those virtual education providers applying for approved status from the Department of Education. Form VSP-02 is hereby incorporated by reference and made a part of this rule to become effective with the effective date of this rule. Form VSP-02 will be published electronically at www.floridaschoolchoice.org, or a hard copy may be obtained by contacting the Office of Independent Education and Parental Choice, Florida Department of Education, 325 West Gaines Street, Room 522, Tallahassee, Florida 32399.

(3) Application. For the 2009-10 school year, Form VSP-02 will be available on-line at www.floridaschoolchoice.org; the application date for providers to begin submission shall be published at www.floridaschoolchoice.org and the application shall remain open for thirty (30) calendar days. Each year thereafter, Form VSP-02 will be available online beginning September 1 for

providers intending to contract with school districts in the subsequent school year. Applications will be due on or before November 1.

(4) The Department of Education will review each application and provide the applicant with a written decision regarding the approval or denial of the application no later than forty-five (45) calendar days after November 1. Approved providers will be posted to the website, www.floridaschoolchoice.org, no later than March 1 each year.

(5) Notice of Denial. If the application is denied, the applicant will receive written notification identifying the specific areas of deficiency. The applicant shall have forty-five (45) calendar days after receipt of the notice of denial to resolve any outstanding issues, and resubmit their application for reconsideration. The applicant will receive a final notice of approval or denial no later than February 28 of each year. If an application is denied a second time, the Department of Education will provide a final written notice to the provider indicating that the application has been administratively closed and that the provider may apply during the next application phase in accordance with subsection (3) of this rule.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-10.070 Discounted Computers and Internet Access for Students.

(1) Eligibility and Notification.

(a) Discounted computers and Internet access are available for any student enrolled in grades 5-12 in a public school, including a charter school, and students registered with a district home education program in the state.

(b) One computer per student will be available for distribution once per school year.

(c) The Department of Education will work with districts to notify students and parents of the locations where discounted computers and Internet access are available for purchase. Multimedia and print methods to be used include, but are not limited to, newsletters, brochures, websites, emails, or phone calls.

(2) Training.

(a) Training for students shall be created or adopted by each school district which must include the following components:

- 1. Cybersafety;
- 2. Basic technology skills;
- 3. Basic computer troubleshooting;
- 4. Ethical internet usage; and
- 5. Compliance with copyright laws.

(b) Training shall be implemented for the 2009-10 school year and every subsequent school year.

(c) A training component for parents and families is encouraged, but not mandatory.

(d) The training for students will be conducted online or face-to-face.

(3) Certificates and Payments.

(a) Students are qualified to receive an eligibility certificate after completing training through their school district.

(b) Districts shall print Form DCIAS-01, Eligibility Certificate, which is hereby incorporated by reference in this rule to become effective with the effective date of this rule. Form DCIAS – 01 may be obtained on the Department’s website at http://www.fl DOE.org/bii/Instruct_Tech/discount.asp or by contacting the Division of Public Schools at 325 West Gaines Street, Room 126, Tallahassee, Florida 32399-0400.

(c) Vendors distributing discounted computers and Internet access will determine payment options for students and parents.

THE FULL TEXT OF THE PROPOSED RULE IS:

33-302.111 Early Termination of Supervision.

(1) Before a correctional probation officer considers recommending an offender for early termination of supervision, the following criteria shall be met:

(a) Completion of one-half of the supervision period ~~or at least eighteen months, whichever is greater;~~

(b) through (d) No change.

(e) A Florida Crime Information Center/National Crime Information Center (FCIC/NCIC) records check reveals no new arrest during the course of supervision of which the sentencing or releasing authority has not been previously notified; and

(f) No violations of supervision are pending; ~~and~~

~~(g) The offender has made satisfactory adjustment under supervision and is no longer in need of supervision.~~

(2) In order for an officer to request an early termination of supervision from the sentencing or releasing authority, approval must be obtained from the officer's supervisor, ~~the circuit administrator,~~ the State Attorney's Office, and the victim, if the offense involved a victim. If the State Attorney's office denies the request, or the victim opposes the early termination, the department will not proceed with the early termination recommendation. The officer shall not disclose a victim's objection to the offender.

(3) No change.

DEPARTMENT OF CORRECTIONS

RULE NO.: RULE TITLE:
 33-601.719 Visiting by Former and Current
 Department and Contract
 Employees

PURPOSE AND EFFECT: The purpose and effect of the proposed rule is to ensure notice within the Department by requiring approval for visitation from the warden of the institution housing the inmate to be visited and the supervisor employing the current or contract employee.

SUMMARY: The proposed amendment to Rule 33-601.719, F.A.C., requires approval for visitation from the warden of the institution housing the inmate to be visited and the (warden, circuit administrator, regional director, or Assistant Secretary of Institutions) employing the current or contract employee.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 944.09, 944.23 FS.
 LAW IMPLEMENTED: 20.315, 944.09, 944.23 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Jamie Jordan-Nunes, Office of the General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500

THE FULL TEXT OF THE PROPOSED RULE IS:

33-601.719 Visiting by Former and Current Department and Contract Employees.

(1) No change.

(2) Current Department and Contract Employees. ~~The warden or designee shall consider approving~~ Current department employees and employees of a contractor currently under contract with the department shall only be granted for visiting privileges under the following conditions:

(a) No change.

(b) The employee has not violated the conditions ~~stipulated~~ in subsection 33-601.719(1), F.A.C.;

(c) Approval for visitation in writing is required from:

1. ~~The employing warden,~~ warden of the institution housing the inmate to be visited and

2. The employing:

a. Warden (for institution staff),

b. circuit administrator (~~for~~ community corrections sStaff),

c. regional director (~~for~~ regional office staff), or ~~and~~

d. Assistant Secretary of Institutions (~~for~~ central office staff).

(d) No change.

RULE NO.: RULE TITLE:
 40B-4.2020 Content of Environmental Resource
 Permit Application

PURPOSE AND EFFECT: The purpose of the rule development is to update this section of Chapter 40B-4, Florida Administrative Code, to amend the required content of environmental resource permit applications. The effect of the proposed rule amendments will be to incorporate additional language that is required by Section 373.413, Florida Statutes.

SUMMARY: This proposed rule development will incorporate additional of language that is required by Section 373.413, Florida Statutes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 373.044, 373.113, 373.171 FS.

LAW IMPLEMENTED: 373.084, 373.085, 373.413, 373.416, 373.426 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Linda Welch, Administrative Assistant, Suwannee River Water Management District, 9225 C.R. 49, Live Oak, Florida, 32060, (386)362-1001 or 1(800)226-1066 (FL only)

THE FULL TEXT OF THE PROPOSED RULE IS:

40B-4.2020 Content of Environmental Resource Permit Application.

(1) through (3)(b)2.e. No change.

f. Location, dimensions, and specifications of internal minor works; ~~and~~

g. Existing nearby off-site water resource facilities such as works, surfacewater management systems, wells, or well fields, etc. which might be affected by the proposed project, along with the names and addresses of the owners of such facilities.

h. Name and address of the person who prepared the plans and specifications of construction; and

i. Name and address of the person who will construct the proposed work.

3. through (4) No change.

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NO.:	RULE TITLE:
40D-2.091	Publications Incorporated by Reference

PURPOSE AND EFFECT: To amend Chapter 40D-2, Florida Administrative Code, and the Water Use Permit Information Manual, Part B, Basis of Review for Water Use Permit Applications, and Part D, Requirements for the Estimation of Permanent and Temporal Service Area Populations In the Southern Water Use Caution Area (SWUCA), incorporated by reference in Rule 40D-2.091, Florida Administrative Code, to expand the public supply permittee conservation standard of per capita water use and related water use conservation and reporting requirements to those areas of the District not already subject to them and to refine and replace similar requirements in the SWUCA and Northern Tampa Bay Water Use Caution Area.

SUMMARY: The proposed amendments extend the Southern Water Use Caution Area (SWUCA) conservation standard regarding public supply permittees’ per capita water use and related water use conservation and reporting requirements to those areas of the District outside the SWUCA, and replace similar requirements in the NTBWUCA and SWUCA and include:

1. Refining water utility service area delineation requirements and reporting;
2. Per capita water use calculation – removing the deduction for desalination in the NTBWUCA to be consistent with SWUCA; refining and adding significant use deductions for large or regional commercial, industrial and institutional uses; making the service area population methodology consistent across the District and include that permanent and seasonal functional population estimation is required; tourist and net commuter population estimation is optional but the methodology for the estimation is prescribed if those populations will be estimated;
3. Per capita compliance – phasing in the existing 150 gallons of water use per capita per day over 10 years for utilities outside the SWUCA and NTBWUCA. Adjustments and

deductions are proposed to be added for use by utilities throughout the District, including within the SWUCA and NTBWUCA as follows:

- a. Golf course irrigation quantities within the permittee’s service area where the irrigation quantities are included in the permitted quantities for the service area and reported as withdrawals;
 - b. Stormwater quantities used inside the permittee’s service area, when used other than for golf course irrigation, and included in the permitted quantities for the service area and are reported as withdrawals;
 - c. 50% of the reclaimed water quantities provided outside the permittee’s service area or 25,000 gpd or more annual average provided to a single-site within the permittee’s service area, except not if used for residential or common area irrigation; and
 - d. Allow a persons-per-household (pph) of 2.01 to be substituted for the actual service area pph in the calculation of the functional population when compliance with the 150 gallons per capita per day cannot be achieved by all allowable deductions and credits and the actual pph is less than 2.01.
4. Requiring submission of residential dwelling units, connections and water use by type.
 5. Annual residential water use reporting – number of dwelling units by type served and their use.
 6. Annual reporting of the use of the alternative sources of water with refinements for reporting reclaimed water and stormwater.
 7. Reporting of non-residential connections and water use by type.
 8. A calculation process in which projected allowable deductions are explicitly incorporated into the future permitted quantities.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 373.044, 373.113, 373.118, 373.171 FS.

LAW IMPLEMENTED: 373.036, 373.0361, 373.042, 373.0421, 373.0831, 373.116, 373.117, 373.118, 373.149, 373.171, 373.1963, 373.216, 373.219, 373.223, 373.224, 373.226, 373.229, 373.239, 373.243, 373.244 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Karen A. Lloyd, Assistant General Counsel, Office of General Counsel, 2379 Broad Street, Brooksville, FL 34604-6899, (352)796-7211, extension 4651

THE FULL TEXT OF THE PROPOSED RULE IS:

The following document is incorporated by reference in subsection 40D-2.091(1), F.A.C.

WATER USE PERMIT INFORMATION MANUAL
PART B, BASIS OF REVIEW

The following changes are made to Chapter 2.0:

2.0 ADMINISTRATIVE CONSIDERATIONS

Within Section 2.5 the title of subsection "Public Water Supply Service Area Within SWUCA" is changed as follows:

PUBLIC WATER SUPPLY SERVICE AREA ~~WITHIN THE SWUCA~~

New 1-1-07, Revised _____.

The following changes are made to Chapter 3.0:

3.0 REASONABLE WATER NEEDS

Within Section 3.6 Public Supply the first paragraph is changed as follows:

In order to accurately calculate demand, public supply Applicants must identify the demand for each of the uses listed in this section. Information typically required to demonstrate reasonable demand for each component may include the number, type, and size of service connections; past monthly pumpage records by use type; projected permanent and ~~temporal seasonal~~ population data for the service area; data on the specific uses; development projections; and data specific to the forecasting models used. Demand quantities should be based on quantities required by end-use customers, not withdrawal quantities. The quantities must be expressed in average annual gallons per day for each component of demand. Revised _____.

Within Section 3.6 Public Supply the following changes are made:

A new heading "PERMIT APPLICATION DATA PROJECTIONS" is created and added before the existing provisions titled "PER CAPITA DAILY WATER USE" and the following five provisions are subheadings under "PERMIT APPLICATION DATA PROJECTIONS"

PERMIT APPLICATION DATA PROJECTIONS

Projected Per Capita Daily Water Use ~~PER CAPITA DAILY WATER USE~~

Per capita daily water use is ~~a guideline~~ used to measure the reasonable withdrawal requests of public supply Applicants. Per capita water use is generally considered to be population-related withdrawals associated with residential, business, institutional, industrial, miscellaneous metered, and unaccounted uses. Projected per capita daily use is calculated by adding the quantities identified for the uses shown in the previous list, except for treatment losses, and then dividing by the permanent or temporally seasonally adjusted population of the service area. ~~Where the per capita daily water use rate exceeds 150 gpd the applicant must address reduction of the high rate in the conservation plan.~~

Revised _____.

The following four sections are relocated to this portion of Section 3.6 from the original location shown in strike through format further below and revised as indicated.

Service Area Population Projection Data ~~POPULATION DATA~~

Population data are available from the following sources: the District, Bureau of the Census, University of Florida Bureau of Economics and Business Research (BEER), Regional Planning Council (RPC), County Planning Departments, ~~the District~~

~~Planning Department, and the or Comprehensive Land Use Plan (developed under Chapter 9J-5, F.A.C.). Use of other population data or methods other than those provided by the District shall identified above may be considered if thoroughly documented. Counties and municipalities are required to estimate seasonal population as part of the comprehensive planning process. If such data are not available, seasonal service area population may be estimated using methods recommended by the State of Florida Department of Community Affairs (DCA). Applicants may also identify tourist population, if known.~~

Revised _____.

Permanent Population Projection Estimates POPULATION ESTIMATES

~~In service areas without significant seasonal population fluctuations, the use of permanent population estimates is appropriate. [The following two sentences are moved to Calculation of Seasonally Adjusted Population Projections below: In service areas where there are significant seasonal population changes, it is to the advantage of the Applicant to estimate the seasonal population for use in conjunction with permanent population in the calculation of per capita daily water demand. If significant seasonal population fluctuations are not accounted for, per capita water daily water use may be over-estimated. Ten years of permanent and seasonal (if applicable) population growth must be projected, on a yearly basis, for the area served by the application.~~

When population estimates are required for years in between those estimates with published or referenced estimates, the Applicant must interpolate the data. The Applicant may assume that population increases in equal increments in the years between established estimates.

Revised _____.

Calculation of Seasonally Adjusted Population Projections CALCULATION OF SEASONALLY ADJUSTED POPULATION

In service areas where there are significant seasonal population changes, it may be to the advantage of the Applicant to estimate the seasonal population for use in conjunction with permanent population in the calculation of per capita daily water demand. If significant seasonal population fluctuations are not included, per capita water daily water use may be over-estimated. Seasonally adjusted population is a weighted population that takes into account seasonal fluctuations. Applicants are encouraged to use If monthly seasonal population data where are available, in its calculations of population then individual monthly estimates should be used in calculations. Where available, the applicant can request Functional Population projections that include seasonal

resident population fluctuations from the District. An example of how to calculate a seasonally adjusted population for a service area that has a winter influx of residents follows.

~~For example: Permanent population = 100,000 persons for eight months. The population increases during the four winter months as shown below:~~

Seasonal Population:

November	110,000
December	110,000
January	120,000
February	<u>120,000</u>
	460,000

<u>Permanent Population (100,000 x 8 months):</u>	<u>800,000</u>
<u>(Seasonal Population):</u>	<u>+ 460,000</u>
	<u>1,260,000</u>

<u>Permanent Population:</u>	100,000
<u>100,000 x 8 months =</u>	800,000
<u>(Seasonal Population)</u>	<u>+ 460,000</u>
	<u>1,260,000</u>

1,260,000 ÷ 12 months = 105,000 seasonally adjusted population

Revised _____.

Calculation of Tourist-Adjusted Population Projections CALCULATION OF TOURIST ADJUSTED POPULATION

~~Where projected short-term tourist population data are available, the applicant may choose to include tourist population data may be included in seasonally adjusted population estimates. Tourists generally only represent demand for indoor uses of water, so the Applicant should estimate tourist use at one-half of permanent or seasonal population daily use. This estimate is accomplished by utilizing one-half of the estimated tourist population for a given time period in calculations. For example, if November for a given year is projected to have a permanent population of 100,000, a seasonal influx population of 10,000 residents, and an influx tourist population of 10,000 tourists, the November population to be used in the seasonally adjusted population calculation would be 100,000 + 10,000 + 0.5 (10,000) = 120,000 + 5,000. Where available, the applicant can obtain projected tourist population from the District.~~

Revised _____.

CONSERVATION SWUCA REQUIREMENTS

The public supply permittee following water conservation requirements included within the remainder of this Subsection 3.6, unless specifically designated to apply within the SWUCA only, shall apply to all public supply utilities and suppliers with Permits that are granted for an annual average daily quantity of 100,000 gallons per day or greater, as well as wholesale customers supplied by another entity which obtain an annual average daily quantity of 100,000 gallons per day or greater; either indirectly or directly under water use permits within the SWUCA, regardless of the name(s) on the water use permit. Failure of a wholesale customer to comply may result in modification of the wholesale permit to add a permit condition limiting or reducing the wholesale customer's quantities, or other actions by the District. Increased allocations for existing permits and allocations for public supply permits with an annual average daily quantity less than 100,000 gpd shall be based on a per capita use rate no greater than 150 gallons per day, plus allowable deductions and adjustments documented as set forth in the provisions below titled "Documentation of Per Capita Daily Water Use Calculations for the Annual Report".

Transferred from Chapters 7.1 and 7.2, 1-1-07, and Revised _____.

PER CAPITA DAILY WATER USE WITHIN THE SWUCA
Per Capita Use Rate – Public supply permittees shall have a per capita rate of no greater than 150 gallons per day whether it is calculated as an unadjusted gross per capita (see A. in this section below), an adjusted gross per capita (see B. in this section below), or a compliance per capita (see C. in this section below). A phased reduction in per capita (see D. in this section below) shall be implemented by permittees that do not achieve the compliance per capita rate of no greater than 150 gallons per day. Compliance with the per capita rate shall be monitored via the Annual Report and the Reclaimed Water Supplier Report that are required to be submitted by April 1 of each year for Individual and General Water Use Permits. (See provisions below titled "Documentation of Per Capita Daily Water Use Calculations for the Annual Report").

A. Unadjusted Gross Per Capita Water Use

All permittees required to submit Annual Reports must report unadjusted gross per capita defined as:

$$\frac{WD + IM - EX - TL - SU - EM}{FP}$$

Where:

WD = ground water, and surface water and stormwater withdrawals,

- IM = water imported/purchased ~~bought~~ from other ~~another~~ supplier(s). Irrigation water, excluding RW (see C. Compliance Per Capita below), provided to the applicant's service area by a separate utility shall be counted as imported water
- EX = water exported/sold to other supplier(s)
- TL = treatment loss (typically R/O, or sand filtration) and no more than 1% of the treated water volume for flushing distribution lines for potability)
- SU = significant uses
- EM = environmental mitigation, if required as a District permit condition
- FP = functional population is the served permanent population as adjusted by the seasonal resident, tourist, group quarters and net commuter population within a utility's service area as determined in accordance with "Requirements for the Estimation of Permanent and Temporal Service Area Populations," dated _____ January 1, 2007, as set forth in Part D of the Water Use Permit Information Manual Basis of Review For Water Use Permit Applications. See the paragraph titled "SERVICE AREA FUNCTIONAL POPULATION ESTIMATES ~~WITHIN THE SWUCA~~" below for further information.

1-1-03, Revised 1-1-07, _____.

B. Adjusted Gross Per Capita Water Use

Permittees with significant uses (SU), or who provide permitted quantities for golf courses irrigation, or who must provide quantities for environmental mitigation as a permit condition may calculate an adjusted gross per capita. [Note: whether or not a significant use is deducted, all must be reported as provided in the "SU" section of "Documentation of Per Capita Daily Water Use Calculations for the Annual Report" below.] Adjusted gross per capita water use is defined as:

$$\frac{(WD + IM - EX - TL - SU - GC - EM)}{FP}$$

Where:

WD, IM, EX, TL and FP are as defined in A. above.

SU ≡ Significant Use as described below in the provisions titled "Significant Use".

GC ≡ Separately metered golf course irrigation quantities from ground water, surface water, reclaimed water or stormwater provided to golf courses inside the

service area. The quantities provided may be deducted only if they are included in the permitted quantities for the service area and reported as withdrawals (WD) in the Annual Report. The “GC” withdrawal quantities deducted shall not exceed those actually provided, or those that would be permitted for use by the District, whichever is less.

EM = Quantities permitted and used for environmental mitigation as a condition of the water use permit.

[insert rule effective date]

C. Compliance Per Capita Water Use

1. Reclaimed Water or Stormwater Deductions – Some permittees may provide reclaimed water or stormwater to entities that are not customers of their potable water system such that the supply does not reduce the public supply utility permittee’s unadjusted gross or adjusted gross per capita rates. For purposes of compliance with the per capita rate of 150 gpd, such permittees may submit a compliance per capita that is defined as:

$$\frac{(WD + IM - EX - TL - SU - GC - EM - ST - RW)}{FP}$$

Where:

WD, IM, EX, TL, SU, GC, EM, and FP are defined as above.

This deductions shall not be taken if the Golf Course (GC) deduction is taken based on reclaimed water or stormwater in calculating an adjusted gross per capita rate.

ST = Separately metered and reported stormwater quantities captured by the permittee that are included in the utility’s permitted quantities for uses inside the service area other than for golf course irrigation. The stormwater withdrawal quantities deducted shall not exceed the quantities actually provided, or those that would be permitted for the use by the District, whichever is less. Stormwater quantities deducted as golf course (GC) use above may not be included in this deduction for stormwater. The surface withdrawal points from the stormwater catchments shall be permitted on the provider’s water use permit and must be reported as withdrawals in the Annual Report to be deducted. The stormwater deduction shall not be taken where the quality of the ground water source to be permitted or replaced is of lower water quality but is suitable for the intended use, unless the use of the stormwater in such cases reduces adverse impact to the water resources.

RW = 50% of reclaimed water that has received at least secondary treatment and is provided as reclaimed water for a beneficial purpose as set forth in Section 3.1 of this Chapter 3. To be deducted, it must be provided to:

- a. any metered use located outside the utility potable service area boundary,
- b. any single-site separately-metered use within the utility potable service area boundary that uses 25,000 gallons per day or more on an annual average basis during the per capita reporting period, except that no deduction shall be taken for quantities used for:
 - i. residential irrigation (single family, multi-family or mobile home), or
 - ii. common area irrigation, including entranceways, parking lots, irrigated areas within roadway right-of ways (e.g., road and sidewalk medians), open spaces, community areas, and public parks.

This deduction shall not be taken if the reclaimed water replaces existing demand on the permittee’s potable system.

2. Low Persons Per Household Adjustment – After completing the calculations above, if the per capita rate is still greater than 150 gallons per day and the service area Census persons per household is below 2.01 (calculated as PERMPPH in Part D of the Water User Permit Information Manual), then the applicant may adjust the persons per household to a value of 2.01. Then, the permittee may adjust the PERMPPH and SEASPPH to 2.01 and recalculate the FP and the compliance per capita.

[insert rule effective date]

D. Phase-In Where A Per Capita Rate of 150 gpd is Exceeded as of December 31, [year of effective date of rule]

Existing Permittees with a five year compliance per capita rate greater than 150 gallons per day as of December 31, [year of effective date of rule] shall achieve a compliance per capita rate of 150 gallons per day as set forth below, or earlier if the Permittee deems it feasible. The (effective year) five year compliance per capita shall be calculated as the average of Annual Report compliance per capitas for (the effective year of the rule) and the four years prior. In the event that the provisions of this section D. conflict with the provisions of a permit or consent order existing as of (effective date of rule), the terms of the permit or consent order shall supersede this section D. However, a permittee may request a modification of the permit condition or consent order in order to comply with this section D. in lieu of the applicable permit condition or consent order provision.

1. By December 31, [year of effective date + 5 years], the Permittee shall achieve a per capita rate not greater than the midpoint between the five year average compliance per capita rate calculated as of [year of effective date of rule] and 150 gpd.

2. By December 31, [year of effective date of rule +10 years], the Permittee shall achieve a per capita rate that is not greater than 150 gallons per day.

3. A permittee that does not achieve a compliance per capita rate that is less than or equal to 150 gallons per day by December 31, [year of effective date of rule + 10 years], may submit to the District a petition for a variance from the requirement to achieve a per capita rate of 150 gallons per day.

4. During the phase in period pursuant to this Section D, per capita compliance will be evaluated at year five based on the per capita rate described in paragraph 1., above, and evaluated at year 10 and thereafter based on 150 gpcd. [insert rule effective date]

Significant Use ~~Within the SWUCA~~ – Public supply utilities often supply water for non-residential customers. If this non-residential use complies with any of the following criteria (listed A. through E. below), the use may be termed a significant use by the applicant and be deducted from the utility’s gross total water use prior to calculating their Adjusted Gross Compliance Per Capita Use. Whether or not any single significant use described in Part A. below is deducted for Adjusted Gross Compliance Per Capita calculation, all single significant uses must be reported in the Annual Report. Golf course and multi-family residential use (whether classified by the utility as commercial customer or not) do not qualify as significant uses.

1-1-03, Revised _____.

A. Single Significant Uses – A single significant use is an industrial/commercial (I/C) facility or other non-residential, non-governmental facility (which may consist of one or more buildings under common ownership, maintenance and management control at a single site or campus) that is supplied with greater than or equal to 25,000 gpd of water on an annual average basis (calculated for a calendar year), or whose water use comprises more than 5% of the utility’s annual water use (calculated for a calendar year). Facilities that are not related under common ownership, maintenance and management control shall not be combined to meet a single significant use threshold. ~~For reporting purposes, each single significant use shall be identified by customer name, and the annual gallons per day supplied to that customer shall be provided.~~ If the 25,000 gpd criteria is used for a facility, the 5% criteria may not also be used, and vice-versa.

This significant use deduction can be used in conjunction with the significant use deductions associated with regional government, higher education, and regional health care

facilities as described in Parts C. and D. below. All of the water provided to businesses where water itself is the primary ingredient in the product can be added to these deductions. Such businesses are described in E. below.

Exclusions: This single significant use deduction shall not be used if the permittee:

1. Uses the District-Wide Percent I/C Use method described below, or
2. Includes net commuter population estimates in their service area population estimates.

1-1-03, Revised _____.

B. District-Wide Percent I/C Use – Utilities with a large number of I/C (industrial/commercial) accounts, which fall below the 25,000 gpd single significant use threshold or the 5% of total utility use threshold may combine these smaller uses and deduct the percent of their I/C use that is greater than the District-wide three-year average percent I/C use which will be available annually from the District. ~~Documentation for this method shall include completion and submittal to the District of the I/C Worksheet, contained in Part D, Appendix C, of the Basis of Review, where commercial accounts are to be grouped by meter size, the total number of accounts shown as well as the total quantities supplied to each meter size group.~~ The deduction shall be calculated as follows:

1. Sum the total actual use for these accounts and divide by the total Gross Water Use ~~of Part Form A of the Public Supply Annual Report Per Capita Survey~~ (supplied by the District) to determine the utility’s percent I/C use.
2. From the Public Supply residential water use tables in the District’s three most recently published “Estimated Water Use” reports, add the total for each of the three year’s Public Supply District “Gross Use” and add each of the three year’s District “I/C Use”.
3. Divide the summed “I/C Use” by the summed “Gross Use” to derive the District-wide three-year average percent I/C use (to be referred to as the “District-Wide Percent I/C Use”).
4. Compare the Permittee’s percent I/C Use to the District-Wide Percent I/C Use. If the Permittees’ percent is equal to or less than the District-Wide Percent I/C Use, no deduction may be taken. If the Permittee’s percent I/C use is higher, subtract the District-wide Percent I/C Use from the Permittee’s percent I/C use to find the difference in percentages.
5. Multiply the Permittee’s Gross Use by the difference in percentages.

Example:

1. A permittee’s Gross Use is 5 MGD, and their combined I/C Use is 1.5 MGD. Their percent I/C Use is (1.5 MGD / 5 MGD) = 30%.

2. The sum of all Public Supply permittees' "Gross Use" for 2000, 2001, and 2002, as published in the District's 2000, 2001, and 2002 Estimated Water Use Reports, is 1,218 MGD, and the sum of all Public Supply permittees' "I/C Use" for the same three years is 283 MGD.
3. The District-wide Percent I/C Use is $(283 \text{ MGD} / 1,218 \text{ MGD}) = 23.2\%$.
4. The permittee's percent is higher, so $30\% - 23.2\% = 6.8\%$
5. $6.8\% \text{ times } 5 \text{ MGD} = 0.340 \text{ MGD}$.

The permittee may deduct 340,000 gpd from their total gross water use ~~when prior to~~ calculating the adjusted gross compliance per capita water use.

Exclusions: This method of significant use calculation may not be used if the permittee:

1. Uses any other significant use deduction method, or
2. Includes net commuter population in its estimate of service area functional population.

1-1-03, Revised _____.

C. Combined Regional Government and Higher Education Facilities – Some of the water provided to regional governmental or higher educational facilities (which may consist of one or more buildings under common ownership, maintenance and management) that are located inside the utility's service area but also serve persons who live outside of the utility's service area may be deducted. The name and use for each facility deducted must be provided. The deduction shall be calculated as follows:

1. Add the gallons per day of water provided to all of these facilities.
2. Using the most recent U.S. Census for the county, determine the percent of the permanent county population not living in the utility's service area.
3. Multiply the percent of county residents who do not live within the utility's service area times the combined use of the facilities. The amount calculated can be deducted.

Note: City parks, recreation centers, public and private K-through-12 schools, city or town governmental facilities, local vocational-technological schools and other facilities which generally only serve the service area population shall be excluded. However, water use for K-through-12 schools that do not serve any of the service area population may be deducted by the applicant. The following are examples of facilities for which the water provided may be partially deducted:

- a. Community colleges, colleges and universities (public or private), and

- b. County, state, and federal regional administrative and maintenance facilities.

Exclusions: The water use of these facilities may not be deducted under the provisions of this section if the permittee:

1. Uses the District-Wide Percent I/C Use method, or
2. Includes net commuter population estimates in service area population estimates.

1-1-03, Revised _____.

D. Individual Regional Health Facilities – Some of the water provided to health care facilities such as regional hospitals or specialty clinics (which may consist of one or more buildings at a single site or campus under common ownership, maintenance and management) that are inside the utility's service area but also serve persons living outside the utility service area boundaries may be deducted. The allowable deduction is calculated individually for each health care facility. It is the ratio of annual admissions with patient zip codes outside the service area to the total number of annual admissions times the water provided to the health care facility. The name and water use for each facility must be provided.

Exclusions: The water use of these facilities may not be deducted as an individual significant use under the provisions of this section if the permittee:

1. Uses the District-Wide Percent I/C Use method, or
2. Includes commuter population estimates in service area population estimates.

E. Individual Industrial/Commercial Facilities Where Water is the Primary Ingredient of the Final Product – Individual facilities such as brewers, soft-drink bottlers, and juice reconstitution plants (which may consist of one or more buildings at a single site or campus under common ownership, maintenance and management) where water is the primary ingredient of the final product may deduct 100% of the water in the product.

The permittee may choose to also take single significant use deductions described in A. above or use commuter population in its estimate of the functional population, but not both.

Exclusions: The water use of such facilities cannot be deducted if the permittee uses the District-Wide Percent I/C Use method.

1-1-03, Revised 1-1-07. _____.

CALCULATION OF PROJECTED PERMITTED QUANTITIES

1. New Applicants – New public water supply permit applicants shall be allocated an annual average daily quantity based on a projected compliance per capita rate no greater than 150 gpd plus a quantity that is equal to the allowable deductions and adjustments included in the calculation of a compliance per capita.

[insert rule effective date]

2. Existing Permittes

a. Permittees With A Five Year Compliance Per Capita Rate No Greater Than 150 Gpd As Of (effective year of rule) – Upon renewal or modification to address permitted quantities, annual average daily quantity allocations shall be based on:

i. a compliance per capita rate that is the lesser of 150 gpd or the most recent five year average of compliance per capitass, unless the applicant demonstrates factors that justify that a compliance per capita rate higher than the most recent five year average, but less than 150 gpd, be used,

ii. plus, a quantity that is equal to the allowable deductions and adjustments included in the calculation of the compliance per capita.

iii. The (effective year) five year compliance per capita rate shall be calculated as the average of the compliance per capita rate reported in the Annual Report for (effective year of rule) and the four years prior.

b. Permittees With A Five Year Compliance Per Capita Rate Greater Than 150 Gpd As Of (effective year of rule) – In the event that the provisons of this section 2.b. conflict with the provisions of a permit or consent order existing as of (effective date of rule), the terms of the permit or consent order shall supersede this section 2.b. However, a permittee may request a modification of the permit condition or consent order in order to apply this section 2.b. in lieu of the applicable permit condition or consent order provision.

i. Upon renewal or modification to address permitted quantities, annual average daily quantity allocations shall be based on:

(a) a compliance per capita rate that is based on a year of interest allowable per capita determined pursuant to the provisions above titled “PER CAPITA DAILY WATER USE, Section D, Phase-In Where a Per Capita Rate of 150 gpd is Exceeded as of December 31, [year of effective date of rule],

(b) plus, a quantity that is equal to the allowable deductions and adjustments included in the calculation of the compliance per capita.

The (effective year) five year compliance per capita rate shall be calculated as the average of the compliance per capita rate reported in the Annual Report for (effective year of rule) and the four years prior.

ii. Interpolating Per Capita –

(a) For purposes of calculating a projected permitted quantity for years between [effective year of rule] and [effective year of rule plus 5 years], the per capita rate utilized in determining annual quantities shall be based on a linear interpolation between the five year average compliance per capita rate calculated as of [effective year of rule] and the per capita rate that is 50% of the difference between that value and the per capita rate of 150 gpd as set forth in Section D.1 of Per Capita Daily Water Use.

(b) For purposes of calculating a projected permitted quantity for years between [effective year of rule plus 5 years] and [effective date of rule plus 10 years, the per capita rate utilized in determining annual quantities shall be based on a linear interpolation between the [effective year of rule plus 5 years] per capita value and the per capita rate of 150 gpd.

iii. Low or No Growth In Population – Where, based on the provisions of 2.b., above, if the quantity calculated for the last year of the proposed permit term, or ten years from [effective date of rule plus 10 years], whichever is earlier, is less than the quantity that is permitted as of (effective year of rule), or the most recent five year average compliance per capita rate upon renewal or modification, due to low or no growth in population. The proposed quantity shall be calculated as follows to avoid permit quantity non-compliance at the time of permit issuance or modification pursuant to the provisions of this Section 2.b. The proposed permitted quantity shall be equal to the proposed functional population for the year of interest times the five year average compliance per capita rate for [effective year of the rule]. Permit quantity compliance shall be based on per capita reductions in accordance with the above provisions of “PER CAPITA DAILY WATER USE”, section D, Phase-In Where A Per Capita Rate of 150 gpd is Exceeded as of December 31, [year of effective date of rule]. The compliance per capita rate for years between [effective year of rule] and [effective year of rule + 5 years] and [effective year of rule + 5 years] and [effective year of rule +10 years] shall be based on a linear interpolation plus allowable deductions. On January 1, [year of effective date of rule + 11 years] the permitted quantities shall adjust to equal the projected functional population for the last year of the permit times a per capita rate of 150 gallons per day, or, if less, the most recent five year average compliance per capita rate, plus a quantity equal to the allowable deductions and adjustments included in the calculation of a compliance per capita.

[insert rule effective date]

3. Calculation of Annual Average Daily Quantities

It is in the interest of the permittee to identify and document existing and projected allowable deductions from the per capita compliance formulas in the provisions titled “PER CAPITA DAILY WATER USE”, above. If not accurately identified and documented, sufficient permitted quantities may not be permitted. All water quantities in the below calculations are in average gallons per day.

The acronyms for the variables in the following method are the same as defined in the provisions titled “PER CAPITA DAILY WATER USE”, above.

The annual average daily allowable WD shall be calculated using the following equations to calculate WD, TL and then an adjusted WD that includes TL:

Year of Interest Allowable Withdrawal =

Projected FP x allowable per capita rate as determined above
- Projected IM
+ Projected EX
+ Projected SU
+ Projected GC
+ Projected EM
+ Projected ST
+ Projected RW
= Subtotal Withdrawals
+ Subtotal Withdrawals x (Projected Treatment Loss Percentage) + (no more than 1% of the treated water volume for flushing distribution lines for potability)
= Total Allowable Withdrawals

[insert rule effective date]

Low Persons Per Household Adjustment To Functional Population (FP)

If the PERMPPH (as calculated in Part D of the Basis of Review) for an existing service area or the projected persons per household (pph) for a new service area is less than 2.01 pph, the projected functional population (FP) may be adjusted upward to reflect a pph of 2.01 if a projected compliance per capita rate of 150 gpd or less cannot otherwise be achieved. The following adjustments may not be applied to non-residential populations such as tourists or net commuters. Documentation of the adjustment is required. The Permittee shall submit two sets of required population estimation spreadsheets A-I, set forth in Part D of the Water Use Permit Information Manual, as applicable, to document functional population using PERMPPH and the functional population using 2.01.

1. Projected Population Based Methods – If the population projection methodology isolates the residential population, then that portion of the projected population may be increased by the ratio of 2.01/PERMPPH for existing service areas or 2.01/projected pph for new service areas.

2. Projected Dwelling Unit Methods – If the population projection methodology is based on multiplying the projected number of dwelling units times a pph, a pph of 2.01 may be used in calculating the projected residential population.

[insert rule effective date]

Deducted Water Uses Within The SWUCA—

~~Any uses which are deducted from the per capita daily water use based on the above guidelines shall be supported with documentation demonstrating that they significant uses, environmental mitigation or treatment losses and shall include documentation of usage quantities. Multi-family residential accounts classified by the utility as commercial and irrigation accounts associated with residential accounts are not significant uses and may not be deducted. Additionally, all significant uses must be accounted for in a water conservation plan developed by the applicant/permittee which includes specific water conservation programs for each use or type of use.~~

~~A water survey must be conducted for each individual significant use deducted under A. Single Significant Use, D. Individual Regional Health Facilities and E. Individual Industrial/Commercial Facilities Where Water is the Primary Ingredient of the Final Product, above. A water conservation plan and water survey specific to each business type (e.g., offices, restaurants, retail/wholesale, etc.) or group type (government or higher education) for each significant use type that is deducted as a significant use shall be provided in lieu of a water conservation plan for each individual I/C customer included pursuant to B. District Wide Percent I/C Use, and C. Combined Regional Government and Higher Education Facilities above. This survey shall document the types of water uses that occur within the significant user’s facility, the quantities associated with these uses, and any leak detection or conservation activities undertaken by the user. [The following sentence moved to paragraph “Ex” of the provisions below titled “Documentation of Per Capita Daily Water Use Calculations for the Annual Report”.] Water supplied to wholesale public supply customers that are not required to obtain a Wholesale Public Supply Water Use Permit shall be identified and reported separately, with a separate per capita use calculated for each wholesale customer in addition to the wholesaler.~~

~~1-1-03, Amended 1-1-07, _____.~~

Reporting and Compliance with Adjusted Gross Per Capita Daily Water Use in the SWUCA If the permittee achieves the 150 gpd per person per capita limit set forth in the provisions titled “PER CAPITA DAILY WATER USE” above, using the unadjusted gross per capita calculation, they will be deemed in compliance and do not have to submit data for nor calculate the adjusted gross or compliance per capita in the Annual Report.

If the permittee achieves the 150 gpd per person per capita limit using the adjusted gross per capita calculation, they will be deemed in compliance and do not have to submit data for nor calculate the compliance per capita in the Annual Report.

If the permittee achieves the 150 per person per capita limit using the compliance per capita calculation they will be deemed in compliance.

~~After January 1, [effective year of rule + 11 years], if the permittee cannot achieve a compliance per capita rate of 150 gpd. All permittees whose permit requires the submittal of pumpage data shall calculate and report adjusted gross per capita water usage annually as outlined above. If a permittee has an adjusted gross per capita rate greater than 150 gpd, the permittee shall document in the Annual Report why this rate was not achieved, measures taken to comply with this requirement, and a plan to bring the permit into compliance with the 150 gpd rate. This report is subject to District approval. The District reserves the right to enforce the terms and conditions of the permit.~~

New 1-1-07, Revised _____.

The District will evaluate the information submitted by Permittees, including those operating under a Goal-based Water Conservation Plan, who have a compliance per capita rate greater than 150 gpd do not achieve this requirement to determine whether the lack of achievement is justifiable and a variance is warranted. Permittees may justify lack of achievement by documenting any unusual water needs, such as unusual plant establishment needs larger than average lot sizes with greater irrigation needs. However, justification for non-compliance does not constitute a waiver of the District's authority to enforce the terms and conditions of the permit. Phased reductions in water use shall be required unless the District determines that water usage was reasonable under the circumstances reported and that further reductions are not feasible, or a variance has been granted from the compliance per capita rate of 150 gallons per day. For such Permittees, individual water conservation requirements shall may be developed on a case-by-case basis.

Transferred from Chapters 7.1 and 7.2, 1-1-07, Revised _____.

~~RESIDENTIAL WATER USE REPORTS WITHIN THE SWUCA~~

Beginning January 1, 2003, Ppublic supply permittees in the SWUCA shall be required to annually report residential water use by type of dwelling unit, as required in "Annual Reports," item 5 49, below. Public supply permittees with no withdrawals as of [effective date of rule] within the SWUCA or the NTB WUCA, as it existed prior to October 1, 2007, shall have until April 1, 2010, to begin submitting these Annual Reports. Residential dwelling units shall be classified into single-family, multi-family (two or more dwelling units), and

mobile homes. Residential water use consists of the indoor and outdoor water uses associated with these classes of dwelling units, including irrigation uses, whether separately metered or not. The permittee shall document the methodology used to determine the number of dwelling units by type and their quantities used. Estimates of water use based upon meter size may be inaccurate and will not be accepted.

1-1-03, Revised Amended 1-1-07, _____.

~~ANNUAL REPORTS WITHIN THE SWUCA~~

~~Public supply utility permittees with a withdrawal point in the SWUCA, except those excluded by Rule 40D-2.801(b)(3), (5) and (6), F.A.C., whose permit requires the submittal of pumpage data shall submit the information specified below in an annual report covering the preceding calendar year. This report is due no later than April 1.~~

~~Those Ppublic supply utility permittees with a permit for less than 100,000 gpd annual average quantities that and who have an adjusted gross per capita rate less than 150 gpd are required to submit items 1, 2, 5, 6 through 6 and items 10 and 9 & 13 only.~~

- ~~1. The Permittee's per capita rate reported as unadjusted gross, adjusted gross or compliance per capita daily water use; Service area functional population served and methodology for determining service area functional population (see related provision under the provisions of SERVICE AREA FUNCTIONAL POPULATION ESTIMATES WITHIN THE SWUCA below);~~
- ~~2. Documentation of the quantities included in the calculation of unadjusted gross, adjusted gross or compliance per capita daily water use, as applicable, as described below in the provision titled "Documentation of Per Capita Daily Water Use Calculations for The Annual Report"; Significant deducted uses, the associated quantity, and conservation measures applied to these uses;~~
- ~~3. Total withdrawals (the permittee may use data from a master meter for this item);~~
- ~~4. Treatment losses;~~
- ~~5. Environmental mitigation quantities;~~
- ~~6. Sources and quantities of incoming and outgoing transfers of water and wholesale purchases and sales of water, with quantities determined at supplier's departure point;~~
- ~~3.7. A description of the current water rate structure;~~
- ~~4.8. Water audit report, if applicable;~~
- ~~5.9. Residential use information as follows:~~
 - ~~a. The number of single-family units served and their total water use;~~

- b. The number of multi-family units served and their total water use;
 - c. The number of mobile homes served and their total water use, if not included in item a. or b. above;
 - ~~6.40.~~ The quantity of total reclaimed water or stormwater provided by the permittee for use on both a total annual average daily and monthly basis;
 - ~~7.44.~~ For all individual customer reuse connections with line sizes of four inches or greater:
 - a. Account name and address;
 - b. Location of connection by latitude-longitude;
 - c. Line size;
 - d. Whether metered; ~~and~~
 - e. Metered quantities if metered; ~~and~~
 - ~~8.42.~~ Annual average daily quantity of unaccounted water and the percentage of unaccounted water relative to total withdrawals; ~~and~~
 - ~~9.43.~~ With every sixth yearly report, a current service area map in accordance with Section 2.5 of this Basis of Review.
- 1-1-03, Revised ~~Amended~~ 1-1-07, _____.

DOCUMENTATION OF PER CAPITA DAILY WATER USE CALCULATIONS FOR THE ANNUAL REPORT

Those quantities included in the calculation of unadjusted gross, adjusted gross and compliance per capita daily water use described above shall be documented and reported as set forth below by the permittee for the reporting period included in its permit.

WD (Withdrawals) – Documentation shall consist of pumpage records in annual average gallons per day as metered at the well head(s), wellfield departure point, surface water intake facility, stormwater facility or reclaimed water lines. The pumpage records shall be totaled for a total withdrawal quantity for the reporting period.

IM (Imported Water) – Documentation shall consist of a summary report of the water purchased or otherwise obtained in bulk from another utility for potable use in the service area in annual average gallons per day, and the supplier’s WUP number(s), or consumptive use permit number if the supplier is in another water management district. Quantities shall be determined at the departure point from the supplier’s service area. Irrigation water imported into the service area from another utility must be documented separately according to the use type (for example, commercial, residential, recreational/aesthetic).

EX (Exported Water) – Documentation shall consist of annual average gallons per day transferred in bulk quantities to another utility, and the recipients’s WUP number(s), or consumptive use permit number if the recipient is in another water management district. Quantities shall be determined at the departure point from the exporting permittee’s service area. Water supplied to wholesale public supply customers that are not required to obtain a Wholesale Public Supply Water Use Permit that are included in this category shall be identified by customer name and quantity.

TL (Treatment Losses) – Documentation shall consist of the annual average gallons per day lost in routine treatment for potability. Examples of treatment losses types are desalination reject, membrane cleaning and sand filtration backwash. Treatment losses are calculated as raw water into the plant minus treated water out of the plant. In addition, no more than 1% of treated water volume delivered to the distribution system for flushing distribution lines for potability may be deducted. Treated water volume delivered to the distribution system includes water from withdrawals plus imports, minus exports, minus treatment losses. Treatment loss and line flushing quantities shall be separately calculated and documented.

FP (Functional Population) – Documentation of the calculation of functional populations shall include Worksheets A through I (given in Appendix C of Part D of the Water Use Permit Information Manual), as applicable, and supporting documentation for survey data used in accordance with Part D. Permittees adjusting functional population based on low persons per household shall submit two sets of required population estimation spreadsheets A-I, set forth in Part D of the Water Use Permit Information Manual, as applicable, to document functional population using PERMPPH and the functional population using 2.01. Served dwelling unit counts shall be calculated by adding the number of units served in January and December and dividing by two (2) for a reporting period of a calendar year. Those permittees that choose not to, prior to being required to, report a functional population pursuant Part D of the Water Use Permit Information Manual as provided in the subsection below titled “Service Area Functional Population Estimates- For Current Year, Year Of Interest And Annual Reports” shall document in the Annual Report the method and data used to calculate the population served within the permittee’s service area that is reported in the Annual Report. The data and methodology for calculating the functional population numbers supplied in the Annual Report shall be included with the Annual Report.

SU (Significant Uses) – Whether or not a Single Significant Use described in A. below is deducted, all must be reported with documentation of quantities provided, identity of the

recipient, and identification of the type of use (A through E below). For significant uses that are deducted, the documentation shall include as follows:

A. Single Significant Uses

1. Single uses for which 25,000 gpd or more is provided:

- a. the type of industrial/commercial use,
- b. the customer's name and mailing address,
- c. the customer's contact person's name, email address and telephone number,
- d. annual average daily quantities provided,
- e. supporting meter readings or bills,
- f. a conservation plan that describes the permittee's specific water conservation programs for that significant user, and
- g. a water audit that documents the type(s) of water uses that occur within the significant user's facility, quantities used per type, leak detection and other water conservation activities undertaken by the user.

2. Single water uses that each comprise more than 5% of the utility's calendar annual use

- a. the type of industrial/commercial use,
- b. the customer's name and mailing address,
- c. the customer's contact person's name, email address and telephone number,
- d. annual average daily quantities provided,
- e. supporting meter readings or bills,
- f. a conservation plan that describes the permittee's specific water conservation programs for that significant user, and
- g. a water audit that documents the type(s) of water uses that occur within the significant user's facility, quantities used per type, leak detection and other water conservation activities undertaken by the user.

B. District-Wide Percent I/C Use – Documentation shall include, by meter size, the number of I/C connections and use in average gallons per day, the total unadjusted gross use (gpd) and the District three-year average I/C % used. A water conservation plan specific to each business type deducted (e.g., offices, restaurants, retail/wholesale, etc.) shall be provided in lieu of a water conservation plan for each individual I/C customer.

C. Combined Regional Government and Higher Education Facilities – Documentation shall include for each facility included in the deduction calculation, the facility name, the facility's contact person's name, email address and telephone

number, quantity provided in gpd and, from the most recent Census, the percent of the county total population not living in the utility service area. A water conservation plan specific to each group type (regional government and or qualifying education facilities) shall be provided in lieu of a water conservation plan for each individual customer deducted.

D. Individual Regional Health Facilities – Documentation shall include for each facility included in the deduction:

- a. the name of the facility,
- b. the facility's contact person's name, email address and telephone number,
- c. the types of water use and the gallons per day provided for each type of use,
- d. the total number of patients during the reporting period,
- e. the number of patients with postal zip codes outside the service area,
- f. a conservation plan that describes the permittee's specific water conservation programs for that significant user, and
- g. a water audit that documents the type(s) of water uses that occur within the significant user's facility, quantities used per type, leak detection and other water conservation activities undertaken by the user.

E. Individual I/C Facilities Where Water Is the Primary Ingredient of the Product – Documentation shall include for each facility:

- a. the name of the facility,
- b. the type of facility,
- c. the facility's contact person's name, email address and telephone number,
- d. the average gallons per day provided during the reporting period,
- e. the percent of the final product that is water,
- f. a conservation plan that describes the permittee's specific water conservation programs for that significant user, and
- g. a water audit that documents the type(s) of water uses that occur within the significant user's facility, quantities used per type, leak detection and other water conservation activities undertaken by the user.

GC (Golf Courses) – Documentation shall include a report on the permitted and separately metered quantities from ground water, surface water, reclaimed and stormwater sources used for golf course irrigation. To deduct these quantities, the quantities must be authorized for golf course irrigation in the permit for which per capita is being calculated.

EM (Environmental Mitigation) – Documentation shall include a report on the permitted and used quantities for the reporting period in gallons per day for environmental mitigation as required by the permit for which per capita is being calculated.

ST (Stormwater) – Documentation shall include a report on the separately metered stormwater quantities generated and used in the service area that are included in the utility’s permit for the service area for uses other than golf course irrigation. If the stormwater quantities are not reported as withdrawals (WD), they may not be deducted. The report shall include the number of connections by use type (e.g., residential, commercial, recreation aesthetic, etc.)

RW (Reclaimed Water Credit) – Documentation shall include a report on separately metered reclaimed water quantities generated by:

- a. name of the customer,
- b. account number,
- c. customer service address,
- d. quantities provided during the reporting period in average gallons per day,
- e. claimed deduction during the reporting period in average gallons per day,
- f. meter size,
- g. whether the use is inside or outside of the potable service area boundary, and
- h. description of the use (may not include residential or common area irrigation as described in the provisions titled Per Capita Daily Water Use, above).

[insert rule effective date]

The following four provisions are moved ahead in Section 3.6 as shown above.

POPULATION ESTIMATES

In service areas without significant seasonal population fluctuations, the use of permanent population estimates is appropriate. In service areas where there are significant seasonal population changes, it is to the advantage of the Applicant to estimate the seasonal population for use in conjunction with permanent population in the calculation of per capita daily water demand. If significant seasonal population fluctuations are not accounted for, per capita water daily water use may be over-estimated. Ten years of permanent and seasonal (if applicable) population growth must be projected, on a yearly basis, for the area served by the application.

When population estimates are required for years in between those estimates with published or referenced estimates, the Applicant must interpolate the data. The Applicant may assume that population increases in equal increments in the years between established estimates.

POPULATION DATA

Population data are available from the following sources: University of Florida Bureau of Economics and Business Research (BEBR), Regional Planning Council (RPC), County Planning Departments, the District Planning Department, or Comprehensive Land Use Plan (developed under Chapter 9J-5, F.A.C.). Use of other population data or methods other than those identified above may be considered if thoroughly documented. Counties and municipalities are required to estimate seasonal population as part of the comprehensive planning process. If such data are not available, seasonal service area population may be estimated using methods recommended by the State of Florida Department of Community Affairs (DCA). Applicants may also identify tourist population, if known.

CALCULATION OF SEASONALLY ADJUSTED POPULATION

Seasonally adjusted population is a weighted population that takes into account seasonal fluctuations. If monthly seasonal population data are available, then individual monthly estimates should be used in calculations.

For example:

Seasonal Population:

November	10,000
December	110,000
January	120,000
February	120,000
	460,000

Permanent Population:	100,000
100,000 x 8 months =	800,000
(Seasonal Population)	+ 460,000
	1,260,000

1,260 ÷ 12 months = 105,000 seasonally adjusted population

CALCULATION OF TOURIST-ADJUSTED POPULATION

Where projected short-term tourist population data are available, tourist population data may be included in seasonally adjusted population estimates. Tourists generally only represent demand for indoor uses of water, so the Applicant should estimate tourist use at one-half of permanent or seasonal population daily use. This estimate is accomplished

~~by utilizing one half of the estimated tourist population for a given time period in calculations. For example, if November for a given year is projected to have a permanent population of 100,000, a seasonal population of 10,000, and a tourist population of 10,000, the November population to be used in the seasonally adjusted population calculation would be $100,000 + 10,000 + 0.5(10,000) = 115,000$.~~

SERVICE AREA FUNCTIONAL POPULATION ESTIMATES – FOR CURRENT YEAR, YEAR OF INTEREST AND ANNUAL REPORTS WITHIN THE SWUCA

Permittees required to submit service area functional population estimates ~~in the SWUCA~~ shall estimate permanent resident, temporal resident, and group quarter populations. Service area tourist and net commuter population may be estimated as well. All estimates must be prepared in accordance with “Requirements for the Estimation of Permanent and Temporal Service Area Populations,” dated January 1, 2007, as set forth in Part D of the Basis of Review For Water Use Permit Applications. Public supply permittees whose permit requires the submittal of pumpage data shall submit the applicable Worksheets from Part D and supporting documentation for calculations of per capita rates utilizing this standardized methodology beginning two years from January 1, 2007. For those permittees with no withdrawals in the SWUCA as of [effective date of rule], this date shall be beginning two years from [effective date of rule].

New 1-1-07, Revised _____.

WATER AUDITS CONSERVATION REQUIREMENTS WITHIN THE SWUCA

~~Water Audit~~ All water supply permittees within the SWUCA shall implement water audit programs within 2 years of permit issuance. Water audits which identify a greater than 12% unaccounted water shall be followed by appropriate remedial actions. A thorough water audit can identify what is causing unaccounted water and alert the utility to the possibility of significant losses in the distribution system. Unaccounted water can be attributed to a variety of causes, including unauthorized uses, line flushing, authorized unmetered uses, under-registration of meters, fire flows, and leaks. Any losses that are measured and verifiably documented are not considered unaccounted water. Large, complex water supply systems may conduct the audit in phases, with prior approval by the District. Each annual report shall state the percentage of unaccounted water. If any annual report reflects a greater than 12% unaccounted water, the permittee must complete a water audit within 90 days of submittal of the annual report. A water audit report shall be submitted within 90 days of completion of the water audit. The water audit report shall include a summary

of the water audit and an implementation schedule for remedial actions to reduce the unaccounted water below 12%. The District shall take into account a permittee’s adherence to the remedial action plan in any subsequent years when the permittee’s annual report reflects greater than 12% unaccounted water.

1-1-03, Revised _____.

EXEMPTIONS FROM WATER CONSERVATION REQUIREMENTS

~~Exemptions From Water Conservation Requirements~~ Permittees ~~within the SWUCA~~ whose permitted annual average quantity is less than 100,000 gallons per day are exempted from the residential water use report, water conserving rate structure, and water audit requirements, if otherwise applicable.

1-1-03, Revised _____.

6.0 PERMIT CONDITIONS

The following public supply permit conditions are changed as follows:

28. ~~Data Gathering (Public Supply \geq 100,000-500,000)~~

~~Condition: The Permittee shall establish and/or maintain data gathering procedures that allow amounts of water to be accounted into various categories. These categories may be by either meter size or use, such as residential, commercial, industrial, unaccounted, and other. The procedures must produce data suitable for developing reliable estimates of current water use and projections of future water demand.~~

Conditions 29. – 32. are renumbered as 28. – 31.

The following changes are made to Chapter 7.0:

7.0 WATER USE CAUTION AREAS

7.3 NORTHERN TAMPA BAY WATER USE CAUTION AREA

The following provisions are deleted from Section 7.3.

~~4.1 Per-Capita Use~~

~~Per capita daily water use is defined as population related withdrawals associated with residential, business, institutional, industrial, miscellaneous metered, and unaccounted uses. Permittees with per capita daily water use which is skewed by~~

the demands of significant water uses can deduct these uses provided that these uses are separately accounted. Generally, the formula used for determining gallons per day per capita is as follows: total withdrawal minus significant uses, environmental mitigation, and treatment losses, divided by the population served (adjusted for seasonal and tourist populations, if appropriate). For interconnected systems, incoming transfers and wholesale purchases of water shall be added to withdrawals; outgoing transfers and wholesale sales of water shall be deducted from withdrawals.

A significant use, which may be deducted, is defined as an individual non-residential customer using 25,000 gallons per day or greater on an annual average basis, or an individual non-residential customer whose use represents greater than 5% of the utility's annual water use.

Any uses which are deducted from the per capita daily water use based on the above guidelines shall be supported with documentation of the use and associated quantities. Additionally, all significant deducted uses must be accounted for in a water conservation plan developed by the applicant/permittee which includes specific water conservation goals for each use or type of use. Environmental mitigation quantities permitted by the District and treatment losses such as desalination reject water and sand filtration backwash water shall be identified and reported separately, and shall not be included in the calculation of per capita use. Treatment losses for each type of treatment plant (e.g., desalination, sand filtration) shall be calculated separately. Treatment losses are calculated as raw water into the plant minus treated water out of the plant.

All permittees shall calculate and report gross per capita water usage as outlined above. However, for purposes of compliance with per capita requirements, a permittee may also calculate and report a per capita use rate that reflects incentives for reuse and the use of desalination sources.

For compliance purposes, a permittee may deduct the quantity of reclaimed water delivered for uses not served by the permittee's water utility. Allowable deductions shall be limited to those quantities that would normally be permitted for the activity (e.g., if reuse is supplied for golf course irrigation, the acreage of greens, tees, and fairways must be submitted, and the quantity of potable water that would be permitted for that use would be deducted from the total quantity used for compliance with the per capita requirement). Where the ground water source to be permitted or replaced is of significantly lower water quality but is suitable for the intended use, the reuse credit may not be claimed (e.g., reclaimed water replaces saline withdrawals used for irrigation, where the saline water is suitable for the irrigation and the withdrawals

do not threaten the water resources). Reclaimed water is wastewater that has received at least secondary treatment and is reused for a beneficial purpose. A permittee may deduct only the quantity of reclaimed water under the control of the utility, supplier, or governmental unit holding the water use permit.

For compliance purposes, a permittee may deduct 50% of the quantity of finished water from desalination sources prior to blending with water derived from freshwater sources. A desalination source is a plant which removes salts and other chemicals from highly mineralized water of greater than 500 mg/l Total Dissolved Solids.

Acceptable data sources for service area population and seasonal/tourist population adjustments are described in Section 3.6 of the Basis of Review. If the service area population is developed using a person per unit factor, then calculation of the factor must be documented indicating that the factor is reasonable for the service area. In cases where seasonal adjustment is appropriate and the service area is smaller than the area covered by the applicable comprehensive or regional plan, then the same seasonal adjustment factors used to adjust the permanent population of the planning area may be applied to the permanent population of the service area. Other methods of calculating service area population may be used provided that the methodology is accepted by the District as appropriate for the service area. Estimates of population shall be based on information developed or reported no more than twelve months prior to the applicable management period. When reporting per capita rates, the service area of a permitted public supply utility or supplier shall consist of the area which the permittee exerts management control for public water supply.

January 1, 1993 Management Period

Public Supply uses within the Water Use Caution Area shall meet, at a minimum, an overall maximum per capita water use rate of 150 gallons per day for the January 1, 1993 management period. This standard shall remain in effect until modified by rule. However, for planning purposes, also listed are per capita goals for future management periods. Public supply permittees shall also document the quantities supplied to deducted uses, and the water conservation measures employed for deducted significant uses.

January 1, 1997 Management Period

Based on information collected for the period 1990-1992, the per capita rate will be developed for the January 1, 1997 management period and adopted by rule with sufficient time for permittees to prepare for the 1997 management period. Based on current information, the per capita water use rate goal would be 140 gallons per day.

January 1, 2001 Management Period

Based on information collected for the period 1993-1996, the per capita rate will be developed for the January 1, 2001 management period and adopted by rule with sufficient time for permittees to prepare for the 2001 management period. Based on current information, the per capita water use rate goal would be 130 gallons per day.

January 1, 2011 Management Period

Based on information collected for the period 1997-2000, the per capita rate will be developed for the January 1, 2011 management period and adopted by rule with sufficient time for permittees to prepare for the 2011 management period. Based on current information, the per capita water use rate goal would be 130 gallons per day.

This requirement shall be implemented by applying the following permit conditions to all existing and new public supply permits:

1. By January 1, 1993, the Permittee shall achieve a per capita water rate equal to or less than 150 gpd. This standard shall remain in effect until modified by rule.

For planning purposes, listed below are per capita goals for future management periods. These goals may be established as requirements through future rulemaking by the District:

- a. By January 1, 1997, the District may establish a new per capita water use standard. Based on current information, the per capita water use goal may be established by rule at 140 gpd;
- b. By January 1, 2001, the District may establish a new per capita water use standards. Based on current information, the per capita water use goal may be established by rule at 130 gpd; and,
- c. By January 1, 2011, the District may establish a new per capita water use standard. Based on current information, the per capita water use goal may be established by rule at 130 gpd;

2. By April 1 of each year for the preceding fiscal year (October 1 through September 30), the permittee shall submit a report detailing:

- a. The population served;
- b. Significant deducted uses, the associated quantity, and conservation measures applied to these uses;
- c. Total withdrawals;
- d. Treatment losses;
- e. Environmental mitigation quantities.

- f. Sources and quantities of incoming and outgoing transfers of water and wholesale purchases and sales of water, with quantities determined at the supplier's departure point.
- g. Documentation of reuse and desalination credits, if taken.

As of January 1, 1993, if the permittee does not achieve the specified per capita rates, the report shall document why these rates and requirements were not achievable, measures taken to attempt meeting them, and a plan to bring the permit into compliance. This report is subject to District approval. If the report is not approved, the Permittee is in violation of the Water Use Permit.

3. The District will evaluate information submitted by Permittees who do not achieve these requirements to determine whether the lack of achievement is justifiable and a variance is warranted. Permittees may justify lack of achievement by documenting unusual water needs, such as larger than average lot sizes with greater water irrigation needs than normal-sized lots. However, even with such documented justification, phased reductions in water use shall be required unless the District determines that water usage was reasonable under the circumstances reported and that further reductions are not feasible. For such Permittees, on a case-by-case basis, individual water conservation requirements may be developed for each management period.

Prior to the 1997, 2001, and 2011 management periods, the District will reassess the per capita and other uses conservation goals. As a result of this reassessment, these goals may be adjusted upward or downward through rulemaking and will become requirements.

1.4 Residential Water Use Reports

Beginning April 1, 1993, public supply permittees shall be required to annually report residential water use by type of dwelling unit. Residential dwelling units shall be classified into single family, multi family (two or more dwelling units), and mobile homes. Residential water use consists of the indoor and outdoor water uses associated with these classes of dwelling units, including irrigation uses, whether separately metered or not. The permittee shall document the methodology used to determine the number of dwelling units by type and their quantities used. Estimates of water use based upon meter size may be inaccurate and will not be accepted.

This requirement shall be implemented by applying the following permit condition to all public supply permits:

~~Beginning in 1993, by April 1 of each year for the preceding fiscal year (October 1 through September 30), the permittee shall submit a residential water use report detailing:~~

- ~~a. The number of single family dwelling units served and their total water use,~~
- ~~b. The number of multi-family dwelling units served and their total water use,~~
- ~~c. The number of mobile homes served and their total water use.~~

~~Residential water use quantities shall include both the indoor and outdoor water uses associated with the dwelling units, including irrigation water.~~

The following document is incorporated by reference in Rule 40D-2.091(1), F.A.C.

WATER USE PERMIT INFORMATION MANUAL

Part D, Requirements for the Estimation of Permanent and Temporal Service Area Populations in the Southern Water Use Caution Area

The following change is made to the title of Part D:

Requirements for the Estimation of Permanent and Temporal Service Area Populations ~~in the Southern Water Use Caution Area~~

The following changes are made in Part D:

List of Acronyms and Definitions

PERMPOP – permanent resident population for the year of interest – the estimated permanent resident population of the service area (not including group quarters population) that does not reside outside the service area for a portion of the year.

RESUNITS – average residential account housing units for the year of interest – the number of residential housing units served in the retail service area in January and December of the year of interest divided by two.

1.0 Introduction

The calculation of per capita water use requires an estimate of the total retail water service area functional population. The required functional population includes permanent residents, seasonal residents and group quarters population only. Adding the functional tourist and net commuter population to the required functional population is optional. Data sources, more detailed explanations, and examples of calculations may be found in the appendices to this document. All calculations and

documentation shall be conducted and provided in accordance with the provisions of this document, including those found in the appendices.

This methodology involves the creation of a number of demographic ratios from Census or survey data that are appropriate to the service area. The ratios, such as persons-per-household, are then applied to the year of interest housing units and/or population served to estimate year of interest service area populations.

If the service area did not exist at the time of the most recent decennial Census, the permittee must conduct a survey, consistent with the provisions of Appendix B of this document to determine seasonal and permanent population served. Data collected must include both seasonal and permanent households, seasonal and permanent persons-per-household, and seasonal resident household length of stay.

From time to time, the District may provide additional data and default values or update data and default values and will specifically indicate that the new or service area summarized data and values may be used in lieu of those prescribed herein.

Appendix A

The title of Appendix A, Part D is changed as follows:

Population Data Sources, Details & Examples For Worksheets A-I To

Part D of the Water Use Permit Information Manual: Requirements for the Estimation of Permanent and Temporal Service Area Populations ~~in the Southern Water Use Caution Area~~

The following changes are made to Appendix A, Part D as follows:

1.1 Utility Data Required

The average number of actual or equivalent residential account housing units served in January and December ~~April~~ of the year of interest for the retail water service area.

2.3 Census Geographic Identity Codes (STFID)

The Census numeric code for the identification of a single Census block consists of a string of numbers called the STFID. For example, the STFID 120150101001001 is interpreted as:

State = "12" (Florida)
 County = "015" (Charlotte)
 Tract = "010100"

Block Group = "1" = the first digit of the block number
 Block = "1001"

The county codes for the counties in the SWUCA are:

Charlotte	=	015	Desoto	=	027
<u>Citrus</u>	≡	<u>017</u>	Hardee	=	049
<u>Hernando</u>	≡	<u>053</u>	Highlands	=	055
Hillsborough	=	057	<u>Lake</u>	≡	<u>069</u>
<u>Levy</u>	≡	<u>075</u>	Manatee	=	081
<u>Marion</u>	≡	<u>083</u>	<u>Pasco</u>	≡	<u>101</u>
<u>Pinellas</u>	≡	<u>103</u>	Polk	=	105
Sarasota	=	115	<u>Sumter</u>	≡	<u>119</u>

4.11 Worksheet B Section 13 – Calculation of Group Quarters Population

Calculate the ratio of Census group quarters population (CGRUPPOP) to Census housing units (CHOUSUNITS) for the Census blocks wholly or partially within the service area. This ratio is then applied to the residential units served for the year of interest (RESUNITS) from Section 1 of Worksheet B. Permittees may also elect to survey group quarters population customers to determine the service area group quarters population. The survey must be conducted in accordance with the minimum sample size requirements of Appendix B of this document and the population must be estimated in a manner consistent with the Census definition of group quarters population. Since group quarters population is included in the service area population, the permittee may not treat group quarters accounts as commercial for purposes of deducting significant uses pursuant to "PER CAPITA DAILY WATER USE IN THE SWUCA," Section 3.6 of the Basis of Review. Group quarters population for the year of interest (GRUPPOP) shall be calculated as follows:

$$(\text{Census group quarters population} / \text{Census housing units}) \times \text{residential units served for the year of interest} = \text{GRUPPOP}$$

5.1.1 Inventory of Service Area Public Lodging Rooms

For public lodging facilities such as hotels/motels, RV parks/campgrounds and short-term rental condominiums, "rooms", "sites", and "units" are used interchangeably. The number of available rooms in the service area shall be obtained from the Florida Department of Business and Professional Regulation (DBPR), local convention/visitor bureaus (if tailored to the service area), utility billing records or a survey of utility lodging customers (see Section 5.1.4 of this Appendix). The District intends to provide a periodically updated electronic map of lodging facilities and numbers of rooms on its website. This file can be used with geographic information systems to determine the number of facilities and lodging units within a utility service area.

If not available from the District, the number of available public lodging rooms in the service area may be derived from data on the DBPR website www.myflorida.com/dbpr. The website provides information on the number of rooms along with the business name and location address that can be used to determine whether the lodging facility is located in the service area. Facilities are coded by type. The DBPR lodging facility codes to be used estimating available rooms are: 2001 (hotels), 2002 (motels), 2005 (bed and breakfast), 2006 (resort condominiums) and 2007 (resort dwellings). Only served facilities and lodging rooms may be included. (Note: If resort condominiums and dwellings are included in the utility's residential customer classes *and* are counted as public lodging units for tourist population estimation, then the number of such units shall be deducted from the dwelling unit counts in Worksheet A.)

5.1.2 Average Annual Monthly Occupancy Rate

If monthly occupancy rates are not available from utility customer/consultant surveys, existing studies or sources such as conventions/visitor bureaus or the District, the average monthly occupancy rate shall be calculated by averaging the monthly, quarterly or seasonal occupancy rates according to the available data. The average annual occupancy rate may also be used as the monthly occupancy rate. Only data from source studies that include the service area shall be utilized. The geographic scope of average annual occupancy rate studies shall be no larger than county-wide unless the data are from a regional convention/visitors bureau. The example below shows the calculation of the average annual monthly occupancy rate from data other than utility lodging customer survey data. See Section 5.1.4 of this Appendix for an example of the calculation of the calculation of occupancy rates from customer survey data.

Example Average Annual Monthly Occupancy Rate Calculations (for data other than utility lodging customer survey data)											
Monthly Occupancy Rates											
JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
.90	.85	.80	.75	.75	.70	.70	.65	.65	.70	.75	.85
Average Annual Monthly Occupancy Rate =											
$(.90+.85+.80+.75+.75+.70+.70+.65+.65+.70+.75+.85) / 12 = .754$											

The following changes are made to the Supplement to Appendix A:

The title is changed as follows:

OPTIONAL NET COMMUTER DATA
 Southern Water Use Caution Area
 Supplement To
 APPENDIX A

Marion, Citrus, Sumter, Hernando, Levy, Lake, Pasco, and Pinellas Counties, in addition to the eight counties that are in the SWUCA so that the Supplement to Appendix A reads as follows:

Population Data Sources, Details & Examples For Worksheets
 A-I

Tables are added titled "Workers, Resident Workers, Net Commuters, and Total Housing Units for the Census 2000 Tracts" for the eight counties that are not in the SWUCA:

Appendix B

The title of Appendix B, Part D is changed as follows:

Population Survey Minimum Requirements
 To

Part D of the Water Use Permit Information Manual:
 Requirements for the Estimation of Permanent and Temporal
 Service Area Populations ~~in the Southern Water Use
 Caution Area~~

Appendix C

The title of Appendix C, Part D is changed as follows:

Worksheets A To I
 To

Part D of the Water Use Permit: Requirements for the
 Estimation of Permanent and Temporal Service Area
 Populations ~~in the Southern Water Use Caution Area~~

Worksheet D is changed to delete the reference to SWUCA in
 the Note that reads “in the Southern Water Use Caution Area”
 as follows:

Worksheet D: Peak Seasonal Resident Ratio

Page: of :

Permittee Name:

Permit Number(s):

Population Year of Interest:

Data Entry Required in Solid Bold Bordered Cells

Calculated Output in Dashed Bordered Cells

NOTE: See Appendix "A", Section 3, "Worksheet D: Peak Seasonal Residential Ratio", in Part D "Requirements for the Estimation of Permanent and Temporal Service Area Populations in the Southern Water Use Caution Area" of the Water Use Permit Information Manual for identification and selection of ZIP Codes, Census Year Estimated Peak Seasonal Resident Population and permanent population by ZCTA. Additional ZIP Code rows may be added as needed.

Part 1: District – Provided Admissions and Census Year Peak Seasonal and Permanent Resident Population			
Geographic ZIP Codes/ZCTAs	Average Annual 3rd Quarter Admissions by ZIP/ZCTA Only if Small Service Area Partial ZCTA Selection Criteria Used A	ZIP Code/ZCTA Estimated Census Year Peak Seasonal Resident Population B	Census Year ZCTA Permanent Population C
	Sum of A =	Sum of B = E	Sum of C = F
Sum Seasonal (B) & Permanent (C) Populations			

District Data Peak Seasonal Resident Ratio (SEASRR) = (E + F) / F =

Part 2: Survey Results for Peak Seasonal and Permanent Resident Population and Seasonal Duration

Year Survey Performed:

Month Survey Performed (Jan/Feb/Mar)

Residential Account Housing Units

Served in Year Prior to Survey:

Interpolated Minimum Number of

Returned Surveys:

Number of Usable Surveys Returned:

Total Seasonal Resident Household Surveys Returned = A

Total Persons in Seasonal Households from Returned Surveys = B

Seasonal Resident Persons Per Household (SEASPPH) = B/A

Total Months Seasonal Residents Reside in the Service Area = C

Seasonal Proportional Residence Time (SEASPROP) = (C/A)/12

Total Permanent Resident Household	D
Surveys Returned = D	
Total Persons in Permanent	E
Households from Returned Surveys = E	
Permanent Resident Persons	E/D
Per Household (PERMPPH) = E/D	
Seasonal to Total Household	A/(A+D)
Ratio SEAS/TOTHH = A/(A+D)	

Worksheet G:

Within Part 3: Redesignate the acronym for Service Area Residential Account Housing Units for the Year of Interest from "RAHUYI" to "RESUNITS" as follows:

Worksheet G: Functional Tourist Population

Page: of :

Permittee Name:

Permit Number(s):

Population Year of Interest:

Data Entry Required in Solid Bold Bordered Cells

Calculated Output in Dashed Bordered Cells

Use Part 1 to estimate functional tourist population from directly collected data or Part 2 to estimate functional tourist population indirectly from tourism accommodation taxes. Use Part 3 to estimate functional in-home tourist population.

Part 1: Public Lodging Data Method

a. Inventory of Service Area Public Lodging

Attach documentation of data source and year collected.

Note: Insert additional rows as needed.

Public Lodging Facility Name	Number of Rooms
------------------------------	-----------------

Sum of Service Area Rooms = A	A
-------------------------------	---

b. Average Annual Monthly Occupancy Rate

Attach documentation of data source and year collected. For seasonal data, insert same occupancy rate for each month in applicable season.

For average annual data, enter annual rate in each month.

Customer survey data must be weighted by customer rooms.

See Section A-5.1.2.

Month	Monthly Occupancy Rate
January	
February	
March	

April
 May
 June
 July
 August
 September
 October
 November
 December

C

Sum of Monthly Occupancy Rates = C

D

Average Monthly Occupancy Rate = D = C/12

c. Average Guests Per Room (party size)

Documentation of data source and year collected required (other than defaults).
 Customer survey data must be weighted by number of rooms per customer respondent. See Section 5.1.4 of Appendix A..

Enter an X under the source of the data and enter the selected value under E.

Coastal Beach	All Other	Lodging	Other	
Destination County	Counties	Customer	(Must	
Default = 2.7	Default = 2.3	Survey	Document)	E

d. Total Direct Data Daily Public Lodging Tourist Population

F

F = A x D x E

Part 2: Tourist Accomodations Lodging Tax Method

Documentation of data source and year collected required (other than defaults).
 If average daily room rate is from customer survey, room rates must be weighted by number of rooms per customer respondent (see Section 5.1.4 App. A).

a. Calculation of Room Days Per Month

Month	Service Area Tourist Accommodation Tax Collections	Tax Rate	Monthly Room Revenue	Average Daily Room Rate	Total Room Days Per Month
	G	H	I = G/H	J	K = I/J
January					
February					
March					
April					
May					
June					
July					
August					
September					
October					
November					
December					

L

Sum of Room Days Per Month = L

b. Average Guests Per Room (party size)

Documentation of data source and year collected required (other than defaults).

Customer survey data must be weighted by number of rooms per customer respondent. See Section 5.1.4 of Appendix A.

Enter an X under the source of the data and enter the selected value under M.

Coastal Beach Destination County Default = 2.7	All Other Counties Default = 2.3	Lodging Customer Survey	Other	M

c. Calculation of Tourist Tax Estimated Tourist Daily Population

N

$$N = (L \times M) / 365$$

Part 3. In-Home Tourist Population

Documentation of data source and year collected required.

Note: See Worksheet A for total Service Area Residential Account

Housing Units for the Year of Interest (RESUNITS)

~~RAHUYI~~

Average In-Home Tourist Days Per Household Per Year O	Residential Account Housing Units RESUNITS P	Average Annual In-Home Tourists per Day Q

$$Q = (O \times P) / 365$$

Part 4: Total Functional (Daily) Tourist Population (FTOURPOP)

The total functional tourist population is the sum of "F" from Part 1 or "N" from Part 2 plus "Q" from Part 3.

$$FTOURPOP = F \text{ or } N + Q$$

Appendix D

The title of Appendix D, Part D is changed as follows:

Census Year

Seasonal Resident and Permanent Population by ZIP Code

~~Southern Water Use Caution Area Only~~

To

Part D of the Water Use Permit Information Manual:

Requirements for the Estimation of Permanent and Temporal

Service Area Populations ~~in the Southern Water Use Caution~~

~~Area~~

The following changes are made to Appendix D:

Filename references are updated to reflect a District-wide file, including that references to “SWUCA only” are deleted from the Appendix. Tables are added titled “Emergency Admissions – Patients 55-84 Years Old, Seasonal & Permanent Population

by Geographic ZIP Code” for the 8 counties that are not in the SWUCA: Marion, Citrus, Sumter, Hernando, Levy, Lake, Pasco, and Pinellas Counties so that the Appendix reads as follows:

Filename: Final Districtwide 040607 App D Seasonal Data by ZIPs.xls
 Sheet 1-Instructions
 April 6, 2007

Steps in the Calculation of Peak Seasonal Resident Ratio (SEASRR)

Step 1: Select ZIP Codes to Represent Water Service Area

See rule for criteria for selecting appropriate ZIP Codes.

Step 2: Sum the Seasonal Resident Populations for the Selected ZIP Codes

Step 3: Sum the Permanent Resident Populations for the Selected ZIP Codes

Step 4: Calculate the Peak Seasonal Resident Ratio (SEASRR)

$$\frac{(\text{Sum of Census yr. seasonal residents} + \text{Sum of Census yr. permanent residents})}{\text{Sum of Census yr. permanent residents}}$$

See Example Ratio Calculation

Filename: Final Districtwide 040607 App D Seasonal Data by ZIPs.xls

Sheet 4-Average Third Quarter Emergency Admissions by Zip Code

April 6, 2007

Example Calculation of Average Annual Third Quarter Hospital Admissions by Zip Code

Patients Aged 55-84, Emergency Admissions Only

Permittees wishing to select partial zip codes/Zip Code Tabulation Areas (ZCTA) to represent their service area using the “Zip Codes Partially Within Small Service Areas” provisions of the rule will find the three-year average of third quarter admissions by Zip Code in Sheet 5 “Average Annual Q3 Admissions by Zip Code”. Simply locate the selected zip code from the Geographic Patient Zip Code column and then locate the corresponding average emergency admissions in the “Avg. 1999-2001 Quarter 3 Admissions” column.

Note: Please scroll down to “Average Third Quarter Emergency Admissions – Patients 55-84 Years Old by Geographic Zip Codes” table.

Filename: Final Districtwide 040607 App D Seasonal Data by ZIPs.xls

Sheet 5-Data Source and Modifications to the Data Set

April 6, 2007

Source:

The original source of the admissions data is the Hospital Inpatient Data compiled by the Florida Agency for Healthcare Administration (AHCA). The data are cumulative for the period 1999-2001.

The age range for patients is 55-84 years old. The totals reflect emergency admissions only.

Modifications to AHCA Dataset

Geographic ZIP Codes:

These are only ZIP Codes that have geographic boundaries. These ZIP Codes are assigned to street or physical addresses exclusively. Emergency patients who listed post office box addresses with post office box ZIP Codes were included in the ZIP Codes where those post office boxes are physically located. Consequently, emergency admissions totals by ZIP Code may differ from those calculated using the original admissions data from the Agency for Healthcare Administration.

Quarter 3 (July-September) Modification:

For each year 1999-2001, and each Geographic ZIP Code, if third quarter (June-August) emergency admissions were less than first quarter (January-March) emergencies, they were set equal to first quarter emergency admissions. Consequently, the difference between emergency admissions in the first quarter and those in the third quarter is greater than or equal to zero for each year and each Geographic ZIP Code. This ensures that the peak seasonal resident ratio is greater than or equal to 1.

Filename: Final Districtwide 040607 App D Seasonal Data by ZIPs.xls

Sheet 6-Missing and New ZIP Codes

April 6, 2007

Missing ZIP Codes

If a ZIP Code is not listed, it is because there were no emergency admissions for patients 55-84 years old in any quarter between January 1999 and December 2001 to hospitals located in counties inside or adjacent to the Southwest Florida Water Management District.

Reconciling New Geographic Patient ZIP Codes with Census 2000 ZIP Code Tabulation Areas (ZCTAs)

There was no permanent population for some of the geographic ZIP Codes listed in Table 1 below. These geographic ZIP Codes did not exist at the time the Bureau of the Census mapped the ZCTAs and have no ZCTA equivalent. The admissions reported from these geographic ZIP Codes were reassigned to their original geographic ZIP Codes. For example, emergency admissions reported from new ZIP Code 32162 were added to those reported from 32159. ZIP Code 33542 was carved out of two ZIP Codes (33540 and 33541). In this case, the admissions were divided according the percentage of housing units from each of the zip codes now inside 33542. Table 1 indicates which ZCTAs received admissions from these 18 new geographic ZIP Codes.

Note: Please scroll down to see Tables 1 and 2.

 Sheet 7-Seasonal Admissions Incidence
 April 6, 2007

Determination of the Overall Emergency Admission Incidence for Seasonal Residents 55-84 years old

The admissions incidence is based on third quarter emergency hospital admissions for the age group 45-74 and is calculated as the admissions with patient ZIP Codes for this age group in

ZIP Codes in the District divided by the total population of this age group in ZIP Codes in the District. The emergency admissions incidence is based on a younger age group because research indicates that the seasonal resident population is generally healthier than the equivalent age resident permanent resident population. The incidence is calculated as the 3-year average of 3rd quarter emergency admissions for the 45-74 age group divided by the Census year total 45-74 age group population for the ZIP Codes and ZCTA's in the District. Again, the three years used to estimate the average Census year admissions are Census -1, Census, and Census +1. For the 2000 Census, the District-wide 45-74 emergency admissions incidence to be used in estimating the Census year seasonal resident population is 0.015302.

Geography	45-74 year old age group 1999 - 2001 Hospital Admissions Data (Emergency ONLY)					TOTAL	Census 2000 Permanent Population 45-74 years old	Overall Incidence*

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: August 26, 2008

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: March 16, 2007

DEPARTMENT OF ENVIRONMENTAL PROTECTION
 Notices for the Department of Environmental Protection between December 28, 2001 and June 30, 2006, go to <http://www.dep.state.fl.us/> under the link or button titled "Official Notices."

DEPARTMENT OF ENVIRONMENTAL PROTECTION
 RULE NO.: 62-113.200
 RULE TITLE: Delegation of Authority by Secretary
 PURPOSE AND EFFECT: Rule 62-113.200, F.A.C., is amended to delegate to the Northwest Florida, St. Johns River, Suwannee River, Southwest Florida, and South Florida Water Management Districts (Districts), and Broward County the authority granted to the Department under Sections 373.109(1)(a) through (d), (2), and (5), F.S., as amended by Section 18 of Senate Bill 1294 (2008), Chapter 2008-150, Laws of Florida, to charge certain minimum and new fees for activities regulated under Part IV of Chapter 373, F.S., and to adjust all fees under Part IV of Chapter 373, F.S., as necessary to reflect, at a minimum, upward adjustments in the Consumer Price Index or similar inflation indicator as adopted by rule. The Department is vested with the authority for this delegation under Sections 373.026(7), 373.103, and 403.805, F.S.
 SUMMARY: Sections 373.109(1)(b) through (d), F.S., as amended by Senate Bill 1294 (2008), Chapter 2008-150, Laws of Florida, required the Department to charge, effective July 1, 2008, a \$250 minimum fee for ERP noticed general permits and individual permits; a new \$100 minimum fee, not to exceed \$500 if later adopted by rule, to verify qualification for an exemption; and a new \$100 minimum fee, not to exceed \$500 if later adopted by rule, to conduct an informal wetland boundary determination. Section 373.109(1)(a), F.S., also requires the Department to review all of its ERP application and notice fees, and to initiate rulemaking no later than December 1, 2008, to increase each application fee authorized under Part IV of Chapter 373, F.S., to ensure that such fees reflect, at a minimum, an upward adjustment in the Consumer Price Index compiled by the United States Department of Labor, or similar inflation indicator, since the original fee was established or more recently revised, and to adopt the inflation

indicator by rule. Section 373.109(2), F.S., further requires the Department to review the fees authorized under Part IV of Chapter 373, F.S., at least once every five years and adjust those fees as necessary to reflect upward adjustments in the inflation index.

Rather than the Department undertaking this rulemaking for regulated activities that seek permits or other determinations from the Districts or delegated local governments under Part IV of Chapter 373, the Department proposes to delegate this authority to these entities. Sections 373.016(5), 373.103, and 403.805, F.S., provide, among other things, the authority for the Secretary to delegate to the Districts and delegated local governments the authority to adopt and adjust their fees. This delegation will provide the Districts and Broward County (the only local government delegated at this time to implement the environmental resource permit program) the authority to amend their fees adopted by rule under Part IV of Chapter 373, F.S., to charge the minimum (except the minimum fee of \$100 to verify an exemption under Part IV, Chapter 373 which was effective on July 1, 2008, for all entities regulating under Part IV) and new fees, and to adjust their permit fees to reflect changes in the Consumer Price Index, in accordance with Sections 373.109(1)(a) through (d), (2) and (5), F.S.

The Department is amending Chapters 62-4 and 62-346, F.A.C., in separate rulemaking to revise its fees under Part IV of Chapter 373, F.S., as required by Sections 373.109(1) through (5), F.S., as amended by Section 18 of Senate Bill 1294 (2008), Chapter 2008-150, Laws of Florida.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared because this rule merely delegates authority to the Districts and Broward County to adopt rules to revise their fees under Part IV of Chapter 373, F.S., in accordance with the authority granted to the Department under Section 373.109(1)(a) through (d), (2), and (5), F.S., as amended by Section 18 of Senate Bill 1294 (2008), Chapter 2008-150, Laws of Florida. The Department's authority for this delegation is vested in Sections 373.016(5), 373.103, and 403.805, F.S. The delegation, by itself, will not have any economic impact. Each District and Broward County will have to initiate rulemaking to amend their rules to adjust their fees in accordance with this delegation of authority.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 110.201, 120.53(1)(a), 373.046, 373.103, 373.109, 373.309, 376.303, 403.061, 403.1815, 403.1823, 403.1832, 403.1838, 403.704, 403.805 FS., Chapter 2008-150, Laws of Florida.

LAW IMPLEMENTED: 110.227, 120.53(1)(a), 373.016(5), 373.046, 373.103, 373.109, 373.308, 373.309, 373.4135, 403.088, 403.1821 through 403.1838, 403.805 FS., Chapter 2008-150, Laws of Florida.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Mary VanTassel, Florida Department of Environmental Protection, Office of Submerged Lands and Environmental Resources, 2600 Blair Stone Road, M.S. 2500, Tallahassee, FL 32399-2400, telephone (850)245-8483, or e-mail: Mary.VanTassel@dep.state.fl.us. Further information and updates on development of this rule also may be obtained from the Department's Internet site at: <http://www.dep.state.fl.us/water/wetlands/erp/rules/rulestat.htm>. (OGC No. 08-1687)

THE FULL TEXT OF THE PROPOSED RULE IS:

62-113.200 Delegation of Authority by Secretary.

The Secretary, as head of the Department, has delegated authority as follows:

(1) through (11) No change.

(12)(a) To the South Florida Water Management District, the Southwest Florida Water Management District, the St. Johns River Water Management District, the Suwannee River Water Management District, and the Northwest Florida Water Management District the authority to administer and enforce those provisions of Chapter 373, F.S., water quality and other functions of the Department, and the rules of the Department as have been delegated from time to time to the Districts by order of the Secretary, after fourteen (14) days notice to the Governing Board and publication in the Florida Administrative Weekly. Authority delegated shall be listed in this rule subsequent to delegation. The following Districts are authorized to administer and enforce the following laws and rules, including Section 373.103(1), F.S., to the extent necessary to fully implement authority specifically delegated.

1. through 7. No change.

8. Northwest Florida Water Management District, Suwannee River Water Management District, St. Johns River Water Management District, Southwest Florida Water Management District, South Florida Water Management District (Districts), and Broward County: in conformance with the language of Section 18 of Chapter 2008-150, Laws of Florida, which mandates that the Department initiate rulemaking to adopt new and increased fees under Part IV of Chapter 373, F.S., the Districts and Broward County are delegated the following authorities: (1) to charge, upon the effective date of this rule, the minimum fees as set forth in Sections 373.109(1)(b) and (d), F.S.; (2) to adopt rules to increase the minimum fees set forth in Sections 373.109(1)(b) through (d), F.S.; (3) to adopt rules to increase each application fee authorized under Part IV of Chapter 373, F.S., such that

each fee reflects, at a minimum, any upward adjustment in the Consumer Price Index compiled by the United States Department of Labor, or similar inflation indicator, since the original fee was established or most recently revised; (4) to establish by rule any inflation index to be used for this purpose; and (5) to review the fees authorized under Part IV of Chapter 373, F.S., at least once every five years and adjust the fees upward as necessary to reflect changes based on its adopted inflation index.

(b) No change.

(13) through (16) No change.

Specific Authority 110.201, 120.53(1)(a), 373.046, 373.103, 373.109, 373.309, 376.303, 403.061, 403.1815, 403.1823, 403.1832, 403.1838, 403.704, 403.805 FS., Chapter 2008-150, Laws of Florida. Law Implemented 110.227, 120.53(1)(a), 373.016(5), 373.046, 373.103, 373.109, 373.308, 373.309, 373.4135, 403.088, 403.1821 through 403.1838, 403.805 FS., Chapter 2008-150, Laws of Florida. History—New 2-6-78, Amended 4-28-81, Revised 6-30-81, Amended 6-3-82, Formerly 17-1.04, Amended 6-1-84, 10-9-84, 7-22-85, 11-26-86, 3-3-87, 5-25-88, 8-31-89, 6-19-91, 4-26-92, 11-16-92, 3-14-94, Formerly 17-101.040, Amended 7-4-95, Formerly 62-101.040, Amended.

NAME OF PERSON ORIGINATING PROPOSED RULE:
Janet G. Llewellyn, Division Director

NAME OF AGENCY HEAD WHO APPROVED THE PROPOSED RULE: Michael W. Sole, Secretary

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: September 8, 2008

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: June 27, 2008

**DEPARTMENT OF ENVIRONMENTAL PROTECTION
Office of the Secretary**

RULE NOS.:	RULE TITLES:
62S-4.001	Definitions
62S-4.004	Application Procedures for Coastal Partnership Initiative Grants
62S-4.0045	Application Procedures for Coastal Management Grants to State Agencies and Water Management Districts
62S-4.005	Eligibility for Funding of Coastal Partnership Initiative Grants
62S-4.0055	Eligibility for Funding of Coastal Management Grants to State Agencies and Water Management Districts
62S-4.007	Review Procedures and Criteria
62S-4.008	Funding Coastal Partnership Initiative Grants

PURPOSE AND EFFECT: Rule amendments will improve and streamline an existing grant program and ensure timely, cost-effective grant management by amending review procedures and criteria, incorporating a grant application by

reference, amending the date for noticing availability of funds and deleting rules applicable to state agencies. The Coastal Partnership Initiative grant program will be strengthened by adding a new funding category, increasing the amount of funds available, reordering rule sections and substantially rewriting sections for clarity.

SUMMARY: The proposed rule amendments substantially rewrite Rules 62S-4.004 and .007 and add new Rule 62S-4.008, F.A.C., to amend grant funding categories; increase the amount of grant funds available; amend the date for noticing availability of funds; create and incorporate by reference a grant application form; amend eligibility requirements for Coastal Partnership Initiative applicants; amend review procedures and criteria; delete rules applicable to state agencies (62S-4.0045, .0055 and .007(3)); reorder rule sections; revise title of Chapter 62S-4, F.A.C.; add a definition; and make other clarifications.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 380.22 FS.

LAW IMPLEMENTED: 380.27 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

DATE AND TIME: October 14, 2008, 10:00 a.m. – 12:00 Noon

PLACE: Dept. of Environmental Protection, Rm. 953B, 3900 Commonwealth Blvd., Tallahassee, FL 32399

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 5 days before the workshop/meeting by contacting: Susan Goggin at (850)245-2161. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULES IS: Susan Goggin, (850)245-2161, or by email to Susan.Goggin@dep.state.fl.us

THE FULL TEXT OF THE PROPOSED RULES IS:

COASTAL MANAGEMENT PROGRAM COASTAL PARTNERSHIP INITIATIVE GRANTS

62S-4.001 Definitions.

(1) No change.

(2) "Applicant" means ~~the following with regard to the identified grants:~~

(a) ~~Coastal Partnership Initiative Grants: "Applicant" means local governments of the 35 coastal counties and all municipalities within their boundaries that are designated as "coastal" by the state land planning agency or required to include a coastal element in the local comprehensive plan; national estuarine research reserves; and national estuary programs. The term also means public and private colleges and universities, regional planning councils, and non-profit groups, as long as an eligible local government, national estuarine research reserve, or national estuary program agrees to participate as a partner. However, non profit organizations are not eligible to be applicants for funds under Section 306A of the Act.~~

(b) ~~Grants other than those awarded through the Coastal Partnership Initiative: "Applicant" means state agencies, as identified in Sections 20.10 through 20.43, F.S., and water management districts.~~

(3) "Application" means a formal request for Coastal Partnership Initiative funds by an applicant consisting of a complete project application form, including required copies and applicable documentation.

(4)(3) "CPI" means "Coastal Partnership Initiative, which is a Grants" means competitive grants program to disperse funds pursuant to Sections 306 and 306A of the Act available for the specific purposes and activities identified in Rule 62S 4.004, F.A.C.

(4) through (9) renumbered (5) through (10) No change.

(11) "Special Designations" means waters or areas designated by federal, state or local authorities that protect or preserve environmental, cultural or coastal resources.

(12)(4) "306A Checklist" means the January 2003 "Section 306A Guidance and Checklist which became effective _____ and is hereby adopted and incorporated by reference required for applicants requesting funds for construction projects, capital outlay or land acquisition. NOAA requires submission of the information in the checklist prior to release of funds under Section 306A of the Act for construction projects, invasive species removal, habitat restoration, capital outlay or land acquisition. 306A Checklists may be obtained from the CPI website at <http://www.dep.state.fl.us/cmp/grants/index.htm>, or by contacting FCMP staff at the Department of Environmental Protection, Florida Coastal Management Program, MS 47, 3900 Commonwealth Blvd., Tallahassee, FL 32399-3000.

Specific Authority 380.22(3) FS. Law Implemented 380.22 FS. History--New 10-15-81, Formerly 17-24.03, Amended 12-2-87, Formerly 17-24.030, Amended 11-22-93, 4-30-96, 6-10-01, Formerly 9M-1.003, Amended 8-11-03, 9-11-05, _____.

(Substantial rewording of Rule 62S-4.004 follows. See Florida Administrative Code for present text.)

62S-4.004 Application Procedures for Coastal Partnership Initiative Grants.

(1) CPI Program Purpose. Eligible applicants may request financial assistance to implement projects to protect, enhance, and improve the management of natural, cultural, and historical coastal resources and to increase the sustainability, resiliency and preparedness of coastal communities. Grant applications must meet the purpose and goals of one of the following CPI categories:

(a) Resilient Communities. The goal of this initiative is to help coastal communities prepare for and respond to the effects of climate change and natural hazard events and disasters. Project examples include: conducting vulnerability analyses and risk assessments; developing post-disaster redevelopment plans and business continuity plans; developing climate change adaptation strategies for incorporation in local comprehensive plans or ordinances; developing policies, guidance and best management practices; restoring and preserving coastal wetlands and shorelines; and developing energy efficiency and alternative energy strategies.

(b) Coastal Resource Stewardship. The goal of this initiative is to promote stewardship and appreciation of fragile coastal resources through citizen, volunteer and local government involvement. Stewardship project examples include dune and wetland restoration; exotic plant control; coastal clean-ups; environmental awareness initiatives; and environmental education-events and field trips.

(c) Access to Coastal Resources. The goal of this initiative is to help communities identify and improve public access to cultural, historical and natural areas while protecting resources from overuse and damage. Project examples include: planning for, and construction of small-scale projects such as fishing piers, dune crossovers, boardwalks, observation decks, and canoe and sailboat launches; natural shoreline restoration; exotic species removal; waterfront park improvements; and development of recreational surface water use plans or policies pursuant to Section 163.3177(6)(g), F.S.

(d) Working Waterfronts. The working waterfronts initiative is designed to assist communities with waterfront revitalization. The working waterfronts initiative aims to support projects that enhance and sustain traditional waterfront communities while addressing public access, resource protection, and hazard mitigation issues. Projects examples in this category include constructing boat ramps, waterside boardwalks, kiosks and fish cleaning stations; and restoring shorelines and wetlands or implementing other measures that mitigate the effects of natural hazards.

(2) Assistance.

(a) Financial awards are limited to no more than \$60,000 and no less than \$20,000, for planning and coordination activities, land acquisition, small construction, or capital improvement projects.

(b) Projects funded under the CPI must be located on publicly-owned or leased land, or land held in perpetuity under a conservation easement.

(c) Non-profit organizations are not eligible to be applicants for funds under Section 306A of the Act.

(d) A recipient will be required to provide 100% (1:1) matching funds, cash or in-kind.

(e) Eligible applicants may submit no more than one application per funding cycle.

(f) A project that receives a CPI grant may be considered again for funding in a subsequent grant cycle, provided that the first grant was successfully completed.

(g) A project that receives CPI funds for two consecutive funding cycles is not eligible to be considered again for funding until two subsequent funding cycles have passed, and provided that the previously funded projects were successfully completed.

(h) Funds awarded by the procedures described in this chapter shall not be used to supplant or replace any state or local funds, used as matching funds to apply for or receive other federal funds, or used as match for funds awarded as a result of the application processes described in this chapter.

(3) Period of Assistance. Funding is available only for project work initiated and completed during a 12-month period beginning July 1 and ending June 30, unless the FCMP grants a written extension for good cause.

(4) Notice.

(a) If funds are available, the FCMP shall initiate the funding cycle by publishing a notice of the availability of funds on the Florida Administrative Weekly (FAW) website at <https://www.flrules.org/> no later than October 31. Applications for a funding cycle will not be accepted prior to the publication of the notice of availability of funds.

(b) In addition, the FCMP shall send a copy of the notice of availability of funds to the chair of the Board of County Commissioners in each of the 35 coastal counties and to the chair of the governing body of each eligible municipality as defined in paragraph 62S-4.001(1)(a), F.A.C.

(5) Application Form. The Coastal Partnership Initiative Application Form, effective date _____ is hereby incorporated by reference and is available from the CPI website at <http://www.dep.state.fl.us/cmp/grants/index.htm>. To request an application form, contact FCMP staff at the Department of Environmental Protection, Florida Coastal Management Program, MS 47, 3900 Commonwealth Blvd., Tallahassee 32399-3000.

(a) Applications shall be submitted either in person, by certified or registered mail (return receipt requested), or by courier service. Applications shall be received at Department

of Environmental Protection, FCMP, M.S. 47, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000 on or before 4:00 p.m., Eastern Time Zone, on the date identified in the notice of availability of funds, which shall be a minimum of 60 days from the publication of the notice of availability of funds.

(b) It is the applicant's responsibility to ensure that one original application and 12 copies of the application are delivered at the proper time and place. Applications submitted by fax or other electronic media are not acceptable. Applications received after the exact time and date specified above will be disqualified.

Specific Authority 380.22(3) FS. Law Implemented 380.22 FS. History--New 10-15-81, Formerly 17-24.04, Amended 12-2-87, Formerly 17-24.040, Amended 11-22-93, 4-30-96, 6-10-01, Formerly 9M-1.004, Amended 8-11-03, 9-11-05, _____.

Specific Authority 120.569, 120.57, 380.22(3) FS. Law Implemented 120.569, 380.22 FS. History--New 8-11-03, Amended 9-11-05, Repealed _____.

(Substantial rewording of Rule 62S-4.007 follows. See Florida Administrative Code for present text.)

62S-4.007 Review Procedures and Criteria.

(1) Minimum Requirements. Applications must include the following in order to be reviewed by the evaluation committee:

(a) A signed and complete Title Page;

(b) A Location Map;

(c) A Work Plan; and

(d) A Budget.

(2) Applications that meet the minimum requirements listed in paragraphs 62S-4.007(1)(a)-(d), F.A.C., will be reviewed by an interagency technical evaluation committee of at least three members who are appointed by the FCMP Administrator and have knowledge of current coastal resource management issues and state and federal resource management

programs and activities. Each application will be evaluated using the evaluation criteria below. The final score of each application shall be the average of the evaluators' scores.

(3) Evaluation Criteria.

	Maximum Points
<u>Criteria for all Initiative Categories</u>	
<u>(a) The project location is clearly depicted on a map.</u>	15
<u>(b) Project description is clearly presented.</u>	20
<u>(c) Project tasks, deliverables and timelines are clear.</u>	20
<u>(d) Applicant and partner roles are adequately identified.</u>	10
<u>(e) Project location is clearly described.</u>	15
<u>(f) There is a clear need for the project.</u>	20
<u>(g) Project meets goal of the chosen CPI category.</u>	15
<u>(h) The project will benefit coastal resource management.</u>	25
<u>(i) There is community support for the project and project will benefit community.</u>	5
<u>(j) Project supports specific goals and objectives of the local comprehensive plan.</u>	5
<u>(k) If applicable, project helps achieve the goals of the following Department, state, local or federal programs:</u>	
<u>1. Local Mitigation Strategy</u>	5
<u>2. Florida Forever</u>	5
<u>3. Waterfronts Florida</u>	5
<u>4. Special Designations</u>	5
<u>(l) Budget clearly shows how funds and match funds will be expended by category.</u>	15
<u>Total Maximum Points Possible</u>	185

(m) Within each category, projects that receive a final score of at least 110 points will be eligible for funding in rank order by score, depending on the availability of funds. If more than one project in a category receives the same score, those projects will receive equal treatment in making funding decisions.

(n) Projects will be funded in rank order by score as determined by the evaluation committee and subject to the availability of funds. If the project is funded by NOAA, the subgrant agreement shall be executed within 90 days from approval. Failing timely execution, the subgrant award shall not be awarded. Instead, the funds shall be awarded to the next eligible, unfunded CPI project in the same initiative category. If there is no eligible, unfunded CPI project in the same initiative category, then the funds shall be allocated to other FCMP needs.

Specific Authority 380.22(3) FS. Law Implemented 380.22, 380.27 FS. History—New 10-15-81, Formerly 17-24.07, Amended 12-2-87, Formerly 17-24.070, Amended 11-22-93, 4-30-96, 6-10-01, Formerly 9M-1.007, Amended 8-11-03, 9-11-05, _____.

62S-4.008 Funding Coastal Partnership Initiative Grants.

(1) The FCMP shall use the criteria and procedures established in this rule chapter to evaluate project applications and determine their eligibility to be included as part of Florida's official cooperative agreement application for federal assistance under the Act. The final decision whether or not to fund a project is made by NOAA.

(2) Funding of any application submitted in response to the FCMP's notice of availability of funds and in accordance with this rule chapter is subject to the amount of federal coastal zone management funds awarded to the FCMP and the amount allocated to the CPI by the FCMP.

(3) The total amount allocated to CPI shall initially be distributed equally among the categories. After fully funding all eligible applications in a CPI category, any excess funds in a category will be redistributed to categories in which the initial allocation is insufficient to fully fund all eligible applications. In redistributing funds, preference shall be given to achieving full funding of partially-funded projects.

(4) Notice of funding decisions shall be published on the FAW website at <https://www.flrules.org/>. Any person whose substantial interests are affected may request a hearing pursuant to Section 120.569, F.S., within 21 days of publication of the notice. Failure to request a hearing within the applicable time period shall constitute a waiver of the right to a hearing.

(5) A timely filed petition for an administrative hearing shall not cause the suspension of further action on other applications. If, as a result of a Chapter 120, F.S., administrative or judicial proceeding, the Department's determination of ranking for an application is reversed, and as a result an applicant obtains a rank high enough that it would qualify for inclusion in the Department's application to NOAA, the Department shall include the application in the following year's application to NOAA for coastal zone management funds.

(6) Any recipient of a previous grant awarded by the Department that did not complete the tasks specified in the grant agreement or substantially failed to abide by the terms of the grant agreement, without good cause, shall be ineligible to be considered for funding under the CPI program for two consecutive funding cycles. The FCMP shall determine within 30 days of the grant end date whether the grant recipient is ineligible pursuant to this paragraph and shall notify the ineligible grant recipient in writing. Any person whose substantial interests are affected may request a hearing pursuant to Section 120.569, F.S., within 21 days of receipt of notice. Failure to request a hearing within the applicable time period shall constitute a waiver of the right to a hearing.

Specific Authority 120.569, 120.57, 380.22(3) FS. Law Implemented 120.569, 380.22 FS. History—New _____.

NAME OF PERSON ORIGINATING PROPOSED RULE:
Susan Goggin
NAME OF AGENCY HEAD WHO APPROVED THE PROPOSED RULE: Secretary Michael Sole
DATE PROPOSED RULE APPROVED BY AGENCY HEAD: September 8, 2008
DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: July 25, 2008

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Office of the Secretary

RULE NOS.:	RULE TITLES:
62S-5.001	Definitions
62S-5.002	Application Procedures
62S-5.003	Review Procedures and Criteria

PURPOSE AND EFFECT: The proposed rule will improve and clarify grant administration by providing a separate rule for grants to state agencies and water management districts.

SUMMARY: The proposed rule describes the application procedures; review procedures and criteria; and funding of grants to state agencies and water management districts.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 380.22 FS.

LAW IMPLEMENTED: 380.27 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

DATE AND TIME: October 14, 2008, 10:00 a.m. – 12:00 noon
PLACE: Rm. 953B, Dept. of Environmental Protection, 3900 Commonwealth Blvd., Tallahassee, FL 32399

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 5 days before the workshop/meeting by contacting: Susan Goggin at (850)245-2161. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULES IS: Susan Goggin, (850)245-2161, or by email to Susan.Goggin@dep.state.fl.us

THE FULL TEXT OF THE PROPOSED RULES IS:

COASTAL MANAGEMENT PROGRAM GRANTS TO STATE AGENCIES AND WATER MANAGEMENT DISTRICTS

62S-5.001 Definitions.

As used in this rule, except where the context clearly indicates a different meaning, the following terms shall have the meaning indicated:

(1) “Act” means the Coastal Zone Management Act of 1972, 16 U.S.C. Sections 1451 et seq.

(2) “Applicant” means state agencies, as identified in Sections 20.10 through 20.43, F.S., and water management districts.

(3) “Department” means the Florida Department of Environmental Protection.

(4) “FCMP” means Florida Coastal Management Program as described in Sections 380.20 – 380.24, F.S.

(5) “Match Funds” means non-federal funds expended and/or in-kind services provided by the recipient in conjunction with funds received through this program.

(6) “NOAA” means the National Oceanic and Atmospheric Administration in the U.S. Department of Commerce.

(7) “Recipient” means an applicant who receives an award through the criteria and procedures established in this chapter.

(8) “306A Checklist” means the January 2003 “Section 306A Guidance and Checklist” required for applicants requesting funds for construction projects, invasive species removal, habitat restoration, capital outlay or land acquisition. NOAA requires submission of the information in the checklist prior to release of funds under Section 306A of the Act.

Specific Authority 380.22(3) FS. Law Implemented 380.22 FS. History—New

62S-5.002 Application Procedures.

(1) Period of Assistance. Funding is available only for project work initiated and completed during a 12-month period beginning July 1 and ending June 30, unless the FCMP grants a written extension for good cause.

(2) Project Objectives. The FCMP shall use coastal management funds for activities and tasks that are consistent with the intent and purpose of the Act and contribute to the protection, management and enhancement of Florida’s coastal resources. The notice of availability of funds shall identify FCMP priorities within the objectives, but applications that meet any of the objectives may be submitted.

(3) Notice. To initiate a funding cycle, the FCMP shall publish a notice of the availability of funds on the Florida Administrative Weekly (FAW) website at <https://www.flrules.org/> no later than October 31. The period for submitting applications shall be a minimum of 60 days from publication of the notice of availability of funds.

(4) Application Process. There is no specific application form supplied by FCMP; however, the application format and content shall be as follows:

(a) All applications shall be submitted on 8 1/2" by 11" white paper. Ten signed copies of each application must be submitted. No binding (other than paper clips or staples), cover, or folder/notebook shall be used.

(b) Title Page. Each copy of the application shall include a Title Page that contains the following information:

1. Title of the project.

2. Name of applicant entity and name of applicant partner entity, if applicable, that has agreed to participate.

3. Name, title, phone and fax numbers, e-mail address, and postal address of official contact during application and award procedures.

4. Name of proposed project manager.

5. Signature and date. Include typewritten name and full title of signatory.

(c) Work Plan. This section describes the project and cannot exceed 10 single-sided pages or 5 double-sided pages. The title page, location map, budget page and 306A checklist are not counted as part of the 10 pages. The Work Plan shall include the following sections and information:

1. Project Description. Describe the proposed project or activity, explaining how it enhances or protects coastal resources and meets the priorities identified in the Notice of Availability of Funds. Describe how the work can be completed within one year and implemented upon completion.

2. Project Location. Include a location map no larger than 8 1/2" x 11". For proposed construction projects, include the location map and an 8 1/2" x 11" site plan in the 306A checklist.

3. Objective. Describe the specific tasks and deliverables and related timelines for each.

4. Budget. Include a budget showing how funds will be expended and describing the source and amount of match funds, if any. Indicate whether additional funds from other sources will be used to complete the proposed project. If total project costs exceed the amount of proposed FCMP funds and match funds, indicate the total project cost.

5. If construction is proposed, a statement confirming that:

a. The applicant has conducted preliminary consultation with appropriate federal, state, regional and local regulatory agencies and the agencies did not identify any apparent conflicts with applicable permit requirements.

b. The property on which construction activities will take place is owned or leased by the applicant or the applicant holds a sufficient easement.

c. Permits can be obtained and project construction completed within the grant year.

d. For construction projects, invasive species removal, habitat restoration, capital outlay or land acquisition, include a completed 306A checklist and other materials required by the 306A checklist with the application. 306A checklists may be obtained by contacting FCMP staff at the Department of Environmental Protection, M.S. 47, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000.

Specific Authority 380.22(3) FS. Law Implemented 380.22 FS. History--New _____.

62S-5.003 Review and Funding of Grants.

(1) The FCMP shall review applications in consultation with agencies having the appropriate expertise to evaluate the merits of the projects and provide technical comments and recommendations to the FCMP. The FCMP shall determine which projects will be included in the state's cooperative agreement application to NOAA based on the consultation and the following criteria: the project's feasibility; the cost-effectiveness of the project; and the degree to which the project meets the priorities stated in the notice of availability of funds, complements other state and federal resource management programs and initiatives, and meets or reduces an unmet need.

(2) The FCMP shall use the criteria and procedures established in this rule chapter to evaluate project applications and determine their eligibility to be included as part of Florida's official cooperative agreement application for federal assistance under the Act. The final decision whether or not to fund a project is made by NOAA.

(3) Funds awarded by the procedures described in this chapter shall not be used to supplant or replace any state or local funds, used as matching funds to apply for or receive other federal funds, or used as match for funds awarded as a result of the application processes described in this chapter.

(4) Funding of any application submitted in response to the FCMP's notice of availability of funds and in accordance with this rule chapter is subject to the amount of federal coastal zone management funds awarded to the FCMP and the amount allocated to the CPI by the FCMP.

(5) Notice of funding decisions shall be published on the FAW website at <https://www.flrules.org/>. Any person whose substantial interests are affected may request a hearing pursuant to Section 120.569, F.S., within 21 days of publication of the notice. Failure to request a hearing within the applicable time period shall constitute a waiver of the right to a hearing.

(6) A timely filed petition for an administrative hearing shall not cause the suspension of further action on other applications. If, as a result of a Chapter 120, F.S., administrative or judicial proceeding, the Department's decision not to fund an application is reversed, the Department shall include the application among any state agency or water

management district projects included in the following year's application for coastal zone management funds pursuant to the Act.

Specific Authority 380.22(3) FS. Law Implemented 380.22 FS. History--New _____.

NAME OF PERSON ORIGINATING PROPOSED RULE:

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Division of Forestry

RULE NOS.:	RULE TITLES:
5I-7.002	Definitions
5I-7.004	Application Procedures and Requirements
5I-7.007	Ranking, Review and Approval of Priority Acquisition List
5I-7.011	Board Action
5I-7.012	Closing
5I-7.014	Compliance, Monitoring and Enforcement

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 34, No. 32, August 8, 2008 issue of the Florida Administrative Weekly.

5I-7.001 No change.

5I-7.002 Definitions.

(1) through (4) No change.

(5) "Baseline Documentation Report" means a report used for long term perpetual easement monitoring that documents existing conditions at the time of execution of the easement, such as surface and minerals ownership, improvements, and land uses. The report also documents conservation values protected by the perpetual easement, including but not limited to agriculture, significant natural areas, water resources, and wildlife habitat.

(6) through (18) No change.

(19) "Supplemental Standards" means ~~the most current version of~~ the Supplemental Appraisal Standards for Board of Trustees Land, which contains appraisal requirements that establish public policy and add to the standard appraisal procedures and practices of the appraisal profession for the development and reporting of all appraisal services, including those outlined in Chapters 253 and 259, F.S., adopted by the Board of Trustees of the Internal Improvement Trust Fund, dated April 14 ~~18~~, 2008, incorporated by reference and available on the internet at: <http://www.dep.state.fl.us/lands/appraisal/> or by sending a request to: Department of Environmental Protection, Bureau of Appraisal, 3900 Commonwealth Boulevard, M.S. 110, Tallahassee, Florida 32399-3000 or by phone at (850) 245-2658 or by fax at (850) 245-2668.

(20) through (22) No change.

5I-7.003 No change.

5I-7.004 Application Procedures and Requirements.

(1) For purposes of Sections 259.105(3)(i), 570.70(5) and 570.71, F.S., anyone submitting an application for consideration of a project under this rule shall utilize form DACS-11207, Rural & Family Lands Protection Program Application, ~~06/08~~ 08/08, hereby incorporated by reference. Copies are immediately available on the internet at: http://www.fl-dof.com/forest_management/rural_family_lands_index.html ~~http://www.doacs.state.fl.us/xxxxx/xxxxxxxxx/~~ or by sending a request to: Florida Department of Agriculture and Consumer Services, Division of Forestry, 3125 Conner Boulevard, Suite "I", Tallahassee, FL 32399-1650.

(2) No change.

(3) The Department shall accept applications on an ongoing basis that will be reviewed during the application review cycle in which they are received.

(4) Not less than once per year the Department shall publish a Notice of Application Review Cycle with a date by which all applications must be received. All notices shall be published in the Florida Administrative Weekly, and ~~post~~ available on the internet at: http://www.fl-dof.com/forest_management/rural_family_lands_index.html ~~http://www.doacs.state.fl.us/xxxxx/xxxxxxxxx/~~ no less than 45 days prior to the application review cycle deadline.

(5) No change.

5I-7.005 and 5I-7.006 No change.

5I-7.007 Ranking, Review and Approval of Priority Acquisition List.

(1) through (8) No change.

(9) Upon approval of the priority list by the Board and subject to the availability of funds, the Department may proceed with the acquisition process for perpetual easements, including appraisals, survey and title review.

(10) through (11) No change.
