The preliminary text and forms may also be found at <http://election.dos.state.fl.us/rules/proposed-rules/index.shtml>

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

1S-2.047 State Campaign Matching Funds Program.

(1) Form of Request. A candidate for the office of Governor or member of the Cabinet who desires to receive state matching funds shall complete Form DS-DE 98, "Candidate for Governor or Cabinet Officer Request for Contributions" (eff. _____), and submit it to the Division of Elections (Division) no later than the date the candidate qualifies for office.

(2) Distribution of Funds. State matching funds shall be distributed to eligible candidates beginning on the 32nd day prior to the primary and every 7 days thereafter. The first distribution will be based on verified matching contributions as shown on quarterly reports, filed after September 1 of the calendar year prior to the election. Thereafter, distribution of funds will be based on reports as provided by Section 106.07(1)(b), F.S. Each distribution of funds will be based on the prior week's report as verified by the Division, if timely received; otherwise, the distribution will be made in the next applicable weekly cycle. The Division shall verify matching contributions contained in the reports with documentation provided by the candidate as set forth in paragraph (4) of this rule.

(3) Filing of Reports.

(a) A report of contributions received by a candidate who is eligible to receive state matching funds is timely if it is filed using the Division's electronic filing system no later than 12:00 noon, Eastern Time, on the date it is due. If a report is filed after 12:00 noon, Eastern Time, on the due date, the report will be deemed late for matching fund purposes and any eligible matching funds will be distributed in the next reporting cycle.

(b) Reports of contributions filed by candidates requesting matching funds must include all information required by this rule and Sections 106.07 and 106.30-.36, F.S. If information related to a matchable contribution is missing, incomplete, or cannot be verified, no match will be made for that contribution and the candidate will be notified by the Division. However, upon supplying such missing or incomplete information and upon verification by the Division, matching funds will be distributed in the next reporting cycle.

(c) If a candidate requesting matching funds submits a contribution report and subsequently amends such report, any adjustment, up or down, to the candidate's distribution of funds will be made on the next weekly cycle occurring after receipt and review of the amended report. All amendments to reports must be submitted electronically to the Division.

(4) Documentation.

(a) Documentation for each contribution report must be received by the Division no later than 12:00 noon, Eastern Time, on the date the report is due. If documentation for such report is received by the Division after 12:00 noon, Eastern Time, on the due date, the documentation will be deemed late for matching fund purposes and any eligible matching funds will be distributed in the next reporting cycle.

(b) Documentation may be submitted in paper or electronic format.

1. Regardless of the format, documentation must be submitted in the corresponding sequence order as recorded on the filed contribution report beginning with the smallest sequence number.

2. Paper documentation must be submitted on 8 1/2 by 11 paper. The top, right portion of each page must include the candidate's last name, candidate identification number, the report name, and the contribution sequence number or numbers to which the documentation pertains. Information may be submitted in portrait or landscape format; however, all pages within the documentation submission must be in the same format.

3. Electronic submission of documentation must be done via a separate file for each corresponding filed contribution report. The filename for the electronic submission must contain the candidate's last name followed by the type of report (e.g., JonesF1, SmithG2, etc.), unless the candidate had previously requested and the Division had specifically exempted the candidate from the file name requirement because of character limitations in the filename. The documentation must clearly identify the contribution sequence number or numbers to which the image pertains. All electronic documents within the file must be submitted in a horizontal format, readable from left to right, so that the Division can read the document on a computer screen without having to rotate any image.

(c) In order to verify contributions, the Division must receive the following documentation:

1. For a contribution made by check or cashier's check, a copy of the check or cashier's check;

2. For a contribution made by credit or debit card, a copy of the credit or debit card receipt;

3. For an in-kind contributions, a written statement signed by the contributor that includes the date the contribution was made, a description of the contribution and the fair market value of the contribution; and

4. For a cash contribution, a copy of the bank deposit slip.

(d) Documentation that does not conform to the specifications in this paragraph will not be processed and the candidate will be notified by the Division. Upon supplying documentation that is in compliance with these specifications and verification by the Division, matching funds will be distributed in the next reporting cycle.

(5) Appeal. An adverse decision regarding the distribution of matching funds may be appealed to the Florida Elections Commission, pursuant to Rule 2B-1.006, F.A.C.

(6) Voluntary Expenditure Limits. Candidates not participating in public campaign finance who wish to voluntarily abide by the expenditure limits of Section 106.34, F.S., and the contribution limits on personal and party funds set forth in Section 106.33, F.S., shall file an irrevocable statement to this effect on Form DS-DE 90, "Irrevocable Statement to

Section II Proposed Rules

DEPARTMENT OF STATE

Division of Cultural Affairs

RULE NOS.:	RULE TITLES:
IT-1.001	Division of Cultural Affairs
IT-1.031	Historical Museum Grants Application Requirements
IT-1.032	History Museums Application Review and Grant Administration

PURPOSE AND EFFECT: This amendment transfers the Historical Museums Grants-in-Aid Program from the management of the Division of Historical Resources to the Division of Cultural Affairs; it incorporates minor statutory changes to the program that became effective July 1, 2008 (as authorized by Section 265.708, Florida Statutes); and it incorporates recommendations made by the Historical Museums Task Force. In regard to the Cultural Support Grants Program, this amendment deletes the minimum funding amount of \$2,500. This amendment also deletes the Indemnity Grant Program (because it was repealed by the 2005 Legislature); this amendment establishes a funding amount for applicants for the Youth and Children’s Museums Program who request over \$50,000; and this amendment makes other changes affecting all grant programs of the Division as more fully described in the Summary below.

SUMMARY: This amendment incorporates the recommendations of The Historical Museums Taskforce in that it creates a two (2) year funding period, rather than annual one; it provides three (3) levels of funding categories, rather than two (2) for the General Program Support category; it provides for alternate years in which museums that request certain levels of funding will compete with each other for funding. This

amendment also establishes new eligibility criteria for the Historical Museum Grants-in-Aid Program and clarifies the eligibility criteria for multidisciplinary museums. This amendment deletes the Indemnity Grant Program because the program statutes were repealed (see former Sections 265.51 – 265.55, Florida Statutes). This amendment allows grantees who request over \$50,000 for the Youth and Children’s Museums Grant Program to request up to 10% of their last completed fiscal year’s revenue. In regard to all grant programs of the Division, this amendment prohibits funding for general “operating expenses” such as utilities, fixtures, bank fees, property taxes, etc., and requires that grant deadlines be posted on the Division of Cultural Affairs’ website, rather than in the Division’s online newsletter.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: There are no regulatory costs associated with this proposed rule. This amendment does not have an impact on small business.

Any person who wishes to provide information regarding the statement of regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE HELD AT THE DATE, TIME AND PLACE SHOWN BELOW (IF NOT REQUESTED, THIS HEARING WILL NOT BE HELD):

DATE AND TIME: Wednesday, January 24, 2009, 9:00 a.m.

The only exception to this limitation is for a multidisciplinary museum, which is defined as a museum that addresses two or more disciplines to a significant extent: for example, a museum that interprets both art and history or both history and science. Multidisciplinary museums will be permitted to receive a total of two General Program Support museum category grants from any ~~other~~ division within the Department of State. A discipline-specific operating budget must be used for each application; multidisciplinary museums cannot use the same

In determining which applications to fund, the panel will consider only applications that have achieved the required minimum average score of 75 ~~and other criteria which include the overall group of eligible Specific Project applications, the relative merits of each proposal as demonstrated through scores based on the program review criteria, the anticipated funds available for the program, the perceived needs of the artistic or cultural discipline, the constituency served, and how well the proposed project fulfills the mission of the Cultural Support Grants program. In determining award amounts for those proposals recommended for funding, the panel may not recommend funding of less than \$2,500.~~

2. through (18)(l) No change.

(m) Reporting. For all programs, unless otherwise specified, the grantee shall file a final report no more than 30 days following the project ending date. Interim reports will be required for grants with ending dates after June 30. These interim reports shall contain program financial and statistical results as of June and must be submitted no later than July 30. Submissions from a Regional Drug Enforcement Coordinating Team shall be made to the Department of Law Enforcement's Investigations and Forensic Science Program (IFS). Materials being submitted shall be secured and transmitted in a manner to assure that the criminal investigative and criminal intelligence information contained is not compromised.~~

(6) No change.

(7) The IFS shall present to the DCSCG Committee Council all cases forwarded to it by the RCTs, indicating its prioritization determinations at a meeting of the Council. The presentation must include a recommendation of which cases IFS believes should receive funding priority and the amount of drug control funding recommended and may identify the relative strengths and weaknesses of the cases under consideration in meeting the underlying goals of Council funding.

(8) The DCSCG Committee Council will make its drug control funding decisions based upon the information presented to it by IFS, or otherwise made available at a Council meeting, and the availability of funds for use by the DCSCG Committee Council. The DCSCG Committee Council may direct that approved funding shall be paid in a lump sum or in installments. The DCSCG Committee Council may fund all, a portion, or none of a request presented to it.

(9) Denial of all or a part of a request shall not disqualify the request from future consideration by the DCSCG Committee Council. However, any such request will be considered a new funding request and must be evaluated and approved through the process set forth in this rule, beginning with consideration and approval by the RCT.

(10) No change.

(11) If after receipt of funds, it appears that a funded investigative effort will substantially depart from the focus and effort originally ~~authorized~~ approved by the DCSCG Committee Council, the agencies receiving Council funds shall suspend use of such funds and shall contact the Chair of the RCT and describe the change of focus and effort.

(a) If the new focus and effort is of a type that could be considered for Council funding, the RCT and the participating agencies shall secure DCSCG Committee authorization Council approval for the continued use of Council funds by the funded agencies. Any such request shall be evaluated and approved through the process set forth in this rule, beginning with the consideration and approval by the RCT, but shall be expedited to minimize and negative effect the suspension of spending of Council funds may have on the ongoing investigation.

(b) If authorization for continued use of Council funds must be considered prior to the next regular meeting of the Council, the DCSCG Committee Council may consider such requests at a special meeting by phone or videoconference.

(c) The DCSCG Committee Council may endorse changes of focus or efforts and authorize the continued use of Council funds when receiving progress reports during regularly scheduled meetings provided that the RCT and the IFS endorse the new focus or efforts for such continued funding.

(12) No change.

(13) Agencies seeking drug control funding under this section shall cooperate with the RCT in the agencies' area, and provide all information as requested by the RCT to assist in the preparation of a funding request, including information to identify the amounts of agency funds being committed by each participating agency to be matched by Council drug control funds. The head of each requesting agency that seeks to receive Council drug control funds shall include in the submission to the RCT a certification in writing that to the agency head's best knowledge and belief, the request complies with the requirements established by law and this rule for funding. The agency head shall also agree to provide requested information to the DCSCG Committee Council to assist the DCSCG Committee Council in its performance-monitoring obligations and shall agree to retain proof and documentation as may be required by the DCSCG Committee Council and to submit to any audits or reviews of agency utilization of Council funds or funds derived from any Council-funded investigative effort as may be performed. The request shall be accompanied by Form FDLE/IFS-003 Drug Control, Criminal Gang, & Money Laundering Application, revised 10/01/08, and Form FDLE/IFS-006, the State Financial Assistance Form, both revised 08/01/07, incorporated by reference.

(14) Funding Calculations.

(a) In calculating the amount being provided as an agency match, the DCSCG Committee Council shall consider:

1. through 2. No change.

(b) In calculating the amount being provided by a requesting agency for which matching Council funds may be provided, the DCSCG Committee Council shall not consider:

1. through 2. No change.

(15) Council-provided funds shall not be used for any purposes by the requesting agency in calculating its agency match. Where an employee's overtime has been pledged by an agency as a match, no Council-provided funds may be used for the employee's overtime until such time as the agency's match overtime funding has been completely expended. Council funds shall not be used to purchase or lease vehicles, vessels, aircraft or conveyances, computer equipment, or buildings or the maintenance or repair of any such property or equipment. Council funds shall not be used to pay employee base salaries. In each agency's fiscal year, up to \$10,000 in Council funds may be applied to an employee's overtime (including benefits

and taxes) for efforts dedicated exclusively to the funded investigative effort. Council funds may be used for the temporary rental of property or equipment for an undercover operation in support of the investigative effort, or for use in surveillance activities tied to the investigative effort. Council funds may be utilized to pay overtime of agency employees' efforts directly in support of the funded investigative effort, limited to \$10,000 per employee in the employee's agency's fiscal year. The \$10,000 limit applies to the employee's combined hours dedicated to all Council funded investigative efforts within the fiscal year.

(16) Council Funding Documentation.

(a) Agencies receiving drug control funding under this section shall provide a written bi-annual report of expenditures of Council funds and of the progress of the investigative effort. The report shall be prepared in consultation with the RCT and submitted by the RCT through the IFS for compilation and presentation at a scheduled Council meeting. Form FDLE/IFS-004, the Violent Crime and Drug Control Council Bi-Annual Report, revised 10/01/08 ~~08/01/07~~, incorporated by reference, shall be utilized to make the report. In addition, the DCSCG Committee Council may require oral progress reports to be made at Council meetings by a representative of the RCT or a designee of the lead investigative agency in a funded investigative effort.

(b) Agencies receiving Council funding shall retain documentation supporting the amounts and purposes of expenditures made from Council funds, the amounts and purposes of expenditure of agency match funds, the performance and accomplishments of the investigative efforts, and shall make these available to the DCSCG Committee Council upon request. With regard to agency personnel assigned to investigative efforts receiving Council funds, each agency shall retain, and make available to the DCSCG Committee Council as requested, each employee's official time and leave records and such other documentation demonstrating the time devoted by the employee to the funded investigative effort, but these records shall not be submitted with Form FDLE/IFS-004.

(c) Agencies receiving Council funding shall provide such other information as required by the DCSCG Committee Council or the IFS in its capacity as support staff, to assist in preparing its annual report to the Legislature, to assist audits of DCSCG Committee Council activities, or to assist the DCSCG Committee Council and IFS in fulfilling their role to monitor the performance of funded investigations.

(17) through (18) No change.

(19) If agencies receiving Council funding fail to submit the required Form FDLE/IFS-004, by the stated deadline, the Council Chairperson in consultation with FDLE/IFS is authorized to demand request that all unexpended funds be returned within 30 days. Upon such a finding, the Agency Head of each funded agency will be notified in writing as to the

manner in which such funds must be returned. Any agency that is delinquent in submitting Form FDLE/IFS-004 by 90 or more days shall be subject to this provision.

11N-1.0052 Procedures for Funding Requests for Criminal Gang Investigative Funding.

(1) The Department of Law Enforcement has established a regional coordinating team (RCT) in each regional office. These RCTs coordinate the identification and development of criminal gang investigative efforts that significantly contribute to achieving the state's goal of reducing criminal gang activity. The identified goals should represent "significant criminal gang investigative efforts", as used herein, eligible for proactive funding, or that otherwise significantly support statewide strategies. Each RCT will be under the direction of the Florida Department of Law Enforcement Special Agent in Charge for the area of the state in which the RCT operates. The RCT should be made up of representatives of state, local, and federal law enforcement and prosecuting entities working within the area.

(2) All funding requests for criminal gang investigative efforts from the DCSCG Committee must be developed in conjunction with, and approved by, the RCT in the region from which the lead requesting agency is located. No request submitted without the endorsement of the RCT will be considered by the DCSCG Committee.

(3) Prior to submitting funding requests for criminal gang investigative efforts to the Department of Law Enforcement for review and consideration for Council funding, the RCT shall assure that the various requirements of this rule have been satisfied. The RCT shall discuss each mandatory criteria element stated in this rule, explaining in detail how the criteria is met. In addition, the RCT shall identify and discuss each non-mandatory criteria identified in this rule reasonably applicable to the request. The RCT shall assure that the funding proposal has been explained in sufficient detail to promote a fair review and evaluation of the request by the Department and the DCSCG Committee.

(4) All submissions to the Department from a RCT must be approved by the RCT and deemed complete, as indicated by the written certification of the chair of the RCT.

(5) A completed application for funding shall be submitted by the Chair of the RCT so that it is received at least 30 days prior to the next scheduled Violent Crime and Drug Control Council meeting. Requests shall be mailed to: Florida Violent Crime and Drug Control Council, c/o Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, Florida 32302-1489, Attn.: Investigations and Forensic Science Program.

(6) The IFS will receive and review all submissions from the various RCTs utilizing the criteria of this rule, and shall prioritize from the pending submissions those proposals that best meet the criteria of this rule and are determined to be criminal gang investigative efforts that are most likely to significantly contribute to achieving the state's goal of reducing criminal gang activity.

(7) The IFS shall present to the Drug Control Strategy and Criminal Gang (DCSCG) Committee all cases forwarded to it by the RCTs, indicating its prioritization determinations at a meeting of the Council. The presentation must include a recommendation of which cases IFS believes should receive funding priority and the amount of proactive criminal gang funding recommended and may identify the relative strengths and weaknesses of the cases under consideration in meeting the underlying goals of Council funding.

(8) The DCSCG Committee will make its criminal proactive decisions based upon the information presented to it by IFS, or otherwise made available at a Council meeting, and the availability of funds for use by the Council. The DCSCG Committee may direct that approved funding shall be paid in a lump sum or in installments. The DCSCG Committee may fund all, a portion, or none of a request.

(9) Denial of all or a part of a request shall not disqualify the request from future consideration by the DCSCG Committee. However, any such request will be considered a new funding request and must be evaluated and approved through the process set forth in this rule, beginning with consideration and approval by the RCT.

(10) Council-provided criminal gang funds shall be expended in a manner consistent with the investigative purposes approved by the Council.

(11) If after receipt of funds, it appears that a funded investigative effort will substantially depart from the focus and effort originally authorized by the DCSCG Committee, the agencies receiving Council funds shall suspend use of such funds and shall contact the chair of the RCT and describe the change of focus and effort.

(a) If the new focus and effort is of a type that could be considered for Council funding, the RCT and the participating agencies shall secure DCSCG Committee authorization for the continued use of Council funds by the funded agencies. Any such request shall be evaluated and authorized through the process set forth in this rule, beginning with consideration and approval by the RCT, but shall be expedited to minimize any negative effect the suspension of spending of Council funds may have on the ongoing investigation.

(b) If authorization for continued use of Council funds must be considered prior to the next regular meeting of the Council, the DCSCG Committee may consider such requests at a special meeting by phone or videoconference.

(c) The DCSCG Committee may endorse changes of focus or efforts and authorize the continued use of Council funds when receiving progress reports during regularly scheduled meetings provided that the RCT and the IFS endorse the new focus or efforts for such continued funding.

(12) In order to assure careful consideration of original requests for criminal proactive and resubmitted requests for funding that have been previously denied, all written requests, to include completed application forms, case synopses, financial forms, and approvals shall be submitted by the chair of the RCT to the IFS no later than 30 days prior to the meeting of the Council in which the request for funding might be considered.

(13) Each agency seeking criminal proactive under this section shall cooperate with the RCT in the agencies' area, and provide all information as requested by the RCT to assist in the preparation of a funding request, including information to identify the amounts of agency funds being requested by the participating agency. The head of each requesting agency that seeks to receive Council criminal gang funds shall include in the submission to the RCT a certification in writing that to the agency head's best knowledge and belief, the request complies with the requirements established by law and this rule for funding. The agency head shall also agree to provide requested information to the Council to assist the Council in its performance-monitoring obligations and shall agree to retain proof and documentation as may be required by the Council and to submit to any audits or reviews of agency utilization of Council funds or funds derived from any Council-funded investigative effort as may be performed. The request shall be accompanied by Form FDLE/IFS-003, Drug Control, Criminal Gang & Money Laundering Application, revised 10/01/08, and Form FDLE/IFS-006, the State Financial Assistance Form, revised 08/01/07, incorporated by reference.

(14) Funding Calculations.

(a) In calculating the amount being provided as an agency match, the DCSCG Committee shall consider:

1. The base salary (including benefits and taxes) and overtime compensation pledged (including benefits and taxes) of agency employees for that portion of the employees' efforts dedicated exclusively to the proposed investigative effort, and

2. Normal operating costs directly attributable to the proposed investigative effort as specifically identified by the requesting agency, subject to the exclusions listed below.

(b) In calculating the amount being provided by a requesting agency for which matching Council funds may be provided, the DCSCG Committee shall not consider:

1. Funding received by the agencies from federal sources or

2. Funding utilized for:

a. Purchases of equipment that will be retained in a participating agency's inventory;

b. The cost of purchased vehicles, vessels, aircrafts, or conveyances;

c. Any expense or purchase that appears to be incidental to, or otherwise failing to be shown to substantially support, the proposed investigative effort;

d. Seminar and training expenses for employees or officers assigned to the proposed effort; and

e. Rental or purchases of buildings and costs associated with the use or operation of such buildings, such as utilities and maintenance.

(15) Council-provided funds shall not be used to purchase or lease vehicles, vessels, aircraft or conveyances, computer equipment, or buildings or the maintenance or repair of any such property or equipment. Council funds shall not be used to pay employee base salaries. In each agency's fiscal year, up to \$10,000 in Council funds may be applied to an employee's overtime (including benefits and taxes) for efforts dedicated exclusively to the funded investigative effort. Council funds may be used for the temporary rental of property or equipment for an undercover operation in support of the investigative effort, or for use in surveillance activities tied to the investigative effort. Council funds may be utilized to pay overtime of agency employees' efforts directly in support of the funded investigative effort, limited to \$10,000 per employee in the employee's agency's fiscal year. The \$10,000 limit applies to the employee's combined hours dedicated to all Council funded investigative efforts within the fiscal year.

(16) Council Funding Documentation.

(a) Agencies receiving proactive criminal gang funding under this section shall provide a written bi-annual report of expenditures of Council funds and of the progress of the investigative effort. The report shall be prepared in consultation with the RCT and submitted by the RCT through the IFS for compilation and presentation to the Council at a Council meeting. Form FDLE/IFS-004, Violent Crime and Drug Control Council Bi-Annual Report, revised 10/01/08, incorporated by reference, shall be utilized to make the report. In addition, the Council may require oral progress reports to be made at Council meetings by a representative of the RCT or a designee of the lead investigative agency in a funded investigative effort.

(b) Agencies receiving Council funding shall retain documentation supporting the amounts and purposes of expenditures made from Council funds, the performance and accomplishments of the investigative efforts, and shall make these available to the Council upon request. With regard to agency personnel assigned to investigative efforts receiving Council funds, each agency shall retain, and make available to the Council as requested, each employee's official time and leave records and such other documentation demonstrating the time devoted by the employee to the funded investigative effort, but these records shall not be submitted with Form FDLE/IFS-004.

(c) Agencies receiving Council funding shall provide such other information as required by the Council or the IFS in its capacity as support staff, to assist in preparing its annual report to the Legislature, to assist audits of Council activities, or to assist the Council and IFS in fulfilling their role to monitor the performance of funded investigations.

(17) If funds provided by the Council remain unexpended upon the conclusion of any investigative effort, the participating agencies shall return unexpended Council funds to the Council within 90 days of the conclusion of the investigative effort.

(18) If an agency receiving Council funds is subsequently reimbursed or funded from another source of funding for the expenditures funded by the Council, the receiving agency shall return to the Council an amount that is the lesser of the subsequent reimbursement or the funding received from the Council.

(19) If agencies receiving Council funding fail to submit the required Form FDLE/IFS-004, by the stated deadline, the Council Chairperson in consultation with FDLE/IFS staff is authorized to demand that all unexpended funds be returned within 30 days. Upon such a finding, the Agency Head of the funded agencies will be notified in writing as to the manner in which such funds must be returned. Any agency that is delinquent in submitting Form FDLE/IFS-004 by 90 or more days shall be subject to this provision.

WATER MANAGEMENT DISTRICTS

South Florida Water Management District

RULE NOS.:	RULE TITLES:
40E-2.011	Policy and Purpose
40E-2.091	Publications Incorporated by Reference
40E-2.301	Conditions for Issuance of Permits
40E-2.331	Modification of Permits

PURPOSE AND EFFECT: To incorporate requirements for protecting reserved water pursuant to Section 373.223(4), F.S. and to establish a water reservation for the Picayune Strand and Fakahatchee Estuary.

SUMMARY: The District proposes to amend the conditions for issuance of an individual water use permit to include a condition that the proposed use does not withdraw reserved water. The District also proposes to add a requirement to the section on Modification of Permits that reserved water may not be withdrawn. In addition, the proposed amendments to the Basis of Review for Water Use Permit Applications within the South Florida Water Management District set forth the criteria for establishing reasonable assurances that reserved water is not withdrawn upon issuance of a consumptive use permit. The criteria provide for one exception – the withdrawal of water less than 100,000 gallons per day associated with public access/recreational or land management activities. A definition section with key terms has also been included. The proposed amendments set forth eight categories of consumptive uses that do not withdraw reserved water. If a consumptive use does not fall into one of these categories, the applicant must undertake modeling following the specific requirements set forth in the proposed criteria or other similarly acceptable alternative modeling evaluations to demonstrate that reserved water is not being withdrawn. Finally, the criteria provide that reduced or terminated permit impacts that result in increased inflows into the reservation water body may be allocated unless the Governing Board of the South Florida Water Management District determines that such allocation is inconsistent with the public interest.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS:

Individuals and Entities Affected by the Proposed Rule

The proposed rule reserves water for protection of fish and wildlife in the Picayune Strand and the Fakahatchee Estuary in Collier County. The proposed rule will affect a subset of individuals and entities requesting water allocations from

surface waters, the water table aquifer or the minimally confined portions of the lower Tamiami aquifer in western Collier County.

Water use permit applications proposing to withdraw waters that are reserved for the Picayune Strand or the Fakahatchee Estuary under the proposed rule would be denied. In this case, the applicant may choose to switch locations of water withdrawals to deeper portions of the subsurface within the aquifers not affected by the rule, reduce the proposed withdrawal, or move the proposed withdraw location farther away from the reservation water body or impacted canal. The number of individuals and entities potentially affected by this rule is not known but could include public supply utilities, industry, agricultural firms, golf course owners and entities that wish to maintain landscaping such as parks and schools located near the reservation water bodies or specified tributaries that deliver surface water that is proposed to be reserved under the rule. The geographic area affected by the proposed rule is limited to western Collier County. Existing land uses (platted single family homes, agricultural land holdings and publicly owned conservation lands) act to limit access to the surface waters within the reservation water bodies and canals where inflows are reserved.

The proposed rule set forth eight categories of consumptive uses that do not withdraw reserved water. If a consumptive use does not fall into one of these categories, the applicant must undertake modeling following the specific requirements set forth in the proposed criteria or other similarly acceptable alternative modeling evaluations to demonstrate that reserved water is not being withdrawn. Finally, the criteria provide that reduced or terminated permit impacts that result in increased inflows into the reservation water body may be allocated unless the Governing Board of the South Florida Water Management District determines that such allocation is inconsistent with the public interest.

Transactional Costs

A summary of the transactional costs is as follows.

- Existing legal uses on the effective date of the rule will have no transactional costs.
- Applicants for renewal of existing legal water uses on the effective date of the rule will have no transactional costs.
- New or modified uses that are not direct or indirect withdrawals will have zero to minimal transactional costs, as the evaluations required under the proposed rule are also required under existing rule to provide reasonable assurance of compliance with other conditions for issuance under Rule 40E-2.301, F.A.C.
- Permit modifications that do not change the source, increase the allocation, or change withdrawal locations will have no transactional costs.
- Applicants for withdrawals from the Sandstone aquifer, Mid-hawthorn aquifer or the Floridan Aquifer systems will have no transactional costs.

- A proposed new use with a direct or indirect withdrawal and no greater impact, including changes in timing, on a reservation water body than the terminated or reduced permit existing on [effective date] within the same project site will have zero to minimal transactional costs, as the evaluations required under the proposed rule are also required under existing rule to provide reasonable assurance of compliance with other conditions for issuance under Rule 40E-2.301, F.A.C.

Costs of Modelling under Section 3.11.1.B.

An integrated surface and ground water transient model (transient hydrologic model) must be developed, calibrated and run for permit applications that are determined to have the potential of withdrawing reserved water quantities. Pursuant to Subsection 3.11.1.A.8., this group only includes applications for new or modified permits that have a direct or indirect withdrawal, as defined in the proposed rule.

This integrated transient hydrologic modeling is estimated to cost between \$100,000 to \$500,000, depending on the amount of data collection and modeling needed to determine whether the requested allocation will withdraw reserved water. The higher range of costs are associated with developing a model from scratch including developing regionalized input data sets for all model parameters. The lower range of costs consider time and cost savings associated with using existing regionalized input data sets when assembling a model. The District has developed two calibrated integrated transient models for the area (Picayune Strand PIR model and the LWC SAS Sub-Regional model). The input data sets are available to the public as public records and may be used by permit applicants in the development of the modeling required pursuant to the reservation rule.

If the results of the hydrologic modeling indicate that proposed new or modified withdrawals will withdraw reserved water, the applicant may choose to develop an alternative water source, or otherwise modify the project so no reserved water will be withdrawn. The likely alternatives include aquifers located beneath the Lower Tamiami aquifer as specified in the rule. These include, in descending order, the Sandstone, Hawthorn Zone I / Lower Hawthorn, and Floridan aquifers.

For non-potable water uses, moving from a surface water source to the confined Lower Tamiami aquifer or the Sandstone aquifer will increase water supply costs by about \$0.10 per 1,000 gallons of water produced. There is no significant cost difference between obtaining fresh water from the Water Table aquifer, the lower Tamiami aquifer, or the Sandstone aquifer. However, if these applicants are not able to obtain water from these sources, the increased cost associated with pumping and treating brackish water from the Hawthorn aquifer or the Floridan aquifer will increase significantly. The cost increase associated with going from the water table, lower Tamiami or Sandstone with not treatment to the Floridan

Aquifer System with reverse osmosis treatment ranges from \$3.42 per 1,000 gallons of water produced to \$3.62 per 1,000 gallons depending on which aquifer is used.

For a public supply utility, the cost increase is not significant if the applicant moves from the Water Table aquifer or the Lower Tamiami aquifer to the Sandstone aquifer. However, if the applicant uses the Hawthorn or the Floridan aquifers, the cost increases by about \$0.60 to \$0.70 per 1,000 gallons. In this case, the degree of financial and economic impacts to the public supply utility would depend on the proportion of the utility's total water supply that comes from these sources.

Applicants for dewatering projects which retain the effluent water on-site, will not be impacted by the rule. If the retaining water on site is not feasible, the applicant will be required to demonstrate reserved water is not withdrawn. This could be done through modeling, or modifying the project (e.g. construction in the wet, establishing a hydraulic barrier between the dewatering site and the reservation water body, phased dewatering to reduce the impact e.t.c.). No specific cost estimates of these options have been compiled.

Cost to the District

The estimated one-time cost to the District to implement the proposed rule is \$16,200. The estimated cost to the District to address each water use permit application that occurs within the area affected by this rule could be as much as \$4,800 to \$5,700 per applicant and \$2,100 per dewatering permit for projects that involve extensive review. However, those projects that do not involve significant evaluations (such as renewals, modifications not involving reserved water, projects using alternative sources of supply etc.) will have minimal costs to the District.

Cost to Small Businesses, Small Cities and Small Counties

The City of Everglades will be affected by the proposed rule if it requests additional permitted water quantities from surface water or from the water table aquifer or from the lower Tamiami aquifer in western Collier County. There are likely to be several small businesses in Collier County that could be developed within the geographic area influenced by the rule. The potential costs associated with this rule are tied to the volume of water needed for the business, the location of the withdrawal, and the level of treatment needed.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

(The following changes are proposed to the “Basis of Review for Water Use Permit Applications within the South Florida Water Management District”)

1.7.5.2 Modeling Data

Applicable modeling data may consist of basic analytic impact assessments or calibrated numeric system simulation models. The modeling impact assessments shall be conducted for the proposed withdrawal alone, as well as the proposed withdrawal combined with all other permitted uses and pending applications within the cone of depression of the proposed use. The cone of depression is defined by the 0.1 foot drawdown contour for the proposed withdrawal from the water table aquifer and the 1.0 foot contour for the proposed withdrawal from a confined aquifer.

A. Basic analytic impact assessments: Basic analytic impact assessments utilize an approved analytic equation(s), such as the Theis or Hantush-Jacob equation, applied to the requested maximum month allocation that simulates continued withdrawal for 90 days without recharge (which is considered for purpose of these simulations to be equivalent to a 1 in 10 year drought condition). Aquifer characteristics derived from approved aquifer performance tests (APT) or specific capacity tests (SFWMD, Part B Water Use Management System Design and Evaluation Aids, Part II Aquifer Performance Test) located within one mile of the project site are acceptable. If more than one set of aquifer characteristics data exists within one mile of the site, the value measured closest to the proposed project will be used unless the applicant can demonstrate that hydrogeologic conditions at the project site are not represented by such data. If the location of the nearest site where aquifer characteristics were measured is greater than one mile from the project site, the average of the nearest three APT or specific capacity test sites is acceptable providing that two of the three values are within one standard deviation of the mean. If this is not the case, the applicant shall demonstrate that the conditions of permit issuance are met for the highest and lowest values of the three sites, or the applicant may opt to conduct an APT or specific capacity test at the site.

The use of numeric models such as Modflow without calibration is acceptable under the following configurations: (1) the model represents the aquifer or aquifer system as no more than two layers; (2) each layer uses a single value for transmissivity/permeability, storage/storativity and a single value is used for leakance between the layers; (3) the simulation time is 90 days with no recharge; and (4) surface water recharge features are not represented. The modeling shall include separate runs using the highest and lowest measured values of transmissivity/permeability, storage/ storativity, and leakance from the region, based on published data and pump test values calculated as described above. The selected high and low aquifer values will be approved provided they significantly overestimate the withdrawal impacts that would occur on the site. The use of a numeric model without calibration is acceptable for representing seepage irrigation systems where the applicant models the portion of the irrigation water that returns to the water table aquifer, provided the model is configured as described in this paragraph and the change in the water table elevation predicted by the model is field verified with water level data from at least one water table piezometer located adjacent to the irrigated field.

(Subsection 1.7.5.2 B. remains unchanged)

1.8 Definitions

Allocation Coefficient through Reclaimed Water – No change.
Reservation water body – Areas within the District as identified in Rules 40E-10.021 and 40E-10.041, F.A.C., for which a water reservation has been established.

Resource Efficiency through Xeriscape – No change.

2.5.2 Dewatering General Water Use Permit.

Dewatering General Water Use Permits, as described in subsection 40E-20.302(2), F.A.C., are for dewatering projects, which a) cannot meet the conditions of issuance and requirements for “No-Notice” permits, b) have a proposed duration of less than one year, and c) propose to pump less than 10 million gallons per day with a total project volume of less than 1800 million gallons. A dewatering general water use permit application must be submitted to the District and Staff must issue the General Permit prior to the applicant beginning dewatering, unless portions of the project qualify for dewatering under the “No-Notice” permit described above. The applicant may elect to begin dewatering for a single period of only 90 days in areas of the project, which meet the “No-Notice” criteria, once an application for a Dewatering General Water Use Permit has been submitted to the District.

Permit applications for a Dewatering General Water Use Permit must:

- (1) through (4) No change.

(5) Demonstrate that reserved water will not be withdrawn pursuant to paragraph 40E-20.301(1)(k), F.A.C., by retaining all water onsite. If the Applicant demonstrates that retaining the water on site is not feasible, the application shall be processed as an individual permit pursuant to Section 2.5.3.

(6)(5) Provide reasonable assurances that fresh dewatering water will not be discharged to saline tidal waters, unless the applicant demonstrates that it is not technically feasible to prevent discharge to saline water and requests specific authority from the District for discharge. Saline dewatering water, as defined in this Basis of Review, may be discharged to tidewater.

(7)(6) Provide an operational plan which describes how stormwater will be handled during dewatering operations.

Dewatering applications will be reviewed concurrently with Environmental Resource or Surface Water Management construction permit applications, and the dewatering application will not be considered complete until both applications are complete. An applicant may request that the dewatering permit include a later “start” date to coincide with the actual start of dewatering activities at the project. Staff will recommend a permit expiration date, based on the proposed “start” date. Any temporary dewatering water holding areas must be constructed and operated using sound engineering practices to protect public health, safety, and welfare and, as necessary, dewatering activities must meet all applicable Environmental Resource or Surface Water Management criteria.

2.5.3 Long-Term Dewatering Individual Permits.

Long-term dewatering individual permits apply to projects that exceed the thresholds and criteria described in Sections 2.5.1 and 2.5.2 above. These permits must be approved by the District Governing Board. Two types of individual dewatering permits are available from the District. For projects where all the dewatering activities are defined at the time of the permit application, the applicant may apply for a “standard” Individual Permit. For long-term, multi-phased projects, with undefined activities or no contractor at the time of the permit application, the applicant may apply for a “master” Individual Permit.

Applicants for all individual dewatering permits must satisfy the conditions of issuance for Individual Permits (Rule 40E-2.301, F.A.C.), and may not commence dewatering prior to approval of the permit by the Governing Board. In order to provide reasonable assurances that water reserved in Rule 40E-10.041, F.A.C., will not be withdrawn, all water from the

dewatering activity shall be retained on site. If the applicant demonstrates that retaining the water on site is not feasible, the project shall be modified to demonstrate pursuant to Section 3.11 that reserved water will not be withdrawn. The applicant may elect to begin dewatering for a single period of only 90 days in areas of the project, that meet the No-Notice criteria specified in Section 2.5.1 of this Basis of Review, once an application for an Individual dewatering permit has been submitted to the District.

The applicant must provide the information required for the Dewatering General Permit, as specified in Section 2.5.2. In addition, the applicant shall provide estimates of the maximum monthly and annual dewatering withdrawals for the project and will be required to submit records of monthly withdrawals for each dewatering pump to the District. Staff shall not specify maximum monthly or annual withdrawal volumes in the recommended permit conditions presented to the Governing Board.

A. "Standard" Individual Permits

No change.

B. "Master" Individual Permits

3.11 Water Reservations.

3.11.1 Picayune Strand and Fakahatchee Estuary.

A permit applicant shall provide reasonable assurances that the proposed use will not withdraw water reserved under subsections 40E-10.041(1) and (2), F.A.C., except that water uses less than 100,000 gallons per day associated with land management or public access/recreation shall be permissible.

Compliance with the following criteria constitutes reasonable assurances that water reserved in subsections 40E-10.041(1) and (2), F.A.C., will not be withdrawn. Water not reserved under subsections 40E-10.041(1) and (2), F.A.C., shall be allocated pursuant to subsections A and B.

For this section, the following definitions apply:

Direct Withdrawals from Groundwater: Water pumped from a well(s) constructed within the boundaries of the Picayune Strand or Fakahatchee Estuary into the water table or unconfined portions of the Lower Tamiami aquifer.

Indirect Withdrawals from Groundwater: a) a groundwater withdrawal from a well(s) constructed outside the boundaries of Picayune Strand and Fakahatchee Estuary into the water table or Lower Tamiami aquifer that results in a 0.1 foot or greater drawdown in the water table aquifer at any location underlying the Picayune Strand or the Fakahatchee Estuary, as determined by an evaluation conducted pursuant to Section 1.7.5.2.A.; or b) a groundwater withdrawal that causes a water table drawdown of 0.1 foot or greater underlying any canal identified in Figure 3-5, as determined by an evaluation conducted pursuant to Section 1.7.5.2.A.

Direct Withdrawals from Surface Water: Withdrawal of surface water from facilities physically located within the Picayune Strand or Fakahatchee Estuary boundaries.

Indirect Withdrawal from Surface Water: Withdrawal of surface water from any canal identified in Figure 3-5.

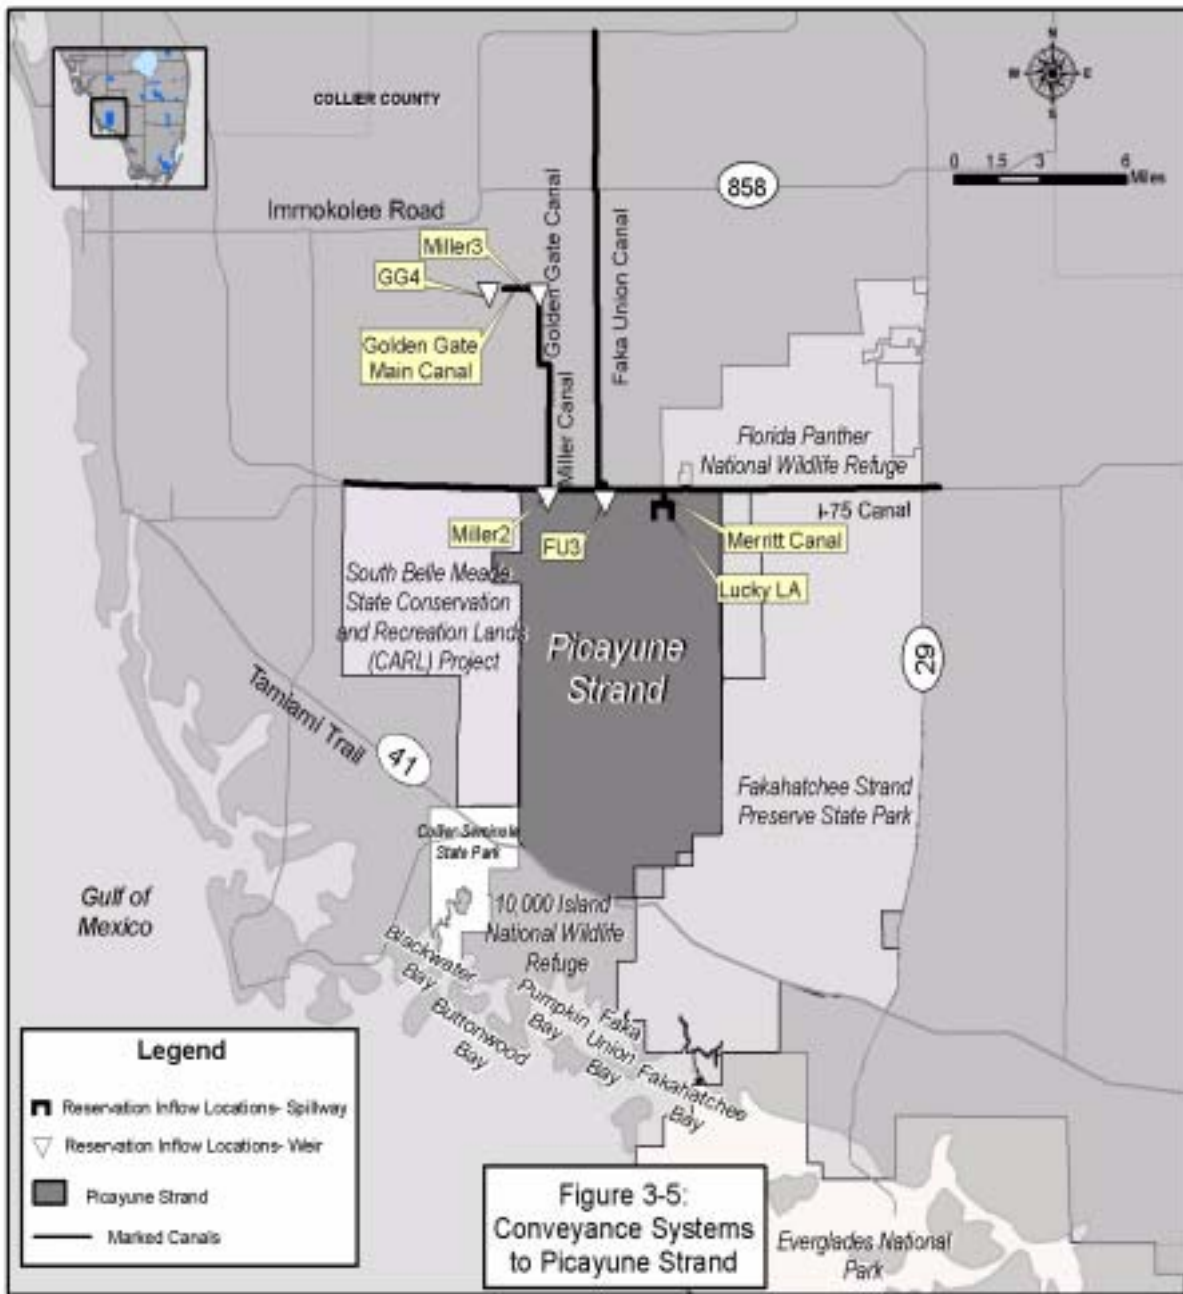

Figure 3-5:
Conveyance Systems
to Picayune Strand

A. The following uses do not withdraw reserved water:

1. Withdrawals from the Sandstone aquifer, Mid-Hawthorn aquifer or the Floridan Aquifer Systems;

2. Withdrawals authorized by subsection 40E-20.302(3), F.A.C. (No-Notice Short-Term Dewatering General Water Use Permit);

3. A renewal of a water use authorized by a permit existing on [effective date]. If the level of certainty under the permit being renewed is changed to a 1 in 10 year level of certainty pursuant to Section 2.3.2 (e.g. a golf course irrigation level of certainty changed from a 1 in 5 to a 1 in 10 year level of drought), the resulting 1 in 10 year allocation shall be authorized;

4. A permit modification that does not change the source, increase the allocation or change withdrawal locations, such as replacement of existing wells with similar construction and at similar locations, crop changes that do not change the allocation or timing of use, or decrease in allocation;

5. A permit modification that does not result in a direct or indirect withdrawal as demonstrated through an analysis conducted consistent with Section 1.7.5.2.A. When a modification to an existing permit is requested, the 0.1 foot threshold for determining a direct or indirect withdrawal will be applied to the effect of the modification only. The change in the drawdown solely associated with the applicant's proposed modification is calculated at the location of the 0.1 foot drawdown contour associated with the existing permit. If the change in drawdown associated with the proposed modification is less than 0.1 foot, the applicant's modification does not withdraw reserved water;

6. A proposed new use that does not result in a direct or indirect withdrawal as demonstrated through an analysis conducted pursuant to Section 1.7.5.2.A.

7. A proposed new use with a direct or indirect withdrawal and no greater impact, including changes in timing, on a reservation water body than the terminated or reduced permit existing on [effective date] within the same project site. This evaluation will be conducted pursuant to Section 1.7.5.2.

8. A proposed new use or proposed modification of a permit with an indirect withdrawal that does not withdraw reserved water from the Picayune Strand or the Fakahatchee Estuary. The determination that reserved water is not withdrawn shall be demonstrated by conducting the Model Impact Evaluation in Section B.

B. Model Impact Evaluation. If required by Section A, the applicant shall demonstrate water reserved for the Picayune Strand and Fakahatchee Estuary will not be withdrawn by conducting the following Model Impact Evaluation. A pre-application meeting between the Applicant and District staff is strongly recommended to be conducted prior to initiating model development.

1. Defining Scope of Model Evaluation.

(a) For groundwater withdrawals, identify the cone of influence of the proposed withdrawal per Section 1.7.5.2.A. Based on this analysis, the Applicant shall identify which reservation inflow locations (set forth in Figures 1 and 2 in Rule 40E-10.021, F.A.C.) and conveyance system(s) identified on Figure 3-5 are potentially influenced by the proposed withdrawal.

(b) For surface water withdrawals, identify the reservation inflow locations, reservation water body (set forth in Figures 1 and 2 in Rule 40E-10.021, F.A.C.), and conveyance system(s) identified on Figure 3-5 that are potentially influenced by the proposed withdrawal.

2. Conditions of Model Development.(a) Boundary Conditions: The model domain and resolution of grid cell size shall be identified using professional standards for model development considering the area of influence, while avoiding boundary condition biases. At a minimum, boundaries shall be situated sufficiently distant from the area of interest or in such a manner as to prevent non-representative impacts from specified boundary conditions on predicted stages and/or flow in the area of interest.

(b) Surface and groundwater interactions: Surface and groundwater model codes that have undergone professional peer review and are representative of the physical system being simulated shall be used. Where integrated surface water and groundwater models are applied, time steps will be selected with consideration given to the resolution of the available data and the resolution necessary for quantifying flow volumes. Surface waters and overland flow time steps not exceeding 4 hours in length, canal flows time steps not exceeding 3 minutes, and groundwater time steps not exceeding 6 hours in length shall be considered acceptable. Alternative time steps may be used providing they produce an acceptable calibration as described in Subsection 3.11.1B.2(f). For the purposes of model calibration, the time steps used for simulating stages shall be averaged and flows shall be summed to produce daily values for comparison to measured data.

(c) Hydrologic Conditions: Rainfall and evapotranspiration shall be simulated based on data collected from 1988 through 2000 for the model domain.

(d) Land Use/Water Use: The model shall simulate 2000 land use existing on December 31, 2000 within the model domain (as identified in paragraph (a), above). The water use withdrawal data used for the model calibration shall reflect actual use during the period of 1988 through 2000. In the case of irrigation type uses, a supplemental crop irrigation module from the model code selected per paragraph (b) shall be acceptable for calculating variable demands.

(e) Project Features and Operations: Model simulations shall include project features and operations of the Picayune Strand Restoration Project utilized to simulate the flows identified in Rule 40E-10.041, F.A.C.

(f) Model Calibration: To calibrate the model, the model output shall be compared to the affected flow probability distribution(s) in Rule 40E-10.041, F.A.C., and surface water, groundwater stage, and flow data from monitoring sites located within the model domain. The model shall be considered calibrated when surface water and groundwater stage and flow are calibrated as required by subsections (i), (ii) and (iii), below, and the resulting flow probability distribution curves from the Applicant's model are consistent with the magnitude and timing of flows in the flow probability distribution curves identified in Rule 40E-10.041, F.A.C., for the time period including 1988 through 2000. In the event that the simulated model output for a monitoring site(s) or the flow probability distribution(s) does not meet these criteria, the Applicant shall provide a justification of the deviation. If such justification adheres to documented physical conditions in the field and comports with professionally accepted principles of hydrology, the monitoring sites or flow probability distribution(s) that do not meet the criteria shall be accepted.

i. Groundwater Stage Data: The mean error determined by comparing the model calculated groundwater stage as described in Subsection 3.11.1.B.2.(b) with the corresponding measured data shall not exceed 1.0 foot for the time period including January 1, 1995 through December 31, 1999. If the mean error is exceeded at a monitoring location, the groundwater calibration shall be considered acceptable when the absolute mean error of all the groundwater monitoring locations within the model domain do not exceed 1.0 foot and the deviation between the model simulation value and the measured value is explained as set forth in Subsection 3.11.1.B.2.(f).

ii. Canal Stage Data: The average mean error determined by comparing the model simulated surface water stages as described in Subsection 3.11.1.B.2.(b) with the corresponding measured data should not exceed 0.3 foot for the time period including January 1, 1995 through December 31, 1999.

iii. Flow Data: The mean error determined by comparing the model simulated surface water flow as described in Subsection 3.11.1.B.2.(b) with the corresponding measured data shall not exceed ten percent for the time period including January 1, 1995 through December 31, 1999.

3. Impact Evaluation.

Once the model is calibrated, Applicants shall demonstrate that water reserved for the Picayune Strand and Fakahatchee Estuary will not be withdrawn, based on the following:

(a) "Without scenario": All existing legal uses at the effective date of the rule shall be represented using the allocation in the permit. For the purposes of this evaluation and subsection (b), the annual allocation shall be distributed on a monthly basis based on the use type. For a public water supply use type, the monthly distribution shall be calculated based on the measured monthly pumpage divided by the annual total pumpage using the average of the three most recent

representative years. Representative years shall not include years with water shortage restrictions, years with plant failures or other years that are not representative of normal pumpage. For an irrigation use type, the monthly distribution shall be determined using the Blaney-Criddle distribution calculated for each project per "Part B Water Use Management System Design and Evaluation Aids." The annual allocation and the associated monthly distribution shall be simulated using the calibrated model developed in accordance with the criteria identified in Subsection 3.11.1.B.2 in order to generate a daily flow data for each represented inflow location identified in Subsection 3.11.1. These data shall be presented as daily hydrographs as well as seasonal and period of record flow probability curves.

(b) "With Scenario": The "with scenario" includes all existing legal uses at the time of the evaluation of the application and the proposed use and pending applications for which the evaluation under this subsection is being conducted. The annual allocation and the associated monthly distribution shall be simulated using the calibrated model developed in accordance with the criteria identified in Subsection 3.11.1.B.2 in order to generate a daily flow data for each represented inflow location identified in Subsection 3.11.1. These data shall be presented as daily hydrographs as well as seasonal and period of record flow probability curves.

(c) The resulting flow volume distributions of the "with" and "without" scenarios shall be compared to determine whether the proposed use withdraws reserved water. Withdrawals of reserved water occur when the simulated flow volume probability curve(s) of the "with scenario" differs in flow distribution when compared to the "without scenario" at any of the inflow locations identified in Subsection 3.11.1.B.1.

4. Alternative Model Evaluations.

Applicants may propose alternative modeling evaluations in order to provide reasonable assurances that the proposed project does not withdraw water reserved under Rule 40E-10.041, F.A.C. Such modeling shall evaluate the impacts of the proposed project on the reservation water body under a representative range of hydrologic conditions for which the water reservations have been established (e.g. wet, average, dry hydrologic conditions). Proposed alternative modeling evaluations shall be submitted in writing to the District for review and comment prior to conducting such modeling either in a pre-application meeting or as part of the permit application. District staff shall approve those model approaches which utilize documented model codes that have undergone professional peer review and accurately represent the physical system; are calibrated consistent with the criteria contained in Subsection 3.11.1.B.2(f)i., ii., and iii. or other appropriate criteria; accurately represents impacts to inflows of reserved water into the reservation water body as described in Rule 40E-10.041, F.A.C.; and represents existing legal uses and the proposed project withdrawals.

5. Reduced or Terminated Permit Impacts.

If an existing legal use at the effective date of the rule has been reduced or terminated and results in increased inflows that result from the reduced or terminated use into the reservation water body, the applicant may seek an allocation that withdraws such increased inflows at any of the inflow locations identified in Subsection 3.11.1.B.1. provided that the waters reserved in Rule 40E-10.041, F.A.C. are not reduced as demonstrated through an analysis conducted pursuant to Subsection 3.11.1.B.3. or 4. The quantity of increased inflow shall be available for allocation unless the Governing Board determines that allocation of the water is not consistent with the public interest under Section 373.223(1)(c), F.S.

In the event these criteria cannot be met, the applicant shall modify the application to otherwise meet the requirements of this Section.

3. Does not potentially interfere with any presently existing legal use of water, cause environmental harm, saltwater intrusion, pollution of the water resources, harm to offsite land uses, does not withdraw water reserved under Chapter 40E-10, F.A.C., or does not otherwise raise issues requiring a Staff determination of whether such impacts would occur pursuant to the “Basis of Review for Water Use Permit Applications within the South Florida Water Management District”, incorporated by reference in Rule 40E-2.091, F.A.C.; and

4. Does not change the permitted withdrawal source(s) or use classification.

RULE NOS.:	RULE TITLES:
40E-10.011	Purpose and General Provisions
40E-10.021	Definitions
40E-10.031	Water Reservations
40E-10.041	Water Reservation Areas: Lower West Coast Planning Area

PURPOSE AND EFFECT: To define the quantity, location and timing of waters reserved from allocation for the protection of fish and wildlife pursuant to Section 373.223(4), F.S., for specified water bodies.

SUMMARY: This chapter establishes both surface water and groundwater reservations for the Picayune Strand and the Fakahatchee Estuary. These reservations are based on information contained in the peer reviewed report entitled “Technical Document to Support a Water Reservation Rule for Picayune Strand and Downstream Estuaries”, which establishes the linkages between the identification of the reserved water and the protection of fish and wildlife. Because the water reservation authority under Section 373.223(4), F.S., authorizes the set aside of water from consumptive use, Chapter 40E-10, F.A.C. establishes that applicants for consumptive use permits meet the requirement of this chapter by providing reasonable assurances that criteria contained in rules governing issuance of individual and general water use permits are met. It also sets forth that presently existing legal uses for the duration of the permit existing on [effective date] are determined to be not contrary to the public interest, pursuant to Section 373.223(4), F.S. Finally, Chapter 40E-10, F.A.C. contains figures showing the location of the reserved water and the volume probability curves which simulated the surface water inflow that is protected by this Chapter.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: Individuals and Entities Affected by the Proposed Rule

The proposed rule reserves water for protection of fish and wildlife in the Picayune Strand and the Fakahatchee Estuary in Collier County. The proposed rule will affect a subset of individuals and entities requesting water allocations from surface waters, the water table aquifer or the minimally confined portions of the lower Tamiami aquifer in western Collier County.

Water use permit applications proposing to withdraw waters that are reserved for the Picayune Strand or the Fakahatchee Estuary under the proposed rule would be denied. In this case, the applicant may choose to switch locations of water withdrawals to deeper portions of the subsurface within the aquifers not affected by the rule, reduce the proposed withdrawal, or move the proposed withdraw location farther away from the reservation water body or impacted canal. The number of individuals and entities potentially affected by this rule is not known but could include public supply utilities, industry, agricultural firms, golf course owners and entities that wish to maintain landscaping such as parks and schools located near the reservation water bodies or specified tributaries that deliver surface water that is proposed to be reserved under the rule. The geographic area affected by the proposed rule is limited to western Collier County. Existing land uses (platted single family homes, agricultural land holdings and publicly owned conservation lands) act to limit access to the surface waters within the reservation water bodies and canals where inflows are reserved.

The proposed rule set forth eight categories of consumptive uses that do not withdraw reserved water. If a consumptive use does not fall into one of these categories, the applicant must undertake modeling following the specific requirements set forth in the proposed criteria or other similarly acceptable alternative modeling evaluations to demonstrate that reserved water is not being withdrawn. Finally, the criteria provide that reduced or terminated permit impacts that result in increased inflows into the reservation water body may be allocated unless the Governing Board of the South Florida Water Management District determines that such allocation is inconsistent with the public interest.

Transactional Costs

A summary of the transactional costs is as follows.

- Existing legal uses on the effective date of the rule will have no transactional costs.
- Applicants for renewal of existing legal water uses on the effective date of the rule will have no transactional costs.
- New or modified uses that are not direct or indirect withdrawals will have zero to minimal transactional costs, as the evaluations required under the proposed rule are also

required under existing rule to provide reasonable assurance of compliance with other conditions for issuance under Rule 40E-2.301, F.A.C.

- Permit modifications that do not change the source, increase the allocation, or change withdrawal locations will have no transactional costs.
- Applicants for withdrawals from the Sandstone aquifer, Mid-hawthorn aquifer or the Floridan Aquifer systems will have no transactional costs.
- A proposed new use with a direct or indirect withdrawal and no greater impact, including changes in timing, on a reservation water body than the terminated or reduced permit existing on [effective date] within the same project site will have zero to minimal transactional costs, as the evaluations required under the proposed rule are also required under existing rule to provide reasonable assurance of compliance with other conditions for issuance under Rule 40E-2.301, F.A.C.

Costs of Modelling under Section 3.11.1.B.

An integrated surface and ground water transient model (transient hydrologic model) must be developed, calibrated and run for permit applications that are determined to have the potential of withdrawing reserved water quantities. Pursuant to Subsection 3.11.1.A.8., this group only includes applications for new or modified permits that have a direct or indirect withdrawal, as defined in the proposed rule.

This integrated transient hydrologic modeling is estimated to cost between \$100,000 to \$500,000, depending on the amount of data collection and modeling needed to determine whether the requested allocation will withdraw reserved water. The higher range of costs are associated with developing a model from scratch including developing regionalized input data sets for all model parameters. The lower range of costs consider time and cost savings associated with using existing regionalized input data sets when assembling a model. The District has developed two calibrated integrated transient models for the area (Picayune Strand PIR model and the LWC SAS Sub-Regional model). The input data sets are available to the public as public records and may be used by permit applicants in the development of the modeling required pursuant to the reservation rule.

If the results of the hydrologic modeling indicate that proposed new or modified withdrawals will withdraw reserved water, the applicant may choose to develop an alternative water source, or otherwise modify the project so no reserved water will be withdrawn. The likely alternatives include aquifers located beneath the Lower Tamiami aquifer as specified in the rule. These include, in descending order, the Sandstone, Hawthorn Zone I / Lower Hawthorn, and Floridan aquifers.

For non-potable water uses, moving from a surface water source to the confined Lower Tamiami aquifer or the Sandstone aquifer will increase water supply costs by about \$0.10 per 1,000 gallons of water produced. There is no

significant cost difference between obtaining fresh water from the Water Table aquifer, the lower Tamiami aquifer, or the Sandstone aquifer. However, if these applicants are not able to obtain water from these sources, the increased cost associated with pumping and treating brackish water from the Hawthorn aquifer or the Floridan aquifer will increase significantly. The cost increase associated with going from the water table, lower Tamiami or Sandstone with not treatment to the Floridan Aquifer System with reverse osmosis treatment ranges from \$3.42 per 1,000 gallons of water produced to \$3.62 per 1,000 gallons depending on which aquifer is used.

For a public supply utility, the cost increase is not significant if the applicant moves from the Water Table aquifer or the Lower Tamiami aquifer to the Sandstone aquifer. However, if the applicant uses the Hawthorn or the Floridan aquifers, the cost increases by about \$0.60 to \$0.70 per 1,000 gallons. In this case, the degree of financial and economic impacts to the public supply utility would depend on the proportion of the utility's total water supply that comes from these sources.

Applicants for dewatering projects which retain the effluent water on-site, will not be impacted by the rule. If the retaining water on site is not feasible, the applicant will be required to demonstrate reserved water is not withdrawn. This could be done through modeling, or modifying the project (e.g. construction in the wet, establishing a hydraulic barrier between the dewatering site and the reservation water body, phased dewatering to reduce the impact e.t.c.). No specific cost estimates of these options have been compiled.

Cost to the District

The estimated one-time cost to the District to implement the proposed rule is \$16,200. The estimated cost to the District to address each water use permit application that occurs within the area affected by this rule could be as much as \$4,800 to \$5,700 per applicant and \$2,100 per dewatering permit for projects that involve extensive review. However, those projects that do not involve significant evaluations (such as renewals, modifications not involving reserved water, projects using alternative sources of supply etc.) will have minimal costs to the District.

Cost to Small Businesses, Small Cities and Small Counties

The City of Everglades will be affected by the proposed rule if it requests additional permitted water quantities from surface water or from the water table aquifer or from the lower Tamiami aquifer in western Collier County. There are likely to be several small businesses in Collier County that could be developed within the geographic area influenced by the rule. The potential costs associated with this rule are tied to the volume of water needed for the business, the location of the withdrawal, and the level of treatment needed.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

WATER MANAGEMENT DISTRICTS

South Florida Water Management District

RULE NOS.:	RULE TITLES:
40E-20.091	Publications Incorporated by Reference
40E-20.301	Conditions for Issuance of General Water Use Permits
40E-20.302	Types of General Water Use Permits
40E-20.331	Modification of General Water Use Permits

PURPOSE AND EFFECT: To incorporate requirements for protecting reserved water pursuant to Section 373.223(4), F.S. and to establish a water reservation for the Picayune Strand and Fakahatchee Estuary.

SUMMARY: The District proposes to amend the conditions for issuance of a general water use permit to include a condition that the proposed use not withdraw reserved water. A specific amendment to the No Notice Short Term Dewatering General Water Use Permit requiring water to be retained on site is also proposed to protect reserved water. For a summary of the proposed amendments to the criteria found in the “Basis of Review for Water Use Permit Applications within the South Florida Water Management District” see the Notice of Proposed Rule for Chapter 40E-2, F.A.C., in this issue.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS:

Individuals and Entities Affected by the Proposed Rule

The proposed rule reserves water for protection of fish and wildlife in the Picayune Strand and the Fakahatchee Estuary in Collier County. The proposed rule will affect a subset of individuals and entities requesting water allocations from surface waters, the water table aquifer or the minimally confined portions of the lower Tamiami aquifer in western Collier County.

Water use permit applications proposing to withdraw waters that are reserved for the Picayune Strand or the Fakahatchee Estuary under the proposed rule would be denied. In this case, the applicant may choose to switch locations of water withdrawals to deeper portions of the subsurface within the aquifers not affected by the rule, reduce the proposed withdrawal, or move the proposed withdraw location farther away from the reservation water body or impacted canal. The

number of individuals and entities potentially affected by this rule is not known but could include public supply utilities, industry, agricultural firms, golf course owners and entities that wish to maintain landscaping such as parks and schools located near the reservation water bodies or specified tributaries that deliver surface water that is proposed to be reserved under the rule. The geographic area affected by the proposed rule is limited to western Collier County. Existing land uses (platted single family homes, agricultural land holdings and publicly owned conservation lands) act to limit access to the surface waters within the reservation water bodies and canals where inflows are reserved.

The proposed rule set forth eight categories of consumptive uses that do not withdraw reserved water. If a consumptive use does not fall into one of these categories, the applicant must undertake modeling following the specific requirements set forth in the proposed criteria or other similarly acceptable alternative modeling evaluations to demonstrate that reserved water is not being withdrawn. Finally, the criteria provide that reduced or terminated permit impacts that result in increased inflows into the reservation water body may be allocated unless the Governing Board of the South Florida Water Management District determines that such allocation is inconsistent with the public interest.

Transactional Costs

A summary of the transactional costs is as follows.

- Existing legal uses on the effective date of the rule will have no transactional costs.
- Applicants for renewal of existing legal water uses on the effective date of the rule will have no transactional costs.
- New or modified uses that are not direct or indirect withdrawals will have zero to minimal transactional costs, as the evaluations required under the proposed rule are also required under existing rule to provide reasonable assurance of compliance with other conditions for issuance under Rule 40E-2.301, F.A.C.
- Permit modifications that do not change the source, increase the allocation, or change withdrawal locations will have no transactional costs.
- Applicants for withdrawals from the Sandstone aquifer, Mid-hawthorn aquifer or the Floridan Aquifer systems will have no transactional costs.
- A proposed new use with a direct or indirect withdrawal and no greater impact, including changes in timing, on a reservation water body than the terminated or reduced permit existing on [effective date] within the same project site will have zero to minimal transactional costs, as the evaluations required under the proposed rule are also required under existing rule to provide reasonable assurance of compliance with other conditions for issuance under Rule 40E-2.301, F.A.C.

Costs of Modelling under Section 3.11.1.B.

An integrated surface and ground water transient model (transient hydrologic model) must be developed, calibrated and run for permit applications that are determined to have the potential of withdrawing reserved water quantities. Pursuant to Subsection 3.11.1.A.8., this group only includes applications for new or modified permits that have a direct or indirect withdrawal, as defined in the proposed rule.

This integrated transient hydrologic modeling is estimated to cost between \$100,000 to \$500,000, depending on the amount of data collection and modeling needed to determine whether the requested allocation will withdraw reserved water. The higher range of costs are associated with developing a model from scratch including developing regionalized input data sets for all model parameters. The lower range of costs consider time and cost savings associated with using existing regionalized input data sets when assembling a model. The District has developed two calibrated integrated transient models for the area (Picayune Strand PIR model and the LWC SAS Sub-Regional model). The input data sets are available to the public as public records and may be used by permit applicants in the development of the modeling required pursuant to the reservation rule.

If the results of the hydrologic modeling indicate that proposed new or modified withdrawals will withdraw reserved water, the applicant may choose to develop an alternative water source, or otherwise modify the project so no reserved water will be withdrawn. The likely alternatives include aquifers located beneath the Lower Tamiami aquifer as specified in the rule. These include, in descending order, the Sandstone, Hawthorn Zone I / Lower Hawthorn, and Floridan aquifers.

For non-potable water uses, moving from a surface water source to the confined Lower Tamiami aquifer or the Sandstone aquifer will increase water supply costs by about \$0.10 per 1,000 gallons of water produced. There is no significant cost difference between obtaining fresh water from the Water Table aquifer, the lower Tamiami aquifer, or the Sandstone aquifer. However, if these applicants are not able to obtain water from these sources, the increased cost associated with pumping and treating brackish water from the Hawthorn aquifer or the Floridan aquifer will increase significantly. The cost increase associated with going from the water table, lower Tamiami or Sandstone with not treatment to the Floridan Aquifer System with reverse osmosis treatment ranges from \$3.42 per 1,000 gallons of water produced to \$3.62 per 1,000 gallons depending on which aquifer is used.

For a public supply utility, the cost increase is not significant if the applicant moves from the Water Table aquifer or the Lower Tamiami aquifer to the Sandstone aquifer. However, if the applicant uses the Hawthorn or the Floridan aquifers, the cost increases by about \$0.60 to \$0.70 per 1,000 gallons. In this case, the degree of financial and economic impacts to the public supply utility would depend on the proportion of the utility's total water supply that comes from these sources.

Applicants for dewatering projects which retain the effluent water on-site, will not be impacted by the rule. If the retaining water on site is not feasible, the applicant will be required to demonstrate reserved water is not withdrawn. This could be done through modeling, or modifying the project (e.g. construction in the wet, establishing a hydraulic barrier between the dewatering site and the reservation water body, phased dewatering to reduce the impact e.t.c.). No specific cost estimates of these options have been compiled.

Cost to the District

The estimated one-time cost to the District to implement the proposed rule is \$16,200. The estimated cost to the District to address each water use permit application that occurs within the area affected by this rule could be as much as \$4,800 to \$5,700 per applicant and \$2,100 per dewatering permit for projects that involve extensive review. However, those projects that do not involve significant evaluations (such as renewals, modifications not involving reserved water, projects using alternative sources of supply etc.) will have minimal costs to the District.

Cost to Small Businesses, Small Cities and Small Counties

The City of Everglades will be affected by the proposed rule if it requests additional permitted water quantities from surface water or from the water table aquifer or from the lower Tamiami aquifer in western Collier County. There are likely to be several small businesses in Collier County that could be developed within the geographic area influenced by the rule. The potential costs associated with this rule are tied to the volume of water needed for the business, the location of the withdrawal, and the level of treatment needed.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

64F-12.012 Records of Drugs, Cosmetics and Devices.

(1)(a) Records to document the movement of drugs, devices or cosmetics must provide a complete audit trail from a person's receipt or acquisition to sale or other disposition of the product or component. A complete audit trail includes records which document each transaction or step in the receipt, manufacture, shipping, transfer, or other steps in the channel of trade of that person, whether or not physical possession or handling of the product or component occurs. At a minimum, records shall consist of invoices from the supplier or source which documents acquisition of each product by the person and invoices of sale or other transfer by the person to the recipient. Retail sales transactions to the consumer of over-the-counter drugs, non-restricted devices, or cosmetics are exempt from the requirements of this rule. Additional recordkeeping is required for persons permitted by the department as further stated in this rule.

(b) A person engaged in the distribution of drugs, devices, or cosmetics is not required to maintain documentation from a common carrier that the designated recipient received the product shipped; however, the person must obtain such documentation from the common carrier and make it available to the department upon specific request of the department.

(2) Any person engaged in the manufacture of prescription drugs, the wholesale distribution of prescription drugs, or otherwise receiving or distributing prescription drugs must maintain records as follows:

(a) For each step in the channel of trade, records containing the information required by Section 499.0121(6)(a), F.S., and the Florida permit or license number which authorizes the source to possess and transfer prescription drugs in or into Florida must appear on one document, provided that, the financial documentation required by Section 499.0121(6)(a)5., F.S. does not have to be included on the same document so long as it is included on the invoice or other billing document for the transaction. If delivery of prescription drugs is made to a person other than the purchaser, the name, address or location where the prescription drugs are delivered, and the state license, permit or registration number for that location must be included also.

(b) The state permit or registration number of the purchaser may be omitted if the prescription drugs are exported; but a validated airway bill, bill of lading or other appropriate documentation must be maintained to evidence the exportation of the product.

(c) Invoices must reflect the amount billed per prescription drug product.

(d) Records to document the distribution of prescription drugs required by Section 499.0121(6), F.S., and this rule are to be created during the transaction (i.e., at the time of order, receipt, processing, picking or shipping) and not retroactively created. A pharmacy or other person authorized to possess prescription drugs that transfers prescription drugs to an establishment performing reverse distribution services or destruction activities must prepare or have prepared an inventory or other record of the prescription drugs so transferred prior to the prescription drugs leaving the premises. In addition to the name, address, and license number of the sender and the name, address, and license number of the receiving establishment, the record must include the elements set forth in paragraph 64F-12.023(3)(a), F.A.C.

(e) Inventory. A complete and accurate record of all stock of prescription drugs on hand must be made annually available by establishments permitted under Chapter 499, F.S. A physical inventory must be conducted at least annually unless perpetual inventory records are maintained, in which case the physical inventory may be conducted on a biennial basis. Significant inventory discrepancies must be investigated and handled in accordance with the written policies and procedures of the establishment. In addition, no later than July 17, 2006, each wholesale distributor shall submit to the department an inventory of drugs it has on hand as of June 30, 2006.

(f) Inventory existing as of June 30, 2006. A wholesale distributor permitted under Section 499.012, F.S. that has purchased a prescription drug on or before close of business June 30, 2006 without the pedigree required by Section 499.0121(6)(d), F.S. (2006) may distribute such drug provided the wholesale distributor submits to the department an inventory of such drugs no later than July 17, 2006, conforming to paragraph (2)(e) above and provided further that such drugs are otherwise in compliance with the provisions of Sections ~~ss.~~ 499.001 through 499.081, F.S. Inventories shall be submitted to the Department in written form, email, facsimile, or electronic media excluding a web page. The Department will consider the submittal to be a trade secret as defined by Sections ~~s.~~ 812.081(1)(c), F.S., provided that the sending wholesale distributor complies with the requirements of subsections 64F-12.021(1) and (2), F.A.C.

In order to satisfy the pedigree requirements in Section 499.01212(2), F.S., the appropriate one of the two pedigree documents defined in Section 499.01212(2), F.S., must be used. They are the "Direct Purchase Pedigree" document, which is defined at Section 499.01212(2)(a), F.S., and the "Alternative Pedigree" document, which is defined at Section 499.01212(2)(b), F.S., and also contains the elements in the forms approved by the Department in this rule section.

(a) Normal Distribution Chain Direct Purchase Pedigree.

It is statement in written or electronic form, accurately confirming that the wholesale distributor or its wholly owned subsidiary who purchases and receives the specific unit of the prescription drug being distributed, purchased and received the specific unit of the prescription drug directly from the manufacturer of the drug. The direct purchase pedigree document can be used to satisfy the requirements of Section 499.01212(2), F.S., only if the wholesale distributor or wholly owned subsidiary distributes that specific unit of the prescription drug that it purchased and received directly from the manufacturer, to a chain pharmacy warehouse as described at Section 499.003(7), F.S. or to a person authorized to purchase a prescription drug for the purpose of administering or dispensing such drug ("purchaser") in one of two ways:

a. The subject wholesale distributor or wholly owned subsidiary distributes the prescription drug directly to the purchaser; or

b. The subject wholesale distributor or wholly owned subsidiary distributes the prescription drug indirectly to the purchaser through the use of no more than two intracompany transfers.

2. In order to qualify for use of the direct purchase pedigree the wholesale distributor and its wholly owned subsidiary who purchases and receives the specific unit of the prescription drug directly from the manufacturer must accurately provide the statement and information required by Section 499.01212(2)(a), F.S. on the pedigree document. The wholesale distributor and its wholly owned subsidiary shall maintain and make available to the department the documentation required by Section 499.01212(2)(a), F.S. as well as the documentation required by Section 499.0121(6), F.S. and this rule chapter.

3. The direct purchase pedigree shall be provided to every recipient of the prescription drug, except for a patient or consumer, who receives the specific unit of the prescription drug directly or indirectly, from the wholesale distributor or its wholly owned subsidiary who purchases and receives the specific unit of the prescription drug directly from the manufacturer. In a wholesale distribution of a prescription drug, the direct purchase pedigree document shall not contain any reference to a prescription drug that is not eligible for use of the direct purchase pedigree to satisfy the requirements of Section 499.01212(2), F.S., unless the prescription drug not qualifying for distribution through use of the direct purchase pedigree is clearly identified on the pedigree document as not having been purchased and received directly from the manufacturer of the drug. For any distribution of prescription drugs in or into this state, the direct purchase pedigree shall not be used unless all distributions, including transfer of title and transfer of possession of a prescription drug from the

manufacturer to a pharmacy or other person authorized to prescribe, administer or dispense prescription drugs, are eligible for use of the direct purchase pedigree to satisfy the requirements of Section 499.01212(2), F.S.

(b) Alternative Pedigree. The alternative pedigree is the pedigree described in Section 499.01212(2)(b), F.S., in this rule section and in the forms adopted thereunder. For all wholesale distributions that require a pedigree pursuant to Section 499.01212(2)(b), F.S., the alternative pedigree must be used for all distributions of prescription drugs that are not eligible for use of the direct purchase pedigree. The forms approved by the department for this pedigree are:

1. Beginning July 1, 2006, "Pedigree Paper (Distribution History of Prescription Drugs)", Form DH 2129, effective July 2006, which is incorporated by reference herein, or an electronic record that contains all of the elements of Form DH 2129, for the wholesale distribution of a prescription drug; or,

2. Beginning July 1, 2006, "Pedigree Paper (Distribution History of Prescription Drugs)", DH Form 2135, effective July 2006, which is incorporated by reference herein, or an electronic record that contains all of the elements of Form DH 2135.

3. A repackager must use either Form DH 2135 or an electronic record that contains all of the elements of Form DH 2135. A wholesale distributor that further distributes a repackaged prescription drug must include in the pedigree the information related to the repackaged drug contained in Form DH 2135 or the electronic record that contains all of the elements of Form DH 2135.

4. The alternative pedigree must include either the proprietary name or the generic name with the name of the manufacturer, repackager, or distributor as reflected on the label of the product; dosage form; strength; container size; quantity by lot number; the name and address of each owner of the prescription drug that is required to be identified on the pedigree; the name and address of each location from which it was shipped if different from the owner's; and the transaction dates. The pedigree must clearly identify the invoice to which it relates; however, if an invoice number has not been generated at the time the pedigree is prepared then an alternate reference number that is easily traceable to the invoice number may be used.

(c) A copy of the pedigree must be maintained by each wholesale distributor required to prepare or furnish a pedigree and by each recipient. This copy may be maintained in an electronic medium that is readily available and easily accessible to the wholesale distributor required to prepare or furnish the pedigree; each recipient; and authorized federal, state, and local regulators or law enforcement. If a wholesale distributor serves as the repository of its customer's pedigree, the wholesale distributor must specify on the customer's invoice or other distribution document the method for immediately accessing all pedigrees associated with each

prescription drug distributed and must enable access by the persons listed above for the duration of the applicable records retention period. No provision of this rule subsection shall be construed to relieve any wholesale distributor from any requirement imposed by any provision of Chapter 499, Part I, Florida Statutes to provide the recipient of a prescription drug in a wholesale distribution with a complete and accurate pedigree paper in a timely manner. No provision of this rule sub-section shall be construed to relieve any recipient of a prescription drug from any requirement imposed by any provision of Chapter 499, Part I, F.S. for the recipient of a prescription drug in a wholesale distribution to receive a pedigree paper in a timely manner.

(d) Each alternative pedigree must contain a signature that meets the requirements of DH Form 2129 or 2135 as applicable. An electronic signature may be used on a pedigree.

(e) An electronic record must be easily readable or easily rendered in a readable format, and capable of being reproduced in a paper medium. Data on an electronic pedigree may be transmitted via the internet, data communications, a portable medium such as a CD-Rom or smart card or similar devices.

Additional information to the information required by these rules and Section 499.01212(2)(a) or (b), as applicable, may be provided on a pedigree so long as the additional information does not detract from or confuse the history of the distribution of the drug or fail to clearly specify each prescription drug identified on a direct purchase pedigree document that is not eligible for use of the direct purchase pedigree pursuant to the requirements of Sections 499.01212(2)(a), 499.003(33), F.S. and this rule section.

(f) Each person required by Section 499.01212, F.S. to receive the pedigree must maintain it. A copy of the pedigree paper provided to a wholesale distributor must be maintained by the wholesale distributor providing the pedigree paper. No provision of this rule subsection shall be construed to require any person who is exempted by Section 499.01212(3), F.S., to pass a pedigree.

(g) Returns.

1. When a distribution of a prescription drug by a wholesale distributor to an authorized recipient is the result of a mistake in ordering or shipment, the return of that shipment by the authorized recipient to the wholesale distributor need not be reflected in the pedigree paper. For purposes of this subparagraph, a mistake in ordering or shipment shall be deemed to have occurred if, within seven calendar days after the date of receipt of the original shipment:

a. The authorized recipient ships the specific unit of the prescription drug back to the wholesale distributor from which that specific unit was purchased; or

b. The authorized recipient transmits a documented communication to the wholesale distributor from which the prescription drug was purchased stating the authorized recipient's intent to return the shipment in accordance with the

wholesale distributor's prescribed written policies and procedures and the wholesale distributor communicates authorization for return of the product.

2. Any returns to a wholesale distributor by an authorized recipient that are not within the scope of subparagraph 1. shall be reflected in the pedigree paper trail for any further distributions of the returned drug product to the extent required by Section 499.01212(2)(b), F.S.

3. An authorized recipient that returns a shipment to the wholesale distributor in accordance with subparagraph 1. or 2. shall verify by written declaration as set forth in Section 92.525(2), F.S., a written document submitted with the returned product:

a. That the specific unit (exact unit) being returned was purchased from the receiving wholesale distributor (including the corresponding sales invoice number and the date of the sale from that wholesale distributor to the authorized recipient); and

c. The written declaration shall be printed or typed at the end of or immediately below the statements in sub-subparagraphs 3.a. and 3.b. and shall state: "Under penalties of perjury, I declare that I have read the foregoing and that the facts stated in it are true." followed by the signature of the person making the declaration. b. that the product was or was not stored and shipped in accordance with the requirements of Section 499.0121, F.S., and the rules adopted thereunder while in the purchaser's custody and control.

4. The redistribution of a prescription drug that is not a specified prescription drug as defined in subsection 64F-12.001(2), F.A.C. which was purchased before July 1, 2006 and returned by the purchaser after July 1, 2006, may be redistributed under the following conditions:

a. The redistribution occurs prior to July 1, 2008, and

b. The wholesale distributor discloses in writing to the purchaser and to the recipient, if different from the purchaser, all prior sales and returns of the prescription drug, including the name of the returning person and the date that the prescription drug was returned.

(h) For purposes of Section 499.01212(2)(b), F.S., a manufacturer or repackager will have uniquely serialized an individual prescription drug unit when the unit contains an electronic product code that meets industry standards for that type of legend drug unit.

The department will adopt the industry standards for each type of prescription drug unit when they are established. One pedigree record may be prepared for a group of serialized prescription drugs, provided the only unique characteristic for the pedigree is the serialization codes.

(i) If a manufacturer initiates an electronic pedigree and transmits this information to a wholesale distributor consistent with the standards in sub-subparagraph 64F-12.013(5)(d)1.f., F.A.C., and that wholesale distributor provides a pedigree to its customer consistent with the standards in sub-subparagraph 64F-12.013(5)(d)1.f., F.A.C., the wholesale distributor must

transmit the pedigree information initiated by the manufacturer in the pedigree the wholesale distributor provides to its customer.

(j) A wholesale distributor that purchases multiple units of a prescription drug from a manufacturer in one transaction, but receives these units from multiple distribution sites of the manufacturer or on multiple dates from the manufacturer, may reference the first occurrence of receipt in pedigree papers the wholesale distributor prepares for subsequent wholesale distributions unless all applicable information is received from the manufacturer as set forth in paragraph (i) above.

(k) A contract distributor for the manufacturer is deemed an agent of the manufacturer and therefore is not required under Section 499.01212(2), F.S., to provide a pedigree paper upon distribution of the manufacturer's prescription drug provided the manufacturer retains title to the prescription drug and the contract distributor meets the requirements to be permitted under Chapter 499, F.S., as a prescription drug manufacturer or non-resident prescription drug manufacturer, as applicable, based on its relationship with the manufacturer.

(l) Emergency Distributions. Notwithstanding Section 499.01212(2), F.S. a wholesale distributor may distribute and a purchasing pharmacy, health care clinic establishment or health care practitioner authorized by law to purchase prescription drugs, may accept a prescription drug for which a pedigree that complies with Section 499.01212(2), F.S., is not available, when the prescription drug is required to treat a specific patient with an emergency medical condition as defined by Section 395.002(9)(a), F.S. The prescribing physician or a health care practitioner otherwise licensed to prescribe the drug shall supply a statement, to the supplying wholesale distributor stating that the emergency meets this rule paragraph's requirements. The a supplying wholesale distributor must maintain such statement in compliance with the timeframes in Section 499.0121(6)(b), F.S. The supplying wholesale distributor must otherwise comply fully with all other applicable provisions of Sections 499.001 through 499.081, F.S., with respect to such drug. In addition, the supplying wholesale distributor must submit to the recipient within 14 calendar days of the emergency distribution a written statement, invoices, or other documentation identifying all prior sales or distributions of the specific unit of the prescription drug that is the subject of this distribution.

(a)1. The pedigree papers required by Sections 499.0121(6)(d), (e) and (f), F.S., must include either the proprietary name or the generic name with the name of the manufacturer, repackager, or distributor as reflected on the label of the product; dosage form; strength; container size; quantity by lot number; the name and address of each owner of the prescription drug that is required to be identified on the pedigree paper; the name and address of each location from which it was shipped if different from the owner's; and the transaction dates. The pedigree paper must clearly identify the

invoice to which it relates; however, if an invoice number has not been generated at the time the pedigree is prepared then an alternate reference number that is easily traceable to the invoice number may be used.

2. A copy of the pedigree paper must be maintained by each wholesaler preparing a pedigree paper and by each recipient. This copy may be maintained in an electronic medium that is readily available and easily accessible to the wholesaler preparing the pedigree paper; each recipient; and authorized federal, state, and local regulators or law enforcement. If a wholesaler serves as the repository of its customer's pedigree, the wholesaler must specify on the customer's invoice or other distribution document the method for immediately accessing all pedigrees associated with each prescription drug distributed and must enable access by the persons listed above for the duration of the applicable records retention period.

(b) If a wholesale distributor uses the statement contained in Section 499.0121(6)(e)1.a.(II), F.S., "This establishment or a member of my affiliated group purchased the specific unit of the specified drug directly from the manufacturer" the wholesale distributor must provide to the department the names of all members of the affiliated group of which the wholesale distributor is a member and the affiliated group must provide records on prescription drug purchases by the members of the affiliated group not later than 48 hours after the department requests access to such records, regardless of the location where the records are stored.

Beginning July 1, 2006, a repackager must use either "Prescription (legend) Drug Pedigree - Repackager" Form DH 2135 effective July 2006, which is incorporated by reference herein, or an electronic record that contains all the elements of Form DH 2135. A wholesaler that further distributes a repackaged prescription drug must include in the pedigree the information related to the repacked drug contained in Form DH 2135 or the electronic record that contains all the elements of Form DH 2135. These forms may be used prior to July 1, 2006, to comply with the pedigree paper requirements of Section 499.0121(6)(d) or (e), F.S., at the discretion of the wholesaler. An electronic signature may be used on a pedigree paper. An electronic record must be easily readable or easily rendered in a readable format, and capable of being reproduced in a paper medium. Data on an electronic pedigree may be transmitted via the internet, data communications, a portable medium such as a CD-Rom or smart card or similar devices. Additional information to that

(d) A copy of the pedigree paper must be maintained by each recipient. A copy of the pedigree paper provided to a wholesale distributor must be maintained by the wholesaler providing the pedigree paper.

(e) Effective March 1, 2004, a pedigree paper under Section 499.0121(6)(d), F.S., must trace a prescription drug back to the last authorized distributor of record. a. The authorized recipient ships the specific unit of the prescription drug back to the wholesaler from which that specific unit was purchased; or

The authorized recipient transmits a documented communication to the wholesaler from which the prescription drug was purchased stating the authorized recipient's intent to return the shipment in accordance with the wholesaler's prescribed written policies and procedures and the wholesaler communicates authorization for return of the product.

2. Any returns to a wholesaler by an authorized recipient that are not within the scope of subparagraph 1. shall be reflected in the pedigree paper trail for any further distributions of the returned drug product to the extent required by Section 499.0121(6)(d), (e) or (f), F.S.

(g) For purposes of Section 499.003(31)(b), F.S., a manufacturer or repackager will have uniquely serialized an individual legend drug unit when the unit contains an electronic product code that meets industry standards for that type of legend drug unit. The department will adopt the industry standards for each type of legend drug unit when they are established. One pedigree record may be prepared for a group of serialized legend drugs, provided the only unique characteristic for the pedigree is the serialization codes.

(h) If a manufacturer initiates an electronic pedigree and transmits this information to a wholesaler consistent with the standards in sub-subparagraph 64F 12.013(5)(d)1.f., F.A.C., (and that wholesaler provides a pedigree to its customer consistent with the standards in sub-subparagraph 64F 12.013(5)(d)1.f., F.A.C., the wholesaler must transmit the pedigree information initiated by the manufacturer in the pedigree the wholesaler provides to its customer.

(i) A wholesaler that purchases multiple units of a prescription drug from a manufacturer in one transaction, but receives these units from multiple distribution sites of the manufacturer or on multiple dates from the manufacturer, may reference the first occurrence of receipt in pedigree papers the wholesaler prepares for subsequent wholesale distributions unless all applicable information is received from the manufacturer as set forth in paragraph (h) above.

(j) A contract distributor for the manufacturer is deemed an agent of the manufacturer and therefore is not required under Section 499.0121(6)(f), F.S., to provide a pedigree paper upon distribution of the manufacturer's prescription drug provided the manufacturer retains title to the prescription drug and the contract distributor meets the requirements to be permitted under Chapter 499, F.S., as a non-resident prescription drug manufacturer based on its relationship with the manufacturer.

In the case of a medical oxygen retailer, the prescription or order for medical oxygen must be in writing and in the possession of the retailer within 30 days of delivery of the drug to the patient. (b) Records for permittees located in the state or persons located in Florida and required to be permitted under Chapter 499, F.S., may be stored by computer or other electronic means at a central location inside or outside of the state, but must be readily available and immediately retrievable, i.e., subject to inspection at the permitted establishment during the inspection.

(c) Records for permittees may be copied or reproduced by the department or the Florida Department of Law Enforcement.

(d) If hard copies (originals or true copies) of required records are not maintained at the permitted establishment in Florida, the department or Florida Department of Law Enforcement must be able to review automated records for any and all records required to be maintained under Chapter 499, F.S., without requesting a specific source, recipient, product, date, etc.

(7) Except as provided in Section 499.012(2)(e), F.S., ~~and paragraph (3)(b) of this rule~~, records of other persons not required to be permitted but subject to regulation under Chapter 499, F.S., must be made available to the department or the Florida Department of Law Enforcement within five business days of the request for inspection, copying, or reproduction.

~~c. A computerized listing of prescription drug sales transactions during the period 10/1/02 - 9/30/03, or a 12-month period based on the most recent calendar quarter, of at least \$100 million. ~~a. If the wholesaler is a member of an affiliated group and all purchases from that manufacturer are made at a central location for the wholesaler, copies of at least 12 invoices dated during the previous 12 months from the date the information is submitted, which invoices document purchases of prescription drugs, at least one unit of which on each invoice was not returned, under that central account number but shipped to the wholesaler's address for whom the authorized distributor of record status is claimed. A statement must be provided that the invoices document purchases of prescription drugs for the wholesaler for whom the authorized distributor of record status is claimed and that the wholesaler did not return to the manufacturer at least one unit of the prescription drugs on each invoice.~~

~~b. If the wholesaler is a member of an affiliated group and all purchases from that manufacturer are made at a central location and received at a central location for the wholesaler, copies of at least 12 invoices dated during the previous 12 months from the date the information was submitted, under the same account number which is clearly assigned to the wholesaler at the permitted address. Each invoice must document the purchase of prescription drugs, of which at least one unit identified on the invoice was not returned. A statement must be provided that the invoices document purchases of prescription drugs by that central location and that the central location or wholesaler for which the drugs were obtained did not return to the manufacturer at least one unit of the prescription drugs on each invoice, and that the central~~

~~e. For all other wholesale distributors, copies of at least 12 invoices dated during the previous 12 months from the date the information was submitted, under the same account number that is clearly assigned to the wholesaler at the permitted address. Each invoice must document the purchase of prescription drugs, of which at least one unit identified on the invoice was not returned. A statement must be provided that the invoices document purchases of prescription drugs by that wholesaler and that the wholesaler did not return to the manufacturer at least one unit of the prescription drugs on each invoice.~~

THE FULL TEXT OF THE PROPOSED RULE IS:

64F-12.013 Prescription Drugs; Receipt, Storage and Security.

(1) Establishments in which prescription drugs are stored, manufactured, repackaged, kept, held, used, sold, stored, offered for sale, or exposed for sale, shall be secured against unauthorized entry or unauthorized access to prescription drugs when establishment personnel are not present.

(a) Establishments permitted under Chapter 499, F.S., that are authorized to take possession of prescription drugs, other than medical oxygen, must be secured by an alarm system which functionally and practically provides a deterrent to unauthorized entry to the establishment or the area where the prescription drugs are held or stored.

(b) Prescription medical oxygen may be stored outside in an area surrounded by a fenced enclosure with a lock which must be secure when authorized persons are not present. Other compressed medical gases must be stored in accordance with paragraph (a).

(2)(a) While not being used to make deliveries, a vehicle of a permittee containing prescription medical oxygen must be parked at the permitted establishment and either locked inside a fenced compound or secured by a vehicle alarm system. A vehicle containing prescription medical oxygen may only be parked at a residence temporarily while the vehicle is making deliveries or while “on call” for emergency deliveries.

(b) When a vehicle used for prescription drug wholesale distributions or for distributions subject to a restricted prescription drug distributor’s permit contains prescription drugs and is not being used to make deliveries, it must be parked inside a building secured by an alarm system.

(c) A residence cannot be used to store any prescription drug which has not been dispensed, unless a natural person residing at that residence is licensed or otherwise authorized to possess prescription drugs.

(3)(a) The storage temperature definitions in the U.S.P. are incorporated by reference herein. If no storage and temperature requirements are set forth by the manufacturer in the labeling or in the U.S.P., prescription drugs other than compressed medical gases must be stored at controlled room temperature. Compressed medical gases, unless otherwise indicated, may be stored in a manner so that they are protected from freezing and are not stored at or near excessive heat or open flame.

(b) All establishments permitted under Chapter 499, F.S., that handle prescription drugs other than medical gases, must, in the absence of electronic monitoring devices, mount two thermometers in the immediate area of the stored prescription drugs. For purposes of this provision, immediate area of the stored prescription drugs is within six (6) feet of the prescription drugs in storage. One thermometer will be mounted in the warmest area of the stored prescription drugs and the other thermometer will be mounted in the coolest immediate area of the stored prescription drugs.

(c) A record must be maintained recording the date; time; thermometer one temperature; thermometer two temperature; and the initials of the person recording the data or reviewing the data if electronically monitored. This record and temperature reading must be recorded at least five (5) days each week with the temperature readings taken between 2:00 p.m. and 4:00 p.m. E.S.T. Alternate times may be approved by the department in writing. This record must be kept on file by the facility for at least two years.

(d) Facility requirements for the storage and handling of prescription drugs.

1. An applicant for an initial prescription drug wholesale distributor ~~wholesaler~~ permit must have a facility that is large enough to store the estimated quantity of prescription drugs the applicant intends to possess under its initial application to comply with the requirements of Section 499.0121(1), F.S. An applicant for renewal of a prescription drug wholesale distributor ~~wholesaler~~ permit must have a facility that is large enough for the ongoing operations of the wholesale distributor establishment based on the prior year's volume of activity with prescription drugs, which may be modified for reasonable fluctuations in inventory management for the current year. These determinations will be based on the type of prescription drugs the applicant possesses, or intends to possess, considering the size of the containers as well as any other products the applicant possesses or intends to possess. Notwithstanding the contention that an applicant will distribute all prescription drugs the same day received, the facility must be large enough to accommodate prescription drugs as set forth herein in case the drugs are not distributed the same day received.

2. An applicant for an initial prescription drug wholesale distributor ~~wholesaler~~ permit must have a refrigeration capacity and freezer capacity large enough to store the estimated quantity of prescription drugs that might require

refrigeration or freezing that the applicant intends to possess under its initial application to comply with the requirements of Sections 499.0121(1) and (3), F.S., and this rule. An applicant for renewal of a prescription drug wholesale distributor ~~wholesaler~~ permit must have a refrigeration capacity and freezer capacity that is large enough for the ongoing operations of the wholesale establishment based on the prior year's volume of activity with prescription drugs that required refrigeration or freezing, which may be modified for reasonable fluctuations in inventory management for the current year, to comply with the requirements of Sections 499.0121(1) and (3), F.S., and this rule. These determinations will be based on the type of prescription drugs the applicant possesses, or intends to possess, considering the size of the containers as well as any other products the applicant possesses or intends to possess that might require refrigeration or freezing. Notwithstanding the contention that an applicant will distribute all prescription drugs the same day received, the refrigeration and freezer capacity must be large enough to accommodate prescription drugs as set forth herein in case the drugs are not distributed the same day received.

(4) Quarantine.

(a) A quarantine section shall be clearly marked and designated separate and apart from any other place where drugs are stored so that products therein shall not be confused with usable products being held for sale. Any prescription drug stored outside the quarantine area is a product held for sale or other distribution.

(b) The requirement of Section 499.0121(5)(b), F.S., that prescription drugs must be quarantined if damage has occurred to the immediate or sealed outer or sealed secondary containers means: a prescription drug must be quarantined if obvious damage, determined by a visual inspection of the exterior of the product's packaging, has occurred to any part of the packaging that is or may be in direct contact with the dosage form of the drug or any additional part of the packaging which is provided to prevent adulteration of the drug in addition to "containing" the product.

(c) A person who handles both prescription drugs and over-the-counter drugs or medical devices may have one quarantine section; however, the storage requirements for prescription drugs must be followed.

(5) Examination of Prescription Drugs; Physical Product and Records.

(a)1. Every person receiving prescription drugs other than the consumer receiving dispensed prescription drugs pursuant to Chapter 465, F.S., has a duty to examine the product to prevent acceptance of prescription drugs that are unfit for distribution or use. The extent of the examination should be predicated on the conditions surrounding the transaction, including but not limited to any previous sales of the product,

i.e., purchase and delivery is not direct from the manufacturer; the conditions of transport; and environmental conditions to which the product may have been subjected.

2. A wholesale distributor wholesaler, chain pharmacy warehouse, or person authorized to administer or dispense a prescription drug that physically receives a prescription drug must verify that the prescription drug received matches the prescription drug identified on the corresponding pedigree. The corresponding pedigree document shall contain all of the required information described in Sections ~~499.01212(2)(a) or (b), 499.003(31)(a) or (b)~~, F.S. as applicable, including the information required in the forms described in subsection 64F-12.012(3), F.A.C., for those distributions that are not eligible for the use of the direct purchase pedigree by being within the normal distribution chain.

(b) Upon receipt, each outside shipping container must be visually examined for identity and to prevent the acceptance of misbranded drugs, adulterated drugs or prescription drugs that are otherwise unfit for distribution. If visual examination of the shipping container or other conditions surrounding the transaction suggest possible misbranding or adulteration, the person has a duty to examine further the contents or conditions of sale.

(c) Prescription Drug Wholesale Distributors Wholesalers must employ personnel who can perform product examinations. Once the Prescription Drug Wholesale Distributor Wholesaler has inspected the shipped drugs and elected to accept them, the wholesale distributor wholesaler is responsible for the condition of the drugs. Until that time, the shipper or manufacturer remains responsible for delivering a prescription drug product in acceptable condition, unless responsibilities are modified by contract.

(d) Authentication.

1. A prescription drug wholesale distributor wholesaler may use any, all, or any combination of the following methods to authenticate each transaction on a pedigree paper and must maintain the corresponding documentation regarding the authentication for the method used:

a. Receipt of an invoice (or shipping document) from the seller to the purchaser, which may have the prices redacted. Documentation requirements include at a minimum a copy of the invoice or shipping document. If this method is used to authenticate a pedigree, the wholesale distributor wholesaler must review the document received for signs of tampering, incompleteness, or inconsistency with other invoices or shipping documents from that manufacturer or wholesale distributor wholesaler, and must randomly verify the authenticity of the invoice or shipping document with the seller or shipping point reflected on that document using one of the methods in sub-subparagraph b., c., or d. below. Each wholesale distributor wholesaler shall establish and adhere to

policies and procedures for the random verification of the authenticity of the invoices or shipping documents according to statistically valid standards.

b. Telephone call to the seller. Documentation requirements include a signed statement by the person placing the telephone call identifying the person's name and position title representing the seller who provides the information, the date the information was provided, and verification of the sales transaction between the parties, including verification of the date of the transaction and the quantity of prescription drugs involved in the transaction.

c. E-mail communication with the seller. Documentation requirements include a copy of the e-mail that identifies the person's name and position title representing the seller who provides the information, the date the information was provided, and verification of the sales transaction between the parties, including verification of the date of the transaction and the quantity of prescription drugs involved in the transaction.

d. Verification of the transaction per a web-based system established by the seller or an independent person that is secure from intentional or unintentional tampering or manipulation to conceal an accurate and complete history of the prescription drug transaction(s). Documentation requirements include a written representation from the seller or independent person that the seller or independent person, as applicable, is responsible for the information included on the web site and has adequate security on the information posted to prevent unauthorized tampering, manipulation, or modification of the information and a copy of the (dated) web site page that confirms the sales transaction between the parties, including the date of the transaction and the quantity of prescription drugs involved in the transaction.

e. Receipt of a legible and unaltered copy of a previous transaction's pedigree paper that had been signed under oath at the time of the previous transaction to support the transaction to which the pedigree paper relates. If this method is used to authenticate a pedigree, the wholesale distributor wholesaler must review the document received for signs of tampering, incompleteness, or inconsistency, and must randomly verify the authenticity of pedigrees using one of the methods in sub-subparagraph b., c., or d. above. Each wholesale distributor wholesaler shall establish and adhere to policies and procedures for the random verification of the authenticity of these copies of pedigrees according to statistically valid standards.

f. Receipt of a pedigree in an electronic form from an automated system that complies with this sub-subparagraph that was successfully opened and decrypted by an automated system that complies with this sub-subparagraph. In order to rely on receipt of an electronic pedigree without employing additional authentication methods as set forth in sub-subparagraphs a.-e.,

(I) The system used to digitally sign and electronically authenticate the electronic pedigree must at a minimum support the following digital signature standards or future revisions governed by the National Institute of Standard and Technology (NIST):

(A) FIPS 140-2 validated cryptographic module which is hereby adopted by reference,

(B) FIPS 186-2 validated digital signature system which is hereby adopted by reference,

(C) FIPS 180-2 validated hash function which is hereby adopted by reference,

(II) The system must employ controls to ensure the security and integrity of the private key so that it cannot be accessed by someone other than the certificate holder. At a minimum, the system must:

(A) Control the activation of the private key with an authentication mechanism,

(B) Employ a ten-minute inactivity time period after which the certificate holder must re-authenticate to access the private key,

(C) When the signing module is deactivated, clear the plain text private key from the system memory to prevent the unauthorized access to, or use of, the private key,

(III) The system must communicate with the Certification Authority directory, either each time authentication and validation steps in sub-subparagraph (IX) below occur or at least on a daily basis to download information to perform the authentication and validation which will occur on that day.

(IV) The system must have a time system that is within five minutes of the official NIST time source and date and time stamp any and all digital signatures.

(V) The system must archive digitally signed files unaltered, including the original hashes and reference to the public keys, in a manner that facilitates retrieval of the record consistent with the recordkeeping requirements.

(VI) The system must prevent issuance of an outgoing pedigree paper if the total quantity of prescription drugs distributed in all pedigrees exceeds the quantity of prescription drugs received in the corresponding incoming electronic pedigree.

(VII) The system must maintain a history file of any outgoing electronic pedigree that is subsequently voided or altered and notify the recipient that the pedigree sent to it was voided or altered.

(VIII) The system must maintain a history file of any incoming notification received pursuant to sub-sub-subparagraph (VII) above that a pedigree was voided or altered and prevent the issuance of an outgoing pedigree using a pedigree that was voided or altered.

(IX) The system must verify or perform the following:

(A) Each transaction on the electronic pedigree must be digitally signed using certificates issued through a public key infrastructure system authorized by the department.

(B) The electronic pedigree must contain each prior transaction digitally signed and unaltered, including the original hash and reference to the public key, with the new transaction information appended to the new document and the entire resulting pedigree digitally signed, including the resulting hash and reference to the public key.

(C) The system must check the certificate expiration date of each signed transaction and compare it against the date and time that the transaction was signed to determine that the certificate has not or had not expired at the time the record was signed.

(D) The system must check the digital signature for each signed transaction against the Certificate Authority's directory and the Certificate Revocation List and verify whether the certificate holder is or was authorized to sign electronic pedigrees at the time the transaction was signed.

(E) The system must decrypt each digital signature for each signed transaction in the pedigree using each sender's public key and compare it against the message digest to determine that the record has not been altered since it was originally signed.

(F) The system must require that all authentication and validation steps in the preceding paragraphs are carried out prior to allowing the acceptance of the transaction. The system should not allow the further processing of any transaction that has failed to pass any authentication or validation step.

(X)(A) The manufacturer must initiate the pedigree; or, until such time as the manufacturer initiates a pedigree to the wholesale distributor ~~wholesaler~~, the wholesale distributor ~~wholesaler~~ that purchased the prescription drug from the manufacturer must imbed a copy of the sales invoice or the manufacturer's EDI transmission or Advance Ship Notice (ASN) that contains all required data elements for a complete audit trail as set forth in Rule 64F-12.012, F.A.C., related to that wholesale distributor's ~~wholesaler's~~ acquisition of the prescription drug from the manufacturer. Price information related to the transaction may be redacted from the imbedded copy of the sales invoice, the EDI transmission, or the ASN.

(B) If a pedigree complies with all provisions within sub-subparagraph f. except for sub-sub-sub-subparagraph (X)(A) above, then a prescription drug wholesale distributor ~~wholesaler~~ must use another method authorized by this rule to authenticate the distribution from the manufacturer to the first wholesale distributor ~~wholesaler~~. Subsequent distributions may be authenticated in accordance with sub-subparagraph f.

2. If a pedigree cannot be authenticated because of a clerical error, the pedigree must be corrected by the sender.

3. If a pedigree cannot be authenticated and the reason is other than a clerical error, or the reason cannot be satisfactorily ascertained based on preliminary investigation, the prescription

drug for which the pedigree cannot be authenticated must be quarantined and the department notified within 3 business days.

4. A purchasing ~~wholesale distributor wholesaler~~ may use a written contract between the purchasing ~~wholesale distributor wholesaler~~ and its wholesale supplier, which is a primary ~~wholesale distributor wholesaler~~ as defined in Section 499.003 (36), ~~499.012(1)(d)~~, F.S., that requires that all prescription drugs distributed to the purchasing ~~wholesale distributor wholesaler~~ by the wholesale supplier must be purchased by the wholesale supplier from the manufacturer. If this method is used to authenticate a pedigree, the purchasing ~~wholesale distributor wholesaler~~ shall establish and adhere to policies and procedures for the random verification of the authenticity of the pedigrees that disclose the ~~wholesale supplier wholesaler~~ purchased the prescription drug from the manufacturer according to statistically valid standards.

5. The following persons in Florida that are authorized to purchase or possess prescription drugs are not required to authenticate a pedigree paper received from a person authorized by law to distribute prescription drugs to that person:

a. A licensed pharmacy, unless it is also permitted as a retail pharmacy ~~drug wholesale distributor wholesaler~~ and will engage in the wholesale distribution of that drug, or unless it is a member of an affiliated group and will distribute a prescription drug purchased or received directly from a prescription drug ~~wholesale distributor wholesaler~~ that is not also a member of its affiliated group to another member of its affiliated group;

b. A medical practitioner; ~~or~~

c. A restricted prescription drug distributor – health care entity; ~~or~~

d. A health care clinic establishment.

6. In order to authenticate pedigrees, a manufacturer of a prescription drug that is sold or distributed in Florida must make available upon request information relevant to authenticating a pedigree for that drug regardless of whether the prescription drug was sold directly by the manufacturer to a person in Florida.

7. Any ~~wholesale distributor wholesaler~~ or repackager required under Chapter 499, F.S., to receive a pedigree paper must authenticate the pedigree pursuant to Section 499.0121(4), F.S., notwithstanding the absence of a pedigree paper or authentication by persons in the distribution chain not subject to the requirements of Chapter 499, F.S.

8. Convenience Kits; A wholesale distributor is not required to open a sealed medical convenience kit to authenticate a pedigree paper for a prescription drug contained within the kit.

9. All wholesale distributors of prescription drugs, unless exempted in this rule section from the requirement to authenticate a pedigree, are required to authenticate the

pedigree upon receipt of the prescription drug. The authentication requirement includes but is not limited to authentication of pedigree transactions involving prescription drugs included within a sealed medical convenience kit.

(6) Any establishment that is permitted as a prescription drug ~~wholesale distributor wholesaler~~ or repackager must notify the department in writing within three working days of discovery of a significant loss or theft of prescription drugs. Whether a loss or theft is significant is to be based on the prescription drug ~~wholesale distributor's wholesaler's~~ written policies and procedures that may take into account the actual quantity in relation to the type or size of the business; any pattern of losses or thefts; and local trends or other indicators of the diversion potential. Notification to the Drugs, Devices and Cosmetic Program may be made by facsimile to (850)413-6982 and must include at a minimum, identification of the permitted establishment reporting the loss or theft; a complete identification of the prescription drug(s) involved, including but not limited to the name of the manufacturer or distributor reflected on the label of the products, the dosage form, strength, container size, the quantity of each, the lot numbers if known; a brief description of the circumstances surrounding the theft or loss; and a contact person's name and telephone number to provide additional information.

(7) Due Diligence Inspection. With respect to the inspection required under Section 499.0121(13)(12)(e), F.S., a prescription drug ~~wholesale distributor wholesaler~~ may rely on a due diligence inspection performed by a person that is independent of both ~~wholesale distributors wholesalers~~ for purposes of the requirement in Section 499.0121(13)(12)(e), F.S.

3. The ticket cannot be canceled by the terminal but nothing appears to be wrong with the ticket.

The retailer also must mail the Transaction History Report or ticket to the Lottery within thirty (30) days of the transaction date.

(f) The Lottery will approve adjustment credit requests submitted outside the reporting window for ticket transactions that occur during a documented system failure that impacts network communications and that is outside the retailer's control.

(g) Tickets submitted to the Florida Lottery for adjustment credit shall become the property of the Florida Lottery and shall not be returned to the retailer.

(h) Books of tickets received by a retailer on consignment shall be settled for payment by one of the following three methods:

1. Settlement by the retailer;

2. Automatic settlement by the Lottery sixty (60) days after a book has been activated for sale or after 90 percent (90%) of low-tier prizes have been redeemed, whichever occurs first; or

3. Settlement of books no longer in the retailer's onsite inventory by a Lottery representative during inventory management.

(i) A complete inventory of scratch-off ticket stock will be conducted by a Lottery representative at least once per quarter. During such inventory, books in "received" status that are not physically present at the retail location will be reported as missing and the retailer will be charged fifty percent (50%) of

the value of the book, less sales commission. Books in "active" status that are not physically present at the location will be settled.

(2) Financial Accountability.

(a) Each retailer shall maintain a commercial checking bank account for all amounts collected from ticket sales until such amounts have been collected by the Lottery. All amounts received by each retailer from the operation of the Lottery, less the amount retained as compensation for the sale of tickets and the amount paid out as prizes, shall be held in a bank account prior to collection by the Lottery on the designated day of collection.

(b) The amount owed by a retailer to the Lottery will be electronically transferred from the retailer's bank account to the Lottery on a designated day each week. If the transfer is unsuccessful due to insufficient funds, a second attempt will automatically be made.

(c) A retailer is authorized to use its business commercial operating bank account or a separate commercial bank account for lottery purposes.

(d) A retailer shall notify the Lottery of a change in its bank account at least fifteen (15) days in advance of such change becoming effective.

(e) A retailer shall maintain its bank account for thirty (30) days after the termination date of its retailer contract.

(f) Each retailer shall complete and return to the Lottery at the time of application or in advance of a bank account change form DOL-103, Electronic Fund Transfer Authorization, revised 6/05. Form DOL-103 is incorporated herein by reference and may be obtained by writing to the Florida Lottery, Retailer Contracting, 250 Marriott Drive, Tallahassee, Florida 32399-4001. The form authorizes the Lottery to debit or credit the retailer's bank account through electronic funds transfers.

(g) The following procedures apply to Electronic Funds Transfer (EFT) delinquencies:

1. For purposes of this rule, an Electronic Funds Transfer delinquency is defined as an unsuccessful attempt to electronically transfer funds from a retailer's bank account to the Lottery in payment of the retailer's weekly settlement activity. If both the first and second weekly attempts to transfer funds fail, the failures together shall count as only one delinquency.

2. For all delinquencies that occur in a twelve-month period, the retailer's ability to sell on-line lottery tickets and order instant tickets shall be suspended.

3. For a first or second delinquency in a twelve-month period, the retailer shall be required to pay the delinquency in full plus applicable service charges prior to reactivation of its ability to sell on-line lottery tickets and order instant tickets.

4. For a third delinquency in a twelve-month period, the retailer shall be required to pay the delinquency in full plus applicable service charges and post a certificate of deposit or

performance bond with the Florida Lottery prior to reactivation of its ability to sell on-line lottery tickets and order instant tickets. The amount of the security shall not exceed twice the retailer's average weekly ticket sales as determined by the Lottery.

5. For a fourth delinquency in a twelve-month period, a review of the retailer account will be performed by the Lottery to determine if the retailer's contract will be terminated. In making its determination, the Lottery will review factors such as the retailer's Lottery accounts receivable transactions and Lottery sales history. If the retailer contract is not terminated and the amount of the retailer's posted security is less than the statutorily authorized maximum of twice the retailer's average weekly ticket sales, the Lottery will increase the amount of the required security to the maximum amount.

6. The Lottery is authorized to terminate a retailer's contract prior to a fourth delinquency in a twelve-month period if the Lottery determines that such action is necessary in order to protect the state's financial interests.

7. For purposes of calculating the number of delinquencies occurring in a twelve-month period, an unsuccessful transfer on the first weekly attempt will not be counted as a separate delinquency if the transfer on the second weekly attempt is successful.

8. For each delinquency, the retailer shall be assessed a non-refundable service charge of fifteen dollars per incident or five percent of the amount due per incident, whichever is greater, up to a maximum of one hundred-fifty dollars. The Lottery will assess only one service fee to retailer chain accounts that use the same bank account for all stores. The assessed fee shall be five percent of the total amount due for all locations up to a maximum of one hundred-fifty dollars. Payment of the delinquent settlement amount and any applicable service charges is due immediately from the retailer and prior to on-line sales and the ability to order instant tickets being reinstated.

9. An unsuccessful transfer on the first weekly attempt will not result in assessment of a service charge if the second weekly attempt is successful. Only one service charge will be assessed if both the first and second attempts are unsuccessful.

10. If the Lottery determines that it is in its best financial interest, taking into consideration factors such as the amount of the delinquency and the length of time the delinquency and/or service charges are outstanding, the Lottery district office will be instructed to settle the sold instant tickets and pick up any remaining instant ticket inventory. A retailer's access to computerized Lottery transactions will be limited to redeeming winning tickets and printing reports until Lottery Headquarters has received notification of payment in full.

11. To satisfy an eft delinquency, the retailer may:

a. Deposit a Cashier's check or money order made payable to the Florida Lottery into a specified Lottery bank account;

b. Wire transfer the funds into a specified Lottery bank account; or

c. Deliver a Cashier's check or money order to a Lottery office.

12. The Lottery will accept a prepayment for the settlement amount if the prepayment is received by the Lottery prior to 5:00 p.m., Eastern Time, on the day before the EFT would normally occur. A service charge will not be applied to the first three (3) prepayments made by a retailer in a twelve-month period, nor will the first three (3) prepayments be counted as a delinquency against the retailer; however, retailers who make more than three (3) prepayments in a twelve-month period will be assessed a service charge as described in subparagraph (2)(g)8. above for each additional prepayment. The Lottery will waive the service charge upon a showing of good cause by a retailer, e.g., the circumstances necessitating prepayment are attributable to the retailer's bank or to the Lottery. Failure by the Lottery to impose a service charge does not constitute a waiver of its right to impose a service charge for any subsequent prepayment.

13. The Lottery will actively pursue collection of all delinquencies that are not paid through the process described above.

53ER08-79 Facility Leases.

(1) The Lottery finds that, due to the unique nature of its business, strict compliance with Chapter 255, Florida Statutes, and the rules adopted thereunder, would impair or impede the effective and efficient operation of the Lottery. Therefore, the

Lottery is adopting this rule to provide the following alternative procedures for acquiring facility leases in an open and competitive manner.

(2) The Lottery will follow Section 255.25, Florida Statutes, and the rules (excluding the forms) adopted thereunder, to competitively acquire leased office or warehouse space of 10,000 square feet or more; provided, however, pursuant to subsection 24.105(13), Florida Statutes, the Lottery may grant the approvals and perform the functions that would otherwise be exercised by the Department of Management Services.

(3) For leases of office or warehouse space less than 10,000 square feet competitive offers will be obtained. Solicitation of competitive offers and negotiation of terms, conditions and costs will be conducted either by the Lottery or a contracted Tenant Broker.

DEPARTMENT OF COMMUNITY AFFAIRS

In Re: CITY OF MARATHON LAND
DEVELOPMENT REGULATIONS
ADOPTED BY ORDINANCE NO. 2008-26

FINAL ORDER

The Department of Community Affairs (the “Department”) hereby issues its Final Order, pursuant to Section 380.05(6), Florida Statutes, and Section 380.0552(9),

Florida Statutes (2007), rejecting a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and the City of Marathon is a local government within the Florida Keys Area.
2. On October 30, 2008, the Department received for review City of Marathon Ordinance No. 2008-26 that was adopted by the City of Marathon Board of City Commissioners on September 23, 2008 (“Ord. 2008-26”). The purpose of Ord. 2008-26 is to amend Chapter 106 and Chapter 110 of the Land Development Regulations allowing for the distinction between riparian mangrove fringes and isolated mangrove communities on infill, landlocked lots; to allow the placement of fill into isolated mangrove communities and for shoreline development to preserve, to the maximum extent possible, riparian mangrove fringes.
3. Ord. 2008-26 is inconsistent with the City’s 2010 Comprehensive Plan: Policy 4-1.3.1 Protect, Conserve and Enhance Coastal Resources, Wetlands, Water Resources, Living Marine Resources, Wildlife Habitats and Other Natural Resources and the Environmental Health of Florida Bay, the Atlantic Ocean and All Surface and Ground Waters; Policy 4-1.2.11 Limit Development Impacts on Wetlands; Policy 4-1.2.10 Regulate Development in Wetlands through KEYWEP; Policy 4-1.3.4 Restrict Development in Wetlands; Policy 4-1.4.6 Shoreline Vegetation Trimming or Removal; and Policy 4-1.5.3 Provide for Open Space.
4. Ord. 2008-26 is inconsistent with the City’s Land Development Regulations: Table 106.16.1 Open Space Requirements by Habitat Type; Section 106.27 Jurisdiction and Delineation; and Section 106.29 General Approval Criteria.

CONCLUSIONS OF LAW

5. The Department is required to approve or reject land development regulations that are enacted, amended or rescinded by any local government in the Florida Keys Area of Critical State Concern. Section 380.05(6), Florida Statutes, and Section 380.0552(9), Florida Statutes (2007).
6. The City of Marathon is a local government within the Florida Keys Area of Critical State Concern. Section 380.0552, Florida Statutes (2007) and Rule 31-31.002 (superseding Chapter 27F-8), Florida Administrative Code.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the notice of workshop in Vol. 34, No. 51, December 19, 2008, issue of the Florida Administrative Weekly. The workshop noticed January 13, 2008 and it should have been January 13, 2009 at the same place given in the December 19, 2008 notice.

The Department of Environmental Protection gives notice of its intent to grant an exemption from the Class G-II ground water standards for color, iron, and aluminum pursuant to Rule 62-520.500, F.A.C., as part of the Class V underground injection control construction Permit Number 0198641-009-UC for the South Florida Water Management District (SFWMD), 3301 Gun Club Road, West Palm Beach, Florida 33406. The exemption is for the aquifer storage and recovery (ASR) project injecting treated surface water from the L-63N Canal into Class G-II ground water. The ASR facility is located three miles southeast of the City of Okeechobee, southwest of State Road 710 at the L-63N Canal (Taylor Creek) in Okeechobee County. The exemption is granted for the duration of SFWMD's underground injection control construction permit number 0198641-009-UC for ASR-1 and subsequent renewals of said permit, and is made a part of the permit. The applicant, in conjunction with the Permit Number 0198641-009-UC, must petition for any future exemptions for any additional ASR wells or an operation permit for any ASR project at the facility.

A person whose substantial interests are affected by the Department's proposed exemption decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Blvd., M.S. 35, Tallahassee, Florida 32399-3000, within 21 days of publication of this notice. The petitioner must mail a copy of the petition to the applicant: SFWMD, Mr. Chip Merriam, Deputy Executive Director, 3301 Gun Club Road, West Palm Beach, Florida 33406, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by

another party) will only be at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name, address, and telephone number of each petitioner; the name, address, and telephone number of the petitioner's representative, if any; the Department case or identification number and the county in which the subject matter or activity is located;
- (b) A statement of when and how each petitioner received notice of the Department action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A statement of facts that the petitioner contends warrant reversal or modification of the Department action;
- (f) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief; and
- (g) Demand for relief (sought by the petitioner, stating precisely the action that the petitioner wants the Department to take).

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the petitions have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at: Department of Environmental Protection, 2600 Blair Stone Road, Room 212E, Tallahassee, Florida 32399-2400, telephone Joe Haberfeld at (850)245-8655.
