**DEPARTMENT OF EDUCATION**

**NOTICE TO CONSTRUCTION MANAGERS**

The Florida International University Board of Trustees announces that construction management services are required for the project identified below:

**PROJECT NAME & NUMBER:** BT-882 Student Academic Support Center

**PROJECT LOCATION:** Modesto A. Maidique Campus (MMC), Miami, Florida

**PROJECT DESCRIPTION:** This project will provide the construction of a multi-purpose student support complex to create, facilitate and promote student interaction, campus engagement and academic success. The Center will provide the university with an attractive new welcome center and an integrated service facility to enable students to conduct university business—from recruitment to graduation—in a single location. The primary focus of this new facility is to build student affinity and promote student success from the first visit at the welcome center to the last pro-active and positive service encounter at the one-stop facility. This new Center represents an opportunity for the university to create a "culture of service" by assisting students in a single location with professional and support staff uniquely trained to render full service assistance and excellent customer service. No longer will students need to traverse the campus to find the right office and/or staff member for assistance but rather they will need only to visit the support facility for full-service assistance with a one-stop specialist.

Included in the Center will be a number of University functions, included but not limited to orientation, counseling and advising, admissions, bursar and registration. The Center will include office space for advising and student support, lecture halls, flexible classroom space, computer study rooms and meeting areas. The building site as indicated in the building program dated October 15, 2008 is under evaluation to be moved to an area adjacent to the E.R. Graham University Center. Additional information will be posted at <http://facilities.fiu.edu/projects/BT-882.htm> once the site revision is finalized.

The total building construction cost is estimated to be approximately \$22,300,000 with a total gross square footage of 74,354 GSF. Total currently available funding for the total project is in the amount of \$20,146,926. An additional \$10,740,500 future funding has been requested and is subject to appropriation by the Florida legislature. In the event additional funds are not appropriated, the project scope may be amended to match available funding.

**INSTRUCTIONS:** Firms desiring to provide construction management services for the project shall submit a letter of application and a completed Construction Manager Qualifications Supplement (CMQS) form. Proposals must not exceed 80 pages, including the CMQS and letter of application. Pages must be numbered consecutively. Submittals, which do
