GENERAL SUBJECT MATTER TO BE CONSIDERED: The Department of Economic Opportunity (DEO) is seeking a non-profit entity to administer the Community Services Block Grant (CSBG) in Hendry County, Florida. Pursuant to a notice in the October 28, 2011, Florida Administrative Weekly regarding agencies interested in becoming the CSBG provider for Hendry County, two letters of interest were received. The purpose of this hearing is to afford these agencies an opportunity to present to all interested parties in the community their qualifications and proposal for providing services if selected. The two agencies are:

Immokalee Multicultural Multipurpose Community Action Agency, Incorporated

The Agricultural and Labor Program, Incorporated

In order to be designated to serve as the eligible entity, an entity must agree to add additional members to its board to ensure adequate representation in compliance with 42 U.S.C. 9909 and 9910 and Rule Chapter 9B-22.011, Florida Administrative Code. Special consideration shall be given to an organization with demonstrated effectiveness in providing a broad range of services designed to eliminate poverty and foster self-sufficiency. Priority shall be given to existing CSBG eligible entities in good standing with DEO that are providing related services in the specified county or in areas contiguous to or within reasonable proximity to the specified county.

Selection will be based on the entity's experience and performance in related federal or state programs in assisting low-income persons in the area to be served, and the entity's capacity to undertake a timely and effective program. The following qualities will be reviewed: (1) the extent to which the past or current program achieved or is achieving goals in a timely fashion; (2) the quality of work performed by the entity; (3) the number, qualifications, and experience of the staff members of the entity; and (4) the ability to maintain compliance with administrative and financial management requirements.

ACTIONS TO BE TAKEN: After this hearing, The DEO will review the applications received and make a decision regarding each entity's eligibility to provide program services in Hendry County. The **Department of Environmental Protection** announces a public meeting to which all persons are invited.

DATE AND TIME: December 8, 2011, 9:00 a.m.

PLACE: Tallahassee City Commission Chambers, 300 S. Adams St., Tallahassee, FL 32301

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Department will bring before the Environmental Regulation Commission (ERC) to approve for adoption its proposed revisions to Chapter 62-302 (Surface Water Quality Standards) and Chapter 62-303 (Identification of Impaired Surface Waters), F.A.C., which contain numeric nutrient standards for lakes, flowing waters (streams), springs, and estuary specific criteria for several Florida estuaries, including Clearwater Harbor, Tampa Bay, Sarasota Bay, Charlotte Harbor, Southwest Florida, Biscayne Bay, Florida Bay, and the Florida Keys. The Department's rules, if approved by the ERC, ratified by the Florida Legislature, and approved by the United States Environmental Protection Agency (USEPA), are intended to

replace USEPA's numeric nutrient criteria that were promulgated for Florida's lakes and flowing waters last November.

The Department will also request adoption of rules that the Department is proposing to repeal as duplicative, unnecessarily burdensome or no longer necessary pursuant to the Governor's Executive Orders 11-01 and 11-72. The Department will seek approval of the ERC to repeal the following rules: 62-204.240; 62-204.260; 62-212.600; 62-212.710; 62-252.500; 62-252.900; 62-285.420; 62-296.407; 62-296.411; 62-296.413; 62-702.300; 62-702.400; 62-702.570; and 62-702.600.

The Department will also brief the ERC on its forthcoming proposal to repeal Rule 62-296.341, F.A.C. to eliminate an unnecessary permitting requirement that was initially promulgated to satisfy federal regional haze regulations, but was later rejected by the U.S. Environmental Protection Agency as a means to satisfy such regulations. Thus, the rule section is no longer necessary to serve its original purpose. The Department will also brief the ERC on its proposed revisions to Rule 62-210.200, F.A.C., Rule 62-212.300, F.A.C., and Rule 62-212.400, F.A.C. to establish PM2.5 as an air pollutant with a significant emissions rate, thereby making industrial facilities that emit PM2.5 potentially subject to preconstruction review for major stationary sources. The proposed amendments are consistent with federal regulation, policy, and guidance, and they do not impose any requirements beyond or in addition to the minimum federal program.

The Department will present a briefing to the Commission on proposed changes to Chapter 62-701, F.S., Solid Waste Management Facilities. These changes will primarily reduce regulatory burdens and should impose no additional costs on the public. The Department intends to bring the proposed changes before the Commission on January 19 for approval.
