62-330.485	General Permit to the Department and Water Management Districts for Environmental Restoration or Enhancement	PURPOSE AND EFFECT: Section 373.4131, F.S., created by Chapter 2012-94, Laws of Florida, and effective July 1, 2012, requires the Department (DEP), in coordination with the five Water Management Districts (WMDs), to develop statewide environmental resource permitting (ERP) rules governing the construction, alteration, operation, maintenance, repair, abandonment, and removal of stormwater management systems, dams, impoundments, reservoirs, appurtenant works or works, or combinations thereof, to implement Part IV of Chapter 373, F.S. The DEP proposes to substantially amend existing provisions of Chapter 62-330, F.A.C., and add new rules to be implemented by DEP, the WMDs, and local governments delegated under Section 373.441, F.S., without the need for further rulemaking by the WMDs and local governments, pursuant to Section 373.4131, F.S. The purpose of this rulemaking is to establish statewide ERP rules that will	
62-330.487	General Permit to the Department and Water Management Districts to Change Operating Schedules for Water Control Structures		

rely primarily upon existing rules of the DEP and WMDs, revised as necessary to achieve a more consistent, effective, and streamlined approach to implement the ERP program; these new rules will reduce regulatory costs and burdens for the public while not lowering environmental standards and continuing to protect the state’s water resources.

SUBJECT AREA TO BE ADDRESSED: Chapter 62-330, F.A.C., is an existing rule of the DEP that currently incorporates by reference the rules of the WMDs used by the DEP to implement its responsibilities under the ERP program. It was recently amended (through rule transfers) to include all of the noticed general permits formerly contained in Chapters 62-341 and 62-330, F.A.C., will be substantially revised to become the statewide ERP rules. The proposed rulemaking for Chapter 62-330, F.A.C., will include provisions such as: permitting thresholds; permit exemptions; types of permits; application and notice content and submittal procedures; conditions for issuance; general conditions; formal determinations of the landward extent of wetlands and other surface waters; and mitigation criteria currently contained in existing DEP and WMD ERP rules, primarily Chapters 40B-4, 40B-400, 40C-4, 40C-40, 40C-42, 40C-400, 40D-4, 40D-40, 40D-400, 40E-4, 40E-40, 40E-400, 62-342, 62-343, and 62-346, F.A.C., and the Applicant’s Handbooks and Basis of Review of each WMD. It will also incorporate new, and amend existing, exemptions and noticed general permits to authorize certain minor and routine activities more quickly than through individual permit review, and at lower cost to the applicant, without causing significant adverse impacts individually or cumulatively.

The rule chapter will incorporate by reference guidance documents to be known as Applicant’s Handbooks, consisting of two volumes; one volume adopted by the DEP to include general and environmental procedures and forms that will apply statewide, and a second volume, specific to each WMD and adopted also by the applicable WMD, which will retain the existing design and performance standards for stormwater quality and quantity within each WMD. Additional basin-specific rules adopted by the WMDs also will be retained and incorporated by reference to maintain regional differences necessary because of variations in rainfall and other physical and natural characteristics throughout the state.

The DEP has established an Internet site (<http://www.dep.state.fl.us/water/wetlands/swerp/index.htm>) to provide information about the rulemaking, and a dedicated forum (<http://depflorida.ipbhost.com/>) to accept comments from the public on the rule. A link to those sites also exists at http://www.dep.state.fl.us/water/rules_dr.htm#erp.

RULE NO.: 6A-14.095
RULE TITLE: Site Determined Baccalaureate Access

PURPOSE AND EFFECT: The purpose and effect of the rule change is to align the rule with changes made in the 2011 Legislative Session to Section 1007.33, Florida Statutes, which eliminates the opportunity for Florida College System institutions to apply for exemption status from the State Board of Education approval process for new baccalaureate programs. The proposed rule amendment will also clarify ambiguous language within the current rule and specify certain parameters and requirements in the baccalaureate program approval process, including the addition or modification of baccalaureate degree concentrations. Additionally, the rule amendment will limit the permissible time elapsed between a college’s submission of a letter of intent and the submission of the initial proposal to the Division of Florida Colleges for a new baccalaureate program.

SUMMARY: This amendment aligns the rule with Section 1007.33, Florida Statutes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: 1) no requirement for SERC was triggered under Section 120.541(1), Florida Statutes, and; 2) based on past experiences with the Site Determined Baccalaureate Access rule and rules of this nature, the adverse impact or regulatory cost, if any, do not exceed nor would be expected to exceed any one of the economic analysis criteria set forth in Section 120.541(2)(a), Florida Statutes.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 6M-8.201
RULE TITLE: Child Registration Procedures; Application

PURPOSE AND EFFECT: The purpose of the proposed rule is to implement the authority of Florida’s Office of Early Learning (OEL) to administer the Voluntary Prekindergarten Education (VPK) Program related to registering children in and determining the eligibility of children for the VPK Program.

SUMMARY: This rule establishes requirements related to making child eligibility determinations. The proposed rule permits early learning coalitions to allow certain VPK providers to facilitate making child eligibility determinations for children enrolling in the VPK provider’s classes. The rule incorporates several forms by reference, including a child registration form and addendum to the VPK Provider Agreement for providers determining preliminary eligibility of VPK students. The rule further requires distribution of an information handbook for parents which is incorporated by reference into another rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

Florida's Office of Early Learning has prepared a SERC based on data from previous years of implementation of the Voluntary Prekindergarten Education Program and projections regarding estimated participation levels in the future. The Office estimates that implementation of the proposed rule will result in an annual savings to providers throughout the state in the amount of approximately \$34,335 dollars. Over five years, the total savings is estimated to result in a decreased cost to providers of approximately \$171,675.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Within five (5) working days after a child's parent submits the completed and signed Part A of Form OEL-VPK 01, the provider shall complete Part B of the child's Form OEL-VPK 01, maintaining a copy of the completed form and any supporting documents for its records, and process Parts A and B of the completed Form OEL-VPK 01 and supporting documents, as follows:

a. If the child's Form OEL-VPK 01 is complete, signed, and submitted with the required supporting documents, the provider determines that the child appears preliminarily eligible for the VPK program, and the provider registers the child in one of the provider's VPK classes, then the VPK provider shall submit a child's Form OEL-VPK 01 and supporting documents to the coalition.

b. If the child's Form OEL-VPK 01 is not complete, not signed, or not submitted with the required supporting documents, then the VPK provider shall return the form and supporting documents to the child's parent.

c. If the child's Form OEL-VPK 01 is complete, signed, and submitted with the required supporting documents, but the provider determines that the child does not appear to be preliminarily eligible for the VPK program, the provider shall return the child's Form OEL-VPK 01 and supporting documents to the child's parent and, in the designated area of Part B of Form OEL-VPK 01, shall notify the parent of the reasons(s) that the child does not appear to be eligible based on the provider's determination and refer the parent to the coalition.

3. A coalition shall determine whether each child registered in a class by a VPK provider meets the eligibility criteria established in Rule 6M-8.200, F.A.C. Within 30 days of submission of a child's Form OEL-VPK 01 and supporting documentation by a VPK provider, the coalition shall inform the VPK provider and/or parent, as applicable, of the child's eligibility or ineligibility in writing.

a. If the coalition determines a child eligible and sends written notification prior to the start of the selected class, the notice shall inform the provider of the first date upon which the child is eligible to receive services.

b. If the coalition determines a child eligible, but the selected class begins before the coalition has provided written notification of the child's eligibility or ineligibility, the coalition's notification shall inform the provider and parent of the first date upon which the child is eligible to receive services and inform the parent that the child will not receive the full allotment of hours of VPK service.

c. If the coalition determines a child ineligible, the coalition's notification shall inform the provider and parent of the reason for the child's ineligibility.

4. Notwithstanding paragraph 6M-8.202(1)(c), F.A.C., a coalition is not required to issue a certificate of eligibility for a child applying for enrollment in the VPK program through a VPK provider under this paragraph.

5. A VPK provider may not deliver VPK instruction to a child registered in one of its VPK classes until the provider receives the eligibility verification from a coalition as described in 3. above. Any instruction given prior to receiving eligibility verification from the coalition shall be non-payable under Rules 6M-8.204 and 6M-8.205, F.A.C.

(c) Provider Prohibitions.

1. Preliminary Eligibility Determination After a VPK Class Has Started. A VPK provider participating under subsection (5) of this rule shall not determine the preliminary eligibility of a child whose parent is applying for enrollment in one of the VPK provider's classes that has already begun instruction, and instead shall direct the parent to the coalition for child registration.

2. Specialized Instructional Services Providers Program. A VPK provider participating under subsection (5) of this rule shall not determine the preliminary eligibility of a child whose

parent is applying to enroll the child in the Specialized Instructional Services Provider Program, and instead shall direct the parent to the coalition for child registration.

3. Reenrollment Under This Rule. A VPK provider participating under subsection (5) of this rule shall not accept Form OEL-VPK 05 from a parent applying to reenroll a child in the VPK provider's VPK program or determine the preliminary eligibility of such a child for reenrollment. VPK providers shall direct parents applying to reenroll their children with a VPK provider to the coalition for child registration.

4. Payment for Participation Under This Rule Prohibited. A VPK provider may not accept compensation for participating under subsection (5) of this rule, accepting a student application or supporting documents on behalf of the coalition, distributing a Voluntary Prekindergarten Parent Guide, or determining the preliminary eligibility of a child under this rule.

(6) Access to Provider Profiles. Whether a parent registers a child directly through the coalition or through the alternative application process described in subsection (5), each early learning coalition is responsible for ensuring that each parent has access to the profile of each VPK provider operating within the county where the child is being enrolled.

(4) Parent Orientation Session or Video Exhibition.

~~7. Inform the parent about the profiles of VPK providers on the VPK web portal of the Child Care Information System administered by the Department of Children and Family Services at the Internet website: www.def.state.fl.us/childcare. ~~(b) A coalition is not required to conduct a parent orientation session or exhibit a parent orientation video for a child's parent if:~~

~~1. The coalition conducts a face-to-face parent orientation session or determines the child's eligibility face-to-face with the child's parent for another early learning program (e.g., school readiness program, program for prekindergarten children with disabilities, Head Start), the coalition maintains the child's records of the early learning program and verifies that the child's date of birth in the records of the other early learning program is the same as on the child application and supporting documents that the parent submits;~~

~~2. Another coalition transferring the child's registration already conducted the parent orientation session or exhibited the parent orientation video; or~~

~~3. The parent is a service member in the United States Armed Forces and is unable to attend a parent orientation session or video exhibition because of assigned duty outside of Florida, and the parent submits a military order showing that the parent is assigned to duty in Florida when the child attends the VPK program (e.g., permanent change of station) to the coalition.~~

~~(e) If a coalition does not conduct a parent orientation session or exhibit a parent orientation video for a child's parent, the coalition shall provide Form OEL-VPK-06, Form AWI-RR-63, and Form AWI-RR64 to the parent by mail or other means.~~

DEPARTMENT OF EDUCATION

Florida's Office of Early Learning

RULE NO.: 6M-8.2011
 RULE TITLE: Voluntary Prekindergarten Parent Guide

PURPOSE AND EFFECT: The purpose of the proposed rule is to implement the Florida's Office of Early Learning's (OEL's) authority to administer the Voluntary Prekindergarten Education (VPK) Program by adopting forms by which parents enroll their children in the VPK Program.

SUMMARY: This rule incorporates the Voluntary Prekindergarten Parent Guide by reference. The Voluntary Prekindergarten Parent Guide describes the rights and responsibilities of parents of students enrolled in the VPK program.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

It is estimated that, over the course of five years, this rule will have a total cost impact of approximately \$27,675. This estimate is based on a cost of \$9 an hour for employee time, an estimate that it will take each impacted provider an hour to comply with the requirements of the rule and an estimate of 615 impacted providers. Impacted providers will be those providers which elect to participate in an alternative registration process. Importantly, it is anticipated that the costs incurred by each of these providers will be offset by the added benefit of increased convenience for the providers' customers.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Applicants for withdrawals to be located within an area depicted by the District on its website as an area that is or may be served with reclaimed water by a reuse utility within five years from the date of application shall provide written documentation from the applicable reuse utility addressing the availability of reclaimed water. The applicant shall request the reuse utility to provide a letter stating that reclaimed service is not available or, the following information:

b) The date the reuse utility anticipates bringing the connection to the applicant's property boundary.

2) If reclaimed water is available at the property boundary:

a) The peak, minimum and annual average daily quantity in gallons per day (*or whatever measurement the WMD requires*) of reclaimed water supply available from the nearest potential connection point, as well as expected average monthly quantities (*or the applicable WMD measurement*).

b) The reliability of the potential reclaimed water supply (i.e., on-demand 24/7, or bulk-interruptible diurnal or seasonal, length of supply agreement, or other basis).

c) The typical operating pressures at which the reuse utility will provide reclaimed water at the nearest connection point to the applicant's property, including any typical seasonal or other fluctuations in the operating pressure.

3) All costs associated with the applicant’s use of reclaimed water:

a) The reclaimed water rate(s) the reuse utility would charge the applicant (e.g., the cost per/1000 gallons) and any other periodic fixed or minimum charges for use of reclaimed water by the applicant.

b) Other one-time charges for the connection to the reuse.

4) The water quality parameters of the reclaimed water for the constituents that the applicant identifies as pertinent to the intended use.

5) Any additional information the reuse utility feels should be considered by the applicant in performing its technical or economic feasibility evaluation.

If the applicable reuse utility fails to respond or does not provide the information within 30 days after receipt of the applicant’s request, that applicant shall provide to the district a copy of the applicant’s written request and a statement that the utility failed to provide the requested information. NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 38, No. 4, January 27, 2012 issue of the Florida Administrative Weekly.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The agency has determined that this rule will have an impact on small business and will increase regulatory costs. The agency prepared a SERC showing that the rules will impact approximately 1,050 tattoo establishments/temporary establishments, 1,800 tattoo artists, and 250 guest artists. Although the estimated regulatory costs total over \$300,000, the industry currently operates with annual expenses over \$600,000. The rules will increase regulatory costs but should decrease the overall costs incurred by the industry. The majority of the businesses operating as tattoo establishments can be categorized as small businesses and will incur minimal costs associated with these rules and the statutory requirements. These costs should be offset by the elimination of the costs associated with supervision, which was previously required of tattoo establishments. At this time, no alternative proposals have been submitted. The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs. This proposed rulemaking will not have an adverse impact or effect regulatory costs in excess of \$1 million within five years as established in Sections 120.541(2)(a)1., 2., and 3., F.S.
