61G19-6.015 Inactive Status

PURPOSE AND EFFECT: Rule 61G19-6.0035, F.A.C.: This proposed amendment implements recent statutory change through the addition of fire safety as a recognized category of experience suitable for licensure. Rule 61G19-6.015, F.A.C.: This proposed amendment implements recent statutory changes limiting the amount of continuing education the Department of Business and Professional Regulation and the Boards housed therein may require of licensees who wish to reactivate delinquent or inactive licenses.

SUMMARY: Rule 61G19-6.0035, F.A.C.: Currently, fire safety inspector licenses are not recognized as sufficient certification to support an application for licensure as an inspector or plans examiner. The proposed amendment implements recent changes to Chapter 468, F.S. which included the possession of a fire safety inspector license issued pursuant to Chapter 633, F.S. as a means to fulfill eligibility requirements established to take the examination for certification as either a building code inspector or plans examiner. Rule 61G19-6.015, F.A.C.: Currently, any individual who wishes to convert to active status a delinquent or inactive license as a building code administrator, inspector, or plans examiner must complete all continuing education course work that would have been required had the licensee's status remained active. The proposed change reduces the number of continuing education hours required to reactivate an inactive or delinquent license from 14 hours for each inactive biennium to 14 hours for the last inactive biennium before reactivation.

Pursuant to the requirements of Section 120.745, Florida Statutes, the Department of Citrus has completed a Compliance Economic Review Report for each rule and rule subpart identified as "Group 1" by the Department in the Enhanced Biennial Review Report. The reports were posted on the Department's website on April 24, 2012. To view the reports visit: <http://www.fdocgrower.com/2012/04/compliance-economic-review-2012-group-1/>.

In accordance with Sections 120.745(7)(b)2. and 3., Florida Statutes, any interested party should address all inquiries, public comments, and objections pertaining to the publication of the Department's "Group 1" Compliance Economic Review Reports in writing to Douglas R. Ackerman, Executive Director, Florida Department of Citrus, P.O. Box 9010, Bartow, FL 33831, by email: dackerman@citrus.state.fl.us or by Fax: (877)352-2481.

DEPARTMENT OF ENVIRONMENTAL PROTECTION NOTICE OF INTENT TO ISSUE VARIANCE UNDER SECTION 403.201, F.S.

The Department of Environmental Protection (Department) gives notice of its intent to issue a variance (0076455-022-EV-VE) to Mosaic Fertilizer, LLC (Mosaic), Post Office Box 2000, Mulberry, Florida 33860-1100, under Section 403.201(1)(a), Florida Statutes, (F.S.), from the

provisions of Rule 62-302.530(31), Florida Administrative Code (F.A.C.), which provides minimum standards for dissolved oxygen levels in surface waters. This variance will apply to dissolved oxygen levels in the hypolimnion (the deepest layer) of a post-reclamation lake identified in the Fort Meade Mine Environmental Resource Permit (ERP) No. 0076455-018.

On February 8, 2012, Mosaic applied for an ERP for mining activities on 190.5 acres located at the Fort Meade Mine. The Fort Meade Mine is located in Polk and Hardee Counties, Florida. On July 27, 2012, Mosaic submitted a petition for a variance from the provisions of Rule 62-302.530 (31), F.A.C, which provides minimum standards for dissolved oxygen levels in surface waters. The variance petition is for a post-reclamation lake approximately 63.7 acres. The variance will be permanent.

The dissolved oxygen levels in the hypolimnion of the lake are expected to drop below the mandatory minimum of 5.0 mg/L at times. The low dissolved oxygen levels in the hypolimnion of the lake, is not expected to result in any on-site or off-site impacts. Oxygen levels in the upper layers of the lake are expected to meet the requirements of Rule 62-302.530, F.A.C., and be adequate to support healthy fish populations. Once reclamation is completed, these lakes will be connected to reclaimed and/or preserved wetlands and streams. Water exiting the lake is expected to meet the requirements for dissolved oxygen and other water quality criteria of Rule 62-302.530, F.A.C. There is no practicable means known or available to achieve the required dissolved oxygen levels within the lake. Therefore, the Department intends to issue a variance pursuant to Section 403.201(1)(a), F.S., for dissolved oxygen within the hypolimnion in the proposed lake.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, 2051 East Paul Dirac Drive, Tallahassee, Florida 32310-3760.

Mediation under Section 120.573, F.S., is not available.

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Under Rule 62-110.106(4), F.A.C., a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

If a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Intervention will be permitted only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

In accordance with Section 403.201, F.S., petitions for an administrative hearing by the applicant must be filed within 14 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of the notice or within 14 days of receipt of the written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who has asked the Department for notice of agency action may file a petition within 14 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) the name and address of each agency affected and each agency's file or identification number, if known; (b) the name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination; (c) a statement of when and how the petitioner received notice of the agency decision; (d) a statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) a concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action; (f) a statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and (g) a statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Under Sections 120.569(2)(c) and (d), F.S., a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This intent to issue a variance constitutes an order of the Department. Subject to the provisions of Section 120.68(7)(a), F.S., which may require a remand for an administrative hearing, the applicant has the right to seek judicial review of the order under Section 120.68, F.S., by the filing of a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000; and by filing a copy of the notice of appeal accompanied by the applicable

filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the order is filed with the Clerk of the Department.
