SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: Chapter 2011-76, Laws of Florida, authorizes the Department of Revenue to promulgate an emergency rule, and to renew such rule, to implement the provisions of the law. The law provides that conditions necessary for an emergency rule and its renewal have been met. Section 17, Chapter 2011-76, Laws of Florida, provides for the administration of the Florida research and development tax credit available to target industry businesses that claim and are allowed a federal credit under section 41 of the Internal Revenue Code for tax years beginning on or after January 1, 2012, as provided in Section 220.196, F.S.

REASON FOR CONCLUDING THAT THE PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES: The Legislature expressly authorized the promulgation of an emergency rule, and the renewal of such rule, to implement Chapter 2011-76, Laws of Florida, and determined that all conditions necessary for this emergency rule have been met. The law provides for the administration of the Florida research and development tax credit available to target industry businesses that claim and are allowed a federal credit under section 41 of the Internal Revenue Code for tax years beginning on or after January 1, 2012, as provided in Section 220.196, F.S.

SUMMARY: Emergency Rule 12CER13-07, F.A.C. (Research and Development Tax Credit), provides procedures for a target industry business that claims a valid tax credit against federal corporate income tax for qualified research expenses to claim a Florida research and development tax credit against Florida corporate income/franchise tax, as provided in Section 220.196, F.S. The emergency rule provides: (1) that the credit is available annually for tax years beginning on or after January 1, 2012; (2) that target industry businesses may apply for the tax credit for tax years that begin in 2013 beginning on or after March 20, 2014; (3) that the Florida corporate income/franchise tax credit is to be taken in the same tax year as the federal credit for increasing research activities is taken; (4) that a business taking the tax credit must provide a copy of the federal forms regarding the related federal tax credit with the business' Florida corporate income/franchise tax return; (5) for the calculation of the Florida tax credit and examples of the calculations required; (6) that the credit is limited to fifty percent of the Florida corporate income/franchise tax liability after all other tax credits are applied; (7) that any unused credit may be carried forward up to five tax years; and (8) the recordkeeping requirements for those businesses taking the Florida research and development tax credit.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Jennifer Ensley, Senior Tax Specialist, Technical Assistance and Dispute Resolution, Department of Revenue, P. O. Box 7443, Tallahassee, Florida 32314-7443, telephone (850)617-8346

THE FULL TEXT OF THE EMERGENCY RULE IS:

12CER13-7 Research and Development Tax Credit.

(1)(a) A research and development tax credit against Florida corporate income/franchise tax is provided in Section 220.196, F.S., to a target industry business that claims a valid research credit against federal corporate income tax for qualified research expenses as provided in section 41 of the Internal Revenue Code (26 U.S.C. s. 41). The target business enterprise must be a corporation, as defined in Section 220.03, F.S., and a target industry business, as defined in Section 288.106, F.S.

(b) "Qualified research expenses" include research expenses qualifying for the credit under section 41 of the Internal Revenue Code (26 U.S.C. s. 41) for in-house research expenses incurred in Florida or contract research expenses incurred in Florida. The term "qualified research expenses" does not include research conducted outside Florida or research expenses that do not qualify for a credit under 26 U.S.C. s. 41.

(c) The credit is available annually for tax years beginning on or after January 1, 2012, and is based upon qualified research expenses in Florida allowed under section 41 of the Internal Revenue Code (26 U.S.C. s. 41).

1. Tax credit applications approved for the 2012 calendar year (application date began on March 20, 2013) are based upon qualified research expenses incurred during calendar year 2012 for tax years that began in 2012. Beginning April 1, 2012, taxpayers that received an allocation of credit from the Department may claim the tax credit on their Florida corporate income/franchise tax return for the tax year that began in 2012.

2. To receive an annual allocation of the annual funds available in 2014 for granting tax credits to target industry businesses for qualified research expenses in Florida during the 2013 calendar year, an application must be filed with the Department on or after March 20, 2014, and on or before December 31, 2014. The application will be made available on March 20, 2014, on the Department's website at www.myflorida.com/dor/. Credits will be allocated by the Department in the order in which completed applications are received. Beginning April 1, 2014, the Department will notify eligible taxpayers by letter of the amount of credit that is allocated to the taxpayer for the taxpayer's tax year that begins in 2013.

(2) A federal research credit must be taken on the federal return filed by the target industry business for the same tax year in which the Florida research and development credit is taken. The amount taken as a Florida research and development credit must be added to taxable income prior to computing the Florida corporate income/franchise tax due. The Florida research and development credit is limited to fifty percent (50%) of the Florida corporate income/franchise tax liability after all other credits are applied in the order provided in Section 220.02(8), F.S. A copy of federal Form 6765 (Credit for Increasing Research Activities) and a copy of federal Form 3800 (General Business Credit) must be attached to the Florida corporate income/franchise tax return on which the Florida research and development credit is taken. In the case of a corporate partner of a partnership that has earned a federal credit for increasing research activities, a copy of federal Form 1065, Schedule K-1 (Partner's Share of Income, Deductions, Credits, etc.), and a copy of federal Form 3800 must be attached to the Florida corporate income/franchise tax return on which the Florida research and development credit is taken.

(3)(a) Any unused credits may be carried forward for up to five (5) tax years. Carryover credits may be used in a subsequent year when the Florida corporate income/franchise tax for such year exceeds the credit for such year after applying the other credits and unused carryovers in the order provided in Section 220.02(8), F.S. A taxpayer may not transfer or sell its credit or its right to apply for a credit to another taxpayer.

(b) Example: A taxpayer is allocated a Florida research and development credit of \$30,000 for its tax year beginning in 2012 and all requirements of Section 220.196, F.S., are met for the taxpayer to earn the full \$30,000 allocation of credit. Its Florida corporate income/franchise tax liability after all other applicable credits are applied is \$50,000. The \$30,000 Florida research and development credit that the taxpayer is allocated for tax year 2012 is more than 50 percent of its tax liability for tax year 2012. Therefore, the taxpayer is limited to a Florida research and development credit of \$25,000 ($\$50,000 \times .50$) for tax year 2012, and the remaining \$5,000 of Florida research and development credit may be carried forward for up to five tax years.

(4)(a)1. The Florida research and development tax credit is equal to ten percent (10%) of the amount of qualified research expenses incurred in Florida and allowed under section 41 of the Internal Revenue Code (26 U.S.C. s. 41) that exceeds the base amount. The base amount is defined as "the average of the qualified research expenses incurred in Florida for the four tax years preceding the tax year for which the credit is determined." The four taxable years used to compute

the base amount must end before the calendar year for which the qualified research expenses are determined.

2. Example: A taxpayer with a fiscal year end of June 30, 2013, that applies for the Florida research and development credit based upon the qualified research expenses incurred during calendar year 2012 will use the following taxable years for its base amount: taxable years ended June 30, 2011; June 30, 2010; June 30, 2009; and June 30, 2008.

(b)1. Target industry businesses that have not been in existence for at least four tax years prior to the tax year in which the Florida research and development credit is claimed must reduce the amount of the credit by twenty-five percent (25%) for each year of the past four tax years that the corporation did not exist.

2. Example: A calendar year taxpayer is incorporated on January 1, 2009. The taxpayer applies for the Florida research and development credit for its tax year beginning January 1, 2012; its Florida qualified research expenses for calendar year 2012 equal \$250,000. The taxpayer's Florida qualified research expenses for its base amount are as follows:

Tax year 2008: \$0, as Taxpayer did not exist.

Tax year 2009: \$175,000

Tax year 2010: \$200,000

Tax year 2011: \$225,000

The average of the Florida qualified research expenses for the 4 taxable years preceding 2012 equals \$150,000 ($(\$0 + \$175,000 + \$200,000 + \$225,000) \div 4$). The excess Florida qualified research expenses over the base amount equal \$100,000 ($\$250,000 - \$150,000$). The tentative Florida research and development credit is \$10,000 ($\$100,000 \times .10$). However, since the taxpayer was not in existence for at least 4 taxable years immediately preceding tax year 2012, the Florida research and development credit is reduced by 25 percent for each taxable year the taxpayer did not exist. Therefore, the taxpayer's Florida research and development credit for tax year 2012 is reduced by 25 percent to \$7,500 ($\$10,000 - \$2,500$).

(5) Every taxpayer claiming a Florida research and development credit must retain documentation that substantiates and supports the credit, a copy of the letter received from the Department granting the credit, and a schedule reconciling all credit carryovers until tax imposed by Chapter 220, F.S., may no longer be determined and assessed under Section 95.091(3), F.S., or under Section 220.23, F.S. Documentation to substantiate and support the credit includes records or other evidence of the amount of qualified Florida research expenses incurred for in-house research or for contract research expenses, that those expenses qualified under 26 U.S.C. s. 41, and that the federal credit was claimed.

A copy of the Petition for Declaratory Statement may be obtained by contacting: Allen Hall, Executive Director, Department of Health, 4052 Bald Cypress Way Bin #C05, Tallahassee, Florida 32399-0797, (850)245-4373, Allen_Hall@doh.state.fl.us

DEPARTMENT OF HEALTH

Board of Psychology

NOTICE IS HEREBY GIVEN that the Board of Psychology has issued an order disposing of the petition for declaratory statement filed by Robin J. Wilson, Ph.D. ABPP on May 31, 2013. The following is a summary of the agency's disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 39, No. 109, of the June 5, 2013, Florida Administrative Register. Petitioner appears to be requesting the Board's interpretation of Section 490.003, Florida Statutes, as to whether the provision of assessment and consultation services to FCCC residents, legal counsel (e.g. Public Defender's office) retained by residents of the FCCC, or to the State's Attorney's office would, in any way, constitute a harmful multiple relationship, conflict of interest, or any other breach of professional ethics, given the former role as FCCC Clinical Director. The Board's Order, filed on August 30, 2013, declines to issue a Declaratory Statement to clarify the "Definitions" Section 490.003(4), F.S., because it is clear and unambiguous. In addition, it is not the role of the Board to review and determine whether contractual agreements, employment agreements, independent contractor agreements, etc. have the potential of causing ethical violations between the parties and/or patients.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Allen Hall, Executive Director, Department of Health, 4052 Bald Cypress Way Bin #C05, Tallahassee, Florida 32399-0797, (850)245-4373, Allen_Hall@doh.state.fl.us.

Eligible applicants include Florida's 35 coastal counties and the local governments within their boundaries that are required to include a coastal element in their comprehensive plan. Florida public colleges and universities, regional planning councils, national estuary programs and nonprofit groups may also apply for CPI funds as long as an eligible local government is a partner in the project. Applications must be submitted on the CPI APPLICATION FORM, available from the FCMP website at <http://www.dep.state.fl.us/cmp/grants/index.htm>.

Applications must be received no later than 4:00 p.m. EST, November 5, 2013. Mail CPI applications in accordance with the requirements below to:

Florida Coastal Management Program
ATTN: CPI Applications
Department of Environmental Protection
3900 Commonwealth Blvd., MS 235
Tallahassee, FL, 32399-3000.

Electronic and faxed grant applications will not be accepted.

The purpose of the COASTAL PARTNERSHIP INITIATIVE is to promote the protection and effective management of Florida's coastal resources in four priority areas: RESILIENT COMMUNITIES, COASTAL RESOURCE STEWARDSHIP, ACCESS TO COASTAL RESOURCES and WORKING WATERFRONTS. Chapter 62S-4, F.A.C., describes the priority areas, and includes information on the CPI grant program, CPI Application Form, submittal requirements, and the criteria by which applications are scored and ranked. The CPI Application Form and a copy of Chapter 62S-4, F.A.C., are available from the FCMP grants website at <http://www.dep.state.fl.us/cmp/grants/index.htm>. Please note the following important details regarding the CPI grant process for FY 2013-2014:

1. Applicants must submit one originally signed application, four copies of the application, and one copy of the application on CD or DVD.

2. Projects must be completed within one year between July 1, 2014, and June 30, 2015. Selected projects will be included in the FCMP application to the National Oceanic & Atmospheric Administration (NOAA) for fiscal year 2014-15.

4. PLEASE NOTE: Due to current budget restraints, the FCMP will be unable to grant the max award under Rule 62S-4.004, F.A.C. Applicants can expect the max award to be \$15,000 for planning, design and coordination activities and \$30,000 for construction projects, habitat restoration, invasive exotic plant removal, and land acquisition.

5. Recipients are required to provide 100 percent matching contributions (cash or in-kind) in the form of goods and services that directly benefit the specific grant project. No more than one-half (50%) of match can be provided by a third party.

6. There are additional requirements for applications involving construction, invasive exotic plant removal, habitat restoration, and land acquisition, including:

a. In order to show project is feasible and able to be completed within one year, applicants proposing construction, invasive exotic plant removal and habitat restoration must conduct a preliminary consultation with appropriate local, state, and federal regulatory agencies to ensure that there are no environmental concerns that would delay or prevent project start-up. A summary of the consultation must be included in the CPI application or the project will be found to be infeasible to be completed within one year.

b. Non-profit organizations (NPOs) are not eligible to receive funds for construction, habitat restoration, invasive exotic plant removal, or land acquisition. Applications submitted by NPOs that propose these activities will be disqualified.

c. Pursuant to NOAA's direction, shoreline hardening projects are not eligible for FCMP funds.

d. Infrastructure projects should have a clear coastal management component.

e. Construction and land acquisition activities occurring in designated Coastal Barrier Resource Act units are subject to additional review and approval by NOAA and/or the U.S. Fish & Wildlife Service.

For questions or to request a copy of Chapter 62S-4, F.A.C., or the CPI Application Form, please contact Ms. Toni Clanton at the address above, or call (850)245-2184, or send an email to Toni.R.Clanton@dep.state.fl.us.
