RULE NO.: RULE TITLE:

EFFECT ON THOSE OTHER RULES: The proposed amendments are not expected to have significant effects on other rules. The proposed amendments describe how Florida’s numeric nutrient standards in surface waters will be implemented and do not add new requirements.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

The Implementation Document primarily clarifies previously adopted procedures related to numeric nutrient criteria and does not impose any new requirements; however, it does describe studies that interested parties may voluntarily decide to conduct to demonstrate that the stream nutrient standards do not apply to a given waterbody. The costs of these studies are expected to be borne by some small businesses, so a SERC has been prepared. The aggregate statewide one-time cost is estimated at \$59,200.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department relied upon the SERC.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 69K-100.040
 RULE TITLE: Funeral Director Affiliation With Funeral Establishment

PURPOSE AND EFFECT: This rule implements Section 497.372(2), F.S., providing that the board shall adopt by rule criteria for determining whether the required affiliation exists between a funeral director and a funeral establishment, through the funeral director's ownership of, employment by, or contractual relationship with, a funeral establishment. This rule was approved by the Board of Funeral, Cemetery, and Consumer Services at its public meeting on January 6, 2011.

SUMMARY: This rule established criteria for determining whether a required affiliation exists between a funeral director and a funeral establishment, through the funeral director's ownership of, employment by, or contractual relationship with, a funeral establishment.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The vast majority of the funeral directors, and funeral establishments, are already in compliance with the requirements of the rule. The rule specifies criteria for determining whether there is an affiliation between a funeral director and a funeral establishment, which criteria are consistent with existing marketplace norms of practice. The Division estimates there may be 25 funeral directors statewide that are currently practicing funeral directing not in affiliation with a funeral establishment within the contemplation of the rule. These funeral directors will have to find a funeral establishment with which to establish an affiliation, and accomplish the paperwork contemplated by the rule by which the affiliation is established. In the majority of cases this will mean that the funeral director must obtain employment at a funeral establishment. If we assume that those 25 funeral directors stop activity as funeral directors pending obtaining the required affiliation, and that it takes them 4 weeks to obtain employment or other affiliation, and that during those 4 weeks they forgo approximately \$500 per week in income they had previously received as unaffiliated funeral directors, then the aggregate lost income to all 25 of them is estimated at \$50,000 ((25 * \$500) * 4). The Division estimates that there may be 10 funeral establishments, all small businesses, that have a funeral director working for them as a contract vendor, based on oral contract. These funeral establishments will have to create a written contract. The Division estimates that this will take, on average, 1 hour of funeral establishment staff time, at an estimated value of \$40 per hour, and 1 hour of funeral establishment's attorney time to review the matter, at \$200 per hour. The estimated cost in aggregate, for all 10 funeral establishments, would thus be \$2,400 ((\$40+\$200)*10).

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

(1) This rule implements Section 497.372(2), F.S., providing that the board shall adopt by rule criteria for determining whether the required affiliation exists between a funeral director and a funeral establishment, through the funeral director’s ownership of, employment by, or contractual relationship with, a funeral establishment. The criteria listed below shall determine whether the required affiliation exists.

(2) OWNERSHIP. A funeral director who asserts affiliation with a funeral establishment by ownership of such funeral establishment, shall, upon request of the Division of Funeral, Cemetery, and Consumer Services (Division) demonstrate such ownership by:

(a) Being named as owner or principal of the funeral establishment licensee in the funeral establishment’s application for funeral establishment license in the records of the Division;

(b) Being named as owner or principal of the funeral establishment licensee in an application for approval of change in ownership of the funeral establishment in the records of the Division;

(c) Providing an executed contract for sale, or bill of sale, or other executed legal document showing the purchase of an ownership interest in the funeral establishment by the funeral director; or

(d) Providing executed articles of incorporation, partnership agreement, or limited liability company formation or operating agreement, showing the funeral director as incorporator, member, partner, or principal in the entity that owns or controls the funeral establishment.

62-40.416 Water Reuse and Recycling.
(1) through (6) No change.

~~(7) Supplementation of reclaimed water systems is a strategy that can benefit Florida's water resources by reducing reliance on traditional water supplies and maximizing the use of reclaimed water.~~

~~(a) When determining whether the use of water for supplementation is reasonable beneficial and consistent with the public interest, the Districts shall recognize the benefits of supplementation as well as evaluate whether the requested supplementation quantity is needed to achieve such benefits.~~

~~(b) When use of water for supplementation is requested, the Districts shall require a reclaimed water supplementation plan from an applicant. This plan shall demonstrate why the requested quantity of water is needed to efficiently operate or expand the reclaimed water system. The plan shall consider:~~

- ~~1. Use of lower quality water sources;~~
- ~~2. Pressure reduction;~~
- ~~3. Designation of primary and secondary (interruptible) customers;~~
- ~~4. The appropriate level of certainty to be provided to end users during drought conditions;~~
- ~~5. Financial incentives for voluntary use reductions;~~
- ~~6. Reclaimed water interconnects with adjacent communities;~~
- ~~7. Providing customers with written information supporting the need to conservatively use reclaimed water;~~
- ~~8. Regulatory constraints or requirements on discharges;~~
- ~~9. Demand management;~~
- ~~10. Creation of additional storage; and~~
- ~~11. Any other measures identified by the applicant or District to efficiently operate or expand the reclaimed water system.~~

~~(c) The use of water for supplementation shall be approved provided the applicant demonstrates that:~~

- ~~1. The supplementation will increase the amount of reclaimed water beneficially used, reduce the amount of reclaimed water disposal, and reduce the need for higher quality sources for non-potable purposes;~~
- ~~2. The quantity of water requested for supplementation to achieve the benefits in (c)(1) has been minimized to the extent environmentally, technically and economically feasible; and~~

3. The conditions for permit issuance are met.

~~(7)(8)~~ No change.

~~(8)(9)~~ In areas where withdrawals are unable to meet the conditions for permit issuance due to resource limitations, an applicant may propose the use of a substitution credit derived from the use of reclaimed water as part of a permit application. Such resource-limited areas include, but are not limited to, areas where a District has adopted rules limiting withdrawals from a specified water resource within a geographic area, and areas where withdrawals are limited by an adopted minimum flow or level or the associated recovery or prevention strategy.

(a) through (c) No change.

(d) The benefit of a substitution credit, or a portion thereof, shall accrue to the reuse utility providing the reclaimed water, or one or more entities designated by the reuse utility, provided the reuse utility or designated entity demonstrates a demand for the water and meets the conditions for permit issuance. If the reuse utility or designated entity cannot demonstrate a demand for all of the water made available by the reduction in the permitted withdrawal ~~substitution credit~~, any remaining water shall be available for use allocation ~~use allocation~~ in accordance with District rules.

(e) through (h) No change.

RULE NO.: RULE TITLE:
64J-2.006 Trauma Registry

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 39, No. 53, March 18, 2013 issue of the Florida Administrative Register.

The proposed rule changes the title of and incorporates by reference the March 2013 edition of the Florida Trauma Registry Manual and Data Dictionary. These corrections are being made in response to concerns from the Joint Administrative Procedures Committee.

The Summary of Statement of Legislative Ratification should read as follows:

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Hospitals designated as a verified trauma center are not considered small business as they employ more than 200 permanent, full-time employees and have a new worth of more than \$5 million. Based on the SERC Checklist and the analysis

of the proposed rule’s potential economic impact, the Department determined that the proposed rule does not exceed any of the criteria established in Section 120.541(2)(a), F.S.

The Department announces a change in the hearing date regarding the above rule, as noticed in Vol. 39, No. 53, March 18, 2013 Florida Administrative Register.

RULE NO.: RULE TITLE:
64J-2.006 Trauma Registry

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 39, No. 53, March 18, 2013 issue of the Florida Administrative Register.

This rule adds the American College of Surgeons Trauma Quality Improvement Program (TQIP) membership requirement for all verified trauma centers. The corrections are being made in response to concerns from the Joint Administrative Procedures Committee.

The Summary of Statement of Estimated Regulatory Costs should read as follows:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after implementation of the rule. A SERC has been prepared by the agency. The following is a Summary of the Statement of Estimated Regulatory Costs approved by the Department:

The rule is not likely to directly or indirectly have an adverse impact on economic growth, private-sector job creation or employment, or private-sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.

The rule may directly or indirectly have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after the implementation of the rule because TQIP is not required in other states or markets.

Based on the following estimates, the rule is likely to increase regulatory costs of verified trauma centers in excess of \$1 million in the aggregate within 5 years after the implementation of this rule: There are 24 current verified trauma centers that will be required to comply with the rule. The Department has estimated total aggregate costs of \$194,400.00 for annual membership and \$53,760.00 for the

annual TQIP conference, for a total annual aggregate cost of \$248,160.00. Within 5 years, the total aggregate cost is estimated at \$1,240,800.00.

The department intends to implement and enforce the proposed rule within its current workload, with existing staff.

The rule is not likely to increase cost to any other state and local government entities because other state and local government entities do not implement the proposed rule.

The rule will not have an adverse impact on small businesses, as hospitals that are verified as trauma centers are not considered small businesses.

This rule will not have an adverse impact on small counties or small cities.

The Department announces a change in the hearing date regarding the above rule, as noticed in Vol. 39, No. 53, March 18, 2013 Florida Administrative Register.
