62D-5.056 Application Requirements and Processing Procedures.

The Department will approve Applications for Program Grants in order of priority until all Program funds are depleted under the following standards and criteria:

(1) APPLICATION FORM. All Applications must be submitted using the Florida Recreation Development Assistance Program Grant Application Packet, Form OoO-A033, effective [date], incorporated by reference in subsection 62D-5.054(3), F.A.C.

(2) ELIGIBILITY DETERMINATION. Following closure of an Application Submission Period, the Department will determine the eligibility of each Applicant based on the following:

(a) Applications received by the closing date of the Application Submission Period will be reviewed and evaluated for Program eligibility by the Department based on the materials submitted. Applicants will be notified of the timely receipt and status of their Application(s).

(b) No additional information will be accepted after closure of the Application Submission Period, unless specifically requested by the Department for clarification of information provided in the Application.

(3) UNSETTLED CLAIMS AND DISQUALIFICATION. The Department will deny or suspend Program eligibility of any Applicant or Grantee against which the Department has an unsettled financial claim or which has been deemed non-compliant under subsection 62D-5.059(4), F.A.C.

(4) APPLICATION EVALUATION. Each eligible Application will be evaluated on the basis of the information provided in the Application and in accordance with this part. Each Application will be assigned a total point score pursuant to the recommended Applicant Priority List, paragraph 62D-5.056(7)(b), F.A.C., and Evaluation Criteria, Rule 62D-5.057, F.A.C.

(5) PRIORITY LIST APPROVAL. The Secretary or designated representative will approve Applications to the extent of Estimated Program Funds, based on a Program review of the recommended Application Priority List, which is established pursuant to Rules 62D-5.056 and 62D-5.057, F.A.C. The Secretary or designee will approve the final Application Priority List, which will then be submitted to the

Executive Office of the Governor, and to the House and Senate Appropriations Committees, for funding consideration for the subsequent Fiscal Year.

(6) DISTRIBUTION OF PROGRAM FUNDS. FRDAP funds are distributed as reimbursement Grants by the Department on a Project-by-Project basis to Applicants eligible under this part. The Department's performance and obligation to award FRDAP Grants is contingent upon an annual Appropriation by the Florida Legislature for the subsequent Fiscal Year for this purpose.

(7) RECOMMENDED APPLICANT PRIORITY LIST. The list will be determined by the following procedures.

(a) Eligible Project Applications will be divided into four categories (large Acquisition, small Acquisition, large Development, and small Development) and evaluated according to Rule 62D-5.057, F.A.C.

(b) Upon evaluation of each Application under Rules 62D-5.055 and 62D-5.057, F.A.C., a total point score will be assigned to each Application. The Department will prepare a Priority List for each category. Applications will be ranked on the Priority List according to assigned point scores. The Application with the highest score will receive the highest priority. The remaining Applications will be arranged in descending order according to their assigned point scores. Applications scoring below the minimum points, established pursuant to subparagraph 62D-5.055(2)(f)2., F.A.C., must not be placed on the Priority List. The Priority List will include recommendations for distribution of available Program funds.

(c) For each Funding Cycle, the Department will divide the Estimated Program Funds into two funds: Small Projects Fund and Large Projects Fund. The percentage of the Estimated Program Funds that are allocated to each fund is determined by total dollar amount requested by Applicants in that fund and then divided by total dollar amount requested by all Applicants in accordance with the following:

1. The Small Projects Fund consists of the dollar amount of eligible Applications proposing Projects that do not exceed \$50,000 in Project Cost, divided by the total dollar amount requested by all eligible Program Applications.

2. The Large Projects Fund consists of the dollar amount of eligible Applications proposing Projects that exceed \$50,000 in Project Cost, divided by the total dollar amount requested by all eligible Program Applications.

(d) The Estimated Program Funds assigned to each fund, established pursuant to paragraph 62D-5.056(7)(c), F.A.C., will be divided into two categories: Acquisition and Development. The funding amount assigned to each category is based on the total dollar amount requested by all eligible Project Applications for each fund.

(e) A Grantee must complete partially funded Projects, as submitted, or decline the Grant entirely. In the event there are insufficient funds to provide for a viable Project, and the Applicant declines those funds, the Department may recommend that those unallocated funds be offered to other Applicants. Unallocated amounts will revert back to the revenue source from which the funding was appropriated.

(8) TIE-BREAKER SYSTEM. If two or more Applications receive the same score as a result of evaluation pursuant to Rule 62D-5.057, F.A.C., the tie-breaker system will be used to decide the priority ranking among them. Tied Applications will be evaluated and assigned priority ranking according to the following two-step ranking system:

(a) Step One – Per Capita Funding History. An order of priority among those Applications with equal scores will be established based upon the per capita amount of funds received by the Applicant through FRDAP during the previous five Fiscal Years. The Applicant that received the lowest per capita amount of Program funds will receive the highest priority. Other Applications will be arranged in descending order, related inversely to the per capita amount of Program funds each Applicant has received. The current resident population within the Applicant's jurisdictional boundaries will be utilized to compute the per capita amount of funds each Applicant has received.

(b) Step Two – Per Capita Operating Budget. The Applicant with the lowest per capita expenditure of general operating funds receives the highest priority. Then, the current resident population within the Applicant's jurisdictional boundaries, as determined in Step One, will be divided into the Applicant's current Fiscal Year total general operating budget to obtain the per capita operating fund amount.

RULE NO.: RULE TITLE:

64B15-10.002 Application and Licensure Fees

PURPOSE AND EFFECT: The proposed rule amendment is intended to incorporate a licensure fee in the amount of \$429 for active duty military and veterans practicing in areas of critical need.

SUMMARY: The proposed rule amendment implements a licensure fee in the amount of \$429, and allows this fee to be waived if the applicant is not compensated for his or her services.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that because the proposed amendment will apply to a very limited number of applicants, the licensure fee will not negatively impact licensees and their businesses or the businesses that employ them. Additionally, the rule permits the licensure fee to be waived in instances where the applicant is not compensated for his or her services. The amendment to this rule will not increase any business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not have any direct or indirect regulatory cost impact. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the

Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SUMMARY: The proposed rule incorporates the application for a temporary certificate for active duty military and veterans to practice in areas of critical need.

PURPOSE AND EFFECT: The Board is required to periodically review the information it has gathered with regard to the five most misdiagnosed conditions and revise its rule regarding continuing education to address the five most misdiagnosed conditions.

NOTICE OF ADDITIONAL HEARING

The Board of Medicine hereby gives notice of an additional hearing on Rule 64B8-10.003, F.A.C., to be held before the Rules/Legislative Committee of the Board, on Thursday, October 9, 2014, 12:00 Noon or as soon thereafter as can be heard, at the Doubletree by Hilton Deerfield Beach, 100 Fairway Drive, Deerfield Beach, Florida 33441. The Board took public testimony on this rule at public hearings held on August 2, 2013, and October 3, 2013, and considered the testimony from the public hearings at the hearing held on December 6, 2013. The Committee reviewed and approved changes authorized by the Board at the December rule hearing and approved a Notice of Change at its meeting held on February 6, 2014. There remained some inconsistency with regard to the approved changes and the existing language and the Committee reconsidered the language at its hearing held on April 3, 2014. The Committee authorized revised language to the rule and although the Committee was scheduled to consider the revised draft at its meeting held on June 5th, the Committee decided that it would consider additional public testimony at its October meeting. RULE NO.: RULE TITLE:

61C-1.004 General Sanitation and Safety Requirements

The Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants hereby gives notice:

On May 29, 2014, the Division of Hotels and Restaurants received a Petition for an Emergency Variance for paragraph 61C-1.004(1)(a), Florida Administrative Code, and Paragraph 5-202.11(A), 2009 FDA Food Code from Dippin Dots located in Panama City Beach. The above referenced F.A.C. addresses the requirement that each establishment have an approved plumbing system installed to transport potable water and wastewater. The Petition for this variance was published in Vol. 40/106 on June 02, 2014. The Order for this Petition was signed and approved on June 09, 2014. After a complete review of the variance request, the Division finds that the application of this Rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the wastewater holding tank for the handwash and three-compartment sinks is emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the handwash and three-compartment sinks are provided with hot and cold running water under pressure; the handwash sink is provided with soap, an approved hand drying device and a handwashing sign.

A copy of the Order or additional information may be obtained by contacting: Lydia.Gonzalez@myfloridalicense.com, Division of Hotels and Restaurants, 1940 North Monroe Street, Tallahassee, Florida 32399-1011.
