Board of Physical Therapy Practice

RULE NO.: 64B17-4.001
RULE TITLE: Licensure as a Physical Therapist Assistant by Examination

PURPOSE AND EFFECT: The Board proposed this rule amendment to update DOH Form DH-MQA-1142 to the August 2013 revision, update the Board’s website address, and revise the rule language to conform to additional accrediting criteria established by Chapter 2013-093, Laws of Florida.

SUMMARY: The proposed rule amendment updates incorporated Form DH-MQA-1142 to the August 2013 revision, updates the Board’s website address, and amends the rule language to conform to additional accrediting criteria established by Chapter 2013-093, Laws of Florida.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST AND LEGISLATIVE RATIFICATION: The agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency. The agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its meeting, the Board considered that the rule amendment incorporates a revised version of the existing application form.

The revision does not add any additional requirements and will have at most a small impact on existing requirements and procedures. Further, the rule amendments revise the rule’s language to comply with the 2013 amendment of Section 486.102(3), Florida Statutes. Any economic impacts from the amended rule language are imposed by the statute, and not the Board’s rule amendments. Therefore, the rule amendments appear to have little or no economic impact. No person or interested party submitted additional information regarding the economic impact of the rule language.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

ENVIRONMENTAL PROTECTION AGENCY
Outer Continental Shelf Air Permit OCS-EPA-R4015

*** PUBLIC NOTICE ***

U.S. Environmental Protection Agency
Outer Continental Shelf Air Permit OCS-EPA-R4015
for Anadarko Petroleum Corporation
Public Comment Period: June 20, 2014 - July 21, 2014

The United States Environmental Protection Agency (EPA) is seeking public comment on a draft Clean Air Act (CAA) Outer Continental Shelf (OCS) air permit for Anadarko Petroleum Corporation (Anadarko), 1201 Lake Robbins Drive, The Woodlands, Texas 77380. Anadarko has applied for an OCS air permit pursuant to section 328 of the Clean Air Act (CAA) from EPA Region 4. The proposed air permit will regulate air emissions from a proposed exploratory drilling operation within the Eastern Gulf of Mexico (EGOM) of the OCS. The proposed project will mobilize the Transocean Discoverer Spirit, up to two support vessels to transport personnel and supplies, and up to three support vessels for well completion. The operation will last no more than two years, and operate no more than 208 calendar days per year. The proposed project is for exploratory drilling and well completion only and does not include the establishment of any permanent production platforms.

Anadarko proposes to conduct exploratory drilling at multiple sites within the Eastern Gulf of Mexico. The drilling area is located on the OCS east of longitude 87.5, west of the Military Mission Line (86°41' west longitude), at least 100 miles from the Louisiana shoreline, and at least 125 miles from the Florida shoreline.

EPA Region 4 is the agency responsible for implementing and enforcing CAA requirements for OCS sources in the Gulf of Mexico east of longitude 87.5°. Pursuant to section 328 of the CAA (42 U.S.C. § 7627) and the air quality regulations applicable to OCS sources set forth in Title 40, Code of Federal Regulations (CFR), part 55, this project is required to obtain an OCS air quality permit and is subject to Prevention of Significant Deterioration (PSD) requirements that apply to major sources and also to title V operating permitting requirements. Anadarko must apply best available control technology (BACT), among other requirements, for emissions of NOX, CO, VOC, PM, PM2.5, and PM10. The maximum potential annual emissions in tons per year for each drilling vessel and its support vessels are detailed in the application materials and preliminary determination/statement of basis. Potential annual emissions are also summarized in the project fact sheet.

Permit Documents: EPA has prepared a draft permit for public comment, as well as a preliminary determination/statement of basis document that explains the permit conditions. These documents are available on EPA Region 4's website at: <http://www.epa.gov/region4/air/permits/ocspermits/ocspermits.html>.

To request a copy of these documents or to be added to our Anadarko EGOM permit mailing list, please contact: Ms. Rosa Yarbrough, Permit Support Specialist at (404)562-9643 or yarbrough.rosa@epa.gov. For questions on the draft permit, please contact: Ms. Eva Land at (404)562-9103 or land.eva@epa.gov. Ms. Yarbrough and Ms. Land may also be reached by mail at USEPA Region 4, Air Permits Section APTMD, 61 Forsyth Street, SW, Atlanta, GA 30303. EPA's draft permit and preliminary determination/statement of basis; Anadarko's application and supporting documentation/data; and comments received from the public, other government agencies, and the applicant during the public comment period will become part of the administrative record for the permit. All data submitted by the applicant is also available as part of the administrative record. The administrative record is available at www.regulations.gov (docket # EPA-R04-OAR-2014-0487), which can also be accessed through EPA's website given above, and at the EPA Region 4 office (please call in advance for available viewing times) at: 61 Forsyth Street, SW, Atlanta, GA 30303; Phone: (404)562-9643. The web sites can be accessed through free internet services available at local public libraries.

Public Comments: All comments on the draft permit must be received by email at R4OCS_permits@epa.gov, submitted electronically via www.regulations.gov (docket # EPA-R04-OAR-2014-0487) or postmarked by July 21, 2014. Comments sent by mail should be addressed to: USEPA Region 4, Air Permits Section APTMD, 61 Forsyth Street, SW, Atlanta, GA 30303 Attn: Rosa Yarbrough. An extension of the 30-day comment period may be granted if the request for an extension is submitted during the 30-day public comment period and it adequately demonstrates why additional time is required to prepare comments.

Any interested person may submit written comments on the draft permit during the public comment period. If you believe that any conditions in the permit are inappropriate, you must raise all reasonably ascertainable issues and submit all reasonably available arguments supporting your position by the end of the comment period. Any documents supporting your comments must be included in full and may not be incorporated

by reference unless they are already part of the administrative record for this permit or consist of state or federal statutes or regulations, EPA documents of general applicability, or other generally available reference materials. Comments should focus on the draft air quality permit. If you have comments regarding offshore leasing, non-air quality impacts, drilling safety, discharge, or other similar issues not subject to this public comment period, you should submit them during the leasing and approval proceedings of the Bureau of Ocean Energy Management, which is the lead agency for offshore drilling.

All comments will be included in the administrative record without change and will be made available to the public, including any personal information provided, unless the comment includes Confidential Business Information or other information whose disclosure is restricted by statute. Information that you consider Confidential Business Information or otherwise protected must be clearly identified as such and should not be submitted through email. If you send email directly to EPA, your email address will be captured automatically and included as part of the public comment. An email or postal address must be provided with your comments if you wish to receive direct notification of EPA's final decision regarding the permit and response to comments submitted during the public comment period. All timely comments on the draft permit will be considered in making the final decision. EPA will respond to all significant comments on the proposed permit and may summarize and group similar comments in our response. EPA will not respond to individual commenters directly.

Public Hearing: Requests for a public hearing on the draft air permit must be in writing and received by EPA by July 14, 2014. Requests should be sent by email to R4OCSpermits@epa.gov or by mail addressed to: USEPA Region 4, Air Permits Section, 61 Forsyth Street, SW, Atlanta, GA 30303, Attn: Rosa Yarbrough. EPA will hold a public

hearing on the draft air permit pursuant to 40 CFR 124.12 if the Agency determines that there is a significant degree of public interest in the draft permit. Requests for a public hearing must state the nature of the issues proposed to be raised in the hearing. If a public hearing is held, you may submit oral and/or written comments on the proposed permit at the hearing. You do not need to attend the public hearing to submit written comments. If EPA determines that there is a significant degree of public interest, EPA will hold a public hearing from 5:30 to 7:00 pm on July 31, 2014, at: West Florida Public Library, 239 North Spring Street, Pensacola, Florida 32502, (850)436-5043.

If a public hearing is held, the public comment period will automatically be extended to the close of the public hearing. If no timely requests for a public hearing are received, or if EPA determines that there is not a significant degree of public interest, a hearing will not be held. Such an announcement will be emailed to our OCS public notice list and posted on EPA's website identified above, or you may call EPA at the contact number above to determine if the hearing will not be held.

If a public hearing is held, EPA staff will be available prior to the hearing, from 4:00-5:30 pm to answer questions and provide information on this proposed action during an informal public information session. You are not required to attend the information session to comment at the public hearing, and you may also obtain additional information about the project at EPA's website listed above.

Final Determination: EPA will make a final decision to issue the permit or to deny the application for the permit after the Agency considers all comments on the draft air permit. Notice of the final decision shall be sent to each person who has submitted written comments or requested notice of the final permit decision, provided EPA has adequate contact information.
