RULE NO.: 6A-10.0401
RULE TITLE: Gold Standard Career Pathways Articulation Agreements

PURPOSE AND EFFECT: The purpose and effect of this amendment is to incorporate by reference the updated Gold Standard Career Pathways Statewide Articulation Agreements. Gold Standard Career Pathways Articulation Agreements are based on industry certifications and guarantee individuals who have earned the industry certification specified in the agreement and enrolled in the specified associate degree program at a Florida College System institution will be awarded college credit as indicated in the agreement.

SUMMARY: Gold Standard Career Pathways Articulation Agreements are developed periodically through a consensus process with the Florida College System institutions and are based on industry certifications on the Department of Education’s “CAPE Industry Certification Funding List.” Seventeen new articulation agreements have recently been developed and approved by the Florida College System institutions and the Articulation Coordinating Committee. Approved by the State Board of Education, the Gold Standard Career Pathways Articulation Agreements continue to provide guaranteed college credit for students who have earned the industry certification specified in the agreement and enrolled in the specified associate degree program. This is a saving of tuition costs for the students and eliminates the need to repeat coursework mastered as evidenced by passage of a third party examination leading to the award of an industry certification.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rule will have no regulatory cost and no negative economic impact. By incorporating articulation agreements, the proposed rule will require state colleges to recognize uniform credits earned by students having obtained industry certification in specified fields. The proposed rule will therefore facilitate students obtaining degrees from Florida state colleges economically and without duplication of course material. Thus, the adverse impact or regulatory cost, if any, does not exceed nor would be expected to exceed any one of the economic analysis criteria set forth in Section 120.51(2)(a), Florida Statutes.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The Board considered the instant Petition at a duly-noticed public meeting held on August 15, 2014, in Tampa, Florida.

The Board's Order, filed on September 16, 2014, granted the petition finding that Petitioner had established that the purpose of the underlying statute, Section 473.308(3), Florida Statutes, would be met by granting a variance from subsection 61H1-27.002(2), F.A.C. The Board further found that Petitioner established that applying the requirements of the aforementioned Rule to his circumstances would violate principles of fairness and impose substantial hardship.
