**Section II
Proposed Rules**

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Division of Licensing

RULE NO.: 5N-1.131 RULE TITLE: Approval of Other Firearms

PURPOSE AND EFFECT: The purpose of this rulemaking is to propose new Rule 5N-1.131, providing conditions for use of firearms other than those specified in Section 493.6115(6) Florida Statutes. The effect will be to establish clear guidelines for licensees authorized to carry firearms under Chapter 493 Florida Statutes.

SUMMARY: Proposed new Rule 5N-1.131 establishes conditions for use of firearms other than those specified in Section 493.6115(6) Florida Statutes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE

RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The Department's analysis of the adverse impact or potential regulatory costs of this proposed new rule indicated that the rule does not meet the statutory threshold for ratification by the legislature. The rule imposes no additional costs on licensees, and instead, provides opportunity for licensees to use firearms not specifically listed in statute.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 493.6103 FS.

LAW IMPLEMENTED: 493.6115(6) FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: John Roberts, Government Analyst I, Department of Agriculture and Consumer Services, Division of Licensing, P.O. Box 5708, Tallahassee, Florida 32314, (850)245-5441, John.Roberts@freshfromflorida.com

(1) In addition to firearms authorized pursuant to Section 493.6115(6), Florida Statutes, the department approves the following weapons for use by Class "G" licensed employees of security and private investigative agencies, when performing Chapter 493 regulated duties under the conditions identified below. A Class "G" licensee is only authorized to carry a firearm of the specific type and caliber with which she or he is qualified pursuant to the firearms training referenced in s. 493.6105(5) or s. 493.6113(3)(b).

(a) Use of 12-gauge pump-action shotguns or semi-automatic rifles as a secondary weapon, to carry or to remain in a vehicle, when the agency is engaged in:

1. Fulfillment of contractual obligations to guard United States, state, or local government facilities where the government contract specifically requires use of these weapons.

2. Fulfillment of contractual obligations to guard critical infrastructure facilities as defined in Section 493.631, Florida Statutes, where the contract specifically requires use of these weapons.

3. Guarding large rural tracts of land where a significant possibility of encountering heavily armed poachers, narcotics traffickers, or trespassers exist.

(b) Use of 12-gauge pump-action shotguns as a secondary weapon, where the shotgun remains in a vehicle for use only if needed, when the agency is engaged in:

1. Armored car services or agencies that replenish automated teller machines.

2. Courier services involving the transport of large amounts of currency and/or valuables.

3. Guarding and/or transporting prisoners.

4. Close protection bodyguard services.

(c) Use of automatic or select-fire firearms when the licensed security or private investigative agency provides services directly to the United States government, and the government contract specifically requires use of these weapons.

(2) Ammunition Guidelines and Restrictions

(a) Ammunition for semi-automatic rifles shall be of .223/5.56 mm or of a statutorily compliant pistol caliber as described in Section 493.6115(6), Florida Statutes.

(b) Ammunition for the 12-gauge pump-action shotgun shall consist of .00 buckshot only. The use of slug-type ammunition is prohibited.

(c) All ammunition must be otherwise compliant with Rule 5N-1.129, F.A.C.

(d) Agency employees who carry firearms approved under this rule are prohibited from using less-lethal ammunition. For purposes of this rule, the term "less-lethal ammunition" means a projectile that is designed to stun, temporarily incapacitate, or cause temporary discomfort to a person without penetrating the person's body.

(3) An agency employee holding a Temporary Class "G" Statewide Firearms License is prohibited from using the weapons specified herein, and are only authorized to utilize the weapons specified in Section 493.6115(6), Florida Statutes.

(4) (a) Firearms waivers previously issued by the Division, authorizing the use of firearms by agency employees with Class "G" licenses in circumstances and conditions where the use of such weapons are prohibited by this rule, shall remain valid until such time as the contractual obligations requiring the use of such weapons cease to exist.

(b) During the pendency of the agency's contractual obligation referenced above, the agency shall on a quarterly basis, provide the Division with a list of all Class "G" licensed employees currently assigned to perform security services for

the contract in question. Each quarter's list shall indicate which Class "G" employees, if any, have been newly assigned to, or removed from, providing security services under the agency's contract.

(c) Each such agency shall notify the Division within 15 days of cessation of the contractual obligation referenced above. All future use of 12-gauge pump-action shotguns or semi-automatic rifles shall be in accordance with this rule.

RULE NO.: RULE TITLE:

61G15-24.001 Schedule of Fees

PURPOSE AND EFFECT: The proposed rule amendment reduces licensure fees and establishes fees regarding continuing education courses.

SUMMARY: Updates and adds fees

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST AND LEGISLATIVE RATIFICATION: The agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: At its meeting on February 11, 2016, the Board determined that a Statement of Estimated Regulatory Costs (SERC) should be prepared. At its meeting on June 9, 2016, the Board voted to approve the SERC. The summary of the SERC is as follows: The proposed rule language reduces certain application and license renewal fees, while creating fees for approval of continuing education courses regarding laws and rules and professional ethics. The SERC found the rule would not be likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment, or on business competitiveness, including the ability of persons in the state to compete with persons doing business in other states or domestic markets, in excess of \$1 million in the aggregate within 5 years after implementation. The SERC found the rule amendments would be likely to add regulation that is not present in other

states or markets, but would not be likely to increase regulatory costs, including any transactional costs, in excess of \$1 million in the aggregate within 5 years after implementation of the rule, and that there will be no additional cost impact on the department and other state and local government entities implementing and enforcing the rule. This finding is based upon the historical number of courses submitted for approval and the per-course approval fee; the SERC estimates the cost impact to be roughly \$7000 over 5 years. The SERC further estimated that approximately 70 of the 439 registered continuing education providers would be impacted by the rule amendments.

The SERC found there will be a minimal impact on small business. Many providers of continuing education meet the statutory definition of "small businesses," and will be subject to the course approval fee, plus increased time and effort to complete the application for course approval. However, because many of the providers currently provide continuing education courses on other subjects in Florida, the Board determined they will already be familiar with application procedures, and therefore, the impact of this rule is likely to be minimal.

No person or interested party submitted additional information regarding the economic impact of the rule at any time. Based on the information contained in the SERC, the Board found the rule amendments will not require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE TITLE: Application for Licensure and Licensure Requirements for Anesthesiologist Assistants

PURPOSE AND EFFECT: The proposed rule amendments are intended to incorporate the revised application form into the rule and to delete the language requiring prevention of medical errors education at the time of initial licensure.

SUMMARY: The proposed rule amendments incorporate the revised application form into the rule and delete the language requiring prevention of medical errors education at the time of initial licensure.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PURPOSE AND EFFECT: The proposed rule amendments are intended to incorporate the revised application form into the rule and to delete the language requiring prevention of medical errors education at the time of initial licensure.

SUMMARY: The proposed rule amendments incorporate the revised application form into the rule and deletes the language requiring prevention of medical errors education at the time of initial licensure.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

69V-40.0312 Application Procedure for Loan Originator License

69V-40.0313 Loan Originator License Renewal and Reactivation

PURPOSE AND EFFECT: These proposed amendments will streamline the process for an individual who desires to be licensed as a loan originator in the State of Florida.

SUMMARY: These proposed amendments will streamline the process for an individual who desires to be licensed as a loan originator in the State of Florida. Currently, the initial application process requires the applicant to be tested on both a national component and a state component. However, the national test component, which is administered by the National Mortgage Licensing System & Registry (NMLS), now includes a section called the Uniform State Test (UST). The UST material tests applicants on their knowledge of high level state-related content that is based on the SAFE Act and the CSBS/AARMR Model State Law, which many states used to implement the SAFE Act. The UST replaces the state-specific test components for the states that adopt it.

The proposed amendments will remove the Florida-specific test requirement. Instead, as part of the presently-required 20-hour pre-license class, an applicant will have to complete at least two hours of pre-license education that covers the provisions found in Chapter 494, F.S., and Rule Chapter 69V-40, F.A.C. The federal SAFE Act currently requires 8 hours of continuing education. In order to renew or reactivate a license, as part of those presently-required 8 hours, the amendments proposed to Rule 69v-40.0313, F.A.C., will require a loan originator to complete at least 1 hour of continuing education that covers the provisions found in Chapter 494, F.S., and Rule Chapter 69V-40, F.A.C.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal
