RULE NO.: 64B8-8.0012
RULE TITLE: Probation Variables

PURPOSE AND EFFECT: The proposed rule amendment is intended to address the supervision of physician assistants and nurse practitioners in instances when the physician has had restrictions placed on his or her license with regard to the prescribing of controlled substances.

SUMMARY: The proposed rule amendment prohibits physicians who have had their prescribing of controlled substances restricted from delegating said prescribing of

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature.
