73C-40.0256 Hurricane Preparedness Policy Rule; Special Hurricane Preparedness Districts

(1) through (7) No change.

(8) Designation of Special Hurricane Preparedness Districts. A county or region must petition the Department in writing in order to be considered for designation as a special hurricane preparedness district. Such a request shall identify why the county or region should be designated and establish what types of hurricane preparedness mitigation measures will be applied to developments of regional impact within the district. The request shall be based on unique regional hurricane preparedness considerations which have been identified as a major regional issue and addressed with appropriate policies in an adopted comprehensive regional policy plan, in an adopted comprehensive plan or adopted hurricane preparedness ordinance, or in the adopted management plans or principles for guiding development for those areas designated by the Legislature at the recommendation of the Department pursuant to Sections 380.045 and 380.05, F.S., respectively. In addition, the request for designation should be based on, ~~but not limited to,~~ the following types of generalized regional or county considerations:

(a) through (b) No change.

(c) Less than twenty percent of a county’s or region’s hurricane shelters are available to the population during a 100-year or category three hurricane event; ~~and~~

(9) Upon receiving a petition requesting designation as a special hurricane preparedness district from a county or region, the Department shall have thirty (30) days to notify the petitioner whether sufficient information regarding the need for designation and the acceptability of proposed mitigative measures has been submitted in the petition or if additional information supporting the criteria in subsection (8) above is required. A petition for a special hurricane preparedness district designation is complete when ~~the Department determines that~~ all documentation and information supporting the criteria in subsection (8) ~~request it finds necessary to evaluate the request~~ has been provided. The Department shall determine if the special hurricane preparedness district designation is appropriate within 45 days after receipt of a complete petition. If the request for designation is deemed inappropriate by the Department, a written response shall be sent to the petitioner identifying why designation was found to be inappropriate. If the petition for designation is deemed appropriate by the Department, a written notification shall be sent to the petitioner indicating the Department’s intention of amending this rule to incorporate the special designation. The designation shall not become effective until the rule has been amended. The Department’s designation shall also identify the hurricane preparedness mitigation alternatives that are deemed appropriate for developments of regional impact within the special hurricane preparedness district based on the unique regional considerations which were identified in the petition. In counties or regions that have been designated as special hurricane preparedness districts, the developer of a development of regional impact shall have the option to mitigate regional hurricane preparedness impacts as detailed in subsections (4) through (6) of this rule. However, if the developer of a development of regional impact chooses to mitigate regional hurricane preparedness impacts by using the alternatives identified in the special hurricane preparedness district designation, the DRI development order must include a provision that requires that all deeds to property located within the proposed development be accompanied by a disclosure statement. The disclosure statement must be in the form of a covenant stating that the property is located in a hurricane vulnerability zone and that the hurricane evacuation clearance time for the county or region is high and/or hurricane shelter spaces are limited.

(10) Designation of Southwest Florida as a Special Hurricane Preparedness District for Developments of Regional Impact. Based on a written request supported by data and information received from the Southwest Florida Regional Planning Council, the Department designates the area contained within the category three hurricane flood zone as

identified in the Hurricane Evacuation Study Update, ~~2010~~ 1995 Southwest Florida Regional Planning Council within the counties of Sarasota, Charlotte, Lee, and Collier as a special hurricane preparedness district for developments of regional impact. More specifically, the area that is designated as a special hurricane preparedness district for developments of regional impact is that portion of Southwest Florida that lies outside of areas subject to the impacts of a category two storm but within the area anticipated to be impacted by a category three hurricane as identified in the Hurricane Evacuation Study Update, 1995 Southwest Florida Regional Planning Council. The Department’s designation is based on the following facts regarding the coastal counties of Southwest Florida:
