**Section II
Proposed Rules**

WATER MANAGEMENT DISTRICTS

Southwest Florida Water Management District

RULE NO.:	RULE TITLE:
40D-3.037	Rules, Publications and Agreements Incorporated by Reference

PURPOSE AND EFFECT: The purpose and effect of this amendment is to update the Application for a Water Well Contractor’s License to conform to section 373.323(3)(b)(1), F.S., as amended in 2016.

SUMMARY: Section 373.323, F.S., governs licensure of water well contractors. Pursuant to this section, Florida’s five water management districts are responsible for issuing this license to those who wish to engage in business as a water well contractor and meet the statutory requirements listed therein.

Prior to 2016, s. 373.323(3)(b)(1), F.S., required those who wished to take the water well contractor licensure exam to demonstrate that they had at least two years of experience in constructing, repairing, or abandoning water wells by providing, among other things, a letter from a water well contractor and a letter from a water well inspector employed by a governmental agency attesting to such experience.

In 2016, s. 373.323(3)(b)(1), F.S., was amended so that either of the two letters submitted on its own would suffice to demonstrate the requisite experience.

Southwest Florida Water Management District’s Application for a Water Well Contractor’s License form is adopted by reference in rule 40D-3.037(5), F.A.C. The application restates the requirements imposed by Section 373.323, F.S., and currently includes outdated language. This rulemaking will amend the application by adding the word “either,” and replacing the word “and” with the word “or,” thereby conforming it to the current statutory language.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: There are no costs to the regulated public as a result of the proposed amendments. Therefore, this rulemaking will not result in any adverse economic impacts or regulatory cost increases that require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAR.

Board of Acupuncture

RULE NO.: RULE TITLE:

64B1-4.001 Acupuncture Program Requirements

PURPOSE AND EFFECT: The Board propose the rule amendment to consider training for injection therapy as part of the minimum education requirements.

SUMMARY: To add injection therapy training as part of the minimum education requirements.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge

to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The Board of Accountancy hereby gives notice: of the issuance of an Order regarding the Petition for Waiver or Variance, filed on May 9, 2018, by Ashley McDougle. The Notice of Petition for Waiver or Variance was published in Vol. 44, No. 99, of the May 21, 2018, Florida Administrative Register. Petitioner sought a waiver or variance of paragraph 61H1-28.0052(1)(b), F.A.C., entitled "Number of Sittings, and Granting of Credit, Release of Grades and Completion of Examination, Transition Rules," that requires candidates to pass all four test sections of the CPA Examination within a rolling eighteen-month period, which begins on the NASBA grade release date for the first test section(s) passed. The Board considered the instant Petition at a duly-noticed public meeting, held June 14, 2018, in Orlando, Florida.

The Board's Order, filed on July 16, 2018, granted the petition finding that Petitioner had established that the purpose of the underlying statute, Section 473.306, Florida Statutes, would be met by granting a variance from paragraph 61H1-28.0052(1)(b), F.A.C. The Board further found that Petitioner had established that applying the requirements of the aforementioned rule to her circumstances would violate principles of fairness and impose substantial hardship.
