PURPOSE AND EFFECT: The proposed rulemaking will update incorporated department forms and references to department forms, amend rule language to conform with incorporated National Fire Protection Association (NFPA) standards, and will update the rules regarding the Marketing Order assessment collected on each gallon of odorized propane sold/consumed in Florida to reflect the results of an industry referendum.

SUMMARY: The proposed rules are being amended to update the LP Gas Examination Scheduling Request and the Odorizers/Importers Quarterly Remittance Report, to eliminate the Liquefied Petroleum Gas Cargo Vehicle Meter Inspection form, and to conform rule language with incorporated National Fire Protection Association (NFPA) standards. In addition, the proposed rules are being updated to reflect the new assessment rate of the LP Gas Marketing Order. A referendum was conducted by the department at the request of the Florida Propane Gas Education, Safety, and Research Council pursuant to Section 527.23, Florida Statutes, and the assessment rate set forth in rule is being revised in accordance with the outcome of that referendum.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: The proposed rules update incorporated department forms, references to department forms, conform rule language for consistency with incorporated national standards, and amend the Marketing Order assessment rule to reflect the new rate enacted through a recent LP Gas industry referendum. The department's economic analysis of the adverse impact or potential regulatory costs of the proposed rules did not exceed any of the criteria established in Section 120.541(2)(a), Florida Statutes. Additionally, no interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

PURPOSE AND EFFECT: The purpose and effect of this proposed rule is to update grant application forms, repeal unnecessary language, and revise the required reporting and data collection methods including forms require for submission in Chapter 62-716, F. A. C.

SUMMARY: Chapter 62-716, Florida Administrative Code, contains regulations for solid waste grant applications, and annual solid waste and recycling reporting requirements for counties and public-sector entities. The forms for small county consolidated grant applications are being updated in this proposed rulemaking. The rule is also being revised to require electronic submission of the annual solid waste and recycling reporting forms for the counties and the public-sector entities.

The rule establishes the methods and criteria to be used by counties and public-sector entities in calculating and reporting their recycling rates. Changes to this rule will amend the methods and criteria counties use in calculating and reporting their recycling rates.

Public sector entities (such as state and local government agencies) are required to annually report to counties how much material they recycle using the Department's designated reporting format. Private businesses are encouraged, but not require to annually report to counties how much material they recycle using the Department's designated reporting format. This chapter is being amended to include changes to the reporting formats and processes for both the public sector and the private businesses.

The Legislature also created a voluntary certification program for materials recovery facilities. The chapter is being amended to include the qualifications for materials recovery facilities certification and the application form for certification.

Rule 62-716.480, F. A. C. - Methods and Criteria for Calculating County Recycling Rates– Certain byproducts from road building or maintenance are being removed from what will be included in municipal solid waste reporting.

Rule 62-716.500, F. A. C. - Specific Small County Consolidated Grant Application Requirements– The population of qualifying counties is increased to 110,000. Changes are being made to the application process and form names. Updating the locations to get and submit the application forms. The section regarding grantee qualifications is included from Rule 62-716.310, F.A.C.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Repeal or amendment of these rules will not have an adverse impact or increase regulatory costs on any entity.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal

for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
