THE FULL TEXT OF THE PROPOSED RULE IS:

55A-7.010 Employment Preference When Using a Numerically Based Selection Process.

(1) No change.

(2) 15 augmentation points shall be added for:

(a) through (b) No change.

(c) Except for classes of positions with Federal Government designations of professional or technician, all persons eligible for a 15-point preference whose service-connected disabilities have been rated at 30% or more, and meeting minimum qualifications established for the position, shall be placed at the top of the appropriate register or employment list in accordance with his or her respective augmentation points, and shall be granted an interview in all cases.

(3) through (4) No change.

(5) Augmentation points are to be added to a qualified candidate's examination score of 100 as follows: 15 points for paragraph (2)(a) or (b), in this rule; 10 points for paragraph (3)(a), (b), or (c), in this rule; 5 points for paragraph (4)(a) or (b), in this rule. However, where the highest possible examination score is more or less than 100, an alternative procedure makes it permissible to apply percentages to calculate additions to points instead, as follows: 15 percent for persons described in paragraph (2)(a) or (b), of this rule; 10 percent for persons described in paragraph (3)(a), (b), or (c), of this rule; and 5 percent for persons described in paragraph (4)(a) or (b), of this rule. If the total possible score is exactly 100, augment directly with 5, 10, or 15 points; if the total possible points are less than or more than 100 points, use percentages to calculate points for addition to examination score. ~~For example, if an applicant scores 50 points, and is a person described in paragraph (3)(a), (b), or (c), of this rule, then calculate 10% for additional points, resulting in a final score of 55.~~

(6) No change.

(7) If a position is advertised as a "Veteran-only position," points shall be applied based upon "Augmented Rating" as defined in Subsection 55A-7.003(3), F.A.C., and interviews will be based on the applicant's total numerical score regardless of augmentation category.
