Proposed Rules

**DEPARTMENT OF BUSINESS AND PROFESSIONAL
REGULATION**

Board of Professional Engineers

RULE NOS.: 61G15-32.004, 61G15-32.005, 61G15-32.006, 61G15-32.007, 61G15-32.008 RULE TITLES: Design of Water Based Fire Protection Systems, Design of Gas Agent Fire Suppression Systems, Design of Foam and Foam Water Fire Suppression Systems, Design of Dry Chemical and Miscellaneous Fire Suppression or Control Systems, Design of Fire Alarms, Signaling Systems, and Control Systems
 PURPOSE AND EFFECT: The Board proposed the rule amendment to update and clarify the rule language regarding the design of various fire systems.

SUMMARY: The proposed rule amendment clarifies and updates the rule language regarding the design of various fire systems.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

GENERAL SUBJECT MATTER TO BE CONSIDERED: Project No. 516-236, 237 & 238

Project Description: State Road 516 (Lake/Orange Expressway)

In September 2020, the Central Florida Expressway Authority began designing State Road 516 (Lake/Orange Expressway), a new four-lane limited access expressway from US 27 to State Road 429. The expressway is divided into three segments: Segment 1, from US 27 to west of Cook Road; Segment 2, from west of Cook Road to the Lake/Orange County line; and Segment 3, from the Lake/Orange County line to SR 429. The new expressway is expected to improve connectivity between Lake and Orange counties, as well as meet future traffic needs. The 5-mile expressway includes interchanges at US 27, CR 455, Valencia Parkway and SR 429. The design realigns US 27 to avoid impacts to Lake Louisa State Park and adds bike trails along SR 516, US 27, CR 455 and Valencia Parkway. This project will also be unveiling CFX’s in-lane pavement self-charging system pilot project in partnership with the ASPIRE Engineering Research Center.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require accommodations under the Americans with Disabilities Act or persons who require translation services, free of charge, should contact Russ Handler as noted below at least seven (7) days prior to the meeting.
