THE FULL TEXT OF THE PROPOSED RULE IS:

- 62-210.300 Permits Required.
- (1) through (2) No change.

(3) Exemptions from Permitting. Except as otherwise provided herein, an owner or operator shall not be required to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C., for any facility, emissions unit, or pollutant-emitting activity that satisfies the applicable permitting exemption criteria of paragraph 62-210.300(3)(a) or (b), F.A.C., or has been exempted from permitting pursuant to Rule 62-4.040, F.A.C. Failure of a facility, emissions unit, or activity to satisfy the exemption criteria of paragraph 62-210.300(3)(a) or (b), F.A.C., does not preclude such facility, emissions unit, or activity from being considered for exemption pursuant to Rule 62-4.040, F.A.C. Notwithstanding the above, no emissions unit or activity shall be exempt from the requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C., if it would be subject to any unit-specific limitation or requirement, unless compliance with such limitation or requirement is specifically listed as a condition of exemption. Furthermore, no new, reconstructed, or modified emissions unit or activity shall be exempt from the requirement to obtain an air construction permit if its emissions would contribute to a major modification or to any modification that would be a major modification but for the use, in whole or in part, of the baseline actual-to-projected actual applicability test in Rule 62-212.400, F.A.C. An emissions unit or pollutant-emitting activity exempt from the requirement to obtain an air construction permit shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if it is contained within a Title V source or if its emissions, in combination with the emissions of other emission units and activities at the facility, would cause the facility to be classified as a Title V source. Exemption from the requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C., does not relieve the owner or operator of a facility or emissions unit from complying with any limitation or requirement applicable to such facility or emissions unit.

(a) Categorical and Conditional Exemptions. Except as otherwise provided at subsection 62-210.300(3), F.A.C., above, the following facilities, emissions units, and pollutant-emitting activities shall be exempt from any requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C.

limitation or requirement that may apply pursuant to 40 C.F.R. Part 63, ~~Subpart DDDDD~~ and JJJJJ, adopted and incorporated by reference at Rule 62-204.800, F.A.C.

b. through h. No change.

i. If the ~~unit~~ boiler is subject to 40 C.F.R. Part 63, Subparts DDDDD or Subpart JJJJJ, the owner shall comply with all limitations and requirements of Subparts DDDDD or Subpart JJJJJ that apply to the ~~unit~~ boiler.

c. Open burning is prohibited at the facility.

(b) Generic Exemptions.

1. No change.

2. Generic Facility Exemption. Except as otherwise provided at subsection 62-210.300(3), F.A.C., a facility that is not entitled to a categorical or conditional exemption pursuant to paragraph 62-210.300(3)(a), F.A.C., shall be exempt from any requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C., if all of the emissions units and pollutant-emitting activities within the facility, including any proposed new emissions units and activities, individually meet the exemption criteria of paragraph 62-210.300(3)(a), F.A.C., or subparagraph 62-210.300(3)(b)1., F.A.C., or if none of the emissions units and pollutant-emitting activities within the facility, including any proposed new emissions units and activities, is subject to any unit-specific limitation or requirement and the facility meets all of the following criteria.
