12D-13.002 When Taxes are Due; Notice of Publication; Discounts if Taxes are Paid Before Certain Times.

(1) through (4) No change.

(5) The four-percent discount shall commence running the day after the mailing of the original tax notices. Where the tax collector makes a correction to a tax notice not requested by a taxpayer, the corrected tax notice is considered to be the original tax notice. When a taxpayer makes a request within 30 days of mailing of the initial tax notice to have the original tax notice corrected and it is subsequently corrected, the discount rate for early payment applicable at the time the request for correction is made will apply for 30 days after the day after mailing of the corrected tax notice. It shall be the property owner’s responsibility to make a timely request, but this shall not preclude the tax collector or property appraiser from making such corrections and mailing corrected tax notices.

(6) No change.

12D-13.009 Refunds.

(1) This rule shall apply to all ad valorem tax refunds. A claim for refund not processed in accordance with this rule section shall not constitute exhaustion of administrative remedies.

When a certificate of correction, Form DR-409 (incorporated by reference in Rule 12D-16.002, F.A.C.), from the property appraiser predates the Form DR-462, the claim date shall be the date the certified Form DR-409 from the property appraiser is delivered to and received by the tax collector.

(b) through (10) No change.

(1) If the tax deed application was made by the county and there are no other bidders, the clerk shall enter the land on a “List of Lands Available for Taxes”. If all outstanding tax sale certificates from the land were sold after July 1, 1999, the county shall then have 90 days after the land is placed on the list of sale to purchase the land for the opening bid. If any tax sale certificates were sold on or before July 1, 1999, the 90 days shall run from the sale date. After 90 days, any person or governmental unit may purchase the land for the opening bid.

Where property is purchased from the list by the county or other governmental unit for its own use, omitted years’ taxes may be canceled in the manner prescribed under the provisions of section 197.447, Florida Statutes.
(2) No change.

(3) If not purchased, lands contained on the list with any certificates issued on them on or before July 1, 1999, shall escheat to the county seven years after the date on which the property was offered for tax deed sale. If not purchased, lands contained on the list on which all certificates on them were issued after July 1, 1999, shall escheat to the county three years after the date on which the property was offered for tax deed sale.

These rules address Electronic Data Interchange (EDI) of tangible personal property return information to property appraisers. For the purposes of this rule chapter, the terms and phrases used in these rules shall have the meanings prescribed in this section, unless a different meaning is clearly indicated by the context in which the term or phrase is used.

(1) "ACH" or "Automated Clearing House" means a central distribution and settlement point for the electronic clearing of return data between institutions rather than the physical movement of paper items.

(2) "ACH return filing" means the electronic transfer of return data generated by the taxpayer, cleared through the ACH for transfer to the property appraiser.

(3) "Addenda record" means that information required by the Department in an ACH transfer or wire transfer, in approved electronic format.

(4) "Call-in day" means the day on which a taxpayer communicates return information to the Data Collection Center.

(5) "Call-in period" means the specified time interval in each call-in day during which EDI return information received by the Data Collection Center is processed for transactions occurring on the next business day. Return information must be communicated to the Data Collection Center prior to 3:45 p.m., Eastern Time, on the call-in day to clear the ACH for transfer to the property appraiser on the next business day.

(6) "Data Collection Center" means the third party vendor, who, under contract with the Department or property appraiser, collects and processes EDI return information from taxpayers.

(7) "Department" means Florida Department of Revenue.

(8) "Due date" means the date on or before which a return is required to be made by a taxpayer under a revenue law of this state.

(9) "Electronic Data Interchange" or "EDI" means any transfer of records initiated through an electronic terminal, telephone instrument, computer, or magnetic tape using the methods specified in these rules.

(10) "Taxpayer information number" means a confidential code assigned to each taxpayer which uniquely identifies the taxpayer and allows the taxpayer to communicate return information to the Data Collection Center or Property Appraiser.

For the purpose of these rules, "person" includes any individual, firm, partnership, joint venture, association, corporation, estate, trust, business trust, receiver, syndicate, or other group or combination acting as a unit.

(13) "Wire transfer" or "Fedwire" means an instantaneous information transfer generated by the taxpayer to the Property Appraiser, not by ACH.

(1) Taxpayers who participate in the electronic data interchange transfer program shall use one of the following means of communicating return information through the ACH method:

(a) PC entry communication of return information via a computer with a modem over a direct telephone link to the ACH.

(b) PC entry communication of return information via a computer with a modem over a direct wire or the Internet.

(4) Upon approval of taxpayer information, the property appraiser shall assign a confidential taxpayer identification number directly to the taxpayer to be used by the taxpayer when communicating return information to the Data Collection Center. This number shall be provided to the taxpayer prior to the date the required return is due under the EDI program for all accounts who timely file the Form DR-599 with the property appraiser.

(5) Use of the ACH return method by a taxpayer will be conditioned upon the taxpayer's agreement to provide return information to the Data Collection Center as provided in these rules.

(6) The property appraiser reserves the right to revoke the ACH return method privilege of any taxpayer who: does not consistently transmit error-free information; substantially varies from the requirements and specifications of these rules; repeatedly fails to make timely return transfers; or repeatedly fails to provide the required addenda record with the EDI transfer.

DEPARTMENT OF MANAGEMENT SERVICES
Division of Retirement
RULE TITLE: Approved Forms 60S-9.001
RULE NO.: 60S-9.001
PURPOSE AND EFFECT: The purpose of this rule development is to propose the adoption of three new forms and 45 revised forms related to Florida Retirement System participation, service credit, and benefits; and to propose the deletion of 11 forms no longer needed, and the repeal of one form not required to be adopted as a rule. Many of the forms are being amended as a result of recommendations of the Division of Retirement’s reengineering project. On these, the format is being changed and barcoding added to accommodate electronic scanning and routing to appropriate bureau(s) upon their completion and return to the Division.

SUBJECT AREA TO BE ADDRESSED: Form MF-2 is being adopted, in compliance with Chapter 97-180, Laws of Florida, to be used by Florida Retirement System (FRS) members to verify their eligibility to purchase military service under the out-of-state service provisions. Forms DP-PAYT and DP-TERM are new Deferred Retirement Option Program (DROP) forms to be used by DROP participants to select a payout method for their DROP benefits and to terminate their participation in DROP, respectively. Forms FRS-400, FRS-404, BLE-1, SMS-3, SMSD-1, OCC-1, FR-9, FR-28, WC-1, FC-1, FR-23, FR-23a, FR-30, FR-13a, FR-13b, FR-13e, FST-12, JA-1, FST-11b, FST-11g, TR-11c, SRF-2, SRF-3, SVF-1, SVF-2, DIS-1, and JA-NUL are being revised because of a change in format and to add a barcode. Forms FRS-401, FRS-402, TR-11, TR-4, and SR-11 are being revised to include a new notary statement, to comply with Chapter 98-246, Laws of Florida. Form OSE-1 is being revised to include the...
verification of a member’s eligibility to purchase in-state, as well as out-of-state service, as creditable service, in compliance with Chapter 97-180, Laws of Florida. Form FC-1, used by participating employers to certify a member’s salary prior to termination, is being revised to reference the DROP begin date as well as the termination date. Form HIS-1 is being revised to reflect a change in the Health Insurance Subsidy from $3 to $5 per month, in compliance with Chapter 98-413, Laws of Florida. Form FRS-M81 is being revised by increasing its size from 4 1/2” x 8 1/2” to 8 1/2” x 11” to accommodate electronic scanning of the completed form upon its return to the Division. Form DP-ELE is being revised to consolidate the election to participate in DROP for members of the Teachers’ Retirement System (TRS), and the State and County Officers and Employees’ Retirement System (SCOERS), as well as for FRS members. Forms DT-ELE and DS-ELE, used by TRS and SCOERS members, respectively, to elect membership in DROP, are being deleted from the rule to be replaced by the revised Form DP-ELE. Form SB-10 is being deleted from this rule because the Division of Retirement no longer administers the U. S. Savings Bonds Program for state employees. Form FRS-11o, for option selection by an FRS member, is being repealed from this rule because it requires or solicits no information not specifically required by statute as provided in 120.52(15). Form FST-40cl, for spousal acknowledgement of an FRS member’s option selection, is being deleted because the same information request is included on Form FRS-11o. Form FR-17, to determine eligibility for Social Security minimum benefits, is no longer used by the Division of Retirement and is being deleted from the rule. Form MF-1B, used by a beneficiary to verify a deceased member’s eligibility to purchase military service, is being deleted from the rule because Form MF-1 is being revised to consolidate verification by the member and the beneficiary. Forms FRS-OP1 and FRS-OP2, agreements for repayment of retirement benefits by monthly installments or deductions, respectively, are being deleted and will be replaced by a written letter to the member. Forms DP-PM and DP-RO, used by DROP members to select a direct payout or rollover of their DROP benefits, respectively, are being consolidated and replaced by one form, Form DP-PAYT. Form DP-TN, used by DROP members to terminate their DROP participation, is being deleted and replaced by a renamed form, Form DP-TERM.

THE FULL TEXT OF THE PROPOSED RULES IS:
For the purpose of this chapter and chapters 62-550 and 62-560, F.A.C., the following words, phrases, or terms shall have the following meaning:

(1) through (6) No change.

(7) “CAPACITY DEVELOPMENT” means the process of water systems acquiring and maintaining adequate technical, managerial, and financial capabilities to enable them to consistently provide safe drinking water.

(7) through (9) renumbered (8) through (10) No change.

(11) “COMMENCEMENT OF OPERATIONS” means the beginning of the service of furnishing water treated by the water system to the consumers.

(11) through (49) renumbered (12) through (51) No change.

(52) “NEW SYSTEM” means, for the purposes of capacity development, both community water systems or non-transient non-community water systems being newly constructed as well as systems which do not currently meet the definition of a public water system under Rule 62-550.200(61), but which expand their infrastructure and thereby grow to become community water systems or non-transient non-community water systems. Systems not currently public water systems under Rule 62-550.200(61) and which add additional users and thereby become community water systems or non-transient non-community water systems without constructing any additional infrastructure are not “new systems” for purposes of capacity development.

(50) through (83) renumbered (53) through (86) No change.

62-550.824 Consumer Confidence Reports.
These rules are intended to implement the National Primary Drinking Water Regulations that require community water systems to prepare and provide to their customers annual consumer confidence reports on the quality of the water delivered by the systems. In addition to the requirements of this rule, the standards and criteria contained in the following regulations are adopted by reference and enforceable under this rule: Code of Federal Regulations (CFR), Title 40, Part 141, Subpart O, Sections 151 and 153 through 155, the Appendices to Subpart O, the amendments to Subpart O (1998 Federal Register, pages 44526-44536 and pages 69475 and 69516), and the corrections to the Code of Federal Regulations (CFR), Title 40, Part 141, Subpart O (1999 Federal Register, pages 34732-34733).

(1) Additional Report Content Requirements. In addition to the requirements of 40 CFR 141.153, the following requirements shall apply:

(a) Additional Source Water Information. If the Department has determined that a system or well is under the direct influence of surface water, the system shall identify the well and proposed remedial action.

(b) Additional Primary Contaminant Information.
1. In addition to the contaminants referenced in 40 CFR 141.153(d)(1)(i), the following contaminants shall be subject to the requirements of §141.153(d): nickel, lead (point of entry) and sodium. The applicable results for these three contaminants shall be only the results of monitoring to demonstrate compliance with a maximum contaminant level (MCL) in Rule 62-550.310(1), F.A.C.

2. More Stringent MCLs. For the following contaminants, the Florida MCL is more stringent than the federal MCL referenced in 40 CFR 141, Subpart O, consumer confidence reports: benzene, vinyl chloride, ethylene dibromide, carbon tetrachloride, 1,2-dichloroethane, trichloroethylene, and tetrachloroethylene. For these contaminants, the Florida MCLs listed in Rules 62-550.310 and 62-550.320, F.A.C., shall apply for the purpose of preparing the consumer confidence report.

3. Different Monitoring Location Requirements. Rule 62-550.500(5), F.A.C., requires monitoring at the entry point to the distribution system rather than at points within the distribution system, when monitoring for compliance with the MCLs for the radiological contaminants listed in Rule 62-550.310(4), F.A.C. These results shall be applicable to the consumer confidence reports requirements of 40 CFR 141.153(d)(1)(i).

4. Primary Contaminant Source of Contamination Language in addition to that found in 40 CFR 141, Appendix B to Subpart O. The following language shall be used in tables of analytical results to report on the source of contamination for lead (point of entry), nickel and sodium. Systems may substitute other language or add their own language if the language they use as source of contamination language is more specific to conditions affecting their system.

a. Lead (point of entry): Residue from man-made pollution such as auto emissions and paint. Lead pipe, casing, and solder.

b. Nickel: Pollution from electroplating operations.

c. Sodium: Salt water intrusion, leaching from soil.

5. Health Effects Language in addition to that found in 40 CFR 141, Appendix C to Subpart O. The following health effects language shall be used for nickel and sodium:

a. Nickel – To protect against the risk of heart and liver damage, the drinking water standard is 0.1 ppm.

b. Sodium – The standard is set at 160 ppm to protect those who are susceptible to high blood pressure or to diseases causing difficulty in regulating body fluid volume. It is important to recognize that sodium enters the body in a number of ways, including food, and that drinking water contributes less than 10 percent to the overall sodium intake.

6. Reporting total coliform results. When reporting the total monthly number of samples include repeat samples,
7. Reporting fecal coliform results. If fecal coliform is detected, the table of analytical results shall include the total number of positive samples for the year.

(c) Secondary Contaminant Information.
1. The reporting requirements of 40 CFR 141.153(d) shall be applicable to the secondary contaminants listed in Rule 62-550.320, F.A.C.

2. Reporting of secondary contaminants results.
   a. Results for secondary contaminants shall be included in the consumer confidence report if there were MCL violations. On the table of analytical results, the highest result shall be reported as the level detected, and the range of results shall be reported as the range.
   b. Results for pH need not be reported.
   c. Results for ethylbenzene (odor), toluene(odor), xylene (odor), and fluoride need not be reported, because they are also monitored as primary contaminants.

3. Source of Secondary Contaminants. The following language is provided for use in tables of results to describe the major sources in drinking water for the secondary contaminants listed as follows. Systems may substitute other language or add their own language if the language they use as source of contamination language in the consumer confidence report is more specific to conditions affecting their system.
   b. Copper: Corrosion byproduct and natural occurrence from soil leaching.
   c. Foaming agents: Pollution from soaps and detergents.
   d. All other secondary contaminants: Natural occurrence from soil leaching.

(d) Unregulated Contaminants. Systems shall report analytical results when there are detections of unregulated contaminants listed in Rules 62-550.521(1),(2), and (3), F.A.C., when monitoring is performed to comply with the requirements of these rules.

(e) Information Collection Rule (ICR) Contaminants. The federal CCR regulations (40 CFR 141.153) state that finished water results for the following are subject to consumer confidence reporting requirements; disinfection by-products or microbial contaminants for which monitoring is required under 40 CFR 141.142 and 141.153 except Cryptosporidium.

1. Systems monitoring for ICR contaminants shall report the following ICR contaminants in their consumer confidence reports, if found in the finished water:
   a. THM4: trihalomethanes (chloroform, bromodichloromethane, dibromochloromethane, and bromoform) – report as a group.
   b. HAA5: haloacetic acids (mono-, di-, and trichloroacetic acid, and mono- and di-bromoacetic acid) – report as a group.
   c. HAN: haloacetonitriles (dichloro-, trichloro-, bromochloro-, and dibromoacetonitrile) – report as a group.
   d. HK: haloketones (1,1-dichloropropanone and 1,1,1-trichloropropanone) – report as a group.
   e. CP: chloropicrin.
   f. CH: chloral hydrate.
   g. TOX: total organic halides.
   h. disinfectant residual.
   i. total coliforms, fecal coliforms, or Escherichia coli.
   j. Giardia, and
   k. total culturable viruses.

2. The following provisions shall apply:
   a. Treatment plants using chloramines shall report cyanogen chloride;
   b. Treatment plants using hypochlorite solutions shall report chlorate;
   c. Treatment plants using ozone shall report bromate and aldehydes;
   d. Treatment plants using chlorine dioxide shall report chloramine dioxide residual, chlorite, chlorate, bromate, and aldehydes.

3. As required by the 40 CFR 141.153, results for the above contaminants, if found in the finished water, shall be reported in the table of analytical results in consumer confidence reports in the same manner as the unregulated contaminants (average and range of detection.)

(f) Additional health information required by 40 CFR 141.154. In addition to the requirements of 40 CFR 141.154, systems shall also include this additional health information when they:

1. detect arsenic or nitrate at the MCL. Report the informational statements required by 40 CFR 141.154(b) or (c), respectively.
2. detect TTHM at the MCL. Include in the report the informational statements required by 40 CFR 141.154(e).

(g) Certified Operator Requirement. Systems which fail to maintain continuous usage of the services of an operator with the appropriate certification in accordance with Rule 62-699.310, F.A.C., shall provide an explanation in the consumer confidence report. The explanation shall include a description of the duration of the violation.

(h) All consumer confidence reports that must include a table of analytical results, shall contain the following definition: “ND” means not detected and indicates that the substance was not found by laboratory analysis.

(2) Use of Language Other Than English. Under 40 CFR 141.153(h)(3), where the proportion of non-English speaking residents served by the system exceeds 20 percent of the total number of consumers served by the system, consumer confidence reports shall contain information in the appropriate language(s) regarding the nature and importance of the report and a telephone number or address where such residents may contact the system to obtain a translated copy of the report or...
assistance in understanding the report. A statement to this effect shall be included in the report immediately after the title of the report.

(3) Report Delivery and Recordkeeping. These rules provide additional requirements to those in 40 CFR 141.155.

(a) Existing systems shall deliver their second CCR reports by July 1, 2000, and subsequent reports by July 1 annually thereafter. A new community water system must deliver its first report by July 1 of the year after its first full calendar year in operation and annually thereafter.

(b) A community water system that sells water to another community water system shall deliver the applicable information required in 40 CFR 141.153 to the buyer system.

1. by April 1, 2000, and by April 1 annually thereafter, or
2. on a date mutually agreed upon by the seller and the purchaser, and specifically included in a contract between the parties.

(c) Distribution Via the Internet.

1. Each community system serving more than 3,300 persons shall annually provide an electronic copy of its consumer confidence report to the Department for posting on the Department’s Internet site to meet the requirements of 40 CFR 141.155(f).

2. Electronic copies shall be prepared in either Microsoft Word, WordPerfect, Adobe PDF, hypertext markup language (HTML), Harvard Graphics, or ASCII text.

3. Electronic copies shall be sent to the Department using one of the following means:
   a. A 3.5-inch diskette(s) or zip disk(s) sent to the Department of Environmental Protection, Drinking Water Section, 2600 Blair Stone Road, Tallahassee Florida 32399-2400, or
   b. Via electronic mail.

(d) Mailing Requirements. All systems serving more than 500 persons shall mail or otherwise directly deliver one copy of their consumer confidence report to each billing customer, except as provided in Rules 62-550.824(3)(b)1 and 62-550.824(3)(b)2, F.A.C. Systems must make a good faith effort to reach all consumers, using one or more of the methods listed in Form 62-555.900(19), Certification of Delivery of Consumer Confidence Report.

1. In accordance with 40 CFR 141.155(g), the State of Florida waives the requirement that community water systems serving fewer than 10,000 persons mail or directly deliver to each customer their consumer confidence reports which have a delivery deadline of October 19, 1999.

2. The Department waives the mailing requirement for community water systems serving fewer than 10,000 persons regarding reports having a delivery deadline of July 1, 2000, or after for those systems which have not had any MCL or monitoring and reporting (M/R) violations during the year(s) covered by the report. The Department will notify systems that are ineligible for a mailing waiver in writing no later than ninety days prior to the delivery deadline of their consumer confidence report.

(e) Reporting.

1. Systems shall demonstrate compliance with the reporting requirements of 40 CFR 141.155(c) by:
   a. sending a copy of their consumer confidence report to the appropriate office of the Department no later than the date the system is required to distribute the report to its customers, and
   b. sending to the appropriate office of the Department a certification that the report has been distributed, that the information is correct, and that the information is consistent with compliance monitoring data. New or altered public water systems or components thereof shall not be placed into operation without prior Department approval or clearance, as described below. Upon completion of construction, the engineer of record or the system’s professional engineer who was responsible for overseeing construction shall submit a certification of completion letter to the Department. When the letter of certification and a copy of satisfactory bacteriological results (absence of total coliform in two consecutive daily water samples) and analyses to demonstrate compliance with Chapter 62-550 and, if applicable, Chapter 62-554, F.A.C., are received, a letter of clearance to place the facility(ies) into service shall be issued.

(1) Upon completing the construction of new or altered public water system components, and before placing the components into operation for any purpose other than disinfection, testing for leaks, or testing equipment operation, the permittee shall submit to the appropriate Department District Office or appropriate Approved County Health Department a certification of construction completion using Form 62-555.900(9). This certification shall include the following:

(a) Statements by the permittee and the ultimate owner of the components certifying that record drawings are available for review at a specified location and certifying that an operation and maintenance manual for new or altered treatment components is available for review at the site of the new or altered treatment components.

(b) A certification of construction completion by the professional engineer in responsible charge of inspecting construction for the purpose of determining if work proceeded in compliance with the construction permit and approved plans and specifications. This certification shall be based upon on-site observation of construction by the professional engineer or a representative under the engineer’s direct supervision and upon a review of shop drawings, test records or results, and record drawings performed by the professional engineer or a representative under the engineer’s direct supervision. The professional engineer shall certify the following:

1. that the components have been constructed in accordance with the construction permit and approved plans and specifications or that any deviations (which shall be described and explained by the engineer) from the permit and plans and specifications will not prevent the components from functioning in compliance with Chapters 62-550, 62-555, and 62-560, F.A.C.;

2. that the record drawings for the components are adequate and indicate all deviations from the construction permit and approved plans and specifications; and

3. that all components required to be disinfected according to Chapter 62-555, F.A.C. (and AWWA disinfection standards incorporated by reference therein) have been disinfected and bacteriologically tested.

(c) A copy of record drawings if there is any deviation from the construction permit and approved plans and specifications.

(d) A copy of bacteriological test results showing the following:

1. compliance with Rule 62-555.315(3)(c), F.A.C., for new or altered wells; and

2. the absence of total coliform organisms in two consecutive daily samples taken at each location described in the AWWA disinfection standards in Rule 62-555.330(4), F.A.C.

(e) A copy of analytical test results demonstrating compliance with Chapter 62-550, F.A.C., and if applicable, Rule 62-524.650(2), F.A.C., for new or altered treatment components necessary to achieve compliance with these rules.
(f) Non-transient non-community and community water systems that have received a construction permit but have not commenced operations prior to October 1, 1999, shall submit a completed Capacity Development Financial and Managerial Operation Plan using Form 62-555.900(20).

(2) Within 30 days after the Department receives a certification of construction completion for a newly constructed community or non-transient non-community water system commencing operations on or after October 1, 1999, the Department shall review the completed Capacity Development Financial and Managerial Operation Plan. If the Department finds anything that will prevent the system from functioning in compliance with Chapter 62-550, 62-555, or 62-560, F.A.C., the Department shall issue to the permittee a letter detailing necessary changes and requiring resubmittal of the certification of construction completion after the changes are made.

(3) Within 30 days after the Department receives a Capacity Development Financial and Managerial Operation Plan from a community or non-transient non-community water system commencing operations on or after October 1, 1999, but constructed under a permit issued prior to October 1, 1999, the Department shall review the completed Capacity Development Financial and Managerial Operation Plan. If the Department finds anything that will prevent the system from functioning in compliance with Rule 62-555.525(2), F.A.C., the Department shall issue to the permittee a letter detailing necessary changes and requiring resubmittal of the certification of construction completion after the changes are made.

(4) Upon receiving a satisfactory certification of construction completion for new or altered public water system components, and after completing a satisfactory inspection of the components if applicable, the Department shall issue a letter of clearance to place the system or components into operation.

An Operations Plan consists of a completed form 62-555.900(20), F.A.C., and any supporting attachments. All community and non-transient non-community water systems commencing operations on or after October 1, 1999, shall update and submit to the Department an Operations Plan three years after the commencement of operations. The Department shall review the updated Operations Plan and notify the supplier of water in writing about any deficiencies and about the Department’s recommendations for corrective action.

65A-1.720 Medicare Buy-In Demonstration Project.

(1) Purpose and Scope. The purpose of this demonstration project is to determine if increased participation in the Qualified Medicare Beneficiary (QMB), Special Low-Income Medicare Beneficiary (SLMB) or Part B Medicare Only (PBM0) programs of SSI-Related Medicaid will result from increased outreach efforts. The Social Security Administration (SSA) will identify individuals who have Part A Medicare and have income and resources within the specified program limits according to information in SSA files. The SSA will then send outreach letters to individuals meeting the required criteria advising them that they may be eligible for Medicaid programs that will pay their Medicare premiums or provide additional benefits. The project will be conducted in Orange and Osceola Counties and in those central Miami zip codes selected by the SSA. This project will end on December 31, 1999.

(2) Simplified Application Process. Local SSA staff will complete simplified applications for individuals who respond to the outreach letters if they appear to meet project participation criteria. The SSA will refer applicants to the department for a Medicaid eligibility determination. The department will use eligibility policies and procedures set forth in rules 65A-1.709 through 65A-1.716 to determine a referred individual's eligibility. The department will accept the statements on the application form and the documentation provided as being accurate and complete, unless the information is questionable or insufficient to make an eligibility decision. The department will not conduct face-to-face interviews with applicants. Contact with applicants will be by mail or by telephone.

(3) Project Forms. Project applicants will apply for program benefits using the simplified Medicare/Medicare Buy-In Application form, CF-ES 2282, Apr 99 (incorporated by reference) and Buy-In Application Rights and Buy-In Application form, CF-ES 2282, Apr 99 (incorporated by reference). RULE CHAPTER TITLE: Billfish

RULE TITLES:

RULE NOs.: 68B-33.002

Marlin and Sailfish Possession Limits;
Prohibition of Harvest for Spearfish;
Prohibition of Sale; Exception;

SIZE LIMITS 68B-33.003

PURPOSE AND EFFECT: Billfish (sailfish, blue and white marlin, and longbill, Mediterranean, and roundscale spearfish) have been managed in Florida since 1988. Florida regulations prohibit the sale of billfish, provide for a one fish per person, per day bag limit, and allow for temporary possession of more than one billfish by businesses that smoke fish and by taxidermists. Also in 1988, subsequent to the adoption of Florida’s rules, the National Marine Fisheries Service (NMFS) promulgated size limit regulations for these species, and took the unusual step of extending their regulations beyond federal waters of the exclusive economic zone (EEZ) to Florida’s shoreline. In discussions between Marine Fisheries and NMFS attorneys, it was agreed that state and federal regulations were not in conflict and both size and bag limits were applied to billfish harvest taken adjacent to or within Florida waters. Recently, the NMFS has updated their regulations to establish new minimum size limits for billfish, and prohibit the retention of all three species of spearfish.

Historically, the Marine Fisheries Commission, predecessor to the Fish and Wildlife Conservation Commission’s (FWCC) Division of Marine Fisheries, was statutorily required to consider federal fishery management plans and avoid inconsistencies between state and federal regulations unless otherwise deemed to be in the best interests of the State of Florida. In continuation of this policy and in cooperation with federal regulators, the Fish and Wildlife Conservation Commission proposes this rulemaking to adopt the new federal size limits and to prohibit the harvest, possession or landing of spearfish. The effect will be to ease the regulatory burden on Florida’s citizens by maintaining unified billfish regulations from waters of the EEZ to Florida’s coastline.

SUMMARY: Rule 68B-33.002, FAC, is amended to include definitions for the word “harvest” and for the term of art “lower jaw fork length”. The title to Rule 68B-33.003, FAC, is amended to more accurately reflect the rule’s contents, and the rule itself is amended to establish the prohibition against the harvest, possession or landing of longbill, Mediterranean or
roundscale spearfish. Finally, a new rule, 68B-33.004, is proposed to establish size limits for blue and white marlin, and for sailfish.

SPECIFIC AUTHORITY: Article IV, Section 9, Florida Constitution.

LAW IMPLEMENTED: Article IV, Section 9, Florida Constitution.

THIS RULEMAKING IS UNDERTAKEN PURSUANT TO SECTION 120.54(6), F.S., WHICH DOES NOT PROVIDE FOR A PUBLIC HEARING.

The Department of Environmental Protection announces its entry of an Order Granting Request for Renewal of Variance, as required by Section 120.542(8), F.S.

NAME OF THE PETITIONERS: City of Tampa and Hillsborough County

DATE THE PETITION WAS FILED: March 5, 1999

THE DATE OF THE ORDER APPROVING THE VARIANCE OR WAIVER: July 12, 1999

THE GENERAL BASIS FOR THE AGENCY DECISION: Petitioners have requested that yard trash be temporarily allowed to be diverted to the Hillsborough County Southeast landfill during the period of time that the City of Tampa is retrofitting its Refuse-to-Energy Facility with air pollution control equipment. Petitioners have demonstrated that an undue economic burden would be created if the City was required to implement a separate yard trash collection program while the City facility was installing air pollution control equipment.

EXPLANATION OF HOW A COPY OF THE ORDER CAN BE OBTAINED: A copy of the Order Granting Request for Variance is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, Solid Waste Section, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Requests for copies or inspections should be made to Mary Jean Yon, Section Administrator at the above address, telephone (850)488-0300, or e-mail to yon_mj@dep.state.fl.us.

The Department of Environmental Protection announces its entry of an Order Granting Request for Renewal of Variance, as required by Section 120.542(8), F.S.

NAME OF THE PETITIONER: Recyclights, Inc.

DATE THE PETITION WAS FILED: May 21, 1999

RULE NUMBER AND NATURE OF THE RULE FROM WHICH THE WAIVER OR VARIANCE IS SOUGHT: Rules 62-737.850(4), Florida Administrative Code (F.A.C.), which together require ash residue from existing solid waste combustors to be stored inside a building, outside in leak-resistant containers, or in a pile located inside or under a structure.

THE DATE OF THE ORDER APPROVING THE VARIANCE OR WAIVER: July 12, 1999

THE GENERAL BASIS FOR THE AGENCY DECISION: Petitioner has requested renewal of a temporary variance to the cited rules and has agreed to be bound during the variance period to an alternative ash management plan. Granting of the variance renewal is consistent with the general purpose and intent of Chapter 403, F.S., and will relieve Petitioner of an undue economic hardship.

EXPLANATION OF HOW A COPY OF THE ORDER CAN BE OBTAINED: A copy of the Order Granting Request for Variance is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, Solid Waste Section, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Requests for copies or inspections should be made to Mary Jean Yon, Section Administrator at the above address, telephone (850)488-0300, or e-mail to yon_mj@dep.state.fl.us.

Florida Administrative Weekly Volume 25, Number 30, July 30, 1999

3410  Section V - Petitions and Dispositions Regarding Rule Variance or Waiver

THE GENERAL BASIS FOR THE AGENCY DECISION: The Petitioner has demonstrated that the mercury reclamation process approved in its facility permit is technologically incapable at the present time of achieving the 99 percent mercury recovery rate for brass tips and wires. The Department has determined, based on the information provided by the Petitioner, that the actions taken by the Petitioner are expected to meet the purpose of the underlying statute, and that the Petitioner would suffer undue hardship if the variance is not granted.

EXPLANATION OF HOW A COPY OF THE ORDER CAN BE OBTAINED: A copy of the Order Granting Request for Variance is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, Solid Waste Section, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Requests for copies or inspections should be made to Mary Jean Yon, Section Administrator at the above address, telephone (850)488-0300, or e-mail to yon_mj@dep.state.fl.us.

The passage of the Intermodal Surface Transportation
Efficiency Act (ISTEA) in 1991 first underscored the need to
address the efficient movement of freight, goods and services.
ISTEA required planning for adequate and efficient intermodal
connections linking our roadway system, seaports, airports,
railroads and other freight handling facilities. These
commitments have been reaffirmed in the most recent
legislation, known as the Transportation Equity Act for the
21st Century (TEA 21).

Movement of freight, goods and services has a major impact
on the mobility and economy of the Orlando Urbanized Area,
which covers the geographical area comprised of Orange,
Osceola and Seminole Counties. The airports, railroads and
trucking facilities have long been a major cornerstone of the
area’s economic prosperity and freight shipments through these
facilities are increasing rapidly. The continued success of these
facilities depends in part upon their ability to effectively meet
the region’s future needs and their maintaining of efficient
connections to all parts of the region and surrounding areas via
the area’s roadway system.

This study is intended to provide METROPLAN ORLANDO
with a thorough understanding of the magnitude,
characteristics and special needs of the movement of freight,
goods and services in the Orlando Urbanized Area. The plan
will provide a blueprint for actions that need to be undertaken
to ensure an adequate and efficient system of movement of
freight, goods and services for the future. The study has three
primary objectives:

1. To develop a database describing the characteristics and
patterns of freight, goods and services movement in the
Orlando Urbanized Area, including the characteristics and
capacities of the major freight handling modes and facilities in
the region.

2. To identify both current problems and emerging future
needs facing the movement of freight, goods and services in the
Orlando Urbanized Area.

3. To develop a recommended set of improvements and other
actions to address those current and future needs and to
enhance the safety, efficiency and effectiveness of freight,
goods and services mobility in the Orlando Urbanized Area.

The Strategy Plan will provide information to METROPLAN
ORLANDO and implementing and regulatory agencies about
needed changes in policies, standards and design plans to
improve freight, goods and services mobility. It will provide
proposed improvements that can be incorporated into
METROPLAN ORLANDO’s Transportation Improvement
Program (TIP) to meet current critical needs in the movement
of freight, goods and services. And it will provide information
to METROPLAN ORLANDO for the next update of the Long
Range Transportation Plan to help achieve a better balance
between the needs of moving persons and the moving of
freight and goods and providing services.

The METROPLAN ORLANDO FY 1999/2000 Unified
Planning Work Program (UPWP) has identified $240,000 for
this project.

Responding consultant firms are requested to provide ten (10)
full sets of Submittal of Qualifications, which should identify
the following:

- Proposed consultant team, including sub-consultants
- Ability to devote appropriate staff time and resources to
  this project
- Proposed Project Manager
- Previous experience in conducting freight/goods studies
- Estimated time requirement to conduct the study, based
  upon the Scope of Services
- Ability to comply with METROPLAN ORLANDO’s
  adopted DBE requirement of 10% participation
- Estimate of the percentage of the Scope of Services that
  can be accomplished within the stated budget allocation

3510 Section XI - Notices Regarding Bids, Proposals and Purchasing
A Technical Review Committee (TRC), that has been established by METROPLAN ORLANDO, will review the Qualifications Submittals and, based upon the number of Qualification Submittals received and the factors listed above, will select a short-listed group of applicants. The short-listed applicants will be requested to prepare a written Technical Proposal responding to the detailed Scope of Services.

METROPLAN ORLANDO has established the following schedule for Submittal of Qualifications, Preparation of Proposals and Selection of Consultant Team. The TRC will be responsible for the evaluation and ranking of the short-listed consultant teams. The TRC’s recommendations will be submitted to the METROPLAN ORLANDO Board for final selection.

NOTICE OF HOSPICE PROGRAM FIXED NEED POOL

The Agency for Health Care Administration has projected a fixed need pool for hospice programs, defined in accordance with Sections 400.601-400.602, Florida Statutes (F.S.) and 408.031-408.045, F.S. Fixed need pool projections are for hospice programs planned for January, 2002, pursuant to the provisions of Rule 59C-1.0355, Florida Administrative Code. Letters of intent to apply for Certificates of Need pursuant to this notice must be filed with the Certificate of Need Program Office, 2727 Mahan Drive, Tallahassee, Florida 32308, on or before 5:00 p.m., August 16, 1999.

Any person who identifies any error in the fixed need pool numbers must advise the agency of the error within ten (10) days of the publication. If the agency concurs in the error, the fixed need pool number will be adjusted prior to or during the grace period for this cycle. Failure to notify the agency of the error during this ten day period waives a person’s right to raise the error at subsequent proceedings. Any other adjustments will be made in the first cycle subsequent to identification of the error including those errors identified through administrative hearings or final judicial review.

Any person whose substantial interest is affected by this action and who timely advised the agency of any error in the action has a right to request an administrative hearing pursuant to Section 120.57, F.S. In order to request a proceeding under Section 120.57, F.S., a request for an administrative hearing must state with specificity which issues of material fact or law are in dispute. All requests for hearings shall be made to the Agency for Health Care Administration and must be filed with the Agency Clerk, 2727 Mahan Drive, Fort Knox Building Three, Tallahassee, Florida 32308. All requests for hearings must be filed with the agency clerk within 30 days of this publication or the right to a hearing is waived.

NOTICE OF HOSPITAL FIXED NEED POOLS FOR
PSYCHIATRIC AND SUBSTANCE ABUSE BEDS

The Agency for Health Care Administration has projected fixed bed need pools for adult and children and adolescent psychiatric and adult substance abuse beds for January, 2005, pursuant to the provisions of Rules 59C-1.008, 59C-1.040, and 59C-1.041, FAC. Net bed need projections for adult and children and adolescent psychiatric and adult substance abuse hospital beds have been adjusted according to occupancy rate thresholds as prescribed by the above-mentioned rules. A fixed need pool projection for children and adolescent substance abuse beds is not made because the administrative rule governing this service does not include a mathematical formula for the calculation of need. An applicant seeking approval for these types of beds must establish need in its application.

Letters of intent to apply for Certificates of Need pursuant to this notice must be filed with the Certificate of Need Program Office, Building 3, Room 1217, 2727 Mahan Drive, Tallahassee, Florida 32308, on or before 5:00 p.m., August 16, 1999.

Any person who identifies any error in the fixed need pool numbers must advise the agency of the error within ten (10) days of publication of the number. If the agency concurs in the error, the fixed need pool number will be adjusted prior to or during the grace period for this cycle. Failure to notify the agency of the error during this ten day time period will result in no adjustment to the fixed need pool number for this cycle and a waiver of the person’s right to raise the error at subsequent proceedings. Any other adjustments will be made in the first cycle subsequent to identification of the error including those errors identified through administrative hearings or final judicial review.
