(1) Purpose.
Pursuant to Section 478.524, Florida Statutes, the Board provides within this rule disciplinary guidelines which shall be imposed upon applicants or licensees whom it regulates under Chapter 478, F.S. The purpose of this rule is to notify applicants and licensees of the ranges of penalties which will routinely be imposed unless the Board finds it necessary to deviate from the guidelines for the stated reasons given within this rule. The ranges of penalties provided below are based upon a single count violation of each provision listed; multiple counts of the violated provisions to a combination of the violations may result in a higher penalty than that for a single, isolated violation. Each range includes the lowest and highest penalty and all penalties falling between. The purposes of the imposition of discipline are to punish the applicants or licensees for violations and to deter them from future violations; to offer opportunities for rehabilitation, when appropriate; and to deter other applicants or licensees from violations.

(2) No change.
(3) Violations and Range of Penalties. In imposing discipline upon applicants and licensees in proceedings pursuant to Section 120.57(1) and 120.57(2), Florida Statutes, the Board shall act in accordance with the following disciplinary guidelines and shall impose a penalty within the range corresponding to the violations set forth below. The identification of offenses are descriptive only; the full language of each statutory provision cited must be consulted in order to determine the conduct included.

Federal regulations have been adopted and the proposed rules and rule amendments substantially conform to the federal requirements.

An entity that uses the alternative method of counting creditable coverage may request that the entity that issued the certificate of creditable coverage disclose additional information in order for the requesting entity to determine the individual's creditable coverage with respect to any category of benefits.

2. The requested entity may charge the requesting entity the reasonable cost of disclosing the information.

3. The requesting entity may request a copy of the summary plan description (SPD) that applied to the individual's coverage or may request more specific information.

(7) Form DI4-XXX (rev. –), Information on Categories of Benefits, which is adopted in rule 4-154.405, shall be used for specific coverage information regarding the categories of benefits.

If the accuracy of a certificate is contested or a certificate is unavailable when needed by the employee, the employee has the right to demonstrate creditable coverage and waiting periods through the presentation of documents or other means.

(2)(a) A small employer carrier shall take into account all information that it obtains or that is presented on behalf of a employee to make a determination, based on the relevant facts and circumstances, whether or not the employee has 18 months of creditable coverage.

(b) A carrier shall treat the employee as having furnished a certificate if the employee:

1. Attests to the period of creditable coverage;
2. Presents relevant corroborating evidence of some creditable coverage during the period; and

1. Providing, upon the carrier's request, written authorization for the carrier to request a certificate on behalf of the employee; and
2. Cooperating in efforts to determine the validity of the corroborating evidence and the dates of creditable coverage.

(b) A carrier may refuse to credit coverage if the employee fails to cooperate with the carrier's efforts to verify coverage; however, the carrier may not consider a employee's inability to obtain a certificate to be evidence of the absence of creditable coverage.

(4) Documents that may establish creditable coverage and waiting periods in the absence of a certificate include:

(a) Explanations of benefit (EOB) claims or other correspondence from a group health plan or carrier indicating coverage;
(b) Pay stubs showing a payroll deduction for health coverage;
(c) A health insurance identification card;

(e) Records from medical care providers indicating health coverage;
(f) Third party statements verifying periods of coverage; and
(g) Any other relevant documents that evidence periods of health coverage.

(5) Creditable coverage and waiting period information may be established through means other than documentation, such as by a telephone call from the carrier to a third party verifying creditable coverage.

(6) If, in the course of providing evidence such as a certificate of creditable coverage, a employee shall demonstrate dependent status, the carrier shall treat the employee as having furnished a certificate showing the dependent status if the employee:

(a) Attests to the dependency and the period of the status; and

(b) Cooperates with the carrier's efforts to verify the dependent status.

THE FULL TEXT OF THE PROPOSED RULE IS:

6A-6.03312 Discipline Procedures for Students with Disabilities.

For students whose behavior impedes their learning or the learning of others, strategies, including positive behavioral interventions, strategies, and supports to address that behavior must be considered in the development of the student’s individual educational plan. Procedures for providing discipline for students with disabilities must be consistent with the requirements of this rule.

(1) Definitions.

(a) Change of placement. For the purposes of removals of a student with a disability from the student’s current educational placement under this rule, a change of placement occurs when:

1. The removal is for more than 10 consecutive school days, or
2. A series of removals constitutes a pattern because the removals cumulate to more than ten (10) school days in a school year, and because of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another.

(b) Controlled substance. A controlled substance is a drug or other substance identified through the Controlled Substances Act, 21 U.S.C. 812(c), and Section 893.02, Florida Statutes.

(c) Weapon. A weapon is defined in Section 790.001(13), Florida Statutes, and includes a dangerous weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury. This term does not include a pocket knife with a blade of less than two and one-half inches in length.

(d) Individual Educational Plan (IEP) Team. An IEP team must meet the requirements specified in Rule 6A-6.03028, FAC.

(e) Manifestation Determination. A manifestation determination examines the relationship between the student’s disability and a specific behavior that may result in disciplinary action.
(f) Interim Alternative Educational Setting. An interim alternative educational setting (IAES) is a different location where educational services are provided for a specific time period due to disciplinary reasons.

(g) Expedited Due Process Hearings. Expedited due process hearings may be held at the request of either the parent or the school district regarding disciplinary actions. These hearings must meet the requirements prescribed in subsection (5) of Rule 6A-6.03311, FAC., except that the written decision must be mailed to the parties within forty-five (45) days of the school district’s receipt of the parent’s request or the filing of the district’s request for the hearing without exceptions or extensions.

(h) Short Term Removals. A short term removal is the removal of a student with a disability for a total of ten (10) school days or less in a school year that does not constitute a change in placement as defined in paragraph (1)(a) of this rule.

(i) Long Term Removals. A long term removal is the removal of a student with a disability for more than ten (10) school days in a school year which may or may not constitute a change in placement as defined in paragraph (1)(a) of this rule.

(2) Authority of School Personnel. Consistent with the district’s Code of Student Conduct and to the extent removal would be applied to students without disabilities, school personnel may order:

(a) The removal of a student with a disability from the student’s current placement for not more than ten (10) consecutive school days,

(b) Additional removals of a student with a disability of not more than ten (10) consecutive days in that same school year for separate incidents of misconduct as long as those removals do not constitute a change in placement as defined in paragraph (1)(a) of this rule.

(3) Manifestation Determination. A manifestation determination consistent with the following requirements, must be made any time disciplinary procedures result in a change of placement.

(a) The IEP team and other qualified personnel:
   1. Considers all relevant evaluation and diagnostic information including information supplied by the parents of the student, observations of the student, the student’s current IEP and placement, and any other relevant information, then
   2. Determines, in relationship to the behavior subject to disciplinary action:
      a. Whether the student’s IEP and placement were appropriate and the special education services, supplementary aids and services, and behavior intervention strategies were provided consistent with the student’s IEP and placement;
      b. Whether the student’s disability impaired the ability of the student to understand the impact and consequences of the behavior subject to disciplinary action; and
      c. Whether the student’s disability impaired the student’s ability to control the behavior subject to disciplinary action.

(b) If the IEP team and other qualified personnel determine that the student’s behavior was not related to the disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner in which they would be applied to students without disabilities. However, services consistent with subsection (5) of this rule must be provided.

(c) With the exception of placement in an interim alternative educational setting, as described in paragraph (6)(b) of this rule, if the IEP team determines the student’s behavior was related to the disability, the student cannot be placed by school personnel in another setting unless the IEP team determines that it is the most appropriate placement.

(d) If the IEP team and other qualified personnel determine that any of the requirements of subparagraph (3)(a)2. of this rule were not met, the behavior must be considered a manifestation of the student’s disability.

(e) The review described in paragraph (3)(a) of this rule may be conducted at the same IEP meeting that is required by paragraph (4)(d) of this rule.

(f) Any deficiencies in the student’s IEP or placement or in their implementation identified during the manifestation determination must be remedied immediately.

(g) If a parent disagrees with the manifestation determination decision made by the IEP team pursuant to this rule, the parent may request an expedited due process hearing as described in subsection (7) of this rule.

(4) Long Term Removals. For all such removals:

(a) The school district must notify the parent of the removal decision and provide the parent with a copy of the notice of procedural safeguards as required in Rule 6A-6.03311, FAC., on the same day as the date of the removal decision;

(b) An IEP meeting must be held within ten (10) school days of the removal decision in order to perform a manifestation determination review as described in subsection (3) of this rule;

(c) Services consistent with subsection (5) of this rule must be provided;

(d) Either before or not later than ten (10) business days after either first removing the student for more than ten (10) school days in a school year or beginning with a removal that constitutes a change in placement:
   1. If the school district did not conduct a functional behavioral assessment (FBA) and implement a behavior intervention plan (BIP) before the behavior that resulted in the removal, the IEP team must meet to develop an assessment plan,
   2. If the student has a BIP, the IEP team shall meet to review the plan and its implementation and modify the plan and its implementation as necessary to address the behavior.
(e) As soon as practicable after developing the assessment plan and completing the FBA, as prescribed in paragraph (4)(d) of this rule, the IEP team must meet to develop appropriate behavioral interventions to address the behavior and shall implement those interventions.

(f) If subsequently, a student with a disability who has a BIP and who has been removed from the student's current placement for more than ten (10) school days in a school year is subjected to a removal that does not constitute a change in placement as described in paragraph (1)(a) of this rule:

1. The IEP team members shall review the BIP and its implementation to determine if modifications are necessary.

2. If one or more of the IEP team members believe that modifications are needed, the IEP team shall modify the plan and its implementation to the extent the IEP team determines necessary.

(5) Free Appropriate Public Education for Students with Disabilities who are Suspended or Expelled.

(a) A school district is not required to provide services to a student with a disability during short-term removals totaling ten (10) school days or less in a school year if services are not provided to students without disabilities during such removals.

(b) A school district must provide a free appropriate public education (FAPE) to a student with a disability, consistent with the requirements of this rule, beginning on the eleventh cumulative school day of removal in a school year.

(c) A school district must provide services to a student with a disability who has been removed for more than ten (10) school days in a school year to the extent necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals in the student's IEP.

1. If the removal is for not more than ten (10) consecutive school days in a school year and is not considered a change in placement, consistent with paragraph (1)(a) of this rule, school personnel, in consultation with the student's special education teacher, shall determine the extent to which services are necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the student's IEP goals.

2. If the removal is due to behavior that was determined not to be a manifestation of the student’s disability, the IEP team shall determine the extent to which services are necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the student’s IEP goals.

(6) Interim Alternative Educational Settings (IAES).

(a) The IEP team determines the IAES, unless it is determined by an administrative law judge in accordance with paragraph (7)(c) of this rule.

1. The IAES must be selected so as to enable the student to continue to progress in the general curriculum and to continue to receive services and modifications, including those described in the student’s current IEP, that will enable the student to meet IEP goals.

2. The IAES must include services and modifications to address the behavior that resulted in the change in placement and that are designed to prevent the misconduct from recurring.

(b) School personnel may place a student in an IAES for the same amount of time a student without a disability would be placed, but for not more than forty-five (45) calendar days without the consent of the parent or guardian if the student:

1. Carries a weapon to school or to a school function, or
2. Knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

(c) School personnel must notify the parent of an IAES placement decision and provide the parent with a copy of the notice of procedural safeguards, consistent with Rule 6A-6.03311, FAC., on the day the placement decision is made.

(7) Expedited Hearing.

(a) An expedited hearing may be requested:

1. By the student’s parent if the parent disagrees with a manifestation determination or with any decision regarding a change in placement under this rule.

2. By the school district if the school district demonstrates by substantial evidence that maintaining the current placement of the student is substantially likely to result in injury to the student or to others (prior to removal to an interim alternative education setting) during the pendency of a due process hearing or an appeal as prescribed in subsection (5) of Rule 6A-6.03311, FAC.

(b) School district personnel may seek subsequent expedited hearings for alternative placements if after the initial forty-five (45) day term has expired, the district maintains the student’s dangerous behavior is still likely to result in injury to the student or others.

(c) An administrative law judge may order a change in the placement of a student with a disability to an appropriate interim alternative or another educational setting for not more than forty-five (45) days if the administrative law judge, in an expedited due process hearing:

1. Determines that the school district has demonstrated by substantial evidence that maintaining the current placement of the student is substantially likely to result in injury to the student or others;

2. Considers the appropriateness of the student’s current placement;
3. Considers whether the school district has made reasonable efforts to minimize the risk of harm in the student's current placement, including the use of supplementary aids and services; and

4. Determines that the interim alternative educational setting (IAES) that is proposed by school personnel who have consulted with the student's special education teacher meets the requirements of subsection (6) of this rule.

(d) In reviewing a decision with respect to the manifestation determination, the administrative law judge shall determine whether the school district has demonstrated that the student's behavior was not a manifestation of the student's disability consistent with the requirements of subsection (3) of this rule.

(e) In reviewing a decision to place a student in an IAES, the administrative law judge shall apply the requirements of subsection (6) of this rule.

(8) Student's Placement During Proceedings.

(a) If a request for a hearing is made to challenge placement in the IAES, the manifestation determination or disciplinary action resulting from the student's involvement with a weapon, illegal drug, controlled substance, or dangerous behavior, the student must remain in the IAES pending the decision of the administrative law judge or until the expiration of the forty-five (45) day time period, whichever occurs first, unless the parent and the school district agree otherwise.

(b) If a student is placed in an IAES pursuant to paragraphs (6)(b) and (7)(c) of this rule, and school personnel propose to change the student's placement after expiration of the forty-five (45) day time period, during the pendency of any proceeding to challenge the proposed change in placement, the student must remain in the placement prior to the IAES except as provided in paragraph (7)(b) of this rule.

(c) Except as specified in paragraph (8)(b) of this rule, if the request for a hearing is to challenge the manifestation determination, the student's placement shall be consistent with the requirements of Section 230.23(4)(m)5., Florida Statutes.

(9) Protections for Students not Yet Eligible for Special Education and Related Services. A regular education student who is the subject of disciplinary actions may assert any of the protections afforded a student with a disability if the school district had knowledge of his or her disability before the misbehavior occurred for which the disciplinary action is being taken.

(a) Basis of knowledge. A school district is determined to have knowledge that a student may have a disability if:

1. The parent has expressed concerns in writing (or orally, if unable to write) to school district personnel that the student needs special education and related services;

2. The behavior or performance of the student demonstrates the need for special education;

3. The parent has requested an evaluation to determine a need for possible special education services; or

4. The teacher of the student or other school district personnel have expressed concern about the student's behavior or performance to the special education director or to other appropriate school district personnel in accordance with the district's child find or special education referral system.

(b) Exception. A school district would not be deemed to have knowledge if, as a result of receiving the information specified in subsection (9) of this rule, the school district:

1. Conducted an evaluation and determined that the student was not a student with a disability; or

2. Determined that an evaluation was not necessary; and

3. Provided notice to the student's parents of the determination that the student was not a student with a disability as required by Rule 6A-6.03311, FAC.

(c) Conditions that Apply if No Basis of Knowledge.

1. If there is no basis of knowledge that the student is a student with a disability prior to disciplinary action, the student may be disciplined in the same manner as a student without a disability.

2. If an evaluation request is made for the student during the time period of the disciplinary action, the evaluation shall be conducted in an expedited manner. Until the evaluation is completed, the student remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. After considering the evaluation results and information provided by the parents, if the student is determined to be a student with a disability, the school district shall provide special education and related services consistent with the requirements of subsection (5) of this rule.

(10) Student Records in Disciplinary Procedures. School districts shall ensure that the special education and disciplinary records of students with disabilities are transmitted, consistent with the provisions of Section 228.093, Florida Statutes, and Rule 6A-1.0955, FAC.

(a) For consideration by the person making the final determination regarding the disciplinary action, and

(b) For consideration by the appropriate authorities to whom school districts report crimes.

RULE TITLE: Tuition, Fee Schedule and Percentage of Cost
RULE NO.: 6C-7.001

PURPOSE AND EFFECT: Establish authority for universities to charge other than the standard out-of-state tuition for students whose residence is in a state which borders the university’s service area.

SUMMARY: Authorizes universities to use a plan approved by the Board of Regents to charge other than the standard out-of-state tuition for students residing in a state which borders the university’s service area.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: A statement of estimated regulatory cost was not developed.

NAME OF PERSON ORIGINATING PROPOSED RULE: Judy G. Hample, Executive Vice Chancellor, State University System

NAME OF SUPERVISOR OR PERSON WHO APPROVED THE PROPOSED RULE: Adam W. Herbert, Chancellor, State University System

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: June 14, 2000

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: May 26, 2000

THE FULL TEXT OF THE PROPOSED RULE IS:

6C-7.001 Tuition, Fee Schedule and Percentage of Cost.
(1) through (3) No change.
(4) The following tuition shall be levied and collected effective the fall semester indicated for each student regularly enrolled, unless provided otherwise in this chapter.
(a) through (d) No change.
(e) Pursuant to CS/CS/HB 1567, 2000 Legislature, a university may use a plan, approved by the Board, for a differential out-of-state tuition fee for students who are residents of another state that borders the university’s service area.

6C-7.003 Special Fees, Fines and Penalties.

The Board must authorize all fees assessed. Accordingly, the specific fees listed in this section, and the tuition defined in Rule 6C-7.001, are the only fees that may be charged without the specific approval of the Board, except as authorized in Rule 6C-8.002. For purposes of clarification, the term “at cost” or “cost” as used in this rule includes those increased costs that are directly related to the delivery of the goods or services.
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: The selective changes to the fees assessed by the Board will result in an updated annual income to cover the more costly services provided by the Board, which is supported solely by fees, not General Revenue. These changes will reflect only workload costs, not Base Fees; therefore they would not apply to accredited exempt or religious colleges, and would be based upon the expense involved in specific licensure or other activities. Fees for site visits, for example, would be changed to include actual travel expenses as well as an administrative fee.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

6E-1.0032 Fair Consumer Practices.

(1) All nonpublic colleges, centers of out-of-state institutions, and branch locations shall separately demonstrate compliance with fair consumer practices. “Fair consumer practices” refers to the honest, accurate and equitable conduct of business and academic relations between colleges and their students or potential students. Information regarding fair consumer practices may be provided in the college’s usual publications, such as catalogs and brochures. If ongoing complaints show a pattern of misinformation, lack of disclosure, or discrepancies between printed, electronic, written and verbal information being given to prospective students, the board may require that colleges prepare additional documents, to be individually signed and dated by students, to address the problem. Significant deviations from fair consumer practices shall be grounds for denial or revocation or probation of licensure or certificate of exemption pursuant to Sections 246.095(5) and Section 246.111, Florida Statutes, and Rule 6E-2.0061, FAC.

(2) Colleges shall specifically conform to fair consumer practices in the following areas:
(a) through (b) No change.

(c) Student financial assistance: Accurate information about the availability of financial assistance shall be provided to enrolled and prospective students. Each college or center shall use a clearly and unambiguously worded statement, to be signed and dated by each student applying for and receiving a student loan, to the effect that the student understands that he or she is obligated to repay the loan, and when repayments will begin. This statement shall be accurately translated in writing into the individual student's language if the student is not fluent in English and shall also be verbally explained and emphasized to each student.

(d) Placement assistance: The extent of placement services shall be specifically described. For occupational and professional programs, the college or center shall provide students with accurate and unexaggerated information relating to market and job availability, and information regarding the relationship of programs of study to the state licensure standards for practicing specific occupations and professions in Florida.

(e) No change.

(f) Refund policy:

1. The college or center shall have an equitable prorated refund policy for all students. This policy shall be prominently displayed in the catalog and uniformly administered. Any nonrefundable fees or charges shall be clearly disclosed. The policy shall provide a formula for proration of refunds based upon the length of time the student remains enrolled. The college shall not consider that all or substantially all tuition for an entire program or term is earned when a student has been enrolled for only a minimal percentage of the program or term. The refund policy shall provide for cancellation of any obligation within three working days, pursuant to s. 246.041(1)(n)3.e., Florida Statutes. Refunds shall be made within thirty days of the date that the college determines that the student has withdrawn. The college shall disclose in its catalog, in conjunction with the refund policy, the office to which a notice of withdrawal shall be delivered.

2. Refund policies which pertain to students who are receiving Title IV Federal Student Financial Assistance or veterans’ benefits shall be in compliance with applicable federal regulations.

3. A fair and equitable refund policy, for students participating in Title IV Federal Student Financial Assistance Programs, shall contain the following provisions for students who are not first time students at the institution. A first time student is a student who has not previously attended at least one class at the institution or received a refund of 100% of tuition and fees (less any permitted administrative fee) under the institution’s refund policy for attendance at the institution. A student remains a first-time student until the student either withdraws, drops out, or is expelled from the institution after attending at least one class, or completes the period of enrollment for which he or she has been charged. Refund policies which pertain to first time students who are receiving Title IV Federal Student Financial Assistance shall be in compliance with federal regulations. Institutions which adopt refund policies which are more favorable to the student shall be regarded as being in compliance with these provisions. Tuition and fees shall be refunded in full, less an administrative fee not to exceed 5 percent of the term’s tuition, if notice of withdrawal from the college or center is received prior to the end of the drop/add period and is submitted in compliance with the college’s published withdrawal policy. Written documentation is received from the student. Tuition and fees shall also be refunded in full, for the current term under the following circumstances:

   (i) For institutions that charge on a credit hour basis, credit hours dropped during the drop/add period;

   (ii) Courses cancelled by the college or center;

   (iii) Involuntary call to active military duty;

   (iv) Documented death of the student or member of his or her immediate family (parent, spouse, child, sibling);

   (v) Illness of the student of such severity or duration, as approved by the college and confirmed in writing by a physician, that completion of the period of enrollment for which the student has been charged is precluded;

   (vi) Exceptional circumstances, with approval of the president of the college or center (or designee).

A refund of at least 25 percent of the total tuition and fees paid shall be made if the student totally withdraws from the college or center and the student’s last date of attendance is prior to the expiration of 25 percent of the period of enrollment for which the student was charged.

4. The college shall identify in its catalog the criteria for refunds when a student drops a course due to circumstances determined by the college to be exceptional and beyond the control of the student, which may include but not be limited to serious illness, death, involuntary call to active military duty, or other emergency circumstances or extraordinary situations.

5. Institutions which adopt refund policies which are more favorable to the student shall be regarded as being in compliance with these provisions.

Permission to operate will not be required or granted if the presence in Florida is solely used for banking, mail forwarding, or similar functions, and students or prospective students will not be contacted or recruited from the Florida location. Permission is contingent upon the college's demonstrating to the board that the following standards are met:

(a) The college is legally authorized to operate by the state or other agency of jurisdiction where the instruction takes place;

(b) The college has been evaluated and approved by an agency, either governmental or accrediting, which is determined by the Board to have standards at least comparable to the Board’s licensure standards;

(d) A current audited financial statement prepared by independent certified public accountants, reflecting the financial condition of the entire college and, when necessary, translated into U.S. dollars;

(e) Information required by Rule 6E-2.004(9), FAC., for the college's physical location in Florida; and

(f) Copies of all publications, including a current catalog describing the academic programs offered at other locations, and all advertisements to be distributed in Florida.

(5) Permission for operation in Florida may be granted for periods of up to one (1) year, and shall specifically list all permitted locations and activities. The Board shall require periodic written reports of the Florida operation during the period of permission, when it is determined that such reports will assist the Board in monitoring the authorized activities.

(6) No additional activities shall be implemented by the permitted Florida operation without prior written approval by the Board.

(7) A new application and fee shall be submitted by the institution prior to the expiration of an existing Permission to operate, and prior to initiating any new or additional activities in Florida.

(9) Violation of any requirement of Section 246.093, Florida Statutes or Rule 6E-1.0035, FAC., shall be sufficient grounds for action to revoke, place on probation, or deny the permission to operate in Florida, pursuant to the provisions of Sections 120.57 and 246.111, Florida Statutes, and Rule 6E-2.0061, FAC.

14-66.007 Project Determination of Adequate Relocation Assistance Program.

Pursuant to Sections 339.09 and 421.55, Florida Statutes, the Department may expend transportation tax revenues on federal and non-federal-aid projects which shall include relocation assistance and moving costs to persons displaced by transportation facilities or other related projects. Prior to proceeding with right-of-way negotiations on a project which will necessitate the relocation of any person, the Department will make a determination that:

(1) The purpose of this rule is to promulgate regulations governing the provision of relocation services, moving costs, replacement housing costs, and other related expenses and to ensure that each person displaced as a direct result of transportation projects is treated fairly, consistently, and equitably, so that such person will not suffer disproportionate injury as a result of projects designed for the benefit of the public as a whole, and to ensure that the Department implements these regulations in a manner that is efficient and cost effective. This rule shall apply to all persons displaced by any applicable transportation project on which negotiations for right-of-way acquisition begin after the effective date of this rule. The provisions of 49 C.F.R. Part 24, Uniform Relocation Assistance and Real Property Acquisition Regulations (effective March 15, 1999), as modified herein, are incorporated into this rule by reference. The Department shall require, as a condition of financial participation, that the requirements of this rule be met by the administering Agency on transportation projects or project phases:

(a) that are federalized;

Florida Administrative Weekly  Volume 26, Number 25, June 23, 2000
2928  Section II - Proposed Rules
(b) for which there is any anticipation or intent to federalize. Anticipation includes discussion by local or state officials regarding the intended or potential use of federal funds in any phase of the project;

(c) that are on the State Highway System; or

(d) are intended to be on the State Highway System.

(2) This rule does not apply to projects on or intended to be on the State Highway System which are funded by Department long term loan programs to governmental entities which have independent statutory authority to provide transportation projects on the State Highway System.

(3) Definitions. The following definitions, as well as those stated in 49 C.F.R. Part 24, Subpart A, shall apply as used in the context of this rule:

(a) “Agency” shall mean any state, county, district, authority or municipal office, department (including the Florida Department of Transportation), division, board, bureau, commission, or other separate unit of government created or established by law and any other public or private entity, person, partnership, corporation, or business entity acting on behalf of any Agency.

If the sign cannot be moved without violating local, state, or federal codes, payment will be limited to the sign’s depreciated reproduction cost minus proceeds from its sale or salvage value.

2. Tangible Personal Property remuneration is limited to the lesser of the fair market value of the item for continued use at the displacement site, less the proceeds from its sale, or the estimated cost of moving the item; there shall be no allowance for storage. (The Agency may determine the effort to sell an item is not necessary and when payment for property loss is claimed for goods held for sale, the fair market value shall be based on the cost of the goods to the business, not the potential selling price.)

(e) “Displaced Person” shall mean any person who moves from the real property or moves his or her personal property from the real property as defined in 49 C.F.R. Part 24.2 and is used interchangeably with “displacee” and “relocatee.”

(4) Advisory Services. The Agency will provide relocation advisory services in accordance with 49 C.F.R. Part 24.205.
(5) Written Notices. The following written notices will be furnished to each displaced person to provide information regarding the benefits and services available to him or her:

(a) A General Information notice shall be furnished to each displaced person as required in 49 C.F.R. Part 24, Subpart C.

(b) A 90-Day Notice will be furnished to each displaced person as delineated in 49 C.F.R. Part 24, Subpart C.

(c) A Notice of Eligibility shall be furnished to all displaced persons. The Notice of Eligibility shall:

1. Be delivered at the time of initiation of negotiations for owners, and no later than 14 days from the date of initiation of negotiations for tenants; and

2. Provide an explanation of all services and payments to which the occupant is entitled and identify the address of the nearest relocation assistance office where additional information concerning relocation assistance may be obtained.

(d) A Statement of Eligibility shall be furnished to each residential displaced person and shall include:

1. The amount of the maximum payment for which the displaced person is eligible;

2. An identification of the comparable replacement dwelling upon which such amount is based. The comparable replacement dwelling upon which the payment eligibility is based must be available to the displaced person at the time the Statement of Eligibility is delivered; and

3. A statement of the occupancy requirement necessary for obtaining the full amount of the payment.

(6) Relocation Planning. If a transportation project necessitates the relocation of any person, prior to proceeding with right-of-way negotiations, the Agency shall determine the following:

(a) Within a reasonable period of time prior to displacement, adequate replacement dwellings shall be available or provided for each displaced person and such determination shall be accompanied by an analysis of all relocation issues involved and a specific plan to resolve such issues; and

(b) The relocation program adequately provides realistic and adequate to provide orderly, timely, and efficient relocation of displaced persons, including, when appropriate, Housing of Last Resort as required in 49 C.F.R., Part 24, and these regulations.

(7) Moving and Related Expenses. Any person, family, business, farm operation, or non-profit organization which qualifies as a displaced person is entitled to payment of his or her actual moving and related expenses, as the Agency determines to be reasonable and necessary, as outlined in 49 C.F.R. Part 24, subject to the following provisions:

(a) In a residential or non-residential self-move, if the Agency questions the reasonableness of a moving expense, the Agency shall obtain an estimate of customary charges for the appropriate moving activity from a reputable moving firm. If the charges submitted by the commercial moving firm are substantially less than the charges submitted by the displaced person, for the same activity, the Agency shall reimburse the lesser amount.

(b) Prior to moving personal property for a residential move, performed by a commercial mover, or any non-residential move, when the move is expected to exceed $10,000, at least two estimates of move costs shall be obtained by the Department or the displaced person(s). The amount of the payment is limited to the lower of the two estimates. When a move is expected to cost less than $10,000, a single move estimate prepared by a commercial mover or a qualified Department employee shall be sufficient.

(c) In the event the Agency requires a move to be monitored, eligibility for payment shall be contingent on a written agreement between the Agency and the displaced person(s) as to:

1. The date and time the move is to begin;

2. The items that are listed as part of the realty in the appraisal report and which are not eligible for moving expense reimbursement; and

3. The displaced person’s list of items to be moved.

(d) The displaced person shall provide the Agency with, or allow the Agency to take, pre-move and post-move inventories. If the pre-move and post-move inventories differ, the Agency will reimburse only costs associated with the actual personal property moved.

(e) After the displaced person receives actual direct loss payment for the items, upon request by the Agency, the displaced person shall transfer to the Agency ownership of personal property that has not been moved, sold, or traded. In the event the Agency acquires personal property as part of the real estate transaction, such personal property shall not be eligible for Relocation Assistance benefits.

(f) If no effort to sell personal property is made by the displaced person(s) and the personal property is abandoned, the displaced person is entitled to neither payment for moving said personal property nor payment for direct loss upon its abandonment.

(g) A business, non-profit organization, or farm operation must provide the Agency with notice of the approximate date of the start of the move at least seven days in advance.

(h) In a non-residential move, the displaced person(s) shall not give permission to a mover to begin the move before receiving authorization from the Agency.

(i) For moves requiring special handling, complete move specifications shall be written by the displaced person(s) or the Agency, or the Agency’s designee.

(j) A business may be eligible to choose a fixed payment in-lieu of payment for actual moving and related expenses, and actual reasonable reestablishment expenses, as provided by 49 C.F.R. Parts 24.303 and 24.304. The displaced business is
eligible for a fixed payment if the Agency determines that the
business meets all qualifying criteria under 49 C.F.R. Part
24.306(a) and (b).

(k) All pollutants or contaminants, as defined in Chapters
376 and 403, Florida Statutes, which are not hazardous wastes,
shall not be abandoned and shall be disposed of or moved to
the replacement site by the displaced person owner/operator in
accordance with those Chapters.

1. The Department shall pay the lesser of the cost of
disposal or the cost to move, if the displaced person(s) chooses
to dispose of the material. If the displaced person(s) is not
permitted to move the pollutant or contaminant, the
Department shall pay the actual, reasonable cost of disposal.

2. If the displaced person(s) chooses to move the material
to the replacement site, the Department shall pay the actual,
reasonable, and necessary costs associated with the move.

3. If the applicable law prohibits the displaced person from
obtaining the necessary permit to move the hazardous material
to the replacement site, the Department shall pay for the cost
disposal and transportation to the disposal site. The displaced
person shall be responsible for the disposal of such material.

4. If disposal of hazardous material is a part of the normal
operation of the displaced business, the Department shall not
pay for the cost of such disposal. If, however, the operation
maintains a schedule for the pick-up or transportation of
hazardous material to a disposal site and is required to move
the material at an unscheduled time, the Department shall pay
the actual, reasonable, and necessary extra costs associated
with the move.

(l) All underground or above-ground storage tanks shall be
emptied and removed from the site by the displaced
owner/operator in accordance with Chapter 376, Florida
Statutes, and rules of the Department of Environmental
Protection, effective ________, governing underground or
above-ground storage tanks.

1. If the displaced person(s) chooses to dispose of the tank
contents, the Department shall pay the lesser of the cost of
disposal or the cost to move.

2. If the displaced person(s) chooses to move the tank
contents to the replacement site, the Department shall pay the
actual, reasonable, and necessary costs associated with the
move.

3. In cases where the owner/operator is required by
Chapter 376, Florida Statutes, and/or rules of the Department
of Environmental Protection, effective ________, governing
underground or above-ground storage tanks, to remove tanks,
the Department will not reimburse the costs associated with
such removal.

(m) While transporting any hazardous material or
substance to a replacement site or disposal site the Department
shall not be considered the owner or shipper of any hazardous
material or substance. In no case shall the Department contract
with licensed shippers for the disposal of or moving of
hazardous materials nor shall the Department be noted or
identified on any manifest relating to the disposal of or moving of
hazardous material.

(n) Any individual or business which generates solid waste
shall make a hazardous waste determination pursuant to the
Resource Conservation and Recovery Act (RCRA), and the
Florida Resource and Management Act. All hazardous waste,
as defined in 40 C.F.R. Parts 261.2 and 262.11, must be
disposed of in accordance with Chapter 403, Florida Statutes,
and Title 40 C.F.R. Part 262, at the sole cost of the individual
or business before the subject site is vacated.

(8) Replacement Housing Payments. Individuals and
families displaced from a dwelling acquired for a
transportation project are eligible for replacement housing
payments in accordance with the payments delineated in 49
C.F.R. Part 24, Subpart E.

(a) A displaced person is eligible for the replacement
housing payment for a 180-day homeowner-occupant if he or
she meets the criteria of 49 C.F.R. Part 24, Subpart E.

(b) Typical Homesite Determination.

1. Typical Tract for Area: If the acquired dwelling is
located on a tract typical in size for residential use in the area,
the maximum purchase additive payment is the probable
selling price of a comparable replacement dwelling on another
typical tract, less the acquisition price of the acquired dwelling
and the tract on which it is situated. If an uneconomic remnant
remains after a partial taking and the owner declines to sell that
remnant to the Agency, the fair market value of the remainder
will not be added to the acquisition cost of the acquired
dwelling for the purposes of computing the replacement
housing payment.

2. Large Tract for Area: If the acquired dwelling is located
on a tract larger in size than is typical for residential use in the
area, the maximum purchase additive payment is the probable
selling price of a comparable replacement dwelling on a typical
tract, less the sum of the acquisition price of the acquired
dwelling (on the portion of land typical in size for residential
use in the area), plus any severance damages to the dwelling or
typical homesite area.

3. Higher and Better Use Tract: If the acquired dwelling is
located on a tract where the fair market value is established as a
higher and better use than residential, the maximum
replacement housing payment is the probable selling price of a
comparable replacement dwelling on a typical tract, less the
sum of the acquisition price of the acquired dwelling (on the
portion of land typical in size for residential use in the area),
plus any severance damages to the dwelling or typical homesite.

4. Joint Residential/Business Use: If the acquired dwelling
was part of a property that contained another dwelling unit or
space used for non-residential purposes, only that portion of
the acquisition payment which is actually attributable to the
displacement dwelling shall be considered its acquisition cost
when computing the price differential. To determine what constitutes the typical homesite, a tract typical for residential use in the area must be used, even if a portion of that tract is used for other than residential purposes.

5. Carve-Outs of Homesites: When determining the typical homesite portion of the acquisition price, the actual price paid for the portion of the homesite in the taking area plus the value of the residential improvements in the taking area, plus any severance damages to either the remainder of the dwelling or homesite area shall be used. If damages are assigned to the entire remainder without an allocation between the remainder of the homesite and the excess land remaining, the damages shall be prorated between these remainders to establish the acquisition price of the dwelling, including the structure and land. In areas where a typical homesite cannot be determined due to differences in tract sizes within a residential area, the area actually utilized for residential purposes by the displaced person shall be used to compute the replacement housing payment. Consideration shall be given to locations of driveways and fences, outbuildings, gardens, and pools, and to the area maintained for residential usage. If all or part of areas occupied by non-residential structures must be included in order to create a homesite tract typical of the area, the typical homesite shall be figured using whatever portion of those areas are necessary. For replacement dwellings which are on tracts larger than typical for residential use in the area where the excess land is used for nonresidential purposes, the replacement housing payment shall be calculated using the actual cost of the replacement dwelling plus the prorated portion of the site which is typical for residential use.

6. If the site of the comparable replacement dwelling lacks a major exterior attribute of the displacement dwelling site, (e.g., the site is significantly smaller or does not contain a swimming pool), the contributory value of such attribute shall be subtracted from the acquisition cost of the displacement dwelling for purposes of computing the payment.

(c) Displaced person(s) are not required to relocate to the same occupancy status (owner or tenant) as existing prior to acquisition, and may choose payment benefits for an alternate occupancy status, if eligible:

1. At the displaced person’s request, a dwelling which changes the occupancy status of the displaced person(s) shall be provided, if such a dwelling is available and can be provided more economically.

2. The total rental assistance payment to a 180-day owner may not exceed $5,250, unless the calculated purchase additive or mortgage interest differential payment eligibility exceeds $22,500, in accordance with 49 C.F.R. Part 24, Last Resort Housing.

3. The replacement housing payment may not exceed the maximum amount that would have been paid had the displaced person(s) remained in the same occupancy status.

(d) Single Household, Multiple Occupancy: If two or more eligible occupants of the displacement dwelling move to separate replacement dwellings and the Agency determines only one household existed, payment shall be as follows:

1. If a comparable replacement dwelling is not available and the displaced persons are required to relocate separately, a replacement housing payment will be computed for each person separately, based on housing which is comparable to the quarters privately occupied by each individual plus the full value of the community rooms shared with other occupants.

2. If a comparable replacement dwelling is available, the displaced persons are entitled to a prorated share of the singular relocation payment allowable had they moved together to a single dwelling.

(e) Multiple Household, Multiple Occupancy: If two or more eligible occupants of the displacement dwelling move to separate replacement dwellings and the Agency determines that separate households had been maintained in the displacement dwelling, the replacement housing payment computation shall be based on housing which is comparable to the quarters privately occupied by each individual plus a prorated share of the value of community rooms shared with other occupants. If two or more eligible occupants of the displacement dwelling move to a single comparable replacement dwelling, they shall be entitled to only one replacement housing payment under this subsection.

(f) Partial Ownership: When a single-family dwelling is owned by several persons, but not occupied by all of the owners, the replacement housing payment for the displaced owner-occupants is the lesser of the difference between the total acquisition price of the replacement dwelling and the amount determined by the Agency as necessary to purchase a comparable replacement dwelling or the actual cost of the replacement dwelling.

1. The displaced owner-occupants may choose a rent supplement payment instead of a purchase additive. The rent supplement shall be based on the Agency’s determination of the fair market/economic rent of the displacement dwelling.

2. To receive the entire replacement housing payment, the owner-occupant must purchase and occupy a replacement dwelling for an amount equal to his or her share of the acquisition payment for the acquired dwelling plus the amount of the replacement housing payment.

(g) A 90-day tenant or owner-occupant displaced from a dwelling is entitled to a replacement housing payment as outlined in 49 C.F.R. Part 24, Subpart E.

(h) Any displaced person eligible for a rental assistance payment, except a 180-day owner occupant, may choose to use that payment as a down payment supplement, including incidental expenses, to purchase a replacement dwelling.

1. Payment shall be the amount of the down payment or percentage of the purchase price ordinarily required to obtain conventional, rather than VA or FHA, financing for the

2932  Section II - Proposed Rules
replacement dwelling in an amount that does not require private mortgage insurance ("required down payment"), not to exceed $5,250. If the actual down payment required of the displaced person(s) exceeds the amount ordinarily required for a conventional loan, the "required down payment" shall be based upon the amount ordinarily required for a conventional loan.

2. If the actual required down payment, plus incidental expenses, exceeds the amount of rental assistance calculated and is no more than $5,250, payment shall be for the amount of the actual required down payment. If the actual required down payment, plus incidental expenses, is less than the amount of the rental assistance calculated, the payment shall be for the amount of the rental assistance calculated.

3. If the required down payment on the replacement dwelling exceeds $5,250 and the rental assistance payment allowable does not exceed $5,250, the down payment supplement shall be limited to $5,250. If the rental assistance payment allowable exceeds $5,250, the full amount of the rental assistance payment shall be used as the down payment supplement under the provisions of Last Resort Housing as outlined in 49 C.F.R. Part 24.

4. If other than conventional financing (e.g., VA or FHA) is obtained by the displaced person, he or she shall be advised that, in order to claim the maximum payment benefits, a down payment equal to that required for conventional financing, up to $5,250, must be paid for the replacement dwelling.

5. The full amount of the down payment assistance payment shall be applied to the purchase price of the replacement dwelling and related incidental expenses and shall be shown on an executed closing statement or similar documentation for the replacement dwelling.

6. The payment to a 90-day owner-occupant shall not exceed the amount the owner would receive as a purchase additive if he or she met the 180-day occupancy requirement.

   (i) 90-day occupants may receive rental assistance payments as outlined in 49 C.F.R. Part 24, Subpart E.

   (j) Displaced persons who are less than 90-day occupants are entitled to a replacement housing payment as outlined in 49 C.F.R. Part 24, Subpart E. Additionally, to be eligible for a replacement housing payment, displaced persons who are less than 90-day occupants must be in occupancy at the time the Agency obtains title to the property. The displaced person can be allowed to relocate prior to the Agency taking title to the property if the Agency determines that continued occupancy would be a danger to the health, safety, and welfare of the displaced person or in situations where replacement housing is scarce as determined by the Agency and may not be available at the time the Agency obtains title to the property.

   (k) The Agency shall inform a less than 90-day occupant that it is his or her obligation to provide verification of income. No such displaced person shall be determined to be eligible for a replacement housing payment under Section 14-66.007(7)(i), unless he or she documents income through a verifiable source, such as pay stubs, signed copies of income tax returns, an employer’s statement, or a bank statement.

   (9) Mobile Homes. In addition to the requirements governing the provision of relocation payments to persons displaced from a mobile home or mobile home site as outlined in 49 C.F.R. Part 24, Subpart E, the following provisions also apply:

   (a) Under 49 C.F.R. Part 24, Subpart E, the term “acquired” refers to a mobile home that is either acquired as part of the real property and is included in the Agency’s acquisition of the fee parcel or is purchased as personal property and not included in the acquisition of the fee parcel.

   (b) If the mobile home is considered personal property, the Agency will determine whether or not the mobile home can be relocated.

   (c) If the mobile home can be relocated, the owner is eligible for reimbursement for the cost to move the mobile home.

   (d) If the Agency determines that the mobile home cannot be relocated, the mobile home is eligible for purchase and the Agency will make an offer to purchase, based on the fair market value of the mobile home. If the mobile home owner does not agree to sell the mobile home to the Agency and the displaced person is the owner-occupant of the mobile home, the price differential described in 49 C.F.R. Part 24, shall be:

   1. The lesser of:
      a. The reasonable cost of a comparable replacement dwelling;
      b. The purchase price of the decent, safe, and sanitary replacement dwelling actually purchased and occupied by the displaced person;

   2. Minus the higher of:
      a. The salvage value, or
      b. The trade-in value.

   (e) If the Agency determines that it is practical to relocate the mobile home, but the owner-occupant elects not to do so, then, for the purposes of calculating a price differential under 49 C.F.R. Part 24, the cost of a comparable replacement dwelling shall be the sum of:

   1. The fair market value of the mobile home;

   2. The cost of any necessary modifications or repairs.

   Necessary modifications or repairs shall mean those needed to make it decent, safe, and sanitary; and

   3. The estimated cost to move the mobile home to a replacement site, not to exceed a distance of 50 miles. The mobile home owner-occupant still owns the mobile home and is responsible for moving it from the acquired site. If the mobile home is abandoned, the Agency may remove it from the site.
(f) If a mobile home owner-occupant retains and re-occupies a mobile home which is not decent, safe, and sanitary, the costs necessary to bring it up to decent, safe, and sanitary standards may be claimed from the available price differential or down payment supplement. The amount claimed may not exceed the amount allowed in the replacement housing payment computation. The Agency will not disburse a payment until the mobile home meets decent, safe, and sanitary standards.

(g) If the Agency acquires or purchases a mobile home as personal property, the mobile home owner shall provide, upon request, a bill of sale and a transfer of the title for the mobile home to the Agency.

(10) Claim Filing and Documentation. Each relocation payment claim shall be accompanied by complete documentation supporting expenses incurred, such as bills, receipts, and appraisals. The Agency shall ensure that each displaced person receives reasonable assistance necessary to complete and file any required claim for payment.

(a) Displaced persons shall provide the Agency with valid copies of the closing statement for the replacement dwelling or other documentation of expenses incurred in order to receive reimbursement for incidental closing expenses. Reimbursable expenses which are incurred by the origination of a new mortgage for the replacement dwelling shall be based upon the lesser of the balance of the mortgage on the acquired dwelling or the balance of the new mortgage on the replacement dwelling. Eligible expenses are reimbursable regardless of the length of time a mortgage has been in effect on the acquired dwelling.

(b) In order for a displaced person to receive reimbursement for a rent supplement, the displaced person shall provide the Agency with evidence of rent and utility costs at the relocation dwelling, rent and utility costs at the replacement dwelling, and gross monthly household income.

(c) In order to receive reimbursement for a down payment supplement the displaced person(s) shall provide the Agency with a copy of the purchase contract and a copy of the closing statement for the replacement dwelling.

(d) The eligible displaced person(s) shall certify that the replacement dwelling is the domicile of the displaced person(s) and the length of time he or she has occupied the replacement dwelling. The displaced person(s) shall also certify the date that the replacement dwelling was occupied and shall state to the best of his or her knowledge, the replacement dwelling meets decent, safe, and sanitary requirements.

(e) Payments shall be made after the move is completed unless a hardship exists.

(f) When advance payments due to hardship are made, displaced persons shall demonstrate the need therefor by providing evidence of low funds, and shall certify in writing that the payment satisfies any further claim for reimbursement of items for which that claim is intended, and that the displaced person will comply with applicable provisions in the move of their personal property.

(g) Displaced persons shall provide written authorization in the application if a replacement housing payment is to be made to other parties on their behalf. If an eligible displaced person wishes the payment for moving costs to be made directly to a vendor, such request must be made in writing.

(h) If a condemnation suit has been filed, prior to receiving a replacement housing payment, the displaced person(s) must agree to a condemnation clause in the written claim for payment. The condemnation clause requires:

1. Upon final determination of the condemnation proceedings, the replacement housing payment shall be recomputed using the acquisition price established by the court or by stipulated settlement and the lesser of the actual price of the decent, safe, and sanitary replacement dwelling or the cost of a comparable replacement dwelling.

2. If the amount awarded exceeds the actual price of a decent, safe, and sanitary replacement dwelling or comparable replacement dwelling, the displaced person(s) shall refund to the Agency an amount equal to the amount of the excess. The refund will not exceed the full amount of the initial replacement housing payment calculation.

(i) In the event the Department determines that the acquisition of a portion of property will require a displacement, the Department will offer to relocate the affected person.

(11) Appeal Rights. Any aggrieved person may file a written appeal with the Agency in any case in which the person believes that the Agency has failed to properly consider the person’s claim for assistance under this rule. Such assistance may include those provisions outlined in 49 C.F.R. Part 24, and include the person’s eligibility for, or the amount of, a payment required under moving and related expenses, or replacement housing payments. The written appeal shall be filed no later than 60 days after the person receives written notification from the Agency of the claim determination. A person may have legal or other representation in connection with his or her appeal, but solely at his or her expense. The Agency shall consider a written appeal regardless of form. If full relief requested is not granted, a notice of denial shall be issued, providing notice of appeal rights in accordance with Sections 120.569 and 120.57, Florida Statutes, and Rule Chapter 28-106, F.A.C. The aggrieved person may file a request for administrative hearing.

(a) If a request for administrative hearing is not timely filed, the notice of denial shall be conclusive and final Agency action. Requests for administrative hearing must be filed within 21 calendar days of receipt of the notice of the Department’s or Agency’s denial. A request for administrative hearing is filed when it is received by the Clerk of Agency Proceedings.
(b) All requests for administrative hearings shall conform to the requirements of Rule Chapter 28-106, F.A.C., and be in accordance with Chapter 120, Florida Statutes. Requests may be for a formal hearing in accordance with Section 120.57(1), Florida Statutes, or an informal hearing pursuant to Section 120.57(2), Florida Statutes. Requests for an administrative hearing shall be made in writing and filed with the Clerk of Agency Proceedings, Florida Department of Transportation, 605 Suwannee Street, Mail Station 58, Tallahassee, Florida 32399-0458. Requests for an administrative hearing for all other Agencies shall be made in writing and filed with the Clerk of Agency Proceedings for the Agency issuing the denial.

(i) “Emergency Assessment” means the assessment levied by the Department at the direction of the Board on all property and casualty business in this state, pursuant to and subject to the exceptions in Section 215.555(6)(a)3., Florida Statutes, and as more fully described in subsection (5) of this rule.

(j) “Participating Insurer” means an insurer which writes Covered Policies in this state and which has entered into a reimbursement contract with the Board, pursuant to Section 215.555(4)(a), Florida Statutes.

(k) “Covered Policies” means an insurance policy covering residential property, as defined in Section 215.555(2)(c), Florida Statutes, and in Article V of the reimbursement contract adopted and incorporated by reference in Rule 19-8.010.

(l) “Contract Year” means the Contract Year for the Fund which begins June 1 of each calendar year and ends May 31 of the following calendar year.

(m) The “Balance of the Fund as of December 31” of any Contract Year or “the Balance” means the net current market value of the assets in the Florida Hurricane Catastrophe Trust Fund maintained and administered by the Board, exclusive of projected amounts budgeted for administration for the then current state fiscal year and the amount of mitigation funds required to be expended each fiscal year pursuant to Section 215.555(7)(c), Florida Statutes, exclusive of any funds paid to Participating Insurers to extinguish the Board’s reimbursement obligations for a Covered Event occurring and paid before December 31, exclusive of any funds paid as an advance pursuant to Section 215.555(4)(e), Florida Statutes, inclusive of any interest earned on advances paid pursuant to Section 215.555(4)(e), Florida Statutes, as reported on the Fund’s financial statements as of December 31, and exclusive of obligations expected to be paid with receipts from Emergency Assessments. If the Fund has exhausted all its cash and interest earnings thereon before December 31, the balance of the fund will be zero.

(3) Interpretations of Section 215.555, Florida Statutes, regarding the issuance of revenue bonds. For purposes of this subsection of this rule, all references to statutory subdivisions are to Section 215.555, Florida Statutes.

(a) Limited Liability of the Fund.

(1) The Board interprets the first sentence in subparagraph 1 of paragraph (c) of subsection (4), which reads: “The contract shall also provide that the obligation of the board with respect to all contracts covering a particular contract year shall not exceed the actual claims-paying capacity of the fund up to a limit of $11 billion for that contract year, unless the board determines that there is sufficient estimated claims-paying capacity to provide $11 billion of capacity for the current contract year and an additional $11 billion of capacity for subsequent contract years balance of the fund as of December 31 of that year, together with the maximum amount that the board is able to raise through the issuance of revenue bonds under subsection (6).” and the introductory language in subparagraph 2. of paragraph (d) of subsection (4), which reads: “In determining reimbursements pursuant to this subsection, the contract shall provide that the board determines that the projected year end balance of the fund, together with the amount that the board determines that it is possible to raise through revenue bonds issued under subsection (6) and through other borrowing and financing arrangements under paragraph (7)(b), are insufficient to pay reimbursement to all insurers at the level promised in the contract, the board shall...[pro-rate];” and the proration provision in subsubparagraph c. of subparagraph 2. of paragraph (d) of subsection (4); which reads: “Thereafter, establish, based on reimbursable losses, the prorated reimbursement level at the highest level for which any remaining fund balance or bond proceeds are sufficient,” to mean that, for Covered Events which occur in any one Contract Year, the Fund’s liability under the reimbursement contracts entered into, pursuant to paragraph (a) of subsection (4), with Participating Insurers writing Covered Policies, is limited to the Balance of the Fund as of December 31 of the Contract Year in which the Covered Events have occurred plus the amount the Board has raised or is able to raise through the issuance of revenue bonds pursuant to the provisions of subsection (6).

(2) The Board notes the requirement in paragraph (c) of subsection (4) to publish estimates of the Fund’s anticipated borrowing capacity in May and October of each year and states that, although the Board will in good faith attempt to sell revenue bonds up to the amounts estimated, the Fund’s liability is nevertheless limited to the Balance of the Fund as of December 31 and the amount which the Board is able to raise through the issuance of revenue bonds, not the amount which the Board estimates it is able to raise through such issuance. Therefore, the Board’s obligations to Participating Insurers for Covered Events in any one Contract Year are limited to the Balance of the Fund as of December 31 plus the amount the
Board is able to raise through the issuance of revenue bonds, making good faith efforts to sell revenue bonds in the calendar years following the calendar year in which the Covered Events have occurred.

(3) For example, assume the following: a Covered Event occurs in August of Contract Year A, which Contract Year A begins June 1 of the calendar year, causing $12 billion of residential property damage and resulting in the Fund’s being contractually obligated to pay those of its Participating Insurers which had incurred reimbursable losses from that Covered Event; the Fund estimates in October of Contract Year A that its estimated borrowing capacity is $5.5 billion; the Balance of the Fund as of December 31 of Contract Year A is $2 billion; and assume finally that the Board is able to raise $4.5 billion from the proceeds of revenue bonds, while maintaining the on-going viability of the Fund to pay reimbursement losses for Covered Events in more than one Contract Year, as set out in subsection (4) of this rule. Under the circumstances just described, the Board’s obligations under its reimbursement contracts for the Covered Event which occurred in Contract Year A are limited to $6.5 billion, which is the sum of the $2 billion balance and the $4.5 billion in revenue bond proceeds.

(b) Obligations of the Fund.

(1) Based on the interpretation of limited liability set out immediately above, the Board interprets the term “obligations,” as used in paragraph (a) of subsection (2), which reads: “‘Actuarial indicated’ means, with respect to premiums paid by insurers for reimbursement provided by the fund, an amount determined according to principles of actuarial science to be adequate, but not excessive, in the aggregate, to pay current and future obligations and expenses of the fund, including additional amounts if needed to pay debt service on revenue bonds issued under this section and to provide required debt service coverage in excess of the amounts required to pay actual debt service on revenue bonds issued under subsection (6), and determined according to principles of actuarial science to reflect each insurer’s relative exposure to hurricane losses;” in the second sentence of subsection (3), which reads: “Moneys in the fund may not be expended, loaned, or appropriated except to pay obligations of the fund arising out of reimbursement contracts entered into under subsection (4), payment of debt service on revenue bonds issued under subsection (6), costs of the mitigation program under subsection (7), costs of procuring reinsurance, and costs of administration of the fund;” in the first sentence of subparagraph 1 of paragraph (c) of subsection (4), which reads: “The contract shall also provide that the obligation of the board with respect to all contracts covering a particular contract year shall not exceed the actual claims-paying capacity of the fund up to a limit of $11 billion for that contract year, unless the board determines that there is sufficient estimated claims-paying capacity to provide $11 billion of capacity for

the current contract year and an additional $11 billion of capacity for subsequent contract years balance of the fund as of December 31 of that year, together with the maximum amount that the board is able to raise through the issuance of revenue bonds under subsection (6);” and subsection (m) of subsection (2), which reads: “‘Actual claims-paying capacity’ means the sum of the year-end balance of the fund as of December 31 of a contract year, plus any reinsurance purchased by the fund, plus the amount the board is able to raise through the issuance of revenue bonds under subsection (6);” and the first sentence in subparagraph 3. of paragraph (a) of subsection (6), which reads: “If the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds, the board shall direct the Department of Insurance to levy an emergency assessment on each insurer writing property and casualty business in this state,” and elsewhere throughout Section 215.555, to mean its obligations for each Contract Year under each reimbursement contract entered into annually with Participating Insurers.

(2) This means that the Balance of the Fund as of December 31 of each Contract Year is available to pay losses reimbursable under the reimbursement contract for that Contract Year and, if no losses are reimbursed or if only part of the Balance is to be used to pay reimbursable losses, that the Balance of the Fund will be carried forward for use in subsequent Contract Years. However, if the Balance of the Fund as of December 31 is to be exhausted to pay reimbursable losses for Covered Events, whether or not revenue bonds are issued to pay for those reimbursable losses, then reimbursement premiums received in the following Contract Years will not be used to pay for reimbursable losses in prior Contract Years but instead will be used to pay debt service on any pre-event funding obligations prior to the receipt of any Emergency Assessments, to replenish the Fund, and to pay for reimbursable losses for those subsequent Contract Years. Thus, reimbursement premiums collected in Contract Years following the Contract Year in which the Covered Event(s) occurred are expected to be used to provide debt service coverage, as defined in paragraph (i) of subsection (2) and will be used, if needed, as set forth in Section 215.555(6)(a)1. and (6)(c), Florida Statutes, to pay debt service, as defined in paragraph (h) of subsection (2). Funds available for debt service shall be allocated as follows: as between tax-exempt and taxable bonds, parity will always be respected; subject to the preceding clause, and to the extent Emergency Assessments are available, such Emergency Assessments will be allocated and paid first to fund the debt service on any tax-exempt bonds outstanding and then to fund the debt service on any taxable bonds outstanding.

(c) Moneys in the Fund Are Insufficient.

Section II - Proposed Rules 2937
1. The Board interprets the word “insufficient” in the first sentence of subparagraph 1. of paragraph (a) of subsection (6), which reads: “Upon the occurrence of a hurricane and a determination that the moneys in the fund are or will be insufficient to pay reimbursement at the levels promised in the reimbursement contract, the board may take the necessary steps under paragraph (b) or paragraph (c) for the issuance of revenue bonds for the benefit of the fund;” and in the first sentence of subparagraph 3. of subparagraph (a) of subsection (6), which reads: “If the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds, the board shall direct the Department of Insurance to levy an emergency assessment on each insurer writing property and casualty business in this state,” to mean that the Balance of the Fund as of December 31 is likely to be exhausted. For purposes of this rule, the Balance of the Fund “is likely to be exhausted” if the Board reasonably determines, based on the data and information available at the time of the determination, that loss reimbursements to Participating Insurers will exceed 95% of the Balance of the Fund as of December 31 of the Contract Year. The Board shall base its determination of the likelihood of exceeding 95% of the Balance of the Fund as of December 31 on the meteorological severity of the Covered Event; the geographical area impacted by the Covered Event; estimates of losses from the insurance industry, from individual insurers, from federal, state, and local emergency response entities, from loss reports submitted to the Board by Participating Insurers, from reviews of loss reports by the Fund’s Administrator, and from information provided by modeling companies the Fund’s modeling company; from claims development patterns derived from known historical events; from an analysis of market shares of Participating Insurers in the impacted area; and from any other credible sources of loss information.

2. The Board interprets the use of the word “insufficient” in the first sentence of subparagraph 3. of paragraph (a) of subsection (6), which reads: “If the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds, the board shall direct the Department of Insurance to levy an emergency assessment on each insurer writing property and casualty business in this state,” in conjunction with the fifth sentence of subparagraph 1. of paragraph (a) of subsection (6), which reads: “If reimbursement premiums received under subsection (5) or earnings on such premiums are used to pay debt service on revenue bonds, such premiums and earnings shall be used only after the use of the monies derived from assessments under subparagraph 3,” to mean that, if a Covered Event occurs which exhausts the Balance of the Fund as of December 31 of the Contract Year in which the event occurs and if Emergency Assessments are levied to provide revenues to pay debt service on revenue bonds issued to pay reimbursable losses related to such Covered Event, then reimbursement premiums collected in Contract Years following the Contract Year in which the Event occurred will be used initially to provide debt service coverage and are expected to be used to pay debt service only if the amounts raised through Emergency Assessments are not sufficient to make the required debt service payments on the revenue bonds issued for the Covered Event. If reimbursement premiums are used for debt service in the event of a temporary shortfall in the collection of emergency assessments, then the amount of the premiums so used shall be reimbursed to the Fund when sufficient emergency assessments are received.

(4) Determinations Regarding Bond Issuance.

(a) General Factors for Use in Determining Whether to Issue Bonds. Based on the requirements of Section 215.555, on all rules adopted pursuant thereto, and on the foregoing interpretations, the Board determines that the Legislature intended the Fund to be a sustainable, permanent, and continuing trust fund established within the meaning of Article III, s. 19 of the Florida Constitution which is available to pay reimbursable losses for Covered Events in more than one year. The Board further determines that the Legislature deliberately and purposefully limited the Fund’s liability as to Covered Events in any one Contract Year in order to provide for an on-going Fund. The Board determines that in its fiduciary capacity regarding the Fund, it is prudent to adopt the interpretations set out in this rule and to conform all its other policies, rules, and methods of operation to those fiduciary responsibilities and interpretations.

(b) Quality of Bonds to be Issued. The Board finds that in order to fulfill its fiduciary responsibilities to maintain and enhance the on-going viability and credibility of the Fund and to operate in the most cost-efficient manner, all revenue bonds issued to pay reimbursable losses shall be investment grade bonds, except to the extent that revenue bonds other than investment grade are needed to pay a small amount of legitimate but unexpected reimbursable losses. Upon the occurrence of such an exception, any revenue bonds issued will be issued only after a determination by the Board that such bonds are fiscally responsible, in light of the Board’s fiduciary responsibilities under the reimbursement contracts entered into with Participating Insurers pursuant to Section 215.555(4), Florida Statutes.

(c) Specific Procedures Regarding Issuance of Bonds on a Pre-Event Basis. Pursuant to subparagraph 1. of paragraph (a) of subsection (6), the Board is authorized to enter into contracts for the issuance of revenue bonds in the absence of a Covered Event “upon a determination that such action would maximize the ability of the fund to meet future obligations.” In making a determination to authorize the issuance of revenue bonds on a pre-event basis (“in the absence of a hurricane”), the Board shall consider the following factors: the current
balance of the Fund; projected amounts of future reimbursement premiums; projected amounts of earnings on collected reimbursement premiums; the projected frequency and magnitude of future Covered Events; current and projected interest rates on revenue bonds; current and projected market conditions for the sale of revenue bonds; projected credit ratings for the Fund and for revenue bonds issued on behalf of the Fund; current and projected availability of bond insurance or other credit enhancement for revenue bonds; the costs of issuance of revenue bonds; the debt service requirements of the revenue bonds; the estimated value, both monetary and non-monetary, of the issuance of pre-event bonds in terms of benchmark pricing, secondary market trading, investor education, being a first-time issuer post-event, education of Fund staff, confidence of insurers and reinsurers in the Fund’s ability to issue revenue bonds post-event, market education, and document preparation; and any other factors relevant to the determination at the time such determination is made.

(d) Specific Procedures for Issuance of Revenue Bonds on a Post-Covered Event Basis. The Board will take the following steps upon the occurrence of a Covered Event for which the Balance of the Fund is likely to be exhausted to pay reimbursable losses.

1. Upon the occurrence of a Covered Event, the Board will determine, pursuant to Section 215.555 and all rules adopted thereunder, including Rules 19-8.001 and 19-8.011, the projected reimbursable losses of Participating Insurers. The Board will then determine, based on the current balance of the Fund and the then projected Balance of the Fund on December 31, whether or not the Fund has or will have sufficient funds on hand to reimburse Participating Insurers for their reimbursable losses. If the Board determines that the funds on hand are or will be insufficient, then the Board will estimate the total reimbursable losses payable by the Fund. The Board will then determine the shortfall which shall be covered by the issuance of revenue bonds or through incurrence of other indebtedness, as appropriate. The maximum amount of the shortfall the Board is authorized to reimburse is the amount most recently determined by the Board, pursuant to paragraph (c) of subsection (4), to be the Fund’s anticipated borrowing capacity, which is prudent to maintain the on-going viability of the Fund.

2. Based on the amount of the shortfall determined in accordance with subparagraph 1., above, the Board will determine the percentage of direct premium written for Assessable Lines (see subsection (5), below), if any, which may be necessary to service the outstanding revenue bonds. The assessment percentage will be determined as follows:

a. The Board will review the incurred losses and projected losses from the Covered Event, taking into account the Covered Event’s size, intensity, forward speed, area of impact, and any other factors applicable to that specific Covered Event.

b. The Board will review all available information, both from the Department and from the National Association of Insurance Commissioners, regarding direct premiums written for Assessable Lines in Florida, reportable pursuant to Section 624.424, Florida Statutes.

c. The Board will review and assess existing market conditions regarding the issuance and sale of bonds or the incurrence of other indebtedness to determine the revenues which will be required to pay debt service on any debt issued or other indebtedness incurred.

d. Based on the specific information described above and on any other information applicable and pertinent to the specific Covered Event and the then-current market conditions, the Board will determine the assessment percentage necessary to pay debt service.

3. After the assessment percentage has been determined, the Trustees of the Board will consider formal approval of the assessment percentage at a regularly-scheduled meeting of the Trustees. After approval of the assessment percentage, the Trustees will, at the same regularly-scheduled meeting, consider formal approval of a resolution directing the Department to levy the assessment on all Assessable Insurers for all Assessable Lines.

4. Immediately subsequent to the meeting at which the Trustees have approved the assessment percentage and directed the Department to levy the assessment, the Executive Director of the Board will provide written instructions to the Department of all pertinent details regarding the Emergency Assessment, including the name and address of the Master Trustee or Custodian designated to receive the Emergency Assessment payments.

(5) Procedures regarding Levying Emergency Assessments Pursuant to Section 215.555(6)(a)3., Florida Statutes.

(a) If the Board directs the Department to levy Emergency Assessments, then the Department shall issue Orders to each Assessable Insurer levying an Emergency Assessment for the lines of business set out in paragraph (e), below.

(b) Pursuant to the Order issued by the Department levying the Emergency Assessment, each Assessable Insurer shall pay directly to the entity identified in the Order, by July 1 of each year, an amount equal to the required percentage of its direct written premium for the prior calendar year from all property and casualty business in this state except for workers’ compensation and accident and health. The required percentage will be no more than 4 percent for any one contract year and no more than 6 percent in the aggregate and will be determined in accordance with Section 215.555(6)(a)3., Florida Statutes, and the procedures set out in subsection (4) of this rule. The lines of business which will be subject to assessment are set out in paragraph (f), below.
(c) Pursuant to Section 215.555(6)(a)3.,(6)(b)3., and (6)(c)6., Florida Statutes, the annual Emergency Assessments shall continue until the revenue bonds issued with respect to which the assessment was imposed have been retired, unless adequate provision has been made for the full payment of such bonds pursuant to the documents authorizing the issuance of such revenue bonds.

(d) Pursuant to Section 215.555(6)(a)3., Florida Statutes, an Assessable Insurer shall not in any calendar year be subject to assessments in excess of 4 percent for any one contract year and no more than 6 percent in the aggregate, under Section 215.555(6), Florida Statutes, and this rule.

(e) Lines of Business Subject to Assessment.
1. The lines of business described in subparagraph 2., below, are the lines of business subject to the Emergency Assessment under Section 215.555(6)(a)3., Florida Statutes. For ease of reference, the lines of business are written and listed as they appear on Form 2, Exhibit of Premiums and Losses (commonly known as “page 15”), in the property and casualty annual statement of the National Association of Insurance Commissioners required to be filed with the Department pursuant to Section 624.424, Florida Statutes, and this rule.

(1) Definitions.

(a) Administrative Confinement refers to a special management status which segregates inmates from the general population usually pending other formal decisions such as disciplinary confinement, close management, protective management or transfer.

(b) Classification refers to the system of processes which divides inmates into groups for a variety of purposes including facility placement, custody assessment, work and program assessment and placement, housing assessment and placement, periodic reviews, and community, transition, and special needs assessments.

(c) Classification – External, refers to processes related to decisions regarding the custody and facility – placement of an inmate outside the secure perimeter of a facility.

(d) Classification – Internal, refers to processes related to decisions regarding housing, work, and program placement of an inmate within the secure perimeter of a facility.

(e) Area Housing Supervisor refers to the Correctional Officer Sergeant or above in charge of the confinement unit for a particular shift.

(f) Clinical Health Care Personnel refers to a Physician, Clinical Associate, Nurse, Correctional Medical Technician Certified (CMTC), Psychologist, or Psychologist Specialist.

(g) Institution Classification Team (ICT) refers to the committee consisting of the Warden or Assistant Warden, Classification Supervisor, and Chief of Security that is responsible for making work, program, housing and inmate status decisions at a facility and for making other recommendations to the State Classification Office (SCO).

(h) Investigating Official, where used herein, refers to the person in charge of the investigation of the circumstances involving an inmate’s confinement. This person must be a Shift Supervisor, Institutional Inspector, Classification Supervisor, or above. The investigating official is authorized to assign others of lesser rank to conduct the investigation.

(i) Protective Management refers to a special management status for the protection of inmates from other inmates in an environment as representative of that of the general population as is safely possible.

(j) Senior Correctional Officer refers to a Correctional Officer Lieutenant or above.

(k) Special Management refers to the separation of an inmate from the general population in a structured environment for purposes of safety, security, and order of the facility. Statuses for inmates requiring specialized housing and supervision are administrative confinement and protective management.

(l) Special Risk Inmate refers to any inmate who has demonstrated behavior that is or could be harmful to himself.

(m) State Classification Office (SCO) refers to a staff member at the Central Office level who is responsible for the review of inmate classification decisions. Duties include the approval or rejection of Institutional Classification Team recommendations.

(2) Procedures for placement in Protective Management.

(a) Protective management is not disciplinary in nature and inmates in protective management are not being punished and are not in confinement. The treatment of inmates in protective management shall be as near that of the general population as the individual inmate’s safety and security concerns permit.

(b) Inmates on death row, in close management or disciplinary confinement are not eligible for placement in protective management. However, if an inmate in one of these statuses requests protection, procedures outlined in 33-602.220 shall begin.

(c) If it is determined that the inmate needs protection, the inmate will be afforded such protection in his or her current status. Upon completion of that special status, the institutional classification team (ICT) shall make recommendations to the state classification office (SCO), who shall determine the appropriate action to resolve the inmate’s protection needs.

(d) The inmate shall be interviewed by the housing supervisor and a review shall be initiated to determine if any of the inmates in the protective management unit are a threat to the inmate being placed or if the inmate being placed is a threat to other inmates in the unit. If the inmate can not be placed for these reasons the housing supervisor shall place or maintain the inmate in administrative confinement until the issue can be expeditiously resolved. The case shall be immediately forwarded to the ICT for review. The ICT shall review the case and forward recommendations to the SCO. The SCO shall review the case and may interview the inmate and make a final decision to resolve protection.

(3) Protective Management Facilities.

(a) The number of inmates housed in protective management housing units shall not exceed the number of bunks in the cell. The only exception to this policy is during an emergency situation as declared by the warden or duty warden. The regional director and the emergency action center in central office shall be notified of the emergency. Such exceptions shall not continue for more than 24 hours without the specific authorization of the regional director. Prior to placing inmates in the same cell, a determination shall be made that none of the inmates constitute a threat to any of the others.

(b) All protective management housing units shall be equipped with toilet facilities and running water for drinking and other sanitary purposes and other furnishings as are provided to comparable housing units for general population inmates at the particular institution.
(c) Prior to placement of an individual in a protective management housing unit, it shall be thoroughly inspected to ensure that it is in proper order and the inmate housed in that cell shall then be held responsible for the condition of the cell.

(d) The protective management housing units shall be physically separate from other housing units, whenever possible given the physical design of the facility and the number of inmates housed in protective management shall not exceed the number of bunks in the protective housing unit. Whenever such location is not possible, physical barriers shall preclude the cross association of those in protective management with those in other statuses. Protective management housing units shall be built to permit verbal communication and unobstructed observation by the staff.

(4) Conditions and Privileges.

(a) Clothing – Inmates may wear shower slides or personal canvas shoes while in their housing units, but regulation shoes shall be required for work assignments. Otherwise the clothing for inmates in protective management shall be the same as that issued and exchanged to the general inmate population except when there is an indication of a security or health problem or when additional clothing is required for a work assignment. In such cases, when clothing is denied to an inmate it shall be noted on Form DC6-235, Record of Protective Management, stating the reasons for such denial. Form DC6-235 is incorporated by reference in (10) of this rule.

(b) Bedding and linen – Bedding and linen shall be issued and exchanged for protective management inmates the same as for the general inmate population.

(c) Personal Property – Inmates shall be allowed to retain personal property including stamps, a watch, a radio, a ring, authorized self-improvement and reading materials and similar health and comfort items as general population inmates unless there is an indication of a security problem, in which case removal or denial of any item shall be documented on Form DC6-235, Record of Protective Management, and a property receipt shall be issued. All property retained by inmates must fit into the storage area provided, which shall be the same size as provided for general population inmates.

(d) Comfort Items – Inmates in protective management shall be permitted personal hygiene items and other medically needed or prescribed items such as eye glasses and hearing aids, except when security requirements dictate otherwise. If comfort items are taken from inmates in protective management, the senior correctional officer on duty shall be notified and must approve or disapprove the action taken. Action taken shall be documented on the Record of Protective Management, Form DC6-235 which must be reviewed by the chief of security. Property receipts shall be given for any personal property removed. The following comfort items shall be provided as a minimum: toothbrush, toothpaste, bar of soap, towel or paper towels, toilet tissue, and feminine hygiene products for women. Comfort items shall be the same as those provided general population inmates.

(e) Personal Hygiene – Inmates in protective management shall meet the same standards in regard to personal hygiene as required of the general inmate population.

1. As a minimum each inmate in protective management shall shower at least three times per week or every day that an inmate works.

2. Male inmates shall be required to shave at least three times per week. Hair care shall be the same as that provided to and required of the general population inmates.

(f) Diet and Meals – Inmates in protective management shall be fed in the dining room unless individual circumstances adversely affecting the safety of a particular inmate preclude dining room feeding for the inmate. If particular security reasons as determined by institution staff prevent dining room feeding, the inmate's meal shall be served in the day room or the inmate's housing unit. Inmates in protective management shall receive normal institutional meals as are available to the general population, except that if any item on the normal menu might create a security problem for a particular inmate, then another item of comparable quality shall be substituted. Substitutions shall be documented on the Record of Protective Management, Form DC6-235.

(g) Canteen Items – Inmates in protective management shall be allowed to make canteen purchases the same as general population inmates. Items sold to protective management inmates shall be restricted only when reasonably necessary for institutional safety and security.

(h) Counseling Interviews – Inmates in protective management may be removed from their housing units to attend interviews when there is no security problem involved in such removal.

(i) Visiting – A visiting schedule shall be implemented to ensure a minimum of two hours a week for inmates to receive visits. A visiting time for protective management inmates shall be set aside in the visiting park either before or after visiting hours for general population inmates, during visiting hours if separate facilities for visitation are available, or on different days from the general population. Visiting shall be limited by the warden or his or her designee when it is concluded that a threat to the inmate exists by allowing visitation in the visiting area or when supervision is limited. The warden or ICT is authorized to make exceptions for visitors who have traveled a great distance. Attorney-client visits shall be in accordance with rule 33-601.711 and shall not be restricted except on evidence that the visit would be a threat to security and order. The warden or his or her designee must approve all visits in advance.

(j) Telephone – Inmates in protective management shall be allowed to make one call per week of at least 10 minutes, except at Florida State Prison. However, if telephones are
available in the dayroom, protective management inmates shall be allowed to make calls in the same manner as general population inmates.

(k) Legal Access – inmates in protective management shall have access to the law library during evening or other hours when general population inmates are not present. If security reasons prevent a visit, access shall be provided through correspondence or visits from the inmate law clerk. All steps shall be taken to ensure the inmate is not denied needed legal access while in protective management. Indigent inmates shall be provided paper and writing utensils in order to prepare legal papers. Typewriters or typing services are not considered required items and will not be permitted in protective management housing units.

(l) Correspondence – Inmates in protective management shall have the same opportunities for correspondence and authorized self-improvement correspondence courses that are available to the general inmate population.

(m) Library – Inmates in protective management shall be allowed to visit the library and check out books at least once weekly, except as provided in rule 33-602.221(7).

(n) Exercise – an exercise schedule shall be implemented to ensure a minimum opportunity of three hours per week of exercise out of doors. The ICT is authorized to restrict exercise for an individual inmate when the inmate continues to pose a serious threat to the safety, security and order of the institution by recent demonstrations of violence, by continuing threats of physical harm, written or spoken, toward staff and other inmates; by involvement in acts which seriously interfere with the staff’s daily security functions; or by actions demonstrating an extreme escape risk. Inmates shall be notified in writing of this decision and may appeal through the grievance procedure. The denial of exercise shall be for the shortest length of time to accomplish the goal of safety, security and order within the institution and shall be documented on Form DC6-235, Record of Protective Management. If the inmate requests a physical fitness program handout, the wellness specialist or the housing officer shall provide the inmate with an in-cell exercise guide and document such on the Daily Record of Segregation, Form DC6-229. Form DC6-229 is incorporated by reference in (10) of this rule. Medical restrictions may also place limitations on exercise periods. Similar recreational equipment shall be available as is available for general population inmates for the exercise period provided that such equipment does not compromise the safety or security of the institution.

(o) Religious activities – Religious activities a weekly non-denominational service shall be held for protective management inmates in the chapel. This service shall be held at the protective management housing unit if security reasons prevent chapel service. The chaplain shall arrange for religious consultations between inmates and outside volunteers, counsel with clergy and the opportunity to receive religious sacraments similar to that afforded to the general population when requested.

(p) Self-improvement programs – Self-improvement programs or leisure activities shall be available in their housing area, or in separate locations within the institution that conform with the need for security. Self-improvement programs include academic education, vocational training, correspondence courses or self-directed study activities, religious activities, television, quiet activities or letter writing.

(q) Any other activities which take place outside the inmate’s cell. Inmates may refuse opportunities for out-of-cell activities, however, such refusals shall constitute a portion of the required minimum hours of out-of-cell time. All out-of-cell activities and refusals shall be documented on Form DC6-235, Record of Protective Management.

(5) Work assignments.

(a) Within 10 days of the protective management determination, work opportunities consistent with medical grades shall be available to inmates in protective management during the day, evening or night hours. All inmates shall be provided the opportunity for work assignments regardless of medical grade except when precluded by doctor’s orders for medical reasons. Work shall be cancelled for an individual inmate or a work squad when staff concludes the work or work assignment would subject the inmate to danger or if adequate staff protection is not available. Each occurrence of work cancellation will be documented with reasons for the action and shall be reviewed by the warden or ICT the following day. Refusal of a work assignment shall result in disciplinary action pursuant to rules 33-601.301-601.314. Inmates who refuse work assignments will not be allowed other housing unit activities. Those who accept work assignments shall be subject to awards of gain time pursuant to rule 33-601.101 in the same manner as general population.

(b) Inmates in protective management who are medically able to work and who work shall be afforded an opportunity for at least an additional 20 hours of out-of-cell time per week for activities. Each protective management unit shall have a day room or common area equipped with a similar equipment, recreational and otherwise, as those for general population provided that such equipment does not compromise the safety or security of the institution.

(c) Other privileges shall be restricted on a daily case-by-case basis when such restrictions are necessary for the security, order or effective management of the institution. All such restrictions shall be documented on Form DC6-234, Report of Protective Management, and reported to the ICT. Form DC6-234 is incorporated by reference in (10) of this rule. The ICT is authorized to restrict privileges on a continuing basis after a determination that such restrictions are necessary for the security, order, or effective management of the
institution. The ICT’s decision for continuing restriction shall also be documented on Form DC6-235, Record of Protective Management.

(6) Restraint and Escort Requirements.
   (a) Protective management inmates shall be handcuffed or otherwise restrained when individual security concerns associated with that inmate require such action.
   (b) Protective management inmates shall be subject to searches in the same manner as general population inmates in accordance with rule 33-602.204.

(7) Contact by Staff.
   (a) Inmates in protective management shall receive a personal contact a minimum of:
      1. At least every hour by a correctional officer, but on an irregular schedule.
      2. Daily by the area housing supervisor.
      3. Daily by the officer-in-charge on duty for all shifts except in case of riot or other institutional emergency.
      4. Daily by the Chief of Security (when on duty at the facility) except in case of riot or other institutional emergency.
      5. Daily by a clinical health care person.
      6. Weekly by a chaplain. More frequent visits shall be made upon request of the inmate if the chaplain’s schedule permits.
      7. Weekly by the warden and assistant wardens.
      8. At least once a week by a classification officer.
      9. At least once a month by a member of the Institutional Classification Team to ensure that the inmate’s welfare is properly provided for, and to determine the time and method of release or any program changes.
   (b) Any inmate who has demonstrated behavior that is or could be harmful to himself or herself shall be designated as a special risk inmate. If the inmate demonstrates bizarre, mentally disordered, or self-destructive behavior, the medical department shall be immediately contacted to determine if special watch or suicide watch procedures shall be initiated. Suicidal inmates shall be removed to a designated area where a correctional officer or health care staff provides observation. Visual checks shall be made in accordance with medical protocols or at least every 30 minutes and shall be documented on Form DC6-650, Observation Checklist/Restraint Observation Checklist, until the inmate is no longer considered a special risk inmate. All actions taken by staff with regard to special risk inmates shall be documented on Form DC6-229, Daily Record of Segregation, and followed with an Incident Report. Form DC6-210. Forms DC4-650 and DC6-210 are incorporated by reference in (10) of this rule.

(8) Review of Protective Management.
   (a) A classification officer shall review inmates in protective management every week. The Institutional Classification Team shall also review inmates in protective management every week. The goal shall be toward returning the inmate to open population as soon as the facts of the case indicate that this can be done safely.
   (b) Any inmate assigned to protective management for more than 30 days shall be given a psychological assessment by mental health professional. Staff to determine his or her mental condition. The assessment shall include a personal interview. The psychologist or psychological specialist shall prepare a report to the ICT with the facts of the case. The ICT shall then make a decision regarding continuation of the protective needs. Any recommendations by the psychologist or psychologist specialist that the inmate be released from protective management shall be forwarded by the ICT to the SCO. All such assessments shall be documented in the mental health record. If the decision is to continue protective management and that protective status extends beyond 90 days, a new psychological assessment shall be completed each 90-day period.
   (c) If an inmate is housed for more than 30 days, the ICT shall interview the inmate and shall prepare a formal assessment and evaluation report. Such reports may be in a brief paragraph form detailing the basis for protection, what has transpired since the last report, the decision concerning continued protection and the basis for that decision.
   (d) The State Classification Office (SCO) shall review all reports prepared by the ICT concerning an inmate’s protective management and may interview the inmate before determining the final disposition of the inmate’s protective management status. However, the State Classification Office shall conduct an onsite interview with each inmate at least once every six months or as often as necessary to determine if continuation, modification, or removal from protective management status is appropriate.
   (e) If the inmate submits a request for release in writing at any time after being placed in protective management, the area housing supervisor shall provide the inmate with a Form DC6-203, Protection Waiver/Appeal Decision Form. Form DC6-203 is incorporated by reference in (10) of this rule. The inmate shall complete Form DC6-203 and return it to the area housing supervisor for submission to the ICT along with the inmate’s written request. The ICT shall review the inmate’s request and place the inmate on the docket. (c) A Record of Protective Management, Form DC6-235 shall be maintained for each inmate as long as the inmate is in protective management. Once the inmate is released from protective management, Form DC6-235 will be forwarded to classification to be filed in the institutional inmate record. This form shall be used to record any action, remarks or disposition made on a specific inmate. Notations shall be made on Form DC6-235 by medical staff, the ICT, the SCO or other staff dealing directly with the inmate. If items are denied or removed from the inmate, the senior correctional officer on duty must approve the action. The items denied or removed will be documented on the Form DC6-235 and the chief of security will make the final decision in regard to the appropriateness of that action no later than the next working day following this action. 57-3.001 Scope.
These rules apply to all persons, companies and organizations conducting or performing space launch, pre-launch or satellite processing, and solid rocket motor or space related explosives storage, transportation and use activities commercially within the State of Florida.

Specific Authority 331.350(3) FS. Law Implemented 331.350(3) FS. History–New

57-3.002 Definitions.
As used in Chapters 57-3 through 57-7:

(1) "All fire level" means the minimum direct current or radio frequency energy that causes initiation of an electroexplosive initiator with a reliability of 0.999 at a confidence level of 95 percent as determined by a Bruceton
test. Recommended operating level is all fire current, as determined by test, at ambient temperature plus 150 percent of the minimum all-fire current.

(2) "Arm/Disarm device" means an electrically or mechanically actuated switch that can make or break one or more electroexplosive firing circuits; operate in a manner similar to Safe and Arm devices except that they do not physically interrupt the explosive train.

(3) "Arming plug" means a removable device that provides electrical continuity when inserted in a firing circuit.

(4) "Authority" as defined in § 331.302, F.S., means the Spaceport Florida Authority created by the Spaceport Florida Authority Act, § 331.301, 331.360, F.S.

(5) "Barricade" means an intervening barrier, natural or artificial, of such type, size and construction as to limit in a prescribed manner, the effect of an explosion on nearby buildings or exposures.

(6) "Board" or "Board of Supervisors" as defined in § 331.302, F.S., means the governing body of the Authority.

(7) "Bruceton test method" means a statistical method for determining the all-fire and no-fire characteristics of an electroexplosive device using a small sample size, both with high reliability.

(9) "Deflagration" means a rapid chemical reaction in which the output of heat is enough to enable the reaction to proceed and be accelerated without input of heat from another source. Deflagration is a surface phenomenon with the reaction products flowing away from the unreacted material along the surface at subsonic velocity. The effect of a true deflagration under confinement is an explosion. Confinement of the reaction increases pressure, rate of reaction and temperature, and may cause transition into a detonation.

(10) "Detonating cord" means a flexible fabric tube containing a filler of high explosive material intended to be initiated by an electroexplosive device, often used in destruct and separation functions.

(11) "Detonation" means a violent chemical reaction within a chemical compound or mechanical mixture evolving heat and pressure. A detonation is a reaction which proceeds through the reacted material toward the unreacted material at a supersonic velocity. The result of the chemical reaction is exertion of extremely high pressure (above 10,000 PSI) on the surrounding medium forming a propagating shock wave that originally is of supersonic velocity. A detonation, when the material is located on or near the surface of the ground, is characterized normally by a crater.

(12) "Detonator" means an explosive device (usually an electroexplosive device) that is the first device in an explosive train and is designed to transform an input (usually electrical) into an explosive reaction.

(13) “DOD” means United States Department of Defense.

(14) “DOT License” means a license issued by the Secretary of Transportation pursuant to the CSLA.

(15) "EBW" means a high voltage exploding bridgewire initiator; an initiator in which the bridgewire is designed to be exploded (disintegrated) by a high energy electrical discharge that causes the explosive charge to be initiated.

(16) "EED" means a low voltage electroexplosive device.

(17) "ETX" means an explosive transfer assembly; explosive train; an arrangement of explosive or combustible elements used to perform or transfer energy to an end function.

(18) "ETS" means an explosive transfer system.

(19) "Explosion" means a chemical reaction of any chemical compound or mechanical mixture that, when initiated, undergoes a very rapid combustion or decomposition releasing large volumes of highly heated gases that exert pressure on the surrounding medium. Also, a mechanical reaction in which failure of the container causes the sudden release of pressure from within a pressure vessel, for example, pressure rupture of a steam boiler. Depending on the rate of energy release, an explosion can be categorized as a deflagration, a detonation, or pressure rupture.

(20) "Explosion proof apparatus" means an enclosure that will withstand an internal explosion of gases or vapors and prevent those gases or vapors from igniting the flammable atmosphere surrounding the enclosure, and whose external temperature will not ignite the surrounding flammable atmosphere.

(21) “Explosives” means all ammunition, munition, fillers, demolition material, solid rocket motors, liquid propellants, cartridges, pyrotechnics, mines, bombs, grenades, warheads of all types, explosive elements of ejection and aircrew egress systems, air-launched missiles and those explosive components of missile systems and space systems and assembled kits and devices containing explosive material. Explosives, explosives weight, net weight, and other like terms also refers to the fillers of an explosive item. Fillers may be explosive mixtures, propellants, pyrotechnics, military chemicals, and other toxic substances. The term does not include liquid fuels and oxidizers that are not used with missiles, rockets, and other such weapons or explosive items.

(22) "Explosive" means any chemical compound or mechanical mixture that, when subjected to heat, impact, friction, detonation, or other suitable initiation, undergoes a very rapid chemical change with the evolution of large volumes of highly heated gases that exert pressures in the surrounding medium. The term applies to materials that either detonate or deflagrate and covers all explosives including but not limited to: high, low, dynamite, propellant, and plastic explosives.

PURPOSE AND EFFECT: The purpose of this rule amendment is to update the rule, including rule reduction, language clarification, and minor changes to conform to changes in the Florida Statutes.

SUMMARY: The proposed rule amendment includes rule reductions through deletion of language that is already in the Florida Statutes and deletion of unnecessary record keeping requirements. Rule 59A-18.003 is repealed and the contents through (2) are moved to 59A-18.004(1); (3) is deleted since the requirement has been removed from the statutes. Rule 59A-18.008 giving requirements for licensed practical nurses is repealed and the language relocated to rule 59A-18.007 on registered nurses and licensed practical nurses. Rule 59A-18.014 on homemaker, companion or sitter registration is repealed since the statutory requirement was removed.

To conform to changes in the Florida Statutes, home health aides are added as a type of independent contractor and changes are made in background screening. A variable survey cycle, based on nurse registry performance, replaces the annual licensure survey. The fine for failure to file a timely application for renewal of license is reduced from a $100 per day to $50 per day, with a maximum of $2500 instead of $5000. The amount of licensing fees is increased to cover the costs of licensing and inspection of nurse registries as permitted in the Florida Statutes. Nurse registries are given more time to get signed medical plans of treatment from physicians. The requirement that independent contractors get physical exams and tuberculin tests every two years is deleted. Language is added or changed to further clarify such areas as change of ownership procedures, partnerships, geographic service area, home health aide education and responsibilities.

The Office Bureau will evaluate the applicant's proposed structural elevation based upon available scientific and coastal engineering data and will advise the applicant of the specific elevation requirement for the site.

The Department shall authorize the construction of may grant a waiver of the elevation of foundation requirements for additions, repairs or modifications to existing nonconforming habitable major structures, that do not meet the elevation or

Section VII
Notices of Petitions and Dispositions
Regarding Declaratory Statements

DEPARTMENT OF REVENUE

NOTICE IS HEREBY GIVEN that the Florida Department of Revenue has issued a Declaratory Statement to South Florida Stadium Corporation. The Department determined that South Florida Stadium Corporation, which holds certification as a “facility for a new professional sports franchise,” has spent in excess of $62,000,000 on “qualified expenditures”. Therefore, Sections 288.1162 and 212.20(6)(f)5.a., F.S., as currently in force and effect, direct the Florida Department of Revenue to make monthly payments to South Florida Stadium Corporation
in the amount of $166,667 from “remaining proceeds,” provided Petitioner maintains its certification, until such time as the total payments made to Petitioner reaches $60,000,000.

A copy of the Declaratory Statement may be obtained by contacting: Judy Langston, Agency Clerk, Office of General Counsel, Florida Department of Revenue, P. O. Box 6668, Tallahassee, FL 32314-6668.

DEPARTMENT OF CORRECTIONS

NOTICE IS HEREBY GIVEN that the Department of Corrections has issued a response to a Petition to Initiate Rulemaking from Susanne M. Manning. The Petitioner requested that the Department of Corrections amend Chapter 33-602, Florida Administrative Code to permit inmates to receive newspaper and magazine clippings as part of routine mail.

The Department denied Inmate Manning’s Petition to Initiate Rulemaking finding that her requested amendments were unnecessary in view of the fact that Rule, 33-602.401, Routine Mail, is currently under revision to permit the enclosure of up to five pages of additional material in the form of newspaper and magazine articles or clippings.

A copy of the Order may be obtained from: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE IS HEREBY GIVEN that the Department of Corrections has issued a response to a Petition to Initiate Rulemaking from Willie Lee Harper. The Petitioner requested that the Department of Corrections amend Rule 33-602.405(4) to prohibit inmates with less than $45.00 in their accounts from being charged for the cost of copying services incurred in conjunction with the filing of legal documents and asserted that imposition of such costs denies inmates access to the courts.

The Department denied Inmate Harper’s Petition to Initiate Rulemaking finding that copying services are currently provided to indigent inmates when necessary to ensure access to courts, and that the posting of charges for copying services against the inmate’s account in the event the inmate has funds in the future does not deny the inmate access to courts.

A copy of the Order may be obtained from: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE OF HEREBY GIVEN that the Department of Corrections has issued a response to a Motion to Amend Rules relating to Inmate Discipline from Jimmie Lee Tennant. The Department denied Inmate Tennant’s Motion which sought adoption of rules consistent with State law to discipline inmates who engaged in open masturbation while observing female correctional officers.

A copy of the Order may be obtained from: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE IS HEREBY GIVEN that the Department of Corrections has issued a response to a Petition to Initiate Rulemaking from Teresa Burns. The Petitioner requested that the Department of Corrections amend Florida Administrative Code Chapter 33-102 to require the Department to post notices relating to rule development in the subject areas of visitation, telephone privileges, and mail privileges at the entrance of each correctional institution and in the visiting areas within each institution. She further requested that copies of all notices of rule development be provided by the institutions, on request, to any visitor.

The Department denied Petitioner Burn’s Petition to Initiate Rulemaking finding that amendment of the rules as requested is unnecessary, as adequate notice of rule changes is currently provided and the requested amendments would result in delays and unwarranted confusion during visiting.

A copy of the Order may be obtained from: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE IS HEREBY GIVEN that the State of Florida, Department of Corrections, received a Petition to Initiate Rulemaking on June 8, 2000 from Oscar Andrew Hanson, III. Petitioner is a prisoner seeking amendment of 33-602.201, Appendix One.

The declaratory statement provided, in summary, that unit owners other than the developer are entitled to elect a majority of the members of the board of administration and the developer is entitled to elect at least one member of the board, so long as the developer holds for sale at least 5 percent of the units operated by the Association. When both unit owners other than the developer and the developer are entitled to representation on the board of administration, a member or members elected or appointed only by the developer can be recalled only by the developer and a member or members

The petition was denied on the basis that a declaratory statement proceeding is not a contested proceeding between two parties seeking an adjudication of their respective property rights or an interpretation of what are disputed terms in condominium documents.

A copy of the final order may be obtained by writing: Agency Clerk, Department of Business and Professional Regulation, Division of Florida Land Sales, Condominiums and Mobile Homes, 1940 North Monroe Street, Tallahassee, Florida 32399-2217.
