AGENCY FOR HEALTH CARE ADMINISTRATION

The Florida Agency For Health Care Administration (the Agency), Bureau of Medicaid Program Analysis provides the following public notice regarding reimbursement for Federally Qualified Health Centers (FQHC's) and Rural Health Clinics (RHC's) participating in the Florida Medicaid Program.

PURPOSE: To comply with federal public notice requirements in Section 1902(a)(13)(A) of the Social Security Act in changing reimbursement for FQHC's/RHC's, the Agency is publishing the final rates, the methodologies underlying the establishment of such rates, and justifications for the final rates. The Agency is in the process of amending its Title XIX Federally Qualified Health Center Reimbursement Plan (The Plan) to incorporate changes to the reimbursement methodology.

FINAL RATES: Effective January 1, 2001, the final rates for Medicaid FQHC's and RHC's reimbursement will be rates resulting from the current methodology used to calculate per diem rates except for the following:

In the first phase of the new Medicaid Prospective Payment System (PPS), January 1, 2001 – September 30, 2001, Florida will pay current FQHC's/RHC's the average of their Medicaid per diem rates in effect for the state fiscal years 1999 and 2000 (calculating the payment amount on a per visit basis). Beginning October 1, 2001, each FQHC's/RHC's Medicaid per diem rate will be increased by the percentage increase in the Medicare Economic Index (MEI) for primary care services. This increase shall be made annually on October 1. A FQHC/RHC may apply for an adjustment to its current Medicaid per diem rate if the FQHC/RHC experiences a change in their scope of service(s), which on a per visit basis is greater than 3% of the current per diem rate. Newly qualified FQHC's/RHC's after fiscal year 2000 will have initial payments established either by reference to payments to other clinics in the same or adjacent areas, or in the absence of such other clinics, through cost reporting methods. After the initial year, payment shall be set using the MEI methods used for other clinics.

METHODOLOGIES: The methodology underlying the establishment of the final rates for FQHC's/RHC's will be rates resulting from the current methodology used to calculate reimbursement rates, except that it will include the following changes:

The Agency is proposing the above rates and changes in methodology, effective January 1, 2001. Providers, beneficiaries and their representatives, and other concerned State residents may provide written comment on the final rates, methodologies and justification underlying the establishment of such rates. Written comments may be submitted to: John Owens, Agency for Health Care Administration, 2727 Mahan Drive, Building 3, Mail Stop 21, Tallahassee, Florida 32308.

The Florida Agency for Health Care Administration (the Agency), Bureau of Medicaid Program Analysis provides the following public notice regarding reimbursement for nursing home facilities participating in the Florida Medicaid Program.

PURPOSE: To comply with federal public notice requirements in Section 1902(a)(13)(A) of the Social Security Act in changing reimbursement for nursing home facilities, the Agency is publishing the proposed rates, the methodologies underlying the establishment of such rates, and justifications for the final rates. The Agency is in the process of amending its Title XIX Long-Term Care Reimbursement Plan (The Plan) to incorporate changes to the reimbursement methodology.

PROPOSED RATES: Effective January 1, 2002, the proposed rates for Medicaid nursing home reimbursement will be rates resulting from the current methodology used to calculate per diem rates except for the following:

1. There will be direct care and indirect care subcomponents of the patient care component of the per diem rate. These two subcomponents together shall equal the patient care component of the per diem rate. Separate cost-based ceilings shall be calculated for each patient care subcomponent. The direct care subcomponent of the per diem rate shall be limited by the cost-based class ceiling and the indirect care subcomponent shall be limited by the lower of the cost-based class ceiling, by the target rate class ceiling or by the individual provider target. The Agency will adjust the patient care component effective January 1, 2002. The cost to adjust the direct care subcomponent shall be net of the total funds previously allocated for the case mix add-on. The agency shall make the required changes to the nursing home cost reporting forms to implement this requirement effective January 1, 2002.
2. The direct care subcomponent shall include salaries and benefits of direct care staff providing nursing services including registered nurses, licensed practical nurses, and certified nursing assistants who deliver care directly to residents in the nursing home facility. This excludes nursing administration, MDS, and care plan coordinators, staff development, and staffing coordinator.
3. All other patient care costs shall be included in the indirect care cost subcomponent of the patient care per diem rate. There shall be no costs directly or indirectly allocated to the direct care subcomponent from a home office or management company.
