5B-57.011 Biomass Plantings.

(1) Biomass Permit Requirements. It shall be unlawful to establish a biomass planting greater in size than two contiguous acres except under a biomass permit (DACS 08382) issued by the department. No biomass permit shall be issued for any planting of plants on the state noxious weed list or the federal noxious weed list. No biomass permit shall be issued unless the applicant is the owner of the property or has written permission from the property owner to utilize the land for biomass plantings. Applications for biomass permits shall be made on form DACS 08381 and submitted to the Division of Plant Industry, P. O. Box 147100, Gainesville, FL 32614-7100. Separate applications for biomass permits shall be required for each noncontiguous growing location and must include a complete description of the nonnative plant to be grown and an estimated cost of removing and destroying the subject plant including the basis for calculating or determining that estimate. The applications must be submitted with the permit fee of \$50 and proof that a bond in the form approved by the department and issued by a surety company admitted to do business in Florida or a certificate of deposit has been obtained as described in Section 581.083(4), F.S. Biomass permits are valid for a twelve-month period following the date of issue and must be renewed annually by the submission of another biomass permit application and \$50 permit fee. The application forms can be obtained from the same address or from the Division of Plant Industry website, <http://www.doacs.state.fl.us/~pi/>. In evaluating the permit application, the department shall visit the proposed growing location and determine if feasible measures can be taken to

prevent the spread of the plant into neighboring ecosystems. The permit will include the following requirements as a minimum:

(a) A system of traps or filters shall be required to prevent plants or plant parts from spreading through ditches, natural waterways or other drainage.

(b) Measures will be required to prevent spread by seed.

(c) A fallow area, wide enough to prevent plant spread into adjacent areas, shall be required. The fallow area will be on both sides of a berm surrounding the biomass planting.

(d) Any equipment used on the site must be cleaned of all plant debris before being moved from the property.

(e) Wildfire protection measures will be required to mitigate fire risk and damages to surrounding areas.

(f) A compliance agreement (DACS 08383) containing any additional requirements needed to prevent plant spread shall be signed and will be an addendum to the permit. Failure to abide by the permit stipulations or the compliance agreement is considered to be a violation of these rules.

(2) Bonds or Certificates of Deposit. Each permit holder shall maintain for each separate growing location a bond or a certificate of deposit in an amount of not less than 150 percent of the estimated cost of removing and destroying the plants as described in Section 581.083(4), F.S. The bond or certificate of deposit may not exceed \$5,000 per acre except as allowed by statute.

(3) Abandoned Biomass Plantings. It shall be unlawful for any person to abandon a biomass planting. It is the responsibility of the property owner or permit holder to completely destroy the planting prior to vacating the property or stopping commercial production. If the department determines that the permit holder is no longer maintaining or cultivating the plants subject to the special permit and has not removed and destroyed the plants authorized by the special permit or has exceeded the conditions of the biomass permit, the department shall take action to initiate the removal of the plants through the issuance of an immediate final order and execution of the bond or certificate of deposit as described in Section 581.083(4), F.S.

(4) Exemptions. A biomass permit is not required for plants produced for purposes of agriculture as defined in Section 570.02(1), F.S. or if the department in consultation with the University of Florida, Institute of Food and Agricultural Sciences has determined that the nonnative plant is not invasive and specifically exempts it in this rule. The following plants or groups of plants are exempt:

(a) Any plant that is produced for purposes of human food consumption

(b) Any plant that is commonly grown for commercial feed, feedstuff or forage for livestock

(c) Pinus spp.

(2) The Distribution Service Reliability Report will exclude the impact of all service interruptions associated with generation and transmission disturbances governed by subsections 25-6.018(2) and (3), F.A.C. A utility may exclude from the Annual Distribution Service Reliability Report the Outage Events directly caused by one or more of the following: planned interruptions, a storm named by the National Hurricane Center, a tornado recorded by the National Weather Service, ice on lines, a planned load management event, an electric generation disturbance, an electric transmission system disturbance, or an extreme weather or fire event causing activation of the county emergency operation center.

(3) The report shall contain the following information on an actual and adjusted basis: A utility may submit a request to exclude an Outage Event from the Annual Distribution Service Reliability Report that is not specifically provided for in subsection 25-6.0455(2), F.A.C. 42CCC-1.003

PURPOSE AND EFFECT: The purpose of this proposed rule is to establish a community development district ("CDD"), the Madeira Community Development District ("District"), pursuant to Chapter 190, F.S. The petition (amended during the November 15, 2005, local public hearing) filed by Ponce Associates, LLC, requests the Commission establish a community development district located within the City of St. Augustine, St. Johns County, Florida. A Notice of Receipt of Petition for the Madeira Community Development District was published in the October 28, 2005, edition of the Florida Administrative Weekly. The land area proposed to be served by

the District comprises approximately 1,006.5 acres (The original petition described the proposed District as approximately 1,010 acres in size. However, the District's legal description was amended to approximately 1,006.5 in size.). A general location map is contained as Exhibit 1 to the amended petition to establish the District. The proposed District is located generally on the east side of U.S. 1 North between Ocean Boulevard to the north and Poinciana Avenue to the south. There are no parcels located within the external boundaries of the proposed District which are to be excluded from the District. The Petitioner either owns or has written consent to establish the District from the landowners of one hundred percent (100%) of the real property located within the proposed District. The development has been approved for 749 residential units consisting of 469 single family homes, 114 condominium units, and 166 town homes. In addition, 170,000 square feet of commercial space is planned. Currently, the lands to be included in the District are zoned planned unit development (PUD). The District, if established, currently intends to finance certain master infrastructure improvements including roads, water, sewer, stormwater management, recreational facilities, landscape/entry features, and professional fees.

SUBJECT AREA TO BE ADDRESSED: Establishment of the Madeira Community Development District.

9B-43.0041 Application and Administrative Requirements.

The Florida Small Cities CDBG program is governed by the Housing and Community Development Act of 1974, as amended; Title 24 C.F.R.; Sections 290.0401-.048, F.S.; the “Guide to National Objectives and Eligible Activities for State CDBG Program” published by the US Department of Housing and Urban Development; and the Florida Small Cities CDBG Program Application Manual, all of which are incorporated herein by reference, as effective on _____.

(1) Application Process.

(a) An annual application cycle will be announced in anticipation of federal funding. The announcement will include the beginning and ending dates of the application cycle and the application deadline.

(b) Once an application is submitted to the Department, no aspect of the application may be revised to improve the score or broaden the scope of the project.

(c) If an activity is determined to be ineligible for funding pursuant to 24 C.F.R. 570.482, as effective on _____, the Department will reduce the amount requested for the ineligible activity and associated complementary activities. The application will be re-scored after this reduction.

(d) Applicants may submit either a Housing or Neighborhood Revitalization application. If both are received from a single local government, only the first application logged in by the Department will be scored. The second application will be returned.

(e) Economic Development applications received by the application deadline will be scored, ranked and, if successful, awarded until all available funds are committed; however, should initial application requests not exceed available funds, applications received after the application deadline will be reviewed and awarded on a first-come, first-served basis during the application cycle until all funds are committed.

(f) Documents to meet application requirements or additional submissions resulting from the site visit must be submitted in original or photocopy form. Facsimile or electronic submissions are not acceptable.

(2) Grant Ceilings.

(a) Grant ceilings establish limits on the amount of funds that may be requested in a single subgrant application for Commercial Revitalization, Economic Development, Housing or Neighborhood Revitalization funding based on the most recently available U.S. Census of Population data. In the case of county government applicants, the population shall include only the unincorporated areas of the county.

(b) Local governments shall comply with the LMI population and subgrant ceilings listed below to determine the maximum amount of funds for which they may apply. Population groupings are based on HUD modified census figures summarizing low and moderate income population.

<u>LMI Population</u>	<u>Grant Ceiling</u>
<u>1-499</u>	<u>\$600,000</u>
<u>500-1,249</u>	<u>\$650,000</u>
<u>1-250-3,999</u>	<u>\$700,000</u>
<u>4,000-10,549</u>	<u>\$750,000</u>
<u>10,550 and above</u>	<u>\$750,000</u>

(c) The Department shall offer a local government which scores within the fundable range an amount less than that requested in the application if insufficient funds are available to fund the total subgrant request.

(3) Application Scoring.

(a) The maximum score possible in each program category is 1,000 points. These points shall be divided among three program factors as specified below:

Community-wide needs – 250 points

Program Impact, Scope of Work, LMI Benefit – 650 points

Outstanding Performance in Equal Opportunity Employment and Fair Housing – 100 points

(b) The Department shall calculate Community-wide Need Scores for all eligible local governments based on the most recent and uniformly available federal and state data. Current decennial U.S. Census data shall be used unless otherwise noted. The maximum Community-wide Needs Score is 250 points. Data shall be further defined as:

1. For municipal government applicants, data relevant for the entire incorporated area shall be used;

2. For county government applicants, data relevant for only the unincorporated areas within the county shall be used;

3. For municipalities incorporated since the most recent census, block group or census tract data for the area that was incorporated shall be used where available; otherwise a proportion of the county’s census data shall be used to calculate the community-wide needs score.

a. Three factors shall be used to determine the community-wide needs score with the following maximum points available for each:

b. Number of persons below poverty – 125 points

c. Number of year-round housing units with 1.01 or more persons per room – 62.5 points

d. Number of low and moderate income persons according to the latest HUD adjusted census data – 62.5 points

4. Method of Calculation. Eligible local governments shall be compared on each factor with all other local governments in their LMI population group as designated herein. Calculating each local government’s score shall include the following steps:

a. The highest statistic in each population group for each factor identified herein shall be the basis for relative comparison of all other eligible local governments in the population group, as illustrated below:

Local government’s statistic on factor divided by the highest statistic on factor for all eligible local governments equals percentage to be used for local government’s multiplier

b. For each eligible local government, the percentage calculated shall then be multiplied by the maximum number of points available for that particular factor, as follows: eligible local government’s percentage x maximum points available = score for eligible local government on factor

c. The Community-Wide Needs Score factors shall be summed for each eligible local government for the overall Community-Wide Needs Score. Pursuant to Section 290.046(3)(b), F.S., each local government awarded subgrant

funds shall have its community-wide needs score reduced by 5 points for every \$100,000, or fraction thereof, of funding awarded. This adjustment shall not be made during the first application cycle in which the most recent census data is used. All adjustments for subgrant funds received shall be based on subgrants received in all application cycles after the most recent census data was first used. This calculation shall be based on all funds awarded as of the end of the month prior to the opening date of the application cycle. The adjusted community-wide needs score cannot be less than zero.

(c) In the event that two or more applications receive an equal final score, the application addressing the highest State priority goal as reflected by the goal points for application activities shall receive first consideration. If a tie still exists, then the applicant with the highest community-wide needs score shall receive first consideration. If a tie still exists, the application that will provide direct benefit to the largest number of low and moderate income persons will receive first consideration.

(4) Consistency with Local Comprehensive Plan.

(a) The application shall include affirmation that the proposed activities are not inconsistent with applicable elements of the adopted local comprehensive plan and shall document this consistency by including the applicable excerpts from the applicant's comprehensive plan in the supporting documentation section of the application.

(b) If the Department determines that an application is inconsistent with the adopted local comprehensive plan, the applicant shall be advised of that determination in the completeness review letter. If after review of the applicant's response, the Department reaffirms its determination of inconsistency, the application shall be rejected.

(5) Interlocal Agreements. An applicant may propose activities in other eligible jurisdictions within the following parameters:

(a) Application scoring criteria are based on the applicant's jurisdiction.

(b) Activities undertaken outside the applicant's jurisdiction are also undertaken within the applicant's jurisdiction, except in an Economic Development application where the infrastructure activities may be undertaken exclusively outside the jurisdiction.

(c) No more than 25% of the service area and/or beneficiaries may reside outside the applicant's jurisdiction (except for Economic Development projects).

(d) The applicant shall include with the application an executed Interlocal Agreement which:

1. Includes as parties all local governments whose jurisdictions are included in the project and/or service area(s);

2. Authorizes the applicant to undertake the activities in all jurisdictions included in the interlocal agreement; and

3. Affirms that all activities are not inconsistent with each local government's comprehensive plan and documents this requirement by including the applicable excerpts of each local government's comprehensive plan in the supporting documentation section of the application.

(6) Documenting LMI Benefit.

(a) HUD Census Data – LMI benefit may be documented by using HUD-provided Census Data where the service area geographically corresponds with block groups, census tracts, or local government geographical limits. A jurisdiction-wide activity using census data rather than a survey to establish the national objective of benefit primarily to low and moderate income persons may score VLI points by calculating a percentage of VLI benefit using census data. VLI beneficiaries are calculated by totaling, for each block group in each census tract, the numbers shown in two data areas: FAMVLOW and NFAMVLOW. This total of VLI beneficiaries is divided by the total beneficiaries to establish the VLI percentage for scoring the appropriate VLI beneficiary points.

(b) Sampling Survey Methodology – A sample-based survey of the beneficiaries must utilize the "Income Verification Form," which is hereby incorporated by reference as effective on _____, and must correspond with the random sampling requirements established by HUD in Notice CPD-05-06, as effective on _____.

1. The survey process must verify eligibility of any proposed direct benefit activities, certify the number of projected very low, low and moderate income households and beneficiaries, and the total number of beneficiaries.

2. Where the sample-based survey results substantially overstate the proportion of persons with low or moderate income in a service area, the Department will require the local government to provide supporting evidence which substantiates the survey data. If the survey results are found to be inaccurate, the application shall be rejected.

(c) Small Service Area Survey Methodology. For surveys of service areas under 50 households, all households must be surveyed. Any non-responding household must be assumed to be above low and moderate income. The number of household members for non-responding households may be verified through third parties.

(d) A survey approved by the Department for a CDBG application remains valid for the same geographic service area for up to five years from the date the survey was completed.

(e) Only the methods of LMI benefit determination provided for in this rule shall be used.

(7) Site Visits. Prior to issuing awards, the Department will conduct site visits.

(a) The Department shall notify the local government in writing of the date and approximate time the site visit will take place.

(b) The Department shall examine all documents that have been certified to in the application.

(c) Economic Development site visits will require the participating party/parties to be present, or the participating party must meet with Department staff within 30 days after the site visit at the Department of Community Affairs. Should a participating party fail to meet with Department staff, it must be withdrawn from the application by the local government or a 251-point penalty shall be assessed against the Program Impact score. During the site visit, the local government must provide documentation requested by the Department based on the application review.

(8) Completeness Review Letter (for all grant categories except economic development). Following site visit, the Department will advise the applicant of the status of the review.

(a) The Department shall request in writing required documentation determined unavailable or inadequate during site visit. Except for Economic Development applications, applicants shall have 12 calendar days from the date the request is received to provide appropriate documentation to the Department.

(b) If the Department has not received the requested documentation by the deadline date at 5:00 p.m. (E.S.T.), the applicant's funding request shall be revised accordingly and the following reduction in scores shall be applied:

1. Maps (where required) – 250 points
2. Interlocal Agreement, if applicable – 250 points

(c) Additional completeness Review Items for Neighborhood Revitalization Applications. During the completeness review period, the Department shall review applications that propose land assembly or site preparation for new housing construction for low and moderate income persons to determine whether documentation is provided to show:

1. Firm commitments for construction from the developer,
2. Documentation of ownership, or
3. An option on the land to control the sale to or use by low and moderate income persons is provided in the application. Documentation that the proposed site is properly zoned shall also be submitted.

(d) Additional Completeness Review Items for Economic Development Applications. The following completeness requirements must be met for Economic Development applicants:

1. Within 60 days of the applicant's receipt of the Award and Offer to Contract letter, the Department must receive the Subgrant Agreement executed by the local government and documentation required to address all issues identified during the site visit. The date of receipt of the Award and Offer to Contract letter shall not be included in the 60 days.

2. In the event that a participating party withdraws prior to the execution of the subgrant agreement by the Department, and the application remains within the fundable range based on the remaining participating parties, those remaining

participating parties may not increase the job creation numbers or leverage claimed for points beyond the score of the original application. Replacement of participating parties shall not be allowed without withdrawal and resubmission of the application.

(9) Eligibility. Contract performance shall be considered "on time" for open subgrants that have received an agreement period extension of less than twelve months. Performance is on schedule when expenditures and work activity plans stated in awarded subgrant agreement(s) have been met or surpassed. The certification of "on time" performance, as provided in the application, is subject to verification by Department staff. If the Department determines that the certification of "on time" performance is inaccurate and the performance is not in accordance with the expenditures and work plan accomplishments described in the subgrant agreement, then the application will not be considered further.

9B-43.0051 Grant Administration and Project Implementation.

(1) Administrative Costs.

If proposed administrative cost percentages in an application are exceeded, as set forth in Section 290.047, F.S., the dollars for administrative costs shall be reduced prior to the offering of a subgrant award in order to bring the percentages into compliance based on the total eligible subgrant costs.

(2) Lead-Based Paint. The applicant shall adopt and implement procedures to fulfill regulatory and statutory requirements relating to Lead-Based Paint pursuant to 24 C.F.R. 570.487, 24 C.F.R. 35, and Section 302 of the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. Section 1251 et seq.), as effective on _____. The applicant is required to:

- (a) Prohibit use of lead-based paint;
- (b) Notify potential beneficiaries of the hazards of lead-based paint;
- (c) Inspect properties prior to initiating rehabilitation to determine if lead-based paint is present;
- (d) Undertake appropriate protection of workers and occupants during abatement;
- (e) Ensure proper cleanup and disposal procedures are used; and
- (f) Retain records of enforcement and monitoring for at least three years.

(3) Rehabilitation Standards. Upon completion of the rehabilitation program, all housing units addressed with CDBG funds must be in compliance with the subgrantee's local

building code and the HUD Section 8, Housing Quality Standards detailed in 24 C.F.R. 882.109, as effective on _____. This requirement does not apply if the construction activity is limited to water hookups, sewer hookups, the abandonment of wells, or the abandonment of septic systems with no internal or external modifications to the housing structure.

(4) Architectural and Engineering Costs. The maximum percentage of subgrant funds allowed for architectural and engineering costs shall be based on the subgrant activities which require architectural design and engineering and shall not exceed the Rural Development (RD) Rural Utility Service (RUS) fee schedule (Form RD 1942-9) in Florida RUS Bulletin 1780-9, incorporated herein by reference, as effective on _____.

(a) If more than one design professional is needed for an activity or activities (e.g., a landscape architect in addition to an engineer for sidewalk construction in a Commercial Revitalization project), the local government shall not exceed the appropriate RD/RUS fee curve for each activity covered by each design professional negotiated separately. For projects involving both Table I and II activities, engineering costs shall be pro-rated appropriately.

(b) For each additional engineering service as defined in Rule 9B-43, F.A.C., and for preliminary engineering, the local government shall negotiate a reasonable fee for the service following procurement procedures in 24 C.F.R. 85.36, as effective on _____. Preliminary engineering costs not to exceed one-half of one percent of the estimated construction cost may be paid with CDBG funds over and above the amounts included in the RD/RUS fee schedule.

(c) If "readiness to proceed" points are part of the final application score, then CDBG subgrant funds for engineering costs shall not include preliminary engineering and shall not exceed \$10,000 for non-inspection engineering plus the percentage in the fee schedule for Table I-A, Table II-A, or a prorated amount of both tables for projects involving activities included in both tables for engineering inspection.

(5) Beneficiaries of Public Improvements.

For activities where hookups or connections are required for beneficiary access to the public improvement, low and moderate income benefit shall be determined by the number of low and moderate income persons in households connected to and able to use the water, sewer or other infrastructure.

(6) Underwriting Analysis. The provisions of 24 C.F.R. 570.482(e), as effective on _____, regarding underwriting analysis are incorporated herein by reference.

(7) Completion of Activities. The Department will acknowledge a local government's closeout by mailing an administrative closeout notification or providing a letter regarding Notice of Outstanding Closeout Issues (NOCISS).

(a) The NOCISS letter shall identify impediments to closeout which the local government must resolve before the Department's review of the closeout will proceed.

(b) A local government's response to a NOCISS letter must be received by the Department at least ten days before the application deadline in order for the local government to be eligible to apply during the next funding cycle. For a NOCISS response received at least ten days prior to application deadline, eligibility will be established if the response satisfies the deficiencies set forth in the NOCISS letter, regardless of whether or not the Department's closeout notification has been mailed.

(8) Non-performance Penalties. Subgrant application penalties and subgrant application restrictions shall be assessed based on non-performance of contractual requirements related to project accomplishments. The following penalties and restrictions will apply to subgrant agreements for which an administrative closeout was submitted prior to the upcoming application cycle deadline and will apply regardless of whether the subgrant agreement has been amended to permit the reduction in accomplishments:

(a) A penalty of five points per housing unit, up to a maximum of 50 points, for failure to address the number of housing units scored in the original Housing category application.

(b) A penalty of five points per low and moderate income household not served OR a penalty of five points for each business facade not addressed, as geographically displayed on the original application maps (as modified, if necessary, during the completeness process) in the Neighborhood Revitalization or Commercial Revitalization categories, up to a maximum of 50 points. All direct benefit proposed in the application (e.g., water hookups) must be completed to avoid this penalty. No penalty shall be assessed for failure to provide a water or sewer hookup if the hookup is not possible because the home is vacant or was damaged or destroyed after application submission and there are no other homes in the service area that were identified in the application as unmet need which qualify for a hookup.

(c) A penalty of five points per job, up to a maximum of 50 points, for failure to create or retain the total number of jobs in the original contract in the Economic Development category.

(d) A penalty of 150 points if the Department takes formal action under the terms of the contract to terminate a subgrant agreement for an event of default. This penalty will expire two years from the subgrant agreement termination date.

(e) Submission of inaccurate information may be subject to one or more of the following penalties:

1. In the case of monitoring or audit responses, it shall result in the revocation of closeout status, audit clearance, monitoring report clearance, etc.

2. In the case of any action which avoids a penalty, the penalty will be assessed.

3. In the case of an administrative closeout status, it shall result in the nullification of the eligibility of the local government to apply for and receive additional CDBG funding in accordance with Section 290.046(2)(c),(i), F.S. Such revocation of administrative closeout status will also affect subsequent Department actions made on that basis, including the cancellation of any subsequent awards and repayment by the local government of any funds previously expended under the nullified subgrant agreement.

(f) All penalties in subsection (8) will expire two years from the date of administrative closeout or subgrant termination by the Department.

(g) If the subgrant agreement is terminated with no expenditures, or is terminated with expenditures for administration and/or engineering only, no penalty will be assessed.

(h) The Department will waive these penalties if the local government is unable to meet subgrant agreement requirements due solely to a state or federally declared natural disaster or emergency.

(9) Procurement. Grant funds shall be used to obtain commodities and services only in accordance with written procurement procedures adopted by the local government and shall comply with the provisions of 24 C.F.R. 85.36, as effective on _____, and, for covered professional services contracts, Section 287.055, F.S., (Consultants Competitive Negotiation Act).

(a) Any procurement which requires public notice in a newspaper shall be published in a daily newspaper of general circulation in a nearby Office of Management and Budget (OMB) designated metropolitan statistical area (MSA). Alternatively, a local government may substitute such notice with a combination of local newspaper publication and mailed announcements to potential bidders, which generates at least three responsible and responsive bids or proposals. Such publication and/or mailing shall allow at least 12 days for receipt of the proposals or bids.

(b) The Department must provide written permission prior to the local government awarding any contract exceeding \$25,000 procured as a result of inadequate competition, a sole source or a noncompetitive procurement. For contracts below \$25,000, the local government's files must document the justification for such noncompetitive procurement which complies with 24 C.F.R. 85.36(b)(4), as effective on _____.

(c) All contracts for professional services shall conform to the following:

1. Any Request for Proposals which includes more than one service shall provide that:

a. Proposals may be submitted for one or more of the services;

b. Qualifications and proposals shall be separately stated for each service;

c. The evaluation of the proposals shall be separate for each service.

2. A written evaluation, such as a ranking sheet or narrative, shall be prepared for each proposal, ranking or comparing each proposal to the criteria in the published Request for Proposals. Based on that criteria, the written evaluation will document why the successful proposal was selected.

3. A separate professional services contract must be procured and executed between the local government and any professional services consultant for each particular CDBG subgrant and each service. Each advertisement for procurement of CDBG professional services, except for subgrant application preparation, must identify either the CDBG subgrant cycle by federal fiscal year or the CDBG subgrant agreement number.

4. Each professional services contract must reference the CDBG subgrant agreement to which it is applicable.

(d) Construction Contracts.

1. If CDBG and other sources of funding are being jointly used to fund activities under a single contract, the activities to be paid for with CDBG funds must be shown separately in the bid proposal so that the CDBG activities and the amount of the contract to be paid from CDBG funds are identifiable.

2. If, after applying any specified deductive alternates, construction bids exceed available funds, the local government shall not negotiate with the low bidder unless there is only one bidder or all bidders are allowed to submit revised bids for the revised project.

3. If the construction cost can be reduced by deleting entire line items or reducing quantities based on unit prices identified in the bid, the effect of such deletions or reductions on all bidders' prices shall be determined. Contract award shall be made to the low, responsive and responsible bidder for the revised project.

4. All contracts in excess of \$100,000 covered by Section 3 regulations shall contain the language required in 24 C.F.R. 135.38, as effective on _____.

5. The provisions of this subsection shall not be construed to conflict with or supersede the requirements of Section 287.055, F.S., or any other applicable State or federal law.

(10) Expenditures and Limitations.

(a) No payment from the Department shall be for an amount less than \$5,000, unless it is a local government's final request for funds.

(b) Local governments operating on a reimbursement of funds basis must submit at least one request for funds each quarter which reflects actual project expenditures for the quarter.

(c) Local governments may maintain no more than \$5,000 of cash-on-hand to meet daily cash needs. Amounts greater than \$5,000 shall be expended within 14 days or refunded to the Department.

(d) Escrow Accounts. Local governments may draw down CDBG funds and deposit them into an interest-bearing escrow account for housing rehabilitation. An escrow account may be established when direct grants or loans are made to owners of private property for the purpose of housing rehabilitation. Escrow accounts shall only be used pursuant to 24 C.F.R. 570.511, as effective on _____.

1. Funds may be requested only after approval of the contractor and amount of the contract by the local government. If funds are received by the local government prior to the execution of a contract that obligates those funds, those funds will be returned to the Department within seven days of their receipt.

2. The local government must track the requirements for receipt of, and disbursement of all funds for each housing unit.

3. Funds requested and escrowed for use on housing units shall not be used for any other purpose.

4. Funds requested and escrowed for a housing unit must be expended on that housing unit within 45 days from date of deposit in the escrow account or be returned to the Department.

5. Interest earned on escrow accounts shall be returned quarterly to the Department.

(11) Amendments. All proposed amendments must be approved by the Department except for quantity revisions to accomplishments which do not reduce the number of beneficiaries and deobligation of funds at closeout.

(a) Only those amendments reducing the number of intended beneficiaries, or accomplishments, from the original application shall require review by the Citizens Advisory Task Force and a public hearing with public notice.

(b) An amendment reducing the score below the fundable range will not be approved by the Department.

(c) Documentation Required. All requests for subgrant agreement amendments shall include the following written documentation for review by the Department:

1. A cover letter signed by the Chief Elected Official or his or her designee which describes the need for the proposed changes and their effect upon the approved project. If the amendment involves a score reduction, the letter must state the amended score.

2. All application forms that would be changed by the proposed amendment.

3. If applicable, a revised activity work plan.

4. If applicable, a revised budget showing the current and amended budget.

5. If there is a change in activity location, a legible map which indicates the proposed change.

6. If applicable, a copy of the minutes of the meeting of the Citizen's Advisory Task Force (CATF) when the proposed amendment was reviewed.

7. If applicable, a copy of the public notice for the public hearing at which the amendment was approved, which shall evidence compliance with subsection 9B-43.001(19), F.A.C.

8. Signature of the Chief Elected Official on Form DCA-69 or documentation from the local governing body authorizing the proposed amendment.

(d) The amendment must be received by the Department at least 45 days prior to the end of the subgrant agreement. If the amendment is extending the subgrant agreement period, it must be received by the Department at least 90 days prior to the end of the subgrant agreement.

(e) If the local government requests administrative closeout prior to the termination date of the subgrant agreement, any amendment affecting closeout and requiring Department approval must be included with the closeout.

(f) Time Extensions to Subgrant Agreements. Any proposed amendment extending the termination date of the subgrant agreement must be approved by the Department. Each time extension amendment requested by the local government must explain the delay and justify the need for the extension. If such justification is not deemed reasonable by the Department, the request will be rejected.

(12) Subgrant Closeout.

(a) At the time of submission of the closeout report, the local government must have available documentation which verifies its certification that all construction has been completed, inspected and approved by all parties prior to the subgrant agreement end date and submission of the administrative closeout.

(b) An administrative closeout may be submitted only when the local government has no more than \$5,000 in total funds on hand. All funds drawn from the Department and not expended that exceed \$5,000 must be returned to the Department prior to or with the submission of the closeout. If the local government has transferred funds from the regular CDBG administrative account or the escrow account and these funds remain under the control of the local government, the funds are not considered expended for purposes of administrative closeout.

(c) Upon completion of the activities contained in the local government's CDBG subgrant agreement, including any amendments, the local government shall submit to the Department a closeout which, at a minimum, gives the final statement of costs, certifies that the project and all non-administrative activities are completed and accepted, that all costs except those reflected on the closeout have been paid, that the final score at closeout is within the fundable range as last amended and reports demographics of the program's beneficiaries.

(d) If any change has been made since the application map or the last map amendment in Commercial Revitalization or Neighborhood Revitalization, the closeout shall also contain a revised map of the activities completed during the term of the CDBG contract.

(e) The closeout for Housing contracts shall, at a minimum, include a list of the households assisted by the contract and certify that they were within the local government's jurisdiction. Additional information required by HUD may be requested.

(f) For activities where hookups or connections are required for beneficiary access to the public improvement, low and moderate income benefit shall be determined by the number of low and moderate income persons in households connected to and able to use the water, sewer or other infrastructure at the time of administrative closeout. At a minimum, evidence at the time of closeout must show:

1. The total number of persons in all households in the service area;

2. The number of low and moderate income persons in households connected to the infrastructure; and

3. Documentation that the number of LMI persons in households connected to the infrastructure divided by the total number of beneficiaries in the service area equals at least 51 percent or higher, if required to remain within the fundable range.

(i) CDBG funded activities may not extend beyond the location of the last LMI beneficiary except where it is required for sound engineering, operation, or design reasons as certified by a licensed engineer.

(ii) For activities where hookups or connections are required as a condition for beneficiary access to a CDBG funded public improvement, CDBG funds must be used to pay for direct access costs for LMI beneficiaries.

(iii) Where non-LMI beneficiaries will have to pay a one time fee (i.e., assessment, impact fee, etc.) to connect to or access the CDBG funded public improvement, and where a periodic service fee (i.e., water bill, sewer bill, etc.) will be charged, the proposed non-LMI beneficiaries will be advised of the estimated cost of the one-time fee and all beneficiaries will be advised of the estimated amount of any periodic service fee. The application narrative and budget will outline the estimated costs to be paid by non-LMI beneficiaries. Surveyed beneficiaries shall be advised of both fees in writing with signature acknowledgement of receipt and understanding prior to application submission. If census data is used, a random sample, representing 10 percent (%) of the beneficiaries must be advised writing with signature acknowledgement of receipt and understanding prior to application submission.

(g) A local government whose closeout is not received by the Department prior to the date of the opening of the application cycle, as defined in the Notice of Funding Availability (NOFA), shall not be eligible pursuant to subsection 9B-43.003(7), F.A.C.

(h) The closeout must contain original signatures. Facsimile (FAX) submissions are not acceptable.

(i) If a local government fails to meet contractual requirements on time, the Department reserves the right to require that a local government financially (not administratively) close out a subgrant agreement in order to meet federal requirements for the timely distribution of funds set by HUD.

(j) The closeout is due within 45 days after expiration or termination of the subgrant agreement.

(13) Audit Requirements.

(a) If an audit or an attestation statement has not been received from a local government with either an open or administratively closed contract by the April 30 deadline date, a 25 point penalty will be assessed. The penalty will expire two years from the date that the audit or attestation statement was due.

(b) If audit requirements are not documented at the time of site visit because a required audit was not performed, the Department shall find that the local government has inadequate administrative capacity. If a required audit was performed but not submitted to the Department, the application will be considered, but any funded CDBG contract will contain special conditions limiting expenditure of funds until all audit issues are resolved.

(15) Non-program Income. Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: James C. Myers, Clerk of Agency Proceedings, Florida Department of Transportation, Office of the General Counsel, 605 Suwannee Street, Mail Station 58, Tallahassee, Florida 32399-0458

THE FULL TEXT OF THE PROPOSED RULE IS:

14-100.002 Prosecution of Unpaid Toll Violations.

(1) Application and Scope. The purpose of this rule is to implement Section 316.1001, Florida Statutes, and provide guidance to toll enforcement officers for the issuance of Uniform Traffic Citations (UTC).

(a) It is in the public interest, fair to users who pay posted tolls, and necessary for toll collection and bond accountability, to enforce the payment of tolls and reduce the number of toll violations which occur when prescribed tolls are not paid by users of toll facilities. Failure to pay a prescribed toll is a violation of Section 316.1001, Florida Statutes. Violators of Section 316.1001, Florida Statutes, at Department owned or operated toll facilities are subject to issuance of a UTC by the Department.

~~(b) A violation of Section 316.1001, Florida Statutes, is punishable as a noncriminal moving traffic infraction under Section 318.18, Florida Statutes.~~

~~(b)(e)~~ After exhausting all internal Department SunPass™ database records, the license plate number of ~~a the~~ motor vehicle alleged to have committed a toll violation shall be forwarded to the Florida Department of Law Enforcement or the Department of Highway Safety and Motor Vehicles to obtain the name and address of the registered owner for use in prosecution of toll violations. ~~In the case of joint ownership of the motor vehicle, the UTC shall be issued to the individual whose name appears first on the motor vehicle registration.~~

(2) Issuance of a UTC.

(a) The registered owner of a vehicle, where the vehicle was observed proceeding through a facility at which the driver failed to pay the required toll, shall be subject to issuance of a UTC for a violation of Section 316.1001, Florida Statutes. Mailing the citation to the owner's address constitutes notification. ~~The UTC shall be sent by certified U.S. mail to the address of the registered owner of the motor vehicle involved in the violation. The UTC shall be issued within 14 days of the alleged violation.~~

(b) A photographic image of a vehicle using a toll facility in violation of Section 316.1001, Florida Statutes, captured by the Violation Enforcement System (VES) camera at the toll lane, shall be grounds for issuance of a UTC to the registered owner of the motor vehicle alleged to be involved in the violation.

(c) ~~A~~ Toll Enforcement Officer Observed Violation Form, Form SP050-A-004, Rev. 11/99, from a ~~t~~Foll e~~E~~nforcement o~~fficer~~ consisting of the written account of the ~~t~~Foll e~~E~~nforcement o~~fficer's~~ observed facts and circumstances indicating that a prescribed toll was not paid shall be grounds for issuance of a UTC.

(d) Florida Turnpike Unpaid Toll Notice Receipt - Driver, SP050-A-006A, Rev. 07/05, and Florida Turnpike Unpaid Toll Notice Receipt - Department, SP050-A-006B, Rev. 07/05, signed by the driver, acknowledging and documenting inability to pay a required toll while in the toll lane or using the toll facility, where the driver fails to send the toll amount as prescribed in the receipt within 10 calendar days, shall be grounds for the issuance of a UTC to the driver.

~~(e)(d)~~ The registered owner of the motor vehicle involved in a toll ~~the~~ violation is responsible for payment of the amount provided for in Section 318.18, Florida Statutes, in addition to any amount that is imposed as a result of a plea, finding of guilt, or other disposition pleading guilty or which is otherwise imposed by the court, unless the owner establishes that, at the time of the violation, the motor vehicle was not in the his or her care, custody, or control of another person. Such fact must be established in accordance with paragraph Rule 14-100.002(4)(b), F.A.C., unless the UTC was issued based on an unpaid toll notice receipt signed by the driver, in which case the requirement of the establishment of this fact by the registered owner is inapplicable.

(3) Validation of Digital Photographic Evidence.

(a) The Department's ~~Toll Enforcement Officer(s)~~, or his or her designee, shall review captured photographic images of vehicle license plates to ensure accuracy and data integrity. The ~~Toll Enforcement Officer(s)~~, or designee, shall also verify that the toll collection system and VES were performing properly, were functional, and were in operation at the time of the alleged toll violation. The ~~Toll Enforcement Officer(s)~~, or designee, shall review the transaction data to ensure that those transactions immediately prior and subsequent to the alleged toll violation transaction were processed correctly. Such information shall be recorded on a Toll Transaction Report, Form SP050-A-005, Rev. 11/99, and shall be used in the processing of the UTC and in any judicial proceeding. The ~~final decision of validation of violation data and decision to issue the issuance of a UTC shall be made by the Toll Enforcement Officer(s). The requirements of this paragraph do not apply to the issuance of a UTC by a toll enforcement officer that is based on an unpaid toll notice receipt signed by the driver and subsequent failure by the driver to properly remit payment. In that instance, a toll enforcement officer shall have knowledge of the procedures and internal controls in place for receiving, processing, and documenting such deferred payments, and shall issue a UTC based upon verification of the failure of the driver to properly remit payment.~~

(4) Response to a UTC.

(a) The UTC shall inform the registered owner that the vehicle registered in his or her name was observed proceeding through a toll facility at which the driver failed to pay the required toll, and provide the registered owner of the options to pay ~~the a fine, as well as in the event of noncontest of the UTC, and~~ instruction on how to contest the UTC.

(b) Upon receipt of a UTC, the registered owner of the motor vehicle involved in the violation is responsible for payment of the amount provided for in Section 318.18(7) ~~or 318.14(12)~~, Florida Statutes, in addition to any amount that is imposed as a result of ~~a plea, finding of guilt, or other disposition pleading guilty or which may be otherwise imposed by the court~~, unless the owner ~~can~~ establishes that the motor vehicle was, at the time of violation, in the care, custody, or control of another person. In order to establish such facts, the registered owner of the motor vehicle is required to appear before the court and complete a sworn affidavit.

1. The Department will make the Affidavit, Form SP050-A-003, Rev. ~~07/05 04/02~~, available ~~for use in to the court. Should the court choose not to use the affidavit, Form SP050-A-003, Rev. 04/02, the court will provide an appropriate affidavit form.~~

2. Should the court accept the sworn affidavit from the owner, the UTC will be dismissed against the owner and the Department shall issue a UTC to the individual named in the affidavit as having ~~had been in~~ care, custody, or control of the vehicle.

~~(c) The requirements of paragraphs (4)(a) and (b), above do not apply where the issuance of the UTC is based on an unpaid toll notice receipt signed by the driver and subsequent failure by the driver to properly remit payment. In that instance, the UTC will inform the driver of that basis for the issuance of the UTC, and upon receipt of the UTC, the driver who signed the unpaid toll notice receipt, and subsequently failed to properly remit payment, is responsible for payment of the amount provided for in Section 318.18(7) or 318.14(12), Florida Statutes, in addition to any amount that is imposed as a result of a plea, finding of guilt, or other disposition.~~

~~(5)(6) Forms.~~ The following forms are incorporated by reference and made a part of this rule:

RULE TITLE: RULE NO.:

Mediation Procedures for Resolution of
 Disputed Personal Lines Insurance
 Claims Arising from the 2004 and 2005
 Hurricanes and Tropical Storms 69JER06-01

SPECIFIC REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE: Section 626.7015(4), F.S., authorizes the Department to adopt special rules implementing a mediation program that would be applicable in cases of an emergency within the State. This emergency rule is necessitated by the extensive property destruction throughout the State of Florida caused by Hurricanes Dennis, Katrina, Rita, and Wilma. The insured loss estimates from Hurricane Wilma alone are \$8 billion to \$12 billion. The State of Florida sustained \$468 million in insured losses from Hurricane Katrina when it struck the Miami area and one billion dollars in insured losses from Hurricane Dennis when it struck the Panhandle. Hurricane Rita grazed the Florida Keys causing \$23 million in insured losses. The hurricane damage has resulted in the displacement of thousands of people from their homes which were rendered unsuitable for use and habitation, the destruction or loss of personal property, the closing of businesses, and the loss of employment. The people of the State of Florida are still recovering from the impact of the four hurricanes and tropical storms that struck in 2004 and caused billions in dollars of damages. The Governor has found that destruction caused by the 2004 and 2005 hurricanes threaten the State with a major disaster and declared that a state of emergency exists in the State of Florida by Executive Order No. 05-219.

Insurers have currently reported over 500,000 property insurance claims as a result of the 2005 hurricanes. A significant number of these claims remain unresolved throughout the State and as a result, thousands of homes remain in a state of disrepair or are uninhabitable. The failure by insurers to timely process, settle and pay these claims delays the insured's ability to repair damaged structures or replace lost property.

Due to the substantial number of new insurance claims that have been or will be filed as a result of the extensive destruction caused by the recent hurricanes, an emergency rule is needed to immediately establish a mediation program allowing these insurance claims to be settled in a fair and timely manner and in an informal setting. A prompt settlement of these claims will allow insureds to receive insurance money and begin repairs to their homes and other personal property or to replace property that was damaged or lost as a result of the hurricanes. Insureds may also be eligible to recover money for temporary living expenses or emergency repairs.

The Department previously adopted a rule establishing a property mediation program that only applied to claims resulting from the 2004 hurricanes. Four mediation centers were set up in hurricane hit areas and more than 11,000 mediation conferences took place. The mediation program had a success rate of 92%. This new emergency rule will allow insureds' with property damage claims as a result of the 2005 hurricanes to participate in the mediation program.

REASONS FOR CONCLUDING THAT THE PROCEDURE USED IS FAIR UNDER THE CIRCUMSTANCES: The Department concludes that an emergency rule is the most fair and expeditious process to notify the public and the insurance industry of the mediation program. An emergency rule will allow the Department to immediately implement a mediation program allowing for a prompt resolution of disputed claims as a result of the extensive damage caused by the recent hurricanes. The Department will initiate regular rulemaking on this same subject matter shortly. The filing of notice of proposed rule development and notice of proposed rulemaking in the near future will adequately protect the rights of substantially affected persons.

SUMMARY OF THE RULE: The rule requires insurers to notify residential policyholders of their right to request mediation of their disputed claims. The rule creates procedures for a notice of the right to mediation, requesting mediation, assignment of mediators, payment for mediation, scheduling mediation conferences, and the conduct of the mediation conference.

THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS: Tom Terfinko, Assistant Director, Division of Consumer Services, Department of Financial Services, 200 East Gaines Street, Tallahassee, Florida 32399-0320, (850)413-5802

THE FULL TEXT OF THE EMERGENCY RULE IS:

69JER06-01 Mediation Procedures for Resolution of Disputed Personal Lines Insurance Claims Arising from the 2004 and 2005 Hurricanes and Tropical Storms.

(1) Purpose and Scope. This rule implements Section 627.7015, F.S., by setting forth a mediation procedure prompted by the critical need for effective, fair, and timely handling of personal lines insurance claims arising out of damages to residential property caused by the hurricanes and tropical storms during the 2004 and 2005 hurricane seasons (June 1 to November 30 of each year). The procedure established by this rule is available to those first party claimants who have personal lines claims resulting from damage to residential property occurring in the State of Florida. This rule does not apply to commercial insurance, private passenger motor vehicle insurance, or to liability coverage contained in property insurance policies.

(2) Definitions. The following definitions apply to the terms of this rule as used herein.

(a) "Administrator" means the Department or its designee.

(b) "Claim" means any matter on which there is a dispute or for which the insurer has denied payment. Unless the parties agree to mediate a claim involving a lesser amount, a "claim" involves the insured requesting \$500 or more to settle the dispute, or the difference between the positions of the parties is \$500 or more, in either case, notwithstanding any applicable deductible. "Claim" does not include a dispute with respect to which the insurer has reported allegations of fraud, based on an investigation by the insurer's special investigative unit, to the Department's Division of Insurance Fraud.

(c) "Department" means the Department of Financial Services or its designee. Reporting to the Department shall be directed to: Department of Financial Services, Mediation Section, Bureau of Education, Advocacy, and Research, Tallahassee, Florida 32399-4212; or by facsimile to (850)488-6372.

(d) "Mediator" means an individual selected by the Department to mediate disputes pursuant to this rule. The mediators will be selected from a panel of circuit court – civil certified mediators approved by the Florida Supreme Court pursuant to the Florida Rules of Certified and Court-Appointed Mediators or from the list of approved mediators pursuant to Rule 69B-166.031, F.A.C.

(e) "Party" or "Parties" means the insured and his or her insurer, including Citizens Property Insurance Corporation, when applicable.

(3) Notification of Right to Mediate.

(a) The insurer shall mail a notice of the right to mediate disputed claims to the insured within 5 days of the time the insured or the Department notifies an insurer of a dispute regarding the insured's claim. If the insurer has not been notified of a disputed claim prior to the time an insurer notifies the insured that a claim has been denied in whole or in part, the insurer shall mail a notice of the right to mediate disputed claims to the insured in the same mailing as a notice of denial. An insurer is not required to send a notice of the right to mediate disputed claims if a claim is denied because the amount of the claim is less than the insured's deductible.

(b) The mailing that contains the notice of the right to mediate may include the Department's consumer brochure on mediation but no other materials, forms, or documents may be included. Notification shall be in writing and shall be legible, conspicuous, and printed in at least 12-point type. The first paragraph of the notice shall contain the following statement: "Tom Gallagher, Chief Financial Officer for the State of Florida, has adopted an emergency rule to facilitate the fair and timely handling of residential property insurance claims arising out of the hurricanes that have recently devastated so many homes in Florida. The emergency rule gives you the right to attend a mediation conference with your insurer in order to settle any dispute you have with your insurer about your claim. An independent mediator, who has no connection with your insurer, will be in charge of the mediation conference. You can start the mediation process 21 days after the date of this notice by calling the Department of Financial Services at 1(800)227-8676 (1(800)22-STORM)."

(c) The notice shall also:

1. Include detailed instructions on how the insured is to request mediation, including name, address, and phone and fax numbers for requesting mediation through the Department;

2. State that the parties have 21 days from the date of the notice within which to settle the claim before the insured may request mediation;

3. Include the insurer's address and phone number for requesting additional information; and

4. State that the Department or the Administrator will select the mediator.

(4) Request for Mediation.

(a) By the Insured. After 21 days from the date of the notice of the right to mediation, an insured may request mediation by contacting the insurer or by calling the Department at 1(800)22-STORM (1(800)227-8676); by faxing a request to the Department at (850)488-6372; or by writing to the Department of Financial Services, Mediation Section, Bureau of Education, Advocacy, and Research, Tallahassee, Florida 32399-4212. If an insured requests mediation prior to receipt of the notice of the right to mediation or if the date of the notice cannot be established, the insurer shall be notified by the Department of the existence of the dispute 21 days prior to

the Administrator processing the insured's request for mediation. If an insurer receives a request for mediation, the insurer shall fax the request to the Mediation Section within 48 hours of receipt of the request. The Department will forward requests to the Administrator within 24 hours of receipt of the requests. The Administrator shall notify the insurer within 48 hours of receipt of requests filed with the Department. The insured should provide the following information if known:

1. Name, address, e-mail address, and daytime telephone number of the insured and location of the property if different from the address given;

2. The claim and policy number for the insured;

3. A brief description of the nature of the dispute;

4. The name of the insurer and the name, address, e-mail address, and phone number of the contact person for scheduling mediation; and

5. Information with respect to any other policies of insurance that may provide coverage of the insured property for named perils such as flood or windstorm.

(b) By an Insurer. An insurer may request mediation by faxing a written request to the Department at (850)488-6372. The insurer shall provide a copy of its written mediation request to the insured at the same time it submits the request to the Department. The written request should contain the information set forth in subsection (4)(a). Mediation requests by insurers will be processed by the Department and Administrator in the same manner as mediation requests by insureds.

(5) Mediation Costs. Pursuant to Section 627.7015(3), F.S., the insurer shall bear all of the cost of conducting mediation conferences. Mediation costs shall include the administrative fee and the mediator's fee. Within 5 days of receipt of the request for mediation or receipt of notice of the request from the Department or immediately after receipt of notice from the Administrator pursuant to subsection (4) that mediation has been requested, whichever occurs first, the insurer shall pay a non-refundable administrative fee of \$350 to the Administrator to defer the expenses of the Department. This amount includes the mediator's fee.

(6) Requirements for Insurers.

(a) The representative of the insurer attending the conference must bring a copy of the policy and the entire claims file to the conference. The representative of the insurer attending the conference must know the facts and circumstances of the claim and be familiar with of the provisions of the policy. An insurer will be deemed to have failed to appear if the insurer's representative lacks authority to settle the full amount of the claim or lacks the ability to disburse the settlement amount at the conclusion of the conference.

(b) If inspection and adjustment of the property at issue may be required before the dispute between the parties can be resolved, such inspection and adjustment shall occur before the scheduled mediation conference. A failure by the insurer to inspect and adjust the property as necessary before the mediation conference shall constitute a failure to appear at the mediation conference under subsection (8) below. A refusal by the insured to allow the insurer's representative onto the property at issue to conduct such an inspection or adjustment shall not be considered a failure to appear at the mediation conference.

(7) Scheduling of Mediation Conference. The Administrator will select a mediator and schedule the mediation conference. The Administrator will attempt to facilitate reduced travel and expenses to the parties and the mediator when selecting a mediator and scheduling the mediation conference. The Administrator shall confer with the mediator and all parties prior to scheduling a mediation conference. The Administrator shall notify each party in writing of the date, time, and place of the mediation conference at least 10 days prior to the date of the conference and concurrently send a copy of the notice to the Department. The insurer shall notify the Administrator as soon as possible after the settlement of any claim that is scheduled for mediation pursuant to this rule.

(8) Conduct of the Mediation Conference.

(a) It is not necessary to engage a private attorney to participate in the mediation conference. If the insured elects to have an attorney participate in the conference, the insured shall provide the name of the attorney to the Administrator at least six days before the date of the conference. Parties and their representatives must conduct themselves in the cooperative spirit of the intent of the law and this rule. Parties and their representatives must refrain from turning the conference into an adversarial process. Both parties must negotiate in good faith. A party will be determined to have not negotiated in good faith if the party, or a person participating on the party's behalf, continuously disrupts, becomes unduly argumentative or adversarial, or otherwise inhibits the negotiations as determined by the mediator. The mediator shall terminate the conference if the mediator determines that either party is not negotiating in good faith or if the mediator determines that the conference should be terminated under the provisions of Rule 10.420(b) of the Florida Rules for Certified and Court-Appointed Mediators. The party responsible for causing termination shall be responsible for paying the administrative fee imposed in subsection (5) for any rescheduled mediation conference.

(b) The mediator will be in charge of the conference and will establish and describe the procedures to be followed. Mediators shall conduct the conference in accordance with the standards of professional conduct for mediation under the Florida Rules of Certified and Court-Appointed Mediators. Each party will be given an opportunity to present their side of the controversy. In so doing, parties may utilize any relevant documents and may bring any individuals with knowledge of the issues, such as adjustors, appraisers, or contractors, to address the mediator. The mediator may meet with the parties separately, encourage meaningful communications and negotiations, and otherwise assist the parties to arrive at a settlement. For purposes of this mediation program, mediators shall be deemed agents of the Department and shall have the immunity from suit provided to mediators in Section 44.107, F.S. All statements made and documents produced at a mediation conference shall be deemed settlement negotiations in anticipation of litigation.

(c) A party may move to disqualify a mediator for good cause at any time. The request shall be directed to the Department if the grounds are known prior to the mediation conference. Good cause consists of conflict of interest between a party and the mediator, the inability of the mediator to handle the conference competently, or other reasons that would reasonably be expected to impair the conference.

(d) If the insured fails to appear, without good cause as determined by the Department, the insured may have the conference rescheduled only upon the insured's payment of the administrative fee imposed in subsection (5) for the rescheduled conference. If the insurer fails to appear at the conference, without good cause as determined by the Department, the insurer shall pay the insured's actual expenses incurred in attending the conference and shall pay the administrative fee imposed in subsection (5) whether or not good cause exists. Failure of a party to arrive at the mediation conference within 30 minutes of the conference's starting time shall be considered a failure to appear. Good cause shall consist of severe illness, injury, or other emergency which could not be controlled by the insured or the insurer and, with respect to an insurer, could not reasonably be remedied prior to the conference by providing a replacement representative or otherwise. If an insurer fails to appear at conferences with such frequency as to evidence a general business practice of failure to appear, the insurer shall be subject to penalty, including suspension, revocation, or fine for violating Section 626.9541(1)(i), F.S.

(9) Post Mediation. If the parties reached a settlement, the mediator shall provide a copy of the executed settlement agreement to the Department and the Administrator within 5

days of the conclusion of the conference. Mediation is non-binding. However, if a settlement is reached, the insured shall have 3 business days starting after the date of the mediation conference within which he or she may rescind any settlement agreement provided that the insured has not cashed or deposited any check or draft disbursed to him or her for the disputed matters as a result of the conference. If a settlement agreement is reached and is not rescinded, it shall act as a release of all specific claims that were presented in the conference. Any additional claims under the policy shall be presented as separate claims. However, the release shall not constitute a final waiver of rights of the insured with respect to claims for damages or expenses if circumstances that are reasonably unforeseen arise resulting in additional costs that would have been covered under the policy but for the release.

(10) If the insured decides not to participate in this mediation program or if the parties are unsuccessful at resolving the claim, the insured may choose to proceed under the appraisal process set forth in the insured's insurance policy, by litigation, or by any other dispute resolution procedure available under Florida law.

(11) If as a result of mediation it is determined that the only coverage applicable is provided under the National Flood Insurance Program, the administrative fee imposed in subsection (5) paid by the insurer for the mediation shall be refunded to the insurer or credited to the insurer's account with the Administrator.

(12) The Department is authorized to designate an entity or person as its Administrator to carry out any of the Department's duties under this rule.

(13) If a court holds any subsection or portion of a subsection of this rule or the applicability thereof to any person or circumstance invalid, the remainder of the rule shall not be affected thereby.

(14) The applicable provisions of Rule 69B-166.031, F.A.C., shall govern issues relating to mediation that are not addressed in this rule. The provisions of this rule shall govern in the event of any conflict with the provisions of Rule 69B-166.031 or 69J-2.001, F.A.C.

The petition seeks relief from subsections 40E-6.011(4),(5) and (6), F.A.C., which governs the placement of permanent and/or semi-permanent above-ground facilities and structures within 40 feet of top of canal bank within Works or Lands of the District.

The District will accept comments concerning the petition for 14 days from the date of publication of this notice. To be considered, comments must be received by the end of business on the 14th day at the South Florida Water Management District, 3301 Gun Club Road, MSC 1410, West Palm Beach, FL 33406, Attn: Kathie Ruff, Office of Counsel.

NOTICE IS HEREBY GIVEN that the South Florida Water Management District (SFWMD) Governing Board issued an Order Granting Waiver under Section 120.542, F.S. (SFWMD 2006-017-DAO-ROW), on January 11, 2006, to Broward County Board of County Commissioners. The Amended petition for waiver was received by the SFWMD on December 5, 2005. This Order provides a waiver for the proposed installation of guardrailing and signage within the south right of way of C-11 Canal, beginning at Weston Road and ending approximately 2 miles west at S. S25,28,29,30/T50S/R39,40E, Broward County. Specifically, the Order grants a waiver from subsections 40E-6.011(4) and (6), F.A.C., and the Basis of Review for Use or Occupancy of the Works or Lands of the District Permit Applications within the South Florida Water Management District, incorporated by reference in subsection 40E-6.091(1), F.A.C., which governs the placement of permanent and/or semi-permanent above-ground facilities within 40 feet of the top of the canal bank within Works or Lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver, as follows: 1) the facilities will not significantly interfere with the SFWMD's ability to perform necessary construction, alteration, operation and maintenance activities; and 2) the Order granting a waiver from the subject rule would prevent Broward County Board of County Commissioners, from suffering a substantial hardship.

DEPARTMENT OF COMMUNITY AFFAIRS

DCA Final Order No.: DCA06-OR-009

STATE OF FLORIDA

DEPARTMENT OF COMMUNITY AFFAIRS

In re: MONROE COUNTY LAND DEVELOPMENT
 REGULATIONS ADOPTED BY
 ORDINANCE NO. 032-2005

IMMEDIATE FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues this Immediate Final Order, pursuant to §120.569(2)(n), §380.05(6), and §380.0552(9), Fla. Stat. (2005), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. Monroe County is a local government within the Florida Keys Area of Critical State Concern.
2. On December 30, 2005, the Department received for review Monroe County Ordinance No. 032-2005, adopted by the Monroe County Board of County Commissioners on November 16, 2005 ("Ord. 032-2005"). Ord. 032-2005 adopts interim amendments to Chapter 9.5 Monroe County Code by creating a new Section 9.5-227, Emergency Temporary Housing; providing for the temporary placement of Recreational Vehicles; and providing specific standards and procedures for approval of Recreational Vehicles as temporary emergency housing for storm-displaced residents. Ord. 032-2005 is a temporary measure; Section 4 provides that Ord. 032-2005 is repealed after 270 days.
3. As a result of the devastating effects of Hurricane Wilma, certain residents of Monroe County have been forced to evacuate their homes and require temporary housing. Based upon the information contained in Ord. 032-2005, the Department finds that there is an immediate danger to the public health, safety and welfare that requires the issuance of an Immediate Final Order.
4. Ord. 032-2005 is consistent with the County's 2010 Comprehensive Plan.

CONCLUSIONS OF LAW

5. The Department is required to approve or reject land development regulations that are enacted, amended or rescinded by any local government in the Florida Keys Area of Critical State Concern. §380.05(6), and §380.0552(9), Fla. Stat. (2005).
 6. The Monroe County is a local government within the Florida Keys Area of Critical State Concern. §380.0552, Fla. Stat. (2005) and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.
 7. "Land development regulations" include local zoning, subdivision, building and other regulations controlling the development of land. §380.031(8), Fla. Stat. (2005). The regulations adopted by Ord. 032-2005 are land development regulations.
 8. All land development regulations enacted, amended or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in §380.0552(7), Fla. Stat. See *Rathkamp v. Department of Community Affairs*, 21 F.A.L.R. 1902 (Dec. 4, 1998), *aff'd*, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
 9. Ord. 032-2005 promotes and furthers the following Principles:
 - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
 - (k) To provide adequate alternatives for the protection of public safety and welfare in the event of a natural or manmade disaster and for a post disaster reconstruction plan.
 10. Ord. 032-2005 is not inconsistent with the remaining Principles. Ord. 032-2005 is consistent with the Principles for Guiding Development as a whole.
 11. Since there is an immediate danger to the public health, safety and welfare, the approval of Ord. 032-2005 shall be effective immediately. §120.569(2)(n), Fla. Stat. (2005).
- WHEREFORE, IT IS ORDERED that:
- A. Monroe County Ordinance 032-2005 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED; and
 - B. This Order and Monroe County Ordinance 032-2005 shall become effective immediately upon filing with the Agency Clerk.
- DONE AND ORDERED in Tallahassee, Florida.

Thaddeus L. Cohen, Secretary
 Department of Community Affairs

LAND AND WATER ADJUDICATORY COMMISSION

NOTICE OF RECEIPT OF PETITION
TWIN CREEKS COMMUNITY
DEVELOPMENT DISTRICT

On October 13, 2005, the Florida Land and Water Adjudicatory Commission ("FLWAC" or "Commission") received a petition (amended on October 24, 2005) to establish the Twin Creeks Community Development District (the "District"). The Commission will follow the requirements of Chapter 42-1, Florida Administrative Code (F.A.C.), as amended, and Chapter 190, Florida Statutes (F.S.), as amended, in ruling on this petition, as amended.

Notice was originally published in the December 16, 2005, edition (Vol. 31, No. 50) of the Florida Administrative Weekly scheduling a public hearing for Monday, January 9, 2006, 2:00 p.m. Public hearing date and time was amended for Monday, February 13, 2006, 9:30 a.m.

SUMMARY OF CONTENTS OF PETITION: The petition, as amended, filed by EH/Transeastern, LLC, requests the Commission establish a community development district located entirely within the unincorporated limits of St. Johns County, Florida. The land area proposed to be served by the District comprises approximately 3,050 acres. A general location map is contained as Exhibit 1 to the petition, as amended, to establish the District. The site is generally located south of Durbin Creek, west of U.S. 1, east of Interstate 95, and on both sides of County Road 210 in St. Johns County, Florida. There are no parcels within the external boundaries of the proposed District which are to be excluded from the District. The Petitioner has obtained written consent to establish the District from the landowners of one hundred percent (100%) of the non-governmental real property located within the proposed District. The development plan for the proposed lands within the District includes the construction of approximately 5,000 units of single family detached units, single family attached units, multi-family housing along with 900,000 square feet of commercial mixed and 2,000,000 square feet of flexible industrial use space. Additional development plans include a 175 room hotel and a multiplex movie center. The District, if established, plans to finance certain master infrastructure improvements within the District boundaries. The improvements include complete construction of the basic infrastructure connecting and serving neighborhoods, including but not limited to: clearing, earthwork, water, sewer, and reclaimed utilities, internal roadways, and sodding/grassing. Master infrastructure also includes a community recreation center. Also included will be stormwater management facilities consisting of treatment ponds, outfalls, land to construct the retention and compensating storage areas, and wetland mitigation to serve the District in accordance with permitting agencies. Other District improvements include school facilities and substantial off-site improvements related to County Road 210 and US 1.

SUMMARY OF ESTIMATED REGULATORY COSTS: The statement of estimated regulatory costs (SERC) supports the petition, as amended, to establish the District. The complete text of the revised SERC is contained as Exhibit 8 to the petition, as amended. The scope of the revised SERC is limited to evaluating the regulatory costs consequences of approving the proposal to establish the District. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a description of the types of individuals likely to be affected by the rule; (b) a good faith estimate of the costs to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues; (c) a good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule; (d) an analysis of the impact on small businesses, small counties, and

small cities; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under section (a) and either a statement adopting the alternative or a statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the principal entities that are likely to be required to comply with the rule include the District, the State of Florida, and St. Johns County. In addition, current and future property owners will be affected by the establishment of the proposed District. Under section (b), FLWAC and the State of Florida will incur minimal administrative costs. Review costs to St. Johns County are expected to be modest and the County will not incur any quantifiable on-going costs resulting from the on-going administration of the District. Adoption of the proposed rule to approve the formation of the District will not have an adverse impact on State and local revenues. Addressing section (c), the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. The District may issue notes, bonds, or other indebtedness to fund its improvement program. Prospective future land owners would be required to pay off such indebtedness over time in the form of non-ad valorem special assessments or other rates, fees or charges. The District may also impose an annual levy for the operation and maintenance of the District. Under section (d), approval of the petition, as amended, to establish the District will have no impact or a positive impact on all small businesses. The petition, as amended, to establish the District will not have an impact on small counties and small cities as defined by section 120.52, F.S., as St. Johns County is not defined as a small county. Under section (e), the SERC analysis is based on a straightforward application of economic theory. Input was received from the developer's engineer and other professionals associated with the developer.
