60L-35.001 Scope and Purpose.

This chapter sets forth the rules governing the Performance Management System, which is the basis for reviewing and evaluating the job performance of employees in the state’s Career Service, Selected Exempt Service, and Senior Management Service. The Performance Management System enables employees to receive feedback concerning performance of assigned duties and responsibilities. It informs them of their strengths and areas of needed improvement in job performance, identifies current and future training needs, and provides documentation for awarding discretionary merit increases, and lump sum bonuses in accordance with Section 110.1245(2), Florida Statutes.

Specific Authority 110.1055, 110.224(3), 110.403, 110.605 FS. Law Implemented 110.1245(2)(b)5, 110.224 FS. History—New _____.

60L-35.002 Definitions.

(2) Evaluation Period – The period of time covered by the performance plan, not to exceed one year.

(3) Overall Rating – The average of the individual ratings for each performance expectation reviewed that shall indicate the employee’s level of performance for the evaluation period. In calculating this average, all digits four or more places to the right of the decimal shall be dropped.

(4) Performance Evaluation – An oral and written assessment of an employee’s performance of assigned duties and responsibilities as reflected in the employee’s performance expectations and documented on a performance evaluation form.

60L-35.003 Minimum Requirements.

(1) The rater shall conduct a performance planning session with the employee to identify the performance expectations by which an employee shall be evaluated and to review the

performance expectations and rating scale. The rater shall also provide an opportunity for employee feedback regarding what is expected in the position. A performance plan shall be signed by the rater and the employee, indicating that the performance expectations have been discussed. A copy of the signed performance plan shall be made available to the employee. In the event an employee refuses to sign the performance plan, the rater shall make a signed and dated notation on the plan that the employee refused to sign.

(2) The rater shall manage performance by:

Above Expectations	4	Employee consistently meets and often exceeds the performance expectation(s) of the position. For example: The employee requires minimal supervision from management in accomplishing his/her tasks. The employee possesses a thorough knowledge of the job, and often solves or assists in solving complex problems.
Meets Expectations	3	Employee consistently meets and may occasionally exceed the performance expectation(s) of the position. For example: The employee requires moderate supervision from management in accomplishing his/her tasks. The employee possesses sufficient knowledge and/or initiative to execute his/her duties and responsibilities.

The employee sometimes lacks the initiative, and/or job knowledge to execute his/her duties and responsibilities.

(d) An overall rating of the employee’s job performance during the evaluation period.

(e) At the agency’s discretion, performance plans and evaluations may be reviewed by a higher level authority. Completed performance plans and evaluations shall not be changed by a higher level authority.

(4) Employees with an overall rating of either “Below Expectations” or “Unacceptable” shall be considered to have not met their performance expectations for the position during that evaluation period.

(5) Employees who do not receive a performance evaluation within sixty (60) calendar days following the agency designated evaluation date shall be considered to have met their performance expectations as documented on their performance plan, and will receive a rating of "Meets Expectations" for each performance expectation and for the overall rating.

(6) A description of training and educational opportunities for the employee may be included as part of the performance planning/evaluation process. Training opportunities may include those available under Sections 110.1099 and 110.235, F.S.

(7) The performance evaluation shall be signed by the rater and the employee. The signature of the employee shall indicate only that the employee's job performance has been discussed with the employee and does not imply that the employee agrees or disagrees with the rater's assessment of his/her performance. The employee may attach written comments to the performance evaluation form in response to the evaluation. In the event an employee refuses to sign the performance evaluation, the rater shall make a signed and dated notation on the evaluation that the employee refused to sign.

(8) A performance evaluation is considered to be complete when it has been discussed with the employee and the employee has signed or refused to sign the evaluation. The evaluation shall then be included in the employee's personnel file, and a copy shall be made available to the employee.

(3) Separate used and useful calculations shall be made for the water treatment system and storage facilities. However, if the utility believes an alternative calculation is appropriate, such calculation may also be provided, along with supporting documentation.

(4) A water treatment system is considered 100 percent used and useful if:

(a) The system is the minimum size necessary to adequately serve existing customers plus an allowance for growth and fire flow; or

(b) The service territory the system is designed to serve is mature or built out and there is no potential for expansion of the service territory; or

(c) The system is served by a single well.

(5) The used and useful calculation of a water treatment system is made by dividing the peak demand by the firm reliable capacity of the water treatment system.

(6) The firm reliable capacity of a water treatment system is equivalent to the pumping capacity of the wells, excluding the largest well for those systems with more than one well. However, if the pumping capacity is restricted by a limiting

factor such as the treatment capacity or draw down limitations, then the firm reliable capacity is the capacity of the limiting component or restriction of the water treatment system. In a system with multiple wells, if a utility believes there is justification to consider more than one well out of service in determining firm reliable capacity, such circumstance will be considered. The utility must provide support for its position, in addition to the analysis excluding only the largest well.

(a) Firm reliable capacity is expressed in gallons per minute for systems with no storage capacity.

(b) Firm reliable capacity is expressed in gallons per day, based on 12 hours of pumping, for systems with storage capacity.

(7) Peak demand is based on a peak hour for a water treatment system with no storage capacity and a peak day for a water treatment system with storage capacity.

(a) Peak hour demand, expressed in gallons per minute, shall be calculated as follows:

1. The single maximum day (SMD) in the test year unless there is an unusual occurrence on that day, such as a fire or line break, less excessive unaccounted for water, divided by 1440 minutes in a day, times 2 [(SMD-EUW)/1,440 x 2], or

2. The average of the 5 highest days (AFD) within a 30-day period in the test year, excluding any day with an unusual occurrence, less excessive unaccounted for water, divided by 1440 minutes in a day, times 2 [(AFD-EUW)/1,440 x 2], or

3. If the actual maximum day flow data is not available, 1.1 gallons per minute per equivalent residential connection (1.1 x ERC).

(b) Peak day demand, expressed in gallons per day, shall be calculated as follows:

1. The single maximum day in the test year, if there is no unusual occurrence on that day, such as a fire or line break, less excessive unaccounted for water (SMD-EUW), or

2. The average of the 5 highest days within a 30-day period in the test year, excluding any day with an unusual occurrence, less excessive unaccounted for water (AFD-EUW), or

3. If the actual maximum day flow data is not available, 787.5 gallons per day per equivalent residential connection (787.5 x ERC).

(8) The used and useful calculation of storage is made by dividing the peak demand by the usable storage of the storage tank. Usable storage capacity less than or equal to the peak day demand shall be considered 100 percent used and useful. A dropneumatic tank is not considered usable storage.

(9) Usable storage determination shall be as follows:

(a) An elevated storage tank shall be considered 100 percent usable.

(b) A ground storage tank shall be considered 90 percent usable if the bottom of the tank is below the centerline of the pumping unit.

(c) A ground storage tank constructed with a bottom drain shall be considered 100 percent usable, unless there is a limiting factor, in which case the limiting factor will be taken into consideration.

(10) To determine whether an adjustment to plant and operating expenses for excessive unaccounted for water will be included in the used and useful calculation, the Commission will consider all relevant factors, including whether the reason for excessive unaccounted for water during the test period has been identified, whether a solution to correct the problem has been implemented, or whether a proposed solution is economically feasible.

(11) In its used and useful evaluation, the Commission will consider other relevant factors, such as whether flows have decreased due to conservation or a reduction in the number of customers.

40D-2.331 Modification of Permits

PURPOSE AND EFFECT: To amend rules to extend permit durations upon modification of a water use permit where the review of the application for modification is equivalent to a renewal application review.

SUMMARY: Under current District rules, permits that are modified during their permit term retain the existing expiration date as the majority of modifications involve only portions of the permitted activity and the entire activity is not reevaluated. However, in some cases, the modification is of such a magnitude that it essentially results in a total reevaluation of the permitted activity. When these types of modifications are limited to the existing permit term, this results in the staff and applicant performing another total reevaluation within only a few years time. In these cases, it is more efficient for both the District and the applicant to handle the modification as a full renewal, thereby extending the permit by a full permit term. A

renewal permit fee will be assessed rather than a modification fee, and such a renewal is predicated upon a request by the applicant.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

40D-2.331 Modification of Permits.

(1) A permittee may seek modification of any of the terms and conditions of an unexpired permit except when the sole purpose is to modify the expiration date. However, upon request and documentation by the permittee, modification applications that are deemed by the District to be substantial, as described in Basis of Review Section 1.12 shall be processed as a renewal application with modification. A request for modification shall be reviewed in accordance with the rules in effect at the time the modification is filed.

(2) No change.

BASIS OF REVIEW AMENDMENTS:

1.9 PERMIT DURATION

The District typically issues permits in accordance with the following guidelines:

- 1. through 3. No change.
- 4. Permits that are modified prior to renewal will maintain the original expiration date unless the modification is deemed by the District to be substantial as described in the Basis of Review Section 1.12, and if requested by the applicant, shall be processed as a renewal application with modification extended as a result of the modification.
- 5. through 6. No change.

Revised _____

1.11 RENEWAL OF PERMITS

1. Applications for permit renewal may be made at any time within 1 year prior to permit expiration, except as provided in Basis of Review Section 1.12. Permittees are encouraged to apply for renewal at least 90 days prior to the expiration date. Permits for which renewal applications have been submitted that are under evaluation by the District shall remain in force past the expiration date until final action is taken by the District.

- 2. through 3. No change.

Revised _____

1.12 MODIFICATION OF PERMITS

1. Formal Modification.

a. The terms and conditions of a permit may be modified at any time during the term of a permit. Any proposed change in the terms or conditions of a permit (e.g., a change in a crop or acreage or the quantities needed) requires submittal of an application for modification. Ordinarily, only the modified aspects of the permit will be addressed in the evaluation of the application for modification. Therefore, in most cases the original expiration date will remain on a modified permit. However, if the modification is deemed to be substantial by the District, as described in the paragraph below, the applicant may request that it be addressed as a renewal application with modification. Applicants who wish to change a portion of their current permit may submit an application for modification or the District may require modification of a permit to address a problem with the existing permit.

b. An application to modify a permit shall be deemed by the District to be substantial if the amount of effort, time and materials required to be submitted to complete the application and the amount of effort, time and documentation required of District staff to evaluate the submission are similar to that required for a renewal application for the same permit. Upon

request by the applicant, the District shall process the application for modification as a renewal application with modification notwithstanding that it is submitted prior to one year before the permit expiration date.

2. No change.

Inverted the order of the first two lines of fields and slightly re-titled the fields requesting Worker's name and SSN to ensure proper form completion. On line three of the fields, added section for user to indicate who is completing the form and added titles to the date fields for proper form completion.

Question 2 through 5, 7 through 16 and 20 through 23 – were put in present tense and minor rewording changes were made to facilitate reader comprehension. Question 2 – segregated existing paragraph (a) into a second paragraph to facilitate reader comprehension and proper form completion and expanded line of questioning to include a fourth paragraph. Question 3 added a parenthetical instructional statement to paragraph (a) to facilitate proper form completion. Question 4 expanded line of questioning from 4 paragraphs to 9. Question 5. deletes paragraph (b) and expounded upon line of questioning to include paragraph (e). Question 7 – Segregated paragraphs (a) as well as (b) into 2 paragraphs each therein expanding the number of paragraphs to 5 for purposes of proper form completion. 10 Revised Bureau of Retirement Calculation Forms:

Form FR-11 – Deleted redundant rule reference at top left of each page of document, deleted obsolete SUNCOM telephone number from header of the instructional page and replaced it with the Division's new toll free telephone number. Division's direct and toll-free numbers were added to the header of the form page. Changes specific to the Instructional page follow:

In requirement number 1: Deleted the text “both jobs” from end of last sentence and replaced it with the text “from all positions” to match wording in statute as provided in Section 121.021(39), F.S.

In requirement number 3: Replaced the word next with attached and added the title of the attachment, “What Retirement Option Should You Choose.” to facilitate reader's understanding.

In requirement number 4: As provided in Internal Revenue Code, added the following clarifying statement:

“You may rollover funds from a qualified plan (IRA, deferred compensation, etc.) to pay the amount due. Form PRO-1, Pretax Direct Rollover must be received with the payment. Rollovers cannot be made for upgraded service.”

In requirement number 5: Technical correction made wherein comma and parentheses was removed from second sentence and parentheses was placed around the text, “except for g.”

On the form page of the FR-11, deleted the redundant word “additional” from the second sentence in the paragraph just above member signature line and reformatted Notary Block.

Form MF-1 – Deleted redundant rule reference from the upper-left of form. The Division's direct and toll-free telephone numbers were added to the header of each page. Form changes were made as follows:

1. In the first sentence, deleted the text “back of this form” and replaced it with the text “next page.” This was a technical correction as the back of the form is not utilized for print.

2. Deleted redundant sentence just below Member Name and Member SSN, as it reiterates the sentence referenced in change 1 above. Deleted sentence read:

Prior to completing, please read the back of this form for the requirements for claiming military service under the Florida Retirement System.

3. Inverted order of Signature line and the “Check One” option line and moved and reworded the statement in parentheses between these two lines to just above them. The statement read:

(If member is deceased, beneficiary signature and beneficiary SSN. Sign in the presence of a notary.)

To facilitate reader comprehension, the parentheses were removed and the statement was amended to read:

This section must be signed in the presence of a notary. Beneficiary signature and beneficiary SSN is needed if member is deceased

4. Reformatted the Notary Block.

Instructional page changes:

1. Deleted the references to the Mexican War and World War I due to the length of time that has passed since these events took place.

2. Added a sentence to the paragraph following section 4 of the instructional page, to advise members of the federal website to obtain the form to request military papers.

3. Changed the classification of pagination from an Instructional page to an Informational page.

Form MF-2 – Deleted the text, “of Section 121.1115, F.S.,” from title of form for simplification of form title and for consistency in titling with other Division forms (statutory reference remains in text). The redundant rule reference in the upper left corner of form was deleted. In the first sentence of form, a technical correction was made wherein the parentheses were removed following “1.” and “2.” In statement 1, the last word of the sentence was changed from “system” to “plan” to

facilitate reader comprehension. In sections 1 and 2, inverted the order of the "Signature" line and the "Check One" option line to ensure proper form completion and moved and reworded the statement in parentheses between these two lines to just above them to facilitate reader comprehension. The statement read:

(If member is deceased, beneficiary signature and beneficiary SSN. Sign in the presence of a notary.)

To facilitate reader comprehension, the parentheses were removed and the statement was amended to read:

This section must be signed in the presence of a notary. Beneficiary signature and beneficiary SSN is needed if member is deceased

The Notary Block was reformatted.

Form FRS-11o – Redundant rule reference was deleted from the upper-left of form. The Division's direct and toll-free telephone numbers were added to the header. In the second sentence of the Option 2 section, replaced "120 monthly payments" following retirement references with "10-year period" to reflect references in Section 121.091(6)(a)2., F.S., and to facilitate reader comprehension. This change resulted in minor rewording of text. To facilitate proper form completion in the Spousal Acknowledgement block, reworded the sentence, "If yes, your spouse must complete the Spousal Acknowledgement." to read "If yes, your spouse must sign below". To facilitate reader comprehension in the second sentence of both the Option 3 and 4 explanations, the following text was added in parentheses following joint annuitant, "spouse or financial dependent." In the paragraph preceding the Member Signature line, deleted the word "additional" following the word "add" as it was redundant.

Form FST-11o – Redundant rule reference was deleted from the upper-left of form. Division's direct and toll-free telephone numbers were added to the header. Following the first sentence on the form, added the following sentence to facilitate proper form completion:

"Please read the option explanations below before completing your selection."

60U-1.006 Approved Forms

PURPOSE AND EFFECT: This rule amendment deletes two Division forms, adopts two new Division forms and adopts by reference a State Board of Administration form.

SUMMARY:

The two deleted Division Forms:

ORP-1 became obsolete as a result of Chapter 99-252 of the Laws of Florida that expanded SUSORP eligibility to include all administrative and professional positions that are exempt from career service.

ORP-16 is no longer an agency maintained form. Responsibility for this form is now maintained by the State Board of Administration as provided in Section 121.4501, F.S.

The two new Division Forms:

ORP-16a was created to replace the part of the ORP 16 (now a State Board of Administration maintained form as noted above), which allows the SUSORP participants to make changes to the distribution of employer and employee contributions as well as the companies they have selected to receive them distributions. The amendment solicits the information necessary for the Division to direct such contributions as provided in Section 121.35(4)(a), F.S.

ORP-ETF was created as a supplementary statement for distributions, creating a Division record of termination and ensuring participant meets the definition of termination as provided in Section 121.021(39), F.S.

The SBA Form adopted by reference:

ORP-16, the State Board of Administration Enrollment and Election Form for the Florida Retirement System, as described in Section 121.4501, F.S., is adopted by reference within this Rule Chapter.

63E-7.002 Definitions.

For the purpose of this chapter of this rule, the following words shall have the meanings indicated.

(1) Admission – The admitting of a youth, committed by the court, into a specific residential commitment facility.

(2) Alert System – A method of alerting staff that a youth has physical health, mental health, or security issues that may require individual attention or closer supervision. An alert system is a tool for staff to use in making treatment, security and safety decisions as they relate to youth behavior, but does not provide detailed information about the conditions that resulted in the youth being identified for inclusion in the alert system.

(3) Apology letter – A youth's letter to the victim of his or her crime, or the next of kin in cases of homicide, or the parent or legal guardian in cases involving minor victims, in which the youth acknowledges personal accountability for the harm he or she caused the victim, as well as sincerely expresses remorse.

(4) Assessment – An evaluation of the youth to determine treatment needs. A residential commitment program's assessment process is a gender-specific, comprehensive assessment of a youth that is based on the systematic review of all existing information and updated information secured through interviews and assessment tools. The assessment process identifies risk factors and protective factors, including the youth's strengths, and culminates in prioritization of the youth's criminogenic needs.

(5) Authority for Evaluation and Treatment (AET) or Authority for Evaluation and Treatment For Youth Over 18 Years of Age – The document that, when signed by a parent or guardian if the youth is 18 years or younger or signed by the youth if he or she is over 18 years of age, gives the department the authority to assume responsibility for the provision of necessary and appropriate physical and mental health care to a youth in the department's physical custody. The Authority for Evaluation and Treatment (HS 002, May 2007) and the Authority for Evaluation and Treatment For Youth Over 18

Years of Age (HS 003, May 2007) are incorporated into this rule and are accessible electronically at http://www.djj.state.fl.us/forms/health_services_forms_index.html.

The BARJ approach focuses on accountability to victims and the community, competency development, and community safety.

(c) Community Safety – Refers to a physically and emotionally safe environment or condition that exists when a community manages behavior so that its members live in peace and mutual respect, with minimal threat of victimization and harm. A residential commitment program promotes community safety by:

1. Implementing strategies that focus on the short-term external control of youth to reduce immediate or imminent risk of harm; and

2. Developing youths' capacity to manage their behavior to deter future victimization.

(7) Case Management Process – Refers to the process a residential commitment program uses to assess a youth, develop goals to address the youth's criminogenic risks and needs, review and report the youth's progress, and plan for the youth's transition to the community upon release. This process is implemented within the context of BARJ that focuses on accountability, competency development and community safety.

(8) Central Communications Center (CCC) – A 24-hour 7-day per week system to which incidents occurring at department or contract operated facilities or programs are reported.

(14) Comprehensive Physical Assessment – A comprehensive physical assessment (exam) performed by a physician (MD), osteopathic physician (DO), physician’s assistant (PA), or advanced registered nurse practitioner (ARNP). The purpose of this assessment is the establishment of a data point which is used to facilitate the following:

The evaluation must have used sound methodology, including, but not limited to, random assignment, use of control groups, valid and reliable measures, low attrition, and appropriate analysis. Such studies shall provide evidence of statistically significant positive effects of adequate size and duration. In addition, there must be evidence that replication by different implementation teams at different sites is possible with similar positive outcomes.

(2) A residential commitment program shall inspect the commitment or transfer packet prior to a youth's admission and, if any core documents are not included in the packet, shall contact the JPO or JPO supervisor to request the missing documents be faxed or electronically transmitted to the program. The core documents are as follows:

(a) DJJ face sheet;

(b) Current commitment order;

(c) Predisposition report;

2. Comprehensive physical assessment;

3. Immunization records; and

4. Tuberculosis skin test (Mantoux) results, unless contraindicated.

(3) If the JPO or JPO supervisor does not provide any missing core documents upon request, a residential commitment program may elect to not admit a youth, thereby rejecting the youth. However, within two hours of a decision to reject a youth, the program shall notify the Regional Director for Residential and Correctional Facilities and the Regional Director for Probation and Community Corrections of this action.

(4) A residential commitment program shall communicate internally on admissions as follows:

(a) Program staff responsible for admission are notified when a new admission is scheduled to arrive and the youth's name, date and time of anticipated arrival, mode of transportation, medical and mental health needs, and any safety or security risks are documented in the logbook.

(b) Regardless of the youth's condition upon admission, the designated health authority, or his or her designee who is licensed to practice in Florida as a physician (MD) or osteopathic physician (DO), Advanced Registered Nurse Practitioner (ARNP) or Physician's Assistant (PA), is notified of an admission with any of the following medical conditions documented in the commitment packet: asthma; allergies with anaphylaxis; adrenal insufficiency; cancer or history of cancer; cardiac arrhythmias, disorders or murmurs; congenital heart disease; cystic fibrosis; developmental disability; diabetes; history of EpiPen use; eating disorders; head injuries that occurred within the two weeks prior to admission; hearing, speech or visual deficits; hemophilia; hepatitis; human immunodeficiency virus (HIV) or AIDS, hypo or hyperthyroidism, hypertension; kidney failure (with or without dialysis); neuromuscular conditions; pregnancy or having given birth within the two weeks prior to admission; seizure disorders; sickle cell anemia; spina bifida; systemic lupus erythematosus; and active tuberculosis.

(c) Information included in the commitment or transfer packet is distributed to program staff as their job functions dictate.

(5) Within 24 hours of admission, a residential commitment program shall refer to the department's circuit legal counsel any commitment order appearing to be in conflict with Chapter 985, F.S., or otherwise questionable. The program shall maintain documentation of the referral.

(6) When a youth is admitted to a residential commitment program, the program shall make notifications as follows:

(a) Within 24 hours of any admission or on the first regular workday of the following week when the youth is admitted on a holiday, a weekend or a Friday afternoon, the program shall update the JJIS Bed Management System or, if a program does not have access to JJIS, shall notify the regional commitment manager.

(7) Although it is the intent that deoxyribonucleic acid (DNA) samples be collected prior to a youth's admission to a residential commitment program, if a youth who meets the

DNA testing criteria per Chapter 943, F.S., is admitted to the facility without DNA testing, the program shall contact Florida Department of Law Enforcement (FDLE) to verify whether or not a DNA sample is on file for the youth. If not, the program shall collect DNA samples, using the test kit and accompanying instructions provided by FDLE, submit them to FDLE no later than 45 days prior to a youth's release, and document these actions in the youth's individual management record.

(8) If the residential commitment program suspects that a youth admitted without documentation of being screened as a sexually violent predator qualifies under Chapter 394, F.S., the program shall notify the youth's JPO within three days of the youth's admission. If the JPO does not respond within five working days, the program shall notify the JPO's supervisor. If not resolved within 10 days of the program's original request, the program shall notify the department's residential monitor assigned to the program.

63E-7.004 Youth Intake.

(1) Youth intake will commence upon arrival of a youth to a residential commitment program. The following activities shall occur during intake:

(a) Strip search.

1. The program shall conduct the strip search in a private room with two staff members present, both of the same sex as the youth being searched. As an alternative when two staff of the same sex are not available, the search may be conducted by one staff of the same sex, while a staff of the opposite sex is positioned to observe the staff person conducting the search, but cannot view the youth.

2. Staff conducting the strip search shall visually inspect the youth, without touching the unclothed youth.

(b) Documentation of visible body markings, i.e. scars, bruises, tattoos, or other physical injuries.

(2) A residential commitment program shall complete the following entry screenings immediately upon a youth's admission. These screenings are used to identify any emergency medical, mental health, or substance abuse conditions of a nature that render admission unsafe or warrant immediate attention. These screenings are also used to identify any need for further evaluation.

(a) Using the Facility Entry Physical Health Screening form, a health care or non-health care staff shall conduct the health entry screening. However, if the entry screening is conducted by someone other than a licensed nurse as defined in Section 464.003, F.S., a licensed nurse shall review the entry screening within 24 hours of the youth's admission.

(b) To screen for mental health and substance abuse, the program shall ensure administration of either the Massachusetts Youth Screening Instrument, Second Version (MAYSI-2) or a clinical mental health screening and a clinical substance abuse screening. A direct care staff may administer the MAYSI-2 on JJIS if he or she is trained in its administration. However, a clinical mental health screening shall only be conducted by a licensed mental health professional, and a clinical substance abuse screening shall only be conducted by a qualified professional as defined by Section 397.311, F.S., and in accordance with Rule 65D-30.003, F.A.C. Clinical screenings require the use of valid and reliable screening instruments.

(3) Unless a youth is being admitted into a residential commitment program directly from secure detention, a correctional facility, or another program, a shower, including shampooing hair, is required.

(a) The program may routinely use an ectoparasiticide or an ovicide for all new admissions if the program's designated health authority deems it appropriate, if it is used in accordance with current standards of clinical practice, and if it is not contraindicated. In the absence of such a routine protocol approved by the designated health authority, an ectoparasiticide and an ovicide shall not be routinely used, and shall be used only if an infestation with lice or scabies is present and use is ordered by the designated health authority, is in accordance with current guidelines, and is not contraindicated.

(b) Two staff of the same gender as the youth shall supervise the newly admitted youth during this shower.

(4) The program shall issue clothing to each youth that is appropriate for size and climate and consistent with the program's dress code.

(5) A residential commitment program shall inventory each youth's personal property upon admission and document the inventory by listing every item. Program staff shall immediately secure in a locked area all money, jewelry and other items of value. After all personal possessions have been inventoried and documented, the staff conducting the inventory, the youth, and a witness shall sign and date the documentation to attest to its accuracy. The program shall:

(a) Maintain a copy of documentation of the personal property inventory.

(b) Ask the youth if he or she wants a copy of the personal property inventory documentation and, if so, provide it.

(c) Provide a copy of the inventory documentation to the youth's parents or guardians, if requested.

(d) Send inventoried property to the youth's home or store such property until the youth's release from the program.

(6) The program shall confiscate all contraband, such as weapons and narcotics, excluding narcotics that are verified as having been prescribed for a medical condition, for disposal or storage, and shall submit all illegal contraband to the law enforcement agency having local jurisdiction.

(7) Only medications from a licensed pharmacy, with a current patient-specific label intact on the original medication container, may be accepted into a residential commitment program.

(a) If there is doubt about the authenticity of a prescription medication brought with the youth to the facility, the program shall verify the medication by calling the pharmacy that dispensed the medication and calling the outside provider who prescribed the medication.

(b) Prior to medication administration, the program shall ensure that:

1. The youth reports that he or she is taking an oral prescribed medication;

2. Either the youth or the parent or guardian of the youth has brought the valid, patient-specific medication container to the facility;

3. The medication is properly labeled with the name of the youth; name and address of the pharmacy; date of dispensing; name of prescribing health care professional; directions for use; expiration date; and any warning statements;

4. There are no doubts about the substance in the medication container; and

5. The licensed nurse has called to obtain an order from the program's designated health authority or physician designee, physician assistant, or advanced registered nurse practitioner to resume the specified medications, and has documented the order in the youth's individual health care record. The program's designated health authority shall develop a medication verification and administration protocol that the program shall follow when a licensed nurse is not on duty.

(c) Prescription verification shall be documented in the youth's individual health care record.

(8) Based on a review of all documentation and interactions with a newly admitted youth, a residential commitment program shall classify the youth for purposes of assigning to a room or living area. Factors to consider when classifying the youth shall include, but are not limited to, gender, age and maturity, size, physical or mental health problems, history of violence or sexual aggression, security risks, gang affiliations and skill levels.

(9) When mental health, substance abuse, physical health, security risk factors, or special needs related to a newly admitted youth are identified during or subsequent to the classification process, a residential commitment program shall immediately enter this information into its internal alert system and the JJIS alert system.

(10) A residential commitment program shall establish and maintain critical identifying information and a current photograph that are easily accessible to verify a youth's identity as needed during his or her stay in the program.

(a) The program shall maintain the photograph in the youth's individual management record and the individual healthcare record. In the event of an escape, the program shall provide a photograph to law enforcement or other criminal justice agencies to assist in apprehending the youth.

(b) The program shall maintain the following critical identifying information for each youth in an administrative hard-copy file that is easily accessible and mobile in the event of an emergency situation that results in the program relocating quickly or in the event needed information cannot be accessed electronically.

1. Youth's full name and DJJ ID number;

OIR – Insurance Regulation

RULE NOS.:	RULE TITLES:
69O-157.301	Rate Increase Standards
69O-157.302	Facility Only Rates
69O-157.303	Home Health Care Only Rates
69O-157.304	Comprehensive Only Rates

PURPOSE AND EFFECT: To establish a framework for evaluating rate increases for long term care insurance, and to ensure that the rate increases are not excessive.

SUMMARY: Section 627.9407(7)(c), Florida Statutes, provides that rates charged to an insured for renewal of an existing long term care insurance policy may not exceed the price the insurer charges for newly issued policies. The problem this statute addresses relates to “closed blocks” of business. A closed block of business occurs when a particular approved policy is no longer being sold to new customers. There will be a group of insureds who have the insurance, and they will continue to be renewed, but no new customers will be sold that policy. This statute protects those insureds in that closed block by precluding an insurer from having higher renewal rates than its rates for new business.

For insurers that are not currently issuing new policies, the statute requires the Office of Insurance Regulation to establish and publish a “new business rate”, above which the renewals cannot be priced. The new business rate is published annually by the Office of Insurance Regulation, and is determined by reviewing the past year’s premium of those carriers which represent 80% of the market share of carriers currently selling long term care products. For example, this means that a carrier may not raise its rates on a policy first purchased in 1990 to a premium level that exceeds the cost of a similar policy which is purchased as a new product in 2007.

This new rule implements this statute by defining terms used in the statute and explaining how calculations are to be done so the insurer can be sure it is in compliance with the statute.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: No Statement of Estimated Regulatory Cost was prepared.

THE FULL TEXT OF THE PROPOSED RULES IS:

69O-157.301 Rate Increase Standards.

(1) Rate increase filings for long term care insurance shall be filed in accordance with filing requirements and standards of Rule Chapters 69O-149 and 69O-157, F.A.C.

(2) The term “policies with similar coverage” has the same meaning as “similar policy forms” as defined in subsection 69O-157.103(17), F.A.C.

(3) Pursuant to the provisions of Section 627.9407(7)(c), F.S., for insurers that are currently actively marketing and issuing similar coverage, the rates resulting after a rate increase filing shall not exceed the insurer’s new business rate.

(4)(a) Section 627.9407(7)(c), F.S., requires that the office annually determine and publish the currently available new business rates for similar coverage being sold in Florida. The published new business rates represent the maximum annual rate that may be charged after a rate increase for insurers not currently issuing new coverage.

(b) The published rates shall be determined by first identifying those carriers currently issuing policies with similar coverage. For each of the similar coverage categories, the Florida new business earned premium, defined as first year premium in Florida, is determined for the prior calendar year. Those insurers reporting at least the top 80% of that earned premium, cumulatively, starting with the largest, will be used to tabulate the new business rate. The new business rate shall be the weighted average of the insurers’ rates, using the market share, as measured by first year premium in Florida, as the weight.

(c)1. The new business rates are for the standard underwriting class for the insurer. Standard underwriting class is the underwriting class with the most predominant sales, measured by number of policies, regardless of the name given to it by the insurer.

2. The new business rates for other underwriting classes shall bear the same relationship to the standard rate schedules that the insurer has filed and approved. For example, if an insurer's preferred rate is 85% of its standard rate, the premium limit applicable to the rate increase for business sold as preferred will be 85% of the standard rate schedule.

(d)1. The published new business rates represent the particular benefit configuration listed. If an insurer has policies in force that have benefits different from the benefit used to determine the published rates, the insurer may contact the office for the new business rate that reflect the different benefits.

2. The office shall determine the new business rates for the requested benefit configuration in the same manner as it used for determining the published rates. The resulting rates shall be consistent with the published new business rates reflecting benefit differences only.

3. Insurers needing a different benefit configuration should make such request of the office in advance of a rate filing so as to give the office time to determine such rates and provide them to the insurer.

4. If the office is unable to determine the rates by a tabulation of the insurers currently selling similar coverage, the office shall use its best actuarial judgment in determining the new business rates using the information available from the insurers in the 80% market share. Alternatively in such cases, at the option of the insurer, the insurer may submit the results of a model used to price new long term care products by an actuarial consulting firm currently pricing long term care for other clients, who is independent of the insurer, acceptable to the office, and contracted by the insurer. The assumptions used shall be available to the office for review and approval. The model will be used to develop the new business pricing for the insurer's policy benefit configuration, the new business pricing for the published benefit configuration, and to develop a factor which is the ratio of the insurer's policy benefits to the published benefits. It is noted that the provisions of Section 627.9407(7)(c), F.S., provide that the differences shall be benefit differences only; all other provisions of the two policies being modeled shall be identical. Such factor, representing benefit differences only, shall be used to adjust the published new business rates. Independent, as used in this section, shall mean that the actuarial consulting firm or the actuary to be involved in the project has no relationship currently or for the last three years with the insurers for pricing, valuation, or other reviews.

(e) If the application of this rule results in different increases being applied to different plans within the filing, the requirements of subparagraph 69O-149.003(1)(a)4., F.A.C. shall apply.

(f) The published rates apply to sales in Hillsborough county. For all other counties, the rate from the published table should be adjusted by the insurer's current area factor applicable in that county relative to the insurer's area factor in Hillsborough county.

(g) The premium for all additional benefits provided in the policy or by rider to the policy shall be the same proportion of the base rates after any rate change as they were before such change.

All questions and letters of interest should be directed to Sarah Vidal, Construction Coordinator, UF Purchasing and Disbursement Services, svidal@ufl.edu or (352)392-1331, ext. 226.

NOTICE TO DESIGN/BUILDER:

The University of Florida Board of Trustees announces that Design/Build services will be required for the project listed below:

Project: UF-256, Outpatient Health Clinic for the Student HealthCare Center (Gainesville, Florida)

The project consists of the design for a new 39,000 GSF facility on the campus of the University of Florida in Gainesville, Florida. This facility will house all current functions of the existing Student Healthcare Center, including primary medical and psychological care, health promotion, pharmacy, women's clinic, and various other programs. Phase One of this project will include program verification and master planning for a complete relocation and build-out of the existing Student Healthcare Clinic, and construction of a 17,000 – 20,000 GSF facility which will include Women's Clinical Services, Mental Health Services, Health Education, and Pharmacy. Design should focus on maximizing net/gross

SF with the intention of constructing the most possible SF for Phase One. Construction of Phase Two for this project is not included in the scope of work.

The total project budget is \$7,600,000.00, including site improvements, underground utilities, fees, surveys & tests, total building commissioning, furnishings & equipment, and contingencies. Construction shall be "fast-tracked" to begin by November, 2007, and end by November, 2008. Silver LEED (Leadership in Energy and Environmental Design) accreditation by the U.S. Green Building Council is mandatory minimum.

The contract for design/build services will consist of two parts. Part One services include program verification and master planning for a complete relocation and build-out of the existing Student Healthcare Clinic, design, construction administration, value engineering, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) proposal based on 60% – 100% Construction Documents, for which the design/builder will be paid a fixed fee.

If the GMP is accepted, Part Two, the construction phase, will be implemented. In Part Two of the contract, the design/builder becomes the single point of responsibility for completion of the construction documents, performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for Part One of the contract, or to arrive at an acceptable GMP within the time provided in the agreement may result in the termination of the design/builder's contract.

Blanket design professional liability insurance will be required for this project in the amount of \$2,000,000.00, and will be provided as a part of Basic Services. Plans and specifications for University of Florida projects are subject to reuse in accordance with the provisions of Section 287.055, Florida Statutes.

Applicants will be evaluated on the basis of their past performance, experience, personnel, design and construction ability, references, bonding capacity, workload, and responses to questions posed both in the shortlist and interview phases. The Selection Committee may reject all proposals and stop the selection process at any time.

Applicants desiring to provide design/build services for the project shall submit a proposal only after thoroughly reviewing the facilities program, Project Fact Sheet, and other background information. The proposal shall be limited to 60 single-sided, consecutively-numbered pages (or 30 double-sided pages) and shall include:

1. A Letter of Application that concisely illustrates the applicant's understanding of the scope of services, schedule, and other goals and considerations as outlined in the Project Fact Sheet and facilities program.
2. Company information and signed certification.

3. A completed, project-specific “Design/Builder Qualifications Supplement” (DBQS) proposal. Applications on any other form will not be considered.
4. Resumes, copies of the applicant’s contracting license, current Professional Registration Certificate(s) from the appropriate governing board, corporate charter(s) if applicable, proof of bonding capacity, LEED certification, and other pertinent credentials.

At the time of application, the applicant must be licensed to practice as a general contractor in the State of Florida; must possess current design Professional Registration Certificate(s) from the appropriate governing board; must be properly registered to practice its profession in the State of Florida; and, if the applicant is a corporation, must be chartered by the Florida Department of State to operate in Florida. As required by Section 287.133, Florida Statutes, an applicant may not submit a proposal for this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. The selected design/builder must warrant that it will neither utilize the services of, nor contract with, any supplier, subcontractor, or consultant in excess of \$15,000.00 in connection with this project for a period of 36 months from the date of their being placed on the convicted vendor list.

Unsigned proposals or proposals containing expired or invalid licenses will be disqualified. Submittal materials will not be returned.

The project-specific DBQS forms, instructions, Project Fact Sheet, Facilities Program, UF Design Services Guide, UF Construction Standards, standard University of Florida Owner-Design/Builder agreement, and other project and process information can be found on the Facilities Planning & Construction website.

DEPARTMENT OF COMMUNITY AFFAIRS

DCA Final Order No.: DCA07-OR-093
 STATE OF FLORIDA
 DEPARTMENT OF COMMUNITY AFFAIRS
 In re: MONROE COUNTY LAND
 DEVELOPMENT REGULATIONS
 ADOPTED BY MONROE COUNTY
 ORDINANCE NO. 004-2007

FINAL ORDER

The Department of Community Affairs (the "Department") hereby issues its Final Order, pursuant to §§ 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006), approving a land development regulation adopted by a local government within the Florida Keys Area of Critical State Concern as set forth below.

FINDINGS OF FACT

1. The Florida Keys Area is a statutorily designated area of critical state concern, and Monroe County is a local government within the Florida Keys Area.
2. On April 27, 2007, the Department received for review Monroe County Ordinance No. 004-2007 ("Ord. 004-2007"), adopted by Monroe County on March 21, 2007.
3. The purpose of the Ordinance is to amend Monroe County Code Section 9.5-120.6 to extend the current moratorium for the off-site transfer of recreation vehicle spaces to a hotel or motel room until December 31, 2007. A moratorium on the transfer of recreation vehicle spaces to a hotel or motel will allow the County the ability to address the impacts of the conversion of recreational vehicle spaces on the availability of safe and adequate housing for low and moderate income households.
4. Ordinance 004-2007 is consistent with the 2010 Monroe County Comprehensive Plan, Policy 101.2.6 and Goal 601.

CONCLUSIONS OF LAW

5. The Department is required to approve or reject land development regulations that are enacted, amended, or rescinded by any local government in the Florida Keys Area of Critical State Concern. § 380.05(6), Fla. Stat., and § 380.0552(9), Fla. Stat. (2006).
6. Monroe County is a local government within the Florida Keys Area of Critical State Concern. § 380.0552, Fla. Stat. (2006) and Rule 28-29.002 (superseding Chapter 27F-8), Fla. Admin. Code.
7. "Land development regulations" include local zoning, subdivision, building, and other regulations controlling the development of land. § 380.031(8), Fla. Stat. (2006). The regulations adopted by Ord. 004-2007 are land development regulations.
8. All land development regulations enacted, amended, or rescinded within an area of critical state concern must be consistent with the Principles for Guiding Development (the "Principles") as set forth in § 380.0552(7), Fla. Stat. See *Rathkamp v. Department of Community Affairs*, 21 F.A.L.R. 1902 (Dec. 4, 1998), *aff'd*, 740 So. 2d 1209 (Fla. 3d DCA 1999). The Principles are construed as a whole and no specific provision is construed or applied in isolation from the other provisions.
9. Ord. 004-2007 promotes and furthers the following Principles:
 - (a) To strengthen local government capabilities for managing land use and development so that local government is able to achieve these objectives without the continuation of the area of critical state concern designation.
 - (d) To ensure the maximum well-being of the Florida Keys and its citizens through sound economic development.
 - (l) To protect the public health, safety, and welfare of the citizens of the Florida Keys and maintain the Florida Keys as a unique Florida resource.
10. Ord. 004-2007 is consistent with the Principles for Guiding Development as a whole.

WHEREFORE, IT IS ORDERED that Ord. 004-2007 is found to be consistent with the Principles for Guiding Development of the Florida Keys Area of Critical State Concern, and is hereby APPROVED.

This Order becomes effective 21 days after publication in the Florida Administrative Weekly unless a petition is filed as described below.

DONE AND ORDERED in Tallahassee, Florida.
