REQUEST FOR BID

The University of Florida, Purchasing and Disbursement Services will receive sealed bids for the following: ITB08SV-203, Animal Sciences, Steam Boilers Replacement, estimated budget: \$300,000, to be opened July 24, 2007, at 2:00 p.m. (Local Time). Scope of work: Removal of existing steam boilers, associated pipe, equipment and furnishing. Install new steam boilers, feed water pumps, steam pipe and devices. Mandatory Pre-Bid Meeting to be held July 10, 2007,

at 10:00 a.m., in the Animal Sciences Building, Building 459, Room 102, corner of Shealy Drive and Ritchey Road, Gainesville, FL. Specifications and Plans are available in Purchasing and Disbursement Services, Elmore Hall, Radio Road, Gainesville, FL 32611. All questions and bid document requests should be directed to Karen Olitsky, Purchasing and Disbursement Services, kolitsk@ufl.edu or (352)392-1331, ext. 224. For more information, visit www.purchasing.ufl.edu. AMERICANS WITH DISABILITY ACT OF 1991 – If special accommodations are needed in order to attend the Pre-Bid Meeting or the Bid opening, contact Purchasing, purchasing@ufl.edu or (352)392-1331 within three (3) days of the event.

NOTICE TO DESIGN/BUILDER:

The University of Florida Board of Trustees announces that Design/Build services will be required for the project listed below:

Project: UF-319, CELLULOSIC ETHANOL PLANT, LOCATION (TBD)

The project consists of a plant to be co-located at an existing industrial site that provides biomass feedstocks and storage, steam (biomass boiler), electric, waste water treatment, fibrous solids disposal using a biomass boiler, and all permitting needed for construction and startup. Design and construction will focus on the new aspects of technology for cellulosic ethanol (substrate sizing, dilute acid pretreatment, fermentation, and distillation). Feedstocks will include grasses and row crops, bagasse and canes, and wood. Initial design and construction will be modular with a desired production of 1.5-2 million gal/yr. Fully developed, this ethanol plant will process up to 15 dry metric tons of cellulosic biomass/h into up to 10 million gal ethanol/yr.

The total project budget is \$16,000,000.00, including site planning, underground utilities, fees, survey & tests, plant & building design, furnishing & equipment, plant start-up commissioning and contingencies. Construction shall be “fast-tracked” to tentatively begin by December 2007 and end by January 2008. Silver LEED (Leadership in Energy and Environmental Design) certification by the U.S. Green Building Council is required to the extent appropriate.

The contract for design/build services will consist of two parts. Part one services include design, construction administration, constructability analyses, development of a cost model, estimating, and the development of a Guaranteed Maximum Price (GMP) proposal based on 60% Construction Documents, for which the design/builder will be paid a fixed fee.

If the GMP is accepted, part two, the construction phase, will be implemented. In part two of the contract, the design/builder becomes the single point of responsibility for completion of the construction documents, performance of the construction of the project and shall publicly bid trade contracts. Failure to negotiate an acceptable fixed fee for part one of the contract, or
