Ordinance No. 07-29 also amends the Village code to reflect a previously approved comprehensive plan amendment re-establishing the 102.4 square foot ratio resulting in a commercial space square foot allocation of 2,868 square feet (28 units x 102.4 sq/ft) per year.

LAND AND WATER ADJUDICATORY COMMISSION

On March 16, 2007, the Florida Land and Water Adjudicatory Commission (the “Commission”) received a Petition to adopt an amendment to rule Chapter 42H-1, F.A.C., to amend the boundary of the Crossings at Fleming Island Community Development District (the “District”) pursuant to Chapter 190, F.S. (The Petition was supplemented at the request of the Secretary of the Commission.) Petitioner asserts a copy of the Petition was filed with Clay County. The Commission will follow the requirements of Chapter 190, F.S., and Chapter 42-1, F.A.C., in ruling on this Petition, as supplemented.

SUMMARY OF CONTENTS OF PETITION: The Petition, as supplemented, was filed by the Crossings at Fleming Island Community Development District with its registered office located at 1279 Kingsley Avenue, Suite 118, Orange Park, Florida 32073. The Petition, as supplemented, proposes to modify the land area presently serviced by the District by amending its boundary to add 20.7 acres to the District located within Clay County, Florida. The District currently covers approximately 2,848 acres of land and after amendment the District will consist of approximately 2,868.7 acres. The District is generally located northwest, southwest and southeast of the intersection of U.S. 17 and C.R. 220 on Fleming Island. There are no parcels within the expansion parcels or the proposed amended boundaries of the District that are to be excluded from the District. Petitioner has obtained written consent to amend the boundaries of the District from the owners of 100% of the real property comprising the expansion parcels. The District intends to provide the following improvements or provide the following facilities or services for the expansion parcels: master surface water management and drainage system; internal roadways; potable water distribution; wastewater collection system; and reclaimed water system.

SUMMARY OF THE STATEMENT OF ESTIMATED REGULATORY COSTS: In association with the Petition, as supplemented, the Petitioner has caused a Statement of Estimated Regulatory Costs (“SERC”) to be prepared in compliance with Section 120.541, F.S. The complete text of the SERC is contained at Exhibit “9” to the Petition. By way of summary, the SERC estimates the principal individuals and entities likely to be required to comply with the amended rule are the District, the State of Florida, and Clay County. The SERC estimates that rule amendment implementation and enforcement costs to the above-described entities will be minimal and/or are offset by the payment of requisite filing and annual fees; and, estimates there will be no negative impact on state and local revenues from the proposed amendment of the rule. With respect to an estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule, the SERC indicates that to fund the cost of maintaining infrastructure, assessments and fees will be imposed on the individuals who may ultimately reside on or own property within the expansion parcels of the District. Finally, the SERC concludes that the amendment of the District’s boundary will have only incidental or a positive impact on small businesses and should not have a negative impact on small counties. Clay County is not a small county as defined by Section 120.52, F.S. The SERC analysis is based on a straightforward application of economic theory and input was received from professionals associated with the District.
