RULE NOS.: RULE TITLES:
12E-1.0052 Unidentifiable Collections
12E-1.014 Internal Revenue Service Tax Refund Offset Program; Passport Denial; Administrative Offset Program; Internal Revenue Service Full Collection Services
PURPOSE AND EFFECT: The purpose of the proposed amendments to Rule 12E-1.014, F.A.C., is to reflect the change in 42 USC Section 664(c) which now allows the certification of past-due amounts for Internal Revenue Service Tax Refund Offset in non-public assistance cases where the child has emancipated. The amendment also changes the certification threshold for passport denial from $5000 to amounts over $2500 as allowed by Section 409.2564(10), F.S., as amended July 1, 2007. Other amendments provide new exception criteria for restoring passport privileges to an obligor who owes more than $2500. The effect of the proposed rule is to inform the public the Department will certify past-due amounts for non-public assistance cases for a child for Internal Revenue Service Tax Refund Offset, even if the child has emancipated. The rule also informs the public that the certification threshold for past-due support for passport denial has changed from $5000 to past-due support of more the $2500. Finally, the rule informs the public the Department may consider exceptions to restoring an obligor’s passport even if the obligor was not certified in error and has not paid the past-due support balance amount below $2500. The purpose of creating proposed Rule 12E-1.0052, F.A.C., is to provide guidance to the public about the Department’s procedures for resolving unidentifiable Title IV-D support payments received by the State Disbursement Unit. The proposed rule also provides information to the public about how to reclaim unidentifiable collections. The effect of the proposed rule is to provide: (1) information on identifying support payments that could not be processed because there was not enough information to identify who the payment was for; (2) information on how a noncustodial parent may seek the return of a payment which was never processed; and (3) guidance on how the Department will process payment return requests.
SUBJECT AREA TO BE ADDRESSED: Rule 12E-1.014, F.A.C.: The subject of this workshop is: (1) the certification threshold amount for passport denial; (2) the certification of past-due support amounts for Internal Revenue Service Tax Refund Offset; and (3) the exception criteria for restoring passport privileges. Unless otherwise exempted by Department rule, any installation discharging into ground water shall establish a monitoring program as described in subsection (3) below. Subsection 62-520.310(4), F.A.C., provides that other Department rules with different ground water requirements for specific types of installations will supersede these generally applicable requirements. If requested by the permittee, a monitoring program instituted under some other state, federal, or local government regulation or permit shall be substituted for this program if it is in substantial compliance with subsection (3) below. All field and laboratory activities performed under a monitoring program shall meet the quality assurance requirements in Chapter 62-160, F.A.C.
(2) No change.
(3) Monitoring Plan Contents. Unless otherwise specified in program-specific Department rules, the installation owner shall provide the Department with a plan containing findings and recommendations for ground water monitoring derived from site-specific information. Any information submitted as part of a permit application does not have to be resubmitted as part of the ground water monitoring plan. The plan shall evaluate facility operations, discharges, actual and potential environmental risk, and provide a design that ensures compliance with applicable program-specific rules and water quality criteria depending on where the discharge will take place. The design shall be such that the permittee can detect and monitor adverse impact upon ground water and upon surface waters affected by ground water by facility activities. Design of a ground water monitoring plan is variable and dependant on the complexity of the site hydrogeology, type of facility, and method and characteristics of the discharge. The Department’s document, Guidance for Ground Water Monitoring Plan Design, 2008, is adopted as guidance to assist permittees and installation owners in designing and placing monitoring wells to demonstrate whether compliance with the requirements in this chapter are being achieved. Copies of this document are available from the Department of Environmental Protection, Bureau of Water Facilities Regulation, MS 3580, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400 or at the Department Internet site at http://www.dep.state.fl.us/ water/groundwater/pubs.htm. Pursuant to Chapters 492 and...
471, F.S., the ground water monitoring plan shall be signed and sealed by the professional geologist or professional engineer who prepared or approved it. The Department shall evaluate the adequacy of the plan upon submittal; however, the applicant should arrange a pre-application meeting with the Department to resolve the needed information at an early stage. The plan shall:

(a) through (h) No change.

(i) Identify the location and use of all wells within 1000 feet of the site and all wells within the installation’s property boundary.

(4) Plan Approval. The plan shall be approved if it will provide the data needed to evaluate an installation’s compliance with the ground water requirements contained in this chapter. If the plan is approved, it will become part of the permit. If a permit is not associated with the plan, a letter of approval, denial, or request for modification will be sent to the applicant. A letter of approval or denial shall have a notice of rights for an administrative hearing under Sections 120.569 and 120.57, F.S.

(5) No change.

(6) Location, Design, and Construction of Monitoring Wells to Detect Migration of Contaminants. Monitoring wells shall be as follows:

(a) through (k) No change.

(l) If any monitoring well becomes inoperable or damaged to the extent that sampling or well integrity may be affected, the permittee shall notify the Department’s office that issued the permit within two business days from discovery and a detailed written report shall follow within seven days. The written report shall detail what problem has occurred and remedial measures that have been taken to prevent recurrence or request approval for replacement of the monitoring well. All monitoring well design and replacement shall be approved by the Department before installation.

In accordance with this rule:

(a) Depending on the severity and repetition of specific violations, the Office may impose an administrative fine, suspension of a license, or revocation of a license or any combination thereof;

(b) The Office may impose a cease and desist order in conjunction with and in addition to any of the designated sanctions set forth in this rule when appropriate under the circumstances;

(c) Notwithstanding this rule, the Office may, when appropriate, enter orders of removal or prohibition or orders denying applications, and may seek the entry of an injunction and appointment of a receiver by a court of competent jurisdiction; and

(d) The Office will consider the licensee’s disciplinary history for the past five years in determining an appropriate penalty, and may impose a more severe penalty when the disciplinary history includes past violations.

In accordance with Sections 560.1141(2) and (3), F.S., the Office shall consider the following circumstances in determining an appropriate penalty within the range of penalties prescribed in this rule for each violation as based upon the citation number. The Office also shall consider these circumstances in determining a penalty that deviates from the range of penalties prescribed for each violation and citation number as a result of such circumstances:

(a) Whether the violation rate is less than 5% when compared to the overall sample size reviewed;

(b) The degree of harm to the customers or the public;

(c) The disciplinary history of the licensee;

(d) Whether the licensee detected and voluntarily instituted corrective responses or measures to avoid the recurrence of a violation prior to detection and intervention by the Office;

(e) Whether the licensee’s violation was the result of willful misconduct or recklessness;

(f) Whether at the time of the violation, the licensee had developed and implemented reasonable supervisory, operational or technical procedures, or controls to avoid the violation;

(g) Where the violation is attributable to an individual officer, director, responsible person, or authorized vendor, whether the licensee removed or otherwise disciplined the individual prior to detection and intervention by the Office;

(h) Whether the licensee attempted to conceal the violation or mislead or deceive the Office;

(i) The length of time over which the licensee engaged in the violations;

(j) Whether the licensee engaged in numerous violations or a pattern of misconduct;

(k) The number, size and character of the transactions in question;

(l) Whether the licensee provided substantial assistance to the Office in its examination or investigation of the underlying misconduct;

(m) Other relevant, case-specific circumstances.

The list of violations cited in this rule is intended to be comprehensive, but the omission of a violation from the list does not preclude the Office from taking any action authorized by Section 560.114, F.S.

The ranges for administrative fines imposed by this rule are $1,000 – $3,500 for an “A” level fine; $3,500 – $7,500 for a “B” level fine; and $7,500 – $10,000 for a “C” level fine.

DEPARTMENT OF MANAGEMENT SERVICES

Division of State Employees’ Insurance

RULE NO.: RULE TITLE:
60PER09-1 Employees Not on Payroll/Return to
Payroll

SPECIFIC REASONS FOR FINDING AN IMMEDIATE
DANGER TO THE PUBLIC HEALTH, SAFETY OR
WELFARE: The American Economic Recovery and
Reinvestment Act of 2009 (the Act), Pub. L. 111-5, includes a
provision under which the federal government will pay a
portion of COBRA premiums for certain individuals whose
employer group health plan coverage would otherwise end due
to an involuntary job loss between September 1, 2008, and
December 31, 2009. Given the economic conditions, state
employees may suffer layoffs. Those who are in layoff status
and cannot afford regular COBRA premiums will lose their
health insurance. Health care is a matter of great public
concern.

REASON FOR CONCLUDING THAT THE PROCEDURE
IS FAIR UNDER THE CIRCUMSTANCES: Emergency
rulemaking is fair under the circumstances because without the
amendment those persons involuntarily in layoff status may
not be able to take advantage of the COBRA subsidy that is
designed to help people afford the cost of continuing health
care insurance. Immediate clarification is necessary to reduce
the potential for ambiguity and to ensure that employees in
layoff are eligible to receive the nine months of COBRA
subsidy provided under the Act.

SUMMARY: This rule amendment clarifies that employees
who are involuntarily put in layoff status between September 1,
2008, and December 31, 2009, are “assistance eligible
individuals” eligible for 18 months of COBRA followed by an
additional 6 months of coverage eligibility under Rule
60P-2.012, F.A.C. This clarification removes the potential for
ambiguity and ensures that layoffs are eligible to receive the
nine months of COBRA subsidy provided under the Act.

DEPARTMENT OF FINANCIAL SERVICES
NOTICE IS HEREBY GIVEN THAT on April 13, 2009, the Department of Financial Services, Division of State Fire College has issued an order. The Order has been assigned the number 102844-09-FM. Petitioner sought a variance of Rules 69A-37.084 and 69A-37.085, Florida Administrative Code, which set forth the requirements for firefighter supplemental compensation. Because Petitioner holds a degree from an educational institution which has chosen not to seek accreditation over concerns that it would jeopardize its religious and philosophical distinctive. Petitioner sought a variance from the requirement that an “eligible Bachelor’s Degree” must be conferred by a post-secondary institution that has received accreditation “from an accrediting agency that is recognized by the U.S. Department of Education.” The Department examined the documentation submitted by Petitioner in support of his Petition and determined that a variance or waiver of Rules 69A-37.084 and 69A-37.085, Florida Administrative Code, was warranted to the limited extent that “accredited” does not require “accreditation from an accrediting agency that is recognized by the U.S. Department of Education” under these particular facts and circumstances.

A copy of the Order may be obtained by contacting: Regina Keenan, Senior Attorney, Department of Financial Services, 200 East Gaines Street, Tallahassee, Florida 32399-0333, (850)413-4236.

690-175.008 Unfair Discrimination in Private Passenger Motor Vehicle Insurance Rates – Based on History of Accidents.

(1) No insurer or person authorized to engage in the business of insurance in the State of Florida shall use any motor vehicle accidents which may have occurred at any time in the past except for the 36 months immediately preceding the effective date of the new or renewal policy as a basis for imposing or requesting an additional premium for or for refusing to renew any policy, contract, or certificate of motor vehicle liability, personal injury protection, medical payment, or collision insurance, or any combination thereof. Notwithstanding the above, the imposition of or the request for an additional premium due to at fault motor vehicle accidents referred to in this rule may be imposed on a policy, contract, or certificate of motor vehicle liability, personal injury protection, medical payment, or collision insurance, or any combination thereof in a manner consistent with the processing procedures of an insurer and may not remain in effect in excess of 36 months.

(2)(a) No insurer or person authorized to engage in the business of insurance in the State of Florida shall use any motor vehicle accident which may have occurred at any time in the past as the sole basis for imposing or requesting an additional premium for or for refusing to renew any policy, contract, or certificate of motor vehicle liability, personal injury protection, medical payment, or collision insurance, or any combination thereof unless that insurer’s file contains information from which the insurer in good faith determines that the insured was substantially at fault in the accident.

609-157.303 Home Health Care Only Rates.

(1) The footnote following Section 627.9407, F.S., states that Section 11, Ch. 2006-251, F.S., provides that “[h]is act shall apply to long-term care insurance policies issued or renewed on or after July 1, 2006. For any long-term care insurance policy issued prior to July 1, 2006, the provisions of [Section 627.9407, F.S.] shall apply to such policy only upon renewal of such policy on or after July 1, 2008, and the policy shall so provide by endorsement to the policy.”

(1)(h) The following maximum new business rates are effective for 2009 rate increase filings and for 2010 rate filings until new rates are published. These annual rates are appropriate for:

(a) Tax qualified policies;
(b) A benefit of $100/day;
(c) An elimination period of 90 days;
(d) Policies offering Restoration of Benefits, and
(e) Sales in Hillsborough County. For all other counties, the rate from this table should be adjusted by the insurer’s current area factor applicable in that county relative to the insurer’s area factor in Hillsborough County.

(f) Insurers who did not use area factors in the closed blocks for which a rate change is being requested may calculate the new business rate as a weighted average of the Hillsborough and the South Florida area factors, where the weights used are in-force premium by county. For the purposes of this calculation, the South Florida area factors are those that apply in Broward, Duval and Palm Beach county. The South Florida area factor is equal to 1.30.

NOTICE OF AVAILABILITY OF STATEMENT OF ESTIMATED REGULATORY COSTS
The Department of Environmental Protection announces the availability of the Statement of Estimated Regulatory Costs (SERC) prepared for the rulemaking for Chapters 62-520 and 62-522, F.A.C. The Notices of Proposed Rule for these chapters were published in the Florida Administrative Weekly on June 27, 2008, and the adoption hearing was held on July 25, 2008. The summary of the SERC is: The proposed revisions to Chapters 62-520 and 62-522, F.A.C., will affect facilities or installations that discharge into ground water, including wastewater treatment plants, phosphogypsum stacks, and solid waste facilities. For the most part, existing requirements will not change. Only one new requirement will impose regulatory cost. Facilities will now be required to conduct sampling and analysis of one or more monitoring wells prior to permit renewal. An estimated 2,050 facilities may be affected. Depending on the parameters required to be sampled prior to permit renewal, this may be an additional cost of between $500 and $1,500 every five years. To obtain a copy of the SERC, contact Cynthia Christen, Senior Attorney, Department of Environmental Protection, MS 35, 3900 Commonwealth Blvd., Tallahassee, FL 32399-3000, (850)245-2230, email: Cynthia.christen@dep.state.fl.us.

NOTICE OF AVAILABILITY OF STATEMENT OF ESTIMATED REGULATORY COSTS
The Department of Environmental Protection announces the availability of the Statement of Estimated Regulatory Costs (SERC) prepared for the rulemaking for Chapter 62B-56, F.A.C. The Notice of Proposed Rule for this chapter was published in the Florida Administrative Weekly on April 25,
2008, and the adoption hearing was held on May 28, 2008. A Notice of Change for the proposed rule was published in the Florida Administrative Weekly on April 17, 2009. The summary of the SERC is as follows: The proposed Chapter 62B-56, F.A.C., will affect beachfront property owners who choose to apply for coastal arming in the form of a geotextile container as the core of a reconstructed dune. The permit application fee will be $5,000 ($1,500 of which is associated with the maintenance phase of the permit and will be refunded if the permit is denied). A number of costs to the applicant are associated with the project, and vary based on location, size, and other factors. Additional costs include those associated with installation of the geotextile container as the core of a reconstructed dune, and ongoing maintenance of the project. In addition, the applicant is required to provide financial assurance in an amount that would cover costs incurred by the removal of the structure and restoration of the dune if the project failed to meet the permit requirements. The Department reviewed permit applications for similar projects since 2002, and based on the fact that no small businesses or counties have applied during that time, the Department estimates that the impact on small businesses and counties would be minimal.

To obtain a copy of the SERC, contact: Rosaline Beckham, Department of Environmental Protection, Bureau of Beaches and Coastal Systems, MS 300, 3900 Commonwealth Blvd., Tallahassee, Florida 32399-3000, (850)488-7815 or email: Rosaline.beckham@dep.state.fl.us.
