Wildlife shall be rehabilitated in such a manner as to be able and ready to survive release into the wild. Species of native wildlife that fully recover shall be released into the wild, with American alligators and American crocodiles. Fully recovered individual animals of these species must be placed into a properly licensed exhibition, educational, or breeding facility as directed by commission personnel. The release of native wildlife shall occur at or near the point of capture, or onto habitat where such wildlife naturally occur, and which will biologically support the species.

2. Wildlife may be retained for rehabilitation purposes longer than the 180-day period in instances where a licensed veterinarian has certified that a longer holding period is necessary in the interest of the health and welfare of the wildlife. Medical records concerning all wildlife for which an extension of the 180-day period is obtained shall be maintained at the facility and made available for inspection, upon request, by Commission personnel.

3. Wildlife undergoing rehabilitation or medical treatment shall not be exhibited. Permittees may keep wildlife with permanent physical impairments for educational display under permit in accordance with Section 379.3761, F.S., and Chapter 68A-6, F.A.C.
When wildlife has been diagnosed as “psychologically impaired or imprinted” by an independent rehabilitator and a veterinarian it shall not be considered non-releasable unless such finding is approved by the Commission.

When wildlife has been diagnosed as “physically impaired” it shall be evaluated by an independent rehabilitator or veterinarian and an authorized Commission representative before it is considered to be non-releasable due to its physical impairment.

Permittees shall place non-releasable wildlife in a properly licensed exhibition, educational, or breeding facility.

Wildlife may be transferred or relocated to other licensed rehabilitation facilities at the discretion of the Commission to facilitate alternative treatments and optimum care.

When euthanasia of wildlife is necessary, euthanasia shall be humane.

In certain emergency conditions, such as oil spills, hurricanes, floods, and other natural or manmade disasters, the Commission may impose additional restrictions or provide for permit exemptions as may be necessary to safeguard affected wildlife such as, but not limited to, the coordination and direction of rehabilitation permittees and their facilities, the assignment of zones for implementing rehabilitative services, and the authorization of additional volunteers to aid in the capture and treatment of wildlife.

The permit may be subject to revocation, suspension, or non-renewal in accordance with Rule 68A-5.004, F.A.C.

(1) Any person may establish, maintain, or operate a game farm within this state for the protection, propagation, raising or production of native or non-native game for private or commercial purposes. (b) All game farms must be fenced in such manner that domestic game thereon may not escape and wild game on surrounding lands may not enter. Game farms are subject at any time to inspection by commission personnel, for compliance with Commission rules and other applicable laws. No game farm license shall be issued for the possession of game until the premises of such game farm has been inspected and approved by commission personnel.

(c) Game reared or produced on game farms is considered personal property and may be sold or disposed of as such.

(d) It is unlawful to buy, sell or transfer any live game to or from any unlicensed entity within Florida. Game raised or produced on game farms may be purchased, sold, shipped, and transported for propagation, restocking or food purposes. Recipients of any live game received from a game farm must be licensed pursuant to this rule. Section 379.3761 or 379.3712, F.S., unless exempt from the licensing provision.

3. Persons purchasing or receiving eggs for food or consumptive purposes.

(2) All game farms established under the provisions of this section must comply with Chapter 68A-6, F.A.C., concerning the provisions of food, humane treatment, sanitary conditions, housing and transportation. (3) The person holding a game farm license must maintain a record of each of the following changes in inventory: acquisitions of game, animals harvested for personal consumption, and sale or transfer of game, alive or dead. Such records shall be open to inspection upon request by commission personnel:

68B-14.0045 Commercial Harvest Requirements;
Licenses, Season Closures, Bag and
Trip Limits
68B-14.0046 Transit Through State Waters During
Closed Seasons

PURPOSE AND EFFECT: The purpose of these rule
amendments is to modify the Commission’s Reef Fish Rule to
become mostly consistent with federal reef fish regulations in
the Gulf of Mexico. The National Marine Fisheries Service has
published rules containing regulatory actions for gag grouper,
which is undergoing overfishing, red grouper, and other
federally designated shallow water groupers. Federal rule
changes will become effective in 2009 subject to approval by
the Secretary of Commerce. The Commission is considering
changes to state regulations that would: 1) decrease the
minimum size of commercially caught red grouper in the Gulf
of Mexico from 20 inches to 18 inches total length, 2) reduce the
size limit for the importation and sale of red grouper from
20 inches to 18 inches total length, 3) reduce the aggregate bag
limit for all Gulf grouper from 5 grouper per person per day to
4 grouper per person per day, and 4) include additional shallow
water groupers (red grouper, black grouper, yellowfin grouper,
yellowmouth grouper, rock hind, red hind, and scamp) in the
February 1 through March 31 recreational gag grouper harvest
closure. The closure includes other shallow water grouper
species because fishing for them affects the discard mortality
of gag grouper.

In addition, there are two final rule amendments proposed for
state waters that are not consistent with proposed federal rules:
1) The current commercial closed season of February 15
through March 14 for red, black, and gag grouper will be
modified to prohibit all commercial and recreational harvest
from February 1 through March 31. Additional shallow water
grouper species will be included in the closure (adding
groupers). The effect of this amendment will be to create one
closed season for all commercial and recreational harvest of
shallow water groupers in Gulf state waters. 2) The direct
transit of commercially harvested shallow water groupers
legally caught in the Gulf federal waters offshore of Florida
will be allowed through state waters of Florida during the
February 1 through March 31 closed season in state waters.

The effect of these rule amendments is that federal and state
regulations can be applied more consistently to all fishing
activity in the Gulf of Mexico. There will be some inconsistency with federal regulations due to the prohibition of
commercial fishing in state waters from February 1 through
March 31. The overall effect, however, is to more consistently
apply regulations to minimize confusion for the public and aid
in enforcement of both state and federal fishery regulations. By
adopting these regulations the State of Florida will also be
contributing to the gulf-wide effort to reduce fishing pressure
on gag grouper and allow populations of this species and others
to expand. This will help ensure a larger sustainable harvest for

SUMMARY: Rule 68B-14.0035 F.A.C. (Size Limits:
Amberjacks, Black Sea Bass, Gray Triggerfish, Grouper,
Hogfish, Red Porgy, Snapper) would be amended to reduce the
commercial size limit for red grouper in the Gulf from 20 to 18
inches total length. Rule 68B-14.00355 F.A.C. (Size Limits for
Importation and Sale) would be amended to reduce the size
limit for the importation and sale of red grouper from 20 inches
to 18 inches total length. Rule 68B-14.0036, F.A.C.
(Recreational Bag Limits: Snapper, Grouper, Hogfish, Black
Sea Bass, Red Porgy, Amberjack, Exception, Wholesale/Retail
Purchase Exemption) would be amended to reduce the
aggregate bag limit for Gulf grouper from 5 grouper per person
per day to 4 grouper per person per day. Rule 68B-14.0039,
F.A.C. (Recreational Grouper Season) would be amended to
include additional shallow water groupers (including red
grouper, black grouper, yellowfin grouper, yellowmouth
grouper, rock hind, red hind, and scamp) in the February 1
through March 31 gag grouper closure. In Rule 68B-14.0045,
F.A.C. (Commercial Harvest Requirements; Licenses, Season
Closures, Bag and Trip Limits) the current commercial closed
season of February 15 through March 14 for red, black, and
gag grouper would be modified to prohibit commercial harvest
from February 1 through March 31. Additional shallow water
grouper species would also be included in the closure (adding
yellowfin grouper, yellowmouth grouper, rock hind, red hind,
and scamp). The effect of this amendment would be to create
one closed season for all commercial and recreational harvest
of shallow water groupers in Gulf state waters. Rule
68B-14.0046, F.A.C. (Transit Through State Waters During
Closed Season) would be created to allow the direct transit of
commercially harvested shallow water groupers legally caught
in Gulf federal waters through Gulf state waters of Florida during the February 1 through March 31 closed season in state waters.

to 3126 N. 34th Street (Emerald Hills Subdivision); Section 05, Township 51 South, Range 42 East, Broward County. The petition seeks relief from subsections 40E-6.011(4) and (6). Florida Administrative Code, which governs the placement of permanent and semi-permanent above-ground structures within 40 feet of top of canal bank within Works or Lands of the District.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Kathie Ruff at (561)682-6320 or e-mail: kruff@sfwmd.gov. AGENCY FOR HEALTH CARE ADMINISTRATION

NOTICE IS HEREBY GIVEN THAT on April 29, 2009, the Agency for Health Care Administration has issued an order. On February 9, 2009, the Agency for Health Care Administration, received a Petition for Variance from Rule 59G-13.083, Florida Administrative Code (“Petition”), from K. S. c/o G. H. (“Petitioner”). Rule 59G-13.083, Florida Administrative Code (“F.A.C.”), entitled Developmental Disabilities Waiver Services, governs all developmental disabilities waiver services providers enrolled in the Florida Medicaid program, and incorporates by reference the Florida Medicaid Developmental Disabilities Waiver Services Coverage and Limitations Handbook, July 2007 (“Handbook”). Petitioner seeks variance from a portion of the Environmental Accessibility Adaptations provision of the Handbook. The Petition was published in the Florida Administrative Weekly on March 6, 2009. On April 29, 2009, AHCA granted the Petition. The general basis for this decision was that Petitioner met the general requirements for variance: (a) Petitioner has provided facts that constitute competent, substantial evidence to support a variance of Rule 59G-13.083, F.A.C. If this relief is not granted, the literal application of Rule 59G-13.083, F.A.C., to Petitioner would violate the principles of fairness. (b) AHCA finds that Petitioner has established that a strict application of Rule 59G-13.083, F.A.C. and the subject handbook provision under the circumstances of this case would lead to unreasonable, unfair, and unintended results, as it may pose a threat to Petitioner’s safety and well-being. Additionally, the cost and financial obligations related to environmental adaptations may pose a substantial hardship for Petitioner.

A copy of the Order may be obtained by contacting: Richard Shoop, Agency Clerk, Agency for Health Care Administration, 2727 Mahan Drive, Building 3, Mail Station 3, Tallahassee, Florida 32308.

Cancelled or delayed sailing after pilot reports aboard (not due to weather) from $200 per hour or fraction thereof, $400 max, to $250 per hour or fraction thereof, $500 max.
