RULE NO.: RULE TITLE: 33-602.201 Inmate Property

PURPOSE AND EFFECT: The purpose and effect of the proposed rule is to add a bowl to the list of permissible items and clarify the circumstances and time frames under which consumable canteen purchased may be kept.

SUBJECT AREA TO BE ADDRESSED: Inmate Property.

RULEMAKING AUTHORITY: 944.09 FS.

LAW IMPLEMENTED: 944.09 FS.

IF REQUESTED IN WRITING AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE NOTICED IN THE NEXT AVAILABLE FLORIDA ADMINISTRATIVE WEEKLY.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT AND A COPY OF THE PRELIMINARY DRAFT IS: Kendra Lee Jowers, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500
THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

33-602.201 Inmate Property.
(1) through (3) No change.
(4) Authorized Property.
(a) through (d) No change.
(e) Inmates shall be required to maintain receipts for items purchased from the canteen for as long as they possess the items. In instances where items purchased from the canteen are added to Form DC6-224, Inmate Personal Property List, by the property officer, the inmate will not be required to maintain the original canteen receipt. Perishable food and beverage items purchased from the canteen are intended for immediate consumption and may not be stored in an inmate’s housing area, and inmates may not retain such items longer than 30 days, as evidenced by the canteen receipt. Perishable food and beverage items are those that are unsealed or that require refrigeration. Nonperishable food or beverage items may not be kept longer than 30 days, as evidenced by the canteen receipt, and shall be considered contraband if found in the possession of an inmate more than 30 days after its purchase.
(f) No change.
(5) through (17) No change.

APPENDIX ONE
PROPERTY LIST

This list incorporates all property authorized to be possessed by inmates in all Department institutions and facilities except community correctional centers. Except for items specified below as “exemptions”, property received must be in compliance with this list. Inmates in possession of property previously approved by the Department of Corrections which meets the description of property on the list shall be allowed to retain the property. Inmates transferring to Department facilities from private correctional facilities shall be allowed to retain only those items that are in compliance with the list of authorized property. As items sold in canteens at private facilities may differ from those sold in Department canteens, items purchased in canteens at private facilities will not always be admissible in Department facilities.

Definitions.
The “quantity” establishes a maximum possession limit. This does not mean that all state issue items will be issued to each inmate, or that the maximum number of items will be issued. Items found in the possession of an inmate that are in excess of the established “quantity” shall be treated as contraband in accordance with Rule 33-602.203, F.A.C. Where there is a “value” indicated, the authorized item shall not exceed that value. The terms “canteen” and “state issue” refer to the sources from which property can be obtained after January 1, 1996. All items with the “canteen” designation shall be available in all institutional canteens or through canteen order. All canteen items are transferable between institutions. “State issue” means that the institution has the authority to issue this item to inmates based upon the character of the institution, the location of the institution, the housing or work assignment of the inmate, or other factors related to institution or inmate needs. Institutions housing death row inmates shall make adjustments to this property list when possession of listed items by death row inmates would create a threat to the security of the institution.

Exemptions.
Inmates already in possession of the following previously approved items shall be allowed to retain the items until they are no longer serviceable, but shall not be allowed to replace them with like items.
– Clothing items of a different color than specified on the property list.
– Locks other than V68 series
– Plastic bowls, tumblers, cups and lids
– Pantyhose
– Nail clippers larger than 2-1/2”

PURPOSE AND EFFECT: The proposed rule amendments are intended to set forth additional disciplinary guidelines for specific violations.  
SUMMARY: The proposed rule amendments set forth additional guidelines and penalties for various violations.  
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: A Statement of Estimated Regulatory Costs has been prepared. Essentially, the Statement estimates that physician assistants who are required to pay additional fines, attend courses and perform other duties as a result of violating laws and rules will be impacted by the rule. In addition, in instances where a license is revoked, the impact may negatively affect small business due to the loss of the licensee performing services. A positive impact in the community will result in instances where a physician assistant is required to perform community service at no charge to the public. Those entities providing continuing medical education will be positively impacted by the increased revenues derived from licensees who are required to complete designated CME as a result of certain violations of laws and rules.

64B8-30.015 Disciplinary Guidelines.  
(1) Purpose. Pursuant to Section 456.072, F.S., the Boards provide within this rule disciplinary guidelines which shall be imposed upon physician assistant applicants or licensees whom it regulates under Chapters 458 and 459, F.S. Each range includes the lowest and highest penalty and all penalties falling between, including continuing medical education (CME). The purposes of the imposition of discipline are to punish the applicants or licensees for violations and to deter them from future violations; to offer opportunities for rehabilitation, when appropriate; and to deter other applicants or licensees from violations.

In imposing discipline upon physician assistant applicants and licensees, in proceedings pursuant to Sections 120.57(1) and (2), F.S., the Board shall act in accordance with the following disciplinary guidelines and shall impose a penalty within the range corresponding to the violations set forth below. The verbal identification of offenses are descriptive only; the full language of each statutory provision cited must be consulted in order to determine the conduct included.

(Substantial rewording of Rule 64B9-8.005, F.A.C. See Florida Administrative Code for present text.)

64B9-8.005 Disciplinary Proceedings Unprofessional Conduct.

Unprofessional conduct shall include: Practicing beyond the scope of the licensee's license, educational preparation or nursing experience, including but not limited to: administration or monitoring the administration of any medication intended to create an altered level of consciousness that is a deeper level than moderate sedation for a surgical, diagnostic or therapeutic procedure by a registered nurse or licensed practical nurse; provided:

(1) A registered nurse may, pursuant to physician order, administer or monitor the administration of medications to achieve deep sedation to a patient who is continuously monitored and mechanically ventilated with a secured, artificial airway, or to a patient for end of life care, including hospice patients. Examples of medications used for deep sedation in this situation include, but are not limited to, propofol, pentothal and dexmedetomidine. Due to the potential for rapid, profound changes in sedative/anesthetic depth and the lack of antagonist medications, even if moderate sedation is intended, patients receiving propofol should receive care consistent with that required for deep sedation. Therefore the administration of propofol should only be performed by a practitioner experienced in general anesthesia and not by a registered nurse, with the exception of a patient who is continuously monitored and mechanically ventilated with a secured, artificial airway.

(2) A registered nurse may administer prescribed pharmacologic agents to non-mechanically ventilated patients for the purpose of moderate sedation in anticipation of anxiety and or discomfort during a time-limited surgical, diagnostic or therapeutic procedure. The registered nurse must continuously monitor the patient throughout the procedure and have no other responsibilities that would require leaving the patient unattended or would compromise continuous monitoring during the procedure. The registered nurse must document the patient's level of consciousness at least every five minutes during the procedure. In the event a deeper level of sedation (such as deep sedation or general anesthesia) results from the administration of prescribed pharmacologic agents, the procedure must be stopped and the level of sedation returned to moderate sedation with the assistance of the prescribing physician.

(3) A registered nurse or licensed practical nurse may administer prescribed pharmacologic agents to patients for the relief of existing pain and anxiety, but not for the purpose of deep sedation for a surgical, diagnostic or therapeutic procedure.

(4) In order to administer or monitor any pharmacologic agents in accordance with subsection (1) or (2) above, a registered nurse must:

(a) Prior to any administration or monitoring of any pharmacologic agents, successfully complete a program of study which reflects the extent of privileges requested and which will include a criteria-based competency evaluation. At a minimum, course content will include: pharmacology and physiology, physical assessment and monitoring techniques, airway anatomy, airway management techniques and an opportunity for skill development. The evaluative criteria will cover knowledge and psychomotor skills in assessment and monitoring, principles of pharmacodynamics and pharmacokinetics (onset, duration, distribution, metabolism, elimination, intended and adverse effects, interactions, dosages and contraindications), basic and difficult airway management, mechanical ventilation, and cardiopulmonary resuscitation. The registered nurse must also be certified in advanced cardiac life support:

(b) Complete a patient assessment and ensure that the practice setting requires that the physician prescribing the pharmacologic agent has evaluated the patient based on established criteria;

(c) Ensure that the practice setting requires that the prescribing physician is immediately available throughout the procedure and recovery period;

(d) Ensure that written policies and procedures for managing patients who receive moderate sedation are reviewed periodically and are readily available within the practice setting;
(e) Ensure that the practice setting has in place a quality assurance and performance improvement process that measures patient, process and structural outcome indicators; and

(f) Evaluate the patient for discharge readiness based on specific discharge criteria and ensure that the practice setting requires that the physician approves of the patient discharge.

(5) The following definitions apply for purposes of this rule:

(a) Deep sedation means a medication-induced depression of consciousness that allows patients to respond purposefully only after repeated or painful stimulation. The patient cannot be aroused easily, and the ability to maintain a patent airway independently may be impaired with spontaneous ventilation possibly inadequate. Cardiovascular function usually is adequate and maintained.

(b) General anesthesia means the patient cannot be aroused, even by painful stimulation, during this medication-induced loss of consciousness. Patients usually require assistance in airway maintenance and often require positive pressure ventilation due to depressed spontaneous ventilation or depression of neuromuscular function. Cardiovascular function may also be impaired.

(c) Moderate sedation means a minimally depressed level of consciousness that allows a surgical patient to retain the ability to maintain a patent airway independently and continuously and respond appropriately to verbal commands and physical stimulation.

(d) Immediately available means having a health care provider trained in advanced cardiac life support and resuscitation skills available to assist with patient care within five minutes.

(6) Pharmacologic agents that may be administered by a registered nurse or licensed practical nurse pursuant to subsections (2) and (3) shall not include medications that are intended to result in loss of consciousness such as propofol, pentothal, dexmedetomidine, or any medication which the manufacturer's package insert states should be administered only by individuals trained in the administration of general anesthesia.

RULE NO.: 64B15-6.011
RULE TITLE: Disciplinary Guidelines
PURPOSE AND EFFECT: The proposed rule amendments are intended to set forth additional disciplinary guidelines for specific violations.
SUMMARY: The proposed rule amendments set forth additional guidelines and penalties for various violations.
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: A Statement of Estimated Regulatory Costs has been prepared. Essentially, the Statement estimates that physician assistants who are required to pay additional fines, attend courses and perform other duties as a result of violating laws and rules will be impacted by the rule. In addition, in instances where a license is revoked, the impact may negatively affect small business due to the loss of the licensee performing services. A positive impact in the community will result in instances where a physician assistant is required to perform community service at no charge to the public. Those entities providing continuing medical education will be positively impacted by the increased revenues derived from licensees who are required to complete designated CME as a result of certain violations of laws and rules.
Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

64B15-6.011 Disciplinary Guidelines.
(1) Purpose. Pursuant to Section 456.072, F.S., the Boards provide within this rule disciplinary guidelines which shall be imposed upon physician assistant applicants or licensees whom it regulates under Chapters 458 and 459, F.S. The purpose of this rule is to notify such applicants and licensees of the ranges of penalties which will routinely be imposed unless the Boards
find it necessary to deviate from the guidelines for the stated reasons given within this rule. The ranges of penalties provided below are based upon a single count violation of each provision listed; for multiple counts of the violated provisions or a combination of the violations the Boards shall consider a higher penalty than that for a single, isolated violation. Each range includes the lowest and highest penalty and all penalties falling between, including continuing medical education (CME). The purposes of the imposition of discipline are to punish the applicants or licensees for violations and to deter them from future violations; to offer opportunities for rehabilitation, when appropriate; and to deter other applicants or licensees from violations.

A person whose substantial interests are affected by the Department’s action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the:

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing.

The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that right.

(b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner’s representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner’s substantial interests are or will be affected by the agency determination;

(e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency’s proposed action;
