 RULE TITLE: Constitutional Amendment Initiative Petition; Submission Deadline; Signature Verification

PURPOSE AND EFFECT: To implement the Florida Supreme Court's holding that the initiative revocation process violates the state constitution. The effect on this proposed rule is that the supervisors of elections and Division of Elections no longer must determine if voters had signed a revocation petition before verifying a voter's signature on an initiative petition.

SUMMARY: The proposed rule eliminates any reference to revocations of voter signatures concerning the signature verification process for initiative petitions. It also clarifies that a supervisor may verify a voter's signature unless the voter had signed the identical initiative which was already verified. To comply with the implementing statute, the rule requires only the voter's street address, not a residential street address, on the petition.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: No Statement of Estimated Regulatory Cost was prepared.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Board of Employee Leasing Companies

RULE NO.: 61G7-5.001
 RULE TITLE: Application Procedure; Application
 Form; Fees; Confidential
 Information; Denial of Application;
 Request for Hearing

PURPOSE AND EFFECT: To amend Rule 61G7-5.001, F.A.C., to clarify what evidence of workers' compensation coverage applicants for initial licensure are required to present to the Board if they have no leased employees. This amendment also presents a more specific website address for accessing application forms, amends Rule 61G7-5.001, F.A.C., and a form incorporated by reference so that licensure applicants will be required to submit electronic fingerprints rather than fingerprint cards, changes the application fee for controlling person applicants, and amends the process for controlling persons who leave one employee leasing company to work for another.

SUMMARY: To amend Rule 61G7-5.001, F.A.C., to clarify what evidence of workers' compensation coverage applicants for initial licensure are required to present to the Board if they have no leased employees. This amendment also presents a more specific website address for accessing application forms, amends Rule 61G7-5.001, F.A.C., and a form incorporated by reference so that licensure applicants will be required to submit electronic fingerprints rather than fingerprint cards, changes the application fee for controlling person applicants, and amends the process for controlling persons who leave one employee leasing company to work for another.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: A Statement of Estimated Regulatory Cost was prepared. The Board determined that the rule amendments would have an impact on small businesses. Currently, the applicant background check fees and the application fees are a combined cost. The rule amendment will separate the two fees. This new method will be more efficient, saving time and a reduction in paper records. Also, the costs of the background checks will be paid through the Department of Business and Professional Regulation's vendor. Although, this new method will be more efficient, the cost of the application process will increase by \$14.00, which is incurred by the applicant.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE TITLE:

62-304.600

Tampa Bay Basin TMDLs

PURPOSE AND EFFECT: The purpose of the rule is to adopt Total Maximum Daily Loads (TMDLs) and their allocations for waters in the Tampa Bay Basin that are impaired for fecal coliform.

SUMMARY: These TMDLs address fecal coliform impairments in the Tampa Bay Basin. Specifically, the TMDL rules being proposed for adoption are for Allen Creek (tidal), Alligator Creek, Bellows Lake Outlet, Bishop Creek (freshwater and tidal segments), Brushy Creek, Bullfrog Creek (freshwater and tidal segments), Cross Canal (North), Double Branch, Little Bullfrog Creek, Lower Rocky Creek, Moccasin Creek (tidal), Mullet Creek (freshwater and tidal segments), Rocky Creek, and Sweetwater Creek. These waterbodies were verified as impaired using the methodology established in Chapter 62-303, F.A.C., Identification of Impaired Surface Waters. The methodologies used to develop the TMDLs were either the percent reduction or load duration analysis method. Section III Notices of Changes, Corrections and Withdrawals

DEPARTMENT OF EDUCATION

State Board of Education

RULE NO.: RULE TITLE:
6A-10.044 Residency for Tuition Purposes
 NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 36, No. 6, February 12, 2010 issue of the Florida Administrative Weekly.

6A-10.044 Residency for Tuition Purposes.

The purpose of this rule is to establish consistent policies for the classification of students as residents for tuition purposes in accordance with criteria set forth in Section 1009.21, Florida Statutes.

~~(1) For Initial Determination of Residency: A dependent person will be one for whom fifty (50) percent or more of his or her support has been provided by another as defined by the Internal Revenue Service. An independent person will be one who provides more than fifty (50) percent of his or her own support as evidenced by the student’s most recent tax return or other documentation, including, but not limited to, pay stubs or bank account statements.~~

(a) A dependent student who attended a Florida high school for a minimum of two (2) academic years immediately preceding his or her initial enrollment in an institution of higher education and graduated from a Florida high school or earned a Florida GED within the last twelve (12) months may use their high school transcript or the GED transcript as evidence of Florida residency. At least one (1) additional document identified in Section 1009.21(3)(c)1. or 1009.21(3)(c)2., Florida Statutes, must be presented evidencing parental legal residence.

(b) If a declaration of domicile, pursuant to Section 222.17, Florida Statutes, is being used as one of the documents to establish residency for tuition purposes, the date that an applicant shall be deemed as establishing residency for tuition purposes shall be twelve (12) months hence from the date that the Clerk of Circuit Court notes the declaration was sworn and subscribed to them. Nothing in this subsection shall prevent the use of additional documentation as evidence that legal residency was established by other means pursuant to Section 1009.21(1)(c), Florida Statutes, as of a date earlier than that established by the Declaration of Domicile.

(2) For Residency Reclassification Determination. A student who is classified as a nonresident for tuition purposes may become eligible for reclassification as a resident for tuition purposes by presenting a minimum of three (3) documents identified in Section 1009.21(3)(c)1. or 1009.21(3)(c)2., Florida Statutes, that convincingly demonstrate the establishment of permanent legal residence in Florida other than for the sole purpose of pursuing a postsecondary education. Documentation must demonstrate that the student or, if the student is a dependent, his or her parent, has maintained legal residence in Florida for at least twelve (12) consecutive months prior to his or her request for reclassification. For Initial Determination of Residency:

~~(a) A person or, if that person is a dependent, his or her parent or parents must have established legal residence in Florida for at least twelve (12) consecutive months prior to his or her initial enrollment in an institution of higher education.~~

~~(b) A dependent student who attended a Florida high school for a minimum of two (2) academic years immediately preceding his or her initial enrollment in an institution of higher education and graduated from a Florida high school or earned a Florida GED within the last twelve (12) months may use their high school transcript or the GED transcript as evidence of Florida residency. At least one (1) additional document identified in Section 1009.21(3)(c)1. or 2., Florida Statutes, must be presented evidencing parental legal residence.~~

~~(c) If a declaration of domicile, pursuant to Section 222.17, Florida Statutes, is being used as one (1) of the documents to establish residency for tuition purposes, the date that an applicant shall be deemed as establishing residency for tuition purposes shall be twelve (12) months hence from the date that the Clerk of Circuit Court notes the declaration was sworn and subscribed to them.~~

(3) The burden of providing clear and convincing documentation that justifies the institution’s classification of a student as a resident for tuition purposes rests with the student or, if the student is a dependent, his or her parent. For documentation to be “clear and convincing,” it must be credible, trustworthy, and sufficient to persuade the institution that the student or, if that student is a dependent, his or her

parent has established legal residency in Florida that is not solely for the purpose of pursuing an education and has relinquished residency in any other state for at least twelve (12) consecutive months prior to classification. Each institution of higher education may establish submission deadlines for all documentation that will be used to determine residency for tuition purposes. Residency Reclassification Determination. A student who is classified as a nonresident for tuition purposes may become eligible for reclassification as a resident for tuition purposes by presenting a minimum of three (3) documents identified in Section 1009.21(3)(c)1. or 2., Florida Statutes, that convincingly demonstrate the establishment of permanent legal residence in Florida other than for the sole purpose of pursuing a postsecondary education. Documentation must demonstrate that the student or, if the student is a dependent, his or her parent, has maintained legal residence in Florida for at least twelve (12) consecutive months prior to his or her request for reclassification.

(4) A non-United States citizen may be eligible to establish residency for tuition purposes if evidence is presented verifying that he or she is legally present in the United States and the student is one of the following: The burden of providing clear and convincing documentation that justifies the institution's classification of a student as a resident for tuition purposes rests with the student or, if the student is a dependent, his or her parent. For documentation to be "clear and convincing," it must be credible, trustworthy, and sufficient to persuade the institution that the student or, if that student is a dependent, his or her parent has established legal residency in Florida that is not solely for the purpose of pursuing an education and has relinquished residency in any other state for at least twelve (12) consecutive months prior to classification. Each institution of higher education may establish submission deadlines for all documentation that will be used to determine residency for tuition purposes.

(a) A foreign national in a nonimmigrant Visa classification eligible for study and with a date of departure that is not during the term the student will be enrolled. The student, and parent, if the student is a dependent, must present evidence of legal presence in the United States. A Student Visa shall not be accepted as evidence of eligibility to establish residency.

(b) A foreign national, such as permanent resident aliens, parolees, asylees, Cuban-Haitian Entrants, and other legal aliens granted indefinite stay, in a status that is eligible for study in the United States.

WATER MANAGEMENT DISTRICTS

NOTICE IS HEREBY GIVEN THAT on April 15, 2010, the South Florida Water Management District (District) Governing Board has issued an order.

SFWMD Order No.: 2010-069-DAO-ROW was issued to AT&T Florida (Application No. 09-1217-2). The petition for waiver was received by the SFWMD on February 8, 2010. Notice of receipt of the petition requesting the waiver was published in the Florida Administrative Weekly, Vol. 36, No. 7, on February 19, 2010. No public comment was received. This Order provides a waiver of the District's criteria to allow for the installation of a temporary aerial crossing with poles located west of State Road 7 Bridge crossing the C-51 Canal while Palm Beach County is widening the bridge; Section 1, 36, Township 43, 44 South, Range 41, 42 East, Palm Beach County. Specifically, the Order grants a waiver from subsections 40E-6.011(4) and (6), Florida Administrative Code, and the Basis of Review for Use or Occupancy of the Works or Lands of the District, incorporated by reference in subsection 40E-6.091(1), Florida Administrative Code, which governs the placement of permanent and/or semi-permanent above-ground facilities within forty feet of the top of the canal bank and within the District's equipment staging areas located 100 feet upstream or downstream of pile-supported crossings within works or land of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver, as follows: 1) the facilities will not significantly interfere with the District's current ability to perform necessary construction, alteration, operation, and routine maintenance activities; and 2) the Order granting a waiver from the subject rule would prevent Petitioner from suffering a substantial hardship.

A copy of the Order may be obtained by contacting: Juli Russell, South Florida Water Management District, 3301 Gun Club Road, MSC 1410, West Palm Beach, FL 33406-4680, (561)682-6268 or by email: jurussel@sfwmd.gov.

NOTICE IS HEREBY GIVEN THAT on April 15, 2010, the Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants has issued an order.

The Department received an Emergency Variance on April 5, 2010 for Section 509.221(1)(b), Florida Statutes, subsection 61C-1.004(1) and paragraph 61C-1.004(1)(d), Florida Administrative Code, and Paragraph 5-202.11(A), 2001 FDA Food Code from Healthy Delights, Coral Springs, FL. The above referenced F.A.C. addresses the requirement that each establishment discharge sewage into an approved collection system and have an approved plumbing system installed. They are requesting to utilize holding tanks to provide potable water and to collect waste water.

The variance request will post in Vol. 36, No. 16 on 4/23/10, and approval is contingent upon the Petitioner ensuring the waste water holding tanks for the three-compartment sink and hand wash sink are emptied at a frequency as to not create a sanitary nuisance; and potable water provided must come from an approved source and be protected from contamination during handling. The Petitioner shall also ensure that the three-compartment sink and hand wash sink are provided with hot and cold running water under pressure.

A copy of the Order may be obtained by contacting: Lydia.Gonzalez@dbpr.state.fl.us, Division of Hotels and Restaurants, 1940 North Monroe Street, Tallahassee, Florida 32399-1011.

NOTICE IS HEREBY GIVEN THAT on April 16, 2010, the Florida Department of Business and Professional Regulation, Division of Hotels and Restaurants has issued an order.

The Department received an Emergency Variance on April 7, 2010, for Subparagraph 3-304.11, FDA Food Code, 3-305.11(A)(2), 2001 FDA Food Code, Paragraph 3-305.14, 2001 FDA Food Code, Subparagraph 4-301.12(A), 2001 FDA Food Code, Subparagraph 4-602.11(A)(5), 2001 FDA Food Code, Paragraph 6-202.15, 2001 FDA Food Code, Paragraph 6-202.16, 2001 FDA Food Code, subsections 61C-4.010(1), (5), (6) and 61C-4.161(1), Florida Administrative Code, from Joy Wallace Catering, Miami, FL. The above referenced F.A.C. addresses the requirement for proper handling, protection and dispensing of food and sanitization of food contact surfaces. They are requesting to dispense potentially hazardous foods from a smoker unit mounted on an open air trailer.

The initial request will post in Vol. 36, No. 17 on 4/30/10 and concludes that the Petitioner's request for variance fails to meet the burden of demonstrating public health safeguards. The following are some of the public health reasons regarding the need to provide adequate warewashing facilities and food protection/enclosure structure (found in the Public Health Reasons/Administrative Guidelines of the 2001 FDA Food Code Annex 3):

Pathogens can be transferred to food from utensils that have been stored on surfaces which have not been cleaned and sanitized. Some pathogenic microorganisms survive outside the body for considerable periods of time. Food that comes into contact directly or indirectly with surfaces that are not clean and sanitized is liable to such contamination. The handles of utensils, even if manipulated with gloved hands, are particularly susceptible to contamination. Pathogens can also contaminate and/or grow in food that is not stored properly.

Food-contact surfaces and equipment used for potentially hazardous foods should be cleaned as needed throughout the day but must be cleaned no less than every 4 hours to prevent the growth of microorganisms on those surfaces.

The three-compartment sink requirement allows for proper execution of the 3-step manual warewashing procedure. If properly used, the three compartments reduce the chance of contaminating the sanitizing water and therefore diluting the strength and efficacy of the chemical sanitizer that may be used.

Sources of environmental contamination may include...air from an uncontrolled atmosphere such as may be encountered when preparing food in a building that is not constructed according to Food Code requirements.

Insects and rodents are vectors of disease-causing microorganisms which may be transmitted to humans by contamination of food and food-contact surfaces. The presence of insects and rodents is minimized by protecting outer openings to the food establishment.

Walls and roofs provide a barrier to protect the interior and foods from the weather, windblown dirt and debris, and flying insects.

There is a reasonable alternative to the requested variance. The petitioner owns and operates a licensed Mobile Food Dispensing Vehicle which if operated in conjunction with a screened, closed-system smoker unit would be in compliance with the above requirements. The petitioner has chosen not to pursue this alternative.

The hardship has been deliberately caused by the petitioner's decision to not use the reasonable alternative of utilizing the currently licensed Mobile Food Dispensing Vehicle in conjunction with the smoker unit.

Therefore the Division concludes that this variance submission meets none of the statutory criteria for granting a variance.

Granting this variance in its current format would create an undesirable precedent upon which all types of mobile food dispensing units could claim a variance. Granting this variance would be inconsistent with the principles of public safety and sanitation articulated in Section 509.032(e)(1), F.S., for public food service establishments enforced by the Division. Based on the foregoing, the Division concludes that the Petitioner's request for variance fails to meet the burden of demonstration that required safety and sanitation safeguards have otherwise been met.
