RULE NOS.:	RULE TITLES:
62-210.200	Definitions
62-210.300	Permits Required
62-210.310	Air General Permits
62-210.920	Registration Forms for Air General Permits

PURPOSE AND EFFECT: The proposed rule amendments (OGC No. 09-3737) involve creation of non-Title V air general permits to replace Title V air general permits separately proposed for repeal. The amendments would also revise several permitting-related definitions for greater clarity, expand air permitting exemption criteria, revise exemption and general permit rule language for greater clarity, and eliminate air general permit registration forms.

SUMMARY: Revisions are needed to Chapter 62-210, F.A.C., to 1) create minor-source air general permits in Rule 62-210.310, F.A.C., to replace the existing major-source (Title V) air general permits at Rule 62-213.300, F.A.C., thereby reducing reporting requirements and fees for affected source categories and allowing Title V air general permits to be repealed; 2) revise and clarify permitting-related definitions, air permitting exemption criteria, and air general permit rule language; 3) expand the existing exemption from air permitting for stationary internal combustion engines to also include engines subject to recent U.S. Environmental Protection Agency (EPA) emission standards; 4) amend the existing air general permit for stationary engines to also include engines subject to the recent EPA standards; and 5) eliminate the air

general permit registration forms for all air general permits in favor of simple statements of information required for registration.

Rule 62-210.200, F.A.C., is referenced in multiple rules. The amendments would have no impact in the following referencing Rules 62-4.050, 62-204.200, 62-210.200, 62-210.220, 62-210.300, 62-210.340, 62-210.370, 62-212.100, 62-212.500, 62-212.720, 62-213.202, 62-213.400, 62-213.410, 62-213.412, 62-213.420, 62-213.440, 62-214.100, 62-296.100, 62-296.340, 62-296.401, 62-296.417, 62-296.470, 62-296.600 and 62-297.100, F.A.C. The amendments would have the intended impact in the following referencing Rules 62-210.200, 62-213.100 and 62-213.300, F.A.C.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The agency has determined that this will not have an adverse impact on small business, and it will not, directly or indirectly, increase regulatory costs in excess of \$200,000 in the aggregate in Florida within 1 year after implementation of this rule. 62-210.300 Permits Required.

Unless exempted from permitting pursuant to this rule or Rule 62-4.040, F.A.C., the owner or operator of any facility or emissions unit which emits or can reasonably be expected to emit any air pollutant shall obtain appropriate authorization from the Department prior to undertaking any activity at the facility or emissions unit for which such authorization is required. The Department grants authorization to conduct such activities by individual air permit or by air general permit. Activities requiring authorization by individual air construction permit are addressed at subsection 62-210.300(1), F.A.C., and activities requiring authorization by individual air operation permit are addressed at subsection 62-210.300(2), F.A.C. Authorization by air general permit is addressed at subsection 62-210.300(4), F.A.C. All emission limitations, controls, and other requirements imposed by any individual air permit shall be at least as stringent as any applicable limitations and requirements contained in or enforceable under the State Implementation Plan (SIP) or Designated Facility Plan that are otherwise federally enforceable. Except as provided at Rule 62-213.460, F.A.C., being authorized to construct, operate, or undertake any other activity by individual air permit or air general permit does not relieve the owner or operator of a facility or emissions unit from complying with ~~any applicable requirements~~, any emission limiting standards or other requirements of the air pollution rules of the Department or any other such requirements under federal, state, or local law.

(1) through (2) No change.

(3) Exemptions from Permitting. Except as otherwise provided herein, an owner or operator shall not be required to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule

62-210.310, F.A.C., for any facility, emissions unit or pollutant-emitting activity that satisfies the applicable permitting exemption criteria of paragraph 62-210.300(3)(a) or (b), F.A.C., or has been exempted from permitting pursuant to Rule 62-4.040, F.A.C. Failure of a facility, emissions unit or activity to satisfy the exemption criteria of paragraph 62-210.300(3)(a) or (b), F.A.C., does not preclude such facility, emissions unit or activity from being considered for exemption pursuant to Rule 62-4.040, F.A.C. Notwithstanding the above, no emissions unit or activity shall be exempt from the requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C., if it would be subject to any unit-specific limitation or applicable requirement, unless compliance with such limitation or requirement is specifically listed as a condition of exemption including a PAL. Furthermore, no new, reconstructed, or modified emissions unit or activity shall be exempt from the requirement to obtain an air construction permit if its emissions would contribute to a major modification or to any modification that would be a major modification but for the use, in whole or in part, of the baseline actual-to-projected actual applicability test in Rule 62-212.400, F.A.C. ~~the provisions of paragraph 62-212.400(2)(a), F.A.C.~~ An emissions unit or pollutant-emitting activity exempt from the requirement to obtain an air construction permit shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if it is contained within a Title V source or if its emissions, in combination with the emissions of other emission units and activities at the facility, would cause the facility to be classified as a Title V source. Exemption from the requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C., does not relieve the owner or operator of a facility or emissions unit from complying with any limitation or requirement applicable to such facility or emissions unit any emissions unit or activity from complying with any requirement under 40 C.F.R. Part 60, 61, or 63, adopted and incorporated by reference at Rule 62-204.800, F.A.C., to which it is subject, even if such requirement is not a unit-specific applicable requirement. ~~Furthermore, an exempt emissions unit or activity shall be subject to any general, facility-level applicable requirements, and its emissions shall be considered in determining the applicability of permitting requirements to other emissions units at the facility or to the facility as a whole.~~

(a) Categorical and Conditional Exemptions. Except as otherwise provided at subsection 62-210.300(3), F.A.C., above, the following facilities, emissions units, and pollutant-emitting activities shall be exempt from any requirement to obtain an air construction permit or non-Title V air operation permit, or to use an air general permit pursuant to Rule 62-210.310, F.A.C. ~~The exemptions listed at~~

~~subparagraphs 62-210.300(3)(a)23. through 37., F.A.C., are valid only if the owner or operator ensures that the conditions of exemption are met.~~

1. through 26. No change.

27. Surface coating operations within a single facility, provided all the following conditions are met.:

a. The surface coating operation shall use only coatings containing 5.0 percent or less VOC, by volume, or the total quantity of coatings containing greater than 5.0 percent VOC, by volume, used at the facility shall not exceed 6.0 gallons per day, averaged monthly, where the quantity of coatings used includes all solvents and thinners used in the process or for cleanup. ~~and~~

b. Such operations are not subject to any unit-specific limitation or applicable requirement.

28. through 29. No change.

30. Bulk gasoline plants, provided all the following conditions are met.:

a. The facility receives and distributes only petroleum-based lubricants, gasoline, diesel fuel, mineral spirits and kerosene. ~~and~~

b. The total storage capacity for gasoline at the facility does not exceed 100,000 gallons. ~~and~~

c. The facility shall not exceed ~~a throughput rate (receive and distribute more than)~~ of 1.3 million gallons of gasoline in any consecutive 12 months. ~~and~~

No revocation shall become effective except after notice is served by personal service, certified mail, or newspaper notice pursuant to Section 120.60(5), F.S., upon the person or persons named therein and a hearing held, if requested within the time specified in the notice. The notice shall specify the provision of the law or rule alleged to be violated, or the permit condition or Department order alleged to be violated, and the facts alleged to constitute a violation thereof.~~

Prior to any sale, other change of ownership, or permanent shutdown of the facility, the responsible official is encouraged to notify the Department of the pending action. The owner shall remain liable for corrective actions that may be required as a result of any violations occurring in the time after the sale or legal transfer of the facility, but before a new owner is entitled to use an air general permit.~~

The responsible official shall keep records in which all occurrences of deviations from any specific monitoring requirements and from the procedures of any startup, shutdown, and malfunction plan required pursuant to paragraph 62-213.300(1)(a), F.A.C., shall be clearly identified. Reports of these deviations shall be submitted to the Department during facility inspections and also submitted with the annual compliance certification as required by subparagraph 62-213.300(3)(m)2., F.A.C. The responsible official shall certify each report as true, accurate, and complete.~~

~~4. The responsible official shall ensure that the Department is promptly notified of deviations from any specific monitoring requirements, including those attributable to upset conditions. Notification shall include the probable cause of such deviations and any corrective actions or preventive measures taken, except that notification shall not be required of actions taken consistent with any startup, shutdown, and malfunction plan required pursuant to paragraph 62-213.300(1)(a), F.A.C. Notification shall be provided within one working day of occurrence of the deviation and may be given by telephone.~~

~~(l) Compliance Plan Requirements:~~

Any deviation from the compliance plan shall constitute a violation of the permit condition and shall be subject to the provisions of paragraph 62-213.300(2)(d), F.A.C.~~

~~(m) Compliance Certification:~~

~~1. For each applicable requirement with which the facility is in compliance, the responsible official shall submit a statement certifying such compliance to the Department annually. The responsible official shall certify each statement as true, accurate, and complete.~~

~~2. The statement of compliance shall identify each term or condition of the permit with which the facility has remained in compliance during the period covered by the statement and shall specify the method used to demonstrate compliance. It shall identify each term or condition of the permit with which the facility has not been in continuous compliance during that reporting period. It shall also include the monitoring report required pursuant to subparagraph 62-213.300(3)(k)3., F.A.C.~~

~~3. For those terms or conditions with which the facility has not been in continuous compliance during any reporting period, the statement shall include the exact period of non-compliance, actions taken to achieve compliance, and the method used to demonstrate compliance.~~

~~(n) The general permit does not authorize any demolition or renovation of the facility or its parts or components which involves asbestos removal. The permit does not constitute a waiver of any of the requirements of Chapter 62-257, F.A.C., and 40 CFR Part 61, Subpart M, National Emission Standard for Asbestos, adopted and incorporated by reference in Rule 62-204.800, F.A.C.~~

STILLWELL & STONE, LLC

NOTICE OF CLAIMS AGAINST SURETY BOND

The State of Florida Office of Financial Regulation ("Office") being authorized and directed to administer the Surety Bond ("the Bond") pursuant to Section 559.546(2), Florida Statutes, enters this Notice of Claims against the Surety Bond arising from alleged violations of the provisions of Chapter 559, Florida Statutes, by Stillwell & Stone, LLC ("S&S").

FINDINGS OF FACT

1. S&S have a surety bond of \$50,000 through Nova Casualty Company.
2. On or about January 31, 2011, Nova Casualty Company informed the Office that it had received claims against the bond that would exceed the amount of the \$50,000 bond.
3. The Office has to enter an order for a Notice of Intent to grant or deny payment 6 months after the date of receipt of the first claim against the bond.
4. The first proper claim against the Bond was on December 22, 2010.

CONCLUSIONS OF LAW

5. Section 559.546(2), Florida Statutes, provides in relevant part:
 - (2) The liability of the surety under any bond issued pursuant to the requirements of this part shall not exceed in the aggregate the amount of the bond, regardless of the number or amount of any claims filed or which might be asserted against the surety on such bond. If multiple claims are filed against the surety on any such bond in excess of the amount of the bond, the surety may pay the full amount of the bond to the office and shall not be further liable under the bond. The office shall hold such funds for distribution to claimants and administratively determine and pay to each claimant the pro rata share of each valid claim made against the funds within 6 months after the date of the filing of the first claim against the surety.
6. Rule 69V-180.010, Florida Administrative Code, provides in relevant part:
 - (2)(a) In the event that the surety has received claims within a six (6) month period, whether or not reduced to judgment, which exceed the amount due by the surety on the bond, the surety may pay the amount due on the bond to the Office of Financial Regulation and shall not be further liable on the bond. At the time payment is made by the surety to the Office of Financial Regulation, the surety shall provide the Office of Financial Regulation with copies of all claims made on the bond. Only valid claims made against the bond within six (6) months after the date of receipt of the first claim against the bond shall be paid. Subsequent to the expiration of the six-month period, the Office of Financial Regulation shall notice its intent to approve or deny the claims on file with the Office of Financial Regulation. The entry of a valid final judgment against the commercial collection agency or the surety shall be conclusive evidence of a valid claim. In the event that the claimant has not reduced the claim to judgment, the claimant may provide evidence to the Office of Financial Regulation pursuant to Section 120.57, Florida Statutes. Should the amount of valid claims exceed the amount on deposit with the Office of Financial Regulation, payment shall be based on the ratio that the person's claim bears to the total claims filed.
7. The Office received the first proper claim against the bond on December 22, 2010. Accordingly, the 6 month period mandated by Section 559.546(2), Florida Statutes, and Rule 69V-180.010, Florida Administrative Code, began to run on said date and will expire on June 22, 2011.

- 8. Claimants shall have until June 22, 2011 to file their claims with the Office pursuant to Section 559.546, Florida Statutes, and Rule 69V-180.010, Florida Administrative Code at which point the Office will issue a notice of intent to approve or deny claims.
