THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

65E-14.012 Contract ~~Closeout~~, Suspension; and Termination.

~~(1) Closeout:~~

~~(a) Each contract shall be closed out as promptly as is feasible after expiration or termination.~~

~~(b) In closing out department contracts, the following shall be observed:~~

~~1. Upon request, the department shall pay the contractor within 120 days for any allowable reimbursable costs not covered by previous payments up to the limits of the amounts specified in the contract.~~

~~2. The contractor shall, within 120 days, refund any unearned state funds advanced to the contractor.~~

~~3. The contractor shall submit, within 120 days of the date of expiration, all financial, performance, and other reports required by the terms of the contract. The department may extend the due date for any report upon receiving a justified request from the contractor and may waive any report which is not needed.~~

~~4. If a contract is closed out without audit, the department retains the right up to five years to disallow and recover an appropriate amount, after fully considering any recommended disallowances resulting from an audit which may be conducted later.~~

~~5. The closeout of a contract does not affect the contractor’s responsibilities with respect to property under Rule 65E 14.010, F.A.C., or with respect to any program income for which the contractor is still accountable.~~

~~(c) Amounts payable to the State. For each contract, the following sum shall constitute a debt or debts owed by the contractor to the State, and shall be recovered from the contractor or its successor or assignees by setoff or other action as provided by law: any contracted funds paid to the contractor by the State in excess of the amount to which the contractor is determined to be entitled under the terms of the contract.~~

~~(d) Violation of terms. When a contractor has materially failed to comply with the terms of a contract, the department may suspend the contract in accordance with subsection (2); below, terminate the contract for cause, as provided in subsection (3), below, or take such remedies as may be legally available and appropriate in the circumstances.~~

~~(1)(2) Suspension.~~

~~(a) When a contractor has materially failed to comply with the terms of a contract, the department may, upon written notice to the contractor, suspend the contract in whole or in part. The notice of suspension will state the reasons for the suspension, any corrective action required of the contractor, and the effective date. The suspension may be made effective at once if a delayed effective date would be unreasonable considering the department’s responsibilities to protect the State’s interest. Suspensions shall remain in effect until the contractor has taken corrective action satisfactory to the department or given evidence satisfactory to the department that such corrective action will be taken, or until the department terminates the contract.~~

~~(b) New obligations incurred by the contractor during the suspension period will not be allowed unless the department expressly authorizes them in the notice of suspension, or an amendment to it. Necessary and otherwise allowable costs which the contractor could not reasonably avoid during the suspension period will be allowed if they result from obligations properly incurred by the contractor before the effective date of the suspension and not in anticipation of suspension or termination. At the discretion of the department,~~

third-party in-kind contributions applicable to the suspension period may be allowed in satisfaction of matching requirements.

(c) Appropriate adjustment to payments under the suspended contract will be made either by withholding subsequent payments or by not allowing the contractor credit for disbursements made in payment of unauthorized obligations incurred during the suspension period.

~~(2)(3) Termination. Any contract may be terminated, with or without cause, in accordance with the terms of the contract.~~

~~(a) Termination for cause. The department may terminate any contract in whole, or in part, at any time before the date of expiration, whenever it determines that the contractor has materially failed to comply with the terms of the contract. The department shall promptly notify the contractor in writing of the determination and the reasons for the termination, together with the effective date.~~

~~(b) Termination on other grounds. Except as provided in paragraph (3)(a) of this rule, contracts may be terminated in whole, or in part, only as follows:~~

~~1. By the department with the consent of the contractor, in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial termination, the portion to be terminated, or~~

~~2. By the contractor, upon written notification to the department, setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated. However, if, in the case of a partial termination, the department determines that the remaining portion of the contract will not accomplish the purposes for which the contract was made, the department may terminate the contract in its entirety under either paragraph (3)(a) or (3)(b), above.~~

~~(c) Termination settlements. When a contract is terminated, the contractor shall not incur new obligations for the terminated portion after the effective date, and shall be responsible for all outstanding obligations after the effective date of the termination. The department shall not allow credit to the contractor for the state's share of any obligations incurred by the contractor after termination.~~

69B-211.042	Effect of Law Enforcement Records on Applications for Licensure

PURPOSE AND EFFECT: In the 2011 Legislative Session, Section 626.207, F.S., was amended to change the way that the criminal history of an applicant affects an application for

insurance agent licensure. This rule amendment conforms the Department's rule to the revised statute. In Rule 69B-211.041, F.A.C., several definitions are deleted because they are no longer needed based on the rewrite to Rule 69B-211.042, F.A.C. Other definitions are revised to provide simplicity and clarity. Rule 69B-211.042, F.A.C., is amended to delete language that is inconsistent with Section 626.207, F.S. as amended. Subsection (1) establishes the process for submission of documentation related to the applicant's law enforcement record. Subsection (2) addresses the effect of failure to fully disclose a Law Enforcement Record. Subsection (3) establishes disqualification periods based on the nature of the crime in a record. Subsection (4) provides increased disqualification periods where an applicant has a record of multiple crimes. Subsection (5) identifies mitigating factors used to reduce disqualifying periods. Subsection (6) identifies aggravating factors used to increase disqualification periods. Subsection (7) prohibits collateral attack of criminal proceedings. Subsection (8) provides that the pendency of a criminal appeal does not affect the consideration of a criminal record for licensure. Subsection (9) provides that the Department will not grant a license to a person in a pre-trial intervention program. Subsection (10) addresses the effect of sealing or expunging of criminal records. Subsection (11) addresses the effect of a pardon. Subsection (12) clarifies the effect of varying terminology found in the law enforcement record documentation. Subsection (13) prohibits licensure of applicants imprisoned, under arrest, in custody, under supervision, or serving a sentence. Subsection (14) provides that passage of a disqualification period does not create an entitlement to a license. Subsection (15) addresses how foreign law enforcement records affect a licensure application. The existing crime classification system is being removed to conform to revisions to Section 626.207, F.S.

**Section II
Proposed Rules**

WATER MANAGEMENT DISTRICTS

Suwannee River Water Management District

RULE NOS.:	RULE TITLES:
40B-4.1020	Definitions
40B-4.3030	Conditions for Issuance of Works of the District Development Permits

PURPOSE AND EFFECT: The purpose of the proposed rule is to adopt a definition for the term “clearing” and remove confusing language to be consistent with recently adopted language, which will allow for better comprehension of the rules within part III of this chapter by the public and District staff.

SUMMARY: This proposed rule will provide a definition for clearing and remove confusing language, with respect to works of the district permits and environmental resource permits.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: There is neither a cost nor an exemption from cost associated with these rules. The clarification of language and new definition will allow for better public and District understanding of what is regulated by the District and should thereby reduce cost to the public.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 373.044, 373.113, 373.171 FS.

LAW IMPLEMENTED: 373.019, 373.084, 373.085, 373.086, 373.403 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULES IS: Robin Lamm, Business Resource Specialist, SRWMD, 9225 C.R. 49, Live Oak, Florida 32060, (386)362-1001 or (800)226-1066 (FL only)

THE FULL TEXT OF THE PROPOSED RULES IS:

40B-4.1020 Definitions.

(1) No change.

(2) “Clearing” means removal of either vegetation or structures for any purpose other than perpetual agricultural or silvicultural activities. Clearing includes, but is not limited to, cutting brush, removal of trees, burning, root-raking, de-stumping, land leveling, earthwork, chopping, grinding, and any other activity intended to convert property from its current condition to a developable condition.

(3)(2) “Conservation Plan” means a formal document, prepared or approved by the local Soil and Water Conservation District organized pursuant to Chapter 582, F.S., which outlines a system of management practices to control soil erosion, reduce sediment loss, or protect the water quality on a specific parcel of property.

(4)(3) “Conversion” means a man-made change to a wetland as defined in Section 373.019(22), F.S., or surface water by draining, filling, or other means which results in the permanent change of the wetland or surface water to an upland.

(5)(4) “Critical Duration” means the duration of a specific storm event (i.e., 100-year storm) which creates the largest volume or highest rate of net stormwater runoff (post-development runoff less pre-development runoff) for typical durations up through and including the 10-day duration event. The critical duration is determined by comparing various durations of the specified storm and calculating the peak rate and volume of runoff for each. The duration resulting in the highest peak rate or largest total volume is the “critical duration” storm.

(6)(5) “Detention” or “To Detain” means the collection and temporary storage of stormwater in such a manner as to provide for treatment through physical, chemical, or biological processes with subsequent gradual release of stormwater.

(7)(6) “Development” means any man-made change to improved or unimproved real estate within a work of the district including but not limited to, construction of surfacewater management systems, works, appurtenant works, structures, mining, dredging, filling, grading, paving, excavation, drilling operations, development of sewage disposal systems, or the alteration of the topography of a tract of land for purposes consistent with the occupation of agriculture, silviculture, floriculture, or horticulture including agricultural closed systems.

(8)(7) “Direct Hydrologic Connection” means a natural connection which occurs on an average of 30 or more consecutive days per year. In the absence of reliable hydrologic records, a continuum of naturally occurring wetlands may be used to establish a direct hydrologic connection.

(9)(8) “Effective Grain Size” means the diameter of filter sand or other aggregate that corresponds to the 10th percentile finer by dry weight on the grain size distribution curve.

(10)(9) “Engineer” means a professional engineer registered in Florida, or other person exempted pursuant to the provisions of Chapter 471, F.S., who is competent in the fields of hydrology and stormwater control.

(11)(10) “Existing Surfacewater Management System” means any surfacewater management system including an individual work upon which construction is complete and the system is in operation on the effective date of this chapter, or any system which has received construction authorization pursuant to a permitting program established under the authority of Chapter 373 or 403, F.S., prior to the effective date of this chapter. In addition, a redevelopment project, including drainage improvements, street paving, or stormwater improvements, which has received funding approval in a local unit of government’s fiscal year 1985-1986 budget or for which federal or state grant funds have been committed prior to the effective date of this chapter shall be considered an existing system.

(12)(11) “Filtration” or “To Filter” means selective removal of suspended matter from stormwater by passing the water through at least two feet of suitable fine textured

granular media such as porous soil, uniformly graded sand and gravel, or other natural or artificial aggregate, which may be used in conjunction with filter fabric and/or underdrain pipe.

~~(13)~~~~(12)~~ “Floodway” or “Regulatory Floodway” means the channel of a river, stream, or other watercourse and adjacent land areas that must be reserved in order to discharge the 100-year flood/one percent annual change of flood without cumulatively increasing the 100-year flood/one percent annual chance of flood elevation more than a designated height. Unless otherwise noted, all regulatory floodways in the Suwannee River Water Management District provide for no more than one-foot rise in water surface elevations.

~~(14)~~~~(13)~~ “Governing Board” means the governing board of a water management district. Unless used in a different context, “governing board” or “board” means the governing board of the Suwannee River Water Management District.

~~(15)~~~~(14)~~ “Impervious” means land surfaces which do not allow, or minimally allow, the penetration of water; included as examples are building roofs and normal concrete and asphalt pavements.

~~(16)~~~~(15)~~ “Minimum Level” means the level of the water table or of the potentiometric surface in an aquifer or the level of surface water at which further withdrawals would be significantly harmful to the water resources of the area.

~~(17)~~~~(16)~~ “Minimum Rate of Flow” means the limit at which further withdrawals from a stream or other watercourse would be significantly harmful to water resources or ecology of the area.

~~(18)~~~~(17)~~ “New Surfacewater Management System” or “New Works” means any system or work which is not an existing system.

~~(19)~~~~(18)~~ “New Development” means any development as defined herein which:

(a) Was not complete on the effective date of this chapter; or

(b) Involves substantial improvement to any structure in a work of the district; or

(c) Involves alteration of any work or appurtenant works or surfacewater management system in a work of the district.

~~(20)~~~~(19)~~ “Obstruction” means any fill, structure, work, appurtenant work, or surfacewater management system placed in waters, a floodway, or a work of the district which may impede the flow of water or otherwise result in increased water surface elevations.

~~(21)~~~~(20)~~ “Project Area” means the total land area owned or controlled by the applicant which will be serviced or affected by a surfacewater management system or work.

~~(22)~~~~(21)~~ “Retention” or “To Retain” means the prevention of, or to prevent the discharge of, a given volume of stormwater runoff by complete on-site storage.

~~(23)~~~~(22)~~ “Stormwater” means the flow of water which results from, and which occurs immediately following a rainfall event.

~~(24)~~~~(23)~~ “Structure” means anything constructed, installed, or portable, the use of which requires a location on a parcel of land. It includes a movable structure while it is located on the land which can be used for housing, business, commercial, agricultural, or office purposes either temporarily or permanently.

~~(25)~~~~(24)~~ “Subdivision” means the platting of real property into three or more lots, parcels, tracts, tiers, blocks, sites, units, or any other division. Subdivision includes the establishment of new streets and alleys, additions, and resubdivisions; and, when appropriate to the context, subdivision applies to the process of subdividing or to the lands or area to be subdivided.

~~(26)~~~~(25)~~ “Substantial Improvement” means any repair, reconstruction, rehabilitation or improvement of a structure, the cost of which exceeds, over a five year period a cumulative total of 50 percent of the market value of the structure either:

(a) Before the improvement or repair is started; or

(b) If the structure has been damaged and is being restored, before the damage occurred.

For the purposes of this definition, “substantial improvement” is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of a building commences whether or not that alteration affects the external dimensions of the building. The term does not, however, include either any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are necessary to assure safe conditions or any alteration of a structure listed on the National Register of Historic Places.

~~(27)~~~~(26)~~ “Surveyor” or “Professional Land Surveyor” means a person who is registered to engage in the practice of land surveying under Sections 472.001 through 472.039, F.S.

~~(28)~~~~(27)~~ “Uniformity Coefficient” means the number representing the degree of homogeneity in the distribution of particle sizes of filter sand or other granular material. The coefficient is calculated by determining the D60/D10 ratio where D10 and D60 refer to particle diameter corresponding to the 10th and 60th percentile of the material which is finer by dry weight.

~~(29)~~~~(28)~~ “Water Management District” means any flood control, resource management, or water management district operating under the authority of Chapter 373, F.S. Unless otherwise stated, water management district or district shall refer to the Suwannee River Water Management District.

~~(30)~~~~(29)~~ “Watershed” means the land area which contributes to the flow of water into a receiving body of water. Watersheds are subdivided into the following types;

Coastal: watershed areas contributing runoff to the Gulf of Mexico by sheet flow or coastal streams which are subject to tidal effect.

Stream: watershed areas contributing runoff to a stream or river.

Lake-Open: watershed areas contributing runoff to a lake which has an outfall.

Lake-Closed: watershed areas contributing runoff to a lake which does not have an outfall.

Stream-Sink: watershed areas contributing runoff to a stream which recharges an aquifer through a sinkhole under normal flow.

Internal Drainage: watershed areas without well defined surfacewater drainage patterns and where runoff, if it occurs, infiltrates as recharge following a rain event.

~~(31)(30)~~ “Work of the District” means those projects and works including, but not limited to, structures, impoundments, wells, streams, and other watercourses, together with the appurtenant facilities and accompanying lands, which have been officially adopted by the governing board as works of the district. Works of the district officially adopted by the board are adopted by rule in Rule 40B-4.3000, F.A.C., of this chapter.

Rulemaking Specific Authority 373.044, 373.113, 373.171 FS. Law Implemented 373.019, 373.403 FS. History–New 9-25-85, Amended 12-22-92, 10-3-95, 5-13-07, _____.

40B-4.3030 Conditions for Issuance of Works of the District Development Permits.

(1) through (11) No change.

RULE NO.: RULE TITLE:

64B3-5.003 Technologist

PURPOSE AND EFFECT: The Board proposes the rule amendment to update the requirements for a technologist.

SUMMARY: The requirements for a technologist will be updated.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: During discussion of the economic impact of the rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Cost (SERC) was not necessary and that the rule amendment will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time. The Board has determined that this rule will not have an adverse impact on small business, or likely increase regulatory costs in excess of \$200,000 in the aggregate within 1 year after implementation of the rule.

Any person who wishes to provide information regarding the statement of estimated costs, or to provide a proposal for a lower regulatory cost alternative must do so in writing within 21 days of this notice.

RULE NO.: 64B3-5.007
RULE TITLE: Director; Limitations and Qualifications

PURPOSE AND EFFECT: The Board proposes the rule amendment to update the qualifications for a director.

SUMMARY: The qualifications for a director will be updated.

64B3-10.005 Scope of Practice Relative to Specialty of Licensure.

The following rules are not intended to prevent collection and storage of specimens or the performance of manual pretesting procedures by persons who are exempt by statute or statutorily authorized within their scope of practice. Clinical laboratory personnel qualified as a physician director, a licensed director, supervisor, technologist or technician in the specialty or specialties indicated can perform testing identified as being within the specialty. Tests which are not yet classified shall be assigned by the Board upon review.

(1) through (13) No change.

(14) The purpose of the specialty of molecular pathology is the use of molecular techniques for the characterization of gene expression (protein, RNA), genetic lesions (DNA) in cells, gene products (proteomics) and analysis on human DNA, RNA and chromosomes to detect heritable or acquired disease-related genotypes, mutations, and phenotypes. It includes the study of how the changes found lead to the disease process, monitoring of the effectiveness of therapy, and detection of residual disease. Techniques included are but not limited to immunohistochemistry, in situ hybridization, mutational analysis, protein analysis, polymerase chain reactions, cell culture and isolation, expression profiling, blotting and microarrays. Clinical laboratory personnel who are licensed in the specialties of microbiology, serology/immunology, clinical chemistry, hematology, immunohematology, histocompatibility or molecular pathology may perform all molecular pathology procedures that are classified within the scope of the license specialty.

(15) The purpose of the specialty of histocompatibility is to insure the best possible results of the determination of tissue compatibility, prevent transmitted infections, and to investigate and evaluate post-transplant problems. The specialty encompasses blood typing, HLA typing, HLA antibody screening, disease markers, Cluster Designation specific to tissue compatibility, flow cytometry, crossmatching, HLA antibody identification, lymphocyte immunophenotyping, immunosuppressive drug assays, allogenic, isogenic and autologous bone marrow processing and storage, mixed lymphocyte culture, stem cell culture, cell mediated assays, and assays for the presence of cytokines. This specialty would also encompass all testing within the scope of serology/immunology, microbiology, hematology and immunohematology that pertain strictly to the processing of organ, tissue and bone marrow donors, and pre- and post-transplant patients. Clinical laboratory personnel who are licensed in the specialties of histocompatibility, serology/immunology ~~or~~ and immunohematology may perform all testing as being within the scope of the specialty of histocompatibility.

(16) No change.

(17) There is no technician license available in radioassay, blood gases, cytogenetics, or histocompatibility. However, clinical laboratory technicians licensed in the specialties of radioassay, blood gas analysis ~~or~~ and cytogenetics prior to March 28, 1995, may continue to perform such testing under direct supervision.

RULE NO.:	RULE TITLE:
68B-14.0036	Recreational Bag Limits: Snapper, Grouper, Hogfish, Black Sea Bass, Red Porgy, Amberjacks, Tilefish, Exception, Wholesale/Retail Purchase Exemption

PURPOSE, EFFECT AND SUMMARY: The purpose of this rule amendment is to achieve consistency between the Commission's Reef Fish Rule on recreational red grouper harvest in the Gulf of Mexico and rules that were implemented by NOAA Fisheries Service on November 2, 2011. According to the 2009 stock assessment update, red grouper is not

overfished, nor is it undergoing overfishing. In recent years, the recreational sector has not caught its allocation of red grouper, so the Gulf of Mexico Fishery Management Council relaxed recreational red grouper regulations to increase the recreational bag limit for red grouper in Gulf federal waters from two to four fish per person, per day within the four-fish grouper aggregate bag limit.

This rule amendment will remove the two-fish recreational bag limit for Gulf of Mexico red grouper. The effect of this rule amendment is to set the bag limit for recreationally-caught Gulf red grouper to four fish per person per day within the existing Gulf grouper aggregate bag limit of four fish. With this rule amendment federal and state regulations will be consistently applied. Where practicable, this minimizes public confusion, aids enforceability, and maximizes recreational fishing opportunities for red grouper in the Gulf of Mexico.

Rule 68B-14.0036, F.A.C. (Recreational Bag Limits: Snapper, Grouper, Hogfish, Black Sea Bass, Red Porgy, Amberjacks, Tilefish, Exception, Wholesale/Retail Purchase Exemption) would be amended to remove the two-fish bag limit currently in place for red grouper recreationally harvested in the Gulf of Mexico, excluding Monroe County. This would make the bag limit for red grouper four fish per person per day within the existing Gulf grouper aggregate bag limit of four fish.

(e) The Division shall review the application and shall notify the applicant that the application is approved upon a determination by the Division that the application is complete, the applicant has passed the law & rules exam, and the applicant appears eligible to proceed to general supervision under Section 497.375, F.S. The intern may commence performance of internship duties under general supervision upon notification of approval by the Division. NAME OF AGENCY HEAD WHO APPROVED THE PROPOSED RULE: Board of Funeral, Cemetery, and Consumer Services, under Chapter 497, F.S.

**DEPARTMENT OF FINANCIAL SERVICES
Division of Funeral, Cemetery, and Consumer Services**

RULE NO.: 69K-21.005 RULE TITLE: Display of Licenses

PURPOSE AND EFFECT: This rulemaking action implements changes to Sections 497.380(15), 497.604(1), 497.376(2) and 497.602(5), Florida Statutes, as enacted by the Florida legislature in Chapter 2010-125, Laws of Florida. Prior to enactment of the changes referred to above, each funeral home and direct disposal establishment had to have each professional staffer post their license inside the establishment in a conspicuous location; the license had to be an original and there had to be a photo less than 2 years old attached to the

license. The statutory changes allow the photo to be up to 6 years old, and, if a staffer member works at more than one location, they can post a copy of their license at the 2nd and subsequent locations (they do not need to obtain additional original licenses from the Division (which requires payment of a fee). Licensees thus save money and trouble due to less frequently having to replace photos, and not having to obtain extra originals of licenses issued to them. This rule was approved by the Board of Funeral, Cemetery, and Consumer Services on January 6, 2011.

SUMMARY: Changes the allowable age of photos that must be attached to posted copies of specified establishments licensed under Chapter 497, F.S.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: knowledge and experience of Department staff.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 37, No. 41, October 14, 2011 issue of the Florida Administrative Weekly. The notice of proposed rulemaking omitted the following information regarding the statement of estimated regulatory costs: The SERC provides that the proposed rule is not expected to (1) have an adverse impact on economic growth, private sector job creation or employment or private sector investment in excess of \$1 million in the aggregate within five years or (2) have any adverse impact on business competitiveness, productivity or innovation or (3) increase regulatory costs in excess of \$1 million in the aggregate within five years. This is based upon the fact that the proposed rule does not increase any of the fees for post secondary educational institutions and that the proposed use of the forms will assist institutions by simplifying

the means of providing information to the Commission. The transactional costs for the 950 private post secondary educational institutions impacted by the proposed rule (some of which constitute small businesses) is expected to be minimal. No increased costs to the agency is expected and no costs to any other governmental entity is expected. The proposed rule is not expected to have any impact on small counties or cities. The proposed rule was developed in the context of rule workshops, where licensed institutions subject to the rule provided input. The proposed rule is needed to address a finding and recommendation by the Auditor General to provide guidance to educational institutions by defining the term tuition revenue. THE FULL TEXT OF THE EMERGENCY RULE IS:

12DER11-18 Exemption for Deployed Servicemembers.

(1) This rule applies to the exemption provided in Section 196.172, F.S., for servicemembers who receive a homestead exemption and who were deployed during the previous tax year. For the purposes of this rule the following definitions shall apply:

(a) "Servicemember" means a member or former member of:

1. Any branch of the United States military or military reserves.

2. The United States Coast Guard or its reserves, or

3. The Florida National Guard.

(b) "Deployed" means:

1. On active duty.

2. Outside of the continental United States, Alaska or Hawaii, and

3. In support of a designated operation.

(c) "Designated Operation" means an operation designated by the Florida Legislature. The Department shall annually provide all Property Appraisers with a list of operations which have been designated.

(2)(a) Application for this exemption must be made by March 1 of the year following the qualifying deployment. If the servicemember fails to make a timely application for this exemption the property appraiser may grant the exemption on a late application if they believe circumstances warrant that it be

granted. The servicemember may also petition the value adjustment board to accept the late application no later than 25 days after the mailing of the notice provided under Section 194.011(1), F.S.

(b) Application for this exemption shall be made on Form DR-501M, Deployed Military Exemption Application (R. 11/11), which the Department of Revenue adopts and incorporates in this rule by reference. Copies of this form are available, without cost, by downloading the selected form from the Department's Internet site at <http://dor.myflorida.com/dor/forms/2011/dr501m.pdf>. Persons with hearing or speech impairments may call the Department's TDD at 1(800)367-8331.

(c) In addition to the application, the servicemember must submit to the property appraiser deployment orders or other proof of the qualifying deployments which includes the dates of that deployment and other information necessary to verify eligibility for this exemption. If the servicemember fails to include this documentation with the application, the property appraiser may request the needed documentation from the servicemember before denying the exemption.

(d) Application for this exemption may be made by:

1. The servicemember.

2. The servicemember's spouse, if the homestead is held by the entireties or jointly with right of survivorship.

3. A person holding a power of attorney or other authorization under Chapter 709, F.S., or

4. The personal representative of the servicemember's estate.

(3) After receiving an application for this exemption the property appraiser shall consider the application within 30 days of its receipt or within 30 days of the notice of qualifying deployments, whichever is later. If the application is denied in whole or in part, the property appraiser shall send a notice of disapproval to the taxpayer no later than July 1, citing the reason for the disapproval. The notice of disapproval shall also advise the taxpayer of the right to appeal the decision to the value adjustment board.

(4) This exemption shall apply only to the portion of the property which is the homestead of the deployed servicemember or servicemembers.

(5) The percentage exempt under this exemption shall be calculated as the number of days the servicemember was deployed during the previous calendar year divided by the number of days in that year multiplied by 100.

(6) If the homestead property is owned by joint tenants with a right of survivorship or tenants by the entireties, the property may be granted multiple exemptions for deployed servicemembers. The following provisions shall apply in the event that multiple servicemembers are applying for the exemption on the same homestead property.

(a) Each servicemember shall make a separate application to the property appraiser listing the dates of their deployment.

(b) The property appraiser shall separately calculate the exemption percentage for each servicemember.

(c) The property appraiser shall then add the percentages exempt which were determined for each of the servicemembers who are joint tenants with rights of survivorship or tenants by the entirety before applying that percentage to the taxable value. In no event shall the percentage exempt exceed 100%.

(7) When calculating exemptions and taxes due, the property appraiser shall first apply the exemptions listed in Section 196.031(7), F.S., in the order specified, to produce school and county taxable values. The percentage exempt calculated under this exemption shall then be applied to both taxable values producing final taxable values. The taxes due shall then be calculated and the percentage discount for disabled veterans under Section 196.082, F.S., should then be applied.

(8) If the property is owned by either tenants in common or joint tenants without right of survivorship, the percentage discount allowed under this rule shall only apply to the taxable value of the qualifying servicemember's interest in the property.

(9) The following special provisions shall apply to the 2011 tax year.

(a) The application deadline for 2011 is June 1, 2011. If the servicemember fails to make a timely application for this exemption the property appraiser may grant the exemption on a late application if they believe circumstances warrant that it be granted. The servicemember may also petition the value adjustment board to accept the late application no later than 25 days after the mailing of the notice provided under Section 194.011(1), F.S.

(b) The "Designated Operations" are:

1. Operation Enduring Freedom, which began on October 7, 2001.

2. Operation Iraqi Freedom, which began on March 19, 2003, and ended on August 31, 2010, and

3. Operation New Dawn, which began on September 1, 2010.

(10) This rule renews and replaces emergency rule 12DER11-12, which was effective June 1, 2011 and this rule will remain in effect during the pendency of procedures to adopt rules addressing the subject matter of this emergency rule.

DEPARTMENT OF LAW ENFORCEMENT

NOTICE IS HEREBY GIVEN that on November 21, 2011, the Criminal Justice Standards and Training Commission, received a petition for a permanent waiver of subsection 11B-27.00212(14), F.A.C., from Mexico Beach Police Department on behalf of one officer for the 2010 (7/1/2008 – 6/30/2010) mandatory firearms requalification reporting period. Subsection 11B-27.00212(14), F.A.C., requires officers to requalify with a firearm every two years on a course of fire mandated by Commission rule and supervised by a CJSTC-certified firearms instructor. The petition supports the requested waiver by stating that the officer at issue completed the course of fire for the 2010 reporting cycle, however, the CJSTC 86A form is missing from the officer's file. Petitioner states that the officer will suffer a substantial hardship if his certification is rendered inactive as a result of this situation. Petitioner further states that it would violate the principles of fairness to fail to recognize that the officer did successfully complete the requirement simply because his CJSTC 86A form is missing for the 2010 reporting cycle.

A copy of the Petition for Variance or Waiver may be obtained by contacting: Grace A. Jaye, Assistant General Counsel, Florida Department of Law Enforcement, P. O. Box 1489, Tallahassee, FL 32302 or by telephoning (850)410-7676.

Section VII Notices of Petitions and Dispositions Regarding Declaratory Statements

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

NOTICE IS HEREBY GIVEN that the Division of Alcoholic Beverages and Tobacco, Department of Business and Professional Regulation, State of Florida has declined to rule on the petition for declaratory statement filed by Astor Post No. 9986 Veterans of Foreign Wars of the United States, Inc., DS 2011-072 on September 9, 2011. The following is a summary of the agency's declination of the petition:

Based upon the facts set out in the submitted Petition for Declaratory Statement, Petitioner is currently operating the proposed business model specified in the Statement. According to Florida Case Law, the purpose of a declaratory statement is to allow a petitioner to select a proper course of action in advance, and a petition for declaratory statement which seeks approval or disapproval of conduct which has already occurred is properly denied. Therefore, this Petition for Declaratory Statement is denied. Accordingly, this conclusion has no application in the event that the factual circumstances and/or relationships among the entities described herein are incorrect or change.

A copy of the Order Declining of the Petition for Declaratory Statement may be obtained by contacting: Agency Clerk, Department of Business and Professional Regulation, Division of Alcoholic Beverages and Tobacco, 1940 North Monroe Street, Tallahassee, Florida 32399-2217.

Please refer all comments to: Michael Ross, Chief Attorney, Department of Business and Professional Regulation, Division of Alcoholic Beverages and Tobacco, 1940 North Monroe Street, Tallahassee, Florida 32399-2202.

NOTICE IS HEREBY GIVEN that the Construction Industry Licensing Board has received the petition for declaratory statement from Jim Phelps, Phelps Engineering Company, filed on November 16, 2011. The petition seeks the agency's opinion as to the applicability of Section 489.105(3), Florida Statutes as it applies to the petitioner.

The Petitioner does not state in his request which statute the Petitioner seeks the Board to interpret. However, Petitioner appears to be requesting an interpretation of Section 489.105(3), Florida Statutes, and whether providing and installing plastic baffle material for use in existing cooling towers requires a contractor's license.

A copy of the Petition for Declaratory Statement may be obtained by contacting: Drew Winters, Executive Director, Construction Licensing Board, P. O. Box 5257, Tallahassee, Florida 32314-5257.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE IS HEREBY GIVEN that the Department of Environmental Protection has issued an order disposing of the petition for declaratory statement filed by Charles E. Strange, Jr., on October 5, 2011. The following is a summary of the agency's disposition of the petition:

The Notice of Petition for Declaratory Statement was published in Vol. 37, No. 42, of the October 21, 2011, Florida Administrative Weekly and sought the agency's opinion as to the recent Notice of Intent to Issue an Environmental Resource Permit, File No. 09-0302742-001, to the Southwest Florida Water Management District to fill approximately 0.85 acres of freshwater marsh in order to construct a new 425-linear foot tie-back berm with an associated access road and 12-foot wide airboat slide within Potts Preserve in Citrus County. The petitioner also appeared to request the Department to "survey and identify" the location of sovereignty submerged lands and the mean high water line at the location of the proposed project through the Petition for Declaratory Statement. The

Department's Final Order Denying Petition for Declaratory Statement filed on November 18, 2011, stated that a declaratory statement is not the proper forum to resolve property issues and cannot be used to determine whether the conduct of a third-party occurs on sovereignty lands. In addition, the Department's Final Order Denying Petition for Declaratory Statement stated that the Petition for Declaratory Statement did not comply with the requirements of Rule 28-105.002, Florida Administrative Code.

A copy of the Order Disposing of the Petition for Declaratory Statement may be obtained by contacting: Lea Crandall, Florida Department of Environmental Protection, Office of General Counsel, 3900 Commonwealth Blvd., M.S. #35, Tallahassee, Florida 32399-3000, (850)245-2242 or email: Lea.Crandall@dep.state.fl.us.
