**DEPARTMENT OF CORRECTIONS**

RULE NO.: 33-601.226  
 RULE TITLE: Youthful Offender Program Participation

PURPOSE AND EFFECT: The purpose of the rule is to amend provisions relating to sentence modification and protocol in the Youthful Offender Program. The effect is to clarify and define the requirements for “successful completion” of the Youthful Offender program leading to a Departmental recommendation for sentence modification, to set forth the Extended Day Program Phases and process by which sentence modification is recommended, and to generally clarify the Youthful Offender program protocol, including what circumstances result in remediation, ineligibility for sentence modification or removal from the program.

SUMMARY: The rule amends provisions relating to sentence modification and protocol in the Youthful Offender program. It adds new definitions, clarifies program phases and generally defines the protocol that must be successfully completed for a Departmental recommendation of sentence modification.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

Based on analysis from the Bureau of Classification and Central Records indicating that the rule change only affects internal operations of the Department by permitting more flexibility in where a youthful offender program will be located and would not have an impact on small business or the private sector, the rule is not expected to require legislative ratification.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: Based on information provided by the Bureau of Finance and Accounting indicating the changes only affect where the trust monies are directed within the Department and therefore have no effect on small business, as well as information indicating that the changes would not require any additional training or have any other regulatory cost, the rule is not expected to require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 944.09, 958.04, 958.11 FS.

LAW IMPLEMENTED: 944.09, 958.04, 958.11, 958.12 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Laura Gallagher, 501 S. Calhoun Street, Tallahassee, Florida 32399-2500

To advance to Phase II, the inmate must pass an evaluation on orientation materials.

(b) Phase II shall consist of continued demonstration of skills learned in Phase I, adherence to the structure of the extended day program, and positive consistency and participation in vocational, academic, and betterment programs.

(c) Phase III shall consist of:

1. Continued demonstration of capability in the areas of personal responsibility, discipline, job assignments, and academic and vocational programs, as well as all other areas of daily living and activities;

3. Maintenance of high proficiency in achievements;

4. Providing assistance to staff with designated activities; and

5. Evaluation by the review board and ICT in all areas on a continual basis to ensure that the inmate should remain in Phase III.

(d) Remedial Phase. The remedial phase shall consist of a period of behavior modification emphasizing compliance with rules, proper institutional adjustment, and appropriate social behavior.

(5) Advancement to Phase III.

(a) A Phase II inmate wishing to participate in Phase III must apply for advancement using Form DC6-188, Inmate Promotional Request, and an evaluation by the ICT will be conducted to determine whether the inmate is eligible for advancement to Phase III. Copies of this form are available from the Forms Control Administrator, 501 South Calhoun Street, Tallahassee, Florida 32399-2500. The form became effective on July 30, 2008.

(b) If approved by the ICT for advancement, the inmate shall be eligible for recommendation for modification of sentence pursuant to subsection (6) of this rule. No inmate has a right to recommendation for modification of sentence. Institutional classification staff are authorized to notify the Bureau of Classification Management or designee of an inmate who meets the criteria for recommendation for modification of sentence.

(6) Recommendations for Modification of Sentence.

(a) The following will result in an evaluation by the Bureau of Classification Management or designee of the inmate's eligibility for recommendation to the court for a modification of sentence at any time prior to the scheduled expiration of sentence as provided in Section 958.04(2)(d), F.S.:

1. Successful participation in all phases of the youthful offender extended day program, to include participation in Phase III of the extended day program for a minimum of 180 consecutive days; and

(b) Successful participation in the extended day program is defined as:

1. Satisfactory gain time ratings in Phase III for a minimum of 180 days;

2. Participation in recommended programs;

3. No disciplinary reports for the previous four months; and

4. No more than four corrective consultations for the previous four months.

(c) Evaluation of the inmate's eligibility will include, but will not be limited to:

1. Review of circumstances of offense;

2. Institutional adjustment; and

3. Achievements.

3. Conviction for kidnapping pursuant to Section 787.01, F.S.;

7. The inmate has previously been granted modification of sentence under the provisions of this rule.

(7) Extended Day Program Assessment. Each inmate shall be required to participate in Phase III in a satisfactory manner for a minimum of 180 consecutive days in order to be considered for recommendation to the court for modification of sentence.

(a) The review board shall continually assess the inmate's participation in the program and recommend status assignments. Should an inmate fail to successfully perform as set forth in subparagraphs (6)(b)2. through 4. of this rule at any time during Phase III, days served successfully will not be counted toward the minimum 180 day successful participation requirement.

(b) Inmates who have successfully participated for the required time period shall remain subject to the rules of the department and the extended day program. Failure to adhere to the administrative rules of the department shall be grounds for removal from consideration for recommendation for modification of sentence, withdrawal of the department's request to the court for modification of the inmate's sentence, or a request by the department to rescind modification of sentence. Form DC6-194, Order Rescinding Order Modifying Sentence, will be completed by the Bureau of Classification Management or designee and provided to the court with the request to rescind modification of sentence. the inmate's receipt of a disciplinary report or corrective consultation, the inmate shall still be considered for recommendation for modification of sentence.

(b) An inmate shall be removed from consideration for recommendation for modification of sentence for behavioral performance, or disciplinary reasons.

(9) Sentence Modification Process.

(a) Inmates who have satisfactorily participated in the extended day program and who meet the eligibility criteria in subsection (6) of this rule will be recommended for sentence modification.

(b) If determined eligible, institutional classification staff shall forward a completed Form DC6-195, Defendant's Waiver of Rights in Modification of Sentence, to the Bureau of Classification Management or designee. The waiver shall be forwarded no earlier than five days prior to the expected completion of the 180-day requirement. Form DC6-195 is hereby incorporated by reference. RULE NO.: 33-602.201  
RULE TITLE: Inmate Property  
PURPOSE AND EFFECT: The purpose and effect of the proposed rule is to delete lighters and post-type earrings from the authorized property list but allow female inmates already in possession of post type earrings to retain them until they are no longer serviceable.  
SUMMARY: Lighters and post-type earrings are deleted from the inmate property list.  
SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

Based on analysis from the Bureau of Classification and Central Records indicating that the rule change only affects internal operations of the Department by permitting more flexibility in where a youthful offender program will be located and would not have an impact on small business or the private sector, the rule is not expected to require legislative ratification.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 944.09 FS.

LAW IMPLEMENTED: 944.09 FS.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE FULL TEXT OF THE PROPOSED RULE IS:

- 33-602.201 Inmate Property.
- (1) through (17) No change.

APPENDIX ONE  
PROPERTY LIST

This list incorporates all property authorized to be possessed by inmates in all department institutions and facilities except community correctional centers. Except for items specified below as “exemptions,” property received must be in compliance with this list. Inmates in possession of property previously approved by the Department of Corrections which meets the description of property on the list shall be allowed to retain the property. Inmates transferring to department facilities from private correctional facilities shall be allowed to retain only those items that are in compliance

with the list of authorized property. As items sold in canteens at private facilities may differ from those sold in department canteens, items purchased in canteens at private facilities will not always be admissible in department facilities.

Definitions.

The “quantity” establishes a maximum possession limit. This does not mean that all state issue items will be issued to each inmate, or that the maximum number of items will be issued. All canteen items are subject to availability and may not be available for purchase. Items found in the possession of an inmate that are in excess of the established “quantity” shall be treated as contraband in accordance with Rule 33-602.203, F.A.C. Where there is a “value” indicated, the authorized item shall not exceed that value. The terms “canteen” and “state issue” refer to the sources from which property can be obtained after January 1, 1996. All items with the “canteen” designation shall be available in all institutional canteens or through canteen order. All canteen items are transferable between department institutions. “State issue” means that the institution has the authority to issue this item to inmates based upon the character of the institution, the location of the institution, the housing or work assignment of the inmate, or other factors related to institution or inmate needs. Institutions housing death row inmates shall make adjustments to this property list when possession of listed items by death row inmates would create a threat to the security of the institution.

Exemptions.

Inmates already in possession of the following previously approved items shall be allowed to retain the items until they are no longer serviceable, but shall not be allowed to replace them with like items.

- Clothing items of a different color than specified on the property list.
- Locks other than V68 series
- Plastic bowls, tumblers, cups and lids
- Pantyhose
- Nail clippers larger than 2-1/2"
- Earrings, post type (female only)

 PURPOSE AND EFFECT: The proposed rule eliminates the  
 potential safety risk associated with hydraulic supply shut-off

 of valve and requiring replacement.  
 SUMMARY: The proposed rule prohibits the use of hydraulic  
 supply shut-off valves known as “knock-style valves” and  
 requires the valve be replaced.

OTHER RULES INCORPORATING THIS RULE: N/A  
 EFFECT ON THOSE OTHER RULES: N/A

**SUMMARY OF STATEMENT OF ESTIMATED  
 REGULATORY COSTS AND LEGISLATIVE  
 RATIFICATION:**

The Agency has determined that this will have an adverse  
 impact on small business or likely increase directly or  
 indirectly regulatory costs in excess of \$200,000 in the  
 aggregate within one year after the implementation of the rule.  
 A SERC has been prepared by the agency.

This rule will create a minimal, one-time economic impact that  
 is not expected to exceed \$2,500 per occurrence and will  
 provide employment opportunity to the elevator industry. The  
 part replacement will not raise the price or reduce quantity of  
 goods or services and may create a short-term increase in  
 workforce needs. The regulatory costs created by this rule will  
 be a single occurrence with minimal cost and will not impact  
 product development or innovation. Other states have taken  
 similar steps regarding this safety issue. The rule is expected to  
 apply to approximately 200 elevators, including approximately  
 50 small businesses. A majority of the elevators are located in  
 condominium buildings. The total one-time, non-recurring  
 costs should not exceed \$2,000 to \$2,500 per elevator, for a  
 statewide total of \$500,000. The department is able to  
 implement this rule with existing staff, but local contracted  
 jurisdictions will also enforce this rule and may incur minimal  
 implementation and enforcement costs. This rule will address a  
 public safety concern while creating a minimal fiscal impact on  
 elevator owners. The total cost per small business depends  
 upon the number of impacted elevators each business owns.  
 Impact on small county or small city is indeterminate at this  
 time.

The Agency has determined that the proposed rule is not  
 expected to require legislative ratification based on the  
 statement of estimated regulatory costs or if no SERC is  
 required, the information expressly relied upon and described  
 herein: the economic review conducted by the agency.

Any person who wishes to provide information regarding a  
 statement of estimated regulatory costs, or provide a proposal  
 for a lower cost regulatory alternative must do so in writing  
 within 21 days of this notice.

**DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES**

**Division of Agricultural Environmental Services**

RULE NO.:	RULE TITLE:
5E-14.117	Application for Examination for Pest Control Operator’s Certificate and Special Identification Card and Limited Certificate for Urban Landscape Commercial Fertilizer Application

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 37, No. 51, December 22, 2011 issue of the Florida Administrative Weekly.

PURPOSE AND EFFECT: The purpose and effect of these rule changes is to define requirements for individuals seeking the Limited Commercial Wildlife Management Certificate for individuals wishing to control commensal rodents in Florida. An applicant seeking certification will be required to submit an application on a form prescribed by the Department with an

examination fee of \$150. Certificate holders will be required to annually submit a recertification fee of \$75 with a completed recertification notice form prescribed by the Department.

SUMMARY: The proposed rule implements the provisions of newly adopted Florida Statutes, Section 482.157, which establishes a Limited Wildlife Commercial Certificate by setting forth a required examination fee of \$150 to be submitted and a prescribed form application to be completed and submitted by an applicant. It also provides for a recertification notice form that must be completed and submitted with a recertification fee of \$75 by a certificate holder annually for renewal of the certificate.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this rule will not have an impact on small business and is not likely to directly or indirectly increase regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

If adopted, the proposed rule is not expected to require legislative rule ratification under Section 120.541(3), Florida Statutes. (or any other statute) before becoming effective for the following reasons: 1) None of the requirements in Section 120.541(1), Florida Statutes, for preparing a Statement of Economic Regulatory Costs (SERC) were triggered; and 2) Based on information received from wildlife professional association membership rolls and discussions with industry representatives the following was determined: The estimated number of individuals seeking certification is estimated to be approximately 600. There are minimal or no transaction costs estimated. The exam application requires readily available information about the applicant applying for the credential, their company, and a passport type photograph and can be completed without the need for additional staff or other professional help. The examination fee is \$150. Therefore, the estimated financial impact is approximately \$90,000.00. No other impacts to small business or governmental agencies are anticipated because the Department’s Bureau of Entomology and Pest Control is solely responsible for the administration of the Structural Pest Control Law.

Any person who wishes to provide information regarding a statement of regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 38, No. 9, March 2, 2012 issue of the Florida Administrative Weekly.

PURPOSE AND EFFECT: The purpose and effect of this rule is to implement newly adopted amendments to Section 482.226 (6), Florida Statutes, increasing minimum financial responsibility in the required amounts of errors and omissions (pProfessional liability) insurance coverage or bond to \$500,000 in the aggregate and \$250,000 per occurrence or net worth to \$500,000 requirements for licensees performing wood-destroying organisms inspections as provided by Section 12 of Chapter 2011-206, Laws of Florida.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this rule will not have an impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

The Department’s analysis of the economic impact of the rule did not trigger any of the requirements in Section 120.541(1), Florida Statutes, for preparing a Statement of Economic Regulatory Costs (SERC). As part of this analysis, the

Department relied upon information received from insurance carriers that write pest control general liability insurance which indicated the carrier’s minimum limits have been meeting the new required limits and there have been no additional rate increases resulting from the new limits. Further, current procedures utilized to ensure licensees performing Wood-Destroying Organisms inspections comply with the new financial responsibility for errors and omissions coverage are adequate. Additionally, no interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 37, No. 51, December 22, 2011 issue of the Florida Administrative Weekly.

PURPOSE AND EFFECT: One of the purposes and effects of the proposed rule is to allow a person owing a fine to the Department to enter into an agreement with the Department to re-pay the fine, which will allow the person to apply for licensure. Another purpose and effect of the proposed rule is to comply with recent changes to Section 112.011, F.S., which prohibit the denial of a license solely because of an applicant’s lack of civil rights but permit the denial of a license to pursue an occupation, trade, vocation, profession or business to a person convicted of a felony or first degree misdemeanor if the denial is directly related to standards determined by the regulatory authority to be necessary and reasonably related to the protection of public health, safety and welfare for the specific occupation, trade, vocation, profession or business for which the license is sought. The proposed rule will allow persons convicted of a felony or first degree misdemeanor to obtain a license under Chapter 482, F.S., to perform pest

control, even if their civil rights have not been restored and restricts the issuance of such a license only for reasons directly related to standards determined by the Department to be necessary and reasonably related to the protection of the public health, safety and welfare. Revising criteria for the issuance of Department credentials to felons.

SUMMARY: The proposed rule is being developed to allow a person owing a fine to enter into an agreement with the Department to re-pay the fine, which will allow the person to apply for licensure under Chapter 482, F.S. and to adequately address changes to subsections 6 and 9 of the rule relating to denial, suspension or revocation of licensure, that will implement the change in the law set forth in Section 3 of 2011 SB 146, amending F.S. 112.011, which was enacted into law and will become effective January 1, 2012.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS: The Agency has determined that this rule will not have an impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency. The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

Based on the Department's experiences with regulatory activities and rules of this nature, the adverse impact or regulatory cost, if any, do not exceed nor would exceed any one of the economic analysis criteria in a Statement of Economic Regulatory Costs (SERC) as set forth in Section 120.541(2)(a), Florida Statutes. More particularly, the proposed rule will not impose any increased cost on the pest control industry for applicants to obtain a license to perform pest control under Chapter 482, F.S., nor will it increase any other regulatory cost. Additionally, no interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

1. A violator does not comply with a suspension order, or if a licensee or certificate holder has been suspended twice in three years.

2. Customer Contact Centers

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 37, No. 51, December 22, 2011 issue of the Florida Administrative Weekly.

PURPOSE AND EFFECT: The purpose of this proposed rule is to establish an application form and fee for businesses applying for a license to operate a centralized customer contact center within or outside of the state's jurisdictional boundaries and to delineate regulatory requirements for businesses operating a customer contact center. The effect of this rule will be to provide pest control companies the ability to obtain a customer contact center license and allow the Department the authority to regulate the operational functions of pest control sales of Florida consumers. Establish a license for the operation of pest control customer contact centers.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this rule will not have an impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein:

The Department's analysis of the economic impact of the rule did not trigger any of the requirements in Section 120.541(1), Florida Statutes, for preparing a Statement of Economic Regulatory Costs (SERC). As part of this analysis, the Department relied upon information received from the pest

control industry’s professional associations and direct discussions with industry representatives. Based on that information the following was determined: The number of companies seeking the license is estimated to be 20 companies; No transactional costs are expected for the following reasons: the companies seeking this license have had customer contact center operations for years and will have no need for capital outlay; under Section 482.071, Florida Statutes, licensees are required to utilize credentialed certificate holders and employees to solicit pest control services. These requirements are more burdensome than those enacted under Section 482.072, Florida Statutes, which only requires supervision and training under the licensee. Enactment of the rule will allow companies to reduce overhead and operational costs by consolidating customer contact centers in a single location; the contact center license fee is \$600 and is good for two years. The financial impact to the industry in the first year based on an estimated 20 applicants would be \$12,000. Additionally, no interested party submitted additional information regarding the economic impact.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 6A-1.09981  
 RULE TITLE: Implementation of Florida’s System of School Improvement and Accountability

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 38, No. 5, February 3, 2012 issue of the Florida Administrative Weekly.

Subsection (1), sub-subparagraphs (1)(a)1.a.-c., sub-subparagraph (1)(a)2.b., subparagraph (1)(a)3., paragraph (2)(a), subparagraphs (3)(a)1.-2., subparagraph (4)(a)1., sub-subparagraph (4)(b)1.c., subparagraph (4)(c)2., subparagraphs (5)(a)2.-4., paragraph (5)(b), subparagraphs (5)(b)1.-2., and subparagraphs (6)(b)2.-3. of Rule 6A-1.09981 are amended to read:

(1) Policy Guidance. Accountability for student learning is the key focus of Florida’s system of school improvement. Requirements of Section 1008.34, F.S., shall form the basis of Florida’s system of school improvement and accountability. Student achievement data from the Florida Comprehensive Assessment Test (FCAT), FCAT 2.0 and end-of-course (EOC) assessments, and Florida Alternate Assessment (FAA) shall be used to establish both performance levels and annual progress for individual students, schools, districts, and the state. Results shall further be used as the primary criteria in calculating school grades, school rewards and recognition, and performance-based funding and shall be annually reported. Statewide assessments as required by Section 1008.22, F.S., shall be used to measure the annual learning gains of each student toward achievement of the Next Generation Sunshine State Standards appropriate for the student’s grade level and to inform parents of the educational progress of their public school children as specified by Section 1008.34(1), F.S. Each school is accountable for the performance of its entire student population. Student achievement data from the FCAT, FCAT 2.0, EOC assessments, and the Florida Alternate Assessment (FAA) shall be used to measure a school’s student performance for the subject areas of reading, mathematics, science, and writing. The FCAT, FCAT 2.0, and EOC assessment levels in the performance criteria in subsection (4) of this rule are those specified in Rule 6A-1.09422, F.A.C., for the year in which achievement data are used for accountability. The FAA performance levels for reading, mathematics, science, and writing are those specified in Rule 6A-1.09430, F.A.C.

(a)1. School grades shall be based on a combination of:

a. Student achievement scores, based on FCAT 2.0 Reading in grades 3 through 10, and FCAT 2.0 Mathematics in grades 3- through 8; FCAT 2.0 Science in grades 5 and 8; FCAT Writing in grades 4, 8, and 10; Florida Alternate Assessment; statewide high school end-of-course (EOC)

assessments in Algebra 1, Biology (beginning 2012-13), and Geometry (beginning 2012-13); and middle school statewide EOC assessment in Civics (beginning 2014-15). Statewide EOC assessment scores for students who pass statewide high school EOC assessments in middle school will be banked for inclusion in the high school performance measures addressed in this paragraph when these students enroll in grade 9. ~~For school year 2011-12 only, the science component for high school will be based on FCAT science performance in 2010-11. Schools will receive the same number of points for the 2011-12 science component as they did in 2010-11 because achievement level standards will not have been set for the 2011-12 Biology EOC assessment.~~

b. Annual student learning gains as measured by FCAT 2.0 Reading and Mathematics (including Algebra 1 and Geometry EOC) and Florida Alternate Assessment assessments in applicable grades; and

c. Improvement of the FCAT 2.0 Reading and Mathematics (including Algebra 1 and Geometry EOC assessments) scores of students in the lowest twenty-five (25) percent unless they are performing at or above satisfactory, defined as FCAT 2.0 and EOC assessment Achievement Levels 3, 4 and 5. Current year ~~Retained~~ elementary and middle school students whose prior year assessment scores are at Achievement Level 1 or 2 will be included in this group.

(1)(a)2.b. Schools demonstrate a five (5) percentage point improvement in the percent of such students making learning gains over the prior year, if the percent of such students making learning gains is below forty (40) percent in the current year.

Beginning in the 2012-2013 school year, if a school that would otherwise be assigned a school grade of “B” or “C” does not meet the fifty (50) percent learning gains target for adequate progress of the lowest performing students, as defined above, in at least one (1) of two (2) consecutive years, or demonstrate adequate improvement in learning gains for the lowest performing students from the prior year to the current year as described above, the final school grade shall be reduced by one (1) letter grade. Beginning in the 2012-2013 school year, no school shall receive a school grade of “A” unless the adequate progress criteria in reading and mathematics are met in the current year. Adequate progress for the lowest performing students is calculated separately for reading and mathematics. Schools must meet criteria in both subject areas to meet the overall requirement for adequate progress of the lowest performing students.

3. Reading Performance Threshold. Beginning in the 2012-13 school year, a ~~s~~Schools that would otherwise qualify for a school grade of “D” or higher must have at least twenty-five (25) percent of their students’ scoring at or above Achievement Level 3 on FCAT 2.0 Reading. A school that does not meet this requirements will have its grade reduced by one letter grade. Schools that do not meet this requirement will receive a final school grade of “F”.

(2)(a) The reading and mathematics assessment (FCAT, FCAT 2.0, statewide EOC assessment, and FAA) scores of all students, except English language learners (ELLs) who have been in the United States for less than one (1) year, an English for Speakers of Other Languages (ESOL) program for up to one (1) year. Scores on the reading and mathematics FCAT, FCAT 2.0, and statewide EOC assessments, for students with disabilities and ELL students who have been in the ESOL program more than one (1) year, but not more than two (2) years, will be included as satisfactory if the student scored at level 3 or higher or made a learning gain as described in sub-subparagraphs (4)(a)2.a. through d. of this rule not counting in the calculation students from these groups who scored below level 3 and have no prior year test scores. Achievement data for Science and Writing (and, when available, Civics and U.S. History) will be based on scores on The FCAT, FCAT 2.0 FAA, and statewide EOC assessments for all students enrolled in standard curriculum courses, including the scores of students who are speech impaired, gifted, hospital homebound, and ELLs who have been in an English for Speakers of Other Languages (ESOL) program for more than two (2) years.

(3)(a)1. Has at least thirty (30) eligible students with valid FCAT 2.0 or Florida Alternate Assessment assessment scores in reading in both the current and the previous years, and

(3)(a)2. Has at least thirty (30) eligible students with valid FCAT 2.0 or EOC or Florida Alternate Assessment assessment scores in mathematics in the current and previous years, if the school is an accountability school type other than a high school. High schools must have at least ten (10) eligible students with valid Algebra 1 EOC or Florida Alternate Assessment assessment scores and beginning in 2012-13, at least ten (10) eligible students with valid Geometry 1 EOC assessment scores in mathematics in the current and previous years in order to receive a school grade. Performance designations shall be made using school grades A, B, C, D, and F, as specified in Section 1008.34(2), F.S. School grades shall be based on the assessments and criteria as specified in subsection (4) of this rule.

(4) Criteria for Designating School Grades. School grades shall be based on a combination of the following components:

(a) Components that apply to all school types:

1. Student achievement scores, aggregated for each school, which indicate the percent of eligible students who score at or above Achievement Level 3 on FCAT 2.0 and statewide EOC assessments in reading, mathematics, and science, and the percent of students who score “4.0” or higher on the FCAT Writing assessment. These percentages will also include, for students with disabilities whose sole assessment results are FAA scores, students who score at FAA Performance Level 4 or higher.

Statewide EOC assessment scores used for the performance and learning gains measures in high schools' grades will be scores for the assessments administered to students for the first-time in high school. All other scores for high school students on the same assessment will be counted as retakes.

(4)(b)1.c. The count of other 8th graders in the school year who took the EOC assessment(s) and were enrolled in the appropriate course or its equivalent, ~~and~~

(4)(c)2. The school grading measures and requirements described in subparagraph (4)(c)1. of this rule, shall be applied to high schools for which there are at least ten (10) students included in the denominator of each component described in paragraph (4)(c) of this rule. For high schools in which there are fewer than ten (10) students in the denominator of any one of these components, except for the four-year graduation rate for at risk students and the five-year graduation rate the school grade shall be determined using the components described in paragraph (4)(a) of this rule and shall not include any of the components described in subparagraphs (4)(c)1. of this rule. However, for high schools in which their are fewer than ten (10) students in the denominator of the four-year high school graduation rate ~~or the five-year modified graduation rate~~ for academically at-risk students ~~component~~ (sub-subparagraph (4)(c)1.b. of this rule), the grade point component defined in sub-subparagraph (5)(c)1.a. of this rule shall be substituted for the grade point component defined in sub-subparagraph (4)(c)1.b. of this rule. For high schools with at least ten (10) students in the four-year graduation rate cohort but with fewer than ten (10) students in the five-year modified graduation rate cohort, the five-year modified graduation rate cohort will be replaced by a four-year graduation rate modified to count special diploma recipients as graduates.

(5)(a)2. One (1) point for each percent of students who score at or above Achievement Level 3 on FCAT 2.0 and statewide EOC assessments in mathematics and at or above Performance Level 4 on the FAA in mathematics. These results will include Algebra 1 EOC Assessment scores. Beginning in 2012-13, these results will include Geometry EOC Assessment scores. If a student has both an FCAT mathematics assessment and an Algebra I or Geometry end-of-course assessment score, the higher of the scores will be used.

3. One (1) point for each percent of students who score "4.0" or higher on the FCAT Writing Assessment or Level 4 or higher on the FAA Writing Assessment.

4. One (1) point for each percent of students who score at or above Achievement Level 3 on FCAT 2.0 and statewide EOC assessments in science and Level 4 or higher on the FAA Science Assessment. Beginning in 2012-13, these results will include scores on the Biology 1 EOC assessment.

(5)(b) Points for middle schools in addition to the points described in (5)(a) of this rule (100 additional ~~900~~ points available, 200 additional ~~1000~~ points available, beginning in school year 2014-15).

1. Middle School Participation in High School EOC Assessments (50 points available): One point for each percent of students who participate in statewide high school EOC assessments, and beginning in 2012-13 industry certifications. Students taking more than one high school EOC assessment or industry certification receive an extra weighting of 0.1 points in the numerator for each additional EOC assessment taken. Total points, including the extra weighting for additional assessments taken, will be summed before multiplying by a factor of 0.5.

2. Middle School Performance on High School EOC Assessments (50 points available): One point for each percent of students who score at level 3 or higher on statewide EOC assessments and industry certifications. Students scoring at level 3 or higher on more than one EOC assessment receive an extra weighting of 0.1 points in the numerator for each additional EOC assessment scored at level 3 or higher and each industry certification received. Total points, including the extra weighting for additional EOC assessments with scores at level 3 or higher, will be summed before multiplying by a factor of 0.5.

(6)(b)2. For the 2011-12 school year only, the grade assigned based on the points in subparagraph (6)(b)1. shall be used unless removing the points specified in subparagraph (5)(b)1. would result in a higher grade. The higher grade shall be used for the 2011-12 school year.

3. Beginning in the 2014-15 school year, for middle schools the school grade shall be based on the sum of the eight (8) grade point components as defined in paragraph (5)(a) of this rule and the middle-school grade point components in subparagraphs (5)(b)1. through 3. of this rule. In addition to the requirements in subparagraph (1)(a)4. of this rule for minimum percent of students tested, the requirement for reading performance in subparagraph (1)(a)3., and the requirements in subparagraph (1)(a)2. of this rule for adequate progress of the lowest performing twenty-five (25) percent of students, the following scale shall be applied:

**NOTICE OF CORRECTION**

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 38, No. 1, January 6, 2012 issue of the Florida Administrative Weekly.

The summary of the SERC for Rule 6A-1.099821 is corrected to read:

There are more than 5,000 VPK providers in Florida who will receive readiness rates pursuant to Section 1002.69, F.S., however, an unknown number of providers who are both low-performing and who choose to continue receiving state funds to offer the program will be impacted. The Department's estimation based on 2009-2010 data, is that approximately 2,500 providers could potentially fail to meet the readiness rate; of that number, an estimated 89 providers would receive a failing readiness rate subsequent to two years of probation, subjecting them to ineligibility to provide VPK services unless they are granted a good cause exemption.

NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 38, No. 1, January 6, 2012 issue of the Florida Administrative Weekly.

Paragraph (2)(b), subsection (3), subparagraph (3)(a)1. and subparagraph (3)(b)1. of Rule 6A-1.099821 are amended to read:

(b) If a private or public provider disputes the accuracy of the cumulative list of VPK participants or the total number of hours the VPK participants ~~they~~ attended when such change would result in their inclusion or exclusion in the calculation of the VPK Provider Kindergarten Readiness Rate, as measured by the threshold of seventy (70) percent, as described in subparagraph (3)(a)1., of this rule, the provider may submit corrective information to the Department of Education within the review period described below after publication of the cumulative list on the Department's website (vpk.fldoe.org). The Department, in collaboration with Florida's Office of Early Learning and the respective Early Learning Coalition, shall review the corrective information and accept or reject the requested corrective information within the review period described below.

(3) Criteria for Inclusion in and Calculations of the VPK Readiness Rate.

1. Attended ~~in~~ the VPK program for seventy (70) percent or more of the total number of instructional hours; and

2. Kindergarten student scores on the Florida Assessments for Instruction in Reading (FAIR) assessment administered during the first thirty (30) days of the school year must demonstrate a probability of reading success of .67 or higher to be considered "ready for kindergarten." Kindergarten student scores on the Early Childhood Observation System (ECHOS)

must indicate that the student is either "emerging/progressing" or "demonstrating" to be considered "ready for kindergarten." In order for a provider to be considered to have successfully administered the VPK program, the provider must have seventy (70) percent of children ready using the calculation in this section. A provider failing to meet this standard will be placed on probation.

NOTICE OF CORRECTION

Notice is hereby given that the following correction has been made to the proposed rule in Vol. 38, No. 1, January 6, 2012 issue of the Florida Administrative Weekly.

The summary of the SERC for Rule 6A-1.099824 is corrected to read:

The Department's estimation based on preliminary 2010-2011 data, is that approximately 2,200 providers could potentially fail to meet the readiness rate; of that number, an estimated 89 providers would receive a failing readiness rate subsequent to two years of probation, subjecting them to ineligibility to provide VPK services unless they are granted a good cause exemption. Each provider must show learning gains for 70% of its students to be granted a good cause exemption. This requirement is not estimated to increase regulatory costs because compliance with the rate can be achieved without additional costs, as demonstrated by a majority of providers.

RULE NO.:	RULE TITLE:
65G-2.016	Residential Fee Collection
	NOTICE OF CHANGE

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 38, No. 2, January 13, 2012 issue of the Florida Administrative Weekly.

65G-2.016 Residential Fee Collection.

(1) This rule applies to all clients, as defined in Section 393.063, Florida Statutes, who are eighteen years of age or older, who receive residential habilitation services, and who live in a foster care facility, group home facility, residential habilitation center, or comprehensive transitional education program, licensed pursuant to Section 393.067, Florida Statutes.

(2) Definitions. For the purposes of this rule, the following terms shall be defined as follows:

(a) Agency. As defined in Section 393.063, F.S.

(b) Benefit Payments. As defined in Section 402.33, F.S.

(c) Client. As defined in Section 393.063, F.S.,

(d) Gross income. For the purposes of this rule Gross income includes the sum of the client’s benefit payments and third party benefits less any deduction authorized in writing by the Social Security Administration or the Agency for Persons with Disabilities. Deductions may only be authorized by the Agency for Persons with Disabilities if the client is using benefit payments or third party benefits to offset a voluntary reduction in the client’s Medicaid Waiver services or if the benefit payments or third party benefits are used as a required payment, co-payment, or co-insurance for Medicaid services, including, but not limited to prescribed drugs. This term does not include the client’s earned income.

(e) Personal Needs Allowance. A portion of the benefit payments and third party benefits that must be set aside and used for the direct benefit of the client. For purposes of this rule, a client’s personal needs allowance is \$93.58 per month.

(f) Residential Habilitation. Supervision and specific training activities that assist the client to acquire, maintain or improve skills related to activities of daily living. The service focuses on personal hygiene skills such as bathing and oral hygiene; homemaking skills such as food preparation, vacuuming and laundry; and on social and adaptive skills that enable the client to reside in the community. This training is

provided in accordance with a formal implementation plan developed with direction from the client and reflects the client's goal(s) from their current support plan.

(g) Room and Board Payment. Reimbursement to the operators of facilities or programs licensed pursuant to Section 393.067, Florida Statutes, to cover the cost of providing food and shelter to Agency clients who also receive residential habilitation services in accordance with Chapter 65G-2 of the Florida Administrative Code. For purposes of this rule, a client's room and board payment is \$543.42 per month.

(h) Third party benefits. As defined in Section 402.33, F.S.

(3) Room and Board Payment Rates. Providers serving clients who receive residential habilitation services within a facility licensed pursuant to Section 393.067, Florida Statutes, will receive a room and board payment which is dependent upon the amount of benefit payments and third party benefits the client receives.

(4) Payments to Providers:

The room and board payment is calculated by subtracting a personal needs allowance (\$93.58 per month) from the client's monthly benefit payments and third party benefits. The room and board (\$543.42) payment is then subtracted from the remaining total. If any benefit payments or third party benefits remain after subtracting the personal needs allowance and room and board payment, the remaining balance shall be subject to the provisions in subsection (5) below.

(5) Fees assessed for Residential Habilitation services:

(a) If a client receives residential habilitation services in a facility licensed pursuant to Section 393.067, Florida Statutes, and the client's monthly gross income exceeds the client's personal needs allowance and the client's room and board payment, the client must send the excess gross income to the Agency for Persons with Disabilities.

(b) Payments made pursuant to paragraph (5)(a) must be sent to the local APD area office by the 15th day of the month after receipt of the third party benefit payments. If the 15th of the month falls on a weekend, state holiday, or national holiday, then the payment due date will be the next business day immediately thereafter. Checks or money orders should be made payable to Agency for Persons with Disabilities (or APD). Individuals or organizations serving as the representative payee for multiple clients may submit a single check or money order to the Agency each month.

(c) Clients or representative payees for clients shall submit an accounting for any deductions in the calculation of the fees assessed pursuant to this subsection.

(6) Mandatory Monthly Reports to the Agency.

(a) Every client or representative payee for a client, including a facility or program licensed pursuant to Section 393.067, Florida Statutes, must report to the appropriate APD area office by the 15th day of the month. The report must include a calculation for each client that includes:

a. The total gross income that the client receives;

b. The amount to be subtracted for payment of the client's room and board and for the client's personal needs allowances;

c. The total amount owed to the provider pursuant to subsection (4) of this rule or the total amount of the fee assessed pursuant to subsection (5) of this rule.

(b) If the monthly report described in this subsection indicates that a fee should be assessed to the client's third party benefits pursuant to subsection (5) of this rule, the client or representative payee for the client must also include a payment of the assessed fee with the monthly report.

(c) If the 15th day of the month falls on a weekend, state holiday, or national holiday, then the payment due date will be the next business day immediately thereafter.

(7) Review of Assessed Fees.

(a) Substantially affected individuals may request a review the fees assessed upon their gross income by submitting a request for review to the applicable area office. The client or responsible party must notify the agency, in writing, of the request for review of the fee assessed, and must submit any receipts, tax records, bills, certified statements or other documentation needed to substantiate the request for a review of the fee.

(b) If the substantially affected individuals still disagree with the fees assessed upon their third party benefit payments after their request for review, they may request an administrative hearing pursuant to Section 393.125, Florida Statutes.

The

above referenced F.A.C. addresses the requirement that at least one service sink is provided for the cleaning of mops or similar cleaning tools and the disposal of mop water; that each establishment have an approved plumbing system installed to transport potable water and wastewater, and that at least one accessible bathroom be provided for use by customers and employees. They are requesting to utilize a mopsink located within another licensed establishment under the same ownership, utilize holding tanks to provide potable water and to collect wastewater, and utilize public bathrooms located on the same premises.

The Petition for this variance was published in Vol. 38, No. 8 on February 24, 2012. The Order for this Petition was signed on March 2, 2012 and after a complete review of the variance request, the Division finds that the application of this rule will create a financial hardship to the food service establishment. Furthermore, the Division finds that the Petitioner meets the burden of demonstrating that the underlying statute has been achieved by the Petitioner ensuring the mop sink located within Siesta Key Beach Concession (NOST6800023) is maintained in a clean and sanitary manner and is provided with hot and cold running water under pressure and is available during all hours of operation. The Petitioner shall also ensure directional signage is installed in the establishment clearly stating the location of the public bathrooms. If the owner of Siesta Key Beach Concession or bathroom situation changes, a signed agreement for use of the mop sink and bathroom is required immediately.

Funding Opportunity Announcement  
Community Water Fluoridation Projects

The Florida Department of Health (FDOH), Public Health Dental Program (PHDP) announces the current availability of funding in the amount of \$150,000 until exhausted. These funds are made available through a grant from the Centers for Disease Control and Prevention (CDC) to help increase the number of individuals with access to fluoridated water by supporting local efforts to purchase equipment and services necessary for the installation and repair of water fluoridation systems. Florida municipalities, county governments and not-for profit water system owners that have approved or authorized fluoridation of their water systems through a motion, resolution or ordinance are eligible to apply. There is no matching requirement for this funding. The three main categories of activities that may be funded are: new installations, replacement equipment, and second year fluoride additive costs. Allowable costs include the purchase of fluoridation equipment and supplies, installation services, limited engineering fees, and fluoride additive. A separate proposal request is required for second year additive costs. Funds are limited and awards are made based upon the receipt of an acceptable project proposal and the availability of funds. Approved applicants are required to enter into a written contractual agreement with the FDOH. The PHDP must approve all cost estimates for the project before entering into a written contractual agreement. A permit from the Florida Department of Environmental Protection (DEP), approving installation of the fluoridation equipment, is required before fluoridation begins. Community Water Fluoridation programs are subject to routine monitoring by DEP or FDOH in compliance with Rule 62-555.325, F.A.C.
