40B-1.901 General

PURPOSE AND EFFECT: The Suwannee River Water Management District (District) gives notice that it is initiating rulemaking to amend its rules consistent with Section 373.4131, Florida Statutes (F.S.) Section 373.4131, F.S., became effective on July 1, 2012, and requires the Department of Environmental Protection (DEP) in coordination with the five water management districts (WMDs) to develop statewide environmental permitting (ERP) rules. These rules are to rely primarily upon existing rules of the DEP and WMDs, but may be revised as necessary to achieve a more consistent, effective, and streamlined approach in the state’s ERP program. To implement 373.4131(1), F.S., DEP has initiated rulemaking to revise Chapter 62-330, Florida Administrative Code (F.A.C.). As part of its rulemaking, DEP also intends to incorporate by reference documents to be known as an Applicant’s Handbook. Two volumes of the Applicant’s Handbook will apply in each WMD: (1) one volume that will include general and environmental procedures, and forms that will apply statewide; and (2) a second volume, specific to, and adopted by, the WMD that will set forth design and performance standards for stormwater quality and quantity, and include drainage basin designations and basin-specific rules within the WMD. DEP’s proposed rulemaking for Chapter 62-330 will include provisions currently addressed in the District’s Chapters 40B-1, F.A.C. This will necessitate amendments to District Chapter 40B-1, F.A.C. Therefore, the purpose of this rule development is to revise the District’s rules to be consistent with DEP’s adoption of statewide ERP rules in Chapter 62-330, F.A.C.

SUBJECT AREA TO BE ADDRESSED: Among other things, this rule development will cover the revision of District rules and the Applicant’s Guide by rule amendment, development or repeal, as needed, to accomplish the establishment of statewide ERP rules on the following subjects: (1) permitting thresholds, (2) permit exemptions, (3) types of permits, (4) permit duration, (5) permit modifications and transfers, (6) reporting forms and operational requirements, (7) application submittal and review procedures, (8) conditions for issuance, (9) formal determinations of the landward extent of wetlands and other surface waters, (10) general permit conditions, (11) fee categories, and (12) other rules for which conforming amendments may be needed along with any rule changes made in the subject areas above.

Two volumes of the Applicant’s Handbook will apply in each WMD: (1) one volume that will include general and environmental procedures, and forms that will apply statewide; and (2) a second volume, specific to, and adopted by, the WMD that will set forth design and performance standards for stormwater quality and quantity, and include drainage basin designations and basin-specific rules within the WMD. DEP’s proposed rulemaking for Chapter 62-330 will include provisions currently addressed in SFWMD’s Chapters 40E-0, 40E-1, 40E-4, 40E-40, 40E-41 and 40E-400, and will necessitate amendments to SFWMD Chapters 40E-0, 40E-1, 40E-4, 40E-40, 40E-41 and 40E-400, F.A.C., and its existing Basis of Review. SUMMARY: This rule provides the definitions, eligibility, application and documentation requirements and processes for victims of crime, as well as the role of the program assistants assisting the victims in the process.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

2A-2.015 Sexual Battery Relocation Assistance.

(1) To be eligible for sexual battery relocation assistance, the victim must make an application through a rape crisis center in the State of Florida which has been certified by the Florida Counsel Against Sexual Violence.

(2) A certified rape crisis center representative is one who has completed specialized training provided by the department and is authorized to assist the victim in filing a claim for sexual battery relocation assistance.

(3) A certification worksheet from the rape crisis center must accompany the application for assistance. The certification worksheet can only be obtained from the certified rape crisis center. Failure to submit a properly completed certification worksheet will result in denial of benefits.

(4) The certification worksheet includes the certified rape crisis center’s name, mailing address, telephone number, facsimile number; the printed name and signature of the individual who administered the application and the date the worksheet was signed; a checklist detailing victim/applicant acknowledge and their printed name, signature, and date; and a brief summary detailing the victim’s safety plan.

(5) By certifying the worksheet, the representative affirms that the victim reported the crime to the proper authorities and is in need of assistance for relocating based on the sexual battery crime; the cooperation of the victim with the state attorney, all law enforcement agencies, and the department; that the victim/applicant has provided personal identification; that a certified representative will be available to witness the victim’s acceptance of payment and forward a signed Notification of Recoupment Form to the department; and that documentation is included which affirms that the victim has developed a safety plan.

(6) The claim and certification should be mailed to the Office of the Attorney General, Bureau of Victim Compensation, PL-01, The Capitol, Tallahassee, FL 32399-1050; transmitted by facsimile to (850)487-1595, (850)487-2625, (850)414-5779, (850)414-5405, or (850)414-6197; or emailed to VCIntake@myfloridalegal.com. Failure to submit a properly completed certification will result in denial of benefits.

(7) When an application for relocation is received later than one year after the crime and less than two years after the incident, the claimant must provide an explanation for the late filing.

(a) Good cause for late filing is demonstrated when the record shows the claimant was pursuing other means of recourse, did not know about the program, or when the claimant was not emotionally, mentally, or physically able to file the claim within one year after the date of the crime.

(b) No explanation is acceptable for an adult filing a claim more than two years after the occurrence of the crime under this section.

(8) The incident must be reported to the proper authorities within 72 hours after the occurrence. Exceptions for good cause include:

(a) The victim was not emotionally, mentally, or physically able to report the crime within 72 hours;

(b) The victim was in fear of the offender and this fear has been communicated to the proper authorities;

(c) The victim is a child under the age of 18;

(d) There was no knowledge that a crime was committed prior to reporting the incident to the proper authorities.

(9) Proper authority for purposes of Section 960.199, F.S., means a child protection team, law enforcement, state attorney, or the Department of Children and Families.

(10) The claimant/applicant must:

(a) Contact the proper authorities, report the crime, fully comply with the requests of law enforcement and this office, and cooperate with the prosecution of known offenders. Exceptions for not cooperating with both the investigating and prosecuting agencies are as follows:

(i) The victim has already moved outside the geographical vicinity where he or she resided with the offender and has no means of providing sworn testimony by phone or in person;

(ii) The victim is in fear of the offender and this fear has been communicated to law enforcement or the Assistant State Attorney from the outset;

(iii) A language barrier precludes effective communication with law enforcement; or

(iv) Child victims of sexual battery crimes whose guardian refuses to cooperate.

(b) Specify how the sexual battery relocation assistance funds will be used and use monies awarded for that purpose.
(c) Certify that he or she will comply with Section 960.199 F.S.;

(d) Affirm that he or she is not residing with and will not in the future reside with the offender;

(e) Certify that the request to the department for relocation assistance is a last resort that follows all other funding sources;

(f) Submit receipts to the department within 45 days of receipt of the funds;

(g) Verify that the sexual battery was committed in the victim’s place of residence or in a location that would lead the victim to reasonably fear for his or her continued safety in the place of residence; and

(h) Accept the funds at the center within 30 days of issuance;

(i) Acknowledge that criminal prosecution for fraud under Section 960.18, F.S., may be pursued if he or she has made false representations to receive the money.

(11) Proof of a sexual battery crime must come from a proper authority. A BVC430 Law Enforcement Information Reporting Form may be used instead of a complete law enforcement report to prove a crime occurred. The BVC430 Law Enforcement Reporting Form contains a checklist of the eligibility criteria and shortened narrative detailing the incident, and is available only from this department.

(12) The law enforcement report, information from the Assistant State Attorney, report from the Child Protection Team or a report from the Department of Children and Families identifying a crime was committed that meets the definition of Section 794.011, F.S., is required for a claim to be found eligible. Only sexual battery crimes will be considered compensable for purposes of this benefit.

(13) It is the responsibility of the center to obtain and review personal identification documentation before certifying a victim’s need for assistance. The center is not required to forward any personal identification documentation to the department.

(14) If approved, the award will be made payable to the victim as a reimbursement or advance based on a written estimate. Payments will be forwarded to the respective certified rape crisis center. Awards will be administered based on the availability of funds. The department shall determine how those funds are disbursed. Monies paid may be made in the form of a bank card, voucher, check, electronic transmittal, state warrant, or any other method approved by the department.

(15) A certified rape crisis center representative must witness the acceptance of payment. The certified representative will be responsible for having the victim acknowledge and sign a notification of possible recoupment before providing the award to the victim. Any attempt to spend funds for unauthorized goods or services will result in withdrawal of the award. Any expense not directly related to relocation is an unauthorized expenditure. If a recoupment notice is issued because receipts were not acceptable or were not submitted, then additional benefits on any claim will be suspended for that individual by this department until the recouped amount has been satisfied.

(16) If the victim has not accepted the funds at the center within 30 days of issue, the center shall return the funds to the department and withdraw the certification. Upon receipt of the returned funds by the department, eligibility will be withdrawn. This action does not in any way create further appeal rights.

Sales and Use Tax

RULE NOS.: RULE TITLES:
12A-1.005 Admissions
12A-1.0144 Refund of Tax Paid on Purchases of Equipment, Machinery, and Other Materials for Renewable Energy Technologies
12A-1.055 Sale or Discontinuation of Business
12A-1.056 Tax Due at Time of Sale; Tax Returns and Regulations
12A-1.087 Exemption for Power Farm Equipment; Electricity Used for Certain Agricultural Purposes; Suggested Exemption Certificate for Items Used for Agricultural Purposes
12A-1.096 Industrial Machinery and Equipment for Use in a New or Expanding Business
12A-1.097 Public Use Forms

PURPOSE AND EFFECT: The purpose of the proposed amendments to Rule 12A-1.005, F.A.C. (Admissions), is to provide that charges for individuals traveling in air commerce are not subject to the tax imposed on admissions. Effective July 1, 2012, Section 212.08(7)(hhh), F.S., as created by Section 4, Chapter 2012-117, L.O.F., provides an exemption for purchases of equipment, machinery, and other materials for renewable energy technologies obtained by a refund of previously paid sales and use tax. The purpose of the proposed creation of Rule 12A-1.0144, F.A.C. (Refund of Tax Paid on Purchases of Equipment, Machinery, and Other Materials for...
Renewable Energy Technologies), is to provide taxpayers information on how to obtain the refund of tax paid on such items used for renewable energy technologies. Section 213.758, F.S., created by Section 8, Chapter 2010-166, L.O.F., and amended by Section 1, Chapter 2012-55, L.O.F., provides for the transfer of tax liability. Sections 3 and 4, Chapter 2012-55, L.O.F., repeal Sections 202.31 and 212.10, F.S., respectively, regarding the sale of a business and the transfer of liability for communications services tax and for sales and use tax. The proposed repeal of obsolete Rule 12A-1.055, F.A.C. (Sale or Discontinuation of Business), is necessary to remove obsolete provisions regarding the transfer of tax liability when a dealer sells or discontinues a business. Section 2, Chapter 2012-145, L.O.F., provides that only those sales and use tax dealers who file electronic tax returns and remit the amounts due on the returns by electronic means will continue to be entitled to a collection allowance for sales tax returns due on or after July 1, 2012. The proposed amendments to Rule 12A-1.056, F.A.C. (Tax Due at Time of Sale; Tax Returns and Regulations), and to the sales and use tax returns adopted, by reference, in Rule 12A-1.097, F.A.C. (Public Use Forms), are necessary to incorporate this change.

The purpose of the proposed amendments to Rule 12A-1.087, F.A.C. (Exemption for Power Farm Equipment; Electricity Used for Certain Agricultural Purposes; Suggested Exemption Certificate for Items Use for Agricultural Purposes), is to include the amendments to Section 212.08(5)(e)2., F.S., as amended by Section 8, Chapter 2012-32, L.O.F., which, effective January 1, 2013: (1) provide an exemption for electricity used in packinghouses where fruits, vegetables, or meat from cattle or hogs are prepared for market or for shipment in fresh form for wholesale distribution; and (2) expand the exemption for production or processing agricultural farm products on the farm to include packing agricultural farm products on the farm. Section 8, Chapter 2012-32, L.O.F., which, effective January 1, 2013, reduces from 10 percent to 5 percent the increase in productive output needed for expanding businesses to qualify for a sales tax exemption for machinery and equipment. Proposed amendments to Rule 12A-1.096, F.A.C. (Industrial Machinery and Equipment for Use in a New or Expanding Business), is necessary to incorporate this change.

SUMMARY: The proposed amendments to Rule 12A-1.005, F.A.C. (Admissions), provide that charges for individuals traveling in air commerce, such as skydiving, helicopter, or untethered hot air balloon rides, are not subject to the tax imposed on admissions. The proposed creation of Rule 12A-1.0144, F.A.C. (Refund of Tax Paid on Purchases of Equipment, Machinery, and Other Materials for Renewable Energy Technologies), provides how to obtain a refund of previously paid sales and use tax on purchases of equipment, machinery, and other materials for renewable energy technologies, as provided in Section 212.08(7)(hhh), F.S., as created by Section 4, Chapter 2012-117, L.O.F.

The proposed repeal of Rule 12A-1.055, F.A.C. (Sale or Discontinuation of Business), removes the rule containing obsolete provisions relating to the transfer of liability for sales and use tax when a person transfers or quits a business that are provided in Section 213.758, F.S., as amended by Section 1, Chapter 2012-55, L.O.F.

The proposed amendments to Rule 12A-1.056, F.A.C. (Tax Due at Time of Sale; Tax Returns and Regulations), incorporate the provisions of Section 2, Chapter 2012-145, L.O.F., which continues to allow a collection allowance for only those sales and use tax dealers who file electronic tax returns and remit the amounts due on the returns by electronic means for sales tax returns due on or after July 1, 2012.

The proposed amendments to Rule 12A-1.087, F.A.C. (Exemption for Power Farm Equipment; Electricity Used for Certain Agricultural Purposes; Suggested Exemption Certificate for Items Use for Agricultural Purposes), incorporate the provisions of Section 212.08(5)(e)2., F.S., as amended by Section 8, Chapter 2012-32, L.O.F., effective January 1, 2013, including: (1) changing the rule title of the rule to reflect the inclusion of the provisions regarding electricity used for certain agricultural purposes; (2) the exemption for electricity used in packinghouses where fruits, vegetables, or meat from cattle or hogs are prepared for market or for shipment in fresh form for wholesale distribution; and (3) expanding the exemption for production or processing agricultural farm products on the farm to include packing agricultural farm products on the farm.

The proposed amendments to Rule 12A-1.096, F.A.C. (Industrial Machinery and Equipment for Use in a New or Expanding Business), incorporate the provisions of Section 8, Chapter 2012-32, L.O.F., which, effective January 1, 2013, reduces from 10 percent to 5 percent the increase in productive output needed for expanding businesses to qualify for a sales tax exemption for machinery and equipment.

The proposed amendments to Rule 12A-1.097, F.A.C. (Public Use Forms), adopt, by reference, updates and changes to sales and use tax returns necessary to incorporate the provisions of Section 2, Chapter 2012-145, L.O.F., which continues to allow only those sales and use tax dealers who file electronic tax returns and remit the amounts due on the returns by electronic means to claim a collection allowance for sales tax returns due on or after July 1, 2012.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: 1) no requirement for the Statement of Economic Regulatory Costs (SERC) was triggered under Section 120.541(1), F.S.; and 2) based on past experiences with activities for providing the public with tax information and rules of this nature, the adverse impact or regulatory cost, if any, do not exceed nor would exceed any one of the economic analysis criteria in a SERC, as set forth in Section 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Dealers who are located outside Florida or whose business is located in a county where the school district has not adopted the required resolution may also elect to donate the amount of collection allowance that is allowed on
their return to the trust fund. Funds received from these dealers will be equally distributed to school districts that have adopted the required resolutions.

2. Dealers who elect to donate their collection allowance must make an election on each electronic original return that is timely filed with the Department, as provided in subsection (2). The electronic payment required with the return must include the amount of collection allowance to be donated and must be timely paid, as provided in subsection (4). Dealers making the election on their electronic return should not enter the amount of collection allowance on the return. Dealers who operate two or more places of business and file an electronic consolidated return, as provided in paragraph (1)(f), must make the election on the consolidated return (Form DR-15CON, Consolidated Summary-Sales and Use Tax Return) and should not enter the amount of collection allowance on the location returns (Form DR-7, Consolidated Sales and Use Tax Return). The amount of the collection allowance will not be transferred to the Educational Enhancement Trust Fund when a dealer makes an election to donate the amount of its allowed collection allowance but does not include that amount with its payment. Form DR-15CON, Consolidate Summary-Sales and Use Tax Return, and Form DR-7, Consolidated Sales and Use Tax Return, are incorporated by reference in Rule 12A-1.097, F.A.C.

3. When a dealer files an electronic return and timely pays the amount due, makes the payment required with the return by electronic means timely, the election to donate the amount of the collection allowance to the Educational Enhancement Trust Fund may not be rescinded for that return. Dealers are not permitted to file an amended return to make an election to donate the amount of the collection allowance to the trust fund when the election was not made on the original return as filed.

4. When a dealer elects to transfer the amount of collection allowance to the Educational Enhancement Trust Fund applies only when the dealer files a timely return. The amount of collection allowance transferred to the Educational Enhancement Trust Fund, the amount transferred trust fund will be the amount remaining after resolution of any tax, interest, or penalty due, when the dealer makes an election to transfer the amount of collection allowance on:

   a. A return that is filed with the Department after the due date, as provided in subsection (1);

   b. A return that is incomplete, as provided in this subsection; or

   c. When the dealer underpays the amount of tax due with the return.

(a) The purchase of industrial machinery and equipment, parts and accessories, and the installation thereof, is exempt from tax when purchased by an expanding business that uses such machinery and equipment at a fixed location in this state to increase the productive output of tangible personal property that is manufactured, processed, compounded, or produced for sale by not less than $ 40 percent, or for exclusive use in spaceport activities.

(b) No change.

(c)1. An expanding business is allowed to specify whether the 40 percent increase in productive output is for the entire plant or for specific product line(s). However, where the increase in productive output applies to a product or component that becomes part of different product lines, the increase in productive output will be determined by measuring the increase in the combined output of the different product lines. Similarly, if the additional machinery and equipment affects the productive output of more than one product line, the increase in productive output must be measured by all of the product lines that have been affected.

RULE NOS.: RULE TITLES:
12A-17.001 Scope of Rules
12A-17.003 Registration
12A-17.005 Public Use Forms

PURPOSE AND EFFECT: To meet the requirements of Sections 538.09(2) and 538.25(1), F.S., and provide the information necessary for the Florida Department of Law Enforcement to complete a state and federal criminal history record check, fingerprints are now required to be submitted electronically. In addition, effective July 1, 2012, Section 1, Chapter 2012-179, L.O.F., requires any person purchasing, consigning, or trading secondhand goods at a flea market to register as a secondhand dealer and limits the exemption from the registration requirement for auction businesses to only those businesses engaged in buying and selling estates, business inventory, surplus merchandise, or liquidations.

The purpose of the proposed amendments to Rule Chapter 12A-17, F.A.C. (Registration as Secondhand Dealer or Secondary Metals Recycler), is to update the registration requirements for secondhand dealers and secondary metals recyclers.

SUMMARY: The proposed repeal of Rule 12A-17.001, F.A.C. (Scope of Rules), removes an unnecessary rule regarding the administration, enforcement, and recordkeeping requirements imposed on secondhand dealers and secondary metals recyclers that is redundant of the provisions in Section 538.11, F.S.

The proposed amendments to Rule 12A-17.003, F.A.C. (Registration), and Rule 12A-17.005, F.A.C. (Public Use Forms): (1) update procedures for secondhand dealers and secondary metals recyclers regarding fingerprinting...
requirements when applying for a secondhand dealer’s or secondary metals recycler’s certificate of registration; and (2) include in the Registration Application for Secondhand Dealers and/or Secondary Metals Recyclers (Form DR-1S) the registration requirements for persons purchasing, consigning, or trading secondhand goods at a flea market and for auction businesses engaged in buying and selling estates, business inventory, surplus merchandise, or liquidations.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: 1) no requirement for the Statement of Economic Regulatory Costs (SERC) was triggered under Section 120.541(1), F.S.; and 2) based on past experiences with activities for providing the public information on how to comply with statutory registration requirements and rules of this nature, the adverse impact or regulatory cost, if any, do not exceed nor would exceed any one of the economic analysis criteria in a SERC, as set forth in Section 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

12A-19.070 Assignment of Service Addresses to Local Taxing Jurisdictions; Liability for Errors; Avoidance of Liability Through Use of Specified Methods; Reduction in Collection Allowance for Failure to Use Specified Methods.

   (1)(a) Dealers of communications services that are required to collect local communications services taxes must assign each customer service address to a specific local taxing jurisdiction for purposes of determining the appropriate local communications services tax rate to be applied to sales made to that address. Local communications services taxes must be collected and remitted for each service address in accordance with the service address assignments in the effective communications services tax Address/Jurisdiction Database, which is the official electronic database maintained by the Department that is posted 90 days prior to its adoption and becomes effective every January 1 and July 1, as discussed in Rule 12A-19.071, F.A.C. Except as otherwise provided in subsection (2), a dealer is liable for any additional local communications services taxes, interest, and penalties that are due as a result of assigning service addresses to incorrect local taxing jurisdictions when the correct local taxing jurisdiction’s tax rate exceeds the incorrectly assigned local taxing jurisdiction’s tax rate.

   (b) In determining the liability for any additional local communications services taxes, interest, and penalties of a dealer who does not use a method as described in paragraph (2)(a) and has failed to assign one or more service addresses to the correct local taxing jurisdiction, the Department will take into account all underpayments and overpayments of the local tax any amount of local communications services taxes that was collected and erroneously assigned by the dealer to another local taxing jurisdiction. The Department will reallocate and redistribute such amounts between the local taxing jurisdictions involved to apply the payment of any additional local communications services taxes to the correct local taxing jurisdiction. Interest and penalties will be applied only to the additional local communications services taxes due as a result of assigning service addresses to incorrect local taxing jurisdictions.

   2. The dealer will be held liable for the net aggregate underpayment of tax and associated interest and penalties for incorrectly assigning one or more service addresses when:

   a. The dealer does not use or employ one or more of the methodologies described in paragraph (2)(a) for assigning service addresses to local taxing jurisdictions;

   b. The Department determines that there are misallocations of the local communications services taxes collected by the dealer between local taxing jurisdictions during the tax period(s) examined; and
c. The dealer’s assignment of service addresses to local taxing jurisdictions results in a combined net aggregate underpayment of local communications services tax during the tax period(s) examined.

3. In addition, a specific penalty of 10 percent of any tax collected but reported to an incorrect jurisdiction as a result of an incorrect address assignment, not to exceed $10,000 per return, will be imposed on any dealer that does not use a database described in paragraph (2)(a).

(c) No change.

(2)(a) A dealer will not be liable for any additional local communications services taxes, interest, or penalty due solely because of an error in assigning a service address to a local taxing jurisdiction if the dealer exercised due diligence in employing one or more of the following methodologies in assigning that service address:

1. The Address/Jurisdiction Database;
2. A database that has been certified by the Department, as provided in Rule 12A-19.072, F.A.C.;
3. An enhanced zip code method, as discussed in Rule 12A-19.073, F.A.C.; or
4. A database that, upon audit by the Department, is determined to have met the accuracy rate criterion required for certification under Rule 12A-19.072, F.A.C.

(b) through (e) No change.

(3) Collection Allowance.

(a) Any communications services dealer that employs one or more of the methodologies described in subparagraph (2)(a)1., (2)(a)2., or (2)(a)3. for assigning service addresses to local taxing jurisdictions is entitled to a collection allowance of .75 percent on taxes collected on service addresses assigned using the described methodologies and will not be denied the collection allowance solely because the dealer assigned one or more addresses to an incorrect local taxing jurisdiction. Any communications services dealer that employs any methodology that is not described in subparagraph (2)(a)1., (2)(a)2., or (2)(a)3. for assigning service addresses to local taxing jurisdictions is entitled to a collection allowance of .25 percent on taxes collected on service addresses assigned using such other methodology. A communications services dealer who is not liable for an assessment of additional local communications services taxes, interest, and penalties by reason of employing a database that is found upon audit to meet the accuracy criteria for certification, as described in subparagraph (2)(a)4., is entitled to a collection allowance of .25 percent until such time as an application for certification of the database is made and approved.

(b) through (c) No change.

12A-19.100 Public Use Forms.

(1)(a) The Department employs the following public-use forms and instructions in the administration of Chapter 202, F.S., Communications Services Tax, and in the administration of the Department’s electronic Address/Jurisdiction Database created pursuant to Sections 175.1015 and 185.085, F.S. The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: 1) no requirement for the Statement of Economic Regulatory Costs (SERC) was triggered under Section 120.541(1), F.S.; and 2) based on past experiences with activities for the administration of the corporate income tax credits, and rules of this nature, the adverse impact or regulatory cost, if any, do not exceed nor would exceed any one of the economic analysis criteria in a SERC, as set forth in Section 120.541(2)(a), F.S.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

12C-1.0193 Florida Renewable Energy Production Credit.

(1) A Florida Renewable Energy Production Credit is provided in Section 220.193, F.S., for the sale of electricity from a new Florida renewable energy facility operationally placed in service after May 1, 2006, and for increases of more than five percent (5%) in the production and sale of electricity from renewable energy sources at an existing Florida renewable energy facility. The terms “sale” and “sold” include the use of electricity by the producer of such electricity from renewable sources if such use reduces the amount of electricity that the producer would otherwise have to purchase. To claim the credit, an application for an Application for Florida Renewable Energy Production Credit Allocation (Form F-1193, incorporated by reference in Rule 12C-1.051, F.A.C.), must be filed with the Department of Agriculture and Consumer Services on or before February 1 of each year for an allocation of credit. The allocation of credit is based upon the applicant’s increased production and sales of electricity and the increased production and sales of all applicants. On or before March 1 of each year, the Department of Agriculture and Consumer Services will notify eligible taxpayers by letter of the amount of credit that is allocated to them and the tax year in which the taxpayer may claim the credit on its Florida corporate income tax return. A copy of the letter must be attached to the taxpayer’s Florida corporate income tax return on which the credit is taken.

(2) Taxpayers that increase both production and sales of renewable electrical energy by more than five percent (5%) over the 2005 calendar year for each expanded Florida renewable energy facility may submit one application each year for each qualifying facility. For a new Florida renewable energy facility, the credit is based on the taxpayer’s sale of the facility’s entire electrical production. A taxpayer may not transfer its right to apply for a credit to another taxpayer. Florida Renewable Energy Production credits may only be taken once against the Florida corporate income tax, may not be carried back to an earlier tax year, and must be taken in the order prescribed in Section 220.02(8), F.S. A taxpayer claiming the credit on its Florida corporate income tax return must add back the amount of the credit to its Florida net income. Credit amounts that are not granted in full or in part due to the annual $5 million limitation are not eligible for a Florida Renewable Energy Production credit in later years.

(2)(4) The Florida Renewable Energy Production Credit may be transferred in a merger or acquisition. In addition, unused credits may be transferred one time (outside a merger or acquisition) to another taxpayer in whole or in increments of not less than 25 percent of the remaining credit. Taxpayers are required to file a Notice of Intent to Transfer A Florida Energy Tax Credit (Form F-1193T, incorporated by reference in Rule 12C-1.051, F.A.C.) to transfer the unused renewable energy production credits available for transfer. The transfer must be verified by the Department prior to the transferee claiming the credit. Within 15 days of receipt of a completed Form F-1193T, the Department will notify the transferor and the transferee by letter of the amount of tax credit authorized for transfer. A copy of the letter from the Department allowing the transfer must be attached by the transferee to the Florida Corporate Income/Franchise and Emergency Excise Tax Return (Form F-1120, incorporated by reference in Rule 12C-1.051, F.A.C.) on which the credit is claimed. The transfer of a credit does not affect the time for taking the credit, and the credit is subject to the same limitations imposed on the transferor.

(3)(4) Every taxpayer claiming a Florida Renewable Energy Production Credit must retain documentation that substantiates and supports the credit, a copy of the certification letter received from the Department of Agriculture and Consumer Services certifying the amount of grant the credit, a schedule reconciling all credit carryovers, transfers, and sales, a schedule tracking the credit amounts allocated and the use of such credits, and, if applicable a copy of the letter from the Department allowing the transfer until tax imposed by Chapter 220, F.S., may no longer be determined and assessed under Section 95.091(3), F.S. Documentation to substantiate and support the credit includes: production records or other evidence of the amount of electricity produced; evidence of the increase in production and sales of electricity over the 2011 calendar year by an expanded facility; and evidence establishing that the electricity was produced from renewable energy.

THE FULL TEXT OF THE PROPOSED RULES IS:

12C-2.004 Property Subject to Tax – Governmental Leasehold Estates and Nonrecurring.

(1) Tax on Governmental Leasehold Estates – All leases of government-owned property are subject to an annual tax if rental payments are due as consideration for the lease, unless the lessee serves or performs a governmental, municipal, or public purpose or function as defined in Section 196.012, F.S. (The tax is imposed every year.)

(2) through (4) No change.
(1) Leases of Governmental Property.

(a) The value of a lease of governmental property described in subsection 12D-3.003(3), F.A.C., is determined by valuing the lease payments for the remaining term of the lease on January 1 of the tax year, subject to the following provisions:

1. The lease payments to be valued do not include any amount for taxes, interest, insurance, repairs, maintenance, exclusive franchise or concession fees, costs of utilities, or similar charges required to be paid the lessor, and include only the amount paid by the lessee for the use of real or tangible property provided or owned by the governmental lessor, whether designated as a fixed sum, a percentage, or a variable amount.

2. If lease payments are nominal amounts, such as $1 or $10 per year, or the payments are significantly less than a fair market rental for the property, the annual fair market rent which would be paid by the lessee in the open market for comparable property under similar terms and circumstances will be the lease payment to be valued.

3. If payments required by the lease are based on some factor other than the passage of time, such as a percentage of sales or profits, the lease payment to be valued will be based on the average annual rent actually paid by the lessee in prior years, providing the amount so determined is not nominal or significantly less than the fair market rental for the property. The average annual rental used will be determined from the amounts paid by the lessee for a period not to exceed the previous five years. If the average so determined is nominal or is significantly less than fair market value for the property, the lease payment to be discounted will be the annual fair market rental for the property.

4. Otherwise, the annualized lease payment required under the lease is the amount to be valued. The valuation factors to be used are based on the Federal Reserve discount rate – Atlanta – on the last business day of the preceding year, plus one percent. Valuation Factor Tables determined by the Department based on that discount rate, plus one percent, are annually published in a Taxpayer Information Publication and posted to the Department’s Revenue Law Library at www.myflorida.com/dor.

5. The period for which the lease payments are to be valued is the number of years remaining under the lease, exclusive of renewal options, as of January 1 of the tax year. The year in which the lease will expire is to be considered a full year for the purpose of this rule.

6. If the final period for which the lease payment is to be valued is less than a year, the lease payment is to be valued using the 1 year value factor and the tax apportioned based on the number of months during the year that the lease is in effect.

(b) through (c) No change.

(26) “Self-Propelled Equipment” means a single rigid frame unit propelled with its own power source which does not transport a divisible load, and includes equipment such as earth handling equipment, cranes (which may include a dolly attachment), derricks and fire trucks.

(27) “Trip Permit” means authorization issued to allow a single hauling of a load from point of origin to destination.

(28) “Truck Crane” means any vehicle (which may include a dolly attachment) designed and constructed to be used primarily for lifting, lowering, or traversing while operating from either a secure stationary position, or in a rolling position, if specifically designed for rolling operation.

(29) “Valid Permit” means authorization pursuant to Section 316.550, F.S., by the Department that has not been altered, changed, or otherwise modified, unless in writing by the Department, accompanied by the original permit.

(30) “Warning Light” means a class 2 electrical lighting device located on a permitted vehicle and/or escort vehicles, used to warn all approaching traffic of a possible safety hazard. The device shall be any one or combination of the following:

(a) Rotating;
(b) Strobe;
(c) Flashing.

(31) “Warning Sign” means a sign device, located on permitted vehicle and escort vehicles, used to warn all approaching traffic of a possible safety hazard.

(32) “Wrecker Permit” means authorization issued for the operation of a wrecker where the combined weight of the wrecker plus towed disabled vehicle exceeds the maximum weight established by Section 316.535, F.S.

(1) Purpose. The purpose of this rule chapter is to protect the public safety, to reduce interference with traffic flow on state owned highways and structures, and to preserve the state’s transportation facilities by providing standards and procedures to govern issuance of permits for overweight and overdimensional vehicles and loads operating over state owned roadways and structures. The rules of this rule chapter apply to all persons or entities operating overweight and
overdimensional vehicles and loads over state maintained roads, which are not specifically exempt under Chapter 316, F.S.

(2) Intent. It is the intent of the Department to require that all reasonable steps be taken to reduce the vehicle load to legal limits of weight and dimensions. Permits for overweight and overdimensional vehicles and loads are intended for a single item load which cannot reasonably be dismantled or disassembled and which cannot reasonably be shipped by rail, water, or air.

(3) The administration of these rules is assigned to the Department’s Permit Office, located in Tallahassee, Florida, whose mailing address is:

Florida Department of Transportation
Permit Section
605 Suwannee Street, M.S. 62
Tallahassee, Florida 32399-0450

Travel authorization and/or permits for travel on local roadways and structures must be obtained from local authorities.

(4) Permitting Process. Payment for permits shall be in cash, by cashier’s check, personal or company check, money order, credit card, or bond/escrow account. Permit requests must be received at least ten business days before scheduled movement for non-routine permits. The applicant must complete all required fields on Form 850-040-02, Request for Special Road Use Oversize/Overweight Permit Application or complete an online Application at www.fdotmain.com/permit and–rev. 07/10, incorporated herein by reference and provide the following:

(a) Total gross weight of vehicle/vehicle combination to include permitted load if over legal weight. Otherwise, the applicant must state that the gross weight is legal.

(b) External bridge and individual axle spacings of vehicle/vehicle combination (center of hub to center of hub) if over legal weight.

(c) Total number of axles and total weight on each axle of vehicle/vehicle combination if over legal weight. Otherwise, the applicant must state that the axle weights are legal.

(d) Total width of vehicle and/or load at widest point.

(e) Total length of the vehicle/vehicle combination and/or load from front to rear to include front and rear overhang. If there is any overhang, separate measurements are to be provided in addition to the total length.

(f) Total height of the vehicle and/or load from the pavement to the highest point of the vehicle and/or load.

(g) Description of load to be transported.

(h) Requested route(s) of travel containing detailed information including origin, destination, physical addresses, mile markers, or intersections. This applies to trip permit applications only. Non-Routine Permit Trip Applications must also include detailed routing information, such as stops for rest areas, exit ramps, etc., such as state highway and interstate route numbers.

(5) No movement shall be made under any permit will be issued until the route has been surveyed to verify it has been verified that the route can accommodate the vehicle and load. The Department is responsible for verifying the load carrying capacity of the route. The applicant is responsible for verifying adequate vertical (height) and horizontal (length and width) clearance. Vehicles and loads with Permit applications requesting a height greater than 15 feet and/or a width greater than 22 feet shall be surveyed by a qualified escort, as described in this rule chapter prior to any movement. Surveying a route prior to movement of the load does not exempt the hauler from being required to obtain a permit prior to any movement. Applications for vehicles and loads with a height greater than 18 feet and/or width greater than 22 feet shall be supported by a survey letter from the hauler supported by an affidavit from the applicant. The survey letter affidavit must be on the hauler’s provided by the applicant on the applicant’s letterhead and include the signature of the applicant, a statement verifying that the route has been surveyed, and that clearances exceed the requested permitted dimension by a minimum of 6 inches for height and 2 feet on each side for width. The surveyed route and the route shown on the application must be identical. The survey must be completed by a qualified escort as described in this rule or a driver with a valid Commercial Driver’s License.

(6) Structural Evaluation. In addition to the information required for issuance of a permit, a schematic of the vehicle showing all longitudinal and transverse spacings, axle weights and dimensions must be provided at least ten business days before a proposed move when the vehicle’s gross weight exceeds 199,000 pounds so that a structural analysis can be performed. Applicants, whose vehicles have a gross weight of less than 199,000 pounds, will be required to provide a schematic as well when an Engineer of the Office of Maintenance, Bridge Section, determines that a structural analysis is needed.

14-26.00425 Criteria for Issuance of Permits

(1) The Department shall consider the following criteria when evaluating permit requests and prescribing conditions limiting the use of said permit:

(a) Whether the load can be reasonably dismantled or disassembled;

(b) Protection of the motoring public from traffic hazards created by the movement of overweight and overdimensional vehicles or loads on state owned highways and structures;
(c) Prevention of undue delays in the normal flow of
traffic;
(d) Prevention of damage to the highway pavement,
facilities, and structures;
(e) Assistance needed for transportation problems
involving excess size or weight;
(f) Whether vehicle(s) meet the Department’s established
axle load and axle spacing requirements based upon structural
analysis of the bridge structures to be crossed;
(g) The number of lanes, width of lanes, and the condition
of the pavement to be traversed;
(h) The number, adequacy, and availability of access
routes;
(i) The number and types of accidents and fatalities
occurring on the roads of the proposed route;
(j) The shoulder conditions and widths on the proposed
route;
(k) The average daily volume of traffic;
(l) The volume of traffic during peak periods;
(m) The number of traffic signals per mile;
(n) The frequency of necessary vehicular lane changes;
(o) The availability of emergency lanes;
(p) Temporary conditions such as construction or
impending adverse weather;
(q) The applicant’s survey letter indicating
certification of available vertical clearance on the proposed route for all
loads/vehicles over 18 45 feet high;
(r) The applicant’s survey letter indicating
certification of available horizontal clearance on the proposed route for all
loads/vehicles over 22 feet wide;
(s) The applicant’s previous permit compliance history;
(t) Other items which affect traffic flow or safety;
(u) All details relevant to the proposed move as presented
by the applicant and as requested by the Department.

(2) Override Authority. Authority to override Sections
316.550 and 316.535, F.S., and Rule Chapter 14-26, F.A.C.

(a) Pursuant to Section 316.550, F.S., the Governor,
Secretary of the Department of Transportation, Assistant
Secretary for Engineering and Operations, and the State
Highway Engineer have powers by which they, in extenuating
circumstances, may authorize the Department’s Permit Office
to issue permits for vehicles or loads not specifically
authorized by statute or rule, thereby exceeding the normal
daily operational safety standards and procedures of Sections
316.515 and 316.535, F.S. and Rule Chapter 14-26, F.A.C.
(c) The applications, supporting documentation,
authorizations, and permits will be documented and maintained
by the Department.
(b) To obtain a permit for vehicles or loads
not specifically authorized in this rule chapter, an applicant
must include, with the permit application, a letter of
essentiality from a government entity or the ultimate recipient
of an essential service, providing justification for issuance of a
non-routine permit. A letter from the hauler, distributor, or
manufacturer will not be accepted. The letter must verify that
the load has been reduced to the smallest size possible, cannot
be shipped by any other means of transportation, and state why
the move is essential in the interest of public safety, national
defense or other extenuating circumstances.

(d) Emergencies. Upon a Governor’s Declaration of
Emergency, in order to allow response to the emergency, and
after safety considerations, the Department may temporarily
suspend certain permit restrictions by issuing an emergency
permit letter.

Rulemaking Authority 316.302(1), 334.044(2) FS. Law Implemented 316.302(1), 316.535(6) FS. History–New 2-1-10, Amended ________.

14-26.012 Movement Conditions and Restrictions.

(1) Operational use of permits. The configuration and weight(s) of a vehicle and its load traveling under permit must match the configuration and weight(s) described on the permit and any authorized amendments to that permit. For vehicles traveling under a trip permit, the vehicle or load must match either the truck tag number, trailer tag number, vehicle identification number, the bill of lading number, or the load identification number identified in the permit. An electronic version of a trip permit may be presented, if the trip permit is readily available and legible. Vehicles traveling under a multi-trip permit, the vehicle type and load must match the vehicle type and load described in the permit. Under both types of permits, the permitted vehicle’s size, weight, number of axles, axle spacings, and any unique characteristics must comply with the limits for that item if addressed in the permit or any amendment to that permit. Trip permits are valid only for those routes specified in the permit. Multi-trip permit vehicles are not allowed to travel on any restricted bridges or any restricted roadways identified in the permit or its attachments. No vehicle may cross any posted bridge when the vehicle exceeds the prescribed limits of the bridge.

(2) Escorts accompanying overdimensional loads as required by permit or pursuant to subsection 14-26.012(6), (7), or (8), F.A.C., are limited to:

(a) Law enforcement escorts.
(b) Escorts qualified by another state, provided that the other state has equal or more stringent standards as those required by Florida for qualified escorts and the escort has been qualified or re-qualified within the past four years.
(c) Qualified escorts:
   1. Must be at least 18 years of age and must possess a valid driver’s license in the state or jurisdiction in which he or she is a resident.
   2. Must have successfully completed a minimum eight hour defensive driving course as provided by a National Safety Council qualified instructor or hold a currently valid Commercial Driver’s License (Class A, B, or C). The instructor shall not be an employee of the employing escort service.
   3. Must have successfully completed a minimum eight hour pilot/escort flagging course. The qualification must be current and must be from an entity approved by the Department based upon that entity’s course content, methods of instruction, and familiarity with state and federal standards.
   4. Shall maintain in his or her possession, for prompt presentation upon request by a law enforcement person or Department representative, a copy or copies of the qualification document or documents verifying completion of the required qualification courses.
   5. Shall be requalified every four years by successfully completing a four hour Department approved refresher course.

(a) Escort Vehicles.
1. Escort vehicle(s) must be a single unit vehicle with a gross vehicle weight rating of at least 2,000 pounds and less than 26,000 pounds. The vehicle must be properly licensed, registered, and operated by a qualified escort.

2. Identification signs or placards showing the name of the company or the owner or driver of the escort vehicle must be in a conspicuous place on both the right and left sides of the escort vehicle. The signs or placards shall be at least 8 inches × 12 inches, or contain the equivalent square inches, and shall also contain the telephone number of the owner or driver plainly legible and visible to the motoring public.

3. All escort vehicles must be equipped with high visibility rotating, strobe or flashing class 2 amber warning lights mounted so as to be seen by all approaching traffic at a distance of at least 500 feet.

4. Escort vehicles shall display either a bumper mounted or a roof mounted yellow sign (or may display both) reading “OVERSIZE LOAD” with black letters with a minimum brush stroke of 10 inches high and 1 1/2 inches wide, which must be visible from front and rear.

5. Two flags, either red or fluorescent orange in color, which must be at least 18 inches × 18 inches, shall be mounted at approximately a 40 to 70 degree angle on the escort vehicle’s roof rack.

(b) On Board Equipment. During escort operations, all escort vehicles shall have on board the following equipment and such equipment shall be in working order:

1. Operable two-way electronic communications. Qualified escorts must be in radio contact with load drivers at all times during movements.
2. Two fire extinguishers (minimum five pounds each).
3. “STOP” and “GO” or “STOP” and “SLOW” paddles a minimum 18 inches in diameter with 6 inch high letters.
4. A high visibility, fluorescent class 2 safety vest for flagging during daytime hours or a high visibility, fluorescent class 3 safety vest when flagging at night.
5. One hand-held flag, either red or fluorescent orange in color, which must be at least 12 inches × 12 inches.
6. Two warning signs (yellow with black lettering) with a minimum brush stroke of 12 inches high and 1 1/2 inches wide. Each warning sign shall have a total dimension of not less than 7 feet long by 18 inches high. These signs shall be used in the event the permitted vehicle or load loses its sign(s).
7. Three 36 inch traffic cones. Traffic cones must be reflective if used at night.

8. For over height loads, the lead vehicle must have a height indicator, i.e., height pole, used to determine vertical clearance. This device must be manufactured of non-conductive and non-destructive material and must be positioned at a height of at least 6 inches above the height of the load being escorted.

(4) Escort Functions. Escorts are required to watch and direct traffic or the load to ensure public safety. Escorts may, when actively escorting permitted loads, perform necessary traffic control functions as defined in Section 316.079(2), F.S. No escort or escort vehicle may be used to perform any other function that could distract from the escort responsibilities. The total number of escorts required will be determined based upon safety considerations. If one escort is required for an over width load, the escort shall precede the load on two lane highways or follow the load on four lane divided highways. If two escorts are required, one must precede the load and one must follow. If the load is over length only, the escort vehicle shall be in the rear of the load at all times. Escorts shall operate no more than 300 feet in front of or behind the load unless road conditions or permit stipulations dictate otherwise. Escort vehicles in the process of escorting a permitted vehicle or load must proceed through weigh stations and must not bypass such stations.

(5) Safety Requirements and Restrictions for Permitted Load and Vehicle.

(a) Flags. Flags shall be clean, have high visibility, and be at least 18 inches \( \times \) 18 inches. They shall be displayed so as to wave freely on all four corners of the vehicle and at the extreme ends of all protrusions, projections, or overhangs.

(b) Warning Lights.

Required Display. Vehicles or loads exceeding 10 feet in width, 80 feet in length (or over 3 feet of front overhang for self-propelled equipment), or 14 feet 6 inches in height shall have warning lights which shall:

1. Be class 2 high visibility rotating, strobe or flashing amber warning lights; and
2. Be mounted so as to be seen by all approaching traffic at a distance of at least 500 feet.

(c) Warning Signs.

1. Required Display. Vehicles or loads exceeding 10 feet in width, 80 feet in length, or 14 feet 6 inches in height.
2. Each warning sign shall:
   a. Consist of black letters 12 inches high with a brush stroke of not less than 1 1/2 inches wide on a yellow background.
   b. State “OVERSIZE LOAD.”
   c. Have a total dimension of not less than 7 feet long by 18 inches high.

   d. Be either bumper mounted or roof mounted. If one of the signs is roof mounted then, the other sign must be at the rear of the towed unit or at the rear of the load. Voids (holes) may be cut in warning signs as signs must not cover any vehicle light or reflector.

   (d) Movement During Periods of Poor Visibility. No travel is allowed when horizontal visibility is less than 1,000 feet. Vehicles which are underway when inclement weather occurs must exit the road at the first available location and park until the weather clears or until road conditions improve.

   (e) Movements on Weekends and Holidays. Unless otherwise noted on the permit, movements are prohibited on weekends and holidays. A government entity, meeting the criteria of Rule 14-26.00425, F.A.C., shall be allowed to travel all days, all hours with a valid permit.

   (f) Nighttime movement. When the criteria of Rule 14-26.00425 and 14-26.012, F.A.C., are met, trip or multi-trip permits shall be issued providing:

2. All other loads shall have a minimum of two warning lights mounted with one on the front and one on the rear of the load.

3. On roadway lanes less than 12 feet wide, bridges with less than 30 feet curb to curb, and in rural areas with traffic volume greater than 12,000 Average Daily Traffic (ADT) per lane or in urbanized areas (more than 50,000 population) with ADT greater than 8,000 vehicles per lane, two qualified escorts are required except on loads with a minimum of four warning lights mounted two in front and two in the rear of the towed or hauled unit.

4. No movement will be allowed in congested areas during peak traffic hours.

   (d) Vehicles over 14 Feet up to 16 Feet. When the criteria of Rule 14-26.00425, F.A.C., are met, trip permits only shall be issued.    2. All other loads shall have a minimum of two warning lights mounted with one on the front and one on the rear of the load.

   3. Two lane roadways shall not be used as a connector route whenever viable four lane routes are available. Requests for two lane roadways as connector routes may require justification from the customer and ultimate approval from the Department. (b) Multiple loading does not cause the gross vehicle weight to exceed those limits established in Section 316.535, F.S.,

then:

1. Attachments (e.g. blade, rake, bucket, counterweights) that are a normal part of the equipment have been removed to reduce the size of the load for safety reasons. Multiple attachments may be transported if they are attachable to the equipment and necessary for operation.

(e) Straight truck and trailer combinations hauling automobiles/boat may obtain a trip or multi-trip permit when the trailer exceeds 28 feet with an overall length not to exceed 80 feet. No overhang is allowed.

(f) Trip or multi-trip permits will be issued to truck tractor semi-trailer combinations to deviate from inner-bridge requirements when traveling on interstate highways and when the criteria of Rule 14-26.00425, F.A.C., are met. These vehicles are not allowed to exceed the external bridge or axle weight limitations described in Section 316.535, F.S.

(12) Wrecker Permits.

(a) When the combined weight of the wrecker and disabled vehicle being towed exceeds the maximum weight limits established by Section 316.535, F.S., trip or multi-trip permits shall be issued if all the criteria of Rule 14-26.00425, F.A.C., are met.

SUMMARY: The proposed rules are a restatement of statutory language and therefore are duplicative and unnecessary.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:
The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.
The Administration Commission has determined that the proposed rule repeal is not expected to require legislative ratification based on the fact that the rules are restatement of statutory language and are duplicative and unnecessary.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

APPENDIX ONE

PROPERTY LIST

This list incorporates all property authorized to be possessed by inmates in all department institutions and facilities except community correctional centers. Except for items specified below as “exemptions,” property received must be in compliance with this list. Inmates in possession of property previously approved by the Department of Corrections which meets the description of property on the list shall be allowed to retain the property. Inmates transferring to department facilities from private correctional facilities shall be allowed to retain only those items that are in compliance with the list of authorized property. As items sold in canteens at private facilities may differ from those sold in department canteens, items purchased in canteens at private facilities will not always be admissible in department facilities.

Definitions.

The “quantity” establishes a maximum possession limit. This does not mean that all state issue items will be issued to each inmate, or that the maximum number of items will be issued. All canteen items are subject to availability and may not be available for purchase. Items found in the possession of an inmate that are in excess of the established “quantity” shall be treated as contraband in accordance with Rule 33-602.203, F.A.C. Where there is a “value” indicated, the authorized item shall not exceed that value. The terms “canteen” and “state issue” refer to the sources from which property can be obtained or transferred.

All canteen items are transferable between department institutions. “State issue” means that the institution has the authority to issue this item to inmates based upon the character of the institution, the location of the institution, the housing or work assignment of the inmate, or other factors related to institution or inmate needs. Institutions housing
death row inmates shall make adjustments to this property list when possession of listed items by death row inmates would create a threat to the security of the institution.

Exemptions.

Inmates already in possession of the following previously approved items shall be allowed to retain the items until they are no longer serviceable, but shall not be allowed to replace them with like items.

RULE NO.: 40D-8.624 Guidance and Minimum Levels for Lakes

PURPOSE AND EFFECT: The purpose and effect of this rulemaking is to amend Rule 40D-8.624, F.A.C., to establish minimum and guidance levels for Lake Hooker in Hillsborough County, FL pursuant to Section 373.042, Florida Statutes.

RULE NO.: 62-304.900

RULE TITLE: Statewide TMDLs

PURPOSE AND EFFECT: The purpose of the rule is to adopt a Total Maximum Daily Load (TMDL), and its allocations, for mercury in all fresh and marine waters in Florida.

SUMMARY: The TMDL addresses impairments identified in fresh and marine surface waters within the state of Florida due to mercury in fish tissue. Specifically, the TMDL rule being proposed for adoption addresses more than 1100 waterbody segments verified as impaired using the methodology established in Chapter 62-303, F.A.C., Identification of Impaired Surface Waters. The methodology used to develop the TMDL was the percent reduction method. This rulemaking has been given OGC case number 12-1034.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the agency.

Costs associated with monitoring effluent for mercury and the potential need to develop mercury minimization plans (MMPs) were estimated for 427 industrial and domestic wastewater National Pollutant Discharge Elimination System permittees in the state of Florida. The costs to implement mercury reductions cannot be estimated until the outcomes of the monitoring and any needed MMPs are known. The initial costs have been estimated to exceed one million dollars.

The Agency has determined that the proposed rule is expected to require legislative ratification based on the statement of estimated regulatory costs.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULEMAKING AUTHORITY: 403.061, 403.067 FS.

THE FULL TEXT OF THE PROPOSED RULE IS:

62-304.900 Statewide TMDLs.
The statewide mercury (total) TMDL for all fresh and marine waters in Florida is allocated as follows:

(1) The Wasteload Allocation (WLA) for all industrial and domestic wastewater sources holding NPDES permits in Florida, other than those sources covered under subsection 62-304.900(2), F.A.C., is 23 kg/yr mercury (total). Pursuant to paragraph 62-620.100(3)(m), F.A.C., domestic wastewater facilities with a permitted capacity of greater than one million gallons per day and all industrial discharges, other than once-through cooling waters at industrial wastewater facilities and those sources covered under subsection 62-304.900(2), F.A.C., that demonstrate quantifiable mercury (total) levels in their effluent (using clean techniques, such as EPA Method 1631e) will be required to prepare and implement a mercury minimization plan addressing sources of mercury (total) within their jurisdiction.

(2) The WLA for discharges subject to the Department’s NPDES Municipal Stormwater Permitting Program or for other discharges primarily treating stormwater and not expected to add mercury (total) to their discharge, is generally not applicable; however, a permittee or co-permittee may be required to reduce mercury loads if sources of mercury (total) under the direct control of that permittee or co-permittee are found to exist.

(3) The Load Allocation (LA) for nonpoint sources is to address anthropogenic sources in the basin is an 86% reduction of mercury (total) from atmospheric sources, and

(4) The Margin of Safety is implicit.

(5) While the LA for mercury has been expressed as the percent reduction needed to attain the applicable narrative criteria, it is the combined reductions from both anthropogenic point and nonpoint sources that will result in the required reductions. However, it is not the intent of the TMDL to abate natural background conditions.

RULE NO.: RULE TITLE:

68B-2.006 Restricted Species License Exemption

PURPOSE AND EFFECT: The purpose of this new rule is to create an exemption from the income requirements associated with a restricted species endorsement for honorably discharged veterans. This rule would assist Florida’s veterans wishing to enter the commercial fishing industry.

The primary effect of this rule would be to allow a one-time exception to the restricted species endorsement income requirement for resident veterans under specific circumstances. This rule will affect resident veterans honorably discharged between September 11, 2001 and June 30, 2014, and future veterans. Normally, to qualify for a restricted species endorsement one must possess a Florida Saltwater Products License as well as prove that $5,000 or 25% of their total income during one of the past three years has been attributable to reported landings and sales of saltwater products to a Florida wholesale dealer. Additionally, veterans with at least a 10% disability will only have to prove $2500 in income from the sales of saltwater products yearly.

SUMMARY: Rule 68B-2.006, F.A.C., (Restricted Species License Exemption) would be added to allow an income exemption from the restricted species endorsement qualification requirements for honorably discharged veterans. The income requirements would be waived for resident veterans honorably discharged between September 11, 2001, and June 30, 2014, who apply for an SPL with an RS endorsement between implementation of the rule and June 30, 2014. After June 30, 2014, the draft rule provides a one year waiver for the income requirement for resident veterans who apply for an SPL and an RS within four years of honorable discharge. The draft rule would also waive the income requirements for one year for any honorably discharged military veteran certified to be at least 10% permanently disabled from service related disabilities. In all subsequent years, a veteran with disabilities will only be required to provide proof of $2,500 in income from the sale of saltwater products instead of the current requirement of $5,000 or 25% of income.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is
required, the information expressly relied upon and described herein: the nature of the rule and the preliminary analysis conducted to determine whether a SERC was required. Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Petitions and Dispositions Regarding Rule Variance or Waiver

WATER MANAGEMENT DISTRICTS

The South Florida Water Management District (District) hereby gives notice on September 13, 2012, the District’s Governing Board issued SFWMD Order No.: 2012-103-DAO-ROW to Richard Singletary and John Singletary (Application No.: 12-0716-4). The petition for waiver was received by the District on July 16, 2012. Notice of receipt of the petition requesting the waiver was published in the Florida Administrative Weekly, Vol. 38, No. 31, on August 3, 2012. No public comment was received. This Order provides a waiver of the District's criteria to allow temporary vehicular use of approximately 22.5 miles of the L-28 right of way to gain access to the Petitioner’s camp/cabin which is located 2 miles from L-28 in Big Cypress; Miami-Dade and Collier Counties. Specifically, the Order grants a waiver from subsection 40E-6.221(9), Florida Administrative Code, and the Basis of Review for Use or Occupancy of the Works or Lands of the District, incorporated by reference in subsection 40E-6.091(1), Florida Administrative Code, which governs the requirement that, except for both private and public utilities, an applicant must own or lease the land lying adjacent to the District Work within works or lands of the District. Generally, the Order sets forth the basis of the Governing Board decision to grant the waiver as follows: 1) the temporary vehicular use will not interfere with the District’s current ability to perform necessary construction, alteration, operation, and routine maintenance activities; and 2) the Order granting a waiver from the subject rule is based upon a substantial hardship.

A copy of the Order or additional information may be obtained by contacting: Juli Russell, South Florida Water Management District, 3301 Gun Club Road, MSC #1410, West Palm Beach, Florida 33406-4680, telephone: (561)682-6268 or by email: jurussel@sfwmd.gov.

1. Acquisition of historic properties or archaeological sites;
2. Development activities, including: restoration, rehabilitation, preservation, and reconstruction, and site-specific planning required for these activities;
3. Archaeological excavation projects, including: research, field investigation, testing, analysis and publication of findings; and
4. Museum exhibit projects for Florida history museums, including: research, exhibit design, fabrication and installation.

Museum Exhibit projects involve development and presentation of exhibitions and educational materials on the history of the human occupation of Florida through use of artifacts, graphics, audiovisual elements, text panels and educational materials. Projects must result in a tangible product related to Florida history.

Property for which an applicant is requesting Special Category grant assistance does not need to be listed in the National Register of Historic Places. However, if a property is not listed in the National Register, the applicant must provide sufficient information to allow its historic significance to be fully evaluated. Such historical information for properties that are designated under a local historic preservation ordinance may be contained in a local Designation Report. For other properties, this information may be contained in a historic sites survey report or other documentation. For those properties where this information is not available, the applicant may include historical research as one of the proposed grant work items. A portion of grant funding (up to $2,000) may be used to pay for this activity. It is not necessary to supply this information for historical museum exhibition projects, unless the museum is located in a historic building.

All proposals for restoration or rehabilitation work must follow the Secretary of Interior’s Standards for the Treatment of Historic Properties, and all proposals for archaeological excavations must follow the Secretary of Interior’s Standards for Archaeological Documentation.

Other preservation activities may also be eligible for grant assistance. If you have a question about the eligibility of a project or work element, please call: The Bureau of Historic Preservation, (850)245-6333 or 1(800)847-7278.

AWARD AMOUNT AND MATCH REQUIREMENTS

The applicant shall request no more than $350,000 in a single application. The minimum grant request amount for the Special Category Grant Program is $50,000. The match requirement for the Special Category Grant Program shall be the greater of $50,000 or 50 percent of the requested grant amount unless as reduced for communities participating in the Rural Economic Development Initiative.
(REDI) program, administered by the Governor’s Office of Department of Economic Opportunity. The match requirement shall be reduced to 10 percent of the requested grant amount for projects within rural communities designated as REDI-qualified in accordance with Sections 288.0656 and 288.06561, Florida Statutes. The community in which the project site is located must be a REDI community at the time of application. A list of REDI qualified counties and municipalities is available from the Department of Economic Opportunity, http://www.floridaredni.com/.

An applicant organization may submit only one (1) Historic Preservation Special Category Grant Application under a single application deadline. State, county or city governments, or universities may submit single applications from more than one division or department during any grant cycle, provided that those divisions or departments are separate and distinct budgetary units, and provided that applications do not address the same facility, project or site.

Grantees may have no more than one (1) previously awarded Special Category grant open at the time of application. Applications from applicants with more than one open Special Category grant shall be declared ineligible by staff and such applications shall be returned to the applicant with a written explanation.

In computing grant match, please note that, while direct administrative costs for conducting grant activities will be considered allowable expenditures, in aggregate, the amount of these costs (whether grant funded and/or part of the match) may not exceed 10% of the grant award request. In valuing in-kind services and donated materials, please be sure to use a value that reflects a typical fair market value you would pay if you were purchasing such services. Volunteer labor is typically valued at the current State of Florida minimum wage.

Please be aware that you may not use expenditures of any kind made prior to the grant period as part of your match.

Match must be fully documented in Attachment A of the application. This documentation will be reviewed in detail by staff. In review of applications, no preference will be given to projects with an overmatch. Match may be in the form of cash, in-kind services, volunteer labor, or donated materials. A minimum of 25 percent of the match must be cash on hand. The match must relate directly to the specific project for which grant funds are being requested and not to activities or expenditures involving other exhibits, or buildings or sites in an associated complex of historic buildings or archaeological sites. The match, as stipulated in the application, must be expended during the grant period on the described project and be fully documented. Any promised match that is not spent may result in reduction of the grant award by a proportional amount.

It is important that an applicant document support for the project for which funding is requested. It is highly recommended that between 10 and 15 letters of support, endorsements, resolutions, and other documentation evidencing local, regional or statewide support for the project be included with the submission of the paper copy of the application.

APPLICATION DEADLINE

Applications will be accepted online between October 15, 2012 and 11:59 p.m., December 15, 2012. In addition to the submission of the online application, to be considered for funding, one paper copy of the application plus attachments and signature forms must be delivered to the Bureau of Historic Preservation, Division of Historical Resources on or before 5:00 p.m., December 15, 2012 OR be clearly postmarked OR show evidence of submission to an express mail service on or before December 15, 2012.

APPLICATION REVIEW AND PROJECT SELECTION

Eligible applications will be evaluated on a competitive basis by the Florida Historical Commission (FHC) in a public meeting scheduled for March 21-22, 2013 (subject to change). The Commission will review applications pursuant to criteria in subsection 1A-39.008(8), Florida Administrative Code, and recommend those applications that should be forwarded to the 2014 Legislature for funding consideration. A level of funding (full or partial) will be recommended for each project. In accordance with the Government Performance and Accountability Act of 1994, the Division of Historical Resources is mandated to increase the number of historic and archaeological properties protected or preserved for public use. As a result, in order to meaningfully benefit as many properties as possible, projects may not be recommended for the full amount requested; rather, the Commission may recommend an amount intended as a significant contribution to the project. The Commission will also rank, in priority, those projects that it recommends.

Unfunded projects included on the State Fiscal Year 2013-2014 Roll Over List will receive no advantage in the competition for 2015 Special Category grant funding. This solicitation is for a new and open competition for eligible applicants and projects. The Florida Historical Commission will recommend to the Secretary of State, the projects that should be forwarded to the Legislature to be considered for funding. This recommendation will not result in any immediate grant award. The award and level of funding for each Special Category project will be subject to specific legislative appropriation.

The Commission will take into consideration which applicants appear best able to utilize funding within 24 months, beginning on July 1, 2014 and ending on June 30, 2016. In this reference, applicants should be careful not to request more funds than they could reasonably expect to expend within a 24-month period. It is important to keep in mind that, for large projects,
five or six months may be required to develop satisfactory plans and specifications before actual work could begin. Plans, specifications, and all contracts must be submitted to the Bureau of Historic Preservation for review and approval before the implementation of any work.

For projects receiving funding from the 2014 Florida Legislature, funds will become available after July 1, 2014, which is the beginning of the 2014-2015 State Fiscal Year. The funds must be fully obligated (under contract) by June 30, 2015. Any unexpended balance of grant funds will revert to the state at the end of the 24-month period, on June 30, 2016.

ADMINISTRATIVE REQUIREMENTS
To receive grant funds, grantees will be required to sign a Grant Award Agreement containing specific administrative responsibilities. Grantees with rehabilitation or restoration projects will also be required to execute Restrictive Covenants that must be recorded with the property deed by the Clerk of Circuit Court in the county where the property is located. These covenants require that, in exchange for state grant funds, the grantee will not undertake modifications to the property (other than routine repairs and maintenance) for a period of ten years without review and approval of plans and specifications by the Division. Additional information regarding these covenants is available from the Bureau on request.

For projects involving properties other than real property (e.g. aircraft, locomotive or marine vessel), the grantee must submit an executed and notarized Preservation Agreement in which the grantee and property owner shall commit to assuming the responsibilities. Grantees with rehabilitation or restoration projects will also be required to execute Restrictive Covenants that must be recorded with the property deed by the Clerk of Circuit Court in the county where the property is located. Additional information regarding these covenants is available from the Bureau on request.

If you have any questions regarding proposed projects or the online application form, please call staff of the Bureau of Historic Preservation for review and approval before the implementation of any work.
