Failure to pay a prescribed toll is a violation of Section 316.1001, F.S. Violators of Section 316.1001, F.S., at Department owned or operated toll facilities are subject to issuance of a UTC by the Department, and those toll facilities owned by a public or private entity for which the Department collects tolls pursuant to an agreement authorized by Section 338.161(5), F.S.

(b) For a toll facility not part of the Florida Turnpike System or otherwise owned by the Department and subject to this rule, all applicable toll rates for the use of the toll facility shall be established by the applicable private or public entity owning the toll facility in accordance with the owner's governing laws, charter, ordinances, resolutions, rules and procedures. Such fact must be established in accordance with paragraph 14-100.002(4)(b), F.A.C., unless If the UTC was issued based on an unpaid toll notice receipt signed by the driver, in which case the requirement of the establishment of this fact by the registered owner is inapplicable.~~

(Substantial rewording of Rule 14-100.003 follows. See Florida Administrative Code for present text.)

14-100.003 Express Lane Tolling.

(1) Purpose. The intent of this rule is to establish criteria for express lane tolling by the Florida Department of Transportation.

(2) Definitions. Unless defined below, words, phrases, or terms contained herein shall have the definitions set forth in Chapters 316, 334, and 338, F.S. As used in this rule the following words, phrases, or terms shall mean:

(a) “Authorized user” means any person operating a motor vehicle in an express lane with an active SunPass transponder or interoperable transponder-based pre-paid account having sufficient funds to pay the applicable toll, or operating a motor vehicle which is exempt from payment of the applicable toll pursuant to Rule 14-100.004.

(b) “Department” means Florida Department of Transportation.

(c) “Electronic toll collection point” means the physical location at which a SunPass transponder or interoperable transponder is read and a separate toll assessed for operation of a motor vehicle in an express lane or general toll lane.

(d) “Express lane” means a travel lane delineated or physically separated from a general use lane or general toll lane within a roadway corridor in which toll amounts are set based on traffic conditions.

(e) “Free-flow” means conditions under which travel is unimpeded and motor vehicles are able to safely operate at speeds of at least 45 miles per hour in the express lanes.

(f) “General toll lane” means a tolled roadway lane within a toll facility that is not an express lane and for which the applicable toll amount for its use is not established by variable tolling.

(g) “General use lane” means an untolled roadway lane.

(h) “Multi-axle” means a vehicle with three or more axles.

(i) “Point of entry” means either the location at which a vehicle enters an express lane, or the location at which a vehicle on an express lane passes an electronic message sign where toll amount information is displayed.

(j) “Point of exit” means either the location at which a vehicle exits an express lane, or the location at which a vehicle on an express lane passes an electronic message sign where toll amount information is displayed.

(k) “Trip” means that portion of an express lane travelled by a vehicle between the point of entry and the point of exit from an express lane.

(l) “Variable tolling” means the setting of toll amounts in an express lane for authorized users based on the toll amount criteria set forth in this rule.

(m) “Violator” means the registered owner of a motor vehicle operated in an express lane without being an authorized user.

(3) Toll Rate Criteria for Variable Tolling:

(a) Toll amounts for authorized users in an express lane will be established and adjusted through the collection and analysis of traffic data such as traffic volume, operating speeds, level of service, and trend data in the express lane, general use lanes, general toll lanes, or a combination thereof, to promote free-flow traffic conditions.

(b) The minimum toll amount for authorized users of an express lane that is not on the Turnpike System will be \$0.50. The minimum toll amount for authorized users of an express lane on the Turnpike System will be at least \$0.25 greater than the SunPass toll amount for the general toll lane.

(c) The maximum toll amount for authorized users of the express lanes on Interstate 95 between Mile Marker 4 and

Mile Marker 12 will not exceed \$1.50 per mile. If those express lanes reach the maximum toll amount on any 45 days in a six month period, the maximum toll amount will increase by \$0.50 per mile effective the first day of the following month. The maximum toll amount for authorized users of those express lanes will increase by \$0.50 in any subsequent six month period meeting the same condition.

(4) Payment of express lane tolls is performed electronically through the SunPass transponder and associated pre-paid account or interoperable transponder and associated pre-paid account.

(5) Multi-axle vehicles are not allowed to operate on an express lane unless otherwise indicated by regulatory signage. If the Department allows multi-axle vehicles on an express lane, the multi-axle toll amount will be equal to the applicable two-axle toll amount divided by two, multiplied by the number of axles.

(6) Display of Toll Amounts:

(a) To the extent feasible, an electronic message sign in advance of each point of entry to an express lane from a general use lane will display the current toll amount from the point of entry to one or more exit locations. The current toll amount also will be displayed for one or more additional exit locations if travel is continued in the express lanes beyond the exit locations displayed on the signage prior to the point of entry.

(b) To the extent feasible, an electronic message sign in advance of each point of entry to an express lane from a general toll lane will display the current additional toll amount for the express lane above the toll amount for the general toll lane, from the point of entry to one or more exit locations.

(7) Violators shall be charged \$25.00 per trip plus the applicable toll amount. A violator must pay the total invoice amount within 30 days from the date on the invoice. If an invoice is not paid in full within 30 days from the date on the invoice, a second invoice will be sent. If the toll violation amounts are not paid within 30 days after the date on the second invoice, a Uniform Traffic Citation will be issued or the amounts owed by the violator will be pursued to collection.

14-100.005 Video Billing.

(1) Purpose. The purpose of this rule is to establish the process of video billing on the Florida Turnpike System and other Department owned toll facilities and on toll facilities

owned by a public or private entity and for which, the Department collects tolls pursuant to an agreement between the Department and the private or public entity authorized by Section 338.161(5), F.S., unless otherwise indicated by this rule. Video billing provides an image-based method for the collection of tolls without the need for a transponder, while improving efficiency, reducing customer delay, and enhancing safety.

(2) through (5) No change.

(6) TOLL-BY-PLATE Toll Rate. TOLL-BY-PLATE toll customers shall pay the TOLL-BY-PLATE toll rate established in Rule 14-15.0081, for each facility that offers TOLL-BY-PLATE toll collection. For a toll facility not part of the Florida Turnpike System or otherwise owned by the Department and subject to this rule, all applicable toll rates for the use of the toll facility shall be established by the applicable private or public entity owning the toll facility in accordance with the owner's governing laws, charters, ordinances, resolutions, rules and procedures. The private or public entity shall be responsible for establishing toll rates on its own toll facilities.

(7) through (8) No change.

(9) Unpaid Invoice. A TOLL-BY-PLATE customer has 30 calendar days from the date on the invoice to pay the total toll amount and the administrative charge. If the invoice has not been paid in full within those 30 days, a second invoice with an additional administrative charge will be sent. If the total amount of unpaid tolls and administrative charges is not paid within 30 days after the date on the second invoice notice, a Uniform Traffic Citation will be issued created and sent to the customer for each individual unpaid toll transaction associated with the original invoice or the amount owed will be sent to a collection agency or attorney for collection.

PURPOSE AND EFFECT: The Rule proposes to facilitate public comment at board meetings.

SUMMARY: Public comment.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

62-780.650 Risk Assessment.

(1) If the PRSR elects to perform a risk assessment, then ~~d~~During the risk assessment process, the PRSR is encouraged to have discussions with the Department at various decision points to establish applicable exposure factors, relevant receptors, and risk management options based on the current and projected land use(s) at the site. If a risk assessment is performed, the following risk assessment task elements shall be performed, as applicable ~~appropriate~~:

(a) An exposure assessment that identifies pathways and routes by which human and environmental receptors may be exposed to contaminants and determines levels of contaminants to which human and environmental receptors may be exposed. The exposure assessment shall:

1. Identify actual and potential exposure pathways and routes;

2. Identify actual and potential human and environmental receptors for each exposure pathway, and sensitive sub-populations;

3. Determine expected concentrations of contaminants to which actual and potential human and environmental receptors may be exposed, with the most recent sampling of representative monitoring wells having occurred no more than 270 days prior to Risk Assessment Report submittal;

4. Determine exposure factors (e.g., exposure duration, exposure frequency, body weight and ingestion rate) based on:

a. Site-specific characteristics, including consideration of current and plausible projected land uses. Institutional and engineering controls may be proposed in order to ensure that exposure factors do not change; or

b. Non-site-specific exposure factors contained in the ~~most current U.S. Environmental Protection Agency~~ USEPA Exposure Factors Handbook (2011 Edition), hereby adopted and incorporated by reference, (<http://www.flrules.org/Gateway/reference.asp?No=Ref-03403>), or other information on exposure factors applicable to a Florida exposure scenario.

5. Estimate the contaminant doses received by relevant receptors.

(b) A toxicity assessment that determines human health and environmental criteria for contaminants found at the site.

1. The criteria, taking into consideration acute and chronic health effects associated with short-term and long-term exposure, shall be applicable to exposure pathways and routes identified in the exposure assessment, including, as applicable appropriate:

(b)1.a. through d. No change.

2. Input assumptions different from those used to develop default CTLs may be used to propose alternative CTLs. The appropriate equations from Chapter 62-777, F.A.C., must be used in calculating the alternative CTLs. Toxicity values for quantifying human health risks and for developing alternative CTLs may be taken from the following information sources listed in Rule 62-780.100, F.A.C., tiers of information sources, in order of preference precedence.

a. Tier 1, in order of preference precedence:

(I) USEPA Integrated Risk Information System (IRIS) database, or

(II) ~~The~~ Provisional Peer Reviewed Toxicity Values (PPRTV) derived by EPA's Superfund Technical Support Center for the USEPA Superfund program.

b. Tier 2. If a toxicity value is available from more than one source in this tier, the value based upon the most recent review of the toxicological literature and accompanying dose-response analysis should be selected:

(I) Agency for Toxic Substances and Disease Registry Minimal Risk Levels (MRLs),

(II) Tolerable Upper Intake Levels issued Upper intake limits developed by the Institute of Medicine, National Academy of Sciences,

(III) USEPA Health Effects Assessment Summary Tables (HEAST),

(IV) Human Health Benchmarks for Pesticides and other toxicity values in technical documents available from the USEPA Office of Pesticide Programs, or

(V) USEPA Office of Water, Drinking Water Regulations and Health Advisory Levels.

c. Tier 3. If a toxicity value is available from more than one source in this tier, the value based upon the most recent review of the toxicological literature and accompanying dose-response analysis should be selected:

(I) ~~The~~ California Environmental Protection Agency Office of Environmental Health Hazard Assessment's Chronic Reference Exposure Levels and Cancer Potency Values,

(II) World Health Organization Tolerable Daily Intake values,

(III) International Toxicity Estimates for Risk ~~Assessment,~~

(IV) Values listed as "Withdrawn" in the IRIS database Values, or

(V) Values from sources ~~other than Tiers 1 or 2~~ that are either selected by FDEP or proposed by a PRSR and accepted by FDEP that meet statutory requirements.

(c) through (d) No change.

(2) through (6) No change.

(7) If ~~a the~~ Risk Assessment Report or Risk Assessment Report Addendum is incomplete in any respect, or is insufficient to satisfy the objectives set forth in subsection 62-780.650(5), F.A.C., the Department shall inform the PRSR pursuant to paragraph 62-780.650(6)(b), F.A.C., of the basis for a rejection or determination of insufficiency, including the technical and scientific basis for any such rejection. The PRSR shall submit to the Department for review an electronic or paper copy of a Risk Assessment Report Addendum that addresses the deficiencies within 60 days after receipt of the notice.
