RULE NO.: 64B8

RULE TITLE: 3.003 Renewal Fees

PURPOSE AND EFFECT: The proposed rule amendment is intended to reduce the licensure renewal fee for one biennial period.

SUMMARY: The proposed rule amendment reduces the biennial renewal fee from $360 to $250 for those physicians renewing licenses during the calendar years 2015 and 2016.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature because the reduction of renewal fees clearly constitutes a reduction in regulatory costs and business. Furthermore, it will not in any way increase personnel costs, it will not result in decreased profit opportunities, and will not require any specialized

knowledge to comply. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

64B8-3.003 Renewal Fees.

(1) No change.

(2) The following renewal fees are prescribed by the Board:

(a) Biennial renewal fee for physicians licensed pursuant to Sections 458.311, 458.3115, 458.3124, and 458.313, F.S., for physicians holding a limited license; and for physicians holding a medical faculty certificate as a distinguished medical scholar, a temporary certificate for practice in areas of critical need, a public psychiatry certificate, or a public health certificate shall be $360.00. However the following exceptions shall apply:

1. If a physician holding an area of critical need license or a limited license submits a notarized statement from the employing Agency or institution stating that the physician will not receive monetary compensation for any service involving the practice of medicine, said fee shall be waived.

2. If the licensee is converting a full, unrestricted license to a limited license, pursuant to Section 458.317(4), F.S., the licensure renewal fee shall be waived.

3. If the licensee is either a resident physician, assistant resident physician, fellow, or intern in an approved postgraduate training program, the biennial renewal fee shall be $220.00.

RULE NO.: 64B8-9.0141 Standards for Telemedicine Practice

PURPOSE AND EFFECT: The proposed rule amendment is intended to clarify subsection (4) with regard to controlled substances for hospitalized patients through telemedicine.

SUMMARY: The proposed rule amendment clarifies subsection (4) by making it clear that ordering controlled substances through telemedicine for hospitalized patients is not prohibited by the rule.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST AND LEGISLATIVE RATIFICATION: The agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the agency. The agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. Subsection 64B8-9.0141(4), F.A.C., currently precludes the prescribing of
controlled substances through the use of telemedicine. While the current rule does not preclude the ordering of controlled substances to hospitalized patients, the current prescribing prohibition has created doubt amongst licensees and pharmacists because of the ambiguity created by the term “prescribing” as defined in Sections 465.003(14) and 893.02(22), Florida Statutes. The rule amendment in question does not prescribe the behavior or actions of any regulated entity or licensee but rather clarifies that physicians can indeed order controlled substances for hospitalized patients through the use of telemedicine. Furthermore, it will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, will not require any specialized knowledge to comply, and will also ultimately decrease any direct or indirect regulatory costs. This rule amendment actually reduces perceived regulatory restrictions and allows for hospitals to continue saving money through the use of telemedicine care for hospitalized patients. No person or interested party submitted additional information regarding the economic impact at that time but multiple attorneys representing hospitals and hospital groups raised this issue of concern with the Board and the Board acted in response to those concerns.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NOS.: RULE TITLES:
69C-4.003 Definitions
69C-4.0045 Convenience Fees
69C-4.009 Annual Reporting to the Chief Financial Officer

PURPOSE AND EFFECT: Paragraph 215.322(3)(c), F.S. allows for service fees on credit card and other electronic transactions with the state to be paid by a means other than state warrant if approved by the CFO. This rule provides approval to offset convenience fees paid by a card holder against service fees charged by a bank processing a transaction.

SUMMARY: Convenience fees to offset service fees are authorized as a method for paying service fees for credit card transactions in which the State of Florida is the payee.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of $200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: There is no impact of the payees because the convenience fee is already charged to the payee pursuant to Section 215.322, F.S. The proposed rule simply allows offset so that state agencies don’t have to receive the convenience fees from the processing bank and then issue a warrant to the bank to pay the fees back.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

The above referenced F.A.C. addresses the requirement that dishwashing facilities for manually washing, rinsing and sanitizing equipment and utensils is provided. During Florida’s 2014 legislative session, HB 5201 was passed. This bill allows children receiving PPEC services to voluntarily enroll in Florida’s MMA program upon federal approval. This bill is subject to signature by Florida’s Governor, and this notice is subject to withdrawal if the bill does not become law. 

The purpose of the Florida Medicaid PPEC services is to enable recipients under the age of 21 years with medically-complex conditions to receive medical and therapeutic care at a non-residential pediatric center. Currently under Florida law, children receiving PPEC services are excluded from participating in the MMA program and, therefore, would be unable to receive services from an MMA plan such as the Children’s Medical Services Network. The proposed amendment to the 1115 MMA Waiver will allow for those children receiving PPEC services and currently enrolled in the Children’s Medical Services Network or another MMA plan to remain in that plan without disruption of services, ensuring their continuity of care and participation in the MMA program. It would also allow children not currently enrolled in a Medicaid managed care plan to select an MMA plan to take advantage of the higher standards required of the plans and the expanded benefits offered by the plans.

SUMMARY DESCRIPTION OF THE 1115 MMA WAIVER: Florida’s 1115 Research and Demonstration Waiver was initially approved by Federal CMS October 19, 2005 to operate for the period from July 1, 2006 to June 30, 2010. Implementation of the waiver occurred in Broward and Duval Counties on July 1, 2006 with expansion to Baker, Clay and Nassau Counties occurring July 1, 2007. Federal CMS granted temporary extensions of the waiver until December 15, 2011, when final approval of the extension request was granted, for the period from December 16, 2011 to June 30, 2014. On June 14, 2013, Federal CMS approved an amendment to the waiver that allows for implementation of an improved statewide model of managed care in 2014 and the continuation of the Low Income Pool program. The amendment also changed the name of the waiver to the Florida Managed Medical Assistance Waiver.

On November 27, 2013, the Agency submitted another three-year waiver extension request to Federal CMS to extend Florida’s 1115 MMA Waiver for the period July 1, 2014 to June 30, 2017. With the submission of the three-year waiver extension request, the state is seeking federal authority to extend Florida’s MMA Waiver for the period July 1, 2014 to June 30, 2017. The waiver is designed to implement a new statewide managed care delivery system without increasing costs and to continue the Low Income Pool program. The program is guided by principles designed to improve coordination and patient care while fostering fiscal responsibility.

The MMA program will provide primary and acute medical care for the majority of Medicaid recipients through high quality, competitively selected managed care organizations. Moving from a fee-for-service system to the MMA program, the program increases consumer protections as well as quality of care and access for Floridians in many ways including:

- Increases recipient participation on Florida’s Medical Care Advisory Committee and convenes smaller advisory committees to focus on key special needs populations;
- Ensures the continuation of services until the primary care or behavioral health provider reviews the enrollee’s treatment plan (no more than sixty calendar days after the effective date of enrollment);
- Ensures recipient complaints, grievances and appeals are reviewed immediately for resolution as part of the rapid cycle response system;
• Establishes Healthy Behaviors programs to encourage and reward healthy behaviors and, at a minimum, requires plans offer a medically approved smoking cessation program, a medically directed weight loss program and a substance abuse treatment plan;
• Requires Florida’s External Quality Review Organization to validate each plan’s encounter data every three years;
• Enhances consumer report cards to ensure recipients have access to an understandable summary of quality, access, and timeliness regarding the performance of each participating managed care plan;
• Enhances the plan’s performance improvement projects by focusing on six key areas with the goal of achieving improved patient care, population health and reducing per capita Medicaid expenditures;
• Enhances metrics on plan quality and access to care to improve plan accountability; and
• Enhances the state’s comprehensive continuous quality improvement strategy, focusing it on all aspects of quality improvement in Medicaid.
